Deciphering a formation is no easy task.

Yan Su was also appointed as a Guardian General, and the Flame Wind Ancient Country had given him an Array Talisman, entrusting him with the method to control it.

"Buzz." The thick Dark World membranous wall sealed the entire world's entrance.

Moreover, a mighty Black River roared and enveloped the surroundings of the world entrance.

Luo Feng was also standing above the Black River.

"Thud." "Thud." "Thud." Having lost its formation controller and its power greatly reduced, some creatures with Primordial Bloodlines were forcefully bearing the suppression of the formation, attacking the Dark World membranous wall at the entrance.

Suddenly, a claw instantly penetrated the Dark World membranous wall.

Outside the Dark World membranous wall, however, the rolling Black River suppressed it! The claw was forced back.

Sounds of loud explosions!

Under the significantly weakened dual suppression of the formation and the Dark World membranous wall, those creatures with Primordial Bloodlines managed to barely penetrate the Dark World membranous wall, causing loud noises that shook the ground.

But the Black River rolled back and forth, easily pushing them back.

The Dark World membranous wall also healed in the blink of an eye, continuing to encapsulate the creatures with Primordial Bloodlines.

"I thought I would need to intervene personally," Luo Feng watched the scene.

His intervention this time was also to clarify some detailed situations regarding the suppressed world entrance.

This world, named Xiangjie.

Inside Xiangjie, were some creatures with Primordial Bloodlines cultivated by the Primogenitor Yan Feng.

Primordial Bloodlines are originally from the true Primordial Life beyond the Braided Cage! The bloodline being too strong and terrifying, even a Godly King, if touched directly, would likely be completely contaminated and lose themselves.

Therefore, Primogenitor Yan Feng, Ancestral God of Thunder, and others nurtured some special creatures, many of which are not native to the Land of Origin.

Through the natural propagation of these creatures, they continuously dilute and reduce the 'Primordial Bloodline.'

As in Xiangjie's interior, live what are known as Primal Chaos Realm level creatures! Like the golden scale beetle carcass that Master once gave to Luo Feng, it was a very powerful Primal Chaos Realm creature.

What are clearly Primal Chaos Realm creatures, yet possess strength comparable to the ordinary Godly King.

"Inside Xiangjie, there are Primal Chaos Realm level creatures with Primordial Bloodlines. These belong to the weakest creatures with Primordial Bloodlines, and their bloodlines are the thinnest," Luo Feng thought, "That's why they only assigned a Transcendence of Primal Chaos Realm to guard here."

The Flame Wind Ancient Country also has some creatures with stronger Primordial Bloodlines, born with emperor level strength. But those creatures are heavily imprisoned, all personally guarded by powerful Godly Kings.

"According to intelligence, Primal Chaos Realm creatures, even with Primordial Bloodlines, because of their low intelligence… generally do not match the Primal Chaos Realm cultivators who cultivate Primordial Bloodlines," Luo Feng thought.

Transcendence of Primal Chaos Realm, such as Desert Wind City Lord, after all, have high intelligence and high realm. They cultivate entry into Primordial Bloodlines, effectively becoming another kind of 'Primordial Bloodline creature.'

"Suppressing Primal Chaos Realm creatures is quite effortless," Luo Feng thought, and a massive amount of Black River merged into the 'Dark World membranous wall.' When fully fifty billion streams of Black River merged into the Dark World,

those creatures with Primordial Bloodlines could no longer smash through the membranous wall.

"I had prepared to intervene personally. Even prepared using the Star Tower to suppress the world entrance. It seems now… it's unnecessary," Luo Feng sat down cross-legged.

He had stormed into the border town, killed Yan Su, the Flame Wind Ancient Country could mostly just administer some punishments according to the law, which wasn't much. After all, conflicts among the powerful are quite normal in the Land of Origin.

But if it caused a group of creatures with Primordial Bloodlines to escape, the punishment would be severe.

Time passed.

One by one, the creatures with Primordial Bloodlines, originally still furiously attacking the Dark World membranous wall, but since they couldn't break through continuously, with low intelligence, these crazed creatures soon left.

"Now, let's see what punishment the Flame Wind Ancient Country will have," Luo Feng thought, while his avatar far in Chu Capital immediately went to visit his master, Emperor Chu.

Chapter 160: Volume 3, Chapter 41: Luo Feng and His Master

Palace of Emperor Chu.

The burly figure sitting crossed-legged inside the hall looked at Luo Feng walking in and couldn't help but smile, "My disciple, have you come to see me about the matter with Xiangjie City?"

"That Yan Su had a grudge with the disciple, which prompted the disciple to act," Luo Feng said respectfully, "The disciple was reckless."

"Cultivators, who doesn't have a temper?"

Emperor Chu shook his head and smiled, "However, as my disciple, you always come to me because of some grievances, but you never come for cultivation matters. Do you also think... that I'm not good at teaching disciples?"

Luo Feng quickly shook his head, "No, I think Master is very good at teaching disciples."

"Very good?" Emperor Chu was surprised.

How do I not know myself that I'm good?

"How am I very good?" Emperor Chu pursued, keen to see how the disciple would explain.

"Last time Master summoned the disciple, he inquired about the disciple's cultivation puzzle. The disciple has been painstakingly contemplating the 'Trinity Form' to no avail," Luo Feng stated.

"It was Master who gifted the disciple a corpse of a golden scale

beetle, allowing the disciple to research a more sophisticated 'Ten Directions World Form,' to accumulate enough experience before studying the relatively simple Trinity Form."

"The disciple also took the Primordial Crystal Spirit Fruit previously bestowed by Master, and upon careful enlightenment, indeed made a breakthrough," Luo Feng continued, "And as a result, his power greatly increased."

The Primordial Crystal Spirit Fruit and the corpse of the golden scale beetle were both gifted by the Master.

Having achieved the Trinity Form, naturally, I must thank Master.

Moreover, the corpse of the golden scale beetle even helped Morosa become a Godly King. Morosa now controls six branches of the Great Dao of Destruction Origin, which I can directly observe and contemplate, greatly aiding my cultivation in the Great Dao of Destruction Origin.

Master's gifts led to great advancements on both life and destruction paths of my cultivation; Luo Feng felt that with Master's presence, his cultivation path became much smoother.

"From the sound of it, you becoming the first to transcend the Primal Chaos Realm was also due to my guidance," Emperor Chu found it amusing too.

He hadn't instructed in detail, merely bestowed treasures and provided some pointers, and the disciple had broken through.

Emperor Chu also understood.

It was the extraordinary talent of the disciple; even without his help, it might have taken the disciple a bit more time to understand it on his own.

"As for the matter of Xiangjie City, you don't need to worry too much." Emperor Chu ended the small talk, "As long as you make sure that no Primordial Bloodline creatures escape, the punishment for this matter will ultimately be limited."

Luo Feng nodded, "I am currently suppressing that world entrance, so those Primordial Bloodline creatures cannot escape."

"However, you should still be more cautious in your actions in the future," Emperor Chu said. "If the Primordial Bloodline creatures were to escape, then the punishment would be severe, severe enough to affect your cultivation path."

"Always remember, not all of Flame Wind Ancient Country's punishments can be shielded by me! After all, I am not the reigning emperor," said Emperor Chu.

"The disciple understands," Luo Feng responded.

His confidence to act came in part from his own strength.

Furthermore, as a palace-class Godly King Level Secret Treasure, the Star Tower was naturally adept at suppression and sealing! Luo Feng could sense that the true power of the Star Tower far exceeded that of a First Realm of Godly King palace treasure, and even with his full effort, he couldn't shake it the slightest bit.

Emperor Chu looked at Luo Feng, with his third disciple's exceptional talent, creating his own Secret Techniques and becoming the first to transcend the Primal Chaos Realm, it was not impossible for his future strength to rival his own.

"Your potential and talent are both very high, and you will come into contact with many things in the future," Emperor Chu addressed Luo Feng, "I won't hide it from you, out of the Imperial Clan's thirteen emperors, except for Emperor Qing, the other twelve when they fight... they don't hesitate to do whatever it takes."

Luo Feng felt a shock in his heart.

"Do whatever it takes?" Luo Feng looked at his master.

"Out of the thirteen emperors of the Imperial Clan, five cultivated through the power of Primordial Force and Primordial Materials, and I, your master, also cultivated through the power of Primordial Force," Emperor Chu explained to Luo Feng. "The other six cultivated through the Primordial Bloodline."

Luo Feng listened attentively.

He indeed had very little understanding of the intelligence related to the cultivation of emperors; he only knew that some emperors cultivated the Primordial Bloodline. As for who practiced it and how many, he was not clear on the specifics.

"Primordial Bloodlines affect the physical body and even corrupt the soul," said Emperor Chu. "Those with Primordial Bloodlines generally have worse temperaments."

"The twelve emperors have many internal conflicts, but ultimately, they are divided into factions."

"We five who cultivate through Primordial Force and Primordial Materials form one faction. The six who cultivate through the Primordial Bloodline form another faction," Emperor Chu stated. "The current Imperial Monarch, 'Emperor Fu,' is quite special."

"Emperor Fu once cultivated the Primordial Bloodline, reaching the strength of an emperor. Later on, he chose to reincarnate, abandoning that path," Emperor Chu explained. "Reincarnation, while it can free him from the physical corruption and soul pollution, cannot erase the pollution of memories."

"After abandoning the path of the Primordial Bloodline, Emperor Fu's cultivation in formation techniques, refining his body with formations, re-achieved the status of an emperor," said Emperor Chu. "He is very likely to be the next Emperor Qing."

Luo Feng absorbed these secrets.

The current emperor had reincarnated?

Based on my intelligence, those who relied on the Primordial Bloodline had the fastest strength increase but also the most problems later on. Those who cultivated through the power of Primordial Force and Primordial Materials were also potent, with no hidden dangers.

Not relying on any external aid for cultivation is the hardest path. Emperor Fu is following this path, particularly through formation techniques.

"Emperor Fu has connections with the Primordial Bloodline faction, as he was once a member. Now that he has abandoned that path and remains completely sober, all sides tend to support him as the emperor," Emperor Chu disclosed.

Luo Feng understood.

```

"On the surface, Emperor Chu governs, with the other eleven emperors divided into two major factions, while Emperor Qing remains aloof,"

"But in reality, aside from Emperor Qing, the other twelve are all competing against each other."

Emperor Chu looked at Luo Feng, "It's not just us, the monarchs of the Thunder Ancient Country, and some truly powerful ancient beings on the Land of Origin. Each one is competing, for the path of the Great Dao, one must compete."

"Even Primogenitor Yan Feng and Primogenitor of Thunder, these two ancestors are also groping in the dark, they too are battling for their lives," Emperor Chu looked at Luo Feng.

Luo Feng sensed a lot of information.

Primogenitor Yan Feng and the Primogenitor of Thunder should both be beings who have transcended the Ultimate Realm of God King. The legacies and resources they left behind in the two Ancient Countries are immensely vast.

They too are battling for their lives?

"Everyone will die."

Emperor Chu looked at Luo Feng, "Even the two ancestors might die at any moment."

Luo Feng's heart trembled.

"Want to live?" Emperor Chu looked at Luo Feng, "One must compete,
```

one must become stronger!"

"You should know that in the Primordial Cosmos there is reincarnation," Emperor Chu looked at Luo Feng, "The same principle applies to the source world governed by the highest rules, there is also reincarnation! One day in the future, the entire source world will be destroyed."

"Those who have not reached the strength of an emperor will all die, no one can save them," Emperor Chu looked at Luo Feng, "And this is just the first calamity."

Luo Feng was shocked, yet he felt it was only natural.

In his cultivation of the life and destruction Origin Great Dao, he vaguely sensed the operation of the highest rules, all creatures will ultimately head towards destruction, and only through destruction will there be rebirth.

"The cycle of the source world is unimaginably long. For many cultivators, it is enough to live for such a prolonged period," said Emperor Chu, "But for some powerful ancient existences on the Land of Origin, they are not content. They are only a step away from transcendence, even to the point of leaving the source world to see more vistas. Of course, they will compete."

"The day of great destruction of the source world is the first calamity, and it is also the calamity you will face in the future," said Emperor Chu, "Luo Feng, because you possess high talent and understanding, I am telling you all this. Ordinary beings in the Primal Chaos Realm don't need to worry about these things because they have no hope of surviving the calamity."

"Thank you, Master," said Luo Feng.

He had long heard that aside from the overt powers on the Land of Origin, many forces in the shadows were stirring trouble as well, like the official members of the Two Realms Palace, with the lowest being at the Second Realm of Godly King.

Previously, Luo Feng had wondered why, upon reaching the level of

the Second Realm of Godly King, did one have to lurk in the shadows, why did they have to stir up trouble and compete? Clearly, those ancient beings were also competing.

Competing for opportunities, competing for survival.

The struggle for the Great Dao is naturally cruel.

"Cultivate well, only by becoming stronger can you compete for more opportunities," Emperor Chu said, "You must be strong enough before the great destruction of the source world, otherwise all is in vain."

Luo Feng nodded. Fate is cruel. If a creature is born close to the great destruction, the cultivation time left for this creature will be very short.

"Disciple will remember, disciple takes his leave," Luo Feng said immediately.

Luo Feng also understood that many secrets were probably inaccessible to ordinary Godly Kings! As the direct disciple of an emperor, the emperor shared so much only because he saw that Luo Feng had sufficient talent.

"I hope he can reach the strength of an emperor before the destruction of this source world," Emperor Chu silently hoped.

Being able to create secret techniques, to achieve Transcendence of the Primal Chaos Realm! Emperor Chu was very pleased.

With his talent and understanding, there is a great hope of reaching the Second Realm of Godly King, and naturally, there is a sliver of hope to strive for the level of an emperor.

…

In Flame Wind Ancient Country, Yan Capital:

Emperor Yan is the first emperor of the entire Flame Wind Ancient Country, whose prestige once deterred the entire Land of Origin. However, with the emergence of one emperor after another, especially with the appearance of 'Emperor Qing', his influence

naturally declined significantly.

"Emperor," Yan Su spoke with the utmost respect, "That Luo He infiltrated the heavily fortified border city 'Xiangjie City', killed several of my avatars, and seized my treasures."

Before him, a majestic flaming figure stood. He bore a human-like physique, yet with enormous wings of flame, the fire on his wings so intense that Yan Su dared not look directly, and he also had a long, scaled tail.

His very presence twisted Yan Su's spiritual will.

Emperor Yan was an emperor who cultivated the Primordial Bloodline, and the Primordial Bloodline within him was naturally extremely powerful and had a horrifyingly potent contaminating effect.

"Has any creature with the Primordial Bloodline escaped?" the voice of Emperor Yan resounded.

"No," Yan Su said. When he lifted control over the portal to this world, he had deliberately created a disturbance to attract as many creatures with the Primordial Bloodline as possible.

"Useless!"

Emperor Yan's voice was cold and indifferent, "You needn't bother with this matter anymore. Once the Heavenly Task is over, I will handle it."

At present, all thirteen branches of the Imperial Clan are undertaking Heavenly Tasks, which are matters of great importance.

"Yes," Yan Su respectfully retreated.

"A disciple of Emperor Chu, capable of achieving the first Transcendence of Primal Chaos Realm? If he has high enough talent, he needs to be kept in check!" Emperor Yan was not the least bit pleased, Luo He's strength was of no benefit to the lineage of Emperor Yan.

In the past, he looked down on Luo He, but now Luo He was gradually showing his threat, and naturally, Emperor Yan also turned his attention towards Luo He.

The strength of Luo He meant that Emperor Chu's lineage became stronger, that Emperor Chu's lineage would gain more resources, and consequently, the other lineages would have fewer resources.

```
```

Chapter 161: Season 3 Episode 42 Rankings and Penalties (Season Finale)

Flame Wind Ancient Country, the border city 'Xiangjie City' was as bustling as ever, with numerous cultivators going about their normal lives.

The underground palace of the Garrison Mansion.

Luo Feng sat cross-legged in the great hall, with a full five billion Black Rivers forming the 'Black River World,' suppressing the world's entrance, the creatures of the Primordial Bloodline had long since departed.

"Facing the Great Dao of Life Origin, the deeper I comprehend, the more I vaguely sense that countless lives will eventually head towards destruction. It turns out... even this giant Braided Cage governed by the supreme rules will meet its great destruction," Luo Feng smiled.

Being privy to this secret did not bother Luo Feng in the slightest.

Back on Earth, when he was still weak, people were born, grew old, fell ill, and died, with many not living past a hundred years.

And what about him?

He had grown all the way up to now, even having experienced the reincarnation of the Primordial Cosmos! And the destruction of the entire Origin World, from the present day, who knows how many Reincarnation Eras there might be.

"Living until the great destruction of the entire Origin World would

be a matter of pride, what's there to be dissatisfied with?" Luo Feng had long been content, enjoying every single day of his cultivation.

Cultivation was never for that final moment.

But for every moment along the journey of cultivation!

He was pondering the essence of the world's operation while also elevating the essence of his own life, this process in itself was filled with endless joy.

...

Time passed, and the deadline for the Heavenly Task was about to arrive.

Luo Feng also left an Avatar on the Blood Spirit Star, carrying a full three billion Black Rivers, for Luo Feng worried that someone might take the opportunity to contend for the Blood Spirit Golden Pearls while he was tasked with suppressing the world's entrance. Three billion Black Rivers were enough to discourage the other Transcendents of the Primal Chaos Realm.

The Blood Spirit Star indeed welcomed its third Eruption Period! During the Eruption Period, Luo Feng enveloped that Blood Spirit Star with the Black River World and obtained a total of 53 Blood Spirit Golden Pearls this time.

Chu Capital, Luo Feng's Cave Dwelling.

"Brother Luo He, today is the last day of the Heavenly Task, the rankings are about to come out," Emperor Chu Yu sat opposite Luo Feng, quite nervous at the moment, for the resources of the Heavenly Task were too important to him.

"Don't worry, you've made all the efforts you could, your anxiety won't change the rankings," Luo Feng was leisurely sipping his wine.

"This time, for the Blood Spirit Golden Pearl task, I'm indisputably first, and by a large margin," Emperor Chu Yu looked at Luo Feng, "The third eruption of the Blood Spirit Star this time, all the first-grade marquises wanted to buy those Blood Spirit Golden Pearls.

Brother Luo He, you haven't sold a single one, those marquises might bear a grudge because of that."

Luo Feng continued pouring wine, smiling, "Do you think I care about them?"

Emperor Chu Yu laughed as well.

He knew his friend's strength! Even among the First Realm of Godly King beings in the Land of Origin, Luo He was considered one of the strongest.

First-grade marquis of the Imperial Clan? There are nearly a hundred first-grade marquises in the Imperial Clan's thirteen lineages!

"This time there are three sub-tasks for the Heavenly Task, my own two sub-tasks are third and fourth," Emperor Chu Yu said, "The sub-task you helped with, Brother Luo He, is absolutely first."

"Combined the three sub-tasks, I don't know which place I'll take," Emperor Chu Yu pondered.

"I heard Marquis Chu Ying was first in both of his sub-tasks?" Luo Feng inquired.

"Yes."

Emperor Chu Yu nodded, "Marquis Chu Ying didn't rely on any external objects either, but understood the Dao just like you, Brother Luo He. His performances in the two sub-tasks were quite impressive; the next Godly King of our Emperor Chu's Lineage of the Imperial Clan will likely be him."

Luo Feng nodded, as Emperor Qing had also once praised Marquis Chu Ying, indicating his potential and understanding.

"Of course, in terms of understanding and potential, he is far from matching you, Brother Luo He," Emperor Chu Yu sighed, "Brother Luo He, you created a Secret Technique and became the first to Transcend in the Primal Chaos Realm, acknowledged by all forces in the Land of Origin. It won't be long before you become a Godly King."

Marquis Chu Ying's potential and understanding were considered excellent among the Imperial Clan.

But Luo Feng was absolutely the first among all in the Primal Chaos Realm.

"Becoming a Godly King is not so easy," Luo Feng shook his head, having comprehended three branches of the Great Dao of Life Origin and two branches of the Great Dao of Destruction Origin, even if he had used the Primordial Crystal Spirit Fruit and practiced some Secret Techniques, he still had not made a breakthrough.

Time slowly passed.

Not just Emperor Chu's Lineage, but all thirteen lineages of the Flame Wind Ancient Country's Imperial Clan, all the first-grade marquises were waiting for the rankings of the Heavenly Task.

In a certain moment——

The thirteen lineages of the Flame Wind Ancient Country's Imperial Clan simultaneously revealed the rankings of the Heavenly Task.

"It's out, the rankings are out," all sides were paying attention to the news.

...

Chu Capital.

"The Two Realms Palace, such a waste!" Marquis Chu Chang looking at the final rankings; among the seven first-grade marquises from Emperor Chu's Lineage, Marquis Chu Chang was ranked fourth.

Being in the top three would have meant a better allocation of resources.

The resources for the fourth rank were indeed greatly diminished.

"In my individual tasks, I was fourth and fifth. For the Blood Spirit Golden Pearl task, I was third," Marquis Chu Chang shook his head;

he was of average level, and that's why the Two Realms Palace had chosen him.

Unsure of his own prospects, he was willing to share ample resources.

"Not being in the top three means I don't need to give anything to the Two Realms Palace," Marquis Chu Chang snorted, cursing the Two Realms Palace's incompetence while also feeling like he had made some easy gains.

...

Luo Feng's Cave Dwelling.

Emperor Chu Yu and Luo Feng were together, waiting for the final rankings.

"Second!" Emperor Chu Yu's hand trembled so much that his wine cup fell; he excitedly looked at Luo Feng, "I'm ranked second! As a newly promoted first-grade marquis, I actually ranked second!"

"Marquis Chu Ying is first?" Luo Feng asked.

"Yes, he's first, and I'm second," Emperor Chu Yu was exhilarated, "Marquis Chu Feng is third, Marquis Chu Chang fourth, Marquis Chu Ji fifth, Marquis Chu Lin sixth, Marquis Chu Yuan seventh."

Luo Feng nodded, it was all within expectations.

Chapter 162: Season 3 Episode 42 Rankings and Penalties (Season Finale) Part 2

Marquis Chu Ying, both individual subtasks ranked first, and the Blood Spirit Golden Pearl task ranked second!

Emperor Chu Yu, one individual subtask ranked third and the other fourth, with the Blood Spirit Golden Pearl task being absolutely first.

Marquis Chu Feng, one individual subtask ranked second and the other third, with the Blood Spirit Golden Pearl task ranking fourth due to the intervention of the Lord of Yuan Xiu Mansion.

These are the top three.

Ranking at the bottom is Marquis Chu Yuan, who due to cultivating the Primordial Bloodline, ranked seventh in both individual subtasks assessing insight and potential! The Blood Spirit Golden Pearl task was zero, leaving him still at the bottom.

In the Flame Wind Ancient Country, it is generally forbidden to cultivate the Primordial Bloodline in the Primal Chaos Realm. Even at the First Realm of Godly King, there are very few who cultivate the Primordial Bloodline. One must pass through numerous trials to qualify for cultivation, the threshold is extremely high.

Because the threshold is extremely high and cultivation must be cautious, no one in Flame Wind Ancient Country who cultivated the Primordial Bloodline has lost control.

This is also a difference between the two ancient countries.

The Flame Wind Ancient Country has always been wary of the

Primordial Bloodline, cultivating it cautiously. Even the contemporary emperor 'Emperor Fu' ascended using the Primordial Bloodline without losing control, yet he ultimately chose reincarnation to abandon this path, not relying on any external force and re-ascended as emperor through the path of formations.

From the attitude of the higher-ups, one can see the caution towards the Primordial Bloodline.

The Thunder Ancient Country, on the other hand, fully embraces the Primordial Bloodline, allowing beings in the Primal Chaos Realm to start cultivating it, and Godly Kings can cultivate it even deeper! Mountain sitting guest joined the Thunder Ancient Country because the threshold there is very low.

"Brother Luo He, I'll be going back first," Emperor Chu Yu stood up, "I'll be heading to the Palace of Emperor Chu to receive resources soon."

"Go ahead," Luo Feng smiled.

Emperor Chu Yu left immediately.

******

In a vast world.

A figure sat cross-legged on the ground, the entire world operated with vast different formations interlocking with each other.

"Based on the 'Ten Thousand Formation Map' and 'Primordial Space Fragmented Array Eight Scrolls,' you want to advance further?" This figure pondered when suddenly, a thought transmitted through causality arrived from afar.

"Emperor Fu!" A domineering and unrestrained voice belonged to the first emperor of the Flame Wind Ancient Country, 'Emperor Yan.'

"Brother Emperor Yan, what's the matter?" Emperor Fu asked.

"Guarding the border city 'Xiangjie City' is a task for my Emperor Yan lineage. Initially, I dispatched Yan Su to guard Xiangjie City, and Yan

Su has guarded it flawlessly to this day," Emperor Yan's voice came, "But recently, that Luo He directly attacked the border city, killed all avatars of the Guardian General Yan Su inside the city! It even caused a riot of Primordial Bloodline beings."

"Brother Emperor Yan, this was originally a task for your Emperor Yan lineage," Emperor Fu smiled, "I thought you had discussed it with Emperor Chu."

"The entire Imperial Clan was busy with the Heavenly Task until recently, which is why I am only dealing with this matter now," Emperor Yan said, "I believe that attacking the border city Xiangjie City must be severely punished. After all, it suppresses a world portal, a world personally opened by the Ancestor, his painstaking effort."

"I know, it should be severely punished," Emperor Fu said.

"This Luo He has many avatars, ordinary punishment is trivial for him, ineffective for disciplining," Emperor Yan said, "I think, making him guard the 'Lava Old Demon' might be suitable."

Emperor Fu frowned.

The Lava Old Demon, among the Godly King Level Primordial Bloodline beings cultivated by the Ancestor Yan Feng, was an extremely powerful old demon, with strength comparable to the emperors, which is why he was imprisoned separately.

Just considering the Primordial Bloodline, the Lava Old Demon is stronger than the emperors and highly contaminative.

"Guarding the Lava Old Demon, with Luo He's strength, it's easy to be contaminated," Emperor Fu stated.

"The place of imprisonment is still very safe," Emperor Yan said.

"Brother Emperor Yan, I won't lie to you! Half a century ago... Emperor Chu had already spoken to me about this matter," Emperor Fu said, "He said, his direct disciple Luo He made a mistake, he admits it! His punishment must follow the laws of the Flame Wind Ancient Country! If it exceeds the range of the laws, he will defy punishment! Even escalating the matter to the Ancestor!"

"Defy punishment?" Emperor Yan was somewhat shocked.

Emperors, do have the right to defy punishment.

Some decisions made by the reigning emperor can be too much, and other emperors can choose to defy punishment! They could even escalate it to the Ancestor!

"To defy punishment and escalate to the Ancestor for such a trivial matter? This Emperor Chu has always been impulsive," Emperor Yan was quite annoyed.

Emperor Chu never cultivated the Primordial Bloodline, he has been domineering and protective from a young age, never caring about the grand scheme! Always ready to break the sky! But it's also because of this, Emperor Chu's cultivation in the Great Dao of Destruction Origin has been quite smooth.

"Emperor Chu makes a lot of sense, no matter what, we must stay within the legal limits," Emperor Fu stated, "Otherwise, if he really defies punishment, and it escalates to the Ancestor, it won't look good on us."

"Then what do you suggest as punishment?" Emperor Yan felt helpless.

Facing someone who flips the table over trivial disagreement and even defies punishment, what can he do?

"Since Xiangjie City currently has no Guardian General, penalize Luo He to guard it," Emperor Fu stated, "Let him guard for ten thousand eras, and he receives no merit points."

Garrison duty at the border is generally a tough task, typically with high reward in merit points.

As a punishment, naturally, the merit is erased.

"Make it ten thousand eras then," Emperor Yan said.

"Alright, then ten thousand eras," Emperor Fu agreed.

...

Chu Capital, Palace of Emperor Chu.

Luo Feng came here to see his master.

"Your sentence has been delivered, guarding Xiangjie City for ten thousand eras," Emperor Chu looked at Luo Feng, "Although the punishment is harsh, it is still within legal bounds, considered a normal punishment."

Luo Feng nodded, "Thank you, Master."

Within the normal range of punishment, Luo Feng was not worried.

Chapter 163: Season 3 Episode 42 Rankings and Penalties (Season Finale)_3

"There's no need to thank me," Emperor Chu said, "If you weren't my disciple, Emperor Yan wouldn't have targeted you, so this is my responsibility. What kind of joke would it be if I couldn't even protect my disciple?"

"This is the 'Xiangjie' world entrance Array Talisman." Emperor Chu waved his hand, and a golden array talisman flew toward Luo Feng.

Luo Feng took the golden array talisman and received two major pieces of information from it: the method to control the talisman and the method to control the entire array of Xiangjie City.

With a clear method, given Luo Feng's realm, he naturally mastered it easily.

"With your strength, coupled with the array, garrisoning Xiangjie City will naturally be a breeze," Emperor Chu said, "The only issue is that you must garrison for ten thousand eras. This was personally adjudicated by Emperor Husband, and even if you became a Godly King, I'm afraid the term cannot be shortened."

"I have many avatars, so it doesn't matter," Luo Feng said.

Emperor Chu nodded in satisfaction: "Go then."

Luo Feng respectfully departed immediately.

...

The news that Luo Feng was punished to garrison Xiangjie City for

ten thousand eras spread quickly among the upper echelons of the Flame Wind Ancient Country, and many from the Imperial Clan and first-class marquises soon learned of it.

"Brother Luo He," Emperor Chu Yu, feeling quite guilty, had just collected the Heavenly Task resources from the Palace of Emperor Chu and immediately went to visit.

"It's all because of my Blood Spirit Golden Pearl task that has led Brother Luo He and Yan Su to become enemies, and now even resulted in a garrisoning punishment of ten thousand eras at Xiangjie City," Emperor Chu Yu said, looking at Luo Feng. Brother Luo He hadn't taken any benefits from him for this task, yet ended up heavily punished, naturally making Emperor Chu Yu feel extremely apologetic.

Luo Feng shook his head: "Don't worry about it! I couldn't stand the evil anymore, so I took the initiative to head to Xiangjie City, eliminated a few of Yan Su's avatars, and seized his Godly King Weapon. That's how I vented my frustration."

"No matter what, all these things happened because of me." Emperor Chu Yu suddenly produced a golden bottle, "This is a bottle of 'Purifying Spirit Liquid' I received while fetching the Heavenly Task resources, which is beneficial for understanding the Great Dao and enhancing the Spiritual Will."

This bottle of 'Purifying Spirit Liquid' was the most precious among the resources he obtained, worth nearly half of this harvest.

Emperor Chu Yu felt that without Luo Feng's help, he might not have been third, so it was only right to give his most valuable resource to a good friend.

"Beneficial for the Great Dao and Spiritual Will?" Luo Feng did not refuse, and directly accepted it, "Thanks."

"It is I who should thank you, Brother Luo He," Emperor Chu Yu said with a smile, "This time in the Heavenly Task, the first rank gets the most resources, and I am second, having half as much as Marquis Chu Ying! The one who ranked third only has one third of my share. The

next four even less."

That's how it is in the Flame Wind Ancient Country's Imperial Clan, the more outstanding one is, the more they focus on nurturing.

"I should head back now. Getting second place has also made me much busier," Emperor Chu Yu said.

Luo Feng nodded, watching him depart, then looked at the bottle of 'Purifying Spirit Liquid' in his hand, which was an unrecorded treasure in the Inheritance Palace, probably exclusive to the imperial elite. In fact, even Emperor Chu Yu only received this bottle due to the Heavenly Task.

"Brother Chu Yu, we still have long days ahead," Luo Feng whispered softly.

"Garrisoning Xiangjie City for ten thousand eras? Becoming a Godly King won't shorten the punishment period?" Luo Feng didn't mind at all; he accepted his punishment.

(This episode ends)

Tomorrow, Tomato takes a day off, to really think through the detailed plot of the fourth volume.

While I take a day off, for those of you who might run out of books to read, I also recommend a fantastic book! This wonderful book is called 'Devouring Starry Sky', and it's the story of Luo Feng starting from Earth, with a truly fascinating story, as attested by readers who have read it!

Chapter 164: Episode 4: The Path of the Godly King Chapter 1: The Invitation of the Two Realms Palace

On the frontier of the Flame Wind Ancient Country, Xiangjie City, Garrison Mansion.

"Greetings, Garrison General."

A vast throng of subordinates bowed respectfully, without exception.

Luo Feng sat in the main seat, with Morosa, Moyu Qingyan, and the Primordial Ancestor standing to one side.

In typical cities, the roles of City Lord and military Commander are held by two different powerhouses! However, if a transcendent of the Primal Chaos Realm garrisoned a city, they would typically hold all authority.

Upon the news that Luo Feng, the first to transcend the Primal Chaos Realm, was responsible for garrisoning Xiangjie City, preparations to receive him had long been made within the city.

"From today onward, he who formerly served as deputy guardian of Xiangjie City," Luo Feng said, looking at those below, "his orders are my orders. Do you all understand?"

"Understood." Not a single subordinate raised an objection.

"Take your seats," Luo Feng nodded.

This large group of subordinates included more than three hundred

Eternal True Gods and over a thousand True Gods of Void Space who held important positions. In front of Luo He, the first to transcend the Primal Chaos Realm, all they needed to do was obey.

After the banquet had dispersed.

"Primordial Ancestor, I'll be depending on you for the many affairs of Xiangjie City in the future," Luo Feng said, walking side by side with the Primordial Ancestor.

"I have many Illusionary Avatars living different lives in the Land of Origin," the Primordial Ancestor replied with a smile, "and now, to manage a large city is yet another identity. It suits my cultivation well."

"By the way, your disciple Moyu Qingyan can also become more involved in the city's affairs," the Primordial Ancestor suggested, "Experiencing more will also serve as Heart Honing."

"Okay."

Luo Feng smiled, "I haven't really taught my disciple much myself. It's all been you guys teaching him."

Moyu Qingyan's talent was indeed quite ordinary. After becoming a True God of Void Space by following the Law Lineage, progress became even harder. After discussions between the Primordial Ancestor, Morosa, and Luo Feng's final decision… Moyu Qingyan had transitioned to the Bloodline Cultivation System.

With Moyu Qingyan's talents, if he solely followed the path of laws, to become an Eternal True God in this lifetime would be quite an achievement.

Following the Bloodline Cultivation System, with the support of Luo Feng and Morosa, becoming an Eternal True God would be relatively easy. There was even a sliver of hope for advancing to the Primal Chaos Realm.

"The True Body of the Primordial Ancestor is indeed indistinguishable from his Illusionary Avatars," Luo Feng thought as he watched the Primordial Ancestor leave. Whether the one who accompanied him to

Xiangjie City was his true body or an avatar, Luo Feng did not have the confidence to discern.

Now, his true body and Illusionary Avatars were outwardly indistinguishable.

The same physical body, the same aura.

"Primordial Ancestor, if it were not for the oppression of the Primordial Cosmos, with his strength, he would have probably succeeded in passing through reincarnation long ago," Luo Feng mused. With a step, he entered the hidden great hall deep underground.

Within the hidden great hall was the world entrance to another realm.

Luo Feng looked at the world entrance, now with Array Talismans in place, he could, using the Formation, prevent Primordial Bloodline creatures from escaping.

"This world harbors a large population of Primordial Bloodline creatures," Luo Feng's eyes burned with fervor. Guarding Xiangjie City for tens of thousands of eras would typically earn roughly a million Merit Points. But since Luo Feng was here as a punishment, he naturally wouldn't receive any.

Losing a million Merit Points did not concern Luo Feng.

"Primal Chaos Realm creatures with Primordial Bloodlines are relatively weak, perfect for my research."

Having conceived the concept of the Trinity Form, Luo Feng naturally wanted to study the vastly stronger 'Ten Directions World Form' life structure next.

The golden scale beetle was a Primal Chaos Realm creature with a Primordial Bloodline, one of the most perfected among them. A single corpse was worth a million Merit Points.

"However, as a guardian, there is a strict prohibition against stealing Primordial Bloodline creatures or slaughtering them," Luo Feng was

aware of this, a severe decree. The Formation sealing that world was always recording all scenes.

Stealing, slaughtering Primordial Bloodline creatures were grave offenses, far more serious than killing a few of Yan Su's Avatars.

"If it's merely a scuffle, a beating, it's not an issue," Luo Feng said with a smile, since the Primordial Bloodline creatures routinely fought and struggled among themselves, which also promoted the evolution of their bloodlines.

"I'll just frequently give those Primordial Bloodline creatures a beating, make them behave and allow me to study their blood, scales, and feathers — they should find that acceptable," Luo Feng pondered.

The materials from a single golden scale beetle corpse were not enough.

More materials were needed for more extensive research.

...

Xiangjie City's nights were equally bustling.

Since the news spread that Luo He, the first to transcend the Primal Chaos Realm, was taking charge of guarding Xiangjie City for an era, many forces began to invest more into Xiangjie City. Several family branches moved here to take root, and the prices for cave mansions within the city soared.

"Being able to live safely for an era is a luxury for many cultivators," Morosa said from the tower of the Garrison Mansion, looking over the city.

Luo Feng nodded.

Although true gods have a lifespan of 30,000 eras and the true god of void space even possesses limitless lifespan, in the Land of Origin where conflicts and struggles are rife, cultivators can easily become unintended victims. The years one truly lives tend to be much shorter by comparison.

Even for great families, they would branch out and root themselves in different cities, after all, if they were to gather in one place, they could all be wiped out in an instant should they be impacted by the clash of some terrifying entities.

"Hmm?" Luo Feng sensed something and turned his head to look to the side where a bald figure made of light was condensing. The bald figure smiled at Luo Feng.

Being looked at by the other party made Luo Feng feel as if he were being stared down by a terrifying monster, one that could crush him at any moment.

Even though his true self possessed 9 billion Black Rivers, he felt completely incapable of resisting the other.

"Luo Sa, you stand down first," Luo Feng instructed.

"Yes, Master," Morosa looked at the bald figure and felt a tremble in his heart.

Very terrifying.

Morosa could feel that even if he exploded with all his might, he would be thoroughly annihilated by the other party, not leaving even ash behind. This was definitely not a power that one at the First Realm of Godly King could possess.

"Luo He," the bald figure stood there, smiling at Luo Feng, "I am the 'Walker,' the Deputy Palace Master of the Twin Realms Palace."

"I've heard that in the Twin Realms Palace, the highest positions are the Palace Master and the Deputy Palace Master. I didn't expect the Deputy Palace Master to personally visit me today," Luo Feng exclaimed in surprise. As one of the most influential forces in the Land of Origin, the status of the Deputy Palace Master of the Twin Realms Palace was self-evident.

The bald figure laughed, "This also represents the importance the Twin Realms Palace places on you. You are the first to create a secret technique and achieve Transcendence of Primal Chaos Realm. With such perception and potential, once you become a Godly King and

accumulate a little, you will be at the invincible level of the First Realm of Godly King.

At that time, you can become an official member of our Twin Realms Palace."

Invincible level of the First Realm of Godly King?

Luo Feng understood as well.

Many Godly Kings, even if they train to the limit of their inheritance, are far from touching this level. For example, mastering the First Calamity of the "Eight Tribulations Life Form" gives strong life-saving abilities, but the prowess in direct combat is just considered extremely strong among Godly Kings.

Mastering the first volume of the "Extermination of Seventy-Two Blades" yields fearsome destructive power, but it's too weak in other areas to be considered invincible in the First Realm of Godly King.

Invincible in the First Realm of Godly King! Comparable to the ordinary Second Realm of Godly King, it's enough to be a dominant power in the Land of Origin, which is also the threshold for entering the Twin Realms Palace.

"So we came to invite you in advance, and you can first become an outer member. After becoming a Godly King, you will soon be an official member," the bald figure said. "In our Twin Realms Palace, besides me and the Palace Master, the identities of other members are unknown to each other.

When gathering, it is in the virtual world of the Twin Realms Palace that our thoughts meet, each by a code name."

"We unite to break the monopoly of the two Ancient Countries over many resources," said the bald figure.

"Monopoly?" Luo Feng listened.

"You are a Transcendent of Primal Chaos Realm and don't currently pose a threat to the Godly Kings. Therefore, the Godly Kings of the Flame Wind Ancient Country are quite friendly to you," said the bald

figure. "But once it involves their interests, they'll bare their fangs."

Luo Feng listened, and he certainly knew that the struggle between the thirteen branches of the Imperial Clan was fierce.

"What is the most precious resource in the Land of Origin?" the bald figure asked. "Is it the resources brought back from outside the Braided Cage by the Primogenitor Yan Feng and Thunder Primogenitor? No! It's the resources left by the Primordial Ancestor!"

"The resources left by the Primordial Ancestor?" Luo Feng was shocked.

"I have personally received guidance from the Primordial Ancestor, which was my greatest fortune," the bald figure looked at Luo Feng. "The Primordial Ancestor left quite a few resources in the Land of Origin, but the majority of these resources...have been occupied by the two Ancient Countries."

"We cultivators who are not of the Imperial Clan, if we don't unite, won't even be able to snatch the remaining parts," the bald figure looked at Luo Feng. "You are a direct disciple of Emperor Chu, but is it useful?"

"The resources of the Imperial Clan in the Flame Wind Ancient Country can only be distributed to the Imperial Clan! Non-imperial Clan guest elders must make contributions to exchange for resources. Even for the most important resources, they will not exchange them despite the contributions," the bald figure said. "But these resources left by the Primordial Ancestor are for all cultivators!

Of course, we are qualified to contend."

Luo Feng listened.

"You should have noticed that there are very few Godly Kings who join the Flame Wind Ancient Country completely," said the bald figure.

Luo Feng acknowledged this point.

Many guest elder Godly Kings maintain the status of guest elder

while still setting up Divine Kingdoms and establishing their own forces outside. There are indeed very few who completely join the Flame Wind Ancient Country.

"You should be able to see that there are thirteen Emperors in the Flame Wind Ancient Country and nine Monarchs in the Thunder Ancient Country. But, becoming Emperor or Monarch...only members of the Imperial Clans of the two Ancient Countries can," said the bald figure.

"All cultivators from other races, including the direct disciples of Primogenitor Yan Feng and Thunder Primogenitor, haven't reached the strength of Emperor or Monarch. Why? Is it because their talent and insight are not enough?"

"It's because the resources that can make one an Emperor or Monarch are only given to the Imperial Clan," the bald figure looked at Luo Feng. "I can tell you that the resources left by the Primordial Ancestor include some for Godly Kings and below."

Luo Feng was intrigued; the Godly Kings and below could also access the resources left by the Primordial Ancestor? The Lie Yuan Technique should be considered as such.

"But have you had access to them?" the bald figure looked at Luo Feng. "Will your master Emperor Chu give them to you?"

"He won't give them to you! Because he has no authority to do so. The resources of the Primordial Ancestor are the most precious, and the core must be given to the Imperial Clan. Only the more peripheral ones will be given to you, so-called direct disciples," the bald figure said. "Don't believe me, you can go ask your master and see what he says."

"I can tell you that every Transcendent of Primal Chaos Realm in the Imperial Clan has the right to enter some of the domains left by the Primordial Ancestor," the bald figure looked at Luo Feng. "As the first among the Transcendents of Primal Chaos Realm, you haven't even heard of it, have you? Regarding this matter, you can also ask your master.

Emperor Chu's disposition, he won't hide it from you."

"As time goes by, as you become a Godly King, you will understand," said the bald figure.

"These are not secrets."

As the bald figure spoke, he casually threw out a talisman, "Once you've thought it through, you can crush the talisman at any time to become an outer disciple of our Twin Realms Palace. I can promise you that as long as you agree to join the Twin Realms Palace...I will immediately send you to one of the domains left by the Primordial Ancestor.

In our Twin Realms Palace, we believe in equal status for all, cooperation with each other, and fair exchange. But the first opportunity you get to enter the domain, consider it a gift from me."

Luo Feng received the talisman and said, "I'll think about it."

The bald figure smiled and nodded, then dissolved into nothingness without a sound.

Chapter 165: Episode 4: The Path of the Godly King Chapter 2: Compete on Your Own Merit

```

Luo Feng stood alone on the tower, overlooking Xiangjie City at nightfall. He looked down at the command token in his hand, contemplating every word uttered by the Deputy Palace Master 'Walker' from the two realms.

"Once I join, they would send me to a secret location left by Yuan?" Luo Feng was indeed tempted; he carried an inheritance related to Yuan, the Lie Yuan Technique, and naturally, he desired similar opportunities.

Still, Luo Feng remained vigilant.

The two realms palace claimed that all stand at equal status, cooperating and exchanging fairly. But were the spoken words necessarily true?

"Best to ask Master first," Luo Feng thought.

...

In Chu Capital, within the Palace of Emperor Chu.

Luo Feng went to see his master that very night.

"The Deputy Palace Master 'Walker' from the two realms came to invite you?" Emperor Chu sat there, nodding in acknowledgment. "The two realms palace acts swiftly. You're merely a Transcendent of Primal Chaos Realm, and they've already extended an invitation,
```

even offering you a chance to enter a treasure site. That's quite a grand gesture."

Luo Feng listened.

If Master calls it a grand gesture, then this opportunity must be significant indeed.

"What he said isn't wrong," Emperor Chu nodded. "The resources of the two ancient countries are mainly allocated to the Imperial Clan. Those not of the Imperial Clan need to exchange merit points or pay a certain price to trade."

Luo Feng understood; the Deputy Palace Master hadn't lied.

"It's a rule set by the Ancestor," Emperor Chu continued. "The Ancestor commanded that after meticulous selection, the treasures he brought back could be used to focus on cultivating elites within the clan. Thus, the clan's elites enjoy numerous benefits. The dukes of the Imperial Clan get a fair share, and the Godly Kings of the Imperial Clan receive even more!

This incites envy among many Godly Kings in the Land of Origin.

"But the Ancestor stated that powerful individuals not of the Imperial Clan... the Ancestor would grant them 'opportunities to exchange for inheritances, exchange for resources.' However, they must be through the exchange of merit points or other fair trades."

"There can be no free gifts; exchanges must be fair," Emperor Chu said, smiling at Luo Feng. "Even if you are taken as a direct disciple, to gift anything of value to the disciple, the master must bear the cost.

For instance, the resources I gave you, or even the inheritances within the Godly King range you'll exchange for in the future, such as the 'Extermination of Seventy-Two Blades' or the 'Eight Tribulations Life Form,' all come out of my own pocket."

Luo Feng understood.

Both Ancestors believed in fair exchange with those not in their own

families. There would be no free resources.

"Thank you, Master," Luo Feng expressed with gratitude.

Both those inheritances, particularly the content at the Ultimate Realm of God King level, amassed a cumulative cost of hundreds of millions of merit points.

"So, the help I can offer you is limited," Emperor Chu remarked. "Plus, I owe the clan a hefty debt of merit points."

"Owing merit points to the clan?" Luo Feng questioned, confused.

"Indeed, the resources left by Yuan are allocated to some extent," Emperor Chu explained. "However, if one wants to apply for additional, exceedingly high resources beyond the clan's allotment, that's considered a debt. I applied for an enormous amount of resources to become an Emperor."

"The Ancestors are willing to exchange fairly with other cultivators for the resources needed to become Emperors or Monarchs. But the other Godly Kings of the Land of Origin simply can't afford it," said Emperor Chu. "That's the real reason why only the two Imperial Clans have Emperors and Monarchs."

"Being in debt, I must carry out many missions, from which I cannot excuse myself."

"The resources left by Yuan are extremely valuable. Claiming a portion means I must repay the clan, until my debt is fully settled," Emperor Chu stated. "The thirteen bloodlines of Imperial Clan Emperors lay claim to the Land of Origin's most precious resources by strength, but they all end up repaying the clan."

"Except for Emperor Qing, the other twelve Emperors are in debt to the clan," explained Emperor Chu. "Emperor Qing has some authority to bestow the Yuan's resources owned by the clan to his disciples. But we twelve Emperors don't have that power."

Luo Feng now understood.

"You are my disciple and a Guest Elder of the Flame Wind Ancient

Country," Emperor Chu said. "Unless the Ancestor personally invites you with sufficient promises, you have no need to fully join the Flame Wind Ancient Country. While joining might offer some benefits, it would greatly increase the restrictions on you. For a powerful Godly King, it's better to remain free."

"I understand," Luo Feng nodded. "Master, should I join the two realms palace then?"

"Do not join," said Emperor Chu firmly.

Luo Feng was puzzled.

"Across the entire Land of Origin, although the Imperial Clans of the two ancient countries are powerful, there are more Godly Kings outside of the Imperial Clan in number," Emperor Chu explained. "They indeed have the right to contend for Yuan's resources and thus have formed forces of varying sizes, both overt and covert."

"There are three major covert forces that you shouldn't join: the two realms palace, the Wanfa Tower, and the Time-Space Lonely Boat," Emperor Chu warned.

"Why shouldn't I join?" Luo Feng inquired.

"These three covert forces are likely established by an alien race," Emperor Chu disclosed. "By alien race, I mean cultivators from beyond the Braided Cage."

Luo Feng was shocked: "Alien race?"

"There's no need for concern. The alien races are suppressed by supreme rules, and any technique or power they display is limited, unable to exceed a certain boundary within the Primal Chaos Realm," Emperor Chu explained. "Once limited in power, no matter how profound, they are at best a somewhat more troublesome First Realm of Godly King."

Luo Feng breathed a sigh of relief.

```
```

```

"Their true strength should be beyond that of the Ultimate Realm of a Godly King," said Emperor Chu. "That's why even if it is a weak avatar that descends into our realm from the vast Primordial Space, a First Realm Godly King that can't be killed outright with its inscrutable and bizarre methods still brings much trouble to the two Ancient Countries."

"What are they doing in the Land of Origin?" asked Luo Feng.

"The resources left by the Ancestor," Emperor Chu replied. "You may not be fully aware of how precious the resources left by the Ancestor are. They are resources that even those above the Ultimate Realm of a Godly King still covet."

"I do not want you to join those three major alien race forces because, firstly, the aliens are those most eager to obtain the Ancestor's resources, and with all your actions under their surveillance, the aliens will be your direct competition. Secondly, who knows what hidden risks there might be after prolonged contact with them."

"For example, those so-called Dual-Realm Palace, Wanfa Tower, and Time-Space Lonely Boat are Secret Treasures that transcend the Ultimate Realm of a Godly King. Is there a hidden danger in allowing one's mind to enter such places over time? It's difficult to say." Emperor Chu looked at Luo Feng. "As for other powers? You can join any that you prefer."

"I understand, Master," Luo Feng thought to himself, having made up his mind after learning that these three powerful forces were established by alien races.

Some Godly King Second Realm cultivators who have lived for an exceedingly long time might place their trust in their own strength and, in pursuit of breakthroughs, choose to deal with the alien races, making pacts with tigers, so to speak. But Luo Feng was young, and there was no need for him to do the same.

"Although there are several sacred places left by the Ancestor, very
```

few of them are accessible to those in the Primal Chaos Realm," Emperor Chu said. "Perhaps only these three major forces have the boldness to directly offer you a chance to enter."

Luo Feng nodded.

Indeed, no pies fall from the sky. The better the pie appears, the bigger the problems. Who could have imagined the Dual-Realm Palace was backed by an alien race?

"Let me think."

Emperor Chu sat down, thinking rapidly.

Now that the resources of the Land of Origin had long been clearly divided, acquiring resources without using force was difficult. And Luo Feng, just transcending the Primal Chaos Realm, could not compete for resources with those ancient beings.

"In the Primal Chaos Realm, if you want to gain a great opportunity left by the Ancestor, other than cooperating with the alien races, there's only one strategy I can think of!" Emperor Chu had an idea.

"What strategy?" Luo Feng's eyes lit up.

"You should know that the border of the two Ancient Countries nurtures various heavenly and earthly treasures, which the cultivators from both realms of the Ancient Countries vie for," Emperor Chu began. "These competitions are usually confined to the Primal Chaos Realm."

"And you are from the Primal Chaos Realm! Even better, you are the top of those who have transcended the Primal Chaos Realm, the absolute best," Emperor Chu looked at Luo Feng. "As one from the Primal Chaos Realm, it's in accordance with the rules of the two Ancient Countries for you to compete for resources scattered throughout the Thunder Ancient Country's borders."

Luo Feng nodded.

"The border between the two countries is very long, and many heavenly and earthly treasures are nurtured there," said Emperor

Chu. "I will send you all the information about the maturity times of these treasures, and you will go and compete for them time and again."

"Each contest over these treasures will be valued at a few thousand Merit Points. But in one Era, you should be able to compete over a hundred times, and that amounts to several hundred thousand Merit Points."

"In One Hundred Eras, that's several tens of millions of Merit Points."

"In one thousand Eras, thats several billion Merit Points."

"Because each treasure nurtured by heaven and earth is generally worth only a few thousand Merit Points, it's unlikely that a Godly King will personally intervene for such small gains, escalating it to an emperor-level war," Emperor Chu looked at Luo Feng. "If you continue to compete consistently, with your overwhelming strength, you will succeed every time."

"After you've contested a few dozen times, the Thunder Ancient Country will realize the seriousness of the problem, and they will come to negotiate with you," Emperor Chu continued. "Then, you can demand a slot to enter the sacred place left by the Ancestor."

"As a Guest Elder of the Flame Wind Ancient Country, you can't act against your own. So you act against them, make them feel the pain, and coerce them into granting you the opportunity," Emperor Chu smiled. "This is the only strategy I can think of."

"Thank you, Master," Luo Feng's eyes sparkled.

Transcending the Primal Chaos Realm, with realms all below that of a Godly King, naturally makes it very hard to increase one's strength. Like the current top five transcendents of the Primal Chaos Realm, the differences between them are miniscule; it's only their methods that vary.

And in this era, there appeared someone like Luo Feng, turning the battleground where the Primal Chaos Realm of the two Ancient Countries once contended, into Luo Feng's sweeping harvest field.

"Go," said Emperor Chu.

As he watched his disciple depart, Emperor Chu sighed quietly to himself.

He wanted to help his disciple, but his own means were also quite limited; he could only give a bit of his resources to his disciple. As for the precious resources left by the Ancestor, he had no authority to allocate them.

In the end, he could only devise strategies, allowing his disciple to fight for them with his own abilities.

...

"The border between the two Ancient Countries is really long."

Standing aloft, Luo Feng started to take action following the strategies laid out by his master.

The two Ancient Countries occupied the most essential parts of the Land of Origin, and the areas where their borders met were the central regions of the Land of Origin! Many heavenly and earthly treasures were nurtured there, only that these treasures also had their growth cycles.

They only needed strict guarding when they were ripe.

"Strict guarding? With the help of Formations, how many can stop me?" Luo Feng's body was carrying no less than ninety billion strands of Black River. "Let's begin!"

Used to the customary struggles of the Primal Chaos Realm at the border, from this day onward, Luo He, the number one transcendent of the Primal Chaos Realm, also joined in.

```
```

Chapter 166: 4 episodes Godly King's Way Chapter 3 The Decision of Thunder Ancient Country

Within the territory of Thunder Ancient Country, there was an ancient tree nurtured by heaven and earth, known as the Frost Fruit Tree. Every 196 Eras, the tree would bear fruit, producing Frost Fruits that were a kind of auxiliary resource for cultivating the Primordial Bloodline.

"The Frost Fruit Tree is about to mature, and the warriors from the Flame Wind Ancient Country's Primal Chaos Realm could come to snatch it at any moment." The guardian responsible for the Frost Fruit Tree was also a mighty warrior at the Pinnacle of Primal Chaos Realm.

He had ceased his cultivation in recent days, fully controlling the Formation with all his heart and mind, always vigilant against incoming enemies.

Every 196 Eras, during the time when the fruit is maturing, powerful warriors would be stationed as guardians.

"With my strength, combined with the Formation set up by the Godly King, even if a Transcendence of Primal Chaos Realm were to take action, I could hold them off for a while. Moreover, those Transcendents of the Primal Chaos Realm wouldn't covet these fruits," the gray-robed elder thought.

Each harvest yielded only eight fruits, worth a mere eight thousand Merit Points. Generally, Transcendents of the Primal Chaos Realm couldn't break the Formation in a short time, and Thunder Ancient

Country would send reinforcements.

"It's close."

"The Frost Fruit Tree should mature tonight," the gray-robed elder continued to watch. As time slowly passed, suddenly—

The ancient tree, which looked like it was carved from ice, suddenly radiated a dazzling, icy white light, and then all of the cold white light merged into the eight fruits.

Just at that moment—

Whoosh!

The Black River World arrived, completely sealing off the area where the Frost Fruit Tree stood.

"This is bad," the gray-robed elder exclaimed in alarm, as he instantly picked the freshly ripened fruits.

The vast, black waters swept in, infiltrating and breaching the Formation laid by the Godly King right before the frightful force. It wasn't able to stop the river's invasion.

The gray-robed elder looked around in all directions, wanting to escape in the form of a gray fog, but he couldn't penetrate the Black River World.

"A world seal, the Black River Domain, is this Great Saint Luo He?" The gray-robed elder's heart trembled.

The black water reached in front of the gray-robed elder and coalesced into a figure, the spitting image of Luo Feng.

"Great Saint Luo He," the gray-robed elder immediately greeted with respect, not daring to show the slightest disrespect.

"Give me the fruits," Luo Feng said, looking at him.

"Yes."

The gray-robed elder very obediently handed over the eight fruits to Luo Feng without any resistance.

He was concerned that if he resisted, Luo Feng might kill him! Then the Weapon Secret Treasures he carried would be stolen. That would be far more valuable than the eight fruits.

"Phew." After securing the eight fruits, the black river water and the vast expanse of the Black River World vanished without a trace in an instant.

The gray-robed elder then breathed a sigh of relief: "This Great Saint Luo He is quite merciful, he didn't lay a finger on me."

Since Luo Feng had decided on a mass harvest of the treasures of heaven and earth, he hadn't thought about slaughtering guardians on a large scale! Firstly, with his current strength, being among the strongest in the First Realm of Godly King, killing these much weaker beings felt like bullying. Secondly, killing too many guardians would have too great of a karmic impact.

These guardians from the Primal Chaos Realm... had their own backgrounds and factions in Thunder Ancient Country. Making too many enemies, killing too many of the lesser ones, might provoke some of the older ones.

Most importantly, Luo Feng disliked those who kill indiscriminately.

His intention in harvesting the treasures of heaven and earth on such a large scale was to force Thunder Ancient Country into negotiations, to earn an opportunity to enter a treasure land.

He had no choice, he wasn't from the Imperial Clan of the two Ancient Countries! And not willing to cooperate with an Alien Race, he could only resort to this method.

...

In Thunder Ancient Country, at the holy land 'Mt. Leiting'.

A Godly King wearing a deep purple robe sat there, dealing with a multitude of trivial matters, as vast amounts of information about the

huge Ancient Country flowed in one after another.

"Oh? Luo He, the number one Transcendence of Primal Chaos Realm, took the eight Frost Fruits? This is the first time he's contended for the treasures of heaven and earth at the border, right?" The Godly King, smiling and looking quite serene, said, "I guess the Frost Fruit must be of some use to him."

He didn't seem to care at all.

It was quite common for warriors of the Primal Chaos Realm to vie for the border territories, and this was only Luo Feng's first act.

...

Although the border line between the two Ancient Countries was very long, and there were many places nurturing treasures of heaven and earth, there would only be about a hundred opportunities for intervention every Era.

After each intervention, Luo Feng would have to patiently wait for the next.

On his way to his third attempt to claim the treasures of heaven and earth, Luo Feng received some news.

"Marquis Liu Yin is dead?" Luo Feng stopped midair, surprised by the news.

"The core members of the Marquis Liu Yin's family have disappeared. According to information from the Flame Wind Pavilion, they have likely split into many branches and gone into hiding. As for Marquis Liu Yin... his karmic existence has completely vanished. He must have chosen reincarnation," the message said.

This kind of affair, where the family matters are carefully arranged beforehand, and then, only after everything is properly managed, the person dies. It could almost be confirmed that it was a voluntary reincarnation.

"Why has he reincarnated now? I had planned to find him after my Spiritual Will reached the Ultimate Realm of God King," Luo Feng

pondered.

His killing intent toward Marquis Liu Yin was multifaceted: one was the death of his friend Shang Tianyan, and the second was that Marquis Liu Yin himself liked to cause disasters, slaughter was something Marquis Liu Yin enjoyed doing, and his children also relished in mass killings.

Luo Feng had not acted yet merely because he wasn't sure he could kill the opponent completely.

But who would have thought that the opponent would take the step to reincarnate first.

Luo Feng didn't think about it anymore and continued on his journey to compete for the third time for the treasures of heaven and earth.

******

Mt. Leiting.

The Godly King in the deep purple robe looked serious now.

When Luo He first contended for the treasures of heaven and earth of Thunder Ancient Country, he just smiled.

The second and third times, he found it somewhat surprising.

By the seventh and eighth times, he felt something was amiss.

"Fifteen times now! Recently, every Exquisite Marvel of Heaven and Earth conceived by the borderlands has been snatched by this Luo He, not missing a single one," this Godly King said solemnly. Fifteen times added up to roughly a hundred thousand Merit Points.

Thunder Ancient Country did not care for this amount of value.

Yet, Luo He's actions had put him on alert.

"I must report to the Monarch," declared the Godly King, as he stood up and went to report to the Monarch in person.

...

A short while later.

Inside a towering and expansive hall, a figure bathed in thunder sat high upon the throne.

"Monarch."

Nine Godly Kings all bowed respectfully.

"Sit," said the figure enshrouded in thunder, his golden pupils exuding a terrifying pressure, overlooking those below. He was the ruling Monarch 'Monarch Lei Xiao' of the current Thunder Ancient Country, where the nine Monarchs were mainly divided into two major factions.

The first practiced the Primordial Bloodline of the Thunderbolt, which was also the path of the Thunderbolt Ancestor. This path was the most mature, yet it wasn't something every descendant excelled at. After all, in the supreme rules of the Land of Origin, there was no Origin Dao of Thunderbolt. So while this path was mature, it was also extremely difficult.

Even within Thunder Ancient Country, there were only three Monarchs who cultivated the Primordial Bloodline of the Thunderbolt. Their Secret Techniques were more complete, they had more suitable Secret Treasures, and they were even more lucid.

The other six Monarchs cultivated other types of Primordial Bloodlines, forming another faction.

If one were to count, there were also three 'semi-uncontrolled' Monarch-level powerhouses that could be considered a faction. After all, when they were lucid, they possessed genuine Monarch-level strength.

"You should all be aware of the situation," Monarch Lei Xiao said, looking at his subordinates, "Speak up, how should we resolve this?"

"The border between the two great Ancient Countries is so long that for fifteen consecutive times, every Exquisite Marvel that has

matured has been seized by this Luo He," said a towering figure below, his eyes blood-red, speaking coldly, "Five or six times might be coincidental, but fifteen times in a row... that's definitely no coincidence! He's doing it deliberately.

If we let him continue, then in one hundred or a thousand Eras, will all of our Exquisite Marvels of Heaven and Earth go to him? In my opinion, we should just wipe out all his Avatars, not giving him the chance to reincarnate!"

"Only then can we deter all parties. Let Flame Wind Ancient Country know that border disputes should be fairly contested, such wanton seizing, we, Thunder Ancient Country, will not tolerate," the towering figure declared coldly.

"Yes, kill him before he has the chance to reincarnate," another Godly King, covered in fur, also roared.

Monarch Lei Xiao looked down below.

Because there were so many cultivating the Primordial Bloodline, most Godly Kings of Thunder Ancient Country were somewhat mad. Why did their Thunderbolt lineage have a higher status? Strength was one aspect, but another was the ability to remain more lucid.

"I also agree that we should kill him outright, but how?" a beautifully dressed female figure asked leisurely, "This Luo He cultivates the three Origin Great Daos of Life, Destruction, and Matter, with innumerable Avatars! And some of his Avatars reside in Chu Capital. Please tell me...

How do we go to Chu Capital and kill an existence considered of immense strength in the First Realm of Godly King with countless Avatars?"

"That's Chu Capital! Chu Capital was personally forged by Primogenitor Yan Feng, guarded by Emperor Chu! Due to the permeation of causality, its power will greatly diminish, how to kill?" the beautifully dressed female figure looked at the other Godly Kings.

The other Godly Kings fell silent.

"Of course we can't do it, but the Monarchs can," the burly figure finally spoke.

"You mean to ask a Monarch to take action? For such a trivial matter, to send a Monarch to slaughter his way into Chu Capital of the Flame Wind Ancient Country?" The woman in the splendid robe shook her head, "First, if a Monarch takes action, it would be a case of the strong bullying the weak, and the whole Land of Origin would laugh at us."

"Second, in a place like Chu Capital, given the countless life-saving abilities of this Luo He's avatar, as well as the protection of Emperor Chu... Even if a Monarch could kill, Luo He would be able to reincarnate given just a little time. After reincarnation, Luo He will definitely hide himself. Once he becomes a Godly King, his strength will be much greater than now.

I fear it won't be inferior to me," the woman in the splendid robe said.

"Thirdly, don't forget the temperament of Emperor Chu! If our Monarch really bullies the weak by slaughtering his way into Chu Capital to kill his disciple, what would Emperor Chu do?" The woman in the splendid robe swept her gaze over those present.

The Godly Kings fell silent.

Indeed.

If Thunder Ancient Country first bullies the weak and acts tyrannically, Emperor Chu will certainly not endure it! Once Emperor Chu takes action, the other Emperors behind him, although they fight amongst themselves, will absolutely unite against outsiders.

"Most importantly, the border of the two great Ancient Countries is left for the Primal Chaos Realm beings to fight over. This is decided by the two Ancestors," said the woman in the splendid robe, "It's also to temper the Primal Chaos Realm of both countries! Let them fight and kill each other, and the strong get the resources.

Luo He is also of the Primal Chaos Realm; his struggle for the

treasures of heaven and earth is completely within the rules. Now just because he is strong, you want to take action? Doesn't that make our Thunder Ancient Country seem petty?"

"To break the rules set by the Ancestor for such a small issue, what does that amount to?" the woman in the splendid robe said as she swept her gaze over her companions.

"What do you propose we do then? He's incessantly claiming the treasures of heaven and earth," the burly Godly King with blood-red eyes stared at her.

"Just talk to this Luo He — a small matter that can be resolved with a single negotiation," the woman in the splendid robe said, her smile sweeping over the group of Godly Kings.

A bunch of fools.

Indeed, she looked down on these companions. Without cultivating the Primordial Bloodline, she was already at the invincible level of the First Realm of a Godly King! She existed as an overlord of the Land of Origin.

She was ambitious, not relying on external forces to go farther. In the future, with the help of the Primordial Bloodline, she could become even stronger! She even hoped to become a new Monarch.

"I support Godly King Jiayin."

"Yes, we cannot break the rules of the Ancestor," chimed in three of the Godly Kings in rapid succession.

Monarch Lei Xiao nodded in satisfaction.

'Godly King Jiayin,' under his command, was the one he valued the most, having become a Godly King in the First Realm without relying on external forces to become invincible. In Thunder Ancient Country, strength spelled status. Godly King Jiayin was strong enough and absolutely level-headed! She handled matters very properly.

Most of the other Overlord-level existences were too insane and unrestrained.

"Jiayin, this matter is entrusted to you," said Monarch Lei Xiao.

"Yes, Monarch," the woman in the splendid robe responded.

Monarch Lei Xiao then stood up and had already vanished and departed. The woman in the splendid robe disappeared into thin air as well.

"Humph," the burly Godly King with bloodshot eyes was full of anger as he swept his gaze over where the woman in the splendid robe had vanished, "Cultivating the Origin Dao of the Infinite, always knowing to hide and hide."

He disliked Godly King Jiayin very much, he had even attempted to attack her, but he could never touch her.

Chapter 167: Episode 4 Chapter 4 The Most Common Treasure Spot

Flame Wind Ancient Country, outskirts of Chu Capital City.

A graceful figure of a woman in luxurious robes materialized out of thin air, smiling towards the direction of Chu Capital City, "Huang Feng is imprisoned here." She could pinpoint the location of the City Lord of Desert Wind City using the Origin Dao of Causality.

"Such an impressive Chu Capital City, truly worthy of being the powerful secret treasure crafted by Primogenitor Yan Feng." Gazing at the city before her, she could sense the endless might contained within its walls. Here, Emperor Chu was invincible.

Whoosh.

With one step, she arrived at the city gate, entering openly and righteously, and with another step, she was outside the main gate of Luo Feng's Cave Dwelling, knocking gently.

"Hmm?"

As she knocked, Luo Feng inside the Cave Dwelling suddenly became aware, at which moment the servant had already opened the door.

"Godly King Jia Yin." At a glance, Luo Feng saw the figure at the main gate through the myriad buildings and identified the identity of the visitor.

"Great Saint Luo He," Godly King Jia Yin also looked at Luo Feng and nodded with a smile.

Luo Feng also became serious.

Godly King Jia Yin was widely known throughout the Land of Origin; an unrivaled entity in the First Realm of Godly King, which was extremely rare in the Land of Origin, even more so than ancient entities at the Second Realm of Godly King.

In the entire Land of Origin, the unrivaled at the First Realm of the Godly King, openly or secretly in total, according to the information given by master Emperor Chu, should be less than twenty!

And most of those unrivaled at the First Realm of Godly King practiced the Primordial Bloodline!

Those unrivaled at the First Realm of Godly King who do not rely on the Primordial Bloodline, there are probably only about five overall in the Land of Origin, and Godly King Jia Yin is one of them! This shows how special she is. Even the lofty monarchs of Thunder Ancient Country value her highly.

No matter which monarch was in power, they would invite her for assistance.

"It is said that Godly King Jia Yin, with the Origin Dao of the Infinite as her foundation, cultivated to the ultimate in the First Realm of Godly King. After that, she also cultivated the Origin Dao of Causality... The combination of the two made her an unrivaled entity in the First Realm of Godly King."

"Infinite and Causality combined, Godly King Jia Yin can foresee any danger in advance."

Luo Feng was well aware that in terms of avoiding danger and saving one's own life, Godly King Jia Yin was above him and even above the Ancestral God of the Snow Realm!

This was truly an Overlord Level existence in the Land of Origin!

...

In the Cave Mansion, at the Welcome Pavilion, Luo Feng personally entertained Godly King Jia Yin.

"What could bring Godly King Jia Yin to visit someone in the Primal Chaos Realm like me?" Luo Feng poured wine for Godly King Jia Yin.

"Recently, at the border of the two Ancient Countries, fifteen rare natural treasures have emerged, all of which were snatched by you, Great Saint Luo He," Godly King Jia Yin said with a smile, looking at Luo Feng, "Great Saint Luo He, you haven't missed a single one. May I ask, do you intend to monopolize all the natural treasures along the border line?"

As for those continuously productive mines, one could take a bit and send it back.

But for those natural treasures that mature periodically, Luo Feng precisely timed it to monopolize them all.

"Is that not allowed?" Luo Feng looked at her, "The conflicts along the border between the two countries have lasted for endless eras."

"Of course, it's allowed," Godly King Jia Yin nodded, "The border conflicts naturally have winners and losers. Now that Great Saint Luo He's strength far surpasses other transcendant beings in the Primal Chaos Realm, you naturally have the right to monopolize, and we in Thunder Ancient Country can afford to lose."

Luo Feng listened closely.

"But as you know, many Godly Kings of Thunder Ancient Country have bad tempers," Godly King Jia Yin looked at Luo Feng, "And there are a few who could become barely controlled Monarch Level existences."

"If you, Great Saint Luo He, keep harvesting all the natural treasures, causing one of those half-uncontrolled Monarchs to rage," Godly King Jia Yin watched Luo Feng, "even if you are within Chu Capital City, a half-uncontrolled Monarch could obliterate all your avatars in the Land of Origin. If you're lucky, you'll have just enough time to be reborn."

Luo Feng said, "Godly King Jia Yin, I have one avatar living within the Palace of Emperor Chu."

Emperor Chu arranged for Luo Feng to do this as a precaution.

"Palace of Emperor Chu?" Godly King Jia Yin frowned slightly.

As a bustling city, Chu Capital City didn't prohibit entry or exit, with countless citizens thriving within. Teleporting into Chu Capital City was unrestricted, and Monarch Level beings could instantaneously obliterate Luo Feng's avatar.

But the Palace of Emperor Chu, if not permitted, was forbidden to enter. Without access to the palace, naturally, Luo Feng could not be encountered.

"Emperor Chu allowing you to reside within the Palace of Emperor Chu, he truly values you highly," Godly King Jia Yin realized she couldn't pose a threat, immediately saying, "Thunder Ancient Country hopes that you, Luo He, will forever give up competing for the border treasures. Brother Luo He, name your terms."

Luo Feng looked at her with a smile, "I want to enter the treasure trove left by Yuan."

Godly King Jia Yin's expression changed slightly, "The treasure trove left by Yuan?"

"Yes, any treasury will do. I'm not picky," Luo Feng said.

Godly King Jia Yin looked at Luo Feng, "Choose another condition. The resources left by Yuan will not be released by the Imperial Clan of Thunder Ancient Country."

"That's the condition," Luo Feng said, "If you don't agree, then forget it. I'll continue to compete for the border's natural treasures. One Hundred Eras, a thousand eras... I have time."

Godly King Jia Yin shook her head lightly, "Forget it, I'll go back and consult the Monarch. It's not up to me to decide."

Even for the two Ancient Countries, the resources left by Yuan were the most core. Those brought back by the Ancestors were secondary.

Even the Alien races that traversed the far Primordial Space to reach

the Land of Origin did so in pursuit of the resources left by Yuan.

After speaking, Godly King Jia Yin stood up and disappeared without a trace.

"According to what master said, my chances of success should be quite high." Luo Feng waited patiently, as a non-Imperial Clan powerhouse aspiring to enter the treasure places left by Yuan. According to his master's insights, this was the only way.

******

Mt. Leiting.

"What?" The Monarch Lei Xiao, bathing in thunder, was somewhat surprised, "He wants to enter the treasure place left by Yuan?"

"Yes, that's his only condition. He would accept any treasure place," Godly King Jia Yin stated, "If we do not agree, he will continue to compete for the border's natural treasures."

Lei Xiao considered it carefully.

While spots to enter the treasure place were precious, they still had their value.

The natural treasures nurtured along the border, while ordinary individually, amassed altogether and accumulating over time... their value was truly terrifying.

"In one thousand eras, the natural treasures he contends for will be worth at least five hundred million Merit Points. If he stays at the Primal Chaos Realm for several thousand more eras, our losses will be immense," Godly King Jia Yin stated, "And having such a large quantity monopolized could even cause a shortage of many mid to low-end resources."

Monarch Leixiao understood the meaning of his subordinate.

"Alright, agree to his request, and give him one entry to the least valued treasure site," Monarch Leixiao spoke up.

"The treasure site known as 'Infinite Space', one entry, the exchange price for a guest Godly King is 50 million Merit Points. This is the least valued one," said Godly King Jiayin.

The two major Ancient Countries would also release some peripheral resources for the guest Godly Kings to exchange. But the exchange price remained extremely high.

"Let's go with this entry," Monarch Leixiao thought and took out a silver token from the Royal Treasure Vault, which floated towards Godly King Jiayin.

Godly King Jiayin immediately complied.

...

In Chu Capital, Luo Feng's Cave Dwelling.

"The Monarch has agreed," Godly King Jiayin looked at Luo Feng, "In exchange for an entry to a treasure site left by Yuan, for the promise of Great Saint Luo He to forever give up the competition for rare resources along the border of the two countries."

"Once a promise is made, given the value of this trade, it becomes a significant cause and effect," Godly King Jiayin looked at Luo Feng, "If you break the promise, even if you reach the invincible First Realm of Godly King, through cause-and-effect backlash, all your Avatars can be obliterated in an instant."

"I understand," Luo Feng nodded in realization.

Under normal circumstances, an invincible First Realm Godly King, with an extremely strong ability to preserve life, could not be claimed by Emperors or Monarchs to be instantly obliterated.

But if one sought death by first creating a significant cause and effect and then actively breaking it... The Monarch only needed to use cause-and-effect backlash, and with a timely strike, could annihilate all Avatars.

Since he had promised, Luo Feng naturally would not compete for the treasures. If he really needed some of the rare resources along the

border, he would prefer to purchase them outright.

"This is the entry token to 'Infinite Space,' one of the treasure sites left by Yuan," Godly King Jiayin placed a silver token on the table.

Luo Feng looked at the silver token, full of anticipation.

This was the core opportunity of the Land of Origin! Aside from the Lie Yuan Technique, he had acquired another chance today.

"Buzz." As soon as Luo Feng touched the silver token with his hand, a large amount of information instantly flooded into his memory.

"So this is how it is?"

Luo Feng had some basic understanding of the opportunity.

"The trade is complete."

Godly King Jiayin smiled, "Great Saint Luo He, I've heard that you have imprisoned the true body of the Desert Wind City Lord of our Thunder Ancient Country?"

"Yes," Luo Feng nodded.

The redemption price of merely three hundred billion Cosmic Sand, valued at one million Merit Points, was not yet gathered by Desert Wind City Lord.

"Could you release him?" Godly King Jiayin asked.

"He still owes me 220 billion Cosmic Sand," Luo Feng said.

"I'll pay," declared Godly King Jiayin.

"Then, of course, I can," Luo Feng smiled.

Soon, the Desert Wind City Lord was released.

"Godly King Jiayin," the Desert Wind City Lord, upon seeing Godly King Jiayin, was extremely respectful and grateful, "Thank you, Godly King Jiayin, for saving me."

"I've paid 220 billion Cosmic Sand to save you; from now on you shall serve me, and once the debt is repaid, you will regain your freedom. Is that acceptable?" Godly King Jiayin looked at the Desert Wind City Lord.

"Yes," the Desert Wind City Lord did not hesitate.

All this time he had been trying to gather the Cosmic Sand for ransom. The Godly Kings of the Thunder Ancient Country each took advantage to exploit him heavily, and he had not agreed to them. Finally, there was Godly King Jiayin willing to help him.

"Let's go," Godly King Jiayin immediately left with the Desert Wind City Lord. As they were leaving, the Desert Wind City Lord couldn't help but glance at Luo Feng.

Luo Feng also smiled slightly.

Even with the tyrannical temperament of the Desert Wind City Lord, there was a tremor in his heart, and all he wanted was to be far away from Luo He.

...

After Luo Feng obtained the silver token of the treasure site 'Infinite Space' left by Yuan, he was not in a hurry to enter it; instead, he went to consult with his master first.

"Master, the Thunder Ancient Country has agreed, they've given the entry token for 'Infinite Space'," Luo Feng presented the token.

"Infinite Space?"

Emperor Chu looked at the silver token and nodded softly, "I had guessed long ago that the quota given by the Thunder Ancient Country would definitely be of lower value, but this is too low."

"It's of low value?" Luo Feng inquired.

"The treasure sites left by Yuan, some can drive Godly Kings mad. This one is rather ordinary," Emperor Chu explained, "I'll send you all the information that the Flame Wind Ancient Country has on this

particular treasure site."

Luo Feng soon received the complete information on the treasure site, which was far more detailed than the information that came with the token.

"I feel it's pretty good," after understanding the information, Luo Feng thought that this treasure site 'Infinite Space' was already quite amazing. Of course, it could also be because he hadn't seen any other treasure sites.

"No matter what, explore carefully," Emperor Chu advised, "This treasure site might have some undiscovered secrets. Any treasure site left by Yuan should not be underestimated."

"Yes, Master," Luo Feng immediately replied.

That night.

Luo Feng sat in the Quiet Room within Luo Feng's Cave Dwelling, the Star Tower, holding the silver token.

"According to the information, should one's consciousness be guided by the silver token to enter the treasure site 'Infinite Space'?" Luo Feng's Avatar sat crossed-legged, activating the silver token in his hand.

Buzz.

Immediately a stream of consciousness, led by the token, set off towards the treasure site 'Infinite Space'.

And this silver token also disappeared without a trace! Each token could only be used once and would disappear after use, then it would silently and randomly reappear somewhere in the Land of Origin.

Chapter 168: Episode 4 Chapter 5 Entering the Infinite Space

Luo Feng felt his consciousness being drawn to a distant land.

"Boom～～～"

Consciousness roared as an invisible force gathered to form a strong physical body.

Luo Feng opened his eyes and looked around, he was in a vast expanse of mountains and forests.

"This body..." Luo Feng felt his body, looking the same as he did in the Land of Origin, with the same aura, "This body is much weaker than my Black River Form, it should be a normal Godly King Level body."

Luo Feng wasn't surprised, before coming here, his master, Emperor Chu had provided him with all the details about the exploration treasure ground 'Infinite Space' of the Flame Wind Ancient Country.

The information was also clearly recorded.

"Everyone who comes to Infinite Space has the same strength of body." Luo Feng also knew he had been greatly weakened, a normal body without the Perfect Divine Body, he had lost his formless and intangible ability, and he no longer had the ability to create avatars.

Luo Feng stood in the mountains and forests, sensing the laws that operated between heaven and earth.

"The Origin Great Dao has also been sealed." Luo Feng thought, "According to the exploration of the Flame Wind Ancient Country, this treasure ground has sealed off as many as nineteen Origin Great

Daos, including the nine Origin Great Daos that govern the supreme rules in the Land of Origin."

Nineteen Daos are sealed.

Such as the Origin Dao of Thunderbolt, the Origin Dao of Flame and so on, although not among the supreme rules, the Land of Origin does have such inheritance records. Even both Ancient Countries have methods to cultivate the Origin Dao of Thunderbolt.

"These nineteen Origin Great Daos are the nineteen with a history of inheritance on the Land of Origin."

"All are sealed!"

Moved by a thought, Luo Feng tried to pry into the mysteries of the Great Dao of Destruction Origin, but there was no response from the world around him.

"Just like the information described, I cannot stir even a wisp of law fluctuations." Luo Feng was shocked by 'Yuan's method, a treasure field opened by Yuan himself. If he said he had sealed the nineteen Origin Great Daos, then they were sealed, a strength unimaginably terrifying.

Whoosh.

Luo Feng quickly flew up, and when he reached a high place above the forest, he looked far into the distance in all directions.

With some reference to the terrain, Luo Feng also understood his approximate location.

"Everyone who comes to Infinite Space has the same body and cannot use any of the Origin Great Dao's mysteries." Luo Feng thought, "When we first arrived, we could only rely on our physical body and spiritual will to fight."

"The main ones who enter this treasure ground are Godly Kings."

Very few from the Primal Chaos Realm could enter, generally only transcendents from the Imperial Clan of the two Ancient Countries,

and there were very few of them. For example, there were only five in the Flame Wind Ancient Country's Imperial Clan! How many of them could have come in?

So this treasure ground of Infinite Space is mainly for Godly Kings.

"There are quite a few existence of lordships." Luo Feng was very cautious. Even if the two Ancient Countries allowed some slots to be given to Guest Elders, one slot required 50 million Merit Points, which ordinary Guest Elder Godly Kings couldn't afford.

Those who could exchange were naturally exceptional.

Some Second Realm of Godly King existences, their Spiritual Will might even be at the Ultimate Realm of God King! In front of them, Luo Feng still seemed to lack accumulation.

"Just arrived and can only rely on the physical body and Spiritual Will. However, as time passes, new paths can be opened up," Luo Feng thought, "Aside from the nineteen Origin Great Daos that are sealed, if a new path that is opened up, it can be used in Infinite Space."

"According to the information,"

"Infinite Space tests three things."

"First, the strength of the Spiritual Will."

"Second, opening up new paths."

"Third, single-handedly killing indigenous creatures in Infinite Space."

"Achievements in these three areas can all earn 'Reward Points', and afterward, those points can be used to exchange for various resources in Infinite Space, including inheritances, Weapon Secret Treasures, and cultivation aiding treasures."

Luo Feng felt that this treasure ground was still quite good.

However, to many ancient beings in the Land of Origin, the hard-earned Reward Points were ultimately only exchanged for some

resources. It was similar to the Guest Elder system of the two Ancient Countries, accumulating Merit Points to exchange for resources.

The only difference is that the exchange in Infinite Space has a higher limit! Stronger inheritances, more precious treasures... but the required Reward Points are also frighteningly high.

Earning Reward Points in Infinite Space is too difficult!

Among the many treasure lands left by Yuan, the allure of Infinite Space was naturally low.

"I'm merely a Second Realm of Godly King in terms of Spiritual Will, among the competitors in this treasure land, I should be quite average." Luo Feng shook his head slightly, "After all, I am just at the Primal Chaos Realm, and it is extremely difficult for my spiritual will to advance further."

Although he practised the Lie Yuan Technique and the Great Destruction Heart Refining Technique, advancement was extremely difficult. Even a bit of negligence could cause the Spiritual Will to regress instead of progress.

"Develop a new path?" Luo Feng did have an idea.

He had long been contemplating developing the 'Great Dao of Life and Death', but in his plan, he would first solidify his foundation and grasp more of the Great Dao of Life Origin and the Great Dao of Destruction Origin. After that, he planned to try merging them into one, transforming them into the Great Dao of Life and Death.

"In Infinite Space, nineteen Origin Great Daos have been sealed, and both the paths of life and destruction have been sealed. I might as well try to completely merge and pave the way for the Great Dao of Life and Death," Luo Feng thought.

"The third item, single-handedly killing indigenous creatures." Luo Feng also found it troublesome, "The places in Infinite Space where local creatures are abundant must have already been taken over by the major forces."

Compared to enhancing Spiritual Will or developing new paths,

single-handedly killing indigenous creatures was actually the easiest.

...

Whoosh.

Luo Feng left the mountain forest quickly, flying towards the area occupied by the Flame Wind Ancient Country recorded in the information.

```

As the Origin Dao of Space was also sealed, Luo Feng could only fly slowly.

After flying for a long time, Luo Feng unexpectedly came into contact with a vast and lurking Spiritual Will. This Spiritual Will had an incredibly wide range of influence, and when it was hidden and restrained, Luo Feng didn't notice it at all.

Upon contact, the vast will swept over Luo Feng.

Using the Lie Yuan Technique to protect his inward spirit, Luo Feng resisted this vast will, which was clearly much stronger than his own.

"The will of someone at the Ultimate Realm of God King?" Luo Feng made a guess, feeling that the other party was definitely stronger than himself, but not to the point of complete suppression.

"Is it Luo He from the Flame Wind Ancient Country?" the vast will asked as it enveloped Luo Feng.

Luo Feng's ordinary physical body couldn't disguise its aura; his aura was completely unobscured, naturally allowing him to be instantly recognized.

"Who are you?" Luo Feng didn't know the identity of the other party.

"I am the 'God of Fire' from the Two Realms Palace," the vast will said. "This area is also the territory of our Two Realms Palace, so leave quickly!"
```

Luo Feng didn't say much and immediately flew away quickly.

...

"This is the territory of the Thunder Ancient Country, leave quickly!"

...

"This is the domain of Wanfa Tower, depart swiftly!"

...

Although Luo Feng had obtained information from his master, the territories within Infinite Space often changed! A single ancient existence could dominate a vast area.

On Luo Feng's journey, he encountered six areas occupied solely by the Two Realms Palace, each of which had the presence of a Spiritual Will at the Ultimate Realm of God King.

These were territories occupied by powerful forces or exclusively claimed by some formidable ancient existences.

Luo Feng flew cautiously.

"We have arrived."

Luo Feng reached a territory documented in the intelligence, which was the closest one owned by the Flame Wind Ancient Country.

A vast will enveloped him.

"Hm?" Luo Feng's expression changed.

The will carried an unfathomably gruesome aura that merely brushed past Luo Feng but made his Spiritual Will tremble. During the touch, Luo Feng even thought of the Catastrophe Beast.

"Far surpassing me, I've encountered quite a few ancient existences' Spiritual Will since coming to this Infinite Space treasure land, some of which attained the will of the Ultimate Realm of God King. But... this is the first will surpassing the level of the Ultimate Realm of God

King." Luo Feng was certain.

This crushing strength gave Luo Feng the sense that without the Lie Yuan Technique in operation defending him, his Spiritual Will in Infinite Space would have been directly obliterated.

"Luo He?" the will noticed Luo Feng. "To be a being from the Primal Chaos Realm and yet make it here. You must have cultivated the Calamity Beast Diagram; your Spiritual Will contains quite a bit of the Catastrophe Beast's essence."

Luo Feng replied with due respect, "Yes, I have cultivated the Calamity Beast Diagram, and it has been a great help to me."

"I am Emperor Ming, the creator of the Calamity Beast Diagram," the will revealed.

Luo Feng was inwardly shocked.

Emperor Ming, one of the thirteen Emperors of the Flame Wind Ancient Country.

Emperor Ming also cultivated the Primordial Bloodline. Generally speaking, he and Luo Feng's master, Emperor Chu, were not from the same faction.

The tale of Emperor Ming's rise was a legend in the Imperial Clan of the Flame Wind Ancient Country. He was an exile in a minor cosmos, born within it, his origins the humblest of all. Yet, he forged ahead, eventually leaving the minor cosmos, becoming a noble of the Imperial Clan, ascending to Godly King, and finally, to Emperor.

Among the thirteen Emperors, he had the most humble beginnings, but that garnered the admiration of countless members of the Imperial Clan.

"Such a terrifying will." Luo Feng sensed the unfathomable and solemn will of Emperor Ming; even though he also cultivated the Primordial Bloodline, Emperor Ming's Spiritual Will was extremely calm, like an immeasurable sea without a ripple.

"You are the disciple of Emperor Chu. I can carve out a small piece of

territory for you within the land occupied by the Flame Wind Ancient Country. There, you will find three native creatures," Emperor Ming offered. "If you feel it's too little, you can try your luck elsewhere."

"Thank you, Your Majesty, I am willing to accept," Luo Feng said respectfully.

A token with only a single opportunity to enter. During the initial stage of entering the treasure land, it was natural for him to keep a low profile, lie low, become familiar with Infinite Space, and gradually increase his strength within it.

"Go then." The terrifying will transmitted a thread of information to Luo Feng, containing the map to that small piece of territory.

"Thank you, Your Majesty." Luo Feng immediately flew towards the location of that territory.

"This Luo He..."

Emperor Ming was quite proud, generally not fond of the other Imperial Emperors. However, he harbored a sliver of goodwill towards Luo He.

"Not of the Imperial Clan and yet making it here from the Primal Chaos Realm is no easy feat." Emperor Ming understood the rarity of the opportunity. Being exiled in a minor cosmos within the Imperial Clan, at the bottom of the hierarchy, was even harder than being an ordinary resident of the Land of Origin, with innate strengths much weaker.

"According to the Ancient Country's investigation, he comes from the Primordial Cosmos, born perhaps even humbler than myself."

"Those born in humility treasure each opportunity all the more," Emperor Ming thought.

Even as an Emperor, he still valued this treasure land greatly! While some elites of the Imperial Clan were picky and chose better treasure lands, Emperor Ming, as one of the pinnacle beings of the Land of Origin, remained here with a shred of consciousness, cultivating in silence.

He was determined to fully exploit every opportunity! This was also one of the reasons why he could ascend to Emperor.

```
```

Chapter 169: Episode 4 Chapter 6 Lie Yuan Technique and Native Species

A man in green robes sitting cross-legged on the grass suddenly opened his eyes, and he saw the silhouette of a man in black clothes landing in the distance.

"Luo He?" The man in green recognized the other at a glance.

Luo Feng also looked over and smiled, nodding, "Godly King Tian Mu."

This man in green was none other than the Godly King Tian Mu from the Thirteen Veins of the Imperial Clan of the Flame Wind Ancient Country, from the 'Emperor Jiu Feng Lineage'.

"I didn't expect to see Great Saint Luo He here," said Godly King Tian Mu as he stepped forward to greet Luo Feng warmly.

As a Godly King of the Imperial Clan of the Flame Wind Ancient Country, he naturally had a sense of pride! But facing Great Saint Luo He, Godly King Tian Mu was very humble and friendly. After all, everyone knew that in the not-too-distant future, Great Saint Luo He could very well be an Overlord-level existence in the Land of Origin.

He, Godly King Tian Mu, was still only at the First Realm of Godly King, in terms of strength, he was merely on par with Luo He at the moment.

Bear in mind, Luo He was a Transcendence of Primal Chaos Realm! How could Godly King Tian Mu feel any pride?

"His Majesty is kind enough to let me hunt here," Luo Feng said.

"Our Flame Wind Ancient Country has many territories in the Infinite Space, but the region governed by His Majesty is the safest," Godly King Tian Mu said, "For His Majesty to allocate a piece of territory to you, it shows how much he values you."

Godly King Tian Mu said this outwardly but was quite surprised inwardly.

Everyone knew that Emperor Ming and Emperor Chu did not have a good relationship. Yet, he was willing to help Luo He, which was indeed very rare.

"By the way." full of curiosity, Godly King Tian Mu asked, "Great Saint Luo He, how did you get the opportunity to come here? Even for the Transcendents of Primal Chaos Realm from our Imperial Clan, there is only one chance to enter this sacred place. To get more chances, one needs to exchange them for Merit Points."

"To get more chances, one must exchange?" Luo Feng asked, "How many Merit Points can it be exchanged for?"

"For internal exchanges within the Imperial Clan, it's one-tenth of the Guest Elders' quota," Godly King Tian Mu didn't hide the fact since it had long been no secret over the ages, "For Guest Elder Godly Kings, an entry quota to Infinite Space costs fifty million Merit Points. For the Imperial Clan, it costs five million Merit Points per entry.

Even so, for us at the First Realm of Godly King, it's not easy to accumulate five million Merit Points."

Luo Feng understood.

For a Godly King who is not from the two great Imperial Clans, to accumulate fifty million Merit Points, or to wrest resources from the two great Ancient Countries, they are surely not ordinary Godly Kings.

"The opportunity I got to come in was from the Thunder Ancient Country," Luo Feng did not hide it.

"Oh?" Godly King Tian Mu was surprised.

"It took quite a bit of effort," Luo Feng did not elaborate.

Watching Luo Feng, Godly King Tian Mu laughed with admiration, "Apart from the two great Imperial Clans, being able to enter the treasure lands left by the Ancestor at the Primal Chaos Realm stage is a rarity in the entire history of the Land of Origin. I can guess that Great Saint Luo He seized this opportunity through sheer strength."

"Compared to Great Saint Luo He, we who have been nurtured by our family's resources seem mediocre," said Godly King Tian Mu, shaking his head.

"Who dares call a Godly King mediocre? I'm still stuck at a bottleneck," Luo Feng said.

"Haha, it's not a bottleneck for you, it won't be long before you become a Godly King," Godly King Tian Mu said. In his light-hearted talk, he treated Luo Feng as an equal, without the usual sense of condescension that Godly Kings had towards those at the Primal Chaos Realm.

The two chatted leisurely for a while before parting.

Luo Feng was quite moved. Internally within the Imperial Clan, five million Merit Points for an exchange, with some efforts by the Godly Kings, they could accumulate that amount. But for Guest Elder Godly Kings, fifty million Merit Points... it was much more daunting to accumulate.

Especially some ancient existences with sufficient strength, who naturally formed alliances and began to vie and compete for resources based on strength.

The two supreme Ancestors had never interfered in these conflicts, perhaps because they were disdainful, or perhaps because those resources were left by the Ancestor.

"The hunting ground Emperor Ming gave me has three native creatures," Luo Feng flew towards the nearest native creature based on the intelligence.

After flying for more than ten breaths, Luo Feng saw the creature.

"Hmm?"

Luo Feng observed the native creature.

This native creature existed between the real and the illusory, its eight enormous tentacles permeating the Void. In the center of its vast body was an enormous head, with a blood-red solitary eye on it watching Luo Feng intently.

Merely observing, there was an invisible Spiritual Power infiltrating to influence.

Luo Feng, with his own Spirit at the Second Realm of Godly King and the Lie Yuan Technique to guard him, naturally treated it as if it were just a breeze.

"According to intelligence, every single native creature in Infinite Space is a creature of the spirit, with Spirit as their core and their physical bodies secondary," Luo Feng thought, "Their activity range is very limited."

This huge tentacled creature also observed Luo Feng, pondering, "As my will descends upon this mystical land, this alien strongman will be my ninth ordeal! I must survive a thousand tribulations to transform."

"A thousand trials, without success, there can only be death." This tentacled creature was equally patient.

Boom!

Luo Feng made his move, and although nineteen Origin Great Dao in the Infinite Space were sealed, the most basic Law of Primal Chaos could still be executed.

The tentacled creature also lashed out with its enormous tentacles, each with a terrifying might—each having Godly King Level strength, not the least bit inferior to Luo Feng's Physical Body.

However... in terms of skill, this tentacled creature was far from the Law of Primal Chaos, appearing extremely crude.

"Bang." Like an afterimage, Luo Feng instantly dodged the tentacles' strikes, his foot stabbing like a knife-point into the creature's enormous head, blowing a bloody cavity into it.

"Woo—" A low roar sounded, and an even more chaotic Spiritual Power suddenly erupted, assaulting Luo Feng's Spiritual Will.

"This alien strongman, his will is too terrifying, I can't infiltrate a trace," the tentacled creature was somewhat shocked as it had previously gone through tribulations and encountered other Godly Kings in the Infinite Space.

The strongest one was merely a Godly King with Spirit at the Second Realm, who did not possess the Law of Lie Yuan Technique, and it was still able to contaminate and infiltrate a little.

Bang! Bang! Bang! Bang! Bang! Bang!

The body of the tentacled creature exploded time and time again; it was indeed far inferior to Luo Feng in close combat.

As its injuries became more severe.

"Tear." Luo Feng also ripped apart an already damaged giant tentacle.

```

Luo Feng, with his overwhelming advantage in close combat, took about the time of a tea ceremony to utterly tear the tentacle creature to shreds, even destroying it bit by bit. However, the immense will of the tentacle creature still loomed there.

"Buzz."

Suddenly, under the manipulation of the ethereal will, invisible forces converged, and in just a few breaths, the forces coalesced into the form of the tentacle creature again.

"It's recovered." Luo Feng watched this scene, not at all surprised.

"According to the information, it is impossible to kill the native creatures of Infinite Space through normal physical combat." Luo
```

Feng thought, "Even if I destroy its body time after time, it would take hundreds or even thousands of annihilations before it sustains any injury, and it will vanish for a long time... and after a long while, it will recover and return."

"Forcing it to disappear will earn me 1 Reward Point."

Because they can't be killed, Emperor Ming allocated only three native creatures to Luo Feng's territory.

These three native creatures, they are enough for Luo Feng to keep killing endlessly.

"The only way to kill them completely is to annihilate their will. It will then die completely and never recover," Luo Feng thought, "According to the information, even the weakest native creature requires the will of the Ultimate Realm of Godly King to possibly annihilate it completely."

"I have only the Second Realm of Godly King Spiritual Will, in combination with the Lie Yuan Technique, I wonder if I can wipe it out."

Luo Feng looked at the tentacle creature in front of him.

The tentacle creature also observed Luo Feng.

"This is my calamity, the ninth one..." The tentacle creature, with its long life, naturally had a lot of patience.

Suddenly, everything in front of the tentacle creature disappeared.

It couldn't see anything else, only a majestic spinning star. The colossal star, rolling forward, directly crushed and impacted the chaotic and frantic spiritual power of the tentacle creature.

Splat~~~

The tentacle creature's chaotic and frantic spiritual power was crushed by nearly eighty percent in an instant.

"Not good." The tentacle creature also saw Luo Feng, and at this

moment, within its giant blood-red eye was shock and anger, it voluntarily disintegrated its body in an instant, and its spiritual conscience completely departed.

...

A distant world.

This world, with thousands of countries vying for control, countless creatures struggling to survive, and cultivators among them. The true master of this world... are some terrifying beings, and these terrifying beings are known as—Demons.

Demons, immortal and imperishable, feed on the seven emotions and six desires of living beings.

"Oooh——" In the depths of the ocean of this world, there was an immensely huge tentacle creature, occupying about a third of the entire ocean, which was also the forbidden sea of this world.

This tentacle creature was also the origin of the world's Demonic overlords! The most terrifying and dreadful being, it was also the heavenly way of this world!

The world's numerous cultivators, they derived their cultivation paths from this being.

"My ninth calamity turned out to be so terrifying! He actually obliterated nearly eighty percent of my spiritual power in one strike?" The single eye of the tentacle creature also contained a trace of fear.

The origin of the Demonic overlords of this world, an existence like the heavenly way, actually feeling fear? If the cultivators of this world knew this, they would likely find it unbelievable.

"However, what he obliterated were the most chaotic and disordered of my thoughts." The tentacle creature also realized this, "What remains are even more pure and concentrated."

"I feed on the seven emotions and six desires of innumerable living beings of this world, which also has made me more chaotic."

"The ordeal of a thousand tribulations is both a calamity and a tempering."

"Once I get through it, I can completely transform."

Having been hit once, the tentacle creature also saw the benefits, but it still needed to recuperate, "When the time comes, I must descend again, and this calamity is much more difficult and terrible than the previous ones."

In the process of undergoing a thousand tribulations, one can rest temporarily, but cannot shrink back. One must endure each tribulation in turn.

...

After the tentacle creature voluntarily disappeared, it did not show up again.

Normally, physical combat would take hundreds to thousands of times to force it to vanish. Just one hit from the Lie Yuan Technique, and the tentacle creature took off.

"It's a pity, I couldn't kill it completely," Luo Feng shook his head slightly, "My Spiritual Will is still not strong enough."

Even the will of the Ultimate Realm of Godly King, using some powerful Secret Techniques of Willpower, is only hopeful of annihilating it completely. If my Spiritual Will were a few percentage points stronger, perhaps I could have destroyed it in one strike.

"These chaotic thoughts."

Luo Feng frowned slightly as he realized that while destroying nearly eighty percent of the creature's spiritual power, a large number of chaotic thoughts contaminated his own Spiritual Will, with the various emotions and desires of countless creatures tainting his own being. This was also the aftermath of using Spiritual Will against such native creatures.

Suddenly——

"Boom~~"

Invisible laws descended and enveloped Luo Feng.

"Trialist: Luo He from Land of Origin"

"For repelling a Spiritual Being once, Reward Points: 1 (All resources in the treasure trove can be exchanged with Reward Points)."

"Fighting with the basic Law of Primal Chaos, new Dao evaluation: low. Reward Points: 0. You have not carved out any new Dao, more effort is needed."

"Your body of Primal Chaos Realm reaching the will of the Second Realm of Godly King, Spiritual Will evaluation: medium. Reward Points: 100. Your Spiritual Will is barely passable, improvement is needed."

"Total Reward Points: 101."

```
```

Chapter 170: Episode 4, Chapter 7: The Treasure Trove of Infinite Space

The formless rules descended for just a moment before receding.

Luo Feng looked at the palm of his left hand where a rule imprint had appeared. This imprint could connect to the rules of Infinite Space, allowing him to check his Reward Points information and exchange them for resources from the treasure trove.

"Earning Reward Points in Infinite Space is indeed difficult," Luo Feng mused. "Repelling spiritual beings only awards maximum points the first time, which is 1 point. Each subsequent time, the reward decreases. I heard that after a hundred times, each time awards less than 0.01 point…"

"Infinite Space highly values the forging of new Great Daos," Luo Feng thought. "And it places great importance on Spiritual Will."

"This is a treasure land left by the Ancestor."

"It's apparent that his selection for descendants primarily focuses on forging new Great Daos and on Spiritual Will."

"Perhaps how far one's cultivation journey can go is related to these two aspects."

Luo Feng speculated.

"Standing at the Ancestor's heights, he valued not the comprehension of existing Great Daos but the creation of new ones. Could this be related to something beyond the Ultimate Realm of God King?" Luo Feng pondered, then smiled, "One step at a time."

The Ultimate Realm of God King was still very far from him; across the entire Land of Origin, there were only a few at the Ultimate Realm of God King, about whom Luo Feng currently had no detailed information.

"Let's take a look at the treasure trove first."

Through the rule imprint, Luo Feng began to access the treasure trove's resources, coming into contact with a vast amount of information instantly.

Luo Feng had 101 points, allowing him to view resources information that didn't exceed 101 Reward Points.

"These Reward Points really last," said Luo Feng as his eyes lit up upon checking.

Luo Feng first looked at the inheritance information.

Ranked first in the inheritance, the "Nine Realms of Extinction," First Realm (Perfection Level Inheritance), required 100 Reward Points for exchange! This is a 'perfect' inheritance feasible across all origin worlds, corresponding to the First Realm of Godly King.

As a Perfection Level Inheritance, it's actually impossible for Godly King Level cultivators to fully master it, but even slight success is already remarkable.

Danger reminder: The entry threshold for the "Nine Realms of Extinction" First Realm is extremely high, requiring surpassing the Godly-King's Will to attempt cultivation. Otherwise, one will be assimilated by the Great Dao of Destruction Origin of this world.

"What is this? An inheritance of the First Realm of Godly King level requires surpassing Godly-King's Will to attempt cultivation?" Luo Feng found it unbelievable. "And it also says it's practically impossible to fully master?"

This was left by the Ancestor.

The Ancestor dared say that no Godly King could fully master it. There must be a reason.

The requirements for merely entering, with respect to Spiritual Will, show just how terrifying this inheritance is.

"Feasible across all origin worlds, theoretically perfect?" Luo Feng sensed the hidden messages in these words.

Ranked second in the inheritance, the "Ten Thousand Transformation Divine Body," the first two volumes (Intermediate Grade Inheritance), required 100 Reward Points for exchange! Corresponding to the Second Realm of Godly King.

...

Luo Feng carefully reviewed it and saw only two Perfection Level inheritances.

Ranked sixth in the inheritance, the "Temporal Walker," First Volume (Perfection Level Inheritance), required 90 Reward Points for exchange! This is a 'perfect' inheritance feasible across all origin worlds, corresponding to the First Realm of Godly King.

The difficulty of entering this inheritance is exceedingly high. Of the over ten thousand exchangers to date, only three have managed to enter, all of whom surpassed the Ultimate Realm of God King.

Danger reminders: 1, Surpass Godly-King's Will to attempt cultivation, otherwise there will be the disaster of becoming lost.

2, Comprehend all branches of the Time Primordial Dao and Origin Dao of Space before attempting cultivation. Forcing comprehension can lead to the calamity of temporal and spatial annihilation.

3, This dao involves the fusion of time and space, requiring extreme talents in space-time paths, otherwise misfortune abounds.

"Why does it speak of boundless misfortune?" Luo Feng mused, looking somewhat puzzled. These three danger reminders, especially the third, put it ambiguously. Not having extreme talent means boundless misfortune.

No wonder, despite being a Perfection Level Inheritance, it required fewer Reward Points than "Nine Realms of Extinction". It seemed

significantly more dangerous.

"These theoretically perfect inheritances, even stating that it's impossible for Godly King Level to fully master them, then who created them?" Luo Feng secretly guessed that it might be some extremely terrifying beings, achieving incomprehensible realms to create these inheritances.

Because they are too perfect, resulting in extremely high entry requirements.

...

Just by looking at the treasure trove, Luo Feng already noticed the difference between the inheritances exchanged between the two Ancient Countries and this Infinite Space treasure trove.

The inheritances exchanged by the two Ancient Countries were left by two Ancestors! They were not as high-class as those in this Infinite Space treasure trove. But to exchange for anything in this Infinite Space treasure trove required a lot of Reward Points, which were extremely difficult to obtain.

"Hmm?" Luo Feng suddenly brightened and quickly continued to read, discovering a familiar inheritance.

"Eight Tribulations Life Form," First Calamity (Superior Inheritance), required 5 Reward Points for exchange, corresponding to the First Realm of Godly King.

This level of inheritance, divided into eight calamities, is relatively easier for cultivation and is considered superior among the enlightenment lineage inheritances.

"Superior inheritance?" Luo Feng had already discovered it.

This treasure trove's collected inheritances were categorized into Intermediate Inheritance, Superior Inheritance, Special Grade Inheritance, and Perfection Inheritance.

In the Flame Wind Ancient Country, among the inheritances cultivated without external aid at the First Realm of Godly King,

"Eight Tribulations Life Form" First Calamity is considered the highest grade. However, here, it is only deemed superior.

...

Luo Feng studied for a long time, carefully understanding all inheritance information, and summarized some points.

"Perfection Level Inheritances reach theoretical perfection but have extremely high thresholds. It is practically impossible to fully master them, and just mastering a small part is already outstanding," Luo Feng concluded.

"Special Grade Inheritances also have extremely high thresholds. It's possible for those at the Godly King Tier to fully master them, but the probability is extremely low, maybe not even one Godly King in an entire origin world can cultivate to a higher realm; just entering is considered difficult enough."

"Superior Inheritances are suitably wide-ranging."

"Intermediate Inheritances are typically cultivated by Godly Kings."

"Lower than these? Not worth mentioning."

Inheritances like the Heartshadow Sect and the Duan Dong River lineage, which are merely left by the first realm of Godly King, are scarcely worth mentioning.

Luo Feng, within this treasure trove, had taken a liking to one particular inheritance.

"World Life Form" Part One (Special Grade Inheritance), requires 30 Reward Points for exchange, corresponding to the first realm of Godly King Tier.

This inheritance requires simultaneous cultivation of the Great Dao of Life Origin and the Origin Dao of Matter.

Reminder: All six branches of the Great Dao of Life Origin and all eight branches of the Origin Dao of Matter must be fully comprehended to gain entry.

This inheritance involves treating one's own life form as 'a world' in cultivation, with the ultimate goal of transforming one's life form into a 'source world', hence the high potential.

"The ten-directional world form I am pursuing now has similarities with this inheritance,"

"My 'Formless and Intangible' can substitute some capabilities of the Origin Dao of Matter."

"Perhaps I could try cultivating it?"

Luo Feng was very tempted.

Because the philosophy behind this inheritance was very similar to his Transformation Method.

Luo Feng thought for a moment, regardless, it ultimately encompassed all six branches of the Great Dao of Life Origin, and just contemplating this aspect would not be too much of a loss. Moreover, it should greatly benefit the improvement of his Transformation Method.

"Exchanged!" Luo Feng immediately decided and chose to exchange for this special-grade inheritance.

"Hum."

A large amount of information was transmitted to him.

"World Life Form" was created by an old friend of Yuan, this inheritance was divided into three parts, corresponding to the first realm, the second realm, and the ultimate realm of Godly King, these three levels of content.

As for higher-level content, it must be personally taught by Yuan's old friend.

"Excellent!" As soon as Luo Feng received the inheritance, he was exposed to a massive amount of information.

The creator of this inheritance had attained inconceivable depths in

the research of life forms and source worlds.

This inheritance, including the triune form, the ten-directional world form, the twenty-four aspected form, were just part of the many forms. The integration of life form and matter was particularly profound.

"This is what a Special Grade Inheritance is," Luo Feng sighed internally.

It was incredibly powerful.

Although he possessed the 'Transformation Method', compared to the complete Origin Dao of Matter, it seemed weak. Luo Feng faintly realized that following this path would eventually lead him to a significant bottleneck.

"In the early stages, using the Transformation Method could indeed compensate for the requirements of the Origin Dao of Matter, allowing the cultivation of 'World Life Form', but in the future... I suppose I will still need to use 'Eight Tribulations Life Form' and 'World Life Form' as aids to forge my own path," Luo Feng thought.

Subsequently, Luo Feng sat cross-legged in the forest and began to study this newly acquired special-grade inheritance in detail.

...

Although the Infinite Space guides its entrants to forge their own paths, Luo Feng was keenly aware that he was only at the Primal Chaos Realm, without true mastery over even one branch of the Origin Great Dao.

Forge a Dao? It could accumulate slowly, but he did not stress over it.

Keep in mind, within the Infinite Space, most were Godly Kings, and there were even beings at the emperor level. They had profound accumulations and could attempt to forge their own paths.

"This spiritual impurity."

Every one of Luo Feng's avatars felt some pollution in the spirit.

It was the lingering effect of severely injuring a spiritual life form in the Infinite Space, as various desires and prayers of countless creatures echoed within Luo Feng's spirit.

"Hiss Hiss Hiss～～～"

Luo Feng, in his usual state, was deploying the Destruction Refinement Method.

With his own spiritual will as the foundation and the intent of all things and all forms of destruction, he employed the 'Destruction Refinement Method', creating a world-destroying grindstone, aiming to completely erase his own spiritual power.

His own strength, to erase himself.

Thus, no matter how much Luo Feng's spiritual will improved, this Heart Refining Method remained effective.

"Hiss Hiss Hiss." In the past, when using the Destruction Refinement Method to purify his spirit, Luo Feng always felt progress was painfully slow.

But now, affected by a great deal of spiritual pollution, the effect of erasure was notably greater.

Luo Feng also felt pain, as if bits of his soul were being peeled and crushed, though this was just an illusion brought about by the pollution. This signified the terrifying extent of severe spiritual pollution.

"Indestructible through myriad calamities."

Luo Feng suddenly gained a deeper understanding of the Calamity Beast Diagram.

In this treasure spot of Infinite Space, where the will and spiritual beings collided and became polluted, then erasing this pollution was itself a purification of the spirit.

Each purification was another form of spiritual cultivation.

"Elder Yuan truly had deep intentions, guiding us to purify our spirits and forge our own paths." Luo Feng felt fortunate to have received this opportunity, which might seem ordinary to the imperial clans of the two ancient countries.

Yet, Luo Feng felt that this opportunity brightened his forward path significantly, and based solely on this opportunity, he was even more confident about reaching higher levels in the Land of Origin.

"Eliminating all spiritual pollution indeed makes the spirit feel more ethereal, and the will more condensed," Luo Feng was secretly astonished, as just one purification noticeably increased his perception of improvement.

The results were quite good; apparently, the "Destruction Refinement Method" was more suitable when combined with spiritual pollution.

Subsequently, Luo Feng began to focus on comprehending this newly acquired special-grade inheritance.

Chapter 171: Episode 4 Chapter 8 Centennial Years

At the border of the Flame Wind Ancient Country, Xiangjie City.

In a quiet room of the Garrison Mansion, Luo Feng sat cross-legged with a jug in his hand, taking a sip. The jug contained the 'Shengbing Precious Medicine', a cultivation aid he had purchased, made from Godly King Exotic Beast Materials. After consuming it, Luo Feng felt his soul become much cooler and clearer.

"It's worthy of being a special grade inheritance." Luo Feng had spent tens of thousands of days to superficially research this special grade inheritance "World Life Form."

"Simply the guidance within the inheritance makes these 30 Reward Points very worthwhile."

This inheritance was created by an old friend of Yuan!

The creator's strength was too high, far surpassing the creators of "Eight Tribulations Life Form" and "Extermination of Seventy-Two Blades." Just a few words within the inheritance made Luo Feng realize some key points on the path of cultivation.

"Life within the Braided Cage has the Origin Great Dao as a reference, so the difficulty of cultivation is relatively low."

"But outside the Braided Cage, cultivation is like groping in the dark, blazing one's own trail. The difficulty of cultivation is unknowably higher."

"Therefore, from a negligible state, one must enhance one's wisdom."

"Any aspect of a cultivator can be enhanced! Physical body,

movement technique, wisdom, insight, soul, will... There are ways to cultivate all aspects, but insight is the most ethereal among them."

Luo Feng quite agreed with this point.

Insight is very ethereal. Among countless cultivators, it's generally augmented by consuming rarities like the Primordial Crystal Spirit Fruit, which nourishes the soul, and to a certain extent, can be considered an improvement in insight.

Or when the spiritual will becomes strong! Once the spiritual will strengthens, insight indeed improves.

Or by specifically cultivating the soul. The path of the soul is the toughest path, but a fundamental improvement of the soul's essence indeed brings about an elevation in insight.

Or if the physical body becomes extremely strong, it will nourish the soul, and make thinking more swift, which is also helpful to insight.

But these are all indirect methods!

"How far one can journey on the Great Dao, insight is fundamental."

"How to improve insight?"

"I have a method: use the intricacies of a lower realm to create high-level secret techniques."

Luo Feng also fully understood the creator's thoughts.

For example, the Trinity Form. If one intuits the six branches of the Great Dao of Life Origin and uses the complete six branches… one could easily create the Trinity Form without any difficulty.

But if one attempts to create the Trinity Secret Technique with merely the intricacies of the Pinnacle of Primal Chaos Realm, the difficulty skyrockets immediately. This process of trial can gradually lead to a slow elevation in insight.

"According to the teachings of the creator of the inheritance, in cultivation, one should not deliberately pursue breakthroughs."

"One should continuously attempt to create high-level secret techniques from a lower realm state. Create one, two, five, ten! When accumulated to a profound depth, even without deliberate breakthroughs, one day it will naturally happen."

"In the cultivation at the Godly King Tier, there is clear guidance from the Origin Great Dao! It is the best opportunity to refine one's insight."

"Once one surpasses the Godly King level, one is forced to grope in the dark."

"Many cultivators are used to having the guidance of the Great Dao. Suddenly groping in the darkness, progress becomes difficult. Not to mention completely jumping out of the Braided Cage."

This expansive inheritance opened Luo Feng's horizons.

Luo Feng's mindset had changed; previously, he indulged in the Primordial Crystal Spirit Fruit, always yearning to master a branch of the Great Dao and breakthrough in realm.

Now it seems, what's crucial is to train the ability to grope in the dark, to train insight. The breakthrough of the Great Dao realm is naturally occurring.

"My cultivation progress is already swift, there's no need to rush."

"I'll try, with Primal Chaos Layer Dao intricacies, to create Godly King level secret techniques." Luo Feng thought, those who manage to create secret techniques and achieve transcending the Primal Chaos Realm are such mighty beings.

Luo Feng's Trinity Form was a Godly King level secret technique. But he had only created one so far.

"I can also research materials from Primordial Bloodline creatures, study their life forms." Instantly, an avatar of Luo Feng, through the subdued world's entrance, headed to that subdued world.

...

This world under garrison, named Xiangjie, teemed with lifeforms of Primordial Bloodlines at the Primal Chaos Layer.

Primal Chaos Realm strength signified that Primordial Bloodlines were already at their thinnest! If they degraded further, they would begin to lose the characteristics of a Primordial Bloodline.

"Huff, huff, huff～～～" A colossal creature resembling a rock sculpture lay prostrate, its breath causing storms. Its body sleek, its immense cloven hooves rested there, with its head pillowed atop them.

Suddenly, a man in black appeared nearby.

The colossal creature suddenly opened its eyes and gazed at Luo Feng with its yellow pupils.

"A cultivator?" The colossal creature looked at Luo Feng with wariness and hostility, "What are you doing in our world? Get lost pronto!"

Throughout its years of growth, it had often seen cultivators enter this world; occasionally, some Primordial Bloodline creatures were taken away, never to return.

"Boom!"

Luo Feng extended his hand, and a billion Black Rivers surged out, forming into a gigantic palm that clutched the colossal creature's neck.

He then lifted the vast creature into the air.

"Let go of me, let go!" The colossal creature was in a panic, looking at Luo Feng, "Are you taking me away? I know, you cultivators always take away a batch of Primordial Bloodline creatures, those taken away... they all died, haven't they?"

Indeed, that was the case.

The Primordial Bloodline creatures taken away would have their bloodlines refined again and again, until they perished completely.

They were bred and cultivated with the sole purpose of refining 'diluted versions of Primordial Bloodlines.'

"I need to select some Primordial Bloodline creatures to take away." Luo Feng's gargantuan Black River palm still clutching the creature's neck, said leisurely, "However, as long as you give me some of your body materials, I can spare you."

"Give some materials and you'll let me go?" The colossal creature being held by the neck, feeling the stark difference in strength that left it powerless against Luo Feng.

Even in Xiangjie, the most perfect Primordial Bloodline creatures of the Primal Chaos Layer could, by instinct, only contend with ordinary Godly Kings. Still, they were no match for Luo Feng at that moment.

"Yes, some materials. You must ensure not to destroy these materials with a mere thought. If you destroy the materials, I'll have no choice but to take you with me," Luo Feng said.

The Flame Wind Ancient Country will have envoys to guide the creatures.

But these creatures with Primordial Bloodline can never discern whether they are the envoys themselves.

In their eyes… all beings from outside their world are Cultivators.

"Okay, I'll give it to you." The massive creature, facing the insurmountable gap in strength and without any resistance, willingly bowed its head.

"Very good." Luo Feng nodded in satisfaction, "I'll select some materials."

According to Luo Feng's request, a claw blade, a piece of skin membrane, a small segment of bone, some blood… Although there were many types, the amounts added up to be very minimal.

The massive creature could fully recover in just a few breaths' time.

"Just for such a tiny amount of materials you'll let me go?" It secretly

felt fortunate.

Luo Feng then regularly began collecting small amounts of materials within the garrisoned world. As far as the Flame Wind Ancient Country was concerned, as long as these creatures with Primordial Bloodline were not killed, and the extraction of the 'Primordial Bloodline' wasn't delayed, they wouldn't care how brutally they were beaten.

Luo Feng might deceive, beat, or even directly capture them into the Star Tower!

Capturing one creature into the Star Tower also struck fear into the other creatures with Primordial Bloodlines in that world, making them more compliant in handing over their materials.

Of course, Luo Feng would encounter some obstinate creatures that, no matter how much they suffer, would not bow their heads and refuse to let Luo Feng study even a single drop of their blood.

In that case, Luo Feng could only keep them imprisoned within the Star Tower indefinitely, which also served to maintain his 'infamy' in this world, letting other creatures with Primordial Bloodlines know that refusal to comply with demands for materials would result in being taken away.

Of course…

If one day the envoys from the Flame Wind Ancient Country came to inspect, Luo Feng would simply release the imprisoned creatures back into the world.

As Luo Feng understood, envoys from the Flame Wind Ancient Country would typically only come to inspect once every thousand eras or even more seldom.

******

Time flew swiftly for Cultivators immersed in cultivation and research; era after era relentlessly passed by.

The outside world believed that Luo He, who, by creating his own

Secret Technique, became the first to transcend the Primal Chaos Realm, with his strength, would likely stir up some trouble to garner sufficient benefits for himself.

To their surprise…

Luo He became very low-key.

He no longer took on any missions, didn't get involved in any conflicts, and even in Huyang City, Xiangjie City, and Chu Capital, few Cultivators were ever able to meet Luo He.

In the blink of an eye, Luo Feng had been the Garrison Commander of Xiangjie City for a hundred eras.

…

In the Thunder Ancient Country, Zuoshan City, this city belongs to Zuo Shanjin, the newly emerged transcendent of the Primal Chaos Realm from the Thunder Ancient Country.

As Zuo Shanjin had fully joined the Flame Wind Ancient Country and transcended the Primal Chaos Realm, he was naturally granted a city.

"Primordial Bloodline truly holds countless secrets." Mountain sitting guest sat in a Quiet Room, appearing unremarkable as ever, his aura fully withdrawn, "Primordial Bloodline is like the most perfect Weapon Secret Treasure, filled with endless mysteries of the Great Dao."

Mountain sitting guest was also constantly studying the make-up of the Primordial Bloodline, exploring the mysteries of the Great Dao within it.

As he uncovered the potential of the bloodline, his mastery steadily improved, naturally reaching the transcendence of the Primal Chaos Realm.

For normal Cultivators, transitioning to cultivate the Primordial Bloodline would bring about a metamorphosis in their strength.

"The weak Primordial Bloodline that I have come in contact with,

even its remnants of Spiritual Will, are somewhat troublesome," the eyes of Mountain sitting guest faintly glowed red before he suppressed it, "This will can be suppressed but can't be eradicated."

The remnant Spiritual Will, too high in stature.

"Hmm?"

Mountain sitting guest suddenly flipped his hand and produced a circular token.

"This is the latest intelligence from the Master of the Shi Kingdom." A piece of information suddenly came through.

Mountain sitting guest's nemesis, led by the three Monarchs of the Shi Kingdom with the 'Emperor of Tian Kun' at the forefront, is also the true ruler of the Shi Kingdom.

In Mountain sitting guest's view, his disciple Luo Feng's talent was terrifyingly brilliant, and the other two monarchs pose little threat and would not be difficult to remove in the future. However, the leading 'Emperor of Tian Kun' was more troubling.

After all, the Emperor of Tian Kun was a Second Realm Godly King! Even an Emperor-tier figure wouldn't dare to claim they could completely kill him.

His hatred ran deep into his soul; his kin, his wife were all too weak, lacking the ability to perform the Reincarnation Secret Art and doomed to be completely dead. He naturally yearned to completely kill his enemy.

"The Master of the Shi Kingdom has allied with many friends, ambushing the Monarch of Yu Country in the secret place 'Tianhe,' forcing the Monarch of Yu Country to venture into the depths of Tianhe. The Monarch of Yu Country is in danger of having his True Body fall."

This piece of intelligence slightly changed Mountain sitting guest's expression.

The Master of the Shi Kingdom and the Monarch of Yu Country had

always been at great odds! This time, the Monarch of Yu Country really suffered a heavy blow.

"The Monarch of Yu Country also transitioned to cultivate Primordial Bloodline; countless resources have been poured into his body. If his True Body perishes… his strength will be greatly diminished in a short time," thought Mountain sitting guest.

The Monarch of Yu Country, if dead, wouldn't truly be gone. But without the True Body and relying on a revival host to recover, he would need to buy a new Primordial Bloodline and new resources to cultivate again.

"The situation between the Shi Kingdom and the Yu Kingdom could completely change." Mountain sitting guest was somewhat anxious, "Judging by many actions of the Master of the Shi Kingdom, he must have joined a powerful force, enabling him to repeatedly and quietly gather several Godly King Second Realm beings to strike together silently."

"Strong in his own right, with quick assistance from companions."

The more information the Mountain sitting guest collected, the more he understood the difficulty of seeking vengeance.

"I wonder how my disciple is doing now." Mountain sitting guest knew that relying on himself, there was no hope. Reaching an invincible level in the First Realm of Godly King with the help of the Primordial Bloodline was already quite an accomplishment.

But that level was still weaker as compared to the Emperor of Tian Kun. Not to mention entirely exterminating him.

His only hope lay with his disciple.

"My disciple, with a universe so vast, a godly body so tremendous, has surpassed the history of the Land of Origin! He was able to master the Lie Yuan Technique at a young age. After several decades in the Land of Origin, he is now the first transcendence of the Primal Chaos Realm."

"However, over the last hundred eras, there has been little

information about him." Mountain sitting guest was also not very clear on Luo Feng's situation, and he had not planned to meet and acknowledge Luo Feng.

In his plan, he would only recognize his disciple when Luo Feng's strength was at least comparable to the Emperor of Tian Kun.

Chapter 172: Episode 4 Chapter 9: Striking Out Alone

Xiangjie City had become much more prosperous than it was One Hundred Eras ago.

The incident where the indisputable first in transcendence of Primal Chaos Realm, 'Great Saint Luo He,' was punished to garrison Xiangjie City for ten thousand eras, had fermented over time; even ordinary eternal true god families had heard of it.

Small factions, major family branches, and eternal true god families willing to settle in Xiangjie City were growing in number.

Many trades between the two ancient countries were also carried out here! For one, it was a border city, holding a geographical advantage. Secondly, it was safe! The bigger the trade, the more important safety became. Slaughter and plunder were common occurrences in the Land of Origin.

But with Great Saint Luo He stationed in the city, who would dare to cause trouble here?

"Moyu General."

"Moyu General."

Leading several trusted aides, Moyu Qingyan arrived at the Garrison Mansion, where the guards at the entrance showed great respect.

Nowadays, Moyu Qingyan wielded tremendous power in Xiangjie City! More than ten eras ago, after reaching eternal true god through the Bloodline Cultivation System, both Luo Feng and the Primordial Ancestor intended for him to manage some internal affairs of the city.

The Primordial Ancestor was the deputy garrison commander. Under Luo Feng's command, the Primordial Ancestor represented him within the city.

Moyu Qingyan held the position of Inspection General, taking care of the many trifles within the city.

"Moyu General." Inside the Garrison Mansion, the servants showed great respect upon seeing Moyu Qingyan.

Everyone knew he was the garrison's only direct disciple.

Moyu Qingyan made his way unimpeded. He soon saw a figure sitting leisurely on a high building in the distance and immediately hurried over.

"Master." Moyu Qingyan arrived at the base of the pavilion and respectfully saluted.

"Come up." Luo Feng glanced at his disciple below and smiled.

He was satisfied with this disciple he had taken in. Although Moyu Qingyan was less talented, under Morosa's meticulous teaching, he barely became a true god of void space after great difficulty. Even Morosa decided to let him switch to the easier Bloodline Cultivation System, and with focused resources, he had now also become an eternal true god.

Being less talented was not important; character mattered more.

As Luo Feng's only direct disciple in the Land of Origin, Moyu Qingyan had never misbehaved by using his master's fame. This was why even the Primordial Ancestor kept delegating authority to him.

Moyu Qingyan soon ascended the pavilion and saw his master.

His master appeared ordinary sitting there, but through Moyu Qingyan's Law Source sensing of heaven and earth, he could feel that many operating laws were subtly forming around his master as the center, synchronously operating.

"Qingyan, what brings you here?" Luo Feng looked at his disciple

with a smile.

"Disciple has spent a long time with Zhang Yunge of the Zhang Family. We've discussed it, and I plan to visit her parents in the Zhang Family. Afterward, we will also go together to Huyang City to visit my father," Moyu Qingyan said respectfully.

"Oh? Have you decided on that Zhang Yunge?" Luo Feng asked with a smile.

Cultivators did not necessarily need a daoist couple. Many lived their entire lives devoted solely to cultivation.

A daoist couple was more a companion of the spirit! Choosing a daoist couple was a very cautious matter.

"Disciple has decided," Moyu Qingyan nodded.

"Mhm," Luo Feng nodded, "Although that Zhang Yunge is from the Royal Family, she is very distantly related to the 'Wind Chapter God King.' As my direct disciple, it is sufficient for you to marry her."

The Wind Chapter God King was a First Realm Godly King, a Guest Elder God King of the Flame Wind Ancient Country, with considerable accumulations. His existence was nearly indistinguishable from that of the Ancestral God of the Snow Realm.

Innumerable were the offspring of the Royal Family, and although Zhang Yunge was an eternal true god, he was also a branch of the main lineage of the Royal Family. However, too many generations separated him from the Godly Kings, so his status was not particularly high.

"Luo Sa," Luo Feng immediately summoned Morosa.

Whoosh.

Morosa appeared in the pavilion in a flash, with a smiling face he asked, "Did you want to see me, Master?" He also noticed Moyu Qingyan, who promptly paid his respects.

"The youngster Qingyan has taken a fancy to a girl from the Zhang

Family named 'Zhang Yunge' and is preparing to visit her parents," Luo Feng said with a smile.

"I know," Morosa knew much more than Luo Feng, "I've advised him that cultivation should be his focus! Affairs of the heart will only distract him, but this time he is set on that Zhang Yunge."

"Since it's a formal visit to the Zhang Family, you'll go on my behalf," Luo Feng told him, "After all, you too are of the Primal Chaos Realm. Your presence on my behalf will be enough of an honor for the Zhang Family."

More than a dozen eras ago, after Moyu Qingyan became an eternal true god through the Bloodline Cultivation System, Morosa, with Luo Feng's consent, quickly 'publicized' his strength, revealing that he had broken through to the Primal Chaos Realm.

Luo Feng, as the foremost in transcending the Primal Chaos Realm, had a newly promoted Primal Chaos Realm cultivator by his side! This was quite a common and inconspicuous matter.

After Morosa 'publicized' his Primal Chaos Realm strength, Luo Feng also formally appointed Moyu Qingyan his direct disciple of Morosa! Naturally, Luo Feng understood the affection between Morosa and Moyu Qingyan.

"Alright, I will go on behalf of the Master," Morosa immediately agreed.

"Thank you, Second Master," Moyu Qingyan said as well.

"You're my disciple after all," Morosa was still quite happy to do this.

Suddenly, Luo Feng stretched out his hand and lightly tapped, a droplet of water flew from the tip of his finger and landed in the palm of Moyu Qingyan, turning into a water droplet mark that then vanished from sight.

Moyu Qingyan was a bit puzzled.

Luo Feng said, "You will be heading to the Zhang Family, and afterwards, you'll go to Huyang City. The journey is long, and if you

encounter any dangers... this mark can be activated with a single thought to protect both of you thoroughly."

Morosa's strength he could display was very limited, so Luo Feng still prepared a backup plan for his disciple.

"Thank you, Master," Moyu Qingyan expressed his gratitude.

Looking at this scene, Morosa muttered to himself: "My master is simply transcendent of the Primal Chaos Realm, whereas I am a true God King! But now, I can hardly see through his methods."

"Go now," Luo Feng nodded.

Moyu Qingyan then respectfully took his leave, while Morosa remained in the pavilion.

"Master, shall I go alone?" Morosa looked at his master.

"Remember, control the strength you show. Your limit is five to six-tenths of the strength of Marquis of Jiu Jiang," Luo Feng instructed through telepathy.

"Understood," Morosa nodded in comprehension, "Then I will go and prepare to set out with Qingyan."

Luo Feng nodded.

A disciple's marriage was something Luo Feng preferred not to get too involved in.

Love was also the most splendid journey of his disciple's life.

…

The treasured place "Infinite Space".

Spiritual Beings were entrenched there, while Luo Feng was at a distance.

Their Spiritual Wills collided, fought, and slaughtered! Luo Feng did not use the Lie Yuan Technique but instead used some methods he

had pondered over on his own, allowing his mind to be tainted by chaotic thoughts during the confrontation.

"That's about it," Luo Feng thought after a moment of struggle.

All of his Spiritual Will condensed into a rolling star that came crashing down, directly crushing the vast Spiritual Power of the Spiritual Being.

This crushing instantly obliterated more than ninety percent.

Only a small amount of the purest Spiritual Power regathered.

"The ninth calamity has passed!" A voice rang out in the consciousness of the tentacled creature, and an invisible force descended, nourishing its remaining Spiritual Power and rapidly restoring it to full strength.

The tentacled creature was thrilled at this moment.

It had finally passed through!

The thousand calamities, each one very difficult. This ninth calamity... involved being obliterated by Luo Feng over a thousand times, until the Infinite Space finally recognized that its ninth calamity had passed.

"Hmm?" Luo Feng's expression changed slightly, how did it recover so quickly?

"We have clashed over a thousand times, but we will not meet again," the tentacled creature said to Luo Feng before disappearing into thin air.

Luo Feng pondered, "Not meet again? It seems it's about to disappear."

Some of the native creatures in this Infinite Space were Spiritual Beings. Though they occupied a fixed place and could be continuously destroyed, only a very few Reward Points could be obtained with each defeat.

The more times they were repelled, the more the Reward Points diminished, like the recent repelling that awarded Luo Feng only 0.001 points.

Generally, after repelling a Spiritual Being over a thousand times, it might disappear, never to appear again.

"The area Emperor Ming had delineated for me contained three Spiritual Beings. In a hundred eras time... two of the Spiritual Beings have already disappeared. The remaining one awards so few Reward Points for each repelling that they are negligible," Luo Feng thought to himself, "It's time to leave."

After all, the Reward Points generated by this place were minuscule, and their effect on honing his Spiritual Will was diminishing.

"During this hundred eras, I constantly honed myself combining the Lie Yuan Technique with spiritual contamination, although my Spiritual Will has also improved somewhat. Still, I can't rely on the Lie Yuan Technique alone to eradicate a Spiritual Being."

These Spiritual Beings had an extremely strong vitality! Just as it seemed that the Spiritual Power of the opponent had been annihilated in an instant, remnants of Spiritual Will soon gathered again.

No wonder it is said that, even with the Spiritual Will of the Ultimate Realm of God King casting top Spiritual Will secret techniques, there is only hope of eradicating a Spiritual Being.

Whoosh!

With a single step, Luo Feng was already a great distance away, flying hundreds of times faster than when he had first entered the Infinite Space. After just a few steps, he had already reached the edge of Emperor Ming's dominion.

"Your Majesty." Luo Feng greeted respectfully.

With the protection of Emperor Ming, he was able to cultivate peacefully in the Infinite Space for his first hundred eras.

A century's growth had given him the confidence to stand his ground in the Infinite Space.

"Oh, Luo He," Emperor Ming's will enveloped Luo Feng, somewhat surprised. "Your Spiritual Will has grown significantly over this hundred eras and is not far from the Ultimate Realm of the God King."

"Thanks to Your Majesty's benevolence, I have been able to cultivate peacefully in the Infinite Space and have made such progress," Luo Feng replied.

For a normal cultivator, the growth of Spiritual Will is extremely slow, or even stagnant, sometimes even regressing.

Even with the Lie Yuan Technique, Luo Feng spent most of his time using the Great Destruction Heart Refining Technique to constantly hone his Spiritual Will. Normally, it would take tens of thousands of eras to achieve the growth he had now.

He first encountered spiritual contamination in the Infinite Space, being contaminated over and over again, each time refining away all impurities with the Lie Yuan Technique.

Constantly refined!

After a century of such refining, Luo Feng's gains were naturally substantial. But the further it went, the less this method helped.

"The area granted to me by Your Majesty originally contained three native creatures. Now, two of them have disappeared, and the last one awards very low Reward Points," Luo Feng said.

"Oh? You must have killed them many times," Emperor Ming replied.

"I have killed each of the three native creatures over a thousand times," Luo Feng said.

"Generally, after more than a thousand times, it's indeed possible for the native creatures to completely disappear, typically being moved to some distant part of the Infinite Space," Emperor Ming explained.

Luo Feng understood.

Moved somewhere else? With the vastness of the Infinite Space, the likelihood of encountering those two disappeared native creatures again was very low.

"I also gift a domain to the Imperial Clansmen early in their cultivation, and after that, they need to fend for themselves," Emperor Ming said.

"I also came to bid farewell to Your Majesty," Luo Feng said. "I'm ready to set out and establish my own territory."

"If you can achieve the Ultimate Realm of God King's Will in the Primal Chaos Realm... that would be quite impressive. The Infinite Space values this greatly and will grant rewards," Emperor Ming said. "I've painted some 'Calamity Beast Diagrams' in my spare time in the Infinite Space, so I'll give you one as a gift."

As he spoke, a black-and-red scroll appeared out of thin air and flew towards Luo Feng.

Even without unrolling it, Luo Feng could feel the powerful will contained within it.

"This is different from the common Calamity Beast Diagrams," Luo Feng immediately understood that the Calamity Beast Diagrams sold outside might have been painted by Emperor Ming in his early years.

Luo Feng immediately received the scroll with respect.

"You must have seen 'Shadow of the Catastrophe Beast.' But the shadow... is different from the painting of the beast," Emperor Ming said. "The painting is the image of the beast in the heart of the artist. Each artist has a different image in his heart."

"Thank you, Your Majesty," Luo Feng said gratefully.

As it turned out, his master, Emperor Chu, and Emperor Ming did not get along well, but even so, Emperor Ming took such good care of him, and Luo Feng was naturally grateful.

Soon after, Emperor Ming withdrew his consciousness.

Luo Feng respectfully performed a bow and flew off, beginning his solo venture in the Infinite Space.

Thanks to the new Alliance Hierarch patrons: Linyi, Yan Mingcheng, and Great Saint Xu Xin, as well as Li Xuanmeng.

And thank you to old k for another Alliance Hierarch patronage.

Thank you all for your support!

Chapter 173: Episode 4 Chapter 10 The Acknowledged Path

In the treasure domain "Infinite Space," Luo Feng transformed into a streak of flowing light, flying at a speed hundreds of times faster than when he first arrived in the Infinite Space. And this was only the normal speed for traveling.

"This treasure domain is quite occupied in places with slightly more native creatures. If I want to establish my own territory, I must head to the most remote and desolate areas," Luo Feng decided on a direction and continued on his way.

In places with many native creatures, a single region might have over a hundred of them, enough for several Godly Kings to join forces and take it over.

But in the remote and desolate lands, there might only be one or two native creatures in a large area. Because they are so few, they are only suitable for individual occupation!

The biggest danger of occupying alone is... encountering other invaders!

Luo Feng had also been under the protection of Emperor Ming, cultivating in solitude for One Hundred Eras before venturing out on his own.

Whoosh!

"Luo He? This is the territory of the Flame Wind Ancient Country's Imperial Clan. Please leave,"

"This is the domain of the Thunder Ancient Country's Imperial Clan!"

"Leave quickly."

On his journey, Luo Feng tried his best to avoid areas occupied by major powers. When encountering immense consciousness, he would be warned and expelled! He had never again encountered anyone as willing to give him a piece of land as Emperor Ming was.

After flying for a long time, he finally reached his destination.

"Hundred Mist Lake!"

Luo Feng looked at the vast endless lake in front of him, with mist wafting about.

"Hundred Mist Lake, extremely vast. In the earliest times, there were over a hundred native creatures here. Later, the Monarch of the Thunder Ancient Country monopolized this place, causing the number of native creatures here to continually decrease. Now, there are probably only a handful of creatures in the entire lake," Luo Feng pondered.

This was a place that had been occupied by various powers. Because there were too few creatures and the area was too vast, major powers had lost interest. It was only lone cultivators like Luo Feng who would be interested.

"Begin a thorough investigation of Hundred Mist Lake!"

"Eternal life, unending death! Divide!"

With a single thought from Luo Feng, nine avatars split off, flying in all directions, carefully searching for native creatures within the misty expanse.

In Infinite Space, nineteen Origin Great Daos are sealed! To perform truly powerful moves, one must carve out new paths for themselves.

Over these past One Hundred Eras, Luo Feng had also been attempting to open up the Great Dao of Life and Death.

This cultivation had progressed by leaps and bounds! His speed was much faster than when he contemplated the Great Dao of Life Origin

and the Great Dao of Destruction Origin.

The reason for such a swiftness is multifaceted.

Firstly, Luo Feng had already reached the Pinnacle of Primal Chaos in both life and destruction pathways. With enough profound accumulation, merging into the 'Great Dao of Life and Death' made the comprehension naturally smooth.

Secondly, deep in Luo Feng's heart, he truly believed that 'life and death are one,' which is the path his spirit acknowledged.

When becoming an eternal true god, Luo Feng's enlightenment was on the Source of Life and Death.

The first Primal Chaos Realm move Luo Feng conceived was a blend of life and death - the Blade Technique "Heart Honing."

It was just because the supreme laws did not include the 'Great Dao of Life and Death Origin' that Luo Feng temporarily set it aside to concentrate on the other two. After all, both the Great Dao of Life Origin and the Great Dao of Destruction Origin existed and could be contemplated and observed.

In Luo Feng's heart, these two Origin Great Daos are both fundamental and nourishment! Ultimately, they are both for the sake of opening up his own 'Great Dao of Life and Death.'

"The Great Dao of Life and Death is indeed much more powerful," Luo Feng thought.

With no clear Origin Great Dao to refer to, Luo Feng purely followed his heart, starting to merge some insights from the daos of life and destruction and naturally conceived many moves.

"I have been in the Land of Origin for about one hundred and sixty Eras! These past One Hundred Eras have been the time of my deepest accumulations," Luo Feng was clear about his own progress.

The Great Dao of Life and Death is the integrated and evolved version of the two pathways of life and destruction, containing many of their advantages.

But its downside is clear: the absence of a clear Dao means that Luo Feng does not know what the branches of the Great Dao are. So far, he has conceived several Godly King Level Secret Techniques in the 'Great Dao of Life and Death,' yet he still hasn't grasped a complete branch of the 'Great Dao of Life and Death.'

Life has six branches, destruction has six branches, but Luo Feng can clearly watch and has a definite direction.

Luo Feng feels that if he tries deliberately, he fears he could achieve the Godly King level within One Era.

But Luo Feng has a lot of patience. He follows the guidance of the creator from the heritage of "World Life Form"! Focusing on honing his perception as the foundation, he continuously accumulates until he breaks through naturally.

He does not pursue breakthroughs deliberately.

"The encounter in Infinite Space made me comprehend the Great Dao of Life and Death sooner."

"Clearly, the Great Dao of Life and Death... indeed suits me better than life or destruction," Luo Feng surmised within his heart, having guessed this earlier since he always believed 'life and death are one,' and without one, it would be incomplete.

From this century of cultivation, it can be seen that practicing the Great Dao of Life and Death is to come from behind and overtake!

Without specific Secret Techniques, without Great Dao enlightenment! Yet, his strength in the aspect of the Great Dao of Life and Death is stronger than the other two.

"This also proves one point: the path that suits oneself best is the one that advances the fastest," Luo Feng thought. Godly Kings usually focus on a single Origin Great Dao! Very few cultivate two of them.

Because each cultivator has their own spiritual belief.

Some cognitions inherently negate certain great daos, and even develop antipathy for some paths. Forcing comprehension of them

naturally results in extremely low efficiency.

Like the Mountain Sitting Guest, who has his own path to follow. He had never been interested in controlling the Primordial Cosmos or facing the Great Dao of Life Origin, nor had he ever attempted to do so.

"I've completed the investigation."

Using the technique of avatars, Luo Feng finally finished scouting Hundred Mist Lake. "Now, two Godly Kings occupy separate regions of Hundred Mist Lake. Beyond their territories... there are three indigenous creatures, all quite distant from each other."

"Among these three indigenous creatures, two are relatively ordinary, similar to those I've engaged with before. But one is extremely powerful; it only sustained minor injuries despite my direct use of the Lie Yuan Technique."

These three indigenous creatures were one strong and two weak.

Luo Feng was quite satisfied! He hoped for more powerful spiritual beings to hone himself.

"It'll be these three."

Although the three indigenous creatures were quite far apart, Luo Feng decided to take over all their regions. "Using the technique of avatars, I shall occupy each indigenous creature's territory."

Luo Feng's true body and his two avatars scattered, each occupying the territory of one indigenous creature.

******

In Flame Wind Ancient Country, within Wind Zhang City, this place was also the ancestral land of the Royal Family 'Zhang Family', where generations of the clan's descendants thrived and lived.

"Haha, Brother Luo Sa, please."

"Yun Ge becoming Daoist couple with Moyu Qingyan is also a

connection between our Zhang Family and Great Saint Luo He." Inside a grand hall of the Zhang Family, the core leadership warmly hosted Morosa and Moyu Qingyan.

Inside the hall.

The two Primal Chaos Overlords of the Zhang Family made their appearance, sitting at the main table with Morosa, chatting and laughing with ease, showing a harmonious atmosphere.

"This lad Qingyan is a disciple of my master, and also my disciple," Morosa chuckled. "Once Yun Ge and Qingyan become a Daoist couple, she will be like my half-disciple, too."

Moyu Qingyan and Zhang Yunge sat at the lower end of the table; the two of them being the younger generation, just listened quietly.

"It seems both parties are getting along very well." Moyu Qingyan was pleased to see this scene.

On his first visit to the Zhang Family, they disapproved of him!

But in the end, they welcomed him warmly!

Although Zhang Yunge was from a main branch of the Zhang Family, with the Royal Family having countless descendants, she was just one eternal true god among tens of thousands within the Royal Family and hence, not very conspicuous.

"I am not given much attention in the clan," Zhang Yunge transmitted her voice. "The presence of the two Primal Chaos Overlords is actually because of your status."

It was quite significant whenever a Primal Chaos Overlord made an appearance.

As for the highest-ranking member of the Zhang Family, the 'Wind Chapter God King', after all being a Godly King, he did not need to get involved in the matter of two junior eternal true gods becoming a Daoist couple.

Even if Great Saint Luo He were to become a Godly King and truly

turn into an Overlord Level existence, the Wind Chapter God King did not need to overly curry favor; he had his own influence rooted in Flame Wind Ancient Country.

"Qingyan, from now on we are family," said Yun Ge's father warmly. As an ordinary eternal true god, his status within the clan was far less than those from the Law Lineage. But today, he was rather prominent! Even the two old Primal Chaos Overlords were amiable towards him.

Moyu Qingyan showed no hint of arrogance.

He was well aware of his position.

It was only through his second master's careful guidance that he became a true god of void space via the Law Lineage. Later on, with the help of his master and second master's resources, he was able to follow the Bloodline Cultivation System and become an eternal true god.

In terms of cultivation potential, he indeed had little. His current status was purely because he was the only disciple of his master and second master. What was there to be proud of?

Seeing this, Zhang Yunge also revealed a smile.

She was committed to Moyu Qingyan as her Daoist couple. When she was first tasked with the Royal Family's trade in Xiangjie City and met Moyu Qingyan, he was flattered by all sides and held a very high status there.

After spending more time together, she found Moyu Qingyan to be genuine, which gradually led her to develop feelings.

To have reached eternal true god and still have no Daoist couple showed her intentions. Without someone suitable, she would prefer to cultivate alone forever.

Moyu Qingyan felt the same way! Both had reached eternal true god level before choosing a Daoist couple.

...

In the treasure land 'Infinite Space', as his disciple was about to get married, Luo Feng, as his master, remained wholly focused on cultivation. He was currently sitting cross-legged on an island in the middle of a lake, performing the Great Destruction Heart Refining Technique, to eradicate the spiritual pollution within himself.

"The stronger the spiritual beings, the stronger their corruption," he mused.

Luo Feng could feel the effect on himself, as even his attempts to comprehend the great daos were repeatedly disrupted by the spiritual pollution.

"Rumble~~~"

Suddenly, a stream of consciousness touched the expanse of Luo Feng's awareness.

"This is my territory, leave immediately," Luo Feng conveyed his consciousness.

"Your territory? I've killed this indigenous creature's ancestor countless times! It has always been my place." That spiritual will, also reaching the Second Realm of Godly King level, was embodied by a large figure in a yellow robe standing in the distance, looking at the island with a sneer. "So it's Luo He! You, a Transcendence of Primal Chaos Realm, dare to dispute territory with me, an elder?

If you don't want to die, then get lost quickly!"

Looking at him, Luo Feng's eyes grew cold: "Let's see how much skill you, at the First Realm of Godly King, truly have in this Infinite Space."

Chapter 174 Episode 4 Chapter 11 The First Confrontation with Shi Kingdom

Luo Feng looked at the immense figure in the yellow robe before him, his heart somewhat astonished.

"I hadn't expected that my first encounter with a Godly King from the Shi Kingdom on the Land of Origin would be in the 'Infinite Space,' a treasure site left by Yuan." Luo Feng had learned about each Godly King on the surface of the Land of Origin, so he naturally recognized at first glance that this figure in the yellow robe was one of the five Godly Kings of the Shi Kingdom, the Wuxiang Elder.

Among the five Godly Kings of the Shi Kingdom, the Wuxiang Elder ranked second in strength.

The early leaders of the Shi Kingdom were the Emperor of Tian Kun, the Wuxiang Elder, and the Ancestor of the Blade Demon. Originally, it was these three who had annihilated the Jin State and were the deeply hated enemies of the Mountain Sitting Guest.

The Emperor of Tian Kun was at the Second Realm of Godly King. The Wuxiang Elder was at the very limits of the First Realm of Godly King, even more powerful than the Elder of Snow Realm. The Ancestor of the Blade Demon was also a remarkably strong existence at the First Realm of Godly King.

"Elder brother helped me become a peripheral member of the Two Realms Palace, accumulating a great amount of merit points just to exchange for a single opportunity to enter this treasure site. This Luo He, a mere transcendence of the Primal Chaos Realm, could enter as well," the huge figure in the yellow robe said as he looked at Luo Feng, filled with jealousy and quite displeased.

He was very aware of how much he had sacrificed to enter this treasure site!

"Do I have a few tricks up my sleeve?" The Wuxiang Elder sneered at Luo Feng, "Since you are courting death, I shall satisfy you!"

Once a body in Infinite Space perished, to enter again? That would require a new qualification, another use of the token.

Every available slot to enter the treasure site was extremely precious.

"Hmph." Luo Feng looked at him, likewise harboring a killing intent!

With his current strength, he could do nothing against the three Sovereigns of the Shi Kingdom. But he didn't mind destroying the opponent's body in Infinite Space, cutting off one opportunity for him.

The two stood opposite each other, neither backing down.

"He's quite confident?" Underneath his domineering attitude, the Wuxiang Elder was also very cautious, "He hasn't become a Godly King in the outside world, so how high could his realm possibly be in Infinite Space when blazing a new path?"

Infinite Space sealed off nineteen Origin Great Daos, excluding Spiritual Will; normal combat relied on blazing new paths!

Even an Emperor's newly blazed paths might not be particularly strong.

This was also why the Wuxiang Elder was quite confident; he had blazed new paths and though he hadn't comprehended a complete branch of the Great Dao, he had conceived two Godly King Level Secret Techniques.

Blazing new paths was like this, without clear Great Dao references! Generally, one needed to comprehend multiple Godly King Level methods before one could derive a branch of the Great Dao.

"Annihilate."

Under the Wuxiang Elder's cautious demeanor, with a thought, an invisible force ignited upon Luo Feng's body.

Hiss hiss hiss~~~

Colorless, transparent flames scorched Luo Feng's body and his Spiritual Will.

"This is the 'Flame of Sin,' a new Great Dao rooted in the Origin Dao of the Infinite that I have blazed," The Wuxiang Elder was very confident, and although he hadn't mastered a complete branch of the Great Dao, he was confident in the power of the Flame of Sin.

"This flame?" Luo Feng was also somewhat shocked; the Flame of Sin was too bizarre.

He hadn't seen the opponent make a move, yet colorless flames spontaneously appeared and burned both his Physical Body and Spiritual Will.

His Spiritual Will was already powerful, even without the Lie Yuan Technique, and at this moment, it wasn't something the Flame of Sin could extinguish. Under the protection of the Lie Yuan Technique, the scorching of the Spiritual Will only felt soothing to Luo Feng.

But the Physical Body was somewhat problematic.

"Hiss hiss hiss." Luo Feng's Physical Body was very special, full of endless vitality, yet constantly grinding down its own power.

It was somewhat similar to the Great Destruction Heart Refining Technique, constantly honing its own body, parts that couldn't endure were annihilated, and afterward, new parts were born.

This was also an understanding from Luo Feng's path within the Great Dao of Life and Death, concluding the Godly King Level Body Refining Method, "Life and Death Body."

Now being scorched by the Flame of Sin, for Luo Feng, was also a kind of refining for the physique, the weaker parts naturally and actively destroyed, and vitality transformed, allowing new power to be reborn.

In just moments, the constantly rejuvenating body rapidly enhanced its resistance against the Flame of Sin.

"Pure life is not resilient enough."

"Only by continuously annihilating the weak, preserving the strong, can the physique evolve stronger," Luo Feng was very satisfied with the power of the newly comprehended 'Life and Death Body.'

Luo Feng looked at the Wuxiang Elder, "Wuxiang Godly King, is it my turn yet?"

"You—"

The Wuxiang Elder, seeing that Luo Feng could withstand the Flame of Sin, could not help but be astonished.

At this moment, Luo Feng stood in his place, already waving his hand!

Palm as a blade!

The Blade Light was refined as silk, containing both the resilience of life and the destructive force of cutting in two.

This strike was precisely the Godly King Level Blade Technique, 'One Strike Two Divisions'!

Whiz—

The Blade Light flashed and dissipated, like a silken thread slicing through the body of the Wuxiang Elder, who couldn't dodge in time.

"Whoosh." The Wuxiang Elder turned into a colorless flame, enduring this strike; he felt the remaining Blade Force slicing through his body, filled with resilience, continuously wearing down his physique. He exerted himself to suppress it, and it took a moment or two for the Blade Force within the flame body to be completely annihilated.

"You, a being of the Primal Chaos Realm, have blazed new paths that reach the Godly King Level?" The Wuxiang Elder, now a flame body, truly couldn't believe it, "Why haven't you become a Godly King

already with your original paths?"

"No rush." Luo Feng looked at him, "Wuxiang Godly King, this body of yours is quite interesting, but how many strikes can you endure from me?"

"Life Unending!"

Luo Feng's body suddenly split apart, instantly dividing into as many as thirty-six Avatars.

"Avatars?" The Wuxiang Elder knew trouble was coming, "He must have Avatars hidden elsewhere if he can exert Avatars even with paths newly blazed in Infinite Space! Trying to cut off his opportunities in Infinite Space is nearly impossible."

"Chop!"

Luo Feng's thirty-six Avatars all simultaneously swung their arms, the hand blades chopping down!

With the strength of Luo Feng's Spiritual Will, he could have exerted this Godly King Level Blade Technique using over fifty Avatars. But thirty-six Avatars cooperating was precisely enough to form a Blade Formation.

"One Strike Two Divisions, Life and Death Reincarnation!"

Enjoy more content from empire

The thirty-six Luo Fengs simultaneously swung their hand blades, the thirty-six silky Blade Lights immediately enveloping the body of the Wuxiang Elder like a Heavenly Net, continuously slicing!

"No, no—" As the Wuxiang elder was slaughtered by the Heavenly Net-like Blade Lights, he quickly noticed his flame body rapidly depleting, the power of the blade force was terrifying!

While its destructive power was formidable, it was also filled with resilience.

These Blade Forces would also return to continue the slaughter again

and again, like an endless reincarnation.

"Stop, stop!" No matter where the Wuxiang elder tried to flee, those thirty-six Blade Lights enveloped him like a Heavenly Net, constantly slaughtering him.

"Stop, let's talk, let's talk. I am willing to pay a price for compensation, please spare me!" The Wuxiang elder, seeing Luo Feng becoming anxious, no longer cared about his dignity, for if his body died, he would be expelled from Infinite Space. Earning an entry slot once was tremendously hard!

Luo Feng looked at him.

Let's talk?

Against ordinary opponents, Luo Feng was indeed merciful, and would have let them go for compensation.

Unfortunately, you are one of the Three Sovereigns of Shi Kingdom! You are my master's archenemy!

"No—"

"A treasure worth a million merit points."

"I can give you treasures worth five million merit points."

"Everything is negotiable!"

"Why do you deceive me so!"

"Luo He, Luo He, very well, I remember this!"

The thirty-six Blade Lights revolved around him, merely slaughtering for more than ten breaths of time, the Wuxiang elder's body of flame finally completely extinguished, and at the moment of extinguishment, the Wuxiang elder stared at Luo Feng with a crazed look in his eyes.

Luo Feng looked at him, yet remained very calm.

This was just an appetizer!

"You and I, we have now met," Luo Feng murmured softly.

This was his first interaction with one of the Three Sovereigns of Shi Kingdom.

...

Shi Kingdom, Wuxiang City.

The grand palace, countless guards and servants, a strictly organized system.

"Luo He, Luo He!!!" An angry, deep voice came from the depths of the palace, even spreading throughout the entire palace, causing the disciples, guards, and servants within to change color.

Such terrifying aura was obviously that of the Wuxiang elder.

"Seems like the elder has erupted in fury?"

"Does it have something to do with Luo He?"

Inside the palace, everyone held their breath, everyone could sense the elder's immense anger!

In a large hall deep within the palace.

The Wuxiang elder's eyes were bloodshot with burning anger.

"To actually destroy my opportunity in the treasure land," the Wuxiang elder choked with indignation and fury. He still had over twenty reward points left to exchange, and having been rooted in Infinite Space for a long enough time, he could have accumulated more points to exchange for more precious resources.

He paid a great price just for the chance to enter.

Now, it was all ruined.

"I was even willing to apologize, but he didn't give me a chance," the elder fumed with extreme anger. "In reality, in the Land of Origin, the

Origin Great Dao is not sealed. This Luo He's strength will only be stronger. He truly isn't afraid of me."

"But, elder I, am not afraid of you either. Even if you become an overlord in the future, what of it?"

The Wuxiang elder was also more powerful in reality, an extreme existence in the First Realm of Godly King, unafraid even when facing the Second Realm of Godly King.

"I don't believe you have no weaknesses. Those close to you by your side, they have no weaknesses," the Wuxiang elder's eyes were cold. "You destroyed my opportunity, you have to pay the price."

"I need all the information about Luo He! All the information on his close associates, disciples."

The Wuxiang elder never thought of enduring and immediately bought this information at the Two Realms Palace.

...

Chu Capital, in a Quiet Room inside Luo Feng's Cave Dwelling, within the Star Tower.

Luo Feng was in meditation.

"This time in Infinite Space, although I killed the Wuxiang elder's body and cut off his opportunity in Infinite Space, his strength should not be underestimated," thought Luo Feng. The opponent had indeed mastered a Godly King Level Secret Technique on the new path; it was just that he encountered me.

With my godly body, Avatar, and Blade Formation, all aspects of my understanding allowed it to be one-sided.

"My 'Great Dao of Life and Death' ultimately hasn't developed a complete branch of the Dao. If I become too arrogant, I might end up like the Wuxiang elder and hit a snag," Luo Feng thought, aware that Infinite Space concealed various powerful ancient beings who might have developed new branches of the Dao.

"I will continue cultivating silently for one hundred eras, accumulate enough depth, and can then consume the Primordial Crystal Spirit Fruit again. This time, I can also use that bottle of Clearing Spirit Liquid," Luo Feng decided.

The Clearing Spirit Liquid, Luo Feng had inquired about its value from his master Emperor Chu, knowing that it was worth even more than a Primordial Crystal Spirit Fruit. Even the elite of the Imperial Clan only receive a portion occasionally. It was Emperor Chu Yu who had given it to Luo Feng.

A bottle of Clearing Spirit Liquid was just one portion.

"Hu." Luo Feng took out a Primordial Crystal Spirit Fruit and began to eat it, with the golden bottle also placed alongside.

Accumulate normally, once accumulated enough, then consume treasures.

With the help of treasures! To advance further!

"The effect of the Primordial Crystal Spirit Fruit is still so miraculous," Luo Feng felt his soul nourished, his thought speed greatly accelerated, then he picked up the golden bottle next to him, pulled out the cork, and drank it all in one gulp.

—

Thank you to the two new Alliance Hierarchs who gave rewards: Gongsun Depth, and Dialed Ancient Master.

Chapter 175 Episode 4 Chapter 12 Willpower, Breakthrough!

The Clearing Spirit Liquid spread naturally as soon as it entered his mouth, naturally affecting the soul.

"This..." Luo Feng was stunned.

Although he had learned about some of the uses of the Clearing Spirit Liquid from his master, Luo Feng was still somewhat astonished at this moment! The Primordial Crystal Spirit Fruit was miraculous, but it only increased the speed of thought by twenty or thirty times, while maintaining an extremely high state of comprehension!

But the Clearing Spirit Liquid, it mainly targets the soul.

It was a 'cleansing' of the soul, washing away many distracting thoughts.

"In the Infinite Space of that treasure land, when clashing wills with those spiritual beings, one is often contaminated by their spirits. I have repeatedly cleansed those contaminations and honed myself," Luo Feng murmured in a low voice, "But in fact, it is relatively easy to cleanse external contaminations. Cleansing one's own distracting thoughts is much more difficult."

"Before coming to the Infinite Space, I had long been practicing the Great Destruction Heart Refining Technique to hone myself, but the progress was extremely slow."

"However, with this Clearing Spirit Liquid, during the effect of the spiritual liquid, one can continuously cleanse away one's own distracting thoughts."

The soul is the core of a cultivator.

As the soul began deep cleansing, Luo Feng realized the benefits of this state.

"My distracting thoughts are indeed too numerous."

With the help of the Clearing Spirit Liquid, Luo Feng quickly sorted through his endless myriad thoughts from over the years, which also formed his conscious awareness. As these thoughts were chaotic, his heart was also in chaos.

However, these thoughts are also a part of Luo Feng.

The so-called removal of distracting thoughts is not an erasure! If completely erased, then it would be removing a part of one's self.

While erasing a part of one's self-awareness is a form of cultivation, Luo Feng was not willing to choose this method!

The true removal of distracting thoughts is a form of organization!

Organizing the countless thoughts into different systems.

Some thoughts, when cultivating the Great Dao of Life Origin, are distractions; yet when cultivating the Great Dao of Destruction Origin, they can be an aid.

Some thoughts are key to making the spiritual will more determined. But they may not necessarily be beneficial to cultivation.

Thoughts... do not have a simple dichotomy of good or bad.

Even at a certain moment, a change in spiritual cognition can immediately affect countless thoughts. The past cleansing of the soul, the cognition of the spirit, can be completely overturned in an instant.

Therefore, as one's spiritual will progresses, it becomes increasingly difficult to enhance.

"The Clearing Spirit Liquid, it's as if it has allowed me to enter a higher status to observe my countless thoughts and re-hone my spirit," Luo Feng said, as he preliminarily cleansed his thoughts for

the first time with the aid of the spiritual liquid.

"Let's take another look at the 'Calamity Beast Diagram.'

The body far in the Infinite Space opened the 'Calamity Beast Diagram' given by Emperor Ming.

Emperor Ming, a cultivator of the Primordial Bloodline and an Emperor; yet his spiritual will was calm and unwavering, very composed. He did not possess the typical unrestrained and frenzied emotions common to the Primordial Bloodline system, and his spiritual will was also the most terrifying Luo Feng had ever seen.

It was far beyond him, undoubtedly a will beyond the Ultimate Realm of God King.

"Whoosh."

The black-red scroll slowly unrolled.

Confronted with the dark and frenzied aura, Luo Feng saw a depiction of a Calamity Beast unlike any he had ever seen before.

"What is this?" Luo Feng, with just a preliminary look, determined, "This painting corresponds to the fifth to tenth layers of the Three Thousand Void Calamity Beast Diagram."

The Calamity Beast Diagram sold externally, even when combined with the Void Diagram for viewing, could demonstrate the complete Three Thousand Void Calamity Beast Diagram.

But it only contained some superficial flavor.

The 'Tribulation Beast Image,' though more authentic, offered Luo Feng only limited enlightenment.

"This painting."

Luo Feng was shocked upon seeing it.

Although it only correlated with six layers of the complete Three Thousand Void Calamity Beast Diagram, its artistic conception was

many times more intense.

In a daze.

Luo Feng saw the powerless Catastrophe Beast, cautiously seeking powerful companions, but being sent by them on life-threatening ventures to hunt for food. In the end, all the food was consumed by the powerful companions, not sharing a bite with it.

At this moment it was too weak and had to seek protection from powerful companions.

It learned to please the strong, to make friends, to hunt the weak, to eat secretly until full...

But those it called companions, those it called prey, they too wanted to hunt it, and through strength or luck, it survived numerous calamities and quickly grew stronger.

Whether in strength or in spirit, it was becoming stronger.

"The weak Catastrophe Beast."

Luo Feng saw the most struggling period of the Catastrophe Beast; during this time, the beast was so weak that there were too many things that could kill it!

Exploited by the strong, it had to endure it. Because the slightest dissatisfaction would lead to its death and consumption!

Prey could turn around and kill it!

Death lurked everywhere.

"In the darkness, honing oneself, whether it be one's inner spirit or external strength, both are becoming stronger," Luo Feng glimpsed the hidden method of spiritual will cultivation within this painting.

This method of spiritual will cultivation was the greatest insight Emperor Ming had from observing the 'Shadow of the Catastrophe Beast,' creating a unique method of spiritual cultivation.

The Calamity Beast Diagram he externally transmitted was just the most superficial.

It seemed to be a complete Calamity Beast Diagram, but blindly aiming for completeness, in the end, made it inferior.

A small segment of the 'Shadow of the Catastrophe Beast' provided the deepest stimulation to Emperor Ming, perfectly matching his own growth. He had the deepest comprehension, constantly painting, and later deduced a method of spiritual cultivation from it.

It was only to cultivators he deemed worthy that he was willing to give out the truly core Calamity Beast Diagram.

He hadn't misjudged Luo Feng. Luo Feng rose from weakness, experiencing life-and-death struggles from a young age, able to empathize with such a state of mind. Although not as cruel as the 'Catastrophe Beast's' environment, there was still resonance.

"Buzz."

Luo Feng's spirit had already merged into the painting, transforming into the Catastrophe Beast, experiencing the dark trials.

"In weakness, sometimes there's no way out, one can only seek life within death."

"Weakness is the original sin."

"Interests are what's eternal."

The experiences with the Catastrophe Beast had been even more dark and brutal, hardening Luo Feng's spirit even more.

******

Shi Kingdom, Wuxiang City.

"Where did this Luo He come from? With no family or tribe, close only to an old servant named Luo Sa, a man named Yuan, and a disciple called Moyu Qingyan," pondered the Ancestor of Wuxiang. "Could he be the reincarnation of some old codger?"

"But there has been no word of any historical figure who cultivated the three Origin Great Dao of life, destruction, and matter," the Ancestor of Wuxiang mused. "In Infinite Space, it's even possible that he could develop a fourth branch of the Origin Great Dao."

Ancient beings almost always focused on a single Great Dao.

Cultivating three Great Dao? In the Land of Origin, such Godly Kings were extremely rare. Each one was a figure of lofty reputation, and there had never been any news of their fall.

"If he's not a reincarnation, then his talent must be truly exceptional."

"Having no family or tribe suggests two possibilities: he's either concealing his identity and his people, or he comes from the Primordial Cosmos, with his tribe remaining in his homeland," the Ancestor of Wuxiang speculated.

Although cultivators from the Primordial Cosmos were rare in the Land of Origin,

because each had climbed up from the very bottom, their potential was enormous. Among ancient existences, quite a few had emerged from the Primordial Cosmos.

"Yuan lives in Xiangjie City, right by Luo He's side."

"Luo Sa and Moyu Qingyan, on the other hand, are currently outside..." The Ancestor of Wuxiang's gaze grew ice-cold, "One old servant and one disciple, they must mean quite a bit to you, huh? For interrupting the opportunities of my Infinite Space, I shall mete out a small punishment—exterminating one servant and one disciple of yours.

When I find your tribe in the future, I will wipe out your entire clan."

The Ancestor of Wuxiang's intent to kill was intense.

As a non-Imperial Clan Godly King at the First Realm, he had paid countless prices and even used up some of his favors with the Emperor of Tian Kun to get this opportunity.

He'd even been willing to offer compensation, but Luo He wouldn't let it go and insisted on destroying his body and cutting off his opportunity.

"Shadow Sky Realm."

The Ancestor of Wuxiang immediately reached out to a highly mysterious power in the Land of Origin—Shadow Sky Realm.

"Godly King Wuxiang, whom do you want to deal with?" responded Shadow Sky Realm.

Shadow Sky Realm—the number one assassination force in the Land of Origin! No one knew who its internal members were, only that within Shadow Sky Realm... an 'Emperor-level' combatant had once taken action, shocking the entire Land of Origin and making everyone aware of the terrifying power of Shadow Sky Realm.

Because publicly known Emperors and Monarchs only existed within the two Ancient Countries!

Shadow Sky Realm could deploy an Emperor-level combatant. Could this mysterious existence be one of the Emperors or Monarchs from the Ancient Countries? Or some other enigmatic powerhouse?

No matter what, it affirmed the status of Shadow Sky Realm!

"Great Saint Luo He has one servant named Luo Sa and one disciple named Moyu Qingyan. I require your Shadow Sky Realm to assassinate the pair," the Ancestor of Wuxiang transmitted his message.

"Do you need us to attempt an assassination on Great Saint Luo He? Though he has an avatar in Chu Capital, we have a fifty percent chance of success," said Shadow Sky Realm.

The Ancestor of Wuxiang inquired, "What's the price?"

"Since he has an avatar in Chu Capital, it demands the action of our highest-tier members; the cost will be one thousand Primordial Crystals or an equivalent value," stated Shadow Sky Realm. "Just to clarify in advance, with only a fifty percent chance of success, no

treasures will be refunded if we fail."

"One thousand Primordial Crystals." The Ancestor of Wuxiang's heart trembled at the price.

Was this a price he, a Godly King at the First Realm, could afford to hear?

"Just kill Luo He's servant and disciple," said the Ancestor of Wuxiang. Experience more tales on empire

"His servant Luo Sa is at the Primal Chaos Realm. Eliminating him requires five hundred billion Cosmic Sand."

"His disciple Moyu Qingyan is an eternal true god. As Luo He's only direct disciple, killing him will cost one hundred billion Cosmic Sand."

"Servant Luo Sa might be a reincarnation," Shadow Sky Realm pointed out. "If you are willing to spend five hundred billion Cosmic Sand, we can request our upper echelon to obliterate all of Luo Sa's avatars with a single thought."

"Of course, according to the rules of Shadow Sky Realm, all assassinations might fail, and no fees will be refunded," stated Shadow Sky Realm.

The Ancestor of Wuxiang wasn't surprised. Shadow Sky Realm might not have pleasant speech, but their credibility in their operations was well-established. The price wasn't steep; as long as sufficient benefits were provided, Shadow Sky Realm would undoubtedly send enough strength to carry out the assassination.

"No need, six hundred billion Cosmic Sand will do," said the Ancestor of Wuxiang.

That sum wasn't so painful for him to part with.

But five hundred billion Cosmic Sand? The Ancestor of Wuxiang had to weigh that carefully; with such a massive expense, he was contemplating taking action himself.

As an exalted figure, he had his pride to consider! Specifically targeting someone to kill a Primal Chaos Realm being and an eternal true god—him doing so would be a blow to his reputation. Hence, he let Shadow Sky Realm handle it.

After all, Shadow Sky Realm wasn't bothered by dirty or tiring tasks.

"Please make an immediate payment of six hundred billion Cosmic Sand. Once we receive it, we will act at once," said Shadow Sky Realm.

...

Meanwhile, in the treasure land of Infinite Space, Luo Feng was engrossed in comprehending the Calamity Beast Diagram when suddenly a mark in the palm of his left hand flashed.

"Hm?" Luo Feng took notice of it.

The mark on his palm was transmitting information—his evaluation had been updated!

"Trialist: Luo Feng of the Land of Origin"

"For battling with emperor-level secret techniques, new evaluation of the Great Dao: average. Reward points: 100. You have not opened a new branch of the Great Dao; more effort is needed."

"As a being of the Primal Chaos Realm, reaching the will of the Ultimate Realm of God King, evaluation of spiritual will: high-grade. Reward points: 10,000. Your spiritual will is quite outstanding; please continue to maintain it after becoming a Godly King."

"Total reward points: 10,192.34."

When Luo Feng initially comprehended the first emperor-level secret technique of the Great Dao of Life and Death, he received 100 reward points. After that, he comprehended many more emperor-level secret techniques but didn't receive any additional rewards.

"Will of the Ultimate Realm of God King?" Luo Feng smiled, clearly, by the standards of Infinite Space, he had finally reached the

threshold of the Ultimate Realm of God King's will.

"That's a high reward." Luo Feng was somewhat astonished; a full ten thousand points.

Having been in Infinite Space for so long, Luo Feng had accumulated a total of 10,100 points from spiritual will, 100 points from new branches of the Great Dao, and 22.34 points from killing native life forms.

He had earned a total of 10,222.34 points.

Having spent 30 points to exchange for "World Life Form," he was left with 10,192.34 points.

"I've suddenly become so much richer." Luo Feng felt that breakthroughs in opening new branches of the Great Dao and advancing spiritual will were the best ways to earn reward points, far surpassing the killing of native life forms.

Chapter 176 Episode 4 Chapter 13 Members of the Shadow Sky Realm

Luo Feng activated the mark in his hand and began to examine the Infinite Space Treasure Vault.

Within the treasure trove, one could view resources information that did not exceed their own Reward Points. The information in the vault had naturally undergone great changes.

The first inheritance information listed—

"Primordial Array Map Three Volumes" Volume One (Perfection Level Inheritance), required 10,081 Reward Points for exchange, and required the cultivation of the "Origin Dao of Space" to the extreme limit of the Second Realm of Godly King before there was hope of entry.

"Destruction Nine Realms" Second and Third Realms (Perfection Level Inheritance), required 10,000 Reward Points for exchange, corresponding to the Second Realm of Godly King...

"Initial Path" First Step (Perfection Level Inheritance), required 10,000 Reward Points for exchange, corresponding to the Second Realm of Godly King, required the Origin Dao of Matter and the Origin Dao of the Infinite to reach the Second Realm of Godly King before there was hope of entry.

...

"Eight Tribulations Life Form" Fourth and Fifth Tribulations, required 10,000 Reward Points for exchange, Ultimate Realm of God King section.

...

"World Life Form" Second Volume (Special Grade Inheritance), required 3,000 Reward Points for exchange, Second Realm of Godly King section...

...

"Eight Tribulations Life Form" Second and Third Tribulations, required 500 Reward Points for exchange, Second Realm of Godly King section.

...

Luo Feng perused the innumerable inheritance information densely packed together.

"Perfection Level Inheritance, sections for the Second Realm of Godly King, require about ten thousand Reward Points."

"Special Grade Inheritance, sections for the Second Realm of Godly King, require about 3,000 points."

"Upper-class Inheritance, sections for the Second Realm of Godly King are about 500 points, and for the Ultimate section, about ten thousand points."

"Intermediate Inheritance, Ultimate Realm of God King, is only two thousand points."

Luo Feng gained a clearer understanding of the exchange prices for these inheritances and realized what a vast fortune his master, Emperor Chu, had bestowed upon him by giving him both "Eight Tribulations Life Form" and "Extermination of Seventy-Two Blades" up to the Ultimate Realm of God King for free.

According to the Infinite Space exchange, it was worth about twenty thousand Reward Points.

"No wonder the powerhouses from the two Ancient Countries on Land of Origin consider this treasure site to be the most ordinary one." Luo Feng thought, "They find it too difficult to earn Reward

Points, yet they could easily learn Upper-class Inheritance within the two Ancient Countries! What still attracts them to Infinite Space should be the Perfection Inheritance and Special Grade Inheritance."

"But these two types of inheritances are too expensive, and Reward Points are too difficult to obtain."

Luo Feng was very clear about this point.

As a being of the Primal Chaos Realm, reaching the will at the Ultimate Realm of God King, he would have ten thousand Reward Points. But according to what Luo Feng knew... if one was at the First Realm of Godly King and reached the will of the Ultimate Realm of the Godly King, one would only get one thousand points.

Therefore, for those ancient beings, exchanging for Special Grade Inheritance of the Second Realm of Godly King is extremely difficult.

Yet, each ancient being still retains their consciousness here!

The paths of "pioneering a Great Dao" and "Spiritual Will" are too difficult for Godly Kings. It is already so arduous to comprehend the branches of the Great Dao they already possess, let alone to pioneer a branch of the Great Dao. The difficulty is unimaginably higher.

The ancient beings in Infinite Space usually accumulate Reward Points by hunting native creatures, and although each creature must be killed many times and it takes a long time to accumulate about 5 points, as long as there is enough time, killing ten or a hundred... they can eventually accumulate enough Reward Points.

"Exchange for three more inheritances." Luo Feng did not hesitate to exchange for three more Special Grade Inheritances, all of which were sections for the First Realm of Godly King.

"Life Evolution Map" Entry Section (Special Grade Inheritance), required 30 Reward Points for exchange, First Realm of Godly King section. This is an inheritance that is entirely centered on the "Great Dao of Life Origin." Although it cannot harness Luo Feng's "Formless and Intangible" abilities, the level of detail in its research on life is even more superior to that of "World Life Form."

"Chaos Hole Beast Body" First Transformation (Special Grade Inheritance), required 30 Reward Points for exchange, First Realm of Godly King section. This inheritance is centered on the "Great Dao of Destruction Origin" and can cultivate an indomitably strong body with immense destructive power.

"Destruction Wanderer" First Section (Special Grade Inheritance), required 30 Reward Points for exchange, First Realm of Godly King section, which is a path that seeks the ultimate in destruction and demolition.

"Now, for the Great Dao of Life Origin, I have two Special Grade Inheritances: 'World Life Form' and 'Life Evolution Map.' For the Great Dao of Destruction Origin I also have two Special Grade Inheritances: 'Chaos Hole Beast Body' and 'Destruction Wanderer'... But according to the descriptions here, Special Grade Inheritances can only be exchanged up to the level of the Ultimate Realm of God King."

Luo Feng noticed this issue.

Both Perfection Level Inheritance and Special Grade Inheritance are capped at the Ultimate Realm of God King section. Wanting higher? They all require the Creator to personally impart them.

Upper-class Inheritances, on the other hand, do contain content that transcends the Ultimate Realm of the God King.

"No matter what, at least at the Godly King stage, I can have a deeper accumulation." Luo Feng had been too poor before, needing to be frugal with his Reward Points. Now, however, he was wealthy and could afford the best conditions for each stage.

As for Perfection Inheritances? The threshold for cultivation is too high. Forcing cultivation without reaching the threshold brings many potential problems. Luo Feng would not blindly overestimate himself.

"I hope that with these Special Grade Inheritances, my life form can advance further." Luo Feng, who had been cultivating in seclusion for One Hundred Eras, had already accumulated profound depth in his Triune Form, having derived six different Triune Forms.

"I wonder if, in the Primal Chaos Realm, I could comprehend the most perfect 'Ten Directions World Form' of Primal Chaos Realm." Luo Feng now aimed for this goal.

The Ten Directions World Form encompasses the mysteries of life's six major branches, and theoretically, if all six branches reach the pinnacle of the Primal Chaos Realm, it could be possible to comprehend it.

However, in practice, even after becoming a Godly King and mastering three or four branches, it is very difficult to comprehend the 'Ten Directions World Form.' Only when all six branches are comprehended can one more easily grasp the Ten Directions World Form.

As a being of the Primal Chaos Realm, Luo Feng had not mastered any Dao branch, and forcibly contemplating the Ten Directions World Form was extremely challenging.

Even though Luo Feng's Spiritual Will had reached the Ultimate Realm of God King, he possessed many Special Grade Inheritances, and had consumed both Primordial Crystal Spirit Fruits and Clearing Spirit Liquids, it was still a very difficult goal to achieve.

"Pursuing higher-level secret techniques with a lower-level realm, even if I fail, is also a refinement for my comprehension." Luo Feng was at peace with this pursuit.

Even if he ultimately failed, cultivating his comprehension would still be a gain.

...

Wind Zhang City.

Moyu Qingyan and his wife received an incredibly warm welcome from the Zhang Family, and Zhang Yunge had never been so honored. After staying with many relatives and friends who tried to keep them, the couple finally bid farewell to their loved ones.

"We should head to Huyang City now." Standing at the front of the cabin on a Flying Boat, Morosa and the couple Moyu Qingyan looked

back, with some servants inside the cabin.

"I was planning to stay in Wind Zhang City for just ten or twenty days, but who would have thought we'd end up staying for over a thousand days," sighed Moyu Qingyan.

"No helping it," his wife, Zhang Yunge, said with a smile, "You saw it yourself; there are so many in the Royal Family. Even just the most important friends and relatives are numerous. With so many invitations, my father and the others couldn't refuse."

Moyu Qingyan nodded, then turned to Morosa, "Second Master, how long will it take us to reach Huyang City?"

"About a day," Morosa said casually.

If he could reveal his full strength, he could have reached it in the time of a few sentences.

"Father and big brother have been waiting for us for a while now," said Moyu Qingyan, eager to return. As Cultivators, becoming a Daoist couple was a very private matter and didn't necessitate informing parents.

However, both Moyu Qingyan and Zhang Yunge had strong familial affection within their clans, so after they became a couple, they went to visit their parents and elders.

Whoosh—

As the Flying Boat shuttled through the Void, there was a shadow in the Void that watched the boat from afar.

"They hid in Wind Zhang City, and they hid for such a long time," the shadow was quite annoyed. After all, Wind Zhang City was the residence of the 'Wind Chapter God King' and the ancestral home of the clan. It was naturally protected by powerful Formations at great cost, so he would not make a move within the city.

Whoosh.

The shadow, silent and unseen, followed the Flying Boat as it passed

through the Void.

...

The Flying Boat rushed on its way.

Morosa sat leisurely, enjoying the service of his disciple and his wife. Moyu Qingyan and his wife were helping to pour drinks and keeping him company in conversation.

Suddenly—

The previously relaxed Morosa's brows furrowed slightly.

With his sense, a shadow hidden within the layers of space was rapidly approaching. Given the methods of this shadow, it was certainly no ordinary Primal Chaos Realm cultivator.

"Not good," Morosa was startled. "Judging by this shadow's methods, it doesn't seem like an ordinary Primal Chaos Realm cultivator. It's either a Godly King or a cultivator who has Transcended Primal Chaos Realm."

"Why would there be such a powerful enemy pursuing this Flying Boat? I've kept such a low profile and never revealed my strength. My disciple and his wife are even weaker," he wondered.

"Could it be because of the Master, implicating us?"

Morosa immediately speculated.

"Master, there seems to be a presence, possibly Transcendent of Primal Chaos Realm or at the Godly King Level, who is about to make a move on us. If you don't show up soon, I won't be able to hide my strength any longer," Morosa immediately sent out a message with his Spiritual Will.

"Oh? Going to make a move on you?" Luo Feng halted his cultivation, with most of his consciousness gathering on the Water Drop Mark in the palm of Moyu Qingyan's hand.

Suddenly—

Moyu Qingyan was somewhat surprised; he felt the 'Water Drop Mark' left by his Master in his palm suddenly transform into a droplet and fly out.

"What is this?" Zhang Yunge was also surprised as she watched the droplet that appeared out of nowhere.

"Whoosh!"

Suddenly, a vague shadow passed through the walls of the Flying Boat cabin, attempting to whisk away Moyu Qingyan, Zhang Yunge, and Morosa.

"Quite bold," said Luo Feng's voice.

The droplet suddenly expanded, turning into a water droplet cage, and instantly enveloped the vague shadow.

"Hmm?" Trapped inside, the shadow was forced to appear, surprised, "Luo He? I didn't expect you to have an Avatar guarding your disciple; you really do care about your disciple, don't you?"

"Completely hidden breath, concealing identity," Luo Feng could not recognize the shadow's identity.

The aura of the shadow did not match any of the information on the strong figures of the Land of Origin; it was evidently deliberately concealing its own.

"So cautious in your concealment, are you an assassin?" Luo Feng was well aware that there were some ancient beings in the Land of Origin who would take on assassination jobs, as earning resources this way was quite fast.

"I won't hide it from you, I am a member of the Shadow Sky Realm," the shadow spoke, "Since you, Luo He, are here, I will give you some respect. The True Body shall descend! Let's see if you can protect your servant, your disciple!"

As soon as the voice fell, the water droplet cage suddenly constricted and instantly obliterated the shadow inside.

The water droplet then transformed back into the figure of Luo Feng.

"Master," Morosa immediately bowed respectfully.

"Teacher," Moyu Qingyan also bowed right away.

"Greetings, Garrison Commander," Zhang Yunge was also very nervous; this was her first time meeting the legendary Great Saint Luo He.

Luo Feng, however, looked into the distance, feeling a terrifying power descending not far ahead: "This old fellow's True Body has arrived."

Chapter 177 Episode 4 Chapter 14 The First Time Killing the Godly King

Luo Feng clearly sensed the terrifying power that had descended, seemingly capable of eroding everything. Its formidable presence was such that, were his True Body present, he might have been able to withstand it head-on.

However, with just an Avatar, Luo Feng no longer felt confident at this moment.

"Morosa, prepare the backup plan," Luo Feng transmitted his voice.

"Backup plan?" Morosa, who had been ready to watch the battle, couldn't help but shiver at the thought.

Having arrived at the Land of Origin, Morosa's identity as a Sector Beast would not be revealed until they possessed absolute power. Still, the master and servant indeed had a backup plan, which was to utilize the ability of 'Formlessness and Intangibility' that both master and servant possessed.

At that moment, with their roles reversed, Luo Feng would become Morosa and Morosa would become Luo Feng, covering for each other. Only after transforming into 'Luo Feng' could Morosa unleash his more terrifying power.

"All right, I'll wait for your command," Morosa said, quite eager.

"Things shouldn't be so dire yet. Keep an eye on them," Luo Feng said and then instantly passed through the Flying Boat to the outside.

Moyu Qingyan and his wife watched carefully through the Flying

Boat, eyeing the impending clash of Godly King Tier forces! Meanwhile, the attending servants were both anxious and excited, for such a high-level confrontation was indeed rare to witness.

"Watch closely," Morosa glanced at Moyu Qingyan and his wife, "If the situation turns dire, I will temporarily take you into the spatial treasures."

"Yes, Second Master," replied Moyu Qingyan and his wife, both watching intently.

...

Luo Feng stood mid-air, weaponless, while a vast cloud of grey mist loomed in the distance! This huge cloud emitted an evil aura, as if it could corrupt and defile everything in the world.

"I'm aware of many ancient existences in the Land of Origin, but I do not recognize you," Luo Feng observed the other party. "I've heard that the Shadow Sky Realm possesses secret techniques to conceal its members. You truly are impressive."

Against a mysterious force capable of deploying Emperor Level power, Luo Feng naturally did not dare underestimate them.

"There's much you don't understand, little fellow!" The grey mist cloud revealed a face, staring at Luo Feng.

"Who hired the Shadow Sky Realm to act against us?" Luo Feng spoke, "To attack my servant and disciple is truly despicable."

"The Shadow Sky Realm never betrays its employers." The grey mist cloud actually didn't know the identity of the employer, as there were others in the Shadow Sky Realm who dealt with clients. His job was simply to carry out the task, "It wasn't necessary to deal with you for this mission, but I'd like to try... killing your servant and disciple in front of you, little fellow!"

Luo Feng to the opponent, "When I make my move, I won't hold back."

"Hahaha, you think you, a little fellow, are in any position to talk

about holding back?" The grey mist cloud let out a thunderous laugh, echoing between heaven and earth.

Rules of heaven and earth were changing, rapidly affecting the direction of the distant Flying Boat.

The entire world seemed to turn grey.

"This is bad."

Inside the Flying Boat, Moyu Qingyan and his wife noticed that the once vibrant world had suddenly turned grey! They both had a sense of impending doom; they feared that once enveloped in grey, they would undoubtedly die.

In the grey world, the only color—Luo Feng's figure—suddenly dissipated.

"Water Droplet, World!"

An immensely large Water Drop World emerged, encompassing a range of quintillions of kilometers, sheltering the Flying Boat, and also encompassing the huge grey cloud.

Within the vastness of the Water Drop World, the rules of heaven and earth were affected, and the grey zone was quickly suppressed.

"Your understanding of the laws appears to be rather average?" Luo Feng's illusory figure manifested within the gigantic Water Drop World.

Under the guidance of the Special Grade Inheritance "World Life Form," Luo Feng had newly comprehended five kinds of 'Triune Forms'. These were different from the Black River Form he had realized during a fortunate encounter.

The Droplet Form was recorded within "World Life Form," suited best for executing moves involving world manipulation, domains, and long-range attacks.

With only a few Avatars sent out, the Droplet Form was naturally the most suitable.

"That was merely a natural influence I have on the world," the grey mist cloud said while also realizing the prowess of this First Person of Primal Chaos Realm, Luo He.

Just an Avatar was suppressing his influence on the world.

"How much power can a mere Avatar of yours possess to even think of stopping me?" The grey mist cloud suddenly burst forth with a tyrannical force, charging wildly as if heaven and earth were collapsing, obliterating every layer of space in its path.

Luo Feng could tell at a glance that this was not the full extent of his opponent's might, suspecting that the true explosion of power would occur the instant they made contact.

"My Water Droplet World, after all, only contains a thousand droplets of water, it cannot withstand such a frontal collision," Luo Feng understood this, for it was just an Avatar that contained merely a thousand droplets of water.

"Woosh."

The vast Water Droplet World suddenly divided into three hundred sixty figures of Luo Feng.

The Avatar that Luo Feng had sent possessed a thousand droplets of water, allowing for a maximum of a thousand Avatars to be deployed.

Every droplet of water consisted of 'eighteen quadrillion particles'! Each was equivalent to a perfectly nourished Primal Chaos Layer Creature. Such a perfect Primal Chaos Layer Creature, even when using some ordinary moves, would manifest the strength at the Pinnacle of Primal Chaos Realm. A droplet of Luo Feng's water...

when it executed a Godly King level move, could achieve the might at the Transcendence of Primal Chaos Realm level.

"Blade River Slash, Life and Death Reincarnation!"

The three hundred sixty figures of Luo Feng instantly transformed into three hundred sixty streaks of Blade Light.

Each streak of Blade Light was the Godly King Level Blade Technique "Blade River Slash"!

The reason for using this move was, on one hand, to form a Blade Formation, and on the other, because it was the easiest move for Luo Feng to execute, posing the least burden on his spirit.

Upon reaching the Ultimate Realm of Spiritual Will as a God King, Luo Feng could allow over a hundred Avatars to execute Blade River Slash simultaneously. That he could make three hundred sixty Avatars execute it at once was thanks to the effects of consuming the Primordial Crystal Spirit Fruit and the Clearing Spirit Liquid.

Luo Feng's thoughts were now much faster than before, and his state of mind was particularly splendid, which allowed him to accomplish this.

"Hm?"

The vast grey cloud attacked, only to be shocked to find that three hundred sixty extremely refined streaks of Blade Light were instantly cutting through, bearing a formidable destructive force as they penetrated its body.

The three hundred sixty Blade Lights cooperated with each other, continuously grinding and annihilating; the vast grey cloud was visibly being worn away.

"How strong could one avatar be?" the enormous grey cloud mass couldn't believe it.

It didn't know that in terms of long-range attacks, this was already one of Luo Feng's killing moves. Of course, there were more powerful long-range techniques...

which had to rely on quantity to compensate, like simultaneously controlling ten million Droplet Blade Lights and executing the 'Blade River Slash,' which, at the threshold of the Primal Chaos Realm, would be more powerful due to the scale of the ten million Blade Lights than Luo Feng's current Blade Formation.

Alas, Luo Feng had only sent out an avatar.

"That's not good."

The Blade Formation, composed of Godly King Tier Blade Techniques, was indeed fearsome. In the Infinite Space, Luo Feng only needed thirty-six Blade Lights to eliminate 'Wuxiang the Ancestor'. But in the Infinite Space, 'Wuxiang the Ancestor' couldn't even use a single branch of the Great Dao and was far from as powerful as the True Body.

The mysterious entity before him, however, was in the Land of Origin with his True Body! His foundation was extremely profound.

In the past, Luo Feng had relied on what could be described as a boundless and unending Physical Body to overpower his opponents, but now the situation had reversed; the opponent's body was massive and fearsome.

"His True Body's energy reserves are too horrifying. Even if I exhaust all the Blade Lights, it won't hurt him much," Luo Feng seemed to be holding his own in battle, but as the Blade Formation ground away, as it eroded the opponent's body, his own Blade Lights were also being depleted.

"You, with just one avatar, rank among the forefront of those who have transcended in the Primal Chaos Realm. It's a pity that it's only an avatar after all. Your servants and disciples will still have to die." Accompanied by a rumbling sound, Luo Feng's three hundred and sixty Blade Lights were completely annihilated.

Morosa, the Moyu Qingyan couple, and all the attendants within the Flying Boat watched nervously.

Originally, seeing the Blade Formation, formed by the Great Saint Luo He, grinding away at the massive grey cloud, they still had hope. But now they were about to be defeated.

"Master is only an avatar, while the enemy is the True Body. If master's True Body were here... this enemy would definitely not win," Moyu Qingyan had great confidence in his master, but he also knew that the situation was dire, "If master cannot hold on, I suppose I will probably die too."

Moyu Qingyan looked towards his wife, his mind more settled than ever before.

"Are we going to die?" Zhang Yunge turned towards Moyu Qingyan, smiling faintly, "Qingyan, in this world, we are still too weak."

"Stop talking nonsense and hide quickly." Morosa waved his hand and collected Moyu Qingyan, Zhang Yunge, and many attendants all at once.

Morosa appeared nervous on the surface, but inside he was very excited.

"Master, is it time to start the backup plan?" Morosa asked.

He had been eager for this moment for a long time.

"Not yet," Luo Feng responded.

"Hmm?" Morosa was surprised.

The master still has a move left?

The powerful avatars of his master were at places like Huyang City, Xiangjie City, and others, all quite distant from there. Logically speaking, it was impossible for them to arrive in time during the extremely short duration of a life-and-death battle.

As for using treasures to open a spacetime passage, a Godly King Tier enemy would never sit and watch a spacetime passage stabilize without taking action.

...

At the same time the three hundred and sixty Blade Lights were obliterated, the massive grey cloud surged toward the Flying Boat.

"Hmph," a silhouette of Luo Feng appeared in the Water Drop World, looking coldly at the massive grey cloud.

The recent grinding Blade Formation destroyed both parties' forces, and Luo Feng also sensed the will contained within the opponent's

power. The opponent's Spiritual Will was not very powerful; Luo Feng surmised...

It should only be the Spiritual Will of the First Realm of Godly King.

"Be annihilated."

Luo Feng did not hesitate to execute the Lie Yuan Technique.

Especially the impact of the 'Clearing Spirit Liquid' on the spirit, Luo Feng felt that this time he performed the Lie Yuan Technique more perfectly.

"Hmm?" The massive grey mist cloud suddenly couldn't see anything else, only a towering star that rolled towards it! The star's formidable pressure made it tremble with despair, instantly crushing down upon it.

"No—" At that moment, it realized what its fate would be.

Pfft!

Instantly, as the rolling star crushed down, its Spiritual Will was completely obliterated, not a trace left.

The originally formidable giant grey mist cloud rapidly shrank, eventually becoming a grey fog mass that looked like liquid.

"His True Body is actually just grey mist?" Luo Feng flew closer to observe the grey fog mass, and their battle was also enveloped by the Water Drop World, hidden from the outside view.

Only Morosa within the distant Flying Boat clearly saw everything.

"Dead?" Morosa watched the scene, eyes wide, "Another Secret Technique of Willpower?"

Whoosh.

Morosa retracted the Flying Boat and appeared beside his master in a flash.

"Master, who exactly is this Godly King Tier entity?" Morosa curiously looked at the grey fog mass in front of him, where the fog was dense like liquid, slowly flowing and still eroding everything around it.

"I don't know, but this is his core," Luo Feng said, "I'm sure news will soon spread throughout the Land of Origin that a Godly King has died. Then, we will know who it was."

"Can I have this corpse?" Morosa asked somewhat eagerly.

He had been a Godly King for over a century, and if he relied solely on absorbing Heaven and Earth Energy, it would be too slow. This being, whose path diverged from his own Godly King Tier existence, would give him great help if consumed.

"Let me study it first, and then I'll give it to you," Luo Feng waved his hand and collected the grey fog mass, "Make sure to keep the news of me completely killing this Godly King a secret."

"Yes, Master," Morosa immediately responded.

Luo Feng nodded; this was his first time completely killing a Godly King since arriving at the Land of Origin.

Of course, it was also because this Godly King's Spiritual Will was relatively weak; from the fight, he could see that currently, he could barely manage to completely obliterate a 'Spiritual Will of the First Realm of Godly King'. If this Godly King's Spiritual Will had been stronger by thirty to fifty percent, he feared it would be very difficult for him to completely obliterate the opponent.

Chapter 178 Episode 4 Chapter 15 Master of the Shadow Sky Realm

"Don’t let Qingyan and the others come out for now," Luo Feng instructed, "I will get you to Huyang City as soon as possible."

Huyang City had his own powerful avatar, sufficient to handle many dangers.

This weaker avatar had, somewhat luckily, killed that gray mist entity. On one hand, it was because he possessed the Lie Yuan Technique, but on the other, it was because the gray mist’s spiritual will was too weak.

Even among those at the First Realm of Godly King, such weak spiritual will was rare. Even those at the Pinnacle of the Primal Chaos Realm who reached the level of a Godly King had quite a few.

"It’s rare to see such weak spiritual will in the realm of the First Realm of Godly King," Luo Feng thought to himself.

"Master, this assassination was targeted at me and Qingyan," Morosa voiced his doubt, "Logically, Qingyan and I shouldn’t attract such a powerful enemy."

"It was my fault."

Luo Feng said, "Not long ago, I destroyed a great opportunity belonging to the ’Godly King of Wuxiang’ from the Shi Kingdom."

Being able to summon members from the Shadow Sky Realm to assassinate! Luo Feng quickly deduced the instigator. Stay connected via empire

Having been so low-profile since arriving in the Land of Origin, he had few enemies already; only someone who could afford to employ the Shadow Sky Realm just to kill a servant and a disciple... The Godly King of Wuxiang was the most likely possibility.

"Destroyed his great opportunity? How significant was this opportunity?" Morosa inquired.

"Probably all the resources he had accumulated over his entire cultivation journey," Luo Feng guessed.

A Guest Elder Godly King needed fifty million merit points to exchange for a position. Although the Godly King of Wuxiang was at the limit of the First Realm of Godly King, acquiring this opportunity was indeed not easy.

Indeed, the Godly King of Wuxiang had secured this opportunity at the cost of his brotherly relationship with the Emperor of Tian Kun and had essentially sold himself to the Two Realms Palace.

"All the resources accumulated since beginning his cultivation? This Godly King of Wuxiang must be furious," Morosa said, "Master, you've indeed made a mortal enemy."

Luo Feng just smiled and said no more.

The Flying Boat, under Luo Feng's control, traversed the Void with incredible speed.

Luo Feng also examined the corpse of the Godly King he had just stored away.

"This Godly King's treasures..." Luo Feng discovered some storage treasures within the corpse and also found a concealed Godly King weapon, which the opponent evidently had had no time to use.

"Some ordinary treasures and a golden cone from the First Realm of Godly King," Luo Feng examined the golden cone and thought, "Adding up all the treasures, they are barely worth a hundred billion Cosmic Sand."

"This Godly King, so poor?" Luo Feng wondered.

The Desert Wind City Lord, who had cultivated the Primordial Bloodline and invested so much in his own body, could still produce eighty billion Cosmic Sand.

This clearly deeply accumulated Godly King only carried so few treasures?

Too poor!

"Most transcendents of the Primal Chaos Realm are wealthier than him," Luo Feng began to study the corpse further.

"This corpse..."

Upon examination, Luo Feng noticed the extraordinariness of the corpse.

The gray mist had coalesced into a liquid state, slowly flowing while spreading more gray fog on its surface.

It appeared as mist, yet it was immensely tough.

"Hiss, hiss." Luo Feng tried to damage it, but as the gray mist was destroyed, it naturally regenerated.

"Even in death, this corpse remains so extraordinary," Luo Feng thought back to when he had used the Blade Formation to subdue it, finding the opponent's mist body hard to handle. The Blade Formation was completely exhausted, yet the mist body's damage was negligible.

"He must have invested all his treasures in his body," Luo Feng guessed.

"This turns out to be a bargain for Morosa," Luo Feng chuckled inwardly. The more extraordinary the corpse, the greater the benefits Morosa would naturally gain after absorbing it.

Moments later.

The Flying Boat had arrived above Huyang City.

"Master, that corpse..." Morosa looked at Luo Feng.

"Wait till we get back to Xiangjie City, then go to the Star Tower to collect it," Luo Feng glanced at him. Even if he absorbed it, it had to be done inside the Star Tower. Having said that, Luo Feng had already disappeared.

Morosa felt somewhat eager, thinking about returning quickly, but there was no way around it; he had to accompany his good disciple, Qingyan.

Whoosh.

Morosa waved his hand, and the couples Moyu Qingyan along with a group of followers were released back into the Flying Boat.

"We are fine?"

All of Moyu Qingyan's couples were very surprised. When they had been taken in, Great Saint Luo He's Blade Formation had already been defeated! That enormous gray mist entity was about to kill them. Now, however, they had already arrived over a city?

"Huyang City has arrived," Morosa said, "Qingyan, hurry down and see your father. Finish up the affairs quickly and head back to Xiangjie City."

"Yes, Second Master," Moyu Qingyan couldn't help but ask, "Second Master, how did we manage to survive here?"

"Don't ask so much," Morosa glanced at him and had already taken the lead to fly out of the Flying Boat towards the city owner's mansion below.

Moyu Qingyan and Zhang Yunge exchanged puzzled glances, taking their group of servants to fly down together.

...

A vast and hidden world, also known as the 'Shadow Sky Realm.'

"Completely dead? All avatars wiped out?" A figure of thunder was

informed and, shocked, immediately flew out of an ancient hall!

Whoosh!

He transformed into a thunderbolt, instantly crossing a great distance, arriving directly in front of a quiet pavilion within the Shadow Sky Realm.

"Master," the figure of Thunder, terrifying in presence, stood outside the pavilion yet remained extremely respectful, "the Envoy has completely perished, and all his avatars have been annihilated."

"How did he die?" a figure within the pavilion sat there.

This figure sitting there naturally influenced the entire Shadow Sky Realm, and even his influence permeated beyond the Shadow Sky Realm, affecting many areas of the Land of Origin.

"We received a mission from the Wuxiang Godly King of Shi Kingdom, to kill Great Saint Luo He's servant Luo Sa and the disciple Moyu Qingyan," said the Thunder figure respectfully. "This mission was assigned to the Envoy. The Envoy sent avatars to assassinate...After the failure of the avatars, the Envoy's true body descended himself!

But after descending, he never returned, and all his avatars disappeared, as did all their causality."

"He is utterly and thoroughly dead," that figure inside the pavilion stated.

"Master, although the Envoy's strength was only at the First Realm of Godly King with extreme standards, he had a strong self-preservation capability. How could he suddenly die?" the Thunder figure inquired.

"He had avatars in the Shadow Sky Realm," the figure inside the pavilion stated, "and there was no causality attack that reached the Shadow Sky Realm… so it must have been some type of soul attack, possibly an assault of spiritual will, perhaps the extermination of the soul, or possibly control through an illusion technique; all are possible."

The Thunder figure stated, "The Envoy's spiritual will, although weak, had also reached the threshold of the First Realm of Godly King! To kill him merely with spiritual will, it would have to be a will beyond the Ultimate Realm of God King...Across the entire Land of Origin, not many can achieve such a step. As for the Soul Path, maneuvers at the Godly King level are also very rare."

"Two possibilities; either he encountered a terrifying entity with an extremely strong spiritual will who instantly exterminated him," the figure inside the pavilion said with a smile, "or he encountered a practitioner with achievements on the Soul Path. It's a minor matter; you need not worry too much about it."

"Yes," said the Thunder figure respectfully.

Being one of the core members of the Shadow Sky Realm, he also understood that many of the envoys were just ordinary members of the Shadow Sky Realm.

"Although I have bestowed you with power, you must also temper your own will; without sufficient spiritual will, you cannot perfectly master this power," the figure inside the pavilion stated.

"Yes, Master," the Thunder figure bowed respectfully and then left.

The sitting figure in the pavilion watched this unfold.

"Cultivating powerhouses through external forces fundamentally has great flaws," the figure inside the pavilion pondered, "No matter how many I nurture, confronted with truly powerful entities, they are wiped out under the sweep of a will."

"Yet, the Sector Beast from Tianmu Kingdom nurtures life within its inner world quite perfectly. The individual from the East Extreme Domain, who enlightens life with the Great Dao of Life Origin...their nurtured life forms are more perfect than mine."

"That individual from the East Extreme Domain has ultimately survived the great destruction of the Source World; he truly is different," reflected the figure inside the pavilion.

"There still are some key aspects that I haven't comprehended,"

pondered the figure inside the pavilion. "I can select someone from among the Divine Sons to try to cultivate a new Envoy."

To the master of the Shadow Sky Realm, cultivating an envoy was merely a test subject in his cultivation of Secret Techniques. Moreover, these test subjects were absolutely loyal and tirelessly earned resources for him.

******

Shi Kingdom, Wuxiang City.

Wuxiang Ancestor had been waiting for a response from the Shadow Sky Realm.

"Wuxiang Godly King, the mission has failed," Shadow Sky Realm finally responded.

"Failed?" the Wuxiang Ancestor could hardly believe it, "Just an ordinary Primal Chaos Realm and an eternal true god, and the Shadow Sky Realm can fail?"

"Luo He’s avatar was protecting them," the Shadow Sky Realm replied, "If another assassination is needed, it will cost 500 billion Cosmic Sand, and we can strike again with a stronger member."

"No need."

Wuxiang Ancestor immediately cut off the communication.

Five hundred billion Cosmic Sand? Just to kill a servant and a disciple? Even if they succeeded, it would feel like a loss!

"With such a reputation as that of the Shadow Sky Realm, so useless," Wuxiang Ancestor was both angry and furious, having already lost a major opportunity once. Now, having spent six hundred billion Cosmic Sand to engage the Shadow Sky Realm and still failing, his anger was naturally even greater.

Buzz—

Wuxiang Ancestor could hardly tolerate this frustration, but also

understood that it would be foolish to take action himself. He could only contact his elder brother.

"Wuxiang, what's the matter?" the Emperor of Tian Kun responded.

"Big brother," Wuxiang Ancestor did not hide anything in front of his elder brother, immediately telling him about the events in Infinite Space and asking the Shadow Sky Realm to take action.

"The opportunity I obtained at a great cost has gone just like that; I really can't tolerate it!" said Wuxiang Ancestor.

"You'll have to tolerate it even if you can't," the voice of the Emperor of Tian Kun came through, cold and distant.

Wuxiang Ancestor was taken aback.

"The Shadow Sky Realm's actions have an extremely low chance of failure, which is why they are considered the top assassination force in the Land of Origin," the voice of the Emperor of Tian Kun sounded, "When they take action, they consider many factors. They surely accounted for the protection by Luo He's avatars. Yet they still failed…clearly there were unexpected circumstances."

"Unexpected circumstances?" Wuxiang Ancestor wondered.

"I am very clear about the operations of the Shadow Sky Realm; this unexpected situation is highly valued; they would be willing to disclose it to you only for a substantial price," said the Emperor of Tian Kun.

Wuxiang Ancestor knew well that his elder brother was a Second Realm Godly King and an official member of the Two Realms Palace, really mingling among the high tiers of conflicts in the Land of Origin, his understanding of various forces indeed much deeper than his own.

"This assassination, precisely what unexpected factors there are, is worth investigating," continued the Emperor of Tian Kun. "On the other hand, contending against Luo He brings no good outcomes. He is the direct disciple of Emperor Chu; if the contest continues… not only will you fail to kill him, but it will also ruin my relations with

the Flame Wind Ancient Country."

"I have very good relations with several emperors of the Flame Wind Ancient Country which cannot afford your disruption," stated the Emperor of Tian Kun.

"Understood," responded Wuxiang Ancestor.

One of the reasons his elder brother moved freely in the Land of Origin was his excellent relations with several emperors of the Flame Wind Ancient Country; of course, his elder brother's culinary skills reaching the Godly King level was another reason that made those emperors admire him.

"Flame Wind Ancient Country and Thunder Ancient Country are the two core forces of the Land of Origin, as long as we maintain good relations with Flame Wind Ancient Country, others will think twice before dealing with us. So your matter with Luo He ends here!" The Emperor of Tian Kun stated.

"Yes, I understand," Wuxiang Ancestor could only obediently comply.

Once the communication was severed, Wuxiang Ancestor was quite dissatisfied: "My brother, disregarding his identity as a Second Realm Godly King to please the Flame Wind Ancient Country! Now he even refuses to offend a disciple of Emperor Chu."

Although discontented in his heart, Wuxiang Ancestor could only comply obediently.

Because to seek great opportunities and major benefits, he ultimately had to rely on his elder brother!

Chapter 179 Episode 4 Chapter 16 Peace

Huyang City.

Moyu Qingyan and his wife had stayed in the city for a while, but they were about to leave.

"This is where I grew up, here with my father, my elder brother," said Moyu Qingyan with reluctance. "Yun Ge, I even thought about settling down here with you... After all, master has an avatar here, and I could often seek his advice."

"I know it's hard for you to leave," his wife Yun Ge said with a smile, "but from a cultivation perspective, Huyang is just a city in 'Yu Kingdom,' a relatively remote country on the Land of Origin. It doesn't compare to Xiangjie City in terms of resources! Xiangjie City, on the border of two ancient countries, is far more prosperous."

"For cultivation, resources are very important."

"Moreover, the Deputy City Lord of Huyang is a role your father shares with Moli Meng. Are you planning to compete with them for their position?" Yun Ge asked. "And your second master and the original Divine Monarch are also in Xiangjie City, both of whom have been very instructive to you."

"I understand," Moyu Qingyan nodded. "I was merely sharing my thoughts with you."

For their future children, Xiangjie City was by far the best choice for themselves and their spouse.

"Let's go," said Yun Ge.

"Mm." Moyu Qingyan followed her out of their residence.

Inside the city owner's mansion, several members of the Moyu family, including Moli Meng and some friends, came to see off Moyu Qingyan and his wife, along with Morosa.

"Father," Moyu Qingyan looked at his father.

Moyu Hu was quite gratified and immediately transmitted his advice: "Qingyan, Deputy City Lord Luo trusts me and has taken you as his disciple, which is a great honor. Always remember this immense favor and never become arrogant. If your arrogance displeases Deputy City Lord Luo... then this goodwill will disappear."

"I understand," nodded Moyu Qingyan, who clearly knew his master's temperament after being with him for so long.

"We cultivators rarely encounter such a great opportunity in life, and Deputy City Lord Luo is your greatest fortune. Remember this well," Moyu Hu said, reminding his son whose future seemed increasingly bright.

Within such a short time, his son had become an eternal true god! In Xiangjie City, he was almost acting as the city's lord and had even married the daughter of the royal family, indicating a boundless future.

"Little brother," Moyu Liefeng looked at his brother, whose resources had always been good in Huyang City, but ultimately without the guidance of a strong cultivator like Morosa and having followed the Bloodline Cultivation System from the start, he was still stuck at the true god of void space stage.

When they were children, amongst the three brothers, he clearly had the most talent. But Moyu Qingyan had Morosa's guidance and Luo Feng's resources, which clearly made a difference.

Of course, Moyu Liefeng was not bothered; he was merely happy.

Because in this world, he had only this one brother left!

"I don't know when we'll meet again," Moyu Liefeng said to his only

brother. "Have more children with your sister-in-law. Among us three brothers, you are the only one without children."

"Definitely," Moyu Qingyan smiled and then looked towards a young man in the distance, beckoning, "Feng Qiu, come here."

"Uncle," the young man approached, bearing some resemblance to Moyu Liuxing.

Moyu Feng Qiu, the youngest son, was born after Moyu Liuxing died; his wife Mo Youshang was already pregnant when Moyu Liuxing died.

As per the family's wishes, Moyu Feng Qiu also followed the law cultivation system initially and was still just a true god.

Morosa waited in the distance, feeling a bit of urgency, but he did not press the matter. Explore more at empire

A moment later.

"Finally, we can set off," Morosa sighed with relief when he saw Moyu Qingyan and his wife approaching.

He had been longing to enjoy some delicacies.

"Second master, let's go," Moyu Qingyan approached.

Morosa nodded and with a wave of his hand conjured a Flying Boat. Morosa, Moyu Qingyan, his wife, and their servants all entered the Flying Boat.

Soon, the Flying Boat broke through the skies and disappeared.

The Moyu family members watched from afar, as the distance between Huyang City and Xiangjie City was too vast; under normal circumstances, they rarely met.

"My uncle is quite generous. The resources he gives when he returns are much more than what my granduncle and his generation received," Moyu Feng Qiu thought to himself. Although his mother was strict, as the only child of Moyu Liuxing, he was naturally

favored within the Moyu family and was undoubtedly a person of power within Huyang City.

However, with Deputy City Lord Luo's temperament, the descendants of the Moyu and Moli families, both deputy city lord families, had to keep a low profile and be very careful.

"I'm most at ease when Moyu Hu handles matters."

Luo Feng's avatar within the city owner's mansion also watched this scene. "Moyu Liefeng is also not bad, but the later descendants of the Moyu family... are rather mediocre."

When the Heartshadow Sect wreaked havoc, Moyu Liuxing died.

Luo Feng had considered, if Moyu Liuxing's child, 'Moyu Feng Qiu,' had a good disposition, he could be nurtured to an extent. But with Luo Feng's capability to observe the entire city with a thought, having watched over time, he had given up on nurturing him.

...

Morosa, escorting Moyu Qingyan and his wife, traveled from Yu Kingdom's Huyang City to Flame Wind Ancient Country, first stopping in Chu Capital before continuing to the border city, 'Xiangjie City.'

In Chu Capital, inside Luo Feng's Cave Dwelling's Quiet Room in the Star Tower.

Morosa, as a Sector Beast, had the ability to create avatars since he was weak, which was one of his innate talents. At this moment, his true body remained inside the Star Tower, focused on digesting the corpse of a Godly King Level.

"Master, master." Not long after digesting, Morosa immediately called upon his master.

"What's wrong?" Luo Feng arrived at the space within the Star Tower that was exclusively for Morosa.

"That Godly King corpse is very special," Morosa said gravely.

"Isn’t it suitable for devouring and digesting?" asked Luo Feng.

Morosa replied, "This Godly King corpse is greatly beneficial to me, but the essence of this corpse... it absolutely could not have been cultivated by someone at the First Realm of Godly King."

Luo Feng’s expression changed slightly, "What do you mean?"

"While I was digesting it, I could clearly perceive that this corpse contained the profound mysteries of both the ’Origin Dao of Matter’ and ’Origin Dao of the Infinite.’ The combination of these two laws cultivated such a physical body. As for the level of mystery, it far surpasses my current realm and definitely is not of the First Realm of Godly King.

It might be of the Second Realm of Godly King, or possibly even the Ultimate Realm of God King."

Luo Feng was startled.

"The Godly King I killed, although his body was tough and difficult to deal with, was judged to be only of a very powerful standard within the First Realm of Godly King. It is still far from the undefeatable level of the First Realm," Luo Feng said.

"This physical body must have been refined by an extremely powerful existence," Morosa said.

"No wonder... no wonder his spiritual will was so weak. His strongest physical body was all due to external help," Luo Feng understood.

The Godly King he had slain should have had a very shallow foundation.

It was only with external help that he had such a powerful physical body and thus, that level of strength.

"A physical body also requires spiritual will to control," Morosa said. "This physical body has great potential, but the deceased Godly King... his spiritual will was relatively weak, only capable of unleashing part of the body’s power. If his spiritual will had been stronger, his power would have probably surged dramatically."

Luo Feng nodded.

"Master, cultivating your own physical body and helping other cultivators to refine theirs are completely different challenges," Morosa said gravely. "I can only rely on the 'Sector' inherent within my body to naturally give birth to each life. Yet this hidden existence could achieve this step on his own realm... it's truly terrifying."

Luo Feng nodded.

"We need to be cautious in dealing with this one," Morosa said. "At least for now, we are far from being his match."

From just one corpse, they could see the gap between them.

"I am only at the Pinnacle of Primal Chaos Realm, and you are merely at the First Realm of Godly King. Don't think about opponents; just focus on getting stronger slowly," Luo Feng said.

"Mm." Morosa nodded, a bit shocked by the power of this corpse.

******

Time passed.

Following the death of that Godly King from the Shadow Sky Realm, no news of any Godly King's death had spread through the Land of Origin, which made Luo Feng and Morosa more certain that this was a servant refined by some terrifying existence.

Afterward, Luo Feng encountered no more trouble! Clearly, the terrifying existence that had refined that physical body had no intention of targeting Luo Feng.

"Compared to the truly pinnacle existences of the Land of Origin, I am still too weak," Luo Feng focused on his cultivation.

The Emperor of Tian Kun from the Shi Kingdom, as a Second Realm of Godly King, was considered an overlord. However, he was far from being a match for the pinnacle existences of Land of Origin. The leaders of the hidden forces in the Land of Origin were each incredibly mysterious and formidable.

Two Realms Palace, Wanfa Tower, Time-Space Lonely Boat—the entities these two ancient countries were wary of, all backed by alien powerhouses. Alien powerhouses only send avatars, and they can never be completely eradicated.

In this encounter with the Shadow Sky Realm, which the two ancient countries did not consider a threat, Luo Feng immediately understood the immeasurable depths hiding behind it when they dispatched Emperor-level combat power.

"I, a little guy, should keep accumulating slowly."

After consuming the Primordial Crystal Spirit Fruit and Clearing Spirit Liquid, Luo Feng primarily contemplated the 'Ten Directions World Form.' Only when fatigued would he study the Calamity Beast Diagram, to deal with some spiritual beings in Infinite Space.

In Infinite Space, he exchanged four Special Grade Inheritances, of course, all just parts from the First Realm of Godly King.

It broadened Luo Feng's horizons considerably and made him acutely aware of the importance of 'comprehension' and 'spiritual will'!

Just like Luo Feng's Transformation Method, if his spiritual will were weaker, the number of Triune Forms he could control would drastically decrease, and his strength would comprehensively decline. Moreover, spiritual will also affects 'comprehension of the Great Dao' and 'control over the physical body,' among many other aspects.

"I have a feeling that if I attempt to comprehend the Six Branches of Life, it shouldn't take too long to achieve breakthroughs," Luo Feng thought during his cultivation, having this premonition.

"But, it's still not enough!"

"According to the Creator of 'World Life Form,' one should not deliberately comprehend it; just accumulate to the deepest level, and mastery will come naturally," Luo Feng continued studying the Ten Directions World Form.

The Six Branches of Life and Six Branches of Destruction had both reached the Pinnacle of Primal Chaos Realm over centuries, but their

accumulation clearly still had a gap.

Regarding the Six Branches of Destruction, Luo Feng did not feel that just by comprehending, he could make rapid breakthroughs.

Thank you to the three new Alliance Hierarchs who gave rewards: Dreamer of Ten Thousand and Eight Thousand Dreams, My Beloved Jie, and Divine Power Colonel.

Tomato also wishes all readers a happy Mid-Autumn Festival!

Chapter 180 - 17 Flame Wind Ancient Country Imperial Clan

A vast Dark World where countless creatures struggled to survive.

"We finally won, we finally completely eliminated this 'Destructive Level Terror.'"

"Out of the seven Destructive Level Terrors, we have finally eliminated one, this is a new beginning."

The three remaining powerful cultivators were quite relieved, and many creatures far behind at the base were even more excited and cheered.

"As long as we pass down the torch, generation by generation, we will eventually eliminate these terrors, and our world will regain light, regain freedom." Countless creatures were filled with longing for the light.

Whoosh!

Suddenly, a huge blood-red eye opened in the dark sky.

This scene made the hearts of countless creatures tremble.

"It's the Dark Eye!"

"Heavenly Dao Level Terror 'Dark Eye.' " The creatures were terrified.

According to their categorization, among the many terrors invading their world, the one at the very top was called the 'Heavenly Dao Level Terror'—the Dark Eye! When this eye first opened in the sky, the entire world was plunged into everlasting darkness.

They still had the confidence to fight against Destructive Level

terrors, but facing the supreme Heavenly Dao Level Terror 'Dark Eye,' they only felt powerless.

The more they knew, the more they understood the vast gap.

"The Heavenly Dao has changed, the Heavenly Dao has become the Dark Eye!" As the powerful cultivators comprehended the Heavenly Dao, they discovered the Heavenly Dao had changed, and even the ultimate direction of their own cultivation could only lead to this Dark Eye.

Thankfully, in the past long years, the Dark Eye indeed acted like the Heavenly Dao, treating everything equally.

"Hum."

The Dark Eye emitted a beam of red light, which enveloped a city like a pillar from heaven. The city was instantly revitalized, its energy surged dramatically, transforming into a majestic twisted creature that knelt in salutation.

"'Illusion City' has evolved, has it evolved into a Destructive Level Terror?" In the rear base, countless creatures who sensed this scene despaired.

They had just managed to kill one Destructive Level Terror, and now another one had appeared?

"Seven Destructive Level Terrors... It is decreed." Inside the base, a powerful cultivator sensed the operation of the Heavenly Dao and murmured, "The Dark Eye is the Heavenly Dao, the Heavenly Dao decrees there will forever be seven Destructive Level Terrors, eliminating one will only lead to another taking its place. No matter how we struggle, it's futile."

"Decreed, huh?"

The many creatures that fought for this were in despair.

Suddenly—

The Dark Eye in the high sky emitted a mournful howl.

"No!!!"

This mournful howl of the Heavenly Dao Level Terror resounded in the hearts of every creature in the world, and they all felt the Dark Eye's fear, reluctance! Afterward, the Dark Eye in the high sky silently vanished without a trace.

And the sky, as if a massive dark curtain was removed, showed its true form.

Warm sunlight... After a long stretch of ages, it shone on this land once again, and brightness was restored between heaven and earth.

"This, what is this?" Accustomed to the light condensed by formations, many creatures were touching real sunlight for the first time in their lives, they were fascinated by the legendary light.

Light, spread throughout the entire world.

"The Heavenly Dao Level Terror 'Dark Eye' has disappeared, the Heavenly Dao has returned to normal," said a powerful cultivator comprehending the Heavenly Dao, excitedly.

"Although the seven Destructive Level Terrors are still there, under the sunlight, their territories have significantly shrunk."

"Haha, the world has changed, it has changed."

...

Treasure Land 'Infinite Space'.

"Hmm, using the Ultimate Realm God King will's Secret Technique, I can finally eliminate the most ordinary Spiritual Beings." Luo Feng was quite satisfied, watching the blood-red one-eyed monster before him completely vanish.

Spiritual Beings, once their spirits are destroyed, are completely gone.

Luo Feng in this Spiritual Being had also reached a total of 10 Reward Points! If it were a mere severe defeat in multiple instances,

the accumulated Reward Points would generally just pass 5 points.

"These Spiritual Beings in Infinite Space, relying solely on spiritual power, can reach the Godly King level! I wonder from where Yuan obtained these Spiritual Beings when he established this treasure land," Luo Feng privately marveled.

Spiritual Beings, there are none in the Land of Origin.

"According to intelligence, those with the will of the Ultimate Realm God King are hoped to completely kill them," thought Luo Feng, "It seems, those strong ones... must have obtained quite powerful Secret Techniques of Willpower."

In the Infinite Space Treasure Vault alone, there are inheritances containing Secret Techniques of Willpower, these inheritances might not compare to the Lie Yuan Technique, but the gap is obviously narrowing.

"As my strength increases, the layers I come into contact with are getting higher."

"I might even encounter Secret Techniques of Willpower that are comparable to the Lie Yuan Technique," Luo Feng mused privately.

Look at those inheritances in the Infinite Space Treasure Vault, such as the Special Grade Inheritance "World Life Form," which was created by Yuan's good friend! What about those Perfection Level inheritances? If this level of inheritance specializes in 'will,' how strong must it be?

"Lie Yuan Technique, after all, is only one of many opportunities Yuan left in the Land of Origin," Luo Feng also reminded himself not to be arrogant.

For example, Emperor Ming, Emperor Ming bestowed upon him the Calamity Beast Diagram, which concealed a method of will cultivation that Emperor Ming created himself.

Luo Feng felt it was not inferior to the "Great Destruction Heart Refining Technique" within the Lie Yuan Technique, and of course, the power of the Great Destruction Heart Refining Technique also

depended on the realm of Luo Feng's Great Dao of Destruction Origin.

"I have three Spiritual Beings in Infinite Space, the two weaker ones have died, leaving only one strong one," Luo Feng thought, "I should go find new Spiritual Beings."

Luo Feng left an avatar, guarding that one strong Spiritual Being. This strong Spiritual Being, Luo Feng could not eliminate, it probably required a prolonged confrontation.

Luo Feng sent nine avatars flying in all directions, heading to various remote areas to explore and search for new prey.

******

"Luo He, leave quickly," came the command.

"This is our territory."

Invisible waves of thought emitted one warning after another.

In the Infinite Space, areas rich in prey had long been occupied by ancient beings. Although they recognized him as Great Saint Luo He, they had never paid him any mind.

"Even Luo He, the top figure of the Primal Chaos Realm, has no influence here," Luo Feng laughed self-deprecatingly as he flew.

In the real world, Luo Feng held a very high status and many powerful beings respected him.

But in the Infinite Space, a coveted sanctuary left behind by Yuan, the threshold to enter was exceedingly high!

Aside from the monarchs of the two great Imperial Clans, those who could come here were usually sovereigns of the Land of Origin! For instance, even a Godly King of the First Realm like Wuxiang Ancestor found it extremely difficult to secure a place here.

And for those even weaker?

Only the two great Imperial Clans would allow ordinary Godly Kings and transcended beings of the Primal Chaos Realm to enter! As royalty, they gathered together, a formidable faction in the Infinite Space.

"Nineteen Great Daos of Origin are sealed in the Infinite Space, so using Godly King Level techniques here requires forging a new Great Dao," thought Luo Feng.

Here, even Emperors and Monarchs, if they haven't forged a new Great Dao, might be weaker and can only rely on Spiritual Will to confront enemies.

This was also the reason Wuxiang Ancestor was so confident in facing Luo Feng.

In the Infinite Space, being able to deploy a Godly King Level secret technique already made one a master.

To forge a complete branch of a Great Dao? That counted as an ultimate master.

To reach the Second Realm of Godly King by forging a Great Dao? Unheard of! At least, Emperor Chu's intelligence given to Luo Feng had no such records.

"Luo He?"

Suddenly, a thought touched Luo Feng.

Luo Feng looked up and saw a figure in a loose white robe in the distance.

"Di Wu, the Godly King," Luo Feng recognized him. This was a Godly King from Emperor Chu's Di Wu lineage, considered a very strong existence even among those in the First Realm of Godly King.

"I didn't expect to see Great Saint Luo He here," Di Wu, the Godly King, smiled as he looked at Luo Feng. "Logically speaking, my Flame Wind Ancient Country wouldn't possibly give you a spot. Where did you get your quota from?"

"It’s not from Flame Wind Ancient Country," Luo Feng said.

"I know. What I’m asking is... where did your quota come from?" Di Wu pressed, "Or did Emperor Chu deliberately bend the rules to privately get a token and pass it to you?"

"Are you defaming my master?" Luo Feng’s expression darkened.

"Who doesn’t know how Emperor Chu operates?" Di Wu sneered coldly.

"Hmph." Luo Feng no longer held any goodwill.

How could Luo Feng maintain a polite façade when his master was targeted in such a way?

However, the feud between Di Wu’s lineage and Emperor Chu’s lineage was notoriously bad, with frequent conflicts accumulating countless grievances over the long years.

"Young brother Wu Xiu." A figure flew over from afar, a man in grey robes with white hair, who glanced at Luo Feng, "So it’s Luo He."

"Luo He, hurry up and leave, this is the territorial domain of the Flame Wind Ancient Country’s Imperial Clan, not a place for you," the white-haired man scolded.

"Yan Qiong, the Godly King." Luo Feng recognized him, said no more, and turned to fly away.

Yan Qiong, a Second Realm Godly King! In the Flame Wind Ancient Country’s Imperial Clan, he was among the core members. Naturally, he had the audacity not to care even if he were facing the lord of the Wanjie Kingdom, or the Sector Beast of Tianmu Kingdom.

"No wonder my master advised me, unless personally invited by the Primogenitor Yan Feng, there’s no need to join the Flame Wind Ancient Country." Luo Feng sighed inwardly. "Those who treat newcomers kindly are indeed few."

As the Imperial Clan’s Godly Kings clustered together, monopolizing the vast majority of resources and giving but a small portion to the

hardworking Guest Elder Godly Kings, Luo Feng could understand.

Yet this sense of discrimination and exclusion was indeed quite unpleasant for Luo Feng.

And this was without fully joining!

If he fully joined, the restrictions would increase greatly. He would have to be at the beck and call of these Imperial Clan Godly Kings, becoming their lackey.

"This Luo He, no need to pay too much attention to him," said the white-haired man 'Yan Qiong, the Godly King,' glancing at Luo Feng in the distance, "Even if he becomes a Godly King, he's merely invincible within the First Realm of Godly King. He can't impact our Imperial Clan in the slightest."

"I'm suspicious about his quota," Di Wu, the Godly King, said, "He, a mere transcendent of the Primal Chaos Realm, can't possibly have fifty million Merit Points. So how did he get the quota? I suspect it was gotten by Emperor Chu clandestinely and given to Luo He."

"Oh?"

The expression of Yan Qiong, the Godly King, changed subtly, "It's quite possible. Emperor Chu does indeed act recklessly. As a member of the Imperial Clan, not wholeheartedly considering the clan, he frequently helps those outside the clan!"

"I will consult with the Emperor and investigate this matter," Yan Qiong's eyes flashed coldly, "We must clarify how he obtained his quota! If it was indeed given privately by Emperor Chu, he cannot be let off lightly."

The eyes of Yan Qiong, the Godly King, bore a cold hardness.

He had become a Godly King much earlier than Emperor Chu.

Emperor Chu and Emperor Yan Qiong had also clashed many times, with Emperor Yan Qiong, a being next only to Emperor Yan in the 'Emperor Yan lineage,' always eager for battle.

Discovering any fault in Emperor Chu, Yan Qiong, the Godly King, would certainly pursue it relentlessly.

"If we confirm this matter..." Wu Xiu, the Godly King, looked forward eagerly.

"It's a rule set by the Ancestor, if Emperor Chu makes a mistake, he must be punished. As for Luo He? First, he must be expelled from the Infinite Space, depriving him of this opportunity, and moreover, he must be severely punished," said Yan Qiong, the Godly King. "It's a joke that a mere Guest Official of the Primal Chaos Realm could enter."

Chapter 181 - 18: Focus

Flame Wind Ancient Country, Yan Capital.

Yan Capital is the city of the first emperor of the Flame Wind Ancient Country, 'Emperor Yan'. Here, there is also another palace called 'Yan Qiong Palace', where Emperor Yan and Yan Qiong are both ancient Godly Kings of the entire Imperial Clan. Both followed similar paths, but Yan Qiong has always been stuck in the Second Realm of Godly King, unable to advance further.

In the depths of the ancient Yan Qiong Palace, a vast world had been created.

Within this vast world.

This world had numerous volcanoes and even more raging black winds! The black winds swept countless magma up into the sky, scattering it recklessly.

"This Luo He…"

The entire main land of this world suddenly sat upright, taking on a humanoid form of an Exotic Beast. His back had numerous volcanoes, his nostrils naturally breathed out fierce black winds, and his golden eyes displayed even more terrifying might.

On the world's membrane, countless Secret Patterns circulated, and formless energy descended time after time, cleansing this massive Exotic Beast's body.

"A Guest Official of the Primal Chaos Realm, also worthy to enter the Infinite Space?" the massive Exotic Beast's golden eye blazed with anger.

"Emperor!"

"Emperor!"

The massive Exotic Beast spoke directly.

Upon the world's membrane, countless Secret Patterns circulated, naturally condensing into a figure, who was the contemporary Emperor of the Flame Wind Ancient Country—Emperor!

Emperor looked at this massive Exotic Beast and sighed inwardly, then spoke, "Brother Yan Qiong, what brings you to me?"

"I encountered Luo He in the Infinite Space," the voice of the massive Exotic Beast thundered, its might far greater than in the Infinite Space. "He, a non-Imperial Clan member of the Primal Chaos Realm, how did he enter the Infinite Space? I suspect Emperor Chu has violated the rules set down by the Ancestor…"

"You have misunderstood Luo He."

Emperor said, "He earned this opportunity by his own strength."

"He, having transcended the Primal Chaos Realm, how could he possibly earn such an opportunity on his own?" the massive Exotic Beast said.

"Your True Body has been imprisoned here, solely focusing on refining the Primordial Bloodline, and you understand too little of the outside world," Emperor said.

"I have always kept up with information about powerful beings from the outside world; what could I possibly not know?" the massive Exotic Beast retorted.

Emperor gently shook his head: "A century ago, Luo He had continuously contested for some natural treasures at the border. It forced the Thunder Ancient Country to allocate him a spot to enter the Infinite Space in exchange for Luo He not participating in the border conflicts."

"With his absolute top strength in transcending the Primal Chaos Realm, continuously participating in those conflicts would have been too much for the Thunder Ancient Country to bear," Emperor said.

"So, he indeed seized this opportunity by his own merits."

The massive Exotic Beast fell silent.

So that was it?

The negotiations between the Thunder Ancient Country and Luo Feng were very secretive and were never made public.

"By his own merits?" The massive Exotic Beast sneered, "He was only able to participate in the border conflicts by using his status as a Guest Elder of our Flame Wind Ancient Country! That's the only reason he could make the Thunder Ancient Country suffer such a great loss."

"If he were a stray Guest Official of the Primal Chaos Realm from outside our Flame Wind Ancient Country, he wouldn't even have the qualifications to participate in those conflicts."

"Using the identity of our Flame Wind Ancient Country's Guest Elder to gain such benefits! Shouldn't he have handed over his spot to the Imperial Clan? At most, give him some rewards!" the massive Exotic Beast said.

Emperor fell silent, looking at this formerly wise and influential former elder of their clan.

"Brother Yan Qiong, haven't you noticed how deeply the Primordial Bloodline has influenced you?" Emperor said. "I use a Formation to suppress the contamination for you, yet you are still so volatile? Without the Formation's aid, you might have lost control entirely."

In the Flame Wind Ancient Country, those who cultivated the Primordial Bloodline were said to have never lost control outwardly.

In reality...

Those who weren't sufficiently lucid were never released.

"I am very lucid," the massive Exotic Beast looked at Emperor. "We are the Imperial Clan, our Imperial Clan should dominate the best resources of the Land of Origin! We allow Guest Officials

opportunities to exchange for heritage and resources, which is already quite generous! Giving them such freedom?

In my view, Guest Officials who enter the treasure lands should follow the commands of our Imperial Clan."

"Ordinary Guest Officials all have sufficient freedom," Emperor said. "You should know, the Guest Official system was established by the Ancestor."

"Just because the Ancestor established it, does it mean it cannot be changed? Rules set by the Ancestor eons ago are always right?" the massive Exotic Beast raged.

Emperor's expression grew colder.

The massive Exotic Beast was alarmed, realizing his recklessness.

"Emperor, I once helped you," the massive Exotic Beast looked at Emperor.

"Brother Yan Qiong, I have always remembered your kindness, hence I have always been helping you," Emperor said. "I helped you build this world, I have given you many treasure resources, always hoping you could really remain lucid."

"I still need…" the massive Exotic Beast began to speak.

"You already owe a lot to our clan," Emperor declined. "Originally, you borrowed a tremendous amount of resources, aiming for the Emperor level. But you failed, and you couldn't repay the vast resource debt. Still, you keep demanding more. Brother Yan Qiong, you should understand… The Imperial Clan isn't just you; resources can't be given to you alone."

"Willing to give to Luo He and these Guest Officials? Unwilling to give me more?" the massive Exotic Beast was resentful and furious.

Being perpetually imprisoned, naturally, was a bitter experience.

"You owe a lot to our clan," Emperor said. "Whereas Luo He and these Guest Officials, they all exchanged based on their merit points, and

they don’t owe our clan anything."

"I remind you again, the Guest Official system was established by the two Ancestors together! It absolutely does not tolerate your questioning," Emperor looked at the massive Exotic Beast. "You should also understand, in the eyes of the Ancestor… your life and death, and the life and death of a Guest Official, probably make no difference."

The massive Exotic Beast grew even more enraged.

He certainly knew.

The imperial clan members fought within the Land of Origin, and some Godly Kings had fallen. The Ancestor never intervened.

"Hone your heart well, you can consult Emperor Ming more. If your spiritual will could catch up to even two or three percent of Emperor Ming’s, you would have been able to suppress this corruption and maintain absolute clarity, becoming the new Emperor," Emperor Chu said, "In this era of reincarnation throughout the Land of Origin, when it comes to spiritual will, Emperor Ming is ranked first.

Bowing before him is no disgrace."

"I have already bowed and asked him for guidance," the massive exotic beast grew more furious. "But he humiliates me time and again, making me serve him, making me his attendant, making me a gatekeeper’s servant... How can I endure it?"

"You once humiliated him too," Emperor Chu said.

"That was when he was weak," the massive exotic beast said.

"In his view, you are weak now," Emperor Chu said, "Reflect well. In my view, your only chance to become an Emperor... is to consult Emperor Ming!"

Having said that, Emperor Chu vanished.

"Haha, consult him? Even if I am forever imprisoned or even if I end in destruction, I will not suffer his humiliation again," the massive

exotic beast became even more frenzied.

...

Emperor Chu was in a world he had created himself.

"The imperial clan, despite receiving excessive favor from the Ancestor, still feels what they have is not enough. Even the little given to guest officials, they still want to take away," Emperor Chu shook his head lightly, "This foolish lot... Do they really think the Ancestor cares for them?"

"The Ancestor, existed several reincarnation eras ago."

"How could one feel much affection for descendants several reincarnation eras apart?" Emperor Chu shook his head lightly.

******

The treasure land 'Infinite Space'.

Luo Feng did not care about the overbearing nature of the imperial clan, instead, he kept his distance.

"Thankfully it is in the Infinite Space, where everyone's ability isn't much different. Out there... I'm afraid they would have slapped me with a flick of their hand," Luo Feng thought to himself with a smile.

According to his intel, Yan Qiong Godly King is a very ancient Second Realm of Godly King. It is said that he also began cultivating a Primordial Bloodline, coupled with the resources of the imperial clan and weapon secret treasures, his strength is unimaginable.

But the Yan Qiong Godly King is very low-key in the Land of Origin, hardly appearing.

"Many ancient beings are hard to meet outside, but you can encounter quite a few in the Infinite Space," Luo Feng found the Infinite Space very interesting.

In the Infinite Space, everyone is endowed with an ordinary emperor-level physical body! Want a stronger physical body? One needs to

pave one's own path in cultivation, but so far, no one in the Infinite Space has been known to have paved the path to the Second Realm of Godly King.

Therefore, everyone's physical body is generally at the First Realm of Godly King level.

It's just the spiritual will, there might be some big differences.

"Emperor Ming's spiritual will is truly frightening," Luo Feng couldn't help but think of Emperor Ming. During his long stay in the Infinite Space, Emperor Ming's spiritual will was the only one he was certain definitely surpassed the Ultimate Realm of Godly King.

Vast and superior, that is a qualitative difference.

"Hmm?" Luo Feng suddenly sensed a spiritual being ahead, "Lucky day, I found one."

Luo Feng had his nine avatars exploring, going wherever it was remote.

He didn't mind the scarcity, as long as he discovered a spiritual being, he immediately ordered an avatar to occupy the area.

An avatar occupying a single spiritual being wouldn't attract major forces' envy! But in reality, the total number of spiritual beings occupied by Luo Feng's multiple avatars scattered across different locations was quite substantial.

Of course, this kind of thing, could only be done with multiple avatars.

In the Infinite Space, newly paved paths that could also deploy avatars were still very rare.

...

East Extreme Domain, within an ancient grand palace.

A woman in green robes sat there, the palace naturally displaying a vast formation, countless secret patterns flowing within it, constantly

changing.

"Emperor Chu is truly remarkable, merely by using formations he has reached the level of Emperor. I pale in comparison," the green-robed woman admired. She suddenly looked at a changing secret pattern within the formation, "Oh? This secret sequence is finally deduced. Wuxiang Godly King had shouted the name Luo He in the palace, and coincidentally disappeared from the Infinite Space...

His disappearance is related to Luo He, the 'Mist Envoy' in the Shadow Sky Realm died, and the cause was also on Luo He."

"The lord of Shadow Sky Realm actually endured it? No follow-up tremors?"

"This Luo He, is not ordinary."

The green-robed woman observed the formation.

Many traces on the Land of Origin could be reflected through the formation, many mysteries deduced. The more she reflected, the more accurate the deductions became.

"Perhaps I could invite him to join my side?" The thought arose in the green-robed woman, she immediately used the formation for deduction, and saw the formation reflecting the world, as if showing the future evolution of the world.

"Although I can't see it clearly, it seems to be a wonderful decision? This Luo He, appears to also be favored by the Supreme Rules," the green-robed woman was somewhat surprised, she had long known that the Supreme Rules also had their favorites.

The more dazzling the cultivator, the more they are favored.

Even beings like Sector Beasts, born favored, could smoothly reach the Ultimate Realm of Godly King, and even more so by destroying and devouring, grow faster.

Ordinary cultivators, start very ordinary, but gradually among them, the dazzling ones are sifted out.

"Being favored by the Supreme Rules, even more reason to invite him," the thought arose in the green-robed woman’s mind, while she remained in place, a thought already remotely arriving at Yan Capital of Flame Wind Ancient Country in Xiangjie City.

Chapter 182 - 19 Reincarnation Tower

Inside Xiangjie City.

Everything had turned dull and grey, countless creatures had lost their life force, living like puppets.

The woman in green was the only splash of color in this world, as she walked through the city, carefully observing everything.

"Although I have also learned quite a bit of information about Luo He, it is still clearer to see it with my own eyes," the woman in green arrived at the Garrison Mansion, somewhat surprised, "Luo He really conceals his life force tightly. As I walked by, I couldn’t see any trace of his past."

"A Transcendence of Primal Chaos Realm, his concealment of life force is more powerful than many in the First Realm of Godly King," the woman in green admired.

Indeed, the Land of Origin possessed some abilities to peer into the past, but while peering into the past of ordinary people was easy, it became more difficult with the stronger the individual.

The woman in green was capable of observing the majority of those in the First Realm of Godly King.

"Huh."

The space-time around her twisted.

The woman in green instantly returned from the past to the present, and everything around her regained its color, becoming vivid. This timeline was the one where countless creatures truly existed.

"Great Saint Luo He," the woman in green stood outside the Garrison Mansion, smiling as she spoke. Her voice naturally transmitted inside, and the guards at the entrance of the Garrison Mansion couldn't see the woman in green standing before them at all.

Inside the Garrison Mansion.

Luo Feng was enjoying drinks and a casual chat with Morosa, who had just finished digesting a Godly King's body, feeling quite content.

"Great Saint Luo He," a voice echoed around them.

"Hm?" Luo Feng and Morosa both jolted. Only at this moment had they noticed the woman in green outside the Garrison Mansion.

Morosa was secretly astonished and transmitted a message: "Master, I can easily sense the vast surroundings of Xiangjie City. I should be able to detect any strong individual approaching... but I had absolutely no awareness of her."

"After all, she is the 'Empress of Feng Du' from the East Extreme Domain," Luo Feng realized who the woman in green at the Garrison Mansion was and naturally knew her identity.

"Her strength should be close to that of a Pinnacle Sector Beast, right?" Morosa communicated telepathically.

"More or less," Luo Feng guessed as well, "You go back first, I'll meet with her."

Luo Feng personally made his way to the entrance of the Garrison Mansion.

The guards at the entrance likewise couldn't see Luo Feng.

When Luo Feng walked outside, he looked at the woman in green standing there, who seemed to stand apart from the entire world.

"Luo He pays respects to the Empress of Feng Du," Luo Feng bowed slightly.

"To create a Secret Technique and become absolutely the first in the

Primal Chaos Realm," the woman in green looked at Luo Feng and praised with a smile, "Indeed extraordinary. It's been a long time since such an impressive junior has appeared in the Land of Origin."

Luo Feng replied with a smile, "No matter how impressive, I'm still just someone from the Primal Chaos Realm."

"Won't you invite me to sit inside?" the woman in green asked with a smile.

"Please," Luo Feng said.

He immediately led the way.

Given the friendly demeanor of the Empress of Feng Du, Luo Feng naturally reciprocated with warmth.

...

In the Garrison Mansion, within a pavilion for receiving guests, they sat opposite each other. Luo Feng personally poured wine for her.

"The Empress of Feng Du, one of the Twelve Emperors from the natives of the East Extreme Domain, and terrifyingly powerful," Luo Feng understood the information about her well. The natives had occupied most of the Land of Origin in the earliest times.

The natives were the sovereigns of the Land of Origin.

At that time, the two Ancient Countries had very sparse clans and occupied only a very remote and small part of the land.

Back then, among the natives that dominated the Land of Origin, there were individuals called 'Divine Emperors,' a total of twelve who had held the title. At that time, the creatures of the Land of Origin were generally very weak, with few cultivators from the three thousand Primordial Cosmos coming through reincarnation to the Land of Origin.

These twelve Divine Emperors, judging by current standards of strength, were only just becoming Godly Kings.

But...

As the eras passed, the territories of the natives had been greatly reduced, shrunk only to the area of East Extreme Domain!

And the original Twelve Emperors, who had become Godly Kings in a short period in the early times, were now all in the Second Realm of Godly King! Among them, the 'Empress of Feng Du' was the most enigmatic.

"In the Land of Origin, Godly Kings in the Second Realm, those who can battle with Emperors and Monarchs, and are almost on equal footing, are few and far between."

"The Empress of Feng Du is one of them."

Ordinary individuals in the Second Realm of Godly King would be no match for Emperors and Monarchs; they'd likely be obliterated on the first strike!

Yet the Empress of Feng Du was an existence almost equal to Emperors and Monarchs.

Morosa thought... this Empress of Feng Du must be close to a Pinnacle Sector Beast.

"Based on the information, this Empress of Feng Du has cultivated both the Origin Dao of the World and the Time Primordial Dao to the Second Realm of Godly King! Her cultivation inheritance remains unknown," Luo Feng inwardly sighed.

With Inheritance at the Perfection Level or Special Grade, it wouldn't be difficult for someone with the exceptional talents of the Empress of Feng Du to obtain them.

Moreover, the natives of the East Extreme Domain have a mysterious Ancestor watching over them. That Ancestor naturally values the Empress of Feng Du, with her highest talents.

The status of the Empress of Feng Du in the Land of Origin is thus imaginable.

Even as a Godly King, Luo Feng's gap with her remained very large. Not to mention that he was currently only in the Primal Chaos Realm... her friendliness surprised Luo Feng somewhat.

"Luo He, I've come here to invite you to join the organization I've created, 'Reincarnation Tower,'" the woman in green said as she looked at Luo Feng. "Although I founded the Reincarnation Tower, all members are equal. I believe you've also heard about the Reincarnation Tower."

"Reincarnation Tower?" Luo Feng had certainly heard of it.

The Reincarnation Tower was a more niche power, much smaller in scale than the Two Realms Palace.

That's because each formal member of the Reincarnation Tower was personally selected and invited by the Empress of Wind City, making them naturally rare.

Yet, the reputation of the Reincarnation Tower was on par with the Two Realms Palace, Wanfa Tower, and Time-Space Lonely Boat.

"There are very few members in our Reincarnation Tower," the woman in green said, "but each of them is quite remarkable."

"Do I qualify to enter the Reincarnation Tower?" Luo Feng asked.

He feared he would be at the bottom in terms of strength.

"Don't underestimate yourself," the woman in green looked at Luo Feng. "Across the entire Land of Origin, you are a very impressive cultivator."

"Oh?" Luo Feng was startled.

Luo Feng certainly knew his own uniqueness! He had enslaved a Sector Beast, and with a Pinnacle Sector Beast at his command, he could raise a powerful army and establish a God King power in the future.

Furthermore, Luo Feng himself had a Perfect Divine Body, unlike any ever seen in the Land of Origin, and his Small Universe... was beyond

any other cultivator's.

Compared to these, the Lie Yuan Technique was somewhat lesser. After all, there were others besides Luo Feng who possessed inheritances left by Yuan.

Luo Feng was well aware of his uniqueness, but he had always kept it secret.

Now, this Empress of Wind City saw such potential in him?

"But however high your talents, you still need resources to cultivate," the woman in green said. "Like top inheritances, various rare treasures for assistance."

Luo Feng agreed. Whether it was the "Eight Tribulations Life Form," the "Extermination of Seventy-Two Blades," or even more precious inheritances in the Infinite Space like the "World Life Form," they were all of great help to him.

"The inheritances you've encountered so far are probably only of the First Realm of Godly King," the woman in green said. "The more precious the inheritances become, the more restricted they are."

"Some rare treasures, some powerful Primordial Bloodlines, are even harder to come by."

"A complete inheritance left by Yuan, even more difficult to obtain."

"A weapon that surpasses the God King Realm is enough to start a war between two Ancient Countries."

The woman in green looked at Luo Feng, "Do you think you'll get them just because you have high talent? You don't feel it strongly now because you can still compete for some of the peripheral resources left by Yuan. But the more precious the resources... eventually you won't even have the qualifications to contend for them."

Luo Feng fell silent.

His master, Emperor Chu, had admitted as much.

"Have you heard of Godly King Luo He?" the woman in green looked at Luo Feng.

Luo Feng was taken aback.

"You haven't heard, right?" the woman in green said with a smile. "Places like Flame Wind Pavilion and Thunderclap Commerce will not spread such information, and they might even try to cover it up."

"Godly King Luo He was fully committed to the Flame Wind Ancient Country, a Godly King who even advanced to the Second Realm of Godly King," the woman in green continued. "He dedicated himself to the Flame Wind Ancient Country, never complaining... Even though the Imperial Clan received far more resources than he did, he didn't mind, he was satisfied."

"He had a wife, three sons and two daughters."

"He didn't wish to get involved in too many disputes, only wanting to nurture his children and focus on his cultivation. He believed that through dedicated cultivation, he could reach even higher realms," the woman in green said. "He was grateful to his master, 'Emperor Xuan,' for his assistance."

"But his talent was too high, and he managed to refine a powerful Secret Treasure left in the Land of Origin by Yuan, which was a weapon beyond the God King Realm. With this Secret Treasure, he, being at the Second Realm of Godly King... could confront Emperors and Monarchs."

The woman in green looked at Luo Feng, "But what happened next? During a mission for the Flame Wind Ancient Country, he used this Weapon Secret Treasure just once! Only once!"

"Three Emperors acted at the same time."

"They forced him to hand over the Secret Treasure, threatening to slaughter his wife and children, his kin if he refused."

The woman in green looked at Luo Feng, "Accustomed to retreating, used to suffering, he still endured. He handed over the Secret Treasure."

Luo Feng sighed inwardly.

"In the moment of surrendering it..."

The woman in green smiled, "the three Emperors attacked! His wife, his children, his kin, and even all creatures in the entire city! All were slaughtered without exception."

"Godly King Luo He was also killed," the woman in green smiled. "His master, Emperor Xuan, learned of this later. But by then it was too late."

"Fortunately, Godly King Luo He was strong enough that before death, he managed to use the Reincarnation Secret Technique. He reincarnated," the woman in green said. "But when Emperors act, his wife, his children, his kin, none had a chance at reincarnation."

"After his reincarnation, he is now known as 'Emperor Gui Xu,'" the woman in green said as she looked at Luo Feng.

Luo Feng was shocked.

Emperor Gui Xu?

So it was him! Emperor Gui Xu, who called himself 'Emperor,' was still slightly inferior to an actual Emperor. But he seemed to have a blood feud with the Imperial Clan of the Flame Wind Ancient Country, constantly in conflict and never ceasing.

The Flame Wind Ancient Country's Godly Kings that died at the hands of Emperor Gui Xu numbered seven or eight as well.

"Emperor Gui Xu is a member of my Reincarnation Tower," the woman in green said. "I established the Reincarnation Tower because I hoped that as comrades, we could support each other and transcend this Reincarnation Era."

"And I think you also have what it takes to be an official member of my Reincarnation Tower."

"So far, there are a total of eight members in the Reincarnation Tower," the woman in green looked at Luo Feng. "You are the ninth I

have set my sights on, and the only one from the Primal Chaos Realm I’ve invited to date."

Chapter 183 - 20 The 9 Members of Reincarnation Tower

Luo Feng smiled at the woman in blue, "Senior Feng Du thinks too highly of me. Reincarnation Tower is prestigious in the Land of Origin, and I believe its members must far surpass me in strength."

"Of the current eight members, one is invincible in the First Realm of Godly King, and seven are in the Second Realm of Godly King," the woman in blue admitted.

"The gap between them and me is huge," Luo Feng remarked.

"Would you like to join then?" the woman in blue asked Luo Feng, "You should have confidence that you will soon become invincible in the First Realm of Godly King."

Luo Feng did not reply immediately but thought for a moment and asked, "Senior Feng Du, could you tell me about the rules of Reincarnation Tower?"

The woman in blue replied, "I merely established the organization of the Reincarnation Tower. All members inside are absolutely equal, and everyone knows each other's identities! If there is an action to be taken, members may invite others to join… Whether others participate is entirely voluntary."

"Whether members have a friendly or hostile relationship, nobody can intervene."

"But Reincarnation Tower has two core rules. First, no one may disclose the identity of other members. Second, nobody who participates in an action initiated by a member may betray them, and those who refuse to participate may not disclose it."

"These are the rules. Once you join, you must abide by them," the woman in blue looked at Luo Feng, "To violate them is to breach the great causality, becoming the common enemy of all other members."

Luo Feng understood.

Do not leak identities, do not betray.

Pretty simple.

"If it's just these two rules, I'm willing to join," Luo Feng said.

After all, through the long years, Reincarnation Tower had maintained a good reputation in the Land of Origin, unlike the powers established by alien races such as Two Realms Palace, Wanfa Tower, or Time-Space Lonely Boat.

Moreover, Empress Feng Du's reputation was also very good, and both Ancient Countries regarded her favorably. The reputation of Reincarnation Tower and Empress Feng Du was indeed the reason Luo Feng was willing to join.

Indeed, following the guidance from his master Mountain Sitting Guest, after becoming a Godly King, one would naturally join some factions.

"Welcome to join us," the woman in blue said with a radiant smile, flipping her hand to bring out a token, "With this token, a mere thought can take you into 'Reincarnation Tower'. I will convene the other members to warmly welcome the new member."

Luo Feng received the token.

"With this token, you can also contact the other eight members," the woman in blue said.

Luo Feng sensed that besides descending into 'Reincarnation Tower', the token could only contact the eight members.

...

A towering figure stood between heaven and earth, his body nearly

occupying one-third of the entire land. Black winds howled, sharpening his skin, imbuing his blue-black skin with a fearsome aura.

In this world, only two old servants were present besides him.

"Hm?"

The towering figure suddenly opened his eyes, his dark yellow eyes showing a bit of surprise, "Feng Du invited a new member? Reincarnation Tower finally has a new member again?"

...

"Come come come, drink, drink."

In a large hall, a young man indulged in drinking, surrounded by many friends.

"Younger brother, you are highly talented but you should still devote some effort to cultivation," said a muscular man with scale armor, a tail, and horns stepping forward to advise him, "Constant indulgence like this will make it hard to escape when calamity strikes."

"Cultivation?" the drunken young man glanced at his friend, "Big brother, what is cultivation for anyway?"

"Once you become powerful and reach the Primal Chaos Realm, you can truly dominate, you can easily control the fate of an entire Primal Chaos Prefecture," the muscular man explained.

"I don't care about dominating anyone's fate; being able to control my own fate is pretty good. Hahaha, my eyes, ears, and senses... that's all I need," the drunken young man laughed, "Don't be too greedy, enjoying fine wine is already wonderful enough."

"Sigh—" the muscular man did not continue to persuade.

The drunken young man suddenly became aware.

"Oh, Feng Du invited a new member? I wonder who the new member is?" the drunken young man's eyes held a trace of depth; he chose

reincarnation to sever the tangle of causality and to gain some freedom.

However, after his reincarnation, he was still in contact with Empress Feng Du and had rejoined Reincarnation Tower.

Reincarnation Tower was the only faction he still trusted; the members of Reincarnation Tower had never betrayed him.

"Let's check out the new member," the drunken young man used the token, and with a thought, he had already headed to Reincarnation Tower.

...

Beyond the Land of Origin was the boundless Universe Ocean, at the edge of the continent, a vast expanse of Universe Ocean was engulfed in endless poisonous fog, which spread far and continued to accumulate over time.

At the center of the poisonous fog was a gigantic creature with numerous claws possessing a golden eye.

"Reincarnation Tower finally has a new member, the new member chosen by Feng Du must be extraordinary," the massive creature too entered Reincarnation Tower with a thought.

...

Soon, the members joined one after another.

"Hmm."

Luo Feng, using a token, descended upon the Reincarnation Tower for the first time.

It was a pavilion condensed from illusions. Stepping into this pavilion, Luo Feng instantly saw eight figures already seated inside, which made him, the new member, the last to arrive. Find your next read at empire

"Luo He has arrived," said the Queen of Wind Capital, smiling at Luo

Feng.

The other seven also looked at Luo Feng curiously, all appearing very friendly.

Luo Feng saw these seven, and since they weren't concealing themselves in any way, he recognized them immediately, which startled him.

"What a Reincarnation Tower," Luo Feng thought, "no wonder it previously only had eight members, yet its fame could rival that of the Two Realms Palace."

"Here in the Reincarnation Tower, all members treat each other as equals and can address each other by name," declared the Queen of Wind Capital, "Luo He, from now on, you are our ninth member."

"Luo He," a burly figure raised his cup and smiled amiably. He was Emperor Gui Xu.

"Luo He, the number one of Primal Chaos Realm, I have long heard of your name. To invite you here, you must be even more remarkable than the outsiders say," said a huge, plump man with a laugh. His smile held a subtle magic that naturally made other creatures feel warmly toward him. He was the direct disciple of the Lord of Ten Thousand Realms, the Great Freedom Sovereign.

"Luo He, I am Wuxin," a young man said with a smile to Luo Feng.

Luo Feng smiled and nodded: "Brother Wuxin."

Wuxin...

He had once been a Godly King and a Guest Elder of the Flame Wind Ancient Country, never fully joining it—just an ordinary Guest Elder! As his strength grew, and after reaching the Second Realm of Godly King, he too began to compete for some resources.

Because the resources obtained were so precious, he suffered multiple assassination attempts by the Flame Wind Ancient Country. After several attempts on his life, Wuxin eventually died in battle.

"There was no choice, if I didn't die, the Flame Wind Ancient Country wouldn't stop. So I had to reincarnate so they couldn't trace my causality," the young man explained. "You are currently only in the Primal Chaos Realm, lacking resources they'd covet! Once you're strong enough, you'll see how ugly the faces of those emperors of Flame Wind are!"

Luo Feng smiled faintly: "Thank you for the reminder, Brother Wuxin."

Of the eight present members, two had deep grudges with the Flame Wind Ancient Country, namely Emperor Gui Xu and Wuxin God King. Both had once been Guest Elders; Emperor Gui Xu had even been a direct disciple of 'Emperor Xuan.'

Their grievances were real, and Luo Feng understood Wuxin's point—he meant it sincerely.

Yet...

Although there were many rumors, Luo Feng knew that some of the emperors and Godly Kings in the Flame Wind Ancient Country were indeed tyrannical.

But at least for now, the Flame Wind Ancient Country and he bore no grudges. On the contrary, his relationship with Emperor Chu Yu, his bond with his mentor Emperor Chu, and his connection with Emperor Ming... Luo Feng cherished all of these.

Favors are favors, grudges are grudges.

Emperor Chu and Emperor Ming had shown him kindness, so Luo Feng couldn't just turn on the Flame Wind Ancient Country because of a few words from other cultivators.

"Luo He," a man in white robes nodded at Luo Feng with a smile.

"King Shan Du," Luo Feng also nodded.

King Shan Du, the direct disciple of the Primogenitor Yan Feng! In the realm of Second Realm Godly King, although he was a Godly King and a guest in the Flame Wind Ancient Country, his status was

still quite high. The emperors of the Flame Wind treated King Shan Du with quite a bit of respect.

The material for his first Triune Form came from a pet of King Shan Du.

...

Luo Feng and the several members present all exchanged simple greetings.

Of the eight members, the Queen of Wind Capital hailed from the East Extreme Domain, and Great Freedom Sovereign came from the Wanjie Kingdom.

Emperor Gui Xu, Wuxin God King, and King Shan Du all had ties to the Flame Wind Ancient Country.

Cloud Sky God King, an invincible First Realm Godly King, had been a Guest Elder in the Thunder Ancient Country. He once lost control while cultivating the Primordial Bloodline and killed a Godly King of the Thunder Ancient Country, forcing him to flee.

Black Fire Demon Lord, a Guest Elder and Second Realm Godly King from the Thunder Ancient Country, turned against the country completely in his quest to seize resources to become a Monarch. Interestingly, the Thunder Ancient Country had valued him highly, but due to his incessant failures to acquire the resources to become a Monarch, he had turned against them.

His reputation in the Land of Origin was also quite favorable.

"Earth God King," Luo Feng looked at the muscular man seated there, who, with a wide smile, raised his cup to Luo Feng.

Luo Feng reciprocated with a raised glass, yet he understood in his heart...

In the entire Reincarnation Tower, in terms of strength, it was the Queen of Wind Capital and this Earth God King who were the strongest.

Earth God King, also a Godly King risen from the lower ranks, once a Guest Elder of the Thunder Ancient Country! His exceptional talent was brilliant and dazzling. Because of his talent, he even obtained numerous resources left by Yuan, which provoked the Thunder Ancient Country. But due to his formidable strength, and despite several Monarchs attacking him simultaneously, he boldly escaped.

From then on, Earth God King and the Thunder Ancient Country were estranged.

Though a Second Realm Godly King, Earth God King could still confront Monarchs of the Thunder Ancient Country, his power almost matching theirs.

"A single Reincarnation Tower, equivalent to the tier of emperors, actually houses two," Luo Feng marveled inwardly, "no wonder it has such a grand reputation."

This gathering to welcome the new member was also a chance for everyone to get acquainted.

Except for the somewhat reticent Earth God King, the other members chatted with Luo Feng for a while, all of them becoming quite familiar.

"Now, in the Reincarnation Tower, my strength is the weakest. Even if they plan any actions, it wouldn’t be suitable to involve me," Luo Feng understood. After becoming a Godly King, his strength would have to surge before he could participate in some actions.

Chapter 184 - 21 The Indestructible Light of the Chaos Hole

"Luo He, my younger brother," the corpulent 'Great Freedom Sovereign' said jovially, "when you participate in some of Reincarnation Tower's operations in the future, you must remember to conceal your identity."

Concealing one's aura and obscuring causality wasn't difficult for the other members of the Reincarnation Tower. Read exclusive chapters at empire

Luo Feng, not yet a Godly King, was somewhat inferior in obscuring causality.

"I believe, with the achievements of your physical body, hiding and disguising yourself won't be difficult," the Great Freedom Sovereign remarked, "However, when you act, and engage with the enemy using techniques... you must avoid your own famous moves. Some techniques might only be executable by you in the entire Land of Origin! Once used, they could easily give away your real identity."

"Once your identity is guessed, you won't know peace," the Great Freedom Sovereign sighed, "After all, we in the Reincarnation Tower have acted time and again, contesting with many great forces and seizing quite a few resources."

"In our Reincarnation Tower, only I and Gui Xu have ever revealed our identities," Wuxin God King added from the side. "After my identity was exposed, the kings of Flame Wind Ancient Country knew I had previously seized many precious treasures, so they tried to assassinate me several times, and in the end, I had no choice but reincarnation."

"I don’t mind," Emperor Gui Xu said indifferently from the side. "I have nothing to hold onto, so what if I am exposed?"

His wife, children, and even all of his clan were no longer here.

Emperor Gui Xu didn’t care about being exposed.

"I have attachments," Wuxin God King sighed, "It’s only through reincarnation that I can protect them better."

Luo Feng listened, understanding that he was still relatively weak, not yet involved in the struggles of the most powerful beings on the Land of Origin, yet he could also draw on their experience.

The gathering to welcome the new member finally ended.

Xiangjie City.

Within a pavilion, Luo Feng sat alone; that strand of consciousness had already returned.

"The atmosphere within Reincarnation Tower is quite good," Luo Feng was quite satisfied, "Even though I’m the weakest, everyone was friendly and accessible."

"However, even the Reincarnation Tower’s sole ’Cloud Sky God King’ at the First Realm of Godly King, is extremely formidable," Luo Feng also understood how fearsome the estimated power of Cloud Sky God King was.

In the Land of Origin, there are quite a few invincible beings at the First Realm of Godly King; why was Cloud Sky God King invited to join?

"I heard that Cloud Sky God King, by herself and through cultivation, reached the extreme limit of the First Realm of Godly King. Unable to progress further, she then switched to cultivating the Primordial Bloodline...

I heard she was too compatible with that Primordial Bloodline, uncovering too much of its potential, and though it caused her power to surge dramatically, digging too intensely into its potential also

resulted in the vast will hidden deeper within the Primordial Bloodline clashing against her consciousness, leading to her loss of control.

In her uncontrolled state, she instantly caused the death of a Royal Family God King from Thunder Ancient Country, and all of his avatars perished."

The affairs of Cloud Sky God King were quite renowned.

If it was only the killing of one real body of a Royal Family God King, he could still cultivate back, and so with some compensation, the matter could be settled.

But her digging into the Primordial Bloodline was too deep, its intrinsic virulence targeted the soul! There was no way to revive through a resurrection vessel.

"Even at the Second Realm of Godly King, facing her virulence, one would suffer great loss of strength. According to my information, in terms of using poison, she could be ranked among the top three in the entire Land of Origin," Luo Feng could guess.

During many members' operations, Cloud Sky God King's virulence could affect several Second Realm Godly Kings at the same time, naturally providing substantial aid to their actions.

Not to mention the other seven members.

...

The treasure land 'Infinite Space'.

Luo Feng sat cross-legged on a piece of a blue-black stone, immersed in his cultivation. Although he had just joined one of the most prominent forces in the Land of Origin, Luo Feng also understood that whether it was the Two Realms Palace or the Reincarnation Tower, inviting him while he was merely at the Primal Chaos Realm level was akin to an early invitation.

Because once he became a Godly King, demonstrating sufficient strength, there would be many more forces inviting him.

Although it was an early invitation, he truly wasn't involved in collective action at the moment.

"Two Realms Palace was willing to offer a great opportunity. Reincarnation Tower, on the other hand, didn't offer any chances," Luo Feng smiled to himself. Sometimes a pie falling from the sky isn't necessarily a good thing. All actions of the Two Realms Palace were watched by alien races... Just this point alone was enough for Luo Feng to decline joining.

"Focus on cultivation,"

"They are too far from me."

From the experiences and lessons of senior practitioners, the Godly Kings of the two ancient countries were indeed ruthless, but their main targets were those at the 'Second Realm of Godly King'. They looked down on those at the First Realm as too weak.

The valuable resources contested by those at the Second Realm of Godly King would arouse their covetousness, leading to their large-scale actions.

If one reached the Ultimate Realm of God King, the two ancient countries became more cautious in how they dealt with them, not acting rashly.

The Lord of Ten Thousand Realms, the Sector Beast of Tianmu Kingdom, according to Luo Feng's gathered intelligence, were both at the Ultimate Realm level of Godly King! And that Ancestor from the East Extreme Domain... there was no accurate intelligence, but at the very least, he was also at the Ultimate Realm of Godly King.

These three top-tier forces each occupied a large territory and were all doing well.

"This world, after all, respects strength,"

Luo Feng stopped thinking further and focused on his cultivation.

Having consumed the effects of Primordial Crystal Spirit Fruit and Clearing Spirit Liquid for half an era, Luo Feng still cherished the

lingering effects of this phase.

"Great Dao of Life and Death...

Luo Feng began to relax and contemplate the Great Dao of Life and Death again.

Most of Luo Feng's efforts were on the 'Great Dao of Life Origin' and 'Great Dao of Destruction Origin', with only a minority on the 'Great Dao of Life and Death'. Luo Feng knew very well that with the first two Daos as references, with several Special Grade Inheritances as guidance, and also as the foundation of his 'Great Dao of Life and Death',

The more solid the foundation!

```

The fusion of the "Great Dao of Life and Death" would indeed take one farther.

He understood the reasoning, but the speed of comprehension for the separate Paths of Life and Destruction was significantly slower than that of the "Great Dao of Life and Death."

"No wonder many Godly Kings focus solely on one path. What's suited for oneself, after all, is the best," Luo Feng could clearly feel the difference because he truly believed it from the heart.

Even following the direction he most enjoyed in his heart, the efficiency of comprehension was noticeably higher.

"Extermination of Seventy-Two Blades, Volume One, is based on the foundations of the Heaven Splitting Lineage and the Dark Heaven Lineage."

"Its essence is to refine with the Dark Heaven Lineage and utilize the Heaven Splitting Lineage. It even leads to their gradual fusion," Luo Feng gently shook his head, "But this Blade Technique clearly has severe flaws."

"Although its power is great, its follow-through is weak."
```

"If the Blade Light contains the 'Origin of Life' and then fuses with 'Life Spirituality,' the natural power would be continuous and filled with endless tenacity. After that, refining with the Dark Heaven Lineage and utilizing the Heaven Splitting Lineage," Luo Feng tried.

With his past experience in comprehending numerous Godly King level Secret Techniques, Luo Feng's accumulation was already profound, and he gradually deduced a rough prototype of the new Blade Technique.

"No, that's not right."

Luo Feng identified a problem, "Once the Blade Light contains 'Origin of Life, Life Spirituality,' its foundation becomes too profound, and the Dark Heaven Lineage, Heaven Splitting Lineage simply cannot truly refine and control it."

At that moment, the rules of the 'Sector' within Morosa's body emerged in Luo Feng's mind.

"It can integrate the Heavenly Lineage, forming a small sector, and use the 'sector' as a cradle to assist with the complete refinement of the Blade Light by the Dark Heaven Lineage and the Heaven Splitting Lineage."

With the accumulation of the past hundreds of epochs.

And both the six branches of Life and the six branches of Destruction had long reached the Pinnacle of Primal Chaos. With the continuous state of consuming Primordial Crystal Spirit Fruits and Clearing Spirit Liquid, Luo Feng only felt an emergence of Spirit Light, and his condition was extraordinarily good.

The new Secret Technique gradually took shape through repeated trials.

This Secret Technique incorporated two major branches of the Great Dao of Life, the 'Life Origin and Life Spirituality,' and three major branches of the Great Dao of Destruction, the 'Dark Heaven Lineage, Heaven Splitting Lineage, Heavenly Lineage.'

The five branches gradually fused, and the new Secret Technique

became increasingly perfected.

During this process, he encountered many setbacks, but Luo Feng resolved them one by one.

Finally...

"It's done."

Luo Feng had spent more than ten million days in the Land of Origin, immersed in his devotion, and had finally perfected this Secret Technique.

"Emerge."

With a single thought from Luo Feng, a dark chaotic hole formed within him. In terms of creating worlds, Luo Feng had become very experienced. Founding it on the Heavenly Lineage was even simpler.

A massive amount of energy poured into the dark chaos hole, forming strands of Blade Light. These countless strands of Blade Light, containing the Origin of Life and Life Spirituality, converged and solidified continuously.

In just a brief moment, a countless number of Blade Lights had surged in. Luo Feng used up a third of the energy reserves in this body within the Infinite Space before the dark chaos hole began to feel somewhat 'stretched.'

"It's complete."

Luo Feng sensed that a supremely refined 'Blade Light' had been cultivated within the dark chaos hole at that moment. Luo Feng, just by looking at it, felt somewhat horrified.

Endless sharpness!

Even without its master's control, the Blade Light would not suffer any loss over the endless ages.

Even if the power of the Blade Light was depleted, it could naturally recover, as it itself seemed to be the 'Origin of Life,' endlessly

energetic.

"Relying on just this one Blade Light, it should already be at the strong level of the First Realm of the Godly King," Luo Feng was secretly astounded, "Is the power of fusion through the Paths really so terrifying?"

It was merely a casual realization during a moment of relaxation from his rigorous cultivation.

You should know that according to Luo Feng's deductions, this was just the beginning of the Secret Technique.

Next, he would need to fully grasp the five kinds of Great Dao branches, and after fusing all five branches into this Secret Technique, the Secret Technique's power would reach its pinnacle.

"A complete fusion of two kinds of Great Dao branches would already be the Second Realm of the Godly King."

"The upper limit of my Secret Technique is the complete fusion of five Great Dao branches. Given such power at the starting point, it's quite normal," Luo Feng understood, "This Secret Technique, by nurturing a strong Blade Light within the chaos hole, shall be named 'Eternal Light of the Chaos Hole.'"

"With my Spiritual Will, I should be able to simultaneously control more than ten strands of Eternal Light of the Chaos Hole."

"More than ten strands of Eternal Light of the Chaos Hole would be comparable to the strength of my Physical Body," Luo Feng was very pleased.

The strength of the Physical Body was Luo Feng's most powerful means in the outside world.

Only by utilizing the unique 'Formless and Intangible' capability of a Perfect Divine Body and traveling the Path of the Transformation Method could he achieve such extraordinary strength. But 'Formless and Intangible' was granted by the Supreme Rules, and Luo Feng always felt like it was a bit of a shortcut.

This time, however, there were no shortcuts.

A Secret Technique borne from the initial fusion of five Great Dao branches! Already comparable to the Transformation Method!

"It seems even without relying on ’Formless and Intangible,’ I’m pretty strong," Luo Feng chuckled to himself.

```
```

Chapter 185: Season 4, Episode 22, Luo Feng and Godly King Bolu

"This 'Chaos Hole Indestructible Light' secret technique is just right for me to conceal my identity while taking action," Luo Feng thought to himself. In the Land of Origin, some powerful beings, when doing things that could easily offend major forces, would conceal their identities.

The Chaos Hole Indestructible Light appears to the outside world as a blade light that can cut through anything.

In a fight, Luo Feng would not release the blade light for the opponent to slowly study. The blade light, when condensed to the extreme, doesn't allow the opponent any chance to infiltrate or scrutinize it.

Merely a brief perception.

Those with lesser insights might guess. Is it the technique of the Origin Dao of Matter? Or perhaps the Origin Dao of the Infinite? Both of these Daos can also achieve an unbreakable, endlessly sharp edge.

Those of higher realms might feel a hint of the Great Dao of Destruction Origin. However, in the Land of Origin, there are too many Godly Kings who cultivate the 'Great Dao of Destruction Origin'. It is a major school of thought.

"Time to relax is over. I should focus on the 'Ten Directions World Form'," Luo Feng continued to delve into the Ten Directions World Form.

Life and destruction are at the end the foundation of the Great Dao of

Life and Death.

The more solid the foundation, the stronger the fusion of the 'Great Dao of Life and Death' will be.

...

At the border of Flame Wind Ancient Country, Xiangjie City.

A man dressed in white walked up to the Garrison Mansion. He had a saintly appearance, androgynous, standing at the entrance of the Garrison Mansion, yet the guards could not see him at all.

"Great Saint Luo He," the man in white spoke, his voice already conveyed to Luo Feng's ears through causality.

"So it's Godly King Po Lu." Luo Feng had noticed the other's arrival into the city, but if the visitor did not come to see him, Luo Feng would pretend not to notice. After all, the number of people entering and leaving the city every day was immense.

Since the other party was visiting, Luo Feng naturally went to the gate to receive him personally.

"This..." The gate guards finally saw a holy man in white standing there, even involuntarily becoming fascinated by him.

"Godly King Po Lu, please," Luo Feng said.

Godly King Po Lu smiled slightly and entered.

In the guest pavilion, the two sat facing each other.

Facing Godly King Po Lu, Luo Feng felt no pressure. Godly King Po Lu was a direct disciple of Emperor Qing, an invincible presence within the First Realm of Godly Kings.

Emperor Qing, being the most transcendent among the thirteen Emperors of Flame Wind Ancient Country, had a total of fifteen direct disciples: six Godly Kings, eight who transcended the Primal Chaos Realm, and one at the Pinnacle of Primal Chaos Realm.

These six Godly Kings were all extraordinary, with one at the Second Realm of Godly King, two invincible at the First Realm of Godly King, and three at the limit of the First Realm of Godly King. This showed Emperor Qing's capability in cultivating disciples.

Anyone who could become a Godly King was not ordinary.

Godly King Po Lu was one of the six Godly Kings. He had also converted to cultivating the Primordial Bloodline, reaching the invincible strength of the First Realm of Godly King.

Luo Feng believed that with his full effort, he also possessed the 'limit strength of the First Realm of Godly King'. As a being in the Primal Chaos Realm with such strength… Luo Feng naturally felt no pressure facing Godly King Po Lu.

"Great Saint Luo He, both of us are direct disciples of Emperors and also Guest Elders of the Flame Wind Ancient Country. Our situations are quite similar," Godly King Po Lu said with a smile, "We Guest Elders should also make contact with each other more often, help each other, so that our path of cultivation can be smoother."

"That makes sense," Luo Feng agreed.

Godly King Po Lu was famously adept at networking.

Among the direct disciples of Emperor Qing, he had the strongest networking skills, friends scattered throughout the Land of Origin, what made the outside world most admiring was that he had very good relationships with many Godly Kings of the Wanjie Kingdom, and even succeeded in becoming a disciple of the 'Lord of Ten Thousand Realms'. Emperor Qing, as his mentor, actually allowed him to do so.

A Godly King, taking as a mentor both Emperor Qing and the Lord of Ten Thousand Realms! In the entire Land of Origin, there was only one such individual.

Of course, the Lord of Ten Thousand Realms also had a good relationship with the Flame Wind Ancient Country, and many of his disciples served as Guest Elders there.

"I have established a mutual support organization called 'Sky Heart Alliance', it has no rules, just to make it more convenient for everyone to get in touch," said Godly King Po Lu, "Our organization mainly invites Godly Kings in the First Realm. So far, there are over a hundred members, and three of the early members have even broken through to the Second Realm of Godly King."

"Our organization members include two great ancient countries, three top-tier powers, and many members from various states," Godly King Po Lu said with a smile.

"I have long heard of the Sky Heart Alliance," Luo Feng said.

His own mentor, Mountain sitting guest, was a member of the Sky Heart Alliance even when he was God King Jin.

This was just a platform for the Godly Kings to contact each other, without any constraints.

Godly King Po Lu also had good relations with many powers because he founded this platform. As a disciple of Emperor Qing and the Lord of Ten Thousand Realms and an Overlord Level existence in his own right, his influence in the Land of Origin was naturally very large.

"Great Saint Luo He, would you like to join?" asked Godly King Po Lu.

"Of course, I can," Luo Feng nodded.

He had joined the Reincarnation Tower, but he could also join other forces. Even 'Sky Heart Alliance' could hardly be considered a force, it was merely to facilitate Godly Kings contacting each other more conveniently.

Godly King Po Lu showed a smile, "Ha ha, Great Saint Luo He is indeed straightforward. If there is any trouble or anything you need help with in the future, just speak up! Although my capabilities are limited, my friends are spread all over the Land of Origin, and I have ways to solve many problems."

"Certainly," Luo Feng nodded.

Godly King Po Lu had a good reputation for being willing to help

fellow Godly Kings.

"This is the Sky Heart Token. After Great Saint Luo He joins, I believe many Godly Kings will want to contact you," Godly King Po Lu handed a token to Luo Feng.

Luo Feng looked at the wooden token and smiled as he accepted it.

"Then I won't stay any longer," Godly King Po Lu got up.

Luo Feng personally saw him off.

The two of them walked inside the Garrison Mansion and encountered some servants, all of whom were extremely respectful.

"Mentor." Suddenly, they ran into Moyu Qingyan and his wife.

"This is Godly King Po Lu," Luo Feng said.

Moyu Qingyan and Zhang Yunge were both startled. They were not ordinary eternal true gods and were quite informed, knowing of Godly King Po Lu's reputation.

"Greetings to Godly King Po Lu," Moyu Qingyan and Zhang Yunge said respectfully.

"Is this Moyu Qingyan, your only disciple, Great Saint Luo He?" Godly King Po Lu smiled as he looked at Moyu Qingyan, then noticed Zhang Yunge beside him.

Luo Feng spoke from the side, "This is my disciple Qingyan, and beside him is his wife Yun Ge."

"Yun Ge?" Godly King Po Lu asked, "I think I've met you before."

"Yes."

Zhang Yunge was somewhat excited, "The Godly King is kind, often publicly preaching in 'Po Lu City', instructing us weaker cultivators... I have been there three times to listen to the Godly King's teachings."

Luo Feng listened from the side.

The Godly King Po Lu enjoyed helping other Godly Kings as well as aiding the weak, often giving public sermons.

Although he spoke of elementary laws such as the Primal Chaos Laws, the explanations of an Overlord level being were still incredibly precious. Each sermon would attract many eternal true gods to rush to Po Lu City to listen to the Godly King Po Lu's sermon.

"Hahaha..." Godly King Po Lu laughed, "Cultivation is not easy, I merely provide some slight guidance."

Without saying much more, Godly King Po Lu left the Garrison Mansion with Luo Feng's company and departed from Xiangjie City.

...

"Godly King Po Lu is extremely powerful yet incredibly benevolent," Zhang Yunge returned to her cave mansion, still quite excited, "Before, when I listened to his sermons, I could only watch and listen from afar. This time he spoke to me so kindly."

Discover hidden tales at empire

"He is indeed kind," Moyu Qingyan agreed.

After all, it was rare for a powerful Godly King to exchange a few words with two eternal true gods.

"In a few days, it will be Godly King Po Lu's next public sermon," Zhang Yunge looked at Moyu Qingyan, "Let's go together then! Let's listen to the sermon together."

"Together?" Moyu Qingyan pondered for a moment.

"It's soon, just a few days," Zhang Yunge urged.

"Alright, I can arrange to take my turn earlier,"

Moyu Qingyan replied with a smile.

The affairs of the city were managed on a rotation basis. Cultivators also needed their own cultivation time.

...

Po Lu City.

On the day of Godly King Po Lu's sermon, eternal true gods from all directions gathered in the square, a full million of them with fervent eyes focused on a high place. When Godly King Po Lu appeared, they were each excited beyond measure.

Over a million eternal true gods had come, which was considered a small number, mainly because the journey was too long and perilous for eternal true gods.

"Godly King Po Lu's sermon is indeed extraordinary," Moyu Qingyan acclaimed after listening.

He acknowledged.

What Godly King Po Lu spoke about was even more detailed than his second master's teachings, of course, Godly King Po Lu only spoke for a day! Morosa's guidance lasted longer, and it could be tailored to Moyu Qingyan's questions for detailed advice.

"I feel I have made some progress in my comprehension," Zhang Yunge was also very excited, "If I could have regular guidance from a Godly King as my master, perhaps I would have hope of reaching the Primal Chaos Realm."

The cultivators in the square began to disperse.

"Moyu Qingyan, Zhang Yunge, the Godly King requests your presence," one of Godly King Po Lu's servants came to invite them.

"Us?" Moyu Qingyan and Zhang Yunge were both somewhat flattered and immediately followed the servant into the city's only high mountain, 'Po Lu Mountain.'

In a secluded part of Po Lu Mountain.

Moyu Qingyan and Zhang Yunge saw the leisurely seated Godly King Po Lu.

"We pay respects to the Godly King," the two of them quickly bowed with respect.

"Moyu Qingyan, how is your master?" Godly King Po Lu said.

"My master is well, as always dedicated to cultivation," Moyu Qingyan said.

"Great Saint Luo He is pure of heart and is sure to have a broader future than I," Godly King Po Lu praised, then looked at the two of them, "You were earnest in coming from the frontier to listen to my sermon. Now, show me some of your techniques."

"Yes."

Moyu Qingyan and Zhang Yunge performed their techniques in succession.

Godly King Po Lu gave pointers one by one, and the two juniors listened intently, feeling they had gained a lot.

"Both of your talents are only average, only with more diligence and focus is there hope for you to aspire to the Primal Chaos Realm," Godly King Po Lu said.

"Understood," both husband and wife listened closely.

"Moyu Qingyan has Great Saint Luo He as a master, no need for me to interfere much. Zhang Yunge... if you wish, you can be my disciple," Godly King Po Lu said. He had many disciples, and to date, he had over three hundred direct disciples.

Zhang Yunge was thrilled to hear this.

In her clan, she could not even meet the ancient Godly King ancestors.

In Xiangjie City, Luo Feng would at most occasionally give some advice to his direct disciple Moyu Qingyan. Morosa was usually the one to provide guidance. Let alone Zhang Yunge.

"Disciple pays respects to Master," Zhang Yunge immediately knelt

down, taking the opportunity to become a disciple of the Godly King without hesitation.

Moyu Qingyan also felt happy for his wife. With her becoming a disciple of a Godly King, her path of cultivation had become hopeful.

"Mhm," Godly King Po Lu nodded with a smile.

"As my disciple, you will be arranged to have a residence on the mountain. You and your husband can live there, or you can always return to Xiangjie City," Godly King Po Lu said, and then a servant led Moyu Qingyan and the others away.

Godly King Po Lu watched this scene.

"Master, Zhang Yunge's talent is average, and there's truly no hope for her to impact the Primal Chaos Realm, so why take her as a disciple?" the old servant of the Primal Chaos Realm by his side asked with confusion.

"Nothing is absolute. If she focuses on her cultivation, a miracle may happen," Godly King Po Lu said, "And taking her as my disciple is also because of Great Saint Luo He, as a way to form some causality."

"Great Saint Luo He?" the Primal Chaos Realm old servant said, "He is, after all, only beyond the Primal Chaos Realm."

"He is the one who, with his self-created secret technique, can match the strength of an extremely powerful First Realm of Godly King," Godly King Po Lu said, "Once he becomes a Godly King, he can quickly achieve 'undisputed in the First Realm of Godly King'.

Throughout the entire Land of Origin, not counting those who rely on external forces, there are probably only about five who can reach the undisputed status in the First Realm of Godly King; Luo He will soon be one of them."

Godly King Po Lu looked at his old servant who had followed him for countless years: "This Luo He will be much more powerful than me in the future."

"The path of cultivation is difficult and full of endless risks. Even I

could fall with a moment’s inattention. Making friends is one way to ward off risks; it’s even more important when the friends are powerful," Godly King Po Lu turned and left.

The old servant nodded, understanding, and quickly followed.

...

"Master, Godly King Po Lu has taken Yun Ge as a disciple," Moyu Qingyan sent the news back.

Inside Xiangjie City, Luo Feng received the message.

"That’s good news," Luo Feng replied.

Chapter 186 Episode 4 Chapter 23 Primordial Ancestor Breakthrough

While Luo Feng was deeply immersed in his cultivation, Primoridal Ancestor suddenly contacted him.

"Primoridal Ancestor," Luo Feng knew of the Primoridal Ancestor's personality, and that he wouldn't disturb his cultivation without important matters, so he immediately went to see him.

"Luo Feng."

Primoridal Ancestor sat inside a pavilion, and seeing Luo Feng arrive, he immediately grinned and poured a drink for Luo Feng, "Come, have a drink."

"Primoridal Ancestor, you seem to be in good spirits?" Luo Feng also noticed this.

"Hahaha... I've finally penetrated the foundation of the Great Dao, naturally, I'm joyful," said the Primoridal Ancestor.

"You've comprehended the Primal Chaos Laws?" Luo Feng was both shocked and delighted.

The Primoridal Ancestor nodded, "Fortunately, with the vast amount of resources you gave me, and the many inheritances from the Heartshadow Sect as nourishment, my cultivation has been able to progress so smoothly. Otherwise, it would have taken ten to a hundred times longer."

The resources gathered from the Heartshadow Sect seemed quite

extensive at the time, but Luo Feng received a one-time bounty of three hundred billion Cosmic Coins from the Desert Wind City Lord, which made those resources seem insignificant.

Yet those resources, for an eternal true god to use freely, were still too extravagant.

Luo Feng himself had been quite poor when he was an eternal true god.

"It took just over a century to reach the Primal Chaos Realm, and to even create your own Dharma," Luo Feng admired, "Primoridal Ancestor, you fully have the potential to assault the God King Realm."

"The God King is much harder than the Primal Chaos Realm," laughed the Primoridal Ancestor, "You have to take it one step at a time, and I'm still far from it."

But Luo Feng knew very well.

It took him just over three decades to become a Pinnacle of Primal Chaos Realm, and he also had the opportunity to comprehend the 'Great Dao of Life Origin,' aiding his rapid progress. The Primoridal Ancestor reaching the Primal Chaos Realm in just over a century, even with enough inheritances and resources, was still shocking.

"Primoridal Ancestor, to comprehend the amazing 'Virtual Universe' secret technique at the True God stage, and to become the strongest in the surrounding regions of the Primordial Cosmos, you truly have exceptional talent," Luo Feng had long realized the Primoridal Ancestor's high talent, but it was after coming to the Land of Origin and receiving enough resources that the Primoridal Ancestor began to shine his light.

Luo Feng was also very pleased.

If the human race only had himself as a pillar, he would feel great pressure acting in the Land of Origin. With the equally talented 'Primoridal Ancestor' to help share the burden, Luo Feng could relax much more.

"You should hasten your Small Universe breakthrough, and evolve

your godly body," said Luo Feng, "and take the opportunity to research which Great Dao suits you best."

"I'm quite interested in the 'Origin Dao of the World'," the Primoridal Ancestor stated.

"The World?" Luo Feng understood.

The path the Primoridal Ancestor strictly followed was 'Virtual World.' Extending from Virtual World, one could delve into the direction of the soul! But there was no clear Great Dao for the soul path; everything needed self-enlightenment.

Virtual World could also extend toward the 'Origin Dao of the World.'

Take lightning, for example!

The 'Origin Dao of the Infinite' includes the use of many energies such as lightning, flame, wind, and earth. But 'lightning' can also lead to a complete 'Origin Dao of Thunderbolt.'

The starting point is the same, but the endpoints can be drastically different.

"I've been suppressed by the Primordial Cosmos for ages, and I have a deep understanding and interest in the myriad states of beings and the operation of all things. The path of the world is very suitable for me," said the Primoridal Ancestor.

He liked the Virtual World, and he equally liked the real world.

This path had much for him to research.

"The path you like the most and are most interested in is the one you can travel the farthest," Luo Feng agreed.

…

That day, in the region of the Primordial Cosmos of his hometown.

A massive Small Universe expanded once again; this was the Primoridal Ancestor's Small Universe.

"The Primoridal Ancestor's Small Universe has expanded again?"

"The Primoridal Ancestor broke through so quickly?"

True gods from various clans and universe masters came nearby, watching the grand expansion of that massive Small Universe from afar.

The strong members of the human race were extremely excited. The Human Race had the absolute strongest Ancestral God of the Galaxy in the surrounding Universe Ocean, whose Small Universe was a massive trillion light-years in diameter. Just seeing that massive Small Universe could quench any fighting spirit from other clans.

And now, the 'Primoridal Ancestor,' second only to the Ancestral God of the Galaxy, also saw his Small Universe surge dramatically.

"Teacher is going to break through," the Primal Chaos City Lord watched this scene joyfully, looking towards Luo Feng at his side, "Luo Feng, when can we venture into the Reincarnation?"

The Primal Chaos City Lord could have become a 'true god of void space' long ago, but he kept restraining himself from breaking through.

Now, watching his disciple 'Luo Feng' reach a Small Universe of a trillion light-years in diameter, and seeing his teacher 'Primoridal Ancestor' continuously breaking through, the Primal Chaos City Lord felt a little itchy.

"The other side of reincarnation is filled with countless strong beings, profound and unfathomable," Luo Feng said, "Stay in the region of the Primordial Cosmos and cultivate patiently. I estimate that before this Reincarnation Era ends, you should be able to set off."

One Reincarnation Era of the Primordial Cosmos was roughly ten thousand eras on the Land of Origin side.

Luo Feng estimated that with such a long time, he should be able to deal with the Emperor of Tian Kun. Even if not, he should also have sufficient assurance to protect the strong members of the Human Race coming to the Land of Origin.

"Good," the Primal Chaos City Lord smiled and nodded, "Actually, our cultivation progress has been very slow in the region of the Primordial Cosmos."

"I know," Luo Feng nodded, "Although cultivation is difficult in the region of the Primordial Cosmos, the harder it is, the more it tempers oneself. The help it provides for the future will be greater."

Getting used to cultivating in harsh environments, and then going to the Land of Origin would naturally be much more efficient.

The Primal Chaos City Lord nodded.

Luo Feng and the Primoridal Ancestor always discouraged the strong humans from venturing into reincarnation, asking them to wait patiently. This showed that even Luo Feng and the Primoridal Ancestor didn't have complete confidence in dealing with the situation on the other side.

******

In Chu Capital, at Marquis Chu Yu's mansion.

"Brother Chu Yu," Luo Feng called out from afar.

"Hmm?"

Emperor Chu Yu looked up and saw Luo Feng in the distance, revealing a smile, "Brother Luo He."

Luo Feng took a step and descended into the Marquis Mansion.

"Brother Luo He, it is quite rare for you to visit me," said Emperor Chu Yu with an unhurried grace. After all, with the vast resources from the Heavenly Task and a century passing by, he had long reached the Pinnacle of Primal Chaos Realm in strength.

After all, he was one of the unlimited godly bodies and reaching such strength wasn't difficult, but his realm was still some distance from the bottleneck.

But with sufficient strength, and with the powerful Guest Elder 'Great

Saint Luo He', Emperor Chu Yu certainly had everything going his way. Moreover, the other lords of the Imperial Clan wouldn't foolishly compete with him.

"Indeed, there is something for which I need Brother Chu Yu's assistance," Luo Feng said directly.

"Oh?" Emperor Chu Yu's eyes lit up.

That's good news.

As Luo He's strength continued to grow, logically, the chances of needing the help of a lord of the Imperial Clan like him became increasingly slim.

"It's like this: my kin 'Yuan' has just become a being of Primal Chaos Realm," Luo Feng explained, "I want a Guest Elder quota from Flame Wind Ancient Country."

"A Guest Elder quota?" Emperor Chu Yu frowned slightly, "Yuan is a newly advanced Primal Chaos Realm being, right? Is he from the Law Lineage?"

"Law Lineage," Luo Feng nodded.

Beings of Primal Chaos Realm from the Law Lineage are the minimum requirement to recruit as a Guest Elder.

"Barely meeting the minimum requirement, and he isn't one of the unlimited godly bodies," Emperor Chu Yu shook his head lightly, "Any lord of the Imperial Clan who wants to invite a Guest Elder would likely be reluctant to use such a quota on him."

The Guest Elder quotas of lords from the Imperial Clan are very carefully considered, as they are their most important support.

"I'm not very familiar with the internal affairs of the Imperial Clan, so I came to ask you," said Luo Feng.

After Yuan became a Primal Chaos Realm being, to grow further, he first needed the most suitable inheritance and resources for himself.

I could only try to come up with one or two emperor-level inheritances of the 'Origin Dao of the World' at best, and even those might not be suitable for Yuan. The best solution... would still be for Yuan to become a Guest Elder of Flame Wind Ancient Country. Then, he could choose any of the numerous inheritances available in the Inheritance Palace.

It must be acknowledged!

The Guest Elder system of the two great Ancient Countries is definitely a huge help to Primal Chaos Realm beings. It's just that the Guest Elder quotas are very scarce, and clearly, both Ancient Countries aim to cultivate elites.

"I personally used up my two quotas. As far as I know... among the lords of Flame Wind Ancient Country, there probably aren't that many who still have a vacant Guest Elder quota," Emperor Chu Yu said, "Especially after the previous Heavenly Task, the lords spared no expense and many of the Guest Elder quotas have already been promised."

Luo Feng understood.

"At least within Emperor Chu's Lineage, I haven't heard of anyone who still has a quota. Among the other twelve lineages of the Imperial Clan, there might still be available quotas. Let me check," Emperor Chu Yu said.

"Any condition can be discussed," Luo Feng said, "even if it costs hundreds of billions of Cosmic Sands, it's a trivial matter."

"Alright, I will immediately inquire about this," Emperor Chu Yu promised.

...

The relationship between Emperor Di You's Lineage and Emperor Chu's Lineage is quite good, so the lords of both lineages often interact with each other.

"Chu Yu, what's the matter that couldn't be communicated through a message, that you came to You Capital in person?" A man dressed in

a purple robe said with a smiling tone.

That very day, Emperor Chu Yu, accompanied by his trusted aide, left Chu Capital and headed towards You Capital of Flame Wind Ancient Country.

You Capital is the ancestral land of Emperor Chu's Lineage.

The relationship between Emperor Di You's Lineage and Emperor Chu's Lineage is quite good, so the lords of both lineages often interact with each other.

"Chu Yu, what's the matter that couldn't be communicated through a message, that you came to You Capital in person?" A man dressed in a purple robe said with a smiling tone.

"You Feng," Emperor Chu Yu sat opposite him, "I know you still have one Guest Elder quota."

Emperor Di Youfeng looked at the other party and nodded with a smile: "Yes, the outside world knows that I only have one Guest Elder. Indeed, I still have one quota vacant. There are many who have come to me asking for this quota; many beings from Primal Chaos Realm are willing to pledge allegiance to me."

Great Saint Luo He wants this quota," Emperor Chu Yu said.

"Great Saint Luo He?" Emperor Di Youfeng's heart skipped a beat, then he relaxed, "If Great Saint Luo He is willing to become my Guest Elder, I would naturally offer the quota proactively. But, he is already your Guest Elder. He wants the quota, which must be for some other Primal Chaos Realm being, right?"

Emperor Chu Yu nodded: "A newly advanced Primal Chaos Realm being, from the Law Lineage."

"A new Primal Chaos Realm being?" Emperor Di Youfeng shook his head.

"There's no need to concern yourself with who this Primal Chaos Realm being is, the key is, Great Saint Luo He wants this quota. State any condition, you name it," Emperor Chu Yu said, "You should be

aware that Luo He will soon become a Godly King. And he will be an Overlord-level existence."

Emperor Di Youfeng looked at the other party, "What good is it to become an Overlord? How does that help a lord of the Imperial Clan? Even as a Godly King, he can't involve himself in the struggles of the lords of the Imperial Clan."

The competition among the lords of the Imperial Clan is on the Primal Chaos Realm level, with Godly Kings intervening considered bullying the less powerful and is prohibited.

"Just name your condition," Emperor Chu Yu said.

"I want to become a Godly King," Emperor Di Youfeng said, "During the last Heavenly Task, I ranked second within Emperor Di You's Lineage, and you should know that mere resources won't sway me. What I need is a wholeheartedly supportive and powerful Guest Elder for myself."

"If there's no suitable target, I would rather keep the quota unused. Having an unused quota is enough to attract a flock of Primal Chaos Realm beings to serve me," Emperor Di Youfeng said, "Without this quota, most of those Primal Chaos Realm beings would probably leave."

Emperor Chu Yu fell silent.

"Brother Chu Yu, you should understand, since the Heavenly Task till now, it's only been a century, and the Imperial Clan has not produced a new lord," Emperor Di Youfeng said, "Those lords didn't even use their quotas during the Heavenly Task. How could they easily give it to Great Saint Luo He?"

"After all, a lord only gets two quotas for life," Emperor Di Youfeng said, "Not every lord of the Imperial Clan can be as fortunate as you to have chosen Luo He as a Guest Elder."

"Is there no way?" Emperor Chu Yu looked at Emperor Di Youfeng.

"Well, for a treasure worth two million Merit Points, I will sell this quota. Don't say that I'm asking for too much," Emperor Di Youfeng

said, "Of course, I also know that Great Saint Luo He wouldn't be willing to part with so many treasures."

Two million Merit Points, the value is roughly six hundred billion Cosmic Sands.

Upon hearing this, Emperor Chu Yu could only stand up, as the price was outrageously high.

...

In just over ten days, Emperor Chu Yu met with seven lords of the Imperial Clan, but all of them refused him.

The beings of Primal Chaos Realm outside the two Ancient Countries might still fear the number one being of Primal Chaos Realm, fearing the future might godly King, but to the lords of the Imperial Clan? A Guest Elder godly king does not pose a threat to them, nor can they assist them, so without sufficient incentive they naturally wouldn't consider the matter.

Hundreds of billions of Cosmic Sands may seem like a lot. Before the Heavenly Task, that might have been all the wealth a lord of the Imperial Clan had accumulated.

But after the resources from the Heavenly Task were distributed, the lords of the Imperial Clan became wealthy, and without significant enticement, they have no reason to be interested.

Chapter 187 Season 4, Episode 24 Marquis Chu Ying and Luo Feng

Chu Capital, Marquis Chu Yu Mansion.

"That's the situation," Emperor Chu Yu said with a sense of helplessness. "Of the Imperial Clan's thirteen branches, only seven royal marquises have the quota for Guest Elders, I have visited them all; but it's simply impossible to reach an agreement."

Listening, Luo Feng thanked him with a smile, "Brother Chu Yu, thank you! I know not all relationships among the Imperial Clan's thirteen branches are good."

"My Guest Elder is Great Saint Luo He, even if they are not agreeable, they wouldn't dare to force their way harshly," Emperor Chu Yu said nonchalantly. "However, they were all unwilling to use the Guest Elder quota for the previous Heavenly Task. Indeed, getting that quota is really difficult."

Luo Feng nodded. From what he observed through Emperor Chu Yu's experience, it was indeed troublesome.

"What the royal marquises care about most is their own cultivation path," Emperor Chu Yu pondered. "After this Heavenly Task, the next major task may not come until over a thousand eras... It won't be long before Brother Luo He becomes a Godly King, so he won't be able to participate in the competition within the Primal Chaos Realm. It's understandable that they are unwilling to agree."

"It's hard for me to be of help to them," Luo Feng agreed.

In the governance of the Flame Wind Ancient Country, more than

ninety percent of the affairs are handled by the royal marquises of the Imperial Clan's thirteen branches; only the truly important matters are reserved for Godly Kings. Even the Godly Kings don't dare to bully the smaller by killing royal marquises. Should someone dare to do so, even the monarch of the Flame Wind Ancient Country may intervene.

The royal marquises are the core elites cultivated by the Imperial Clan. Conflicts at the same level are tolerated by the Flame Wind Ancient Country. Bullying the weak? Absolutely forbidden!

So, what could Luo Feng do even if he became a Godly King? How much could an invincible Godly King at the First Realm really help the royal marquises?

"Apart from royal marquises selecting Guest Elders, are there any other methods?" Luo Feng inquired.

"According to the rules of our Imperial Clan, royal marquises select Guest Officials of Primal Chaos Realm, while Royal Family God Kings choose God King Guest Elders," Emperor Chu Yu explained. "Also, the reigning emperor can make exceptions and directly recruit some Guest Elders."

"The reigning emperor?" Luo Feng shook his head gently; such a trivial matter was not worth escalating to the emperor.

"If the ancestor were to speak, it would definitely be not difficult," Emperor Chu Yu remarked.

"I'll think about it some more," Luo Feng stood up. With his disposition, he was reluctant to trouble his master, Emperor Chu, unnecessarily.

After all, he had just entered the Primal Chaos Realm, and there was no urgent need.

He would find another way once he became a Godly King.

Seeking inheritance didn't just mean being a Guest Elder; and even if he were one, he wasn't limited only to the Flame Wind Ancient Country.

"There's no rush." Many thoughts flickered through Luo Feng's mind.

...

Chu Capital, Marquis Chu Ying Mansion.

Marquis Chu Ying, ranking first in the last Heavenly Task, naturally received substantial resources. Additionally, he was personally praised and regarded highly by 'Emperor Qing', a promising elite of the Imperial Clan.

Emperor Qing, one of the thirteen emperors of the Imperial Clan, is the most transcendent among them. His open praise motivated even some Godly Kings to seek a connection with Marquis Chu Ying.

"My lord," a house manager said respectfully, "Luo He does indeed want a Guest Elder quota. Recently, Marquis Chu Yu has been to quite a few places among the Imperial Clan's thirteen territories, trying with several royal marquises. I heard they all refused."

"A Guest Elder quota?" Marquis Chu Ying's eyes were cold. "Who is seeking the quota for?"

"It's said to be for a newly ascended being of the Primal Chaos Realm. According to intelligence, the eternal true god 'Yuan' from Luo He's Cave Mansion just achieved that realm," the manager reported.

Marquis Chu Ying laughed, "His old servant Luo Sa has been in the Primal Chaos Realm for quite some time, yet he never thought to seek a Guest Elder quota for him. But as soon as Yuan breaks through, he's immediately trying to secure a quota. It seems that in Luo He's heart, this 'Yuan' is most important."

"Alright, you may go now," Marquis Chu Ying dismissed him.

"Yes," the manager withdrew respectfully.

Marquis Chu Ying looked into the distance.

"I've been in seclusion for such a long time, only just completing my work when I hear this news," Marquis Chu Ying chuckled. "It seems that Luo He and I are indeed fated."

Marquis Chu Ying had the deepest accumulation among the seven top-rank marquises, and with the tremendous resources from ranking first in the Heavenly Task, he had grasped a branch of the Great Dao over hundreds of eras, and had just come out of seclusion.

Upon emerging, he learned about Luo He's search for a Guest Elder quota.

"I've just grasped a branch of the Great Dao; my Small Universe has not yet transformed, nor has my godly body. Officially, I am still a royal marquis," Marquis Chu Ying thought. "Using my authority and spending some Imperial Clan Merit Points, I could indeed apply for another Guest Elder quota."

Within the Imperial Clan, differentiations are made among the royal marquises.

Those few who have transcended Primal Chaos Realm and are considered 'top-rank marquises' can even gain opportunities to enter divine places left by Yuan for free! From the moment Emperor Qing favored him, Marquis Chu Ying's privileges were greatly enhanced.

"Once I break through, I will be a Godly King. I must consider the future."

"An existence that can become an invincible being in the First Realm of Godly King without external support is rare even throughout the Land of Origin." Marquis Chu Ying was well aware of Luo He's potential.

Having made up his mind, Marquis Chu Ying immediately set out alone. He flew over Chu Capital and soon arrived quietly in front of Luo He's Cave Mansion.

...

Marquis Chu Ying stood outside the entrance to Luo He's Cave Mansion.

"Pass the message," Marquis Chu Ying instructed the guards at the door. "Say that Marquis Chu Ying has come to visit Great Saint Luo He."

"Marquis Chu Ying?" The two guards at the door were surprised, visiting alone without any servants? One of the guards immediately ran back to convey the message.

Marquis Chu Ying waited at the gate.

"Marquis Chu Ying?" Luo Feng also arrived at the doorway, quite curious. Normally, powerful figures would communicate directly through voice transmission, yet here was Marquis Chu Ying, adhering strictly to protocol by sending word through the gate guards.

"Great Saint Luo He," Marquis Chu Ying looked at Luo Feng, smiling. "I have come to discuss a matter regarding the Guest Elder quota."

Luo Feng's eyes brightened; it sounded as though there might be a turnaround?

"Please," Luo Feng invited him in right away.

Within the guest pavilion.

The two sat down, and Luo Feng personally helped pour the wine, asking, "From what Marquis Chu Ying said, you have a way for the Guest Elder position?"

Marquis Chu Ying nodded, "All first-class marquises of the thirteen Imperial Clan lineages are in competition, with different resources available to each."

Luo Feng nodded.

"Fortunately, I am one of the more outstanding among the first-class marquises of the Imperial Clan, so I have some privileges," said Marquis Chu Ying, looking at Luo Feng. "I can find a way to apply for an additional Guest Elder position."

Luo Feng's heart leapt with joy.

"The Guest Elder position is rare. Whatever I need to pay, just say it," Luo Feng said, though he hadn't dealt much with Marquis Chu Ying, he had to admit that Chu Ying's demeanor alone was the most extraordinary among the seven first-class marquises of Emperor Chu's

Lineage.

The other six, when facing Marquis Chu Ying, would naturally bow their heads.

It was because, during the long-term competition, Marquis Chu Ying was always far ahead! If it hadn't been for Luo Feng's interference in the last Heavenly Task, Chu Ying would have been far ahead in the first place for all three subtasks.

Even with Luo Feng's interference, Chu Ying still came out first overall in the end.

"Just one position," said Marquis Chu Ying with a smile. "My visit today was precisely to make friends with Brother Luo He."

After the past few days of understanding, Luo Feng realized that even though Marquis Chu Ying had a special status and could apply for another position, it was likely to come at a cost. Because within the Imperial Clan, as was always the rule, any resources beyond the free quota had to be exchanged for Merit Points.

"Brother Chu Ying, thank you," said Luo Feng. "I'll remember this kindness."

Marquis Chu Ying nodded.

That was enough for him!

Being a powerful being himself, he placed even greater emphasis on causality!

Marquis Chu Ying was well aware that the struggle among the upper echelons of the Land of Origin was brutal! The two Ancient Countries of the Imperial Clan were also fighting each other, and there were old powers from non-imperial clans, some of whom were strong enough to arm-wrestle with Emperors and Monarchs.

Like the Lord of Ten Thousand Realms, like those from East Extreme Domain, like the few most dazzling ones in the Second Realm of Godly King, and also the strong Alien race beings hidden in the shadows.

Each party was competing for the resources left by Yuan.

"I am quite outstanding among the first-class marquises, but it's too difficult to continue being outstanding after becoming a Godly King. One must rely on oneself and also on support," Marquis Chu Ying saw potential in Luo Feng.

"Is it for the one who originally applied?" Marquis Chu Ying asked.

Luo Feng nodded, "It's him."

"Let him come to my mansion," said Marquis Chu Ying. "By the time he arrives, the application for the position should already be approved."

"Alright," Luo Feng nodded.

...

"Me, a Guest Official of Primal Chaos Realm?" Yuan had just broken through, his godly body still in growth, and he was originally consolidating his cultivation in seclusion when Luo Feng summoned him directly.

Luo Feng said, "By becoming a Guest Elder of Flame Wind Ancient Country, you can directly obtain a quota of one hundred thousand Merit Points. Later, you can choose the inheritance you need most in the Inheritance Palace. In the future, you can also gradually accumulate Merit Points to exchange for resources."

Yuan, having been in Chu Capital for so long, was very clear on how precious the Guest Elder positions were!

Many beings of Primal Chaos Realm had been mingling in Flame Wind Ancient Country, willing to exert themselves for the first-class marquises of the Imperial Clan, all scheming for a position.

"This position wasn't easy to get, was it?" Yuan asked.

"Go to Marquis Chu Ying's mansion now. When the time comes, Marquis Chu Ying will meet with you," Luo Feng said. "No need to ask more about it."

Yuan nodded without saying much, "Alright."

He immediately set off for Marquis Chu Ying's mansion.

Luo Feng watched Yuan leave, also revealing a smile.

"Everything's finally arranged," Luo Feng sighed with relief. Another pillar of the human race, "Yuan," had also become a Guest Elder. With appropriate inheritance and resources, his path was likely to be much smoother in the future.

...

Marquis Chu Ying handled things properly, and on that day, Yuan became a Guest Official of Primal Chaos Realm! He also went to the Inheritance Palace and chose an inheritance he wanted.

When this news spread, it caused some resentment among the beings of Primal Chaos Realm in Chu Capital. They tried all they could and couldn't get a position, and now a newly advanced being of Primal Chaos Realm got one directly!

But with Great Saint Luo He and Marquis Chu Ying behind this newly advanced being, they could only grumble.

It wasn't long before Marquis Chu Ying made a breakthrough and became a Godly King!

He was the fourth Godly King of Emperor Chu's Lineage of the Imperial Clan, causing quite a stir. At the Godly King celebration of Emperor Chu Ying, Luo Feng even personally brought gifts to congratulate him.

******

After Emperor Chu Ying became a Godly King, Luo Feng also went into seclusion, focusing solely on his cultivation.

Days passed by.

The effect of the Clearing Spirit Liquid finally dissipated, and there was only a little residue left from the effect of the Primordial Crystal

Spirit Fruit—

"The Ten Directions World Form?" Inside the Star Tower, Luo Feng sat cross-legged, staring at some materials in front of him.

He was focused on comprehending the extremely difficult "Ten Directions World Form" and did not demand to grasp it within the Primal Chaos Realm. Even if he failed, it was still a kind of training for his comprehension.

But at that moment, a complete "Ten Directions World Form" suddenly formed in Luo Feng's mind.

"Have I really comprehended it?" Luo Feng murmured to himself.

Sometimes, surprises come so unexpectedly.

Chapter 188 4 Episodes 25 Chapters "Introduction to World Life Form

Luo Feng looked at the materials for the Ten Directions World Form in front of him, the golden scale beetle corpses were given by his master, Emperor Chu, and the other biological materials were obtained from the world he was garrisoned in.

"The Ten Directions World Form I have comprehended is different from all of these," Luo Feng marveled.

The materials for the 'Ten Directions World Form' came from different creatures, so naturally, there were some differences.

"What matter should I use to construct this form?" Luo Feng pondered.

According to the 'World Life Form' heritage description, simply comprehending the 'Ten Directions World Form' only accomplishes half! It's also necessary to study the Origin Dao of Matter, to find matter suitable for the 'Ten Directions World Form.' Only by combining the two can a powerful life form be created.

Like some who have only comprehended the 'Great Dao of Life Origin,' such as the Ancestral God of the Snow Realm, their life forms are not inferior to the 'Ten Directions World Form,' but because they are condensed purely from Divine Power, they are much weaker.

With the capability of "Formless and Intangible," Luo Feng could still imitate it.

"Let's try."

Luo Feng attempted to transform.

He started with the Ten Directions World Form as the foundation, transforming by referencing the matter of Primordial Bloodline Creatures.

"Whoooosh."

Countless Divine Powers were transforming.

"The previous form had a maximum of 108 trillion particles. But the Ten Directions World Form... is a world unto itself, without limit," Luo Feng understood this from his heritage.

In theory, as long as his soul can helm it and his Spiritual Will can control it, the life form of the Ten Directions World Form can grow without limit! Your journey continues with empire

Soon, Luo Feng, referencing seven materials, created seven avatars.

"These seven kinds of matter are all very suitable for the 'Ten Directions World Form,' with the 'Silvershan Beast King' having the highest compatibility," Luo Feng quickly determined. Of course, these were creatures naturally bred from the Primordial Bloodline with Ten Directions World Form, so their material constitution was naturally rather perfect.

"Transform."

Luo Feng began to transform, Divine Power continuously converting.

With the increasing number of conversions, Luo Feng became more proficient; however, it still took almost half a day in the Land of Origin to completely transform the godly body.

"The godly body has completely transformed, and my soul and Spiritual Will can still control it," Luo Feng felt relatively at ease inside Star Tower, which had become incredibly large and towering.

The soul is much like an army. The more immense the soul, the larger the number of troops naturally.

The Spiritual Will, on the other hand, is much like the army's commander.

A powerful commander... can make the army unleash tremendous combat power. A weak commander can make the army fall weak and defenseless.

To control a powerful physical body, both the soul and Spiritual Will are very important.

"Continue to accumulate."

At this moment, the Small Universe at his home was continuously transferring Divine Power into the 'Primal Chaotic Space' within his body. In the Primal Chaotic Space, Divine Power was also constantly being transformed into the power of the Ten Directions World Form, perpetuating his growth.

"At this stage, the size of the body depends on one's own Dao," Luo Feng realized.

Godly Kings place great importance on unlimited godly bodies because they represent 'foundation.'

The size of the Small Universe is determined by the foundation!

Luo Feng's Perfect Divine Body meant that his Small Universe was as vast as the Supreme Rules would allow.

Yet the unlimited godly bodies were somewhat inferior.

If it were a weaker godly body, the Small Universe would be smaller, corresponding to the 'Primal Chaotic Space' inside, which would become a 'Small Universe' that is much smaller in the future, and the souls naturally bred would be smaller too.

The foundation determines the size of the Small Universe, as well as the godly body and soul foundations.

Of course, the foundations of the godly body and soul can be changed through cultivation. If one cultivates the 'Soul Path,' it is natural to strengthen the soul, but this path is very difficult. Ninety-nine

percent of Godly Kings... have their souls grow naturally.

To change the foundation of the godly body also requires the cultivation of the body's Dao; the Great Dao of Life Origin is the best at this. Like the Ancestral God of the Snow Realm, every river and snowflake in the entire Snow Realm Territory is part of his body.

"Only at this step of cultivation does one begin to transcend the foundation of the godly body."

Luo Feng felt that, after the godly body had completely transformed, an invisible force was converging in the 'Primal Chaotic Space.'

As he had a Perfect Divine Body, Luo Feng's Primal Chaotic Space was spacious and tough enough. At that moment, under the converging invisible force, the Primal Chaotic Space began to naturally give rise to a world.

An Inner World was evolving naturally.

"This is the World Life Form," Luo Feng sensed all of this.

Under the Ten Directions World Form, each basic unit of life encompassed a small world.

And a giant physical body formed by countless life units, where the Power of the World was extremely dense, would naturally open up into a complete world. The 'Primal Chaotic Space' within was obviously the most fitting.

"Boom! Boom! Boom!..."

The massive body's endless Power of the World converged, and the small world continued to grow.

...

"Let's go outside and have a look." Feeling that the Small Universe was stable, Luo Feng's True Body finally exited the Star Tower and stealthily left Chu Capital, concealing his power.

Whoosh.

Luo Feng's body naturally merged with the world, as if becoming a part of it. In just a few breaths, he arrived at Huyang City.

"As a World Life Form, even traveling is this fast," Luo Feng exclaimed.

Although he hadn't reached the level of those terrifying beings who could descend to a place with a single thought, reaching Huyang City from the borders of Flame Wind Ancient Country in just a few breaths still amazed Luo Feng.

This was much faster than before.

"My Small Universe can naturally reflect the outside world," Luo Feng stood above Huyang City, and his Small Universe naturally reflected it, able to cover an incredibly vast area.

"Three Primal Chaos Prefectures!" Luo Feng confirmed.

Chapter 189 4 Episodes 25 Chapters "Introduction to World Life Form_2

The reflection of the vast expanse covered by his inner Small Universe astonished Luo Feng. Each "Primal Chaos Prefecture" was incredibly vast, with large cities being merely an insignificant point within a Primal Chaos Prefecture.

It must be understood that even a second-rate country typically has only a few dozen Primal Chaos Prefectures.

As for third-rate countries, their entire territory encompasses roughly ten Primal Chaos Prefectures.

The reach of Luo Feng's World Reflection could encompass three Primal Chaos Prefectures, which revealed how terrifying it was.

"Within the range of World Reflection, I can call upon the 'Power of the World' in a thought to obliterate my enemies."

"My current strength is almost comparable to that of an undefeatable First Realm of Godly King, and yet I possess such methods. What about those at the Second Realm of the Godly King, or even at the Ultimate Realm?" Luo Feng became increasingly clear-headed, "No wonder the Catastrophe Beasts at the Ultimate Realm of the Godly King can unleash apocalyptic disasters."

An undefeatable First Realm Godly King is by default considered an Overlord of the Land of Origin.

"A true First Realm Godly King has a far superior Divine Power Reserve than mine. If they were to cultivate into a World Life Form, it would only be more colossal." This was also why Luo Feng

considered himself nearly an undefeatable First Realm Godly King.

However...

At this moment, he was continuously absorbing energy, his home's Small Universe was also transmitting energy, and his Physical Body was still growing. He believed it would not take too long to reach the standard of a normal undefeated First Realm Godly King.

"I still need to familiarize myself with my body and unearth its many capabilities." Luo Feng's True Body instantly entered the Garrison Mansion of Huyang City.

As a Cultivator of the Great Dao of Life Origin, having numerous Avatars, the significance of his True Body and Avatars wasn't much different! As long as a sliver of strength remained, he could cultivate it back.

Consequently, treasures like the Star Tower became even more important! Having heard too many accounts of Second Realm Godly Kings getting attacked by the two Ancient Countries, Luo Feng dared not bring it out until he had thoroughly researched the Star Tower.

Although he was now qualified to be called an Overlord, he still had to remain low-key in the face of the two Ancient Countries.

"According to the 'World Life Form,' this Special Grade Inheritance, I am currently merely at the threshold of being a 'World Life Form'." The more Luo Feng understood, the humbler he became.

According to the inheritance, the Primordial Life outside the Braided Cage could even have a body that rivaled a Source World.

Compared to such existences, he was as insignificant as an ant.

"At least I have taken the first step." Luo Feng then resumed his closed-door cultivation, familiarizing himself with his various abilities.

******

Xiangjie City.

"How long do you plan to stay in Po Lu City this time?" Moyu Qingyan asked his wife, Zhang Yunge.

"I don't know." Zhang Yunge said.

"You don't know?" Moyu Qingyan was taken aback.

Zhang Yunge explained, "Having the opportunity to become a disciple of Godly King Po Lu is an incredible fortune for me! Of course, I must seize the chance and cultivate at Po Lu Mountain. Only by cultivating continuously at Po Lu Mountain do I have the opportunity to frequently receive guidance from my master. If I'm always in Xiangjie City, when will I get such guidance?"

"That's not what I meant." Moyu Qingyan said, "I hold an important position in Xiangjie City, and I can't leave for an extended period! If you're always in Po Lu City, wouldn't we be separated all the time?"

"We are both Cultivators, being apart for a short time is nothing we can't endure." Zhang Yunge said. Read latest chapters on empire

"How about you leave a Divine Power Incarnation here?" Moyu Qingyan suggested.

"Cultivation requires focus, and one must not be distracted." Zhang Yunge said, "When I feel it is time to come back, I will return."

Moyu Qingyan looked at Zhang Yunge, feeling a mix of emotions: "You're not even willing to spare a Divine Power Incarnation from distraction?"

His parents had a great relationship and had three children.

His elder brother and younger brother were the same, both having wives and children.

Moyu Qingyan too had thought to marry and have children.

Only...

His wife Zhang Yunge placed great importance on the path of cultivation.

```

"Qingyan," Morosa appeared beside her and said with a smile, "I've told you before, emotions will affect your cultivation. Look, Yun Ge is very decisive! She doesn't want to have children; she wants to focus on cultivation. She doesn't even want to leave a Divine Power Incarnation; she wants to focus on cultivation... She is seizing the opportunity to dedicate her heart to cultivation."

Luo Feng was immersed in his own closed-door cultivation, not paying attention to his disciple's affairs.

But Morosa was always watching, keeping an eye on the progress of his disciple's emotions.

"Emotions affect cultivation?" Moyu Qingyan shook her head, "My father, my brothers, none of them have such issues."

"Isn't that what Yun Ge is doing? Cutting off distractions, focusing solely on cultivation, eliminating all interference," Morosa said leisurely.

"Why can't emotions and cultivation coexist?" Moyu Qingyan did not believe it.

...

Time passed once more.

Moyu Qingyan personally went to Po Lu City, arriving on Po Lu Mountain.

"Divine Monarch Moyu, Sister Zhang is sparring with other fellow sect members," a disciple enthusiastically greeted her and guided her on the way.

Moyu Qingyan saw it too.

She saw Zhang Yunge and five other fellow sect members sparring and exchanging pointers. Naturally, Zhang Yunge was much weaker in strength, but the others were giving her face, controlling their power.
```

"Why have you come?" Zhang Yunge saw Moyu Qingyan and approached with a smile.

"You never return, so I had to come here," Moyu Qingyan said.

Zhang Yunge explained with a smile, "This place is truly fit for the cultivation of Godly Kings; the disciples here are very outstanding, many much stronger than me. Sparring with them, I gain a lot. Cultivating here is much better than in Xiangjie City. I believe you understand too, Qingyan."

"Has Po Lu Godly King given you any guidance?" Moyu Qingyan asked.

"Not yet," Zhang Yunge replied, "No one knows when Master will appear; it's a matter of luck. Perhaps after some time, Master will give us some guidance."

Moyu Qingyan looked at her: "Then when do you plan to return?"

"Why are you rushing me?" Zhang Yunge's expression changed as she looked at Moyu Qingyan, "This is Master's place; to be able to become a direct disciple of a Godly King is a tremendous opportunity. Why would you want to block my chance?"

"I came to confirm one thing. If you want to focus entirely on cultivation, not wanting to be disturbed by emotions, not wanting my interference," Moyu Qingyan said as he looked at Zhang Yunge, "then I also do not wish to be disturbed by you."

Zhang Yunge was stunned.

"Let's hear your decision," Moyu Qingyan said.

"I won't give up the path of cultivation," Zhang Yunge said calmly as she looked at Moyu Qingyan, "This is the greatest opportunity for cultivation I've had since I was born. No one will stop me, Qingyan, you should know my choice."

"I guessed as much, just wanted a clear answer," Moyu Qingyan turned around and walked away, "Let's just part ways here, then."

Zhang Yunge watched Moyu Qingyan leave but did not call out to stop him.

Cultivators, there are times to come together and times to part.

In the ordinary days that laid before her, Moyu Qingyan was a good end. But now she is a direct disciple of a Godly King, a path she is more dedicated to.

"Emotions will only affect me," Zhang Yunge thought in her heart, and turned to join her fellow sect members.

...

"Master, master," Morosa communicated through mental transmission.

Immersed in the study of the life form, Luo Feng replied, "Morosa, what's happened?"

"Master, you don't care about your disciple? Your disciple and Zhang Yunge have completely split," Morosa said excitedly.

"Split?" Luo Feng was surprised.

He, as a master, indeed wasn't very responsible; he hadn't seen Zhang Yunge more than a few times himself.

"I've felt something was not right for a while now; Qingyan has been so troubled by her that he couldn't focus; this trip to Po Lu Mountain, sure enough, it turned out just as I had thought, they really did split up!" Morosa said joyfully, "It's good that they split, very good indeed!"

"It's just a small trial of emotions," Luo Feng laughed, not taking it too seriously, and continued to focus on his own cultivation, "I'm at a critical moment in my cultivation, you take care of Qingyan's matter."

"Alright, it's all on me," Morosa didn't need to focus on cultivation and was quite bored anyway, so naturally, he stayed constantly aware of Moyu Qingyan's situation.

```
```

Chapter 190 Becoming the Godly King (Part 1)

Outside Huyang City, in the quiet room of the city owner's mansion.

Dressed in silver robes, Luo Feng sat cross-legged. The material of the Ten Directions World Form he had constructed was based on the 'Silver Mountain Beast King,' and even his robe was a natural condensation of power, tough and indestructible.

"Hoo～～" The inner world founded upon the foundation of Primal Chaotic Space became even more formidable and stable.

"Having mastered the basics of being a world life form and familiarizing myself with my own abilities, it is time to comprehend the secret techniques that harness the power of a world life form," Luo Feng mused as he looked at his palm, which possessed endless might.

Boom!

The aura in Luo Feng's palm suddenly surged.

"Previously, imitating the form of Primal Chaos Layer creatures, I was unable to ignite my power. However, with this 'Ten Directions World Form,' I can ignite the power for a greater burst," Luo Feng observed the modest strength erupting from his palm. "But when unleashing the power, it places a higher demand on spiritual will."

"I also need to comprehend the secret technique of igniting power."

Luo Feng was grateful that as a world life form, part of the Special Grade Inheritance, he had access to many complimentary secret techniques. The only problem was... attempting to comprehend these techniques at the level of Primal Chaos Realm was extremely

difficult.

******

The Royal Capital of Shi Kingdom covered an expansive area, with a majestic royal palace at its center—the palace of the Emperor of Tian Kun.

Inside the palace.

"Big brother."

"Monarch."

The other four Godly Kings of Shi Kingdom addressed each other differently. Wuxiang Ancestor, Demon Blade Ancestor, and the Emperor of Tian Kun had been through life-and-death situations together, conquered battles, and founded the nation side by side since they were in the First Realm of Godly King. Even after the Emperor of Tian Kun had reached the Second Realm of Godly King, they continued to call each other brothers.

The other two, Stream Rui Godly King and Skull Peak Godly King, were invited to join later when the Emperor of Tian Kun was already in the Second Realm of Godly King.

"My lords," the Emperor of Tian Kun said as he sat in the seat of honor.

Even as he sat there, his invisible aura of terror caused the other four to hold their breath. They also knew that the Emperor of Tian Kun, having obtained the more profound Primordial Bloodline from Flame Wind Ancient Country and now following the Primordial Bloodline Path, was not comparable to a newly ascended second-realm Godly King.

The existence of a Godly King in the Second Realm, each a ruler in their own right, initially sought to reach the Ultimate Realm on their own strength. They all knew that cultivating the Primordial Bloodline came with many future problems.

However, as time passed, those in the Second Realm of Godly King

realized just how far the Ultimate Realm of God King was from them!

When the gap was overwhelming, they would despair and choose another path—relying on external powers and following the Bloodline Path with the help of the Primordial Bloodline.

In Flame Wind Ancient Country, six Emperors cultivated with the help of Primordial Bloodline, and including the Empress's previous life... there were arguably seven 'Bloodline Path' Emperors.

In Thunder Ancient Country, every Emperor followed the Primordial Bloodline Path.

Seeing both Imperial Clans of the ancient countries follow this path shows that indeed it is a clear way forward! Its biggest advantage—a significant increase in strength—cannot be overshadowed by all potential problems.

One by one, those non-Imperial strong forces hit their limits, and one after another, they switched to cultivating the Primordial Bloodline.

Even though the Primordial Bloodline they acquired and many other supplementary resources were far inferior to those of the emperors and monarchs of the two ancient countries, these were still enough to significantly enhance their strength!

"Within the treasure land 'Tianhe,' I, together with my friends, have set up an ambush, intending to destroy the true body of the Monarch of Yu Country in one fell swoop," the Emperor of Tian Kun declared. "As long as his true body is annihilated, all the great resources and Primordial Bloodline he obtained at great costs will be wasted."

This was a flaw in cultivating the Primordial Bloodline Path—much of the resources were invested in the physical body, and with the true body's death, it was tantamount to bankruptcy! If they were to cultivate again using a resurrection body, they would have to start all over again.

As for those who cultivate on their own, even after reincarnation, they could quickly return to their peak strength.

"The Monarch of Yu Country, gravely wounded, fled deep into

Tianhe. We tried our best to hunt him down, but he would take refuge wherever it was dangerous," the Emperor of Tian Kun shook his head. "That's why I think, we should force him out from the outside."

The other four Godly Kings of Shi Kingdom listened. Force from the outside?

"Our territory of Shi Kingdom will advance towards Yu Kingdom along the entire border," the Emperor of Tian Kun said. "Do not advance too quickly, capturing one Primal Chaos Prefecture after another! I want to see if the Monarch of Yu Country still has the patience to hide within Tianhe."

"Clever," the Wuxiang Ancestor said excitedly. "This Monarch of Yu Country doesn't possess the Clone Technique. He only has two options: either hide in Tianhe and watch Yu Kingdom being invaded and shrinking or give up his true body and cultivate a new one to defend the kingdom."

To give up his true body and cultivate again would mean a significant reduction in strength; yet, as a second-realm Godly King, he would still possess deterrence.

"What if the Godly Kings of the Yu Kingdom intervene?" Skull Peak Godly King asked.

"Those who obstruct us will be killed," the Emperor of Tian Kun replied calmly. "This matter was decided together with several friends, and we must drive the Monarch of Yu Country out of Tianhe! His Primordial Bloodline offers him more advantages in exploring Tianhe than us."

The other four Godly Kings understood.

These First Realm Godly Kings struggled immensely to enter the most ordinary treasures like the 'Infinite Space;' among them, Wuxiang Ancestor only had one opportunity to visit Infinite Space by relying on his brotherhood and selling himself to the Two Realms Palace.

Even more precious treasures? They dare not even dream of gaining

entrance.

These are the battlegrounds for the Second Realm of Godly Kings!

For those in the First Realm of Godly King... their most stable source of resources still comes from their own territories. Vast lands continuously produce various natural treasures, and the 'residence fee' from numerous cities also adds up. Though it may not seem much, over time, it becomes the most substantial income for a First Realm Godly King.

But the Emperor of Tian Kun was not interested in such gains; his sights were set on the resources within the treasure land 'Tianhe.'

The resources of Tianhe, for those cultivators of 'water' type Primordial Bloodlines, were exceedingly beneficial.

"Monarch of Yu Country hasn't made an appearance, and I reckon not many other Godly Kings dare to act. If they did, having their true body extinguished once would be enough to keep them far away," said the Godly King of Demon Blade at one side, "But Big Brother, that Great Saint Luo He does have a city on the border, 'Huyang City'. Shall we make a move?"

"Luo He?" The Emperor of Tian Kun smiled lightly, "A single city is nothing much, let him have it! Our objective is to force the Monarch of Yu Country's hand."

"He got off easy," said Wuxiang, the ancient ancestor on the side.

"You all draft the detailed invasion plan, I only have one requirement, act as soon as possible," The Emperor of Tian Kun instructed, "I want to see whether the Monarch of Yu Country can hold back or not!"

"Yes."

Wuxiang, the ancient ancestor, the Godly King of Demon Blade, the Godly King of Flowing Radium, and the Godly King of Bone Summit responded with respect.

******

Outside Huyang City.

Clad in a robe of silver, Luo Feng stood in the midst of a mountain forest. He looked at a plant in front of him that bore purple flowers. When he stretched out his hand to touch the purple blossom, the flower swayed and its aura rapidly intensified.

From an ordinary plant, the aura quickly reached True God Level, true god of void space level, and even eternal true god level.

"Boom." The purple flower burst into ashes.

"Not even an eternal true god level life form can be catalyzed," Luo Feng shook his head lightly, "In the Land of Origin, there are some ancient beings that can catalyze Godly King level powers; the gap is not just a small one."

Luo Feng walked to a red fruit tree beside him and attempted to touch it once more.

The red fruit tree swayed along, its aura surging vastly, and then, much like before, upon reaching the aura of eternal true god level, it also completely disintegrated into ashes.

"Let's try again."

Flowers, grass, and even rocks - Luo Feng tried to catalyze them all, yet everything turned to ashes.

An exotic beast in the distance watched this scene; observing the flowers and grass reach the aura of an eternal true god level, then turn to ashes, it was frightened into fleeing far away.

"Where exactly is the problem?" Luo Feng stood amidst the forest, very perplexed and deep in thought, wondering where the flaw lay in the combination of the six major branches of life...

In the midst of deep contemplation.

In the collisions of life's six major branch mysteries, all of a sudden, the complete vitality branch emerged in his mind.

"Hm?" Luo Feng was stunned.

"The Life Spirituality branch?"

Luo Feng had felt long ago that just by comprehending the six major branches of the Great Dao of Life Origin, he would be able to grasp them with ease. But he had followed the guidance of the Special Grade Inheritance, not pursuing deliberate comprehension; instead, he focused on understanding high-level secret techniques at a lower realm.

But at this moment, without deliberate comprehension, the Life Spirituality branch had already emerged in his mind.

"So this is the complete Life Spirituality branch." Luo Feng studied it carefully.

"Boom." "Boom."

As Luo Feng contemplated the complete Life Spirituality branch, it triggered a response, and naturally, he understood two more branches, precisely the 'Origin of Life' and 'Body of Life' branches, the ones he had been pondering the longest.

"Three branches have been realized?" A smile appeared on Luo Feng's face, feeling the three branches and contrasting them with the secret technique 'Ten Directions World Form'.

Spirit Light surfaced in his mind, deepening his understanding of the Ten Directions World Form.

Suddenly, the remaining three branches were also naturally comprehended.

The Blood Branch, which is a very famous branch under the Great Dao of Life Origin. Many other Godly Kings from different paths yearned to comprehend it, as it brings many advantages to cultivating the Primordial Bloodline.

The Vitality Branch, once achieved, bestows an incredibly lively life force. Even if a strand of divine power is annihilated, it can recover naturally! To completely obliterate it becomes a hundred-fold or a

thousand-fold more difficult.

The Life and Death Branch. Outside of the Land of Origin, there are legends of a 'Death Origin Dao', which naturally encompasses many aspects. However, the 'Death Branch' of the Great Dao of Life Origin is merely one aspect of life - the 'disappearance' of life makes way for a better 'rebirth'.

"Gathering together to the end and comprehending one branch, it has a continuous effect, naturally leading to the realization of all six branches," Luo Feng was quite pleased.

Morosa had also comprehended six major branches at once.

Although there was a slight difference in sequence for me, still, within the time of one cup of tea, all six branches were comprehended.

"Compared to that, my accumulation in the Great Dao of Destruction's Origin is much weaker," Luo Feng understood this point.

On one hand, the mysteries of destruction's origin that Morosa displayed were inferior to the complete shock exhibited by the 'Great Dao of Life Origin' of the Primordial Cosmos, resulting in a much weaker effect on comprehension.

On the other hand, Luo Feng had dedicated most of his efforts to the 'Ten Directions World Form'! After all, the Transformation Method is most suitable for this path.

"Now that I've comprehended,"

"Let's become a Godly King."

Luo Feng had no thoughts of delaying whatsoever.

Chapter 191 Becoming the Godly King (Part 2)

Back in his hometown region, within Luo Feng's small universe.

Xu Xin, Luo Ping, Luo Hai, and others, including his father Luo Hongguo, mother Gong Xin Lan, younger brother Luo Hua, and Luo Feng's personally cultivated child "Ximo," were transported there.

"Luo Feng, why did you summon everyone over?" Xu Xin was somewhat surprised as everyone present possessed immortal lives, making it rare for them all to gather together.

"Dad must have something important." Luo Hai looked at his father, full of anticipation.

The silver-haired youth 'Ximo' stood by the side. Being the only True God among the Youhai lineage cultivated by Luo Feng, he was filled with endless admiration for Father God.

"There is indeed something important," Luo Feng looked at his dearest family members. "I am about to breakthrough, and my small universe will expand massively once again! This will also be the last expansion of my small universe... You can go outside the universe and watch the entire process closely."

According to Luo Feng's understanding, a small universe at the Godly King Level was already its final form.

In weaker times, each level of transformation had to be accompanied by transformations in the small universe before the godly body could transform. If the small universe perished, strength could not breakthrough.

Of course, in the Primal Chaos Realm, if one's spiritual will was

strong enough, one could start a new life with the 'Reincarnation Secret Technique'.

Once one became a Godly King, growth thereafter would no longer be constrained by the small universe. Even if the small universe perished... a Godly King with a high enough realm could still reach 'beyond the Ultimate Realm of God King'.

That's because the Ultimate Realm of God King had already mastered a complete Origin Great Dao! To comprehend deeper levels beyond was already outside the range of Supreme Rules, and one must grope alone in the darkness.

"Dad, your small universe is already a trillion light-years in diameter. It's going to get even bigger?" Luo Ping was also quite shocked.

"Just watch and you'll know soon enough." Luo Feng smiled. "Alright, Ximo, you escort everyone out."

"Yes, Father God," Ximo responded.

Soon, Ximo piloted a Flying Boat Secret Treasure, taking everyone to a far area outside the small universe.

"Last time, it took Luo Feng five years for his small universe to grow from a hundred billion light-years to a trillion light-years in diameter," Luo Hongguo said as he observed the massive small universe from afar through the Flying Boat. "I wonder how big it will get this time."

"It's always tenfold each time; could it really reach ten trillion light-years in diameter this time?" Luo Hai couldn't help but say.

"The diameter of the Primordial Cosmos itself is ten trillion light-years. Could Dad's small universe become as large as the Primordial Cosmos?" Luo Ping couldn't believe it.

In the eyes of all the creatures in the surrounding regions, the Primordial Cosmos is very unique.

It is vast and is the cradle of countless races.

All creatures think... that a small universe is fundamentally inferior to the Primordial Cosmos.

"It's expanding!" Xu Xin looked outside the Flying Boat.

The already massive small universe suddenly brightened up! Infinite energy, as if descending from nothingness, continuously flowed into Luo Feng's small universe, rapidly growing it.

One trillion light-years, one and a half trillion light-years, two trillion light-years... With its size increasing dramatically, the growth rate began to slow down. The influx of energy did not slow down, but the more it grew later, the more energy it required.

The growth rate of the small universe left Luo Feng's family aboard the Flying Boat in awe.

"How can it grow so fast this time?"

"It's much faster than last time."

Xu Xin, Luo Hai, and others were very shocked.

As it grew too quickly, when Luo Feng's small universe reached three trillion light-years in diameter, other cultivators from the surrounding areas arrived, including Human Race True Gods and Primal Chaos Overlords, as well as mighty ones from other races.

"This—"

The mighty ones from various races were shocked as they looked on.

The Primordial Cosmos has a diameter of ten trillion light-years.

Luo Feng's small universe now measured three trillion light-years and was still growing... Visually, it was increasingly nearing the Primordial Cosmos.

"How can Luo Feng's small universe be so large?" the Primal Chaos City Lord was immensely shocked, especially when the small universes of typical True Gods were merely 'a hundred million light-years in diameter,' Luo Feng's small universe had grown unbelievably

large.

The difference was countless times.

Just three months!

Under the gaze of various mighty ones, in just three months Earth time, and with mind-boggling energy influx, Luo Feng's small universe grew to its limit.

"This, this, this..."

Regardless of whether it was other races or the Human Race, everyone watched in disbelief.

Even though they were witnessing it all happen before their eyes, it was still overwhelmingly shocking.

"Ten trillion light-years in diameter, the same size as the Primordial Cosmos."

"A cultivator's small universe can reach this step?" the various cultivators thought.

Meanwhile, the Divine Power Incarnation of the Primordial Ancestor was also watching alone.

"This?"

Hailing from the Land of Origin and having achieved the Primal Chaos Realm and becoming a Guest Elder of the Flame Wind Ancient Country, the Primordial Ancestor had seen much, making him find this all the more incredible.

"I've always known that Luo Feng's small universe was absurdly large among its peers, but I never expected that at the Godly King Level, it would reach a scale unprecedented in the entire Land of Origin," the Primordial Ancestor observed.

Even the small universes of Godly Kings, despite becoming stronger and diligently repairing their cosmic frameworks, could never reach this level due to flaws in their foundational nature present at birth.

Only those with a foundation of a Perfect Life Form could possess a Perfection Level Godly King's small universe.

"Luo Feng's foundation is too profound," the Primordial Ancestor thought to himself. "I believe Luo Feng's future will render him a prominent figure throughout the entire Land of Origin, perhaps even deciding the fates of countless creatures."

The Primordial Ancestor, who journeyed through the cycles of reincarnation with Luo Feng, could distinctly feel Luo Feng's rapid growth.

He had Luo Feng's help, inheritance, and resources.

But Luo Feng had been struggling alone, growing even faster than the Primordial Ancestor himself.

"Even in his hometown, he was invincibly sweeping across dangers and resolving the catastrophe of the Sector Beast. In the Land of Origin, he became a Godly King in no time. I am witnessing the birth of a miracle," the Primordial Ancestor was astounded.

...

This time, as soon as Luo Feng's small universe broke through, boundless energy from a Mysterious Land came pouring in, leading to such rapid growth.

"Boom." As energy descended from the Mysterious Land, it also connected this place with Luo Feng's consciousness.

The moment their consciousnesses connected, Luo Feng grasped much information.

This infusion of infinite energy was the first and last of its kind! Luo Feng's small universe had reached the same level as the Primordial Cosmos, which was the maximum level allowed by the entire Source World.

Moreover, afterward, Luo Feng's small universe, like the Primordial Cosmos, had an upper limit to the energy it could hold!

This was also why most areas of the Primordial Cosmos were void and dark! Because the energy was limited and, as the creatures proliferated and their cultivation grew stronger, the needed energy would gradually exceed the carrying limit, even causing the 'void areas of darkness' within the Primordial Cosmos to expand and ultimately self-destruct.

"From now on, I can control the population within my small universe," Luo Feng thought.

This is the difference between having an owner and being ownerless.

With an owner, it can be perfectly maintained, even perpetually sustained.

Ownerless? Without the ability to restrain countless creatures, it can only undergo great destruction and start anew.

"A small universe is also a kind of grace bestowed upon countless cultivators."

"It allows cultivators to better understand the rules of the universe's operation."

"It allows cultivators to absorb energy thousands to millions of times faster, thus sustaining a massive godly body. In the Land of Origin, cultivators generally have larger godly bodies than those from other source worlds, precisely because of the existence of small universes." Luo Feng could sense this information.

The Supreme Rules are compassionate, protective, and hopeful for the creatures to grow into a towering tree that can even nourish the Source World in return.

Every Source World has different rules.

But all are protective of all life.

"Are our godly bodies generally much larger because of the small universes?" Luo Feng understood. Indeed, if he let his body absorb the energy of heaven and earth directly, it would be much slower than through the small universe.

If the godly body were destroyed, rebuilding it might take tens of thousands of eras, perhaps not even enough time.

But with a small universe, it could be restored within one era.

"So, a small universe is really a kind of grace."

Luo Feng's consciousness connected with the Mysterious Land, gaining more understanding and glimpsing this area.

Here, there are nine great Origin Dao paths.

Time, Space, Life, Destruction, Infinite, Matter, Extreme Point, World, Causality.

Each Origin Great Dao has many aspects! Different observation methods yield different results.

"This is the first time I have seen the complete Great Dao of Destruction Origin." Luo Feng watched the paths of Life and Destruction the most clearly, as he was most familiar with them, and his attention immediately focused on the Great Dao of Destruction Origin.

The Great Dao of Destruction Origin, at first glance, resembled a terrifying dark red monster, its gaping maw as if ready to devour everything.

Upon closer inspection, it also depicted the true form of a Sector Beast, holy and beautiful, devoid of any destructive atmosphere.

In a trance, it seemed like a giant black eye, making Luo Feng's heart tremble.

...

Having a deep understanding of the six branches of the Great Dao of Destruction Origin and reaching a bottleneck enabled Luo Feng to see many 'aspects' of the entire Great Dao of Destruction Origin, deepening his understanding significantly.

For a long time, he only contemplated the Great Dao of Destruction

Origin as shown by Morosa.

For the first time, he contemplated it completely. Naturally, Luo Feng gained a lot.

"I feel that if I focus on contemplating the six branches of the Great Dao of Destruction Origin, it won't take long before I comprehend it," Luo Feng suddenly had this intuition, the first time he felt this way about the Great Dao of Destruction Origin.

"No rush, according to the guidance of my predecessors, I will contemplate high realm secret techniques in a low realm as the main practice, constantly increasing my accumulation until a natural breakthrough occurs." Luo Feng, now a Godly King, was even less hurried.

Each step must be more solid.

The more solid, the further you go.

"After all, the Supreme Rules could not bestow any more upon me," Luo Feng understood this point. Becoming a Godly King this time, the infusion of infinite energy, and letting his spirit touch the Supreme Rules, were the last graces bestowed upon him.

Afterward, it was all up to Luo Feng to fight on his own.

Luo Feng could also feel the innate expectation of the Supreme Rules; it was hoping that this outstanding 'child' would grow up sufficiently outstanding to, at some point, protect it in return.

"Are there crises even for the Supreme Rules in this world?" Luo Feng faintly sensed.

Luo Feng felt that his time merging with the Supreme Rules was running short and stopped contemplating the complete Great Dao of Destruction Origin, beginning to observe the others.

"Nine Origin Great Daos…"

Luo Feng saw.

These nine Origin Great Daos do not merge with each other! They only affect each other, combining and operating together, ultimately forming the complete 'Supreme Rules' of the Land of Origin, determining all.

The ways creatures are conceived, the methods of cultivation, time, space, and other aspects, are all decided by the Supreme Rules.

"This—"

Luo Feng's consciousness tried to observe a broader scope.

He saw.

He saw the entire Land of Origin! He saw further across the four corners of the Universe Ocean.

The reach of the Universe Ocean was billions of times larger than the Land of Origin! But the energy was thinner, more void. At the very edges of the Universe Ocean, different space-time layers held three thousand Primordial Cosmoses.

Luo Feng also saw his own hometown's Primordial Cosmos, next to which was another universe of comparable size, which was his own small universe.

"A broader scope." Luo Feng's consciousness continued to seek a larger scope.

His perception clearly sensed the entire Source World.

The vast Source World, like a super giant egg.

The core of the egg was the Land of Origin, surrounded by the endless Universe Ocean. The three thousand Primordial Cosmoses were merely floating specks of light.

"Beyond the Source World?"

Beyond this super giant egg was a dark void, which Luo Feng could no longer see clearly.

"Sigh."

Following that, Luo Feng's consciousness was completely expelled from this mysterious place.

This opportunity to merge his spirit with the Supreme Rules was also, under the allowance of the Supreme Rules, the only opportunity Luo Feng would have in his lifetime.

Chapter 192 The Inconceivable Godly Body

Chapter 192 The Inconceivable Godly Body

Land of Origin, Huyang City, inside the Quiet Room of the city owner's mansion.

Luo Feng's consciousness had completely returned to his physical body, the original 'Primal Chaotic Space' within him having long since transformed into a vaster, more resilient space! Godly Kings generally carve out a universe within this space.

Because the laws of cosmic operation are the manifestations of personal enlightenment. This too is a form of cultivation.

"Boom" Like the mighty Tianhe, endless surging energy from the Mysterious Land transformed into Divine Power, ceaselessly pouring into the space within Luo Feng, already forming an infinite ocean.

And the Mysterious Land kept on pouring more.

In just three Earth months, the 'Small Universe' in his hometown area could grow to the size of the Primordial Cosmos! This shows how fierce the energy infusion was, and now this energy was still supplying the formation of Luo Feng's godly body.

"Transformation of the godly body."

Luo Feng actively guided it, and the infinite Divine Power quickly formed a new godly body.

"This godly body is probably going to be massive, I myself might find it difficult to conceal all aura," Luo Feng thought, and immediately, an avatar far away in Chu Capital carrying the Star Tower silently left

the Chu Capital.

In just a few moments, he arrived in Huyang City with the Star Tower.

Inside the Quiet Room, there was a Star Tower, and Luo Feng had already entered it.

"Boom!!!" In one of the spatial layers inside the Star Tower, Luo Feng no longer restrained himself, consolidating the godly body at maximum speed, the sea of endless Divine Power within his own space visibly lowering its water level,' and soon, it was completely dried up.

Of course, the endless energy from the Mysterious Land transforming into Divine Power kept coming nonstop. Search the NoveFire.net website on Google to access chapters of novels early and in the highest quality.

As much as was sent, Luo Feng transformed all of it into the godly body.

"Ten trillion kilometers, eleven trillion kilometers..." Luo Feng sensed the rapid growth of his godly body, and in just three days Land of Origin time, Luo Feng's Perfect Divine Body had already grown to its limit.

The reckless pouring of energy from the Mysterious Land thus came to a halt.

The blessing of Supreme Rules, the reckless pouring of energy, marked this one opportunity to become a Godly King.

"My godly body."

Luo Feng felt his own self.

An immense godly body, sitting cross-legged in the space of the Star Tower, the space of the Star Tower still expanding enough to accommodate Luo Feng fully displaying his godly body.

"In the environment of the Land of Origin, my godly body's height is

180 trillion kilometers, which is already higher than the sky." Luo Feng understood this.

The distance between heaven and earth in the Land of Origin varies, as some places are basins and others are mountains, with slight variations in the distance, but generally around a hundred trillion kilometers!

Thus, even for unlimited godly bodies in the Primal Chaos Realm, cultivating a physical body to match the height of heaven and earth is difficult.

But it's different for the Godly King of unlimited godly bodies.

"Godly Kings of unlimited godly bodies generally reach a height of 36 trillion kilometers. Even when they display their normal height of godly body and walk on the ground, it is quite effortless. They can even match the height of heaven and earth with a simple shake," Luo Feng understood this.

Ancient Godly Kings, matching the height of heaven and earth, quite normal.

"But I..."

"My normal godly body can't even stand upright on the Land of Origin, even sitting cross-legged, my head is probably almost touching the starry sky." Luo Feng thought.

"The Star Tower is pretty impressive, just one layer of space expanded to be taller than my body, yet it still feels spacious," Luo Feng was very clear, many Cave Heaven Secret Treasures have large spaces, but ones as vast as this, still hold infinite value.

Luo Feng had long sensed the extraordinariness of the Star Tower, but for now, he also could not fully comprehend it. "Godly King Level Perfect Divine Body, this is also the final form. From here on, if I want a stronger physical body? A stronger soul? It has to rely on personal cultivation." Luo Feng felt his vigorous foundation.

The foundation of the godly body, the Divine Power Reserve far surpasses an ordinary Godly King. The 'quality' of Divine Power is

also stronger.

The soul foundation, after becoming a Godly King, the Small Universe akin to the Primordial Cosmos, along with the Perfection Level Godly King godly body, made Luo Feng's soul much stronger.

Godly Kings who don't cultivate the 'Soul Path,' aiming for a strong soul, either rely on the physical body nourishing the soul. which is less efficient, or rely on some rare treasures nourishing the soul, which is incredibly valuable.

"Many in the Primal Chaos Realm, after realizing branches of the Great Dao, would rather reincarnate first, to compensate for their own deficiencies, cultivate unlimited godly bodies, and then become Godly Kings," Luo Feng mused inwardly, "the foundation is indeed very important."

"World Life Form, transform!"

With a single thought, Luo Feng began transforming his Perfect Divine Body into a 'World Life Form.'

The Perfect Divine Body is ultimately composed of Divine Power, and in terms of combat ability, it is still inferior to "World Life Form', which, as a Special Grade Inheritance, begins at the realm of the unbeatable First Realm of Godly King, with an extremely high upper limit.

Boom

Having had a previous transformation experience, Luo Feng was much faster this time, a great amount of Divine Power continuously transforming.

"This time, I'm controlling the World Life Form much more easily," Luo Feng felt the difference.

Just having broken through to Godly King, the Spiritual Will hadn't improved much, but the soul was much larger.

But the soul is like an army, an army of ten thousand and an army of a million... although both are commanded by the same general, their

combat power is utterly different.

"A vast soul can also control a more massive physical body."

Perfect Divine Power, continuously transforming into a stronger World Life Form.

This continued for a full five days.

Two immense physical bodies sat cross-legged inside the Star Tower, one clad in a black robe-the Perfect Divine Body, and one in a silver robe the World Life Form.

"Using up half of the Divine Power Reserve of the Perfect Divine Body. I'm almost at the limit my Spiritual Will can bear," the silver-robed Luo Feng stood up, and with a mere rise, his presence caused the surrounding space to tremble, resonating loudly within the Star Tower.

Chapter 193 The Inconceivable Godly Body_2

```

"A powerful soul foundation and the will of the ultimate realm barely allowed me to control such a terrifying physical body, with the burden on my spirit already exceeding ninety percent!"

Although the Perfect Divine Body and the World Life Form had comparable energy reserves, their powers differed greatly.

"Sustaining a burden on my spirit that exceeds ninety percent is too exhausting! Normally, it's better to let this World Life Form 'sleep'."

With a thought from Luo Feng, the silver-robed Luo Feng immediately sat down cross-legged.

The silver-robed Luo Feng gradually fell into slumber, his breath still ongoing, continuing to stir up storms, while his consciousness wavered weakly.

"In a state of sleep, the burden on my spirit is very weak."

"When I'm acting outside normally, it's still best to create a few weaker avatars."

Luo Feng had an idea.

The cross-legged, silver-robed Luo Feng immediately emitted three streaks of silver light, each condensing into an avatar.

"Each avatar has roughly one-thousandth of the energy reserves of a World Life Form. That's still far stronger than my World Life Form during the Primal Chaos Realm." Luo Feng was very satisfied.
```

From the Primal Chaos Realm to Godly King.

The godly body increased in height by a hundredfold, the Divine Power transformed a hundredfold in quality... from an energy perspective, that's a difference of hundreds of millions of times.

Today, an avatar is much stronger than the 'World Life Form' I condensed at great cost during the Primal Chaos Realm.

"An avatar should be considered invincible within the First Realm of the Godly King," thought Luo Feng, "Moreover, this avatar of mine can use many exquisite moves."

"If I go all out, I should be on a higher level than the normal invincibility of the First Realm of the Godly King."

Luo Feng made a judgement.

Continue your journey with empire

The so-called invincibility of the First Realm of the Godly King is a broad concept, referring to having comprehensive mastery over survival, attack, and defense, all reaching the scopes of the Second Realm of the Godly King. Different invincible beings of the First Realm of the Godly King also have their own specialties.

Like the Godly King Jia Yin, who practices both the 'Infinite' and 'Causality' Great Daos, is far behind Luo Feng in frontal combat but far surpasses Luo Feng in avoiding harm and seeking fortune.

"In the Land of Origin, there has been no talk of a Godly King of the First Realm defeating a Godly King of the Second Realm or a Godly King of the Second Realm defeating one of the Ultimate Realm."

"But in the treasure ground 'Infinite Space,' it is recorded. Theoretically, it's achievable."

Luo Feng understood this.

This was just theoretically possible.

Like the Special Grade Inheritance, just getting started is theoretically

possible!

"According to the 'World Life Form' records, at the First Realm of the Godly King, theoretically, one can achieve the most perfect physical body, the 'Twenty-four Forms,'" thought Luo Feng. "This is my next goal. However, I can set it aside for now. The core of my future will be the 'Great Dao of Destruction Origin.'"

The Twenty-four Forms also appeared in the complete Great Dao of Life Origin, represented by the twenty-four claws, each one being an aspect of the Great Dao of Life Origin.

Each aspect is a combination of the six branches all intricately interconnected, more complex and profound than the Ten Directions World Form.

To completely comprehend the Twenty-four Forms is unimaginably difficult.

Generally, one might have already advanced into the Second Realm of Godly King with a complete fusion of all branches when they have possibly understood only a few aspects due to such depth in their understanding.

"For a long time, the World Life Form will be my strongest physical body."

"I now need to better exert the strength of my physical body."

When it comes to battle and slaughter, the Great Dao of Destruction Origin naturally excels.

Luo Feng immediately calmed his mind and sensed the space within his body, an expanse evolved from the Primal Chaotic Space, which, based on Luo Feng's foundation, was naturally much more substantial and vast.

"Other Godly Kings generally create a small universe within their body space."

"For me, it's more suitable to create a 'Source World' within my body space," thought Luo Feng, "At least the rudimentary form of a 'Source

World.'"

On one hand, because of the requirements of the Special Grade Inheritance 'World Life Form,' there is a need to create an inner world. And the ultimate goal of a world... is the 'Source World.'

On the other hand, Luo Feng, with his heart melding into the Supreme Rules, had observed the full extent of the Source World of the Land of Origin.

"Open."

A thought arose.

A small universe located far away in his hometown was continuously consolidating Divine Power and transmitting it here! The small universe has an upper limit on the energy it can withstand, but for Luo Feng's cultivation needs, the Supreme Rules do not impose a limit.

```

All creatures are like this, as long as you can utilize it, feel free to use it.

"Rumble～～～" Inside the inner world, endless energy converged at the core, beginning to gather a piece of miniature land, completely imitating the appearance of the Land of Origin, just a "miniature" version.

Ninety-nine percent of the energy gathered here.

Then there was the vast void district, still in the void district, three thousand miniature universes were bred.

The original endless 'Power of the World' of the World Life Form also merged into this world, allowing this world to evolve naturally; the Land of Origin evolved to be richer, with flowers, grass, and trees beginning to breed, and the positions of the three thousand miniature universes naturally adjusting, with vitality starting to appear within them.
```

The operating laws of the entire inner 'Miniature Source World' were the six major branches of life deduced by Luo Feng, hence the world's interior was naturally full of life.

"This is just a beginning." Luo Feng revealed a smile.

"Buzz."

After the Inner World stabilized, Luo Feng used World Reflection, and the area of reflection suddenly became much larger than it had been in the past.

"This range..." Luo Feng was also surprised.

In the past, the inner world reflected the outside world, covering about three Primal Chaos Prefectures, but now, as the physical body became more robust and the inner world more expansive, with a more profound foundation, the reflection range also soared to sixteen Primal Chaos Prefectures.

Normally, it is very difficult to expand the range of World Reflection. Even if the foundation is significantly stronger, the reflective range might only increase a little.

Now, from three Primal Chaos Prefectures to sixteen, it's clear how great Luo Feng's improvement was this time.

"Sixteen Primal Chaos Prefectures." Although Luo Feng was in Huyang City, everything in the sixteen Primal Chaos Prefectures, down to a speck of dust, was under his observation.

In such a vast range, many Exotic Beasts and twelve Beings of Primal Chaos Realm were all completely unaware under Luo Feng's scrutiny.

"I am the world."

"Nothing can hide."

Luo Feng, clothed in silver, stood above Huyang City, his own 'inner world operation laws' inherently with him, causing the Supreme Rules in the vicinity to temporarily retreat. Various energies around him, different layers of space and time, and even entanglements of

causality were all under Luo Feng's observation.

"Finally, I am close to the Emperor of Tian Kun." Luo Feng showed a smile.

...

On Po Lu Mountain, inside Zhang Yunge's cave mansion.

"Yun Ge, is there something going on between you and Qingyan?" Zhang Yunge's father made contact.

"What's going on?" Zhang Yunge asked in confusion, "Did something happen?"

"Qingyan has withdrawn the use rights of the 'Purple Cloud Palace' in Xiangjie City; our family business was forced to move out, and now it's being spread throughout Xiangjie City... you and Qingyan might have broken up. Qingyan hasn't denied it either," Zhang's father said anxiously, "Our business in Xiangjie City has significantly declined."

Zhang Yunge was in charge of some of her family's business dealings, which is how she originally met Moyu Qingyan.

"He took back the use rights to Purple Cloud Palace?" Zhang Yunge fell silent.

"What exactly happened between you two?" Zhang's father pressed.

"We have been separated for a while now." Zhang Yunge didn't hide it anymore.

"How could you two break up?" Zhang's father exclaimed in shock and anger.

"Why not? As Cultivators, we get together when we want to, and we part ways when we wish to. Do I have to tell you everything?" Zhang Yunge spoke, "And right now, I just want to focus solely on cultivation at Po Lu Mountain."

"You…" Zhang's father was furious.

Ever since his daughter had been with Moyu Qingyan, his status in the family had greatly increased, and so did the business he was responsible for.

"I have made up my mind." Zhang Yunge said.

Zhang's father was helpless.

Ever since his daughter became an eternal true god, it became very difficult for him to control her.

"Well then, you must seize the opportunity at Po Lu Mountain and cultivate well," Zhang's father could only say.

"Of course, I understand." Zhang Yunge responded and then ended the transmission.

Chapter 194 Season 4, Episode 29, Meeting the Master

Flame Wind Ancient Country, Chu Capital, Palace of Emperor Chu.

Within the ancient hall, a towering figure opened his eyes and murmured in a low voice, "To fully comprehend a complete Origin Great Dao is far too difficult. No wonder the 'Enlightened One Lineage' holds the most honored status."

After ceasing his cultivation, Emperor Chu looked around; all the rules and regulations of his surroundings were clearly visible to him, and he also sensed a change in one of the many threads of causality entwined with himself.

The reason he focused on this thread of causality was that it was deeply entangled with him—it was the causality between himself and his direct disciple, Luo Feng!

In the Land of Origin, the relationship between master and disciple is no less than that of blood relatives, and the intertwining of causality can be imagined.

"Luo Feng, has he made a breakthrough?" Emperor Chu revealed a smile, sensing that the other end of their entwined causality—'Luo Feng'—had grown much stronger, "Through the sense of causality, he has become much more powerful than before, almost comparable to the Second Realm of Godly King."

Seeing his disciple become so strong naturally filled Emperor Chu with joy.

"Luo Feng, come to see me at once," Emperor Chu transmitted his voice through the causality, reaching out from afar.

"Yes, Master." Luo Feng responded through causality. In the past, Luo Feng did not have the ability to communicate through causality, but after becoming a Godly King, the laws of his world became much more powerful, and his control over causality deepened.

Soon, Luo Feng arrived at the Palace of Emperor Chu.

"Master," Luo Feng entered the hall and immediately offered his respectful salutations.

This avatar of his also contained one-thousandth of a World Life Form's energy reserves, merely with this avatar... he was indeed worthy of being called invincible within the First Realm of Godly King.

"The gap between my teacher and me remains vast." This time, Luo Feng's sensing was even clearer. In his perception, Emperor Chu was like the embodiment of the Great Dao of Destruction Origin, like an immense world that was unshakable, every move carrying boundless destructive might.

Luo Feng's avatar, with life preservation capabilities surpassing even the Ancestral God of the Snow Realm, felt that if his master were to make a move, it would likely annihilate this avatar within two or three strikes.

"Good!" Emperor Chu's eyes shone with a mysterious light, scrutinizing his disciple from various aspects, and praising him, "Luo Feng, I didn't expect that having just become a Godly King, you could cultivate the Great Dao of Life and Matter to such profound depths. The combination of the two is even more ingenious, achieving such a powerful physical body."

"Master flatters me," Luo Feng felt somewhat ashamed.

He had not cultivated the Origin Dao of Matter.

What he truly cultivated concurrently were the Great Dao of Life and Destruction.

"There's no need for modesty," Emperor Chu exclaimed with admiration, "Across the Land of Origin, those who reach invincibility

in the First Realm of Godly King without external aid are rare! And you, you've just become a Godly King and have already reached this level... haha, no amount of praise is too much!" Experience more on empire

"Master, what do you think of this body of mine? When facing powerful enemies in the future, what should I be wary of?" Luo Feng inquired, as his master was far more experienced and knowledgeable than he was.

"This body of yours is robust and profound, difficult to erode by conventional means, deeply attuned to the mysteries of the 'Origin Dao of Matter,'" Emperor Chu noted, "and it also integrates the Great Dao of Life Origin. I have a feeling... that even if I strike with all my might and annihilate you, your physical body could still recover from nothingness, brimming with life force."

"I'm afraid it would take several strikes for me, each one having to break through the Braided Cage's barriers and annihilate everything, to completely obliterate your physical body," Emperor Chu stated, "Below the level of Emperors, I fear none could eradicate your physical body."

Luo Feng understood.

The paths of Life and Matter are both difficult to erode. Combined, their effects naturally stack.

However, a World Life Form puts a great strain on the spirit. They generally can't execute intricate techniques, and it's only when Luo Feng wields an avatar with 'one-thousandth' of the energy reserve, that he can perform elaborate maneuvers.

"I know you're also skilled in the Clone Technique," Emperor Chu said with a smile, "At your level, even Emperors and Monarchs must use their True Bodies to instantly annihilate one of your avatars, granting all your other avatars sufficient time to employ the Reincarnation Technique."

Luo Feng knew that his ability to preserve life was even more formidable than his master realized.

The True Body of a World Life Form held a thousand times more energy reserves than an avatar! Even Emperors and Monarchs, as powerful as they are, would need some time to destroy it... of course, it would still only take a bit longer.

"Looking over the entire Land of Origin, only four beings can truly kill you," Emperor Chu declared.

"Which four?" Luo Feng inquired.

"Two Ancestors, the Ancestor from the East Extreme Domain, and Emperor Qing," Emperor Chu replied, "They have all transcended the Ultimate Realm of God King."

Luo Feng was shaken. His master had not previously elaborated on the top-tier powers of the Land of Origin, but this time there were no more secrets.

Emperor Chu looked at Luo Feng, "You've cultivated to your current realm. It's time you understood the truly terrifying entities of the Land of Origin."

"These four are very detached; you won't provoke them for now," Emperor Chu said with a smile, "When the day comes that you can provoke them, the gap between you and them might not be so large."

Luo Feng was surprised, only to find Emperor Chu watching him with a smile, "Have confidence. Who knows, maybe one day you might become stronger than the two Ancestors. What cultivator lacks confidence?"

"Indeed," Luo Feng concurred.

"In any case, it's still best to avoid Emperors and Monarchs," Emperor Chu advised, "Especially those cultivating the Primordial Bloodline, for they are always tainted by its corruption night and day, and tend to have foul tempers."

"Disciple understands," Luo Feng replied, aware that in the Thunder Ancient Country there was even a half-out-of-control Monarch level powerhouse. Although other Emperors and Monarchs weren't out of control, their nasty dispositions were entirely understandable.

Marquis Chu Yuan's temper was something Luo Feng had witnessed before.

"The path of cultivation is difficult. When you reach the Second Realm of Godly King, you will feel it even more clearly," Emperor Chu said, "Just like it's easy to comprehend ten basic laws, but to fuse these ten laws into one, to comprehend the 'Law of Primal Chaos', is many times more difficult. Similarly, it's easy to comprehend a few branches of a great dao, but to perfectly fuse them into one complete dao is very difficult."

"Even I haven't been able to do it," Emperor Chu looked at Luo Feng.

"Emperors and Monarchs are life forms of the Ultimate Realm of God King, but almost all of them rely on external forces," Emperor Chu said. "Only Emperor Qing and the Lord of Ten Thousand Realms from this current era of the Land of Origin have truly comprehended a complete Origin Great Dao on their own."

Luo Feng nodded.

Two Ancestors who transcended the Ultimate Realm of God King and the Ancestral God of the East Extreme Domain were from the previous Reincarnation Era.

Emperor Qing was indeed formidable. As one of the two peerless powerhouses who had comprehended a complete Origin Great Dao in this era, he had even transcended the Ultimate Realm. No wonder he was so extraordinary among the thirteen Emperors.

"When one's life steps into the Ultimate Realm of God King, there are three paths," Emperor Chu explained patiently to his disciple.

"The first path is to comprehend a complete Origin Great Dao! This path is the most difficult—Emperor Qing and the Lord of Ten Thousand Realms have done it this way."

"The second path is like the one your master has taken—relying on a powerful inheritance to comprehend the 'Secret Technique for Ultimate Realm Life Forms' at the pinnacle of the Second Realm of Godly King. Using this secret technique and supplemented by

precious Primordial Materials, one can fully transition their life into the Ultimate Realm. After the transformation, every action carries boundless power."

"Lastly, there's the Primordial Bloodline route, unlocking the potential of the Primordial Bloodline and causing one's life form to evolve to the Ultimate Realm of God King! This path is relatively easier and has a higher ceiling, but it comes with greater risks," Emperor Chu explained.

Luo Feng understood.

All three paths could lead a life form to the Ultimate Realm.

Even the path his master had taken, Luo Feng could sense its difficulty: one first needs a record of the 'Secret Technique for Ultimate Realm Life Forms.' To comprehend an Ultimate Realm level secret technique within the Second Realm of Godly King! And then, with the provision of precious resources, one could succeed in the cultivation.

"When it comes to strength, we Emperors and Monarchs should be weaker than those who have comprehended a complete dao, like the 'Lord of Ten Thousand Realms.' Their secret techniques are more refined," Emperor Chu said with a smile. "But we have powerful Weapon Secret Treasures bestowed by Ancestors. Combined with the secret treasures, we can naturally contend with the Lord of Ten Thousand Realms and that Sector Beast."

Luo Feng understood.

The thirteen Emperors of the Flame Wind Imperial Clan were at least at the 'Sector Beast' level! Moreover, they each specialized in different abilities, making their collaboration even more terrifying.

Then there were Emperor Ming, Emperor Husband, and Emperor Qing—each one more dazzling than the last.

Of course, behind the imperial clan, there was also the Primogenitor Yan Feng, who didn't participate in the Land of Origin's conflicts.

"This is the strength of the high-level Flame Wind Ancient Country

imperial clan," Luo Feng sighed inwardly. It's no wonder that the two imperial clans occupied most of the resources—their power was overwhelming in the Land of Origin.

Even the Lord of Ten Thousand Realms and the Sector Beast of Tianmu Kingdom had to find ways to make connections with the two Ancient Countries. The East Extreme Domain could only shrink into a corner of the continent...

"The Monarchs of Thunder Ancient Country are also terrifying," Emperor Chu continued, "The Ancestor of Thunder followed the Primordial Bloodline Path himself, and all the Monarchs of Thunder Ancient Country cultivate the Primordial Bloodline. The power they exhibit is even more troublesome and fearsome than that of the Emperors of Flame Wind Ancient Country who cultivate the Primordial Bloodline."

"Besides the two ancient imperial clans, there are the scattered God Kings," Emperor Chu looked at Luo Feng, "The other creatures of the Land of Origin constitute the vast majority, and the number of Second Realm God Kings they produce is far greater than those of our imperial clans."

Of course, Luo Feng understood that places like the Reincarnation Tower had quite a few Second Realm God Kings.

"Among this group of Second Realm God Kings, there are also those of stunning brilliance. Their talents may even surpass mine," Emperor Chu said, "They cultivate multiple Great Daos and powerful Special Grade Inheritances. Even if they haven't stepped beyond life-wise, their many powerful secret techniques allow them to be comparable to us."

"These scattered Second Realm God Kings need to cultivate, want to grow stronger, and hope to reach the Ultimate Realm too. Naturally, they contend for resources with our two great imperial clans," Emperor Chu said with a smile. "They want to compete, and the imperial clans want to compete too, so naturally, conflicts arise, and so does animosity."

"In the Land of Origin, there are also alien races stirring trouble in

secret," Emperor Chu shook his head. "Luo Feng, the stronger you get, the more cautious you must be in everything you do, lest you be foolishly exploited without even realizing it."

Saying so, Emperor Chu extended his hand from afar, and a streak of flowing light flew towards Luo Feng.

Upon touching Luo Feng, a flood of information was transmitted.

Luo Feng was shocked.

Intelligence about the alien races in the shadows, information on some terrifying existences in the Land of Origin, reports on numerous treasure locations, chances left by Yuan, and detailed information on many fearsome powerhouses...

Aside from the scant descriptions of Emperor Qing, the Ancestral God of the East Extreme Domain, and the two Ancestors who were 'Beyond God King Ultimate Realm,' all other powerhouses were recorded in detail, including even some imprisoned mad beings.

Each piece of information, if bought, would be extremely expensive, and now it was all given to Luo Feng.

"Thank you, Master," Luo Feng felt grateful.

"I am your master," Emperor Chu said. "By the way, in the Land of Origin, there are some God Kings who cultivate the 'Origin Dao of Causality.' They have a deeper control over causality and can determine through it that your life has transformed. So, the news of you becoming a God King... It won't take long for it to spread! You need to be prepared."

Tomato wishes everyone a happy National Day! I also wish our great motherland ever-increasing prosperity and strength!

Chapter 195 - 30 Full Assault

Emperor Chu's guess was not mistaken. News of Luo Feng becoming a Godly King was quickly confirmed, and the two biggest intelligence organizations, the Flame Wind Pavilion and Thunderclap Commerce, both verified this and sold the information to their clients.

Po Lu Mountain.

Inside a gigantic bath, a sanctified white scale-armored creature with a sinuous body was cultivating, with faint golden light spreading around it.

"Hmm?" The creature suddenly opened its eyes, its form shifted, transforming into the appearance of Po Lu Godly King, and he smiled, "As everyone expected, Luo He has indeed become a Godly King in such a short time."

"To reach such invincibility in the First Realm of Godly King without relying on external forces is truly terrifying," Po Lu Godly King said, quite envious.

Such extraordinary talent is well understood by the true powerhouses of the Land of Origin... they know its immense potential!

Even the two Ancient Countries place utmost importance on it. Like Godly King Jiayin in the Thunder Ancient Country, he is heavily utilized because the Imperial Clan of the Thunder Ancient Country, being cultivators of the Primordial Bloodline, are mostly not suitable for governing the nation.

In the Flame Wind Ancient Country, the threshold for cultivating the Primordial Bloodline is extremely high. Many are not qualified to cultivate it at the First Realm of Godly King, and about half at the Second Realm of Godly King... Thus, there are many Godly Kings who maintain absolute sober rationality, enough for them to manage the

nation. Guest Elders as Godly Kings do not qualify to participate in the governance of the Ancient Country.

"I had my master's guidance to switch to cultivating Primordial Bloodline to achieve invincibility in the First Realm of Godly King. Compared to Luo He, I'm far behind," Po Lu Godly King said, with a trace of unwillingness in his eyes, "Achieving a breakthrough in realm is too difficult."

"Even with my understanding of the rules contained within the Primordial Bloodline, I still cannot break through to the Second Realm of Godly King," Po Lu Godly King gently shook his head, then transformed back into his Primordial Bloodline True Body, and continued his devoted cultivation.

...

Thunder Ancient Country, Zuoshan City.

Mountain Sitting Guest, as the newly transcended of the Transcendence of Primal Chaos Realm, was very low-key, wholly focused on understanding the Primordial Bloodline. He was not in a rush to become a Godly King; for him, achieving that status was something he could do anytime.

"Hu hu hu~~~" Mountain Sitting Guest sat cross-legged, flames rising from his body surface, yet his expression remained calm, without a ripple of disturbance.

His Spiritual Will was at the level of the Second Realm of Godly King, and his realm was also high enough, making it very easy for him to initially understand the Primordial Bloodline, maintaining absolute sober rationality.

In the Land of Origin, many idle Godly Kings who obtained the Primordial Bloodline received a rather ordinary type.

The Primordial Bloodlines that were qualified for reaching Emperor or Monarch levels were something the two Ancient Countries would never release. Those of the next tier required immense Merit Points to exchange.

Like the Monarch of Yu Kingdom and Master of the Shi Kingdom who were already at the Second Realm of Godly King! The Primordial Bloodlines they received were rather ordinary. They were all capable of maintaining absolute sober rationality. In contrast, cultivating top-tier bloodlines, although hopeful of reaching Emperor level, could easily lead to losing control.

There are gains and losses!

Idle Godly Kings, when cultivating Primordial Bloodlines, generally maintained rationality.

The Imperial Clans of the two Ancient Countries, by cultivating stronger Primordial Bloodlines, many experienced significant personality changes, and even some lost control!

"Hmm?" Mountain Sitting Guest suddenly received intelligence; he naturally had a long-term subscription for all intelligence regarding 'Luo He'.

"Luo Feng broke through?" Mountain Sitting Guest thought happily, "So quickly, he's become a Godly King after just over a century in the Land of Origin."

Initially, he had entered the depths of Universe Ocean in utter despair.

Enslave a Sector Beast?

Train a disciple for revenge?

The hopes were very slim! But Mountain Sitting Guest was self-aware; staying in the Land of Origin, he would never be able to surpass the three rulers of the Shi Kingdom! He would never manage to kill any of them completely.

Later, when Luo Feng managed to master the Lie Yuan Technique, Mountain Sitting Guest became excited. After all, this was a tradition that had been passed down several times, yet countless geniuses of the Land of Origin could not master it. Luo Feng's success... implied he had passed the 'Yuan' test.

Subsequently, Luo Feng became a True God, with his Small Universe's size unprecedented, making Mountain Sitting Guest realize this disciple surpassed any other Cultivator at the same level.

His confidence grew stronger and stronger!

"To reach such power without the aid of external forces," Mountain Sitting Guest thought, "Among the three rulers of the Shi Kingdom, only the Emperor of Tian Kun is stronger than Luo Feng."

Mountain Sitting Guest was immensely exhilarated.

Discover hidden tales at empire

With exhilaration, he felt his Spiritual Will and fighting spirit greatly intensified.

"Just wait a bit longer." Mountain Sitting Guest knew well that to completely kill the three rulers, he was still far off.

...

Royal Capital of Shi Kingdom, the Palace.

The Emperor of Tian Kun sat in the principal seat.

"Big brother," Wuxiang ancestor spoke, "After your last instructions, we carefully planned. The boundary lines of various Primal Chaos Prefectures are ready; we can invade Yu Kingdom at any moment. But we just got news that Luo He has become a Godly King."

Wuxiang ancestor was filled with hostility towards Luo Feng, ruining his biggest opportunity!

"He's just become a Godly King, that's all."

The Emperor of Tian Kun spoke indifferently, "It doesn't affect the overall situation!"

"According to various estimates, after he became a Godly King, he should soon reach the invincible strength in the First Realm of Godly King," Godly King Ku Feng said, "We're not afraid of him, but if he

makes a move, we can’t stop him."

Wuxiang ancestor, Demon Blade Godly King, Liu Yu Godly King, and Ku Feng Godly King are all deeply experienced Godly Kings, but even the strongest, Wuxiang ancestor, is only at the limit of the First Realm of Godly King.

"This time, my friends and I decided together, if Luo He doesn’t intervene, so be it. But if he forcefully steps in, I will make him pay the price!" The Emperor of Tian Kun’s eyes shone with a cold light, "But remember, when we fully invade Yu Kingdom, avoid Huyang City! Also avoid the entire Primal Chaos Prefecture where Huyang City is located."

"I gave him face, yet he still took action! If a conflict arises, even the Imperial Clan of Flame Wind Ancient Country can’t blame me," said the Emperor of Tian Kun, unconcerned about Luo He. He was more interested in the thoughts of the Imperial Clan of Flame Wind Ancient Country.

"Yes, we will avoid that Primal Chaos Prefecture," the four Godly Kings realized.

The Emperor of Tian Kun nodded.

Following his will, the various Primal Chaos Prefectures along the border of Shi Kingdom began crossing the boundary line in full force, invading Yu Kingdom! Of course, they merely avoided the Jiu Jiang Primal Chaos Prefecture where Huyang City was located.

******

Huyang City.

"City Lord," Deputy City Lord Moli Meng and Moyu Hu came to meet Luo Feng together.

"What brings you here in such a hurry? What important matter has arisen?" Luo Feng, in a silver robe, sat drinking in a high tower of the city owner’s mansion.

Moli Meng immediately reported, "A matter of great urgency! Shi

Kingdom has fully invaded Yu Kingdom. Many cities on the border have been attacked. Each city is resisting while also seeking reinforcement from the Royal Capital."

"Shi Kingdom is completely disregarding the rules this time," said Moyu Hu. "During the invasion, several of those in Primal Chaos Realm took action, clearly not afraid of escalating the war."

If one or two from the Primal Chaos Realm had acted, it could be considered a personal grievance.

When several from the Primal Chaos Realm take action, it clearly reflects the will of the whole Shi Kingdom.

"Our five Godly Kings of Yu Kingdom have yet to issue clear orders," Moli Meng said worriedly. "Without orders from the Godly Kings, all those in Primal Chaos Realm are somewhat hesitant and keep retreating, and many places have fallen."

"In times of war, one should attack when it's time to attack and retreat when it's time to retreat. Having no clear orders now... that's the most troublesome," Moli Meng acknowledged the dire situation.

Luo Feng nodded and said, "The Monarch of Yu Country is currently embroiled in troubles and can't return for the time being! Thus, the other four Godly Kings of Yu Kingdom also dare not take action; they must still be waiting for orders from the Monarch."

"The Monarch can't return?" Moli Meng and Moyu Hu were shocked.

"A resolution will come soon," Luo Feng said. "The Monarch of Yu Country can't delay for too long."

Shi Kingdom was intentionally pressing step by step.

If their real aim was to annihilate the kingdom, they would have directly had their Godly Kings attack the Royal Capital!

Without being able to kill the Monarch of Yu Country, Shi Kingdom dared not start a war of annihilation. They were pressing step by step, merely to force the 'Monarch of Yu Country' to make a decision, whether to give up his True Body or not?

...

Yu Kingdom, Royal Capital.

"Monarch."

All four Godly Kings had already arrived, eagerly looking at the Monarch.

A towering figure covered in hair sat there, his gaze complex with unwillingness, anger, and helplessness.

"Monarch, although Shi Kingdom's conquest isn't rapid, it's a full-scale invasion. To date, we've already lost thirty-two major cities, with seven Primal Chaos Prefectures completely overrun. Their army is still advancing," said a Black-Robed Figure with two curved horns. "They are pressuring you to make a decision, Monarch."

"Their relentless pressure is to force me to forsake my True Body and leave Tianhe," the Monarch of Yu Country was unwilling.

He was only a Divine Power Incarnation here; his True Body was powerful, Tianhe's environment was more suitable for him, and he was formidable enough in competing for resources, thus provoking the Emperor of Tian Kun and several other powerhouses to gang up against him.

"Monarch, what should we do now?" all four Godly Kings looked at the Monarch.

Without the Monarch taking action, the four of them couldn't possibly stand up to the Emperor of Tian Kun... they were also afraid of being forced to reincarnate.

The Monarch of Yu Country remained silent.

"In our kingdoms of Yu, there is currently an Overlord Level being. Although he can't defeat the Emperor of Tian Kun, he also fears him not," suddenly a woman in green spoke softly. "Moreover, this Overlord Level being has reached this stage without relying on any external force! No power on the Land of Origin can ignore him, and he is also the Direct Disciple of the Emperor of Flame Wind Ancient

Country."

"Monarch, if Luo He, the Godly King, joins Yu Kingdom fully, it would make a difference," the horned Black-Robed Figure also said, and the other two Godly Kings all looked hopeful.

Having another Overlord Level being, Yu Kingdom's foundation would naturally be stronger.

"So strong without any external assistance, would he join a second-rate country?" the Monarch of Yu Country gently shook his head. "Alright, you all withdraw for now. I need to think this over."

The four Godly Kings looked at each other and could only withdraw.

In the silent great hall, only the figure of the Monarch of Yu Country remained.

If he were without concerns, he could comfortably hide within Tianhe. But he had his clan, his children, and many subordinates. Moreover, a vast kingdom and a stable output of resources were equally important to him.

"With Luo He's potential, he could easily join one of the two Ancient Countries or those first-rate nations and occupy a high position. Join a second-rate nation? He could even establish a second-rate nation himself," the Monarch of Yu Country was also troubled.

If Luo Feng were to establish a nation, it might start with a small territory, but as his strength increased, the nation would naturally strengthen.

"Regardless of the outcome, let's give it a try," the Monarch of Yu Country had no choice. Asking a friend to resist the Emperor of Tian Kun was occasionally feasible. But this large-scale war would continue for a long time.

Requesting someone who could match the Emperor of Tian Kun to garrison long-term would be too costly.

As for abandoning the True Body? The Monarch of Yu Country was even less willing to do that!

"Speaking of which, I and Luo He also have some connections," the Monarch of Yu Country thought for a moment, then immediately ordered to take his daughter 'Yushui Tianyu' along with Black Butcher, Suo Zi, and several other servants, to personally visit Luo He, the Godly King, at Huyang City.

Chapter 196 - 31: The Outgoing Luo Feng

Yu Kingdom’s Capital, within the palace.

Black Butcher and Suo Zi looked at each other, both feeling somewhat nervous.

"The Monarch is going to Huyang City, and he’s actually taking the two of us along?" The corpulent Black Butcher, as an eternal true god, would naturally be part of the upper echelons in most cities. However, by all accounts, he was not qualified to meet with the Monarch.

The Monarch of Yu Country, capable of establishing a second-rate kingdom, was a renowned existence throughout the Land of Origin.

"Even I was chosen?" Suo Zi was even more bewildered; among the six attendants, he was the only true god of void space.

"Father King..." Yushui Tianyu also spoke up, being just one of the children of the Monarch of Yu Country.

The Monarch of Yu Country, covered in hair, stood there; even though it was just an avatar, the formless aura was still terrifying. His gaze swept over the six attendants, finally resting on the master and disciple pair of Black Butcher and Suo Zi: "This time, my visit to Huyang City is to see Godly King Luo He. Have you two not had previous acquaintances with Godly King Luo He?"

"Godly King Luo He?"

"Senior Luo He became a Godly King?"

Black Butcher and Suo Zi were not as well-informed and only found

out about Luo He becoming a Godly King at this moment.

"Reporting to the Monarch, Godly King Luo He was quite fond of my eatery and often came to offer support." The corpulent Black Butcher obediently responded.

"Reporting to the Monarch, after I left the tribe, it was Godly King Luo He who saved our tribal team, allowing me to arrive at Huyang City. Godly King Luo He has a life-saving grace towards me." Suo Zi also spoke up.

The Monarch of Yu Country, covered in hair, nodded indifferently. Bringing along two old acquaintances was also a way to foster closer relations with Luo Feng.

"Depart."

With an order from the Monarch of Yu Country.

Whoosh!

He took the six attendants, instantly piercing through space-time, traveling through distorted space-time.

In the blink of an eye, the party had flown out from twisted space-time, appearing inside Huyang City.

"Luo He..." The Monarch of Yu Country led his team to fly leisurely, heading straight for the city owner's mansion.

Worry filled the eyes of the Monarch of Yu Country.

"In terms of strength, the Emperor of Tian Kun and I are almost equals. But when it comes to having friends, the Emperor of Tian Kun far surpasses me." The Monarch of Yu Country was somewhat apprehensive at this time, "The Emperor of Tian Kun has many friends, and even has a very good relationship with the Imperial Clan of the Flame Wind Ancient Country. There are several Emperors who often summon him."

"This Luo He is, after all, a Direct Disciple of an Emperor from the Flame Wind Ancient Country; perhaps he is friends with the Emperor

of Tian Kun?" The Monarch of Yu Country had no confidence in persuading Luo Feng.

He was accustomed to solitude.

"I must give it a try."

"If I cannot enlist Luo He's aid, then I must ask Godly King Sui Feng to temporarily hold off the Emperor of Tian Kun, at least to buy some time." The Monarch of Yu Country also had a backup plan to have Godly King Sui Feng help block for one era.

One era was enough time for him to think of a way to escape safely back from Tianhe.

With an ambush lurking in Tianhe, a hasty escape could easily fall into a trap.

If he could not escape even after one era... then he would have to pay a heavy price! Either forsake his True Body or negotiate with the Emperor of Tian Kun and the others.

"Father King, the city owner's mansion is just ahead," Yushui Tianyu suddenly reminded.

The Monarch of Yu Country stopped pondering and looked at the majestic city owner's mansion before him.

"Luo He my brother," the Monarch of Yu Country immediately sent a message through causality, "I am Yushui."

A figure in silver appeared at the entrance of the city owner's mansion.

"City Lord." The guards at the entrance immediately bowed respectfully.

"Godly King Luo He?"

Yushui Tianyu, Black Butcher, and Suo Zi all saw this figure in silver that appeared familiar and yet somewhat strange.

Today's Luo Feng, in silver attire, had an even more ordinary aura.

"Greetings to Monarch Yushui." Luo Feng spoke.

"I have long heard of brother Luo He's name, and today is the first time we meet," Monarch Yushui said with a smile. In the past, he had even tried to recruit Luo Feng as his disciple, but Luo Feng had politely declined and gone to Chu Capital of the Flame Wind Ancient Country.

"And three old acquaintances." Luo Feng smiled as he glanced at Yushui Tianyu, Black Butcher, and Suo Zi, whom he had met during his eternal true god stage.

"Godly King Luo He." Each of the three respectfully greeted him.

"Monarch Yushui, let's go inside to talk," Luo Feng suggested.

"Very well," Monarch Yushui agreed and entered, while instructing his attendants, "You all may stroll around Huyang City."

"Yes," the attendants complied, watching the Monarch and Luo Feng enter before they relaxed.

Black Butcher looked at the bustling city which had grown somewhat unfamiliar. He had once struggled in Huyang City for a long time, painstakingly accumulating resources to break through to eternal true god.

"Huyang City." Suo Zi felt an even more complex mixture of emotions. His brother 'Suo Yun' had already died, and he had received the news a long time ago.

Their original dream was to establish roots in Huyang City! But later, they went separate ways, and he also followed his master to the Royal Capital. That time Suo Yun had even seen him off.

"Black Butcher, as you and your disciple are familiar with Huyang City, find us a place to eat and drink," Yushui Tianyu commanded.

"Your Highness, please follow me," Black Butcher immediately led the way.

...

Within the city owner's mansion.

Luo Feng sat opposite the Monarch of Yu Country.

"Rumors from the outside world claim that, after you, Brother Luo He, became a Godly King, you would swiftly reach the invincible level of the First Realm of Godly King," the Monarch of Yu Country said, looking at Luo Feng. "Seeing you today, the rumors are indeed true. Your physical body's strength is already at the level of the Second Realm of Godly King."

Although he was just an avatar that had come, his realm was still the same, and naturally, he could sense the terrifying aspect of this avatar of Luo Feng's.

"I cultivate the physical body lineage. My moves are clumsy and not worth mentioning," Luo Feng said with a smile. "I owe my strength today to the Monarch."

"Thank me?" The Monarch of Yu Country was surprised. Did it have something to do with him?

"Back then, you sent your daughter 'Yushui Tianyu' to deliver a 'Void Proliferation Mother Tree Leaf,' which was of great help to my cultivation," Luo Feng explained.

That single leaf, of ordinary value to others, had a profound impact on Luo Feng.

It was precisely because of that leaf, which allowed him to travel to the Primal Chaos Layer and collect some Primal Chaos Layer creatures, that Luo Feng was able to start studying the 'Transformation Method' early on! Without that leaf, his core combat technique might not have been the Transformation Method.

"A leaf of the Void Mother Tree?" The Monarch of Yu Country couldn't help but laugh silently. "Brother Luo He, you are too polite! That was just a leaf, used to help eternal true gods enter the Primal Chaos Layer to better comprehend the 'Primal Chaos Laws.' It's nothing noteworthy as an aid for the cultivation of eternal true gods."

"For me, it held extraordinary significance," Luo Feng did not elaborate further.

At that time, he was too poor! A single leaf highlighted its preciousness and greatly accelerated his advancement to the Primal Chaos Realm.

The Monarch of Yu Country now felt much more at ease. He could feel Luo He's goodwill!

"Brother Luo He, my visit today concerns a very important matter," the Monarch of Yu Country began.

"Please, Monarch, speak freely," Luo Feng said as he personally poured wine for the Monarch of Yu Country.

The Monarch of Yu Country explained, "You are very aware of the situation between Shi Kingdom and Yu Kingdom."

"As long as you live, Monarch, they wouldn't dare to truly annihilate the Yu Kingdom," Luo Feng said. After all, the Monarch of Yu Country was a Second Realm Godly King, and if he really had no ties or concerns, the Shi Kingdom would face great trouble instead.

The Mountain Sitting Guest could flee and hide, and the Shi Kingdom could ignore him!

The deterrence of the Monarch of Yu Country was completely different.

"They dare not destroy the Yu Kingdom, nor do they dare to annihilate my clan," the Monarch of Yu Country shook his head, his eyes full of reluctance hidden beneath the strands of his hair. "But they can keep eroding the Yu Kingdom, nibbling away at ninety percent of its territories, forcing the other Godly Kings of the Yu Kingdom to leave one by one."

"Without the vast majority of the territory, the Godly Kings and those of the Primal Chaos Realm will leave, and my clan will not have enough resources." Discover hidden tales at empire

Luo Feng nodded.

At the Monarch of Yu Country's level, he might place more value on the resources of sacred lands.

But the other four Godly Kings, as well as the countless members of the Yushui clan... they needed the continuous supply of 'residence fees' and treasures from the heavens and the earth from the entire territories of the Yu Kingdom. Without these, naturally, the conflicts within the clan would be great.

"How many Godly Kings are there who can completely disregard their children, their clan?" the Monarch of Yu Country said.

"Yes," Luo Feng nodded.

To him, his family, children, and the human race were more important than his own life.

"That's why I have come to ask for your help, Brother Luo He," the Monarch of Yu Country said, "As a local overlord who is proficient in the Clone Technique, even the Emperor of Tian Kun can't take you down. You have enough strength to resist Shi Kingdom."

"Of course, I know this request will put you in a difficult position," the Monarch of Yu Country said, "Once you completely turn against the Emperor of Tian Kun, you'll make a powerful enemy."

"The Emperor of Tian Kun is formidable, a deeply cultivated Second Realm Godly King. Facing him, you are at a disadvantage and can only take a beating. Plus, he has many friends, with several emperors from Flame Wind Ancient Country taking a great interest in him." The Monarch of Yu Country looked at Luo Feng. "If you don't want to get involved, I would understand."

"The Emperor of Tian Kun is indeed not easy to provoke," Luo Feng nodded in agreement.

The Monarch of Yu Country said, "I have two ideas. One is to invite you to join Yu Country fully and become one of our Godly Kings. Naturally, I would give you enough fiefdoms! Enough treasures! These terms can be discussed in detail. Then you would have a good reason to help resist Shi Kingdom."

"Second, if you do not wish to join Yu Country, then consider that I am asking you, Brother Luo He, for help. You can set your conditions. I can cede part of my territory to you! All of Yu Country... I can offer you twenty Primal Chaos Prefectures or treasures worth 'one hundred million Merit Points' to entice you to take action and help us fend off Shi Kingdom."

"I know that to openly oppose Shi Kingdom and block them long-term, these conditions may not be generous enough."

"It would be normal if you refused," the Monarch of Yu Country looked at Luo Feng.

The entire territory of Yu Country was under owners.

He would need to take back some Primal Chaos Realm and even Godly King fiefs, requiring substantial compensation. Hence, Luo Feng could only choose one between the twenty Primal Chaos Prefectures or treasures worth one hundred million Merit Points.

"There's no need to join Yu Country," Luo Feng said with a smile. "How about this, ten Primal Chaos Prefectures; you hire me, and I'll help you stop Shi Kingdom."

The Monarch of Yu Country was already anxious since his offer was not very high.

"You're agreeing? To ten Primal Chaos Prefectures?" The Monarch of Yu Country was somewhat in disbelief. Luo He agreed so readily and even voluntarily reduced the terms?

It was known that a well-cultivated Godly King, like the former Mountain Sitting Guest, could establish a third-rate nation by himself, typically encompassing about ten Primal Chaos Prefectures.

Luo Feng, as a local overlord who was also going to resist the entire Shi Kingdom, was only asking for ten Primal Chaos Prefectures, which was indeed very modest.

"The leaves of the Void Mother Tree from before helped me considerably," Luo Feng said with a smile. "For ten Primal Chaos Prefectures, I'll assist you, Monarch. However, I'll choose the

locations of these ten Primal Chaos Prefectures."

"Fine, choose as you like," the Monarch of Yu Country thought that however central the choices might be, he'd have to find a way to manage.

"These will be the ten,"

Luo Feng waved his hand, displaying a map of the Yu Kingdom with the ten Primal Chaos Prefectures closest to Huyang City as the center; in fact, this was also the range reflected by his Inner World!

"The ten Primal Chaos Prefectures near the border?" The Monarch of Yu Country was touched. The border Primal Chaos Prefectures were currently in the worst situation, with some already occupied by Shi Kingdom and the rest under attack.

"That will do," Luo Feng declared. "Also, the Marquis of Jiu Jiang is my friend, so now I'm including Jiu Jiang Primal Chaos Prefecture. Please arrange a good fief for him."

"Don't worry, everything will be taken care of properly," the Monarch of Yu Country looked at Luo Feng, truly moved. "Brother Luo He, for your bold assistance, I, Yushui, will remember this."

Chapter 197 - 32: Luo Feng Takes Action

Monarch of Yu Country asked, "Brother Luo He, when can you lend a hand?"

After all, it was a hasty visit, and once Luo Feng took action, he would face the entire pressure of Shi Kingdom. Usually, preparations needed to be made in advance.

"Whenever you need," Luo Feng said with a smile.

"Good," the Monarch of Yu Country was overjoyed.

How refreshingly straightforward! This Luo He was just too straightforward!

If the Godly Kings of the Land of Origin were all this decisive, he, the Monarch of Yu Country, would have made a great many friends already.

"Let's wait one day," the Monarch of Yu Country said, "I need one day to reclaim these ten Primal Chaos Prefectures, as they all currently have owners. Once Brother Luo He repels the Shi Kingdom, it will be much more troublesome to reclaim them."

These ten Primal Chaos Prefectures, being the closest to Huyang City and along the border, were in terrible times, and those feudal lords were willing to sell them off.

But once the situation improved, ultimately, they were territories cultivated over many long years,

the Monarch would want to reclaim them? Even if the feudal lords agreed, the conditions would certainly be high.

"Good, I will wait for the news from the Monarch," Luo Feng said.

"I'll arrange it right now." The Monarch of Yu Country stood up, his furry appearance sincere as he looked at Luo Feng, "Brother Luo He, the favor you've done for me this time, I will definitely repay."

Luo Feng rose with a smile: "When I need the help of the Monarch of Yu Country in the future, I will certainly ask."

The Monarch of Yu Country immediately took his leave, taking away the six attendants who had been leisurely eating and drinking within Huyang City, heading straight back to the Royal Capital of Yu Kingdom.

"I'm about to face the Emperor of Tian Kun," Luo Feng stood atop the City Lord's Mansion tower, his eyes cold.

He had agreed so readily, even offering a lower price, partly because he indeed appreciated the Void Proliferation Mother Tree Leaf given to him by the Monarch of Yu Country in his weaker years. On the other hand, it was also to naturally come into conflict with a few Monarchs of Shi Kingdom and personally test the detailed strength of 'Emperor of Tian Kun.'

"After all, he's at the Second Realm of Godly King and also cultivates the Primordial Bloodline. Let's prepare with peace of mind." Luo Feng sat cross-legged on the tower, quietly awaiting the moment to act.

...

Inside Jiu Jiang City.

"Shi Kingdom has invaded on a large scale, many Primal Chaos Prefectures along the border have been invaded and occupied, but my Jiu Jiang Primal Chaos Prefecture alone has been spared," the Marquis of Jiu Jiang frowned, feeling both relieved and uneasy.

As the surrounding Primal Chaos Prefectures fell one by one, all the neighbors around Jiu Jiang Primal Chaos Prefecture had become territories of the Shi Kingdom.

His Primal Chaos Prefecture was completely surrounded.

"The Shi Kingdom not attacking my Jiu Jiang Primal Chaos Prefecture is certainly not because of me, but because of Godly King Luo He." The Marquis of Jiu Jiang also subscribed to Luo He's intelligence service, although he only subscribed to the 'basic intelligence.' Higher-level intelligence was too expensive.

"Godly King Luo He, the outside world claims... after he became a Godly King, he should have the strength of an Overlord. But these are all rumors, never verified."

"Even if he has become an Overlord, Godly King Luo He is a Direct Disciple of the Emperor, and the Emperor of Tian Kun of the Shi Kingdom has a very good relationship with the Imperial Clan of the Flame Wind Ancient Country. Maybe Godly King Luo He will side with Shi Kingdom," the Marquis of Jiu Jiang was very uneasy.

In such chaotic circumstances, he had no power to resist.

His fate depended on the two large kingdoms, and on Luo He's attitude.

"No matter what, Godly King Luo He is a man of deep loyalty." The Marquis of Jiu Jiang had watched Luo Feng grow from within Huyang City.

"Jiu Jiang," the Monarch suddenly contacted him.

The Marquis of Jiu Jiang was startled and responded with immense respect: "Monarch."

"I intend to reclaim your Jiu Jiang Primal Chaos Prefecture," the Monarch of Yu Country said, "I can exchange it for a Primal Chaos Prefecture in the hinterlands of Yu Kingdom, are you willing?"

The Marquis of Jiu Jiang was taken aback and quickly replied: "Of course I'm willing, but the large city 'Huyang City' in my Jiu Jiang Primal Chaos Prefecture belongs to Godly King Luo He. I only control parts of Jiu Jiang Primal Chaos Prefecture."

"I know, I plan to exchange 'Shi Jiang Primal Chaos Prefecture' with you," the Monarch of Yu Country said.

"Shi Jiang Primal Chaos Prefecture? This... This is quite a bit larger than my Jiu Jiang Primal Chaos Prefecture, and its resources are more abundant," the Marquis of Jiu Jiang said, "In this exchange, I have no authority to exchange 'Huyang City.'

"This exchange is also Brother Luo He's wish," said the Monarch of Yu Country.

The Marquis of Jiu Jiang was shocked.

Brother Luo He's wish? Godly King Luo He was standing on the side of the Monarch?

"I naturally agree with the intentions of the Monarch and Godly King Luo He," the Marquis of Jiu Jiang said.

"Good," the Monarch of Yu Country cut off the communication immediately and continued contacting the next Primal Chaos Realm.

...

"I plan to reclaim the Tianshui Primal Chaos Prefecture under your name. I can compensate you with three hundred billion Cosmic Sand and a large city in the hinterland of Yu Kingdom all at once, are you willing?" the Monarch of Yu Kingdom contacted the Marquis Tianshui, "Of course, you can choose to leave Yu Kingdom, and then these compensations will be forfeited."

The prerequisite for a Primal Chaos Overlord to have a fief was to serve Yu Kingdom forever.

Once one left Yu Kingdom, they automatically lost ownership of the fief.

"I am naturally willing to serve Yu Kingdom. I am willing to exchange the fief for three hundred billion Cosmic Sand and a large city," the Marquis Tianshui said. Although leaving Yu Kingdom granted freedom and significantly reduced danger, it would also mean the loss of these resources.

"Good," the Monarch of Yu Country said, and immediately contacted the next Primal Chaos Realm.

Three hundred billion Cosmic Sand seemed like a lot, but the output of a Primal Chaos Prefecture was very high every era, with residence fees and a plethora of rare natural treasures yielding billions of Cosmic Sand every era.

A Primal Chaos Overlord usually had a vast clan to care for, so they were at least awarded a large city. Otherwise, it would be difficult to sustain the clan.

"Now that the Shi Kingdom has invaded on all fronts, at least I should first exchange for a huge amount of resources," Tianshui Marquis contemplated, "A large city in the future will barely provide for the clan and subordinates. I'm afraid I won't get a bit for myself. These three hundred billion Cosmic Sand... will be all I have for my long years of cultivation."

"If I decide to leave Yu Kingdom in the future, half of this three hundred billion Cosmic Sand according to the rules, must be returned."

The Tianshui Marquis weighed his options.

Not every Marquis had a complete Primal Chaos Prefecture as a fief; they could also choose some resources and a large city.

Joining a kingdom had its benefits.

Leaving also had its costs.

******

In the dire situation, the Monarch of Yu Country very smoothly reclaimed the ten Primal Chaos Prefectures. Except for the Marquis of Jiu Jiang, who was exchanged for a larger and richer Primal Chaos Prefecture in the hinterlands of Yu Kingdom, the other Marquises only had the option to exchange for 'three hundred billion Cosmic Sand plus a large city,' or to leave.

Of the other nine Marquises, six chose to exchange resources, and three chose to leave.

The territories of those two Primal Chaos Realm lords had been

completely occupied by Shi Kingdom, and they were forced to relocate their entire families away—they weren't optimistic about the future of Yu Kingdom and chose to seize the opportunity to sever ties completely.

As for resources? Joining another country would yield resources just the same.

"Let's go. Shi Kingdom is clearly more dominant, and Emperor Tian Kun has more friends. Even if we withstand this time, Yu Kingdom is still destined to decline in the future."

"These 300 billion grains of Cosmic Sand aren't so easy to take! It's a fight to the death, and if you want to back out later, you have to return half... better to choose a safer place."

The three Primal Chaos Realm lords, along with their families, henceforth parted ways with Yu Kingdom.

The Monarch of Yu Country naturally wouldn't obstruct their departure; after all, the conditions for withdrawing from the alliance had been made crystal-clear when recruiting Primal Chaos Realm lords. Godly Kings would not easily break such public commitments.

Luo He, the younger brother, all ten Primal Chaos Prefectures have been reclaimed; you may take action now," the Monarch of Yu Country communicated through causality.

"That was quick." Atop a tower of the Huyang City Lord's Mansion, the cross-legged Luo Feng opened his eyes, "From here on out, leave it to me."

...

Shi Kingdom was advancing comprehensively along the border between the two nations.

Fu Zhen Primal Chaos Prefecture, Fu Zhen City.

"Boom boom boom～～～" The colossal army of eternal true gods had arrived above Fu Zhen City, their formidable presence filling countless creatures within the city with terror and unease.

There stood three terrifying figures outside the city.

One figure, towering like a mountain, was even larger than the 'Fu Zhen City' itself, his breath creating fearsome storms. Merely the sight of such a massive being sent a chill down the spines of all creatures within the city.

Another figure was slightly smaller, but still tall enough to rival the city walls of Fu Zhen City, surrounded by thunder and lightning.

The last figure was the smallest, but the fiery red light he emitted covered the entire sky, making his presence the most terrifying.

"Marquis Fu Zhen, do you really think you can stop our grand army all by yourself?" The mountainous figure laughed heartily, his laughter shaking the entirety of Fu Zhen City and leaving the city's defending army devoid of any will to fight.

On one hand, the opposing allied army was enormous, and on the other, those three Primal Chaos Realm beings were ready to strike at any moment.

"Marquis Fu Zhen, if you have the guts, take action."

"Haha, we've been killing our way here, and you people from Yu Kingdom just keep retreating. It's so boring."

The voices of Shi Kingdom's three Primal Chaos Realm lords echoed between heaven and earth.

Within the Marquis Mansion.

The grey-robed Marquis Fu Zhen, looking at this scene, felt both anger and powerlessness. His 'Fu Zhen Primal Chaos Prefecture' wasn't among the ten Primal Chaos Prefectures selected by Luo Feng, and even now, he was still reluctant to abandon the territory he had long called home.

"The Monarch hasn't commanded, and the four Godly Kings remain silent," Marquis Fu Zhen sighed internally, "Oh well, it can't be stopped."

Suddenly—

Hum!!!

An invisible Power of the World spread everywhere.

"What's this?" Marquis Fu Zhen was shocked.

"Who is this?" Even the three Primal Chaos Realm beings from Shi Kingdom changed color, as the world's power that enveloped everything was unhidden, overbearing, and terrifying, and even the weakest creatures could feel this power oppressing everything around them.

The whole world darkened.

At this moment, not only Fu Zhen City but an expanse billions of times vast was shrouded in it.

Shi Kingdom's invasion included a total of twelve Primal Chaos Prefectures, all enveloped by Luo Feng's Power of the World! The straight-line distance between these twelve Primal Chaos Prefectures was quite far, beyond the reach of Luo Feng's World Life Form True Body.

But Luo Feng had dispatched two Avatars.

Each Avatar, even with only one-thousandth of the energy reserve, far surpassed the might of a Primal Chaos Realm being. The Avatar's Inner World was exceedingly rich in life potency, naturally leading to the formation of an Inner World, and the scope of their World Reflection could cover up to eight Primal Chaos Prefectures.

A World Life Form, one True Body, two Avatars.

World Reflection was enough to cover all the invaded lands.

"Hum—"

All of Shi Kingdom's invading army, including the thirty-five Primal Chaos Realm beings participating, were completely enveloped by the Power of the World.

"What is that?" Countless creatures looked up as they saw the sky suddenly turn into primal chaos.

"This..."

Only the Primal Chaos Realm beings could see clearly; it was an immensely huge face.

Continue reading stories on empire

The face was so massive, it surpassed what eternal true gods could see, and only Primal Chaos Realm beings could discern the true features of this enormous face.

It was the face of Luo Feng!

Luo Feng looked down upon the twelve Primal Chaos Prefectures, and his face was so large that even regions beyond the twelve Prefectures, such as within Shi Kingdom’s own territories with Primal Chaos Realm beings, could see this gigantic face.

The mere sight chilled these Primal Chaos Realm beings to the bone!

"I am Luo He."

The giant face enveloping the sky above the twelve Primal Chaos Prefectures began to speak, its voice indifferent, "I am here at the invitation of the Monarch of Yu Country to deal with the matter of Shi Kingdom’s invasion into Yu Kingdom."

The voice, grand and resounding, reverberated through the heavens and the earth of the twelve Primal Chaos Prefectures.

"This, this..." All of Shi Kingdom’s invading forces, along with their Primal Chaos Realm beings, looked on with dread at this scene, feeling that at this moment, this Luo He Godly King was the sovereign over the twelve Primal Chaos Prefectures!

"Boom boom boom—" The Power of the World churned fiercely as if the heavens and earth were in wrath.

All the invading armies and Primal Chaos Realm beings were swept

up by the Power of the World, forcibly expelled from the large cities and tumbled into the wilderness beyond.

"Little ones invading from Shi Kingdom, I give you one day to flee Yu Kingdom. If you haven't left in one day, then you'll never need to leave," the giant face of Luo He looked down upon the weak and said indifferently.

**

Thank you to the new Alliance Hierarch 'Song Chuyu' and 'King of the Station' for their rewards, as well as 'Old K' for his continued support.

Chapter 198 - 33 The Continent Watches

The troops of Shi Kingdom, under the compulsion of the Power of the World, had previously fallen into the wilderness in utter panic, devoid of any resistance. But when they heard Luo Feng's voice between heaven and earth, they breathed a sigh of relief.

"This terrifying existence 'Luo He' is indeed most merciful and didn't vent his anger on us eternal true gods."

"If he had been more ruthless, perhaps a single thought might have annihilated us all."

The eternal true gods of the Shi Kingdom's troops were rather grateful.

"Godly King Luo He is truly merciful."

"He didn't involve us."

The many cultivators at the Primal Chaos Realm of Shi Kingdom also experienced a bout of terror; although they all had some resurrection carriers, the complete annihilation of their True Bodies and the loss of treasures would still be heartbreaking.

Under normal circumstances, a Godly King would not bully the weaker. But during a war between two countries, the methods of a Godly King would be much more merciless and cruel. Some Godly Kings would carry out indiscriminate slaughter. For example, during their conquest of enemy countries, the Emperor of Tian Kun from Shi Kingdom would completely flatten the enemy king's territories, leaving no creature alive in the royal capitals. Others used the wars as an excuse to vent and devour numerous cities.

Still others, like the Ancestral God of the Snow Realm, would often instigate massive crimes even in times of peace.

Therefore, for these weaker ones, during a war between two countries, Luo Feng did not take his wrath out on the weak... He was definitely one of the most merciful among the Godly Kings.

"Godly King Luo He has given us one day to leave quickly."

"The war has escalated now; it's beyond our ability to intervene."

One by one, the cultivators at the Primal Chaos Realm took initiative to withdraw their troops and quickly made their way.

With just the troops, escaping from the boundaries of Yu Kingdom in one day would indeed be difficult. But with a Primal Chaos Realm cultivator leading the escape, the speed was much faster.

...

Luo Feng's Power of the World enveloped twelve Primal Chaos Prefectures, creating a huge commotion that was noticed by all the powerful beings of the Land of Origin.

"Has Luo He, who has just become a Godly King, managed to control the range of twelve Primal Chaos Prefectures?" Noted the Godly Kings of Flame Wind Ancient Country, and even a few Emperors were paying attention.

"Considering the scope of his Power of the World, it's undoubtedly reached the invincible level of the First Realm of a Godly King."

"Without any external help, reaching the invincible status in the First Realm of a Godly King is indeed possible for a few in the current era. But to achieve this step right after becoming a Godly King... in the history of the Land of Origin, Luo He should be the third one!"

"The first one was Earth God King, the second was Emperor Qing, and now the third is Luo He."

Although Earth God King is at the Second Realm of Godly King, he is capable of fighting beyond his level with Emperors and Monarchs,

even surviving being surrounded and attacked by multiple Monarchs of Thunder Ancient Country and still remains unconstrained to this day.

No need to mention Emperor Qing.

"The potential of Luo He is terrifying."

The Godly Kings of Flame Wind Ancient Country, who mostly haven't cultivated the Primordial Bloodline, are still very clear-headed and rational, knowing that it's better to form an alliance with Luo He rather than making an enemy of him.

...

"Another powerful loner cultivator has emerged?" sensed the Godly Kings of Thunder Ancient Country, noting the situation in Yu Kingdom from afar.

"The Ancestral Gods are too merciful. If the two Ancestral Gods had joined forces, they could completely monopolize all the resources of the Land of Origin. These loner cultivators wouldn't even have the chance to grow."

"If Luo He were part of the Imperial Clan, he might have the potential to reach the Ultimate Realm. But as a loner cultivator... he's probably just another Earth God King at best."

The Godly Kings of Thunder Ancient Country chatted casually, not really concerned.

In terms of peak-level combat power, the two great Imperial Clans hold an absolute advantage. Luo Feng's talent and potential at most make the Godly Kings of Thunder Ancient Country take notice. On the Land of Origin… there are not many powerful beings that can attract their attention, but Luo Feng is now one of them.

...

"Last time I invited him to enter my Two Realms Palace, he didn't accept. No rush, he will feel the pressure of the two great Imperial Clans." In a regular city tavern, a man drinking smiled as he looked in

the direction of Yu Kingdom, his aura completely ordinary, such that even Emperors and Monarchs would not notice anything special about him.

...

Shadow Sky Realm.

Sitting cross-legged inside a pavilion, a figure with long hair, whose power permeated the outside world, also sensed the overwhelming Power of the World covering twelve Primal Chaos Prefectures in Yu Kingdom.

"Luo He is gradually revealing his brilliance," murmured the long-haired figure.

Luo Feng had once killed an envoy of the Shadow Sky Realm, and rather than being angry, the lord of the Shadow Sky Realm was pleased.

"To possess the strength of the invincible First Realm of a Godly King right after achieving godhood."

"Even I, when I first became a Godly King, took over a thousand eras to reach the invincible strength of the First Realm of a Godly King without external help. Luo He's talent is truly terrifying."

"The more terrifying, the better. The powerful among us loner cultivators are still too weak," looked the long-haired figure towards Luo He, "Luo He is still very weak, currently only at the threshold of an Overlord level."

He was pleased with Luo Feng's growth, yet he knew that Luo Feng was not yet at a level to interfere in their conflicts.

Being invincible in the First Realm of a Godly King signifies one as an overlord of the Land of Origin, yet this is just the baseline for overlords.

Like the Emperor of Tian Kun who is in the Second Realm of a Godly King and also cultivates the Primordial Bloodline, he is a proper overlord of one side, far more intimidating than Luo He.

******

Shi Kingdom's capital, inside the royal palace.

"Luo He actually dares to intervene in a war between two nations?" Wuxiang, the old ancestor, was furiously shocked as he gazed into the distance towards the horizon.

Luo Feng's massive face covered more than ten Primal Chaos Prefectures. Even from within the Shi Kingdom's capital, he could still be seen clearly, thanks to the strength of a Godly King.

The four Godly Kings gazed from afar, shocked and pressured. The power that enveloped more than a dozen Primal Chaos Prefectures already proved one point... Luo Feng's strength had indeed reached the Overlord level.

"Big brother, he has driven out our dispatched Shi Kingdom troops." Wuxiang, the old ancestor, urgently asked, "How should we respond? If we endure this, I'm afraid it would become a joke throughout the Land of Origin."

Sitting there, the Emperor of Tian Kun looked at the vast face in the sky and indifferently said, "Endure? This plan was devised by myself and some friends. Luo He alone cannot stop it."

The four Godly Kings all breathed a sigh of relief upon hearing this.

"Big brother, what should we do next?" the Demon Blade Godly King asked.

"He is Emperor Qing's direct disciple; we still have to give him some face," the Emperor of Tian Kun calmly said. "Skull Peak, you excel in the clone technique; send an avatar to meet Luo He! Tell Luo He to retreat quickly, and I can pretend nothing happened. If he continues to interfere with this matter, hinder us... I will make sure he pays a severe price and deeply regrets it!"

"Yes," the Skull Peak Godly King responded.

Among all five Godly Kings of Shi Kingdom, only Skull Peak Godly King excelled in the clone technique. Exactly because of the clone

technique, he had been invited by the Emperor of Tian Kun to join them, as many matters suited the Skull Peak Godly King to handle.

"This war, is it the will of the Monarch and several Godly Kings at the Second Realm that should be informed to Luo He?" Skull Peak Godly King asked.

"Inform him," the Emperor of Tian Kun indifferently said. "To prevent him from acting foolishly."

"Yes," the confidence of Skull Peak Godly King grew even stronger.

...

The face of Luo Feng that enveloped more than ten Primal Chaos Prefectures, gazed towards the direction of the Shi Kingdom's capital.

The noise he made with his intervention made various forces across the Land of Origin take notice; the Godly Kings of Shi Kingdom were definitely aware of it.

"Here it comes." Luo Feng sensed an apparition appearing in the wilderness, a golden skeletal figure that looked at Luo Feng with a smile.

"Skull Peak Godly King?" Luo Feng recognized the other party.

Skull Peak Godly King also practiced the Great Dao of Life Origin, but his strength was far less than that of the Ancestral God of the Snow Realm, let alone Luo Feng. Yet, he could still condense many skeletal avatars.

The Great Dao of Life Origin was just like that; although inferior in combat, it was much stronger in terms of survival.

"Luo He, Godly King," Skull Peak Godly King stood before Luo Feng, still very humble, and smilingly said, "I do not know what promise the Monarch of Yu Country has given you, but I must clarify that the original intent of this war between two nations is not to annihilate Yu Kingdom. Behind this war is the decision of my monarch, the Emperor of Tian Kun, and several Godly Kings at the Second Realm."

"If you obstruct, you would offend not just my monarch but also several others of the same level," Skull Peak Godly King said. "I have come here also hoping that Luo He, Godly King, can understand the key point and withdraw early. My monarch will not pursue it further. Luo He, Godly King, and our Shi Kingdom can still be friends."

"Not pursue it further?" Luo Feng said, "The Emperor of Tian Kun is indeed quite magnanimous."

"My monarch loves to make friends and likes to make friends with someone like Luo He, Godly King," Skull Peak Godly King said.

"Unfortunately, the Monarch of Yushui is my good friend," Luo Feng, looking down from above, leisurely said. "I have already promised the Monarch of Yushui, and naturally, I won't break my word, betray a good friend!"

Upon hearing this, Skull Peak Godly King felt uneasy.

"This time, the entire Shi Kingdom troops will withdraw, and I can represent Yu Kingdom in not pursuing this invasion," Luo Feng looked down, "thus resolving this war."

"You won't pursue it?" Skull Peak Godly King couldn't help saying, "Didn't Luo He, Godly King, understand? This is a joint decision made by my monarch and several friends; are you sure you truly want to block it?"

"I have promised the Monarch of Yushui; I must see it through," Luo Feng said, looking down.

"Go back and tell the Emperor of Tian Kun, Yu Kingdom, I have secured it! Don't force me to act!"

"Luo He, Godly King, I am kindly reminding you, yet you still refuse to repent," Skull Peak Godly King warned. "I can tell you, if you persist alone, you will pay a heavy price. Then, you will deeply regret it."

"You also tell the Emperor of Tian Kun, the moment he acts, he will also have to pay a severe price!" Luo Feng coldly said. Explore stories on empire

"Very well," Skull Peak Godly King said.

"There's no need for this avatar to leave."

Luo Feng gave him a cold look.

The terrifying Power of the World instantly converged, focusing on this avatar of Skull Peak Godly King, instantly crushing it to dust.

Crushing a Godly King's avatar... represented Luo Feng's attitude!

...

Far in the Shi Kingdom's capital, the Emperor of Tian Kun, who had been closely watching the whole negotiation process, felt his face grow utterly cold as Luo Feng crushed that avatar of Skull Peak Godly King.

"In the First Realm of Godly King, almost reaching the threshold of a region's Overlord, yet daring to be so arrogant," the Emperor of Tian Kun stood up as the earth seemed to tremble, "I will let him know what price he has to pay for ignoring my goodwill and still choosing to offend me!"

Boom!

The Emperor of Tian Kun instantly disappeared.

Chapter 199 Overlord Level Confrontation

Luo Feng's Power of the World enveloped a total of twelve Primal Chaos Prefectures. When the 'Emperor of Tian Kun's' body intended to enter this range, Luo Feng naturally detected it and instinctively repelled and squeezed the other.

"Buzz~~~" The dense Power of the World compressed against the Emperor of Tian Kun, forcing him to reveal his form.

An incredibly vast body appeared between heaven and earth.

It had a pair of wings, each of unimaginable size, and a mouth as big as one-third of its body size! Blood-red eyes filled with murderous intent, a thick scale-armored tail stretched across heaven and earth.

When its wings were spread, they were three hundred trillion kilometers in length! The thickness of its body alone was fifty to sixty trillion kilometers.

This was already its smallest possible size, for if it grew any bigger, even the heavens and earth would seem too small.

"Primordial Bloodline," Luo Feng observed this scene.

The potential of the Primordial Bloodline was extremely high, even capable of escaping from the Braided Cage World.

As a Second Realm Godly King, the Emperor of Tian Kun had deeply tapped into the potential of the Primordial Bloodline. This immense bodily prowess...although not comparable to the Emperors and Monarchs, already had a similar essence.

Sigh.

The giant face enveloping twelve Primal Chaos Prefectures vanished, and a figure in silver stood in front of that colossal creature.

"Luo He, some actions come with a price," the colossal creature spoke, its voice causing the vast boundless heaven and earth to tremble.

"Let's see what you can do, whether it's me who pays the price, or you," Luo Feng calmly observed him. He admitted that the true body of the Emperor of Tian Kun was more domineering and strong than his World Life Form.

While they conversed, several ancient beings from afar were already watching the battle.

Powerful beings, from within their cave mansions, could watch from afar.

The weaker ones moved closer to the borders of Shi Kingdom and Yu Country.

"A confrontation between two Overlords," the Godly King from Bolu also arrived at Yu Country to get a clearer view of the battle, "Luo He is still too confident. After all, he has only reached the threshold of the Overlord level. The Emperor of Tian Kun, on the other hand, has deep accumulations... This battle, Luo He might suffer a significant defeat!"

"Luo Feng!" the Mountain Sitting Guest had also arrived from Thunder Ancient Country to the border of Shi Kingdom and Yu Country, watching from a distance.

His power was somewhat weaker.

In Thunder Ancient Country, he did not perceive Luo Feng's Power of the World covering twelve Primal Chaos Prefectures, but he kept up with the news about Luo Feng, so he was also aware of Luo Feng's fallout with Shi Kingdom.

"Becoming a Godly King and acting hastily, why so rushed?" the Mountain Sitting Guest thought, "After all, the Emperor of Tian Kun is at the Second Realm of a Godly King. Luo Feng, if you broke

through to the Second Realm, there would be no hurry to act."

The Mountain Sitting Guest was very patient; he had waited such a long, long time, even thousands of years more wouldn't matter to him.

"Luo Feng might suffer a bit, but there's no danger to his life," the Mountain Sitting Guest reassured himself, intently watching the battle.

The two Ancient Countries and many ancient existences were all focused on this battle.

After all, there were only so many Overlords in the whole Land of Origin, and a fight between two Overlords was indeed rare.

...

"Hahaha, you really are confident."

The huge body of the Emperor of Tian Kun spoke, then it opened its gigantic mouth! This mouth made up one-third of its body size; inside were dense, crisscrossing sharp teeth, followed by a terrifying roar!

Roar!!!

Black winds flew out of that gigantic mouth, instantly sweeping through heaven and earth. Hidden within those black winds were traces of grey currents, which even slightly startled Luo Feng.

"Is this the 'Annihilation Wind' of the Emperor of Tian Kun?" Luo Feng had already collected detailed intelligence on the Emperor of Tian Kun and knew that once this Annihilation Wind was unleashed, it would destroy heavens and obliterate the earth, posing a great threat even to beings in the Second Realm of Godly King.

"I shall see."

Luo Feng's figure instantly enlarged, his feet planted on the ground, his head nearly touching the starry sky.

Dressed in silver, Luo Feng stood still, the silver robe over his body

naturally spread out, transforming into a silver canopy, actively intercepting the terrifying black wind.

"Hiss~~~" The Annihilation Wind, derived by the Emperor of Tian Kun from his mastery of the Origin Dao of Matter channeled through his Primordial Bloodline, had a corrosive and destructive nature. The moment it touched the silver canopy, though the canopy was resilient and filled with endless vitality, it still ended up with large holes eroded through it.

Huff, huff!

The Annihilation Wind, eroding and shattering the silver canopy, continued blowing towards Luo Feng.

"Whoosh whoosh whoosh~~~" Although the silver robe was eroded, it naturally regenerated from nothingness, intercepting again and again, only to be blown into nonexistence repeatedly.

From the looks of it, the Annihilation Wind appeared more dominant.

Yet, the silver robe spread out, filled with endless vitality, and was able to regenerate again and again. Besides, Luo Feng himself continually provided energy, resisting the Annihilation Wind.

Finally—

Luo Feng's robe, now perforated throughout, saw the Annihilation Wind finally exhausted.

"Hm? Just a robe blocked my Annihilation Wind?" the Emperor of Tian Kun, who made his first move, realized that his opponent was tough, "His physical body and robe, both crafted from secret techniques. Extremely tough, and the vitality is exceedingly rich."

The characteristic of practitioners of the Great Dao of Life Origin is that they are very hard to completely annihilate. It seems as though they are destroyed, yet they can recover from nothingness.

'Emperor Chu', a destroyer of Ultimate Realm life forms, believed it would take two to three attacks to completely eliminate Luo Feng's avatar. It shows the tenacity of his vitality.

"Luo He, I just blew a breath, and your robe is already tattered," the Emperor of Tian Kun's voice echoed through heaven and earth."

Luo Feng's tattered robe naturally repaired itself, returning to its pristine condition.

"The Annihilation Wind of the Emperor of Tian Kun is indeed quite powerful," Luo Feng praised, "I wonder, do you have even more formidable moves? Let me test them?"

"Then I shall satisfy you!" the Emperor of Tian Kun's blood-red eyes grew fiercer, and on his massive forehead a dazzling golden light suddenly gathered, shocking all onlookers the moment the light condensed.

"The Great Extinction Golden Light!"

"The killing move of the Emperor of Tian Kun!"

Being a greatly seasoned Second Realm Godly King, the moves of the Emperor of Tian Kun were well known to the outside world; the 'Annihilation Wind' was just a common technique, but the 'Great Extinction Golden Light' was the true killing move, one that even posed a threat to Emperors and Monarchs.

"The Emperor of Tian Kun is going all out from the start," observed the Mountain Sitting Guest with some unease.

"This Great Extinction Golden Light, harnessing the might of the Primordial Bloodline, wreaks terrible destruction upon 'matter', enough to command respect from an Emperor level," the Divine Power Incarnation of the Emperor of Yushui also watched nervously.

Luo He was acting on his behalf this time.

...

Discover hidden stories at empire

The reputation of the Great Extinction Golden Light was well established.

The moment the golden light emitted from the forehead of the Emperor of Tian Kun, Luo Feng was too late to block and was instantly affected.

"Pu."

The golden light struck Luo Feng's chest in an instant.

"Hum—" Luo Feng only felt his body rumble, the golden light merging instantly into his body, wantonly and wildly destroying everything! The fundamental structure of his 'World Life Form was constantly being annihilated.

Although it was being annihilated, it was also struggling to recover.

But the destructiveness was too terrible, and it soon completely annihilated the vitality of the fundamental matter.

"Hiss Hiss Hiss!!!"

The majestic, towering, silver-clad figure of Luo Feng showed countless golden patterns emerging on its surface, eroding and annihilating his body even as he continued to regenerate it.

"My Great Extinction Golden Light, formed from the concentration of Primordial Bloodline, clearly has the upper hand! But his body is like a world, containing too vast an energy," the Emperor of Tian Kun realized the tenacity of Luo He.

Godly Kings could easily reach heights equal to heaven and earth.

So from the surface, it was difficult to clearly judge just how vast the energy reserves in this avatar of Luo Feng were.

Emperor Chu, as a life form that had reached the Ultimate Realm, had much sharper senses. The senses of the Emperor of Tian Kun were much inferior, only able to judge accurately through combat.

"One Great Extinction Golden Light can only destroy about one percent of his body," the Emperor of Tian Kun felt a chill in his heart, "but I can at most emit ten Great Extinction Golden Lights if I exhaust myself."

Although he still had several killing moves, the Emperor of Tian Kun could deduce that he was unable to annihilate this body.

"Those who cultivate the Great Dao of Life Origin, though their life force is tenacious, typically evade and use avatars to preserve their lives in my presence. Few dare to resist my moves head-on." The Emperor of Tian Kun reflected, "But this Luo He dares to resist my moves."

"I can feel that his physical body, apart from containing many mysteries of the Great Dao of Life, also contains the mysteries of the Origin Dao of Matter, making it so tough and difficult to annihilate." The Emperor of Tian Kun, being a practitioner of the Origin Dao of Matter himself, could even more certainly recognize this.

"Emperor of Tian Kun, do you have even more powerful moves?" Luo Feng, in his towering silver attire with its numerous golden patterns still eroding him, bore it calmly and fearlessly.

"This Luo He is merely relying on having a sufficiently massive life form to withstand the attack," the Emperor of Tian Kun also had experience dealing with such massive life forms.

The larger the life form, the greater the strain on the soul and spiritual will.

Being barely able to manipulate it was already good; it simply couldn't employ subtle techniques.

"Luo He."

The Emperor of Tian Kun looked at Luo Feng, "This clumsy body is what you rely on? I will now flatten your Huyang City and I want to see if you can stop me."

Whoosh!

The Emperor of Tian Kun moved, appearing enormously vast yet astonishingly fast, traveling between heaven and earth, heading straight for Huyang City.

He intended to exploit his advantage in the finesse of his moves,

making Luo Feng pay the price.

"Flatten Huyang City?"

Luo Feng's face turned cold.

Whoosh.

With a step, Luo Feng merged into the world and instantly appeared right in front of the Emperor of Tian Kun.

"Cut!" Luo Feng raised his right hand high, despite the golden light eroding his body. Power converged in his right hand, a terrifying aura of life and death gathering in his palm.

Using his hand as a blade.

Slash!

Luo Feng's right hand chopped down, the vast power contained within the World Life Form fully concentrated within this blade light, which, while highly concentrated, also embodied the eerie essence of cutting off all vitality.

"This—" The Emperor of Tian Kun had not expected that Luo He, even in such a massive life form, could still execute such a subtle technique.

He didn't know that, managing to wield one-thousandth of the energy reserves in an avatar, Luo Feng could perform his most intricate techniques. If the avatar managed even more, growing larger, the techniques he could use would only become cruder.

Were he to deploy the true body of the World Life Form, every movement would be incredibly cumbersome.

But at this moment, the technique Luo Feng was using was one of his killing moves that merged life and death, 'Life-cutting.' The blade light traveled in darkness, seemingly nonexistent in reality, and in an instant had already cleaved deep into the body of the Emperor of Tian Kun, slicing in silently.

Luo Feng stood at a distance, the golden lines on his body slowly fading, the Great Extinction Golden Light gradually exhausting itself.

"Emperor of Tian Kun, how was that move?" Luo Feng looked at the other.

Chapter 200 The Emperor of Tian Kun is Truly Formidable

Emperor Tian Kun's massive body had a wound appear, with the scale armor around it turning gray and lifeless. Soon, this scale armor and flesh turned to ashes and vanished.

However, for the enormous body of Emperor Tian Kun, the loss of this bit of flesh and scale armor was negligible. In the blink of an eye, new flesh and scales grew back.

"How is this possible?" Emperor Tian Kun could hardly believe it. "His body is like a world, even more vibrant than mine! I am in the Second Realm of Godly King, and I need to cultivate the Primordial Bloodline to manipulate such a physical body! Moreover, I have to suffer from the contamination of the bloodline will... yet he uses no external force, manipulates such a body, and can execute intricate maneuvers? How does he achieve that?"

If a massively built body had clumsy moves, its threat would be too low.

Emperor Tian Kun could toy with it at will.

His moves, Luo Feng didn't even have time to stop.

Luo Feng's clumsy maneuvers, he could easily stop them all!

He would have the absolute initiative!

But now, Luo Feng could even effortlessly blend into the heavens and earth, teleporting and appearing everywhere nearby! With such swift attacks, Emperor Tian Kun couldn't intercept them in time.

"This isn't a maneuver of the Great Dao of Life Origin. The moves of

the Great Dao of Life Origin aren't so devious and unpredictable. Nor from the Origin Dao of Matter." Emperor Tian Kun looked at Luo Feng. "He has also mastered a third great dao."

That blade light just now moved through the darkness, as if it didn't exist in reality. By the time it struck, he had already been hit.

The speed of this move was utterly unblockable.

"Is it somewhat like the path of causality? Or destruction? Or something else?" Emperor Tian Kun had many doubts, but he couldn't be sure of anything. However, he did understand one thing... Luo He was much more troublesome than anticipated!

…

"How is this possible?"

"To manipulate such a massive physical body without external aid and still execute such exquisite maneuvers?"

A number of ancient beings with profound strength on the Land of Origin found it incredible.

This defied common sense.

Of course, theoretically, it was possible.

"Could it be that his Spiritual Will has surpassed the Ultimate Realm of Godly King? To manipulate such a body, and still do it with ease?"

"Or does he also cultivate the "Soul Path"? Is his soul incredibly powerful?"

"Is he a reincarnated old fellow whose realm far exceeds the First Realm of Godly King, making such maneuvers easy for him?"

Various speculations came to mind.

These were all possibilities; the Land of Origin had hidden dragons and crouching tigers over the long years, and it wasn't the first time some incredibly astonishing new Godly King, after enough strength

was accumulated, or after their signature moves were exposed, was confirmed to be an old fellow reincarnated.

…

"I've been watching Luo Feng grow up, and his small universe is unprecedented in the history of the Land of Origin. There hasn't been an old fellow who's reached this level," said Mountain Sitting Guest, who was watching nervously, now excited. "Luo Feng, he's reached this point on his own strength."

"He has been on the Land of Origin for just over a century."

Mountain Sitting Guest was well aware of how stunning his disciple was.

A hundred-plus eras were enough to confront the overlords of the Land of Origin.

Given another thousand eras, wouldn't he be confronting emperors and monarchs?

…

"Wonderful, wonderful, wonderful," said Po Lu Godly King in amazement, "Being invincible in the First Realm of Godly King myself, I wouldn't dare confront Emperor Tian Kun head-on like that! First Realm of Godly King... to be so powerful?"

Po Lu Godly King, also aware of Special Grade Inheritance, perfect inheritances,

understood theoretically that the First Realm of Godly King could be terrifyingly powerful, potentially even more fearsome than Luo Feng at present.

But on this Source World of the Land of Origin, Luo Feng's performance had already been very dazzling.

"After this battle, I must visit Brother Luo He," said Po Lu Godly King, who had initiated a relationship with Luo Feng back when he was in the Primal Chaos Realm. Now, naturally, he sought to deepen their

ties, "and I'll take Yun Ge with me."

******

The massive Emperor Tian Kun looked at Luo Feng and spoke, "Luo He, which old fellow's reincarnation are you?"

"I'm not anyone's reincarnation," Luo Feng looked back at him.

"Even if you were, you wouldn't dare admit it right? You reincarnated folks always carefully hide your identities, fearing it might attract enemies," Emperor Tian Kun sneered. "I really want to see, in front of me, how much you can still hide."

Many Godly Kings reincarnated, and often at critical moments, they used their signature moves from past lives, exposing their identities.

"Die!" With a massive flap of his wings, Emperor Tian Kun's huge wings tremored.

The pair of wings, flapping violently, made the skies seem to collapse.

Boom—

Within a vast range, all matter was obliterated, not just rocks and soil, but also plants and trees, even the energy of heaven and earth was annihilated, along with the Primal Chaos Current being destroyed and turned into the smallest particle streams.

This strike also enveloped Luo Feng's body, covering a wide range, making it difficult for Luo Feng to avoid, and forcing him to resist with all his might.

"Boom!!!" This endlessly terrifying force struck Luo Feng's body. Even though he resisted with his arms and tried to deflect the force, he still felt the overwhelming might spread through his body. As a World Life Form, he felt the shock, and cracks appeared in the world inside him.

"The 'Sky-reaching Wings' of Emperor Tian Kun," Luo Feng knew a few of Emperor Tian Kun's lethal moves.

If the 'Great Extinction Golden Light' is an energy-based move.n/ô/ vel/b//in dot c//om

'Sky-reaching Wings' is purely a power-based technique.

Luo Feng, with his towering stature as tall as heaven and earth, was also blasted backward by more than ten steps, each step stomping out trillions of kilometers in gigantic pits on the ground before he could barely stabilize himself.

"In terms of strength, this move of his is dozens of times stronger than mine, luckily my World Life Form has extremely strong life force," Luo Feng felt a sense of weakness while withstanding the blow, clearly countless basic life structures had been shattered, but they were restored in the blink of an eye.

"My body has the advantage in life force, but in terms of the explosive force, it's far less than that of the Emperor of Tian Kun," Luo Feng realized the gap between them.

"Boom—"

Suddenly, Luo Feng's face changed.

Pu!

A flash of arc light, Luo Feng was suddenly cut in half from the waist, severed into two parts.

"The lethal move 'Sky-breaking Tail'." Luo Feng had long known about this killer move and had been on guard against it, yet he still couldn't fend it off.

This move is the Emperor of Tian Kun's so-called 'Unbreakable' technique, in an instant, his gigantic scale-armored tail would burst forth, all the tremendous power of his entire massive body accumulating at the end of the tail, which then sweeps across the sky in an arc.

Simple as it sounds, this move entails techniques of the Origin Dao of Matter, and even twisted time, its execution was instantaneous as it swept across Luo Feng's body.

The tail was extremely sharp, cutting through Luo Feng's body with ease.

"Huh!"

The massive head that composed one-third of the Emperor of Tian Kun's body, only now suddenly opened its mouth, and at this moment Luo Feng felt as if the heavens and the earth had darkened, surrounded by a sea of blood-red folds.

"I'm trapped in the 'World's Stomach'." Half of Luo Feng's bisected body ended up in different stomachs.

The Emperor of Tian Kun's another deadly move 'World's Stomach' utilizes the mysteries of the Material Origin Dao in combination with the potential of the Primordial Bloodline Physical Body, creating several major bloodline techniques.

Once the World's Stomach is executed, it can swallow a vast expanse of the world into its stomach.

This Primordial Bloodline body possesses multiple stomachs, capable of eroding, destroying, and digesting.

"Change."

The two sections of Luo Feng's body, now in different stomachs, instantly transformed into two smaller versions of Luo Feng, each of considerably less strength.

"One-on-one, even though I can withstand some of his moves by relying on the World Life Form, once the real fight starts, I'd be swallowed in an instant," Luo Feng recognized the disparity in strength.

The surrounding blood-red folds, endless blood-red power eroding Luo Feng.

The two smaller Luos, their silver robes corroded with many holes, their bodies also began showing many wounds, with Luo Feng's face getting battered and shredded.

Many wounds were also being repaired.

Destruction, repair, continuously ongoing!

"Luo He, this body of yours won't think of escaping now." The Emperor of Tian Kun's voice resonated within the stomach.

"Emperor of Tian Kun, your World Stomach's eroding power is pretty mediocre; its speed can't catch up with my natural recovery rate," Luo Feng retorted mockingly, "Are you inviting me to reside permanently in your stomach?"

Indeed, the erosion's power lies in its relentless but its destructive ability is far less than other killer moves. During the erosion, every part of Luo Feng's body's energy, just like the Origin of Life, kept restoring itself.

"My World's Stomach is quite large, imprisoning you is very easy for me," the Emperor of Tian Kun declared.

"Well then, the energy of this avatar, I will gift it to you," the two smaller Luo Fengs said with a slight smile.

Boom! Boom!

Suddenly, countless Secret Patterns appeared on the surfaces of the two smaller Luo Fengs, their skin turning dark red, the very technique Luo Feng had mastered in merging life and death explosions - "Red Sky Burst!" Immediately following, they exploded violently, all their energy erupting in an instant!

After all, it was the energy reserve of 'one-thousandth' of a World Life Form's True Body, exploding with the "Red Sky Burst" technique, it violently impacted the Emperor of Tian Kun's stomach, blasting many holes in it.

"Pu."

Externally.

The enormous Emperor of Tian Kun had just swallowed Luo Feng's bisected body, soon, a violent energy reaction appeared at the

abdominal area, many cracks forming on the surface scales, this blow was the most severe damage Luo Feng had inflicted on the Emperor of Tian Kun thus far in their battle.

"Can't swallow him anymore in the future," the Emperor of Tian Kun, suffered this blow, feeling quite uncomfortable.

"To cultivate such a powerful physical body is not easy, to give it up just like that?" The Emperor of Tian Kun was somewhat surprised, thinking Luo Feng's body must be carrying some Secret Treasures.

Even without Secret Treasures, just to accumulate so much energy to cultivate such a strong body is not an easy task.

"Emperor of Tian Kun."

A voice echoed through heaven and earth.

The blood-colored eyes of the Emperor of Tian Kun also narrowed, he looked towards the direction of Huyang City from afar. At this moment, Huyang City had already seen the appearance of ten figures soaring through the sky.

Ten silver-robed Luo Fengs, each one's presence no less than before.

"The Emperor of Tian Kun is really formidable, one avatar is not his match, only ten avatars together is my last resort," the ten Luo Fengs looked toward the Emperor of Tian Kun.

Discover hidden content at empire

The scene before him chilled the Emperor of Tian Kun's heart.

It also shocked the various beings currently watching the battle; even those firmly on Luo Feng's side, the Mountain Sitting Guest and the Emperor of Yu Shui, were stunned as they watched the ten figures appear above Huyang City.

—

Thanks to the new Alliance Hierarch 'Chu Hengqu' for the reward.

Chapter 201 Season 4 Episode 36 The Cost

"Luo He can actually control ten powerful avatars?" The Lord of Yushui was not surprised by the presence of other avatars, as the outside world had known since the Primal Chaos Realm that Luo Feng possessed the Clone Technique.

But in the recent battle, it was evident to everyone just how strong one of Luo Feng's avatars was. Luo Feng, at the First Realm of Godly King, could fight beyond his level precisely because of his mighty physical body.

To control such a powerful physical body is difficult for even one avatar! Ordinary practitioners can only carry out clumsy moves, yet Luo Feng has to control ten?

"Is Luo He's strength really approaching mine?" The Lord of Yushui could hardly believe it.

"Luo Feng is only at the First Realm of Godly King!" exclaimed the Mountain sitting guest, watching the scene in shock, "Could he really rival a Godly King of the Second Realm with such deep accumulation?"

"Controlling ten avatars at once is much more difficult than just one."

Various powers were watching from across the Land of Origin.

Strength is proven in battle!

Not intimidated into submission by hollow bluster!

"Hmph."

In the sky, the Emperor of Tian Kun with his enormous physique looked down at Luo Feng from afar, and said coldly, "I want to see just how much strength you can exert while controlling ten avatars at the same time."

"Come." Each of the ten silver-clad Luo Fengs was as tall as the heavens and earth, standing in front of Huyang City.

"Is this City Lord Luo?"

The guards at the gates of Huyang City, along with countless citizens within, looked up at the ten silver figures that matched the heavens and earth in height, feeling utterly astonished. Such terrifying beings could probably wipe out billions of creatures in a single breath.

"My lord's strength has already surpassed my own," thought an avatar of Morosa, standing atop the city owners mansion, gazing into the distance. "I was born from the Destruction Origin and am a Perfect Life Form. How could I be suppressed at the same level by my lord?"

Morosa's moves were all granted by the Great Dao of Destruction Origin, and his abilities were limited to the 'Destruction Origin Great Dao.'

Luo Feng himself had cultivated the paths of Life, Destruction, and the combined 'Life and Death,' and his 'Transformation Method' also gave him a grasp of some of the Origin Dao of Matter techniques. He had also exchanged several Special Grade Inheritances in the Infinite Space treasure land, thus drawing upon the wisdom of his predecessors.

This is the advantage of a Cultivator: the lower limit can be very low, but the upper limit is boundlessly high!

"I hope my lord brings back better food, so I can quickly reach the Second Realm of Godly King," Morosa thought, its advantage being that it could go straight to the Ultimate Realm of God King! The downside was that it was very weak in self-cultivation.

After all, it had been lying down for a lifetime! To suddenly expect autonomous cultivation was asking too much of the creature.

This was also why the two Ancient Countries valued the Lord of Ten Thousand Realms and looked down upon the Sector Beast of Tianmu Kingdom. The Lord of Ten Thousand Realms had comprehended a complete Origin Great Dao on his own and could go even further, potentially even beyond the Ultimate Realm of God King. As for the Sector Beast? The likelihood of it surpassing the Ultimate Realm of God King was negligible.

...

Parties from all directions were watching the battle.

The ten silver-clad Luo Fengs stared back at the Emperor of Tian Kun, equally filled with fighting spirit. He wasn't lying—this was indeed his strongest state.

Without using any weapons, his strongest state took two forms.

One was to control the True Body of a World Life Form, which could possess tremendous energy reserves and frightful recovery abilities. Each move was immensely powerful and terrifying. However, his moves were quite clumsy and easily exploited.

The second was to control ten avatars at the same time! Each avatar could exert seventy percent strength and could also execute relatively average Godly King Level moves, working together with Formation. This balance of power and exquisite moves was perfect, better suited for handling a variety of predicaments.

Of course, when controlling a World Life Form's True Body, with its robust energy, it is more appropriate to use weapons. If wielding the Bloodshadow Knife, the power could be further increased, and with the Star Tower, the strength would significantly improve.

The Star Tower, where Luo Feng's True Body had always been cultivating and studying diligently, felt its 'suppression, binding, heaviness, and fortitude' abilities had no upper limit. The stronger Luo Feng became, the more powerful the Star Tower could be utilized. Luo Feng himself hadn't even grasped why the Star Tower was so powerful; it was beyond what a Godly King Weapon could explain. Even in the First Realm of Godly King, Luo Feng dared not

use the Star Tower in the slightest.

"Boom!"

The ten silver-clad Luo Fengs moved at once, merging with heaven and earth, and appeared instantaneously around the Emperor of Tian Kun as if they had teleported.

"To control ten massive avatars and still execute such an Escape Technique?" The Emperor of Tian Kun's heart sank as his blood-red pupils grew more frenzied, and the mouth that took up a third of his body opened once more.

"Roar!!!"

This roar, like the wrath of heaven and earth, let out a Destroyer's bellow.

The range of the roar turned mountains into dust and shattered the earth, creating vast chasms. The roar impacted the ten distant silver-clad Luo Fengs, causing Luo Feng's robes to begin tearing. But Luo Feng remained calm, even turning his head to look into the distance.

Outside the wilderness, although creatures were scarce and widely spaced,

The roar of the Emperor of Tian Kun was so vast in reach that it could still affect a distant tribe. That was a tribe of thousands of creatures, who, in a state of terror, watched the roaring black ripples form, sweeping toward them like tidal waves of the world, bearing endless intent of destruction.

"Father."

Children cried out in fear, while True Gods looked on in despair.

Under the watchful gaze of Luo Feng, the Power of the World enveloped the whole tribe, transferring all of the tribe's buildings in one go, relocating them to a wilderness area closer to Huyang City.

"Distracted while fighting me?" the Emperor of Tian Kun bellowed in shock and anger. After the roar spread out, it returned to the battle

area and continued to propagate.

The Emperor of Tian Kun flapped his wings and lunged at one of Luo Feng's avatars.

The ten Luo Feng avatars took the initiative to encircle him.

"Boom!"

In one confrontation, one of Luo Feng's avatars reeled back several steps. However, the other nine avatars had already encircled and attacked their enemy.

"Slash!"

The tail of the Emperor of Tian Kun lashed out.

With a flash of light, it seemed as if the heavens and earth were split in two! Even though Luo Feng was prepared, one of his avatars was still severed in half. Yet another avatar, despite being severely injured, forcefully grabbed hold of the tail. The avatar that was cut in half healed instantly and returned to its original state.

"Die."

One avatar stubbornly clung to the tail, while the others continued to attack in succession.

"Roar, roar, roar!!!" The Emperor of Tian Kun roared furiously, with waves of sound reverberating. The sound waves he had earlier emitted were now returning, and the continuing waves added to the existing ones, creating a vast domain of sound.

Each of Luo Feng's avatars moved like ghosts, as if walking through darkness, and each was incredibly valiant, resisting the impact of the sound waves.

"Die." The Emperor of Tian Kun's wings trembled fiercely, and hundreds of golden swords flew out from the depths of his wings, piercing through many of Luo Feng's avatars with their extreme sharpness, leaving hole after hole.

But to Luo Feng's towering body, these holes were too small to be of any concern and healed in an instant.

"Life and Death Reincarnation!"

One of Luo Feng's avatars desperately clung to the Emperor of Tian Kun's tail, taking hits without releasing it, thereby restricting the most damaging move, 'Sky-breaking Tail'. The other nine avatars utilized the 'Life and Death Reincarnation' formation, furiously assaulting the Emperor of Tian Kun.

The Emperor of Tian Kun, with his immense size and still dragging Luo Feng's avatar, was still overwhelmingly mighty.

With constant roaring, the domain of sound waves continued to invade.

The hundred swords relentlessly inflicted serious injuries on Luo Feng again and again.

Wings spanning 300 million trillion kilometers beat at will, wreaking destruction on heaven and earth.

Occasionally, the top of his head would unleash the 'Great Extinction Golden Light'.

Yet Luo Feng's ten avatars, despite being covered in scars, continued to press the attack, bearing the injuries. Luo Feng's body was too robust, and even with the execution of Godly King level techniques, the combined effort of the multiple avatars managed to tear off chunks of flesh from the Emperor of Tian Kun.

Scale armor scattered! Flesh and blood flew everywhere, with numerous wounds. The Emperor of Tian Kun's injuries were also healing. Read new chapters at empire

"Are all ten of his avatars this tough to handle?" The Emperor of Tian Kun also felt discomfort, sensing that each of Luo Feng's avatars possessed the strength of an Overlord level, even more troublesome than some of the tough Overlords.

...

This scene silenced the onlookers from all sides.

The Emperor of Tian Kun and the ten avatars of Luo Feng both suffered severe injuries, fighting each other frenziedly. But they knew clearly... that they dared to do so because both sides had very strong physical bodies.

"The physical body of the Emperor of Tian Kun is famously formidable, yet Luo He dares to fight him head-on, without any fear?"

"At the First Realm of Godly King, he can be this powerful?"

In the area where the two sides fought, the domain of sound waves enveloped the scene, the Power of the World spread, and the aftershocks of the battle devastated everything.

Whoosh!

In the midst of darkness.

Suddenly, the Emperor of Tian Kun retreated, his massive wings shook, and in an instant, he disappeared from the spot, having escaped to a distance while dragging Luo Feng's avatar away, far from the other nine avatars of Luo Feng.

"Stop this." The Emperor of Tian Kun said in a low voice.

Luo Feng's one avatar also let go of the giant scale-armored tail! This tail was too powerful, but once grasped, its threat greatly diminished.

Whoosh!

Luo Feng's ten avatars moved near instantly, still surrounding the Emperor of Tian Kun, all the wounds on the ten Luo Fengs disappeared, and their robes were also restored as if new.

The Emperor of Tian Kun, also covered in wounds, healed, and his scale armor all regrew, appearing as if neither side had been injured at all.

"You say stop and we stop?" The ten Luo Fengs looked at him.

The Emperor of Tian Kun, looking at the ten Luo Fengs around him, said, "I acknowledge you have the strength to intervene in this matter, let our two nations cease fighting henceforth."

"You decide to wage war when you want, and cease it when you wish?" Luo Feng looked at him, "Previously, you wanted to level my Huyang City, and now you act as if nothing happened?"

The Emperor of Tian Kun looked around and asked, "What do you want then?"

"Emperor of Tian Kun, you've said yourself, some actions must come with a price." The ten Luo Fengs stood firm while the range of the Power of the World quickly expanded! The influence emanated from the center of Huyang City, substantially spreading toward the territories of the Shi Kingdom.

It engulfed the surrounding ten Primal Chaos Prefectures!

Luo Feng's true body as a World Life Form could naturally cover sixteen Primal Chaos Prefectures! The Shi Kingdom also had twelve Primal Chaos Prefectures enveloped to varying degrees, with some completely covered and others only one-third covered.

Luo Feng chose the nearest ten territories.

"The Lord of Yushui gifted me ten territories, I will also take ten from the Shi Kingdom." The ten Luo Fengs looked at the Emperor of Tian Kun, "Consider it the price of the Shi Kingdom! If you agree, we can cease hostilities. If you don't agree... then we continue the war, and I will conquer the territories with my own abilities."

Chapter 202 Curtain Call (End of this episode)

"Ten Primal Chaos Prefectures?" the Emperor of Tian Kun looked at Luo Feng, "Are you sure?"n/o/vel/b//in dot c//om

"Think I'm asking for too much?" Luo Feng also stared at the Emperor of Tian Kun.

The Emperor of Tian Kun could feel the will of the Godly King from Luo He.

"The affairs between me and the Monarch of Yu Country, why did he interfere and become so troublesome?" The Emperor of Tian Kun was quite troubled. In terms of strength, he was not afraid of Luo Feng. He even had a more powerful burst of energy, ready to fight or leave at will. Luo Feng could not stop him.

But Luo Feng's ten avatars moving against Shi Kingdom—he could not stop them either; he only had one physical body after all.

He was managing the large secondary nation, 'Shi Kingdom', with tribes and many followers under him. Luo He, however, had no attachments, and the ten Primal Chaos Prefectures he recently obtained were gifts from Yu Kingdom.

The one who has nothing fears not the one who has something.

The Emperor of Tian Kun was the one with something; his territory was too expansive.

Luo Feng was the one with nothing; less territory, no attachments. He even had only one disciple.

A real fight? Could Shi Kingdom withstand it?

"Fine." The Emperor of Tian Kun's bloodshot eyes looked at Luo Feng, "This time I underestimated the Godly King of Luo He, not expecting that merely at the First Realm of Godly King, he would possess such terrifying strength. These ten Primal Chaos Prefectures can be considered as compensation."

"The Emperor of Tian Kun is indeed straightforward." Luo Feng nodded, "From now on, we will be neighbors and will indeed have to interact frequently."

"Hmph." The Emperor of Tian Kun also felt troubled.

Originally, having the secondary nation 'Yu Kingdom' next door was troubling enough. After all, he could arbitrarily devour some tertiary nations, but facing an opponent at the same level wasn't so easy.

The force led by Luo Feng, in the eyes of the Emperor of Tian Kun, was even more troublesome than Yu Kingdom. Your next journey awaits at empire

"Huh."

The Emperor of Tian Kun flapped his wings once and had already vanished into the heavens and earth.

The ten silver-dressed Luo Fengs, towering as high as the heavens and earth, also disappeared in an instant.

"It's over."

"Unexpectedly, this Godly King of Luo He is a being comparable to the Emperor of Tian Kun."

"In the Land of Origin, another formidable overlord has emerged."

All the powers watching realized Luo Feng was not to be trifounded with. The Emperor of Tian Kun's strategies, any single one of Luo Feng's avatars could withstand, even without much loss.

Only by being swallowed into the stomach was due to Luo Feng deliberately self-destructing. Otherwise, just relying on the stomach's erosion, they couldn't kill that one avatar.

"My disciple, to think he can now compare with the Emperor of Tian Kun." Mountain Sitting Guest's eyes were somewhat reddened, overwhelmed with emotion, "It's time to meet Luo Feng."

...

In the city owner's mansion of Huyang City, atop a pavilion.

"Brother Luo He, I really appreciate this." The Monarch of Yu Country, in an avatar, came forward, quite excited. Luo Feng's strength was beyond his expectations, and the matter was resolved too smoothly. If Luo Feng were a normal unbeatable at the First Realm of Godly King, this matter would have had many more conflicts.

"It's a small matter," Luo Feng smiled and said, "Brother Yu Shui, I heard your true body is in the precious land 'Tianhe'; you must be careful."

"Although they outnumbered me, I'm not so easily bullied," the Monarch of Yu Country said confidently, "Brother Luo He also needs to be careful. This time, because of me, you have severely offended the Emperor of Tian Kun. With his temperament, he won't let this go easily. If you encounter any trouble, just let me know, and I will come to help."

Luo Feng laughed and said, "Brother Yu Shui might not be aware, I just requested ten Primal Chaos Prefectures from Shi Kingdom as their compensation."

He and the Emperor of Tian Kun negotiated, naturally isolating the outside senses.

"Ah," the Monarch of Yu Country exclaimed, "You asked for ten Primal Chaos Prefectures?"

"Since I've offended them, I might as well offend them thoroughly," Luo Feng smiled slightly and then looked towards the direction of Shi Kingdom, "From now on, my side and Shi Kingdom will be neighbors and the days of conflict are still long ahead."

"If Yu Kingdom can help, just let me know," the Monarch of Yu

Country replied.

This time the invasion of Shi Kingdom, Luo Feng unhesitantly chose Yu Kingdom's side, which deeply touched the Monarch of Yu Country.

Without a doubt, facing Shi Kingdom in the future, Yu Kingdom would definitely stand with Luo Feng's forces.

******

Royal Capital of Shi Kingdom, within the palace.

"Big brother."

"Lord of the Nation." The other four Godly Kings of Shi Kingdom all looked at the Emperor of Tian Kun.

"That Luo He and his Power of the World enveloped ten of our Primal Chaos Prefectures, declaring them henceforth his territories, demanding all beings in the Primal Chaos Realm to swiftly move away within a day," Wuxiang urgently said, "Big brother, are we just giving up ten Primal Chaos Prefectures like this?"

"If not, do you think Luo He will stop the war?" the Emperor of Tian Kun sat in the main seat, coldly glancing at Wuxiang, "His ten avatars invaded Shi Kingdom, which of you four could stop even one?"

The four Godly Kings were stunned.

They had witnessed how fearsome each of the ten avatars was.

"If we really fight, the entire Shi Kingdom won't have peace," the Emperor of Tian Kun shook his head.

"Although he has ten avatars, when it comes to fighting, big brother, you still have the upper hand," the Demon God King said, "If it drags on, he will lose."

"I can't outlast him," the Emperor of Tian Kun said.

Wuxiang, the Demon God King, Stream Jade God King, and Skull

Peak God King were all taken aback.

"His enormous physical body has a strong regenerative ability, and it seems to carry its own life source, recovering while fighting; from the recent clash... his energy reserves haven't decreased at all," the Emperor of Tian Kun said, "Even if I have the upper hand, I can't destroy even one of his avatars."

"He is more troublesome than the Monarch of Yu Country," the Emperor of Tian Kun shook his head, "without a way to deal with him, we must not provoke him again."

"Yes." The four Godly Kings looked at each other and could only dutifully agree.

Even their own ruler admitted he couldn't destroy even one of Luo He's avatars; that left no option for battle.

The Emperor of Tian Kun then stood up and departed.

Chapter 203 Curtain Call (End of this Episode)_2

...

Soon, within the sacred land "Tianhe," the Emperor of Tian Kun arrived here in just over ten breaths' time.

An infinitely wide and infinitely long Tianhe, sweeping through time and space, sweeping through all things, surged mightily and unceasingly. Its mere presence was enough to make Godly Kings tremble.

This was a place that, in the outside world, was valued even higher than "Infinite Space." It was especially important to cultivators with the "Water Origin Bloodline."

The Emperor of Tian Kun transformed into his True Body and merged into the waters of the Tianhe, which naturally washed over his colossal form, refining it.

Merely wandering within was cultivation.

"You also have no way of dealing with Luo He?" the Emperor of Tian Kun transmitted his thoughts to his five other friends through causality, "This time I have suffered a great loss, he forced me to hand over ten Primal Chaos Prefectures."

"If even you can't eliminate one of his avatars, naturally neither can we."

"Moreover, I can confirm through causality that he has hidden avatars in Huyang City, Chu Capital, and Xiangjie City. Ten avatars... and that might not even be his limit."

"The strength he erupts with is indeed slightly inferior to ours. But he is too difficult to deal with."

Several powerful entities were wary of Luo Feng and did not wish to provoke such a formidable enemy.

While they could reach a consensus and join forces against the "Emperor of Yushui," they had no such agreement when it came to dealing with "Luo Feng;" none of them wished to battle him.

"Since we can't coerce the Emperor of Yushui from the outside, let's find a way to completely resolve him within Tianhe." The six of them still had patience.

Among the cultivators with the Water Origin Bloodline at their level, there were only a dozen or so in the entire Land of Origin. Below the rank of Emperor, the biggest threat to them was the "Emperor of Yushui," who was extremely suited to Tianhe and had a far superior ability to obtain treasures; naturally, they had to join forces.

******

In the Flame Wind Ancient Country, Po Lu City, Po Lu Mountain.

"Master." Zhang Yunge, summoned by the Godly King, came to pay his respects excitedly.

It had been so long.

This was the first time the master had summoned him specifically.

"Yun Ge," Po Lu Godly King looked at Zhang Yunge with a smile, "Brother Luo He has just become a Godly King and has now even battled the Emperor of Tian Kun without falling short. I'm preparing to go to congratulate him! You shall accompany me!"

The Po Lu Godly King was in high spirits.

Zhang Yunge's heart trembled. To congratulate Godly King Luo He? And she was to accompany him?

"It's been a long time since you came down from the mountain; this

visit is also an opportunity for you to meet with Moyu Qingyan." Po Lu Godly King said with a smile.

Zhang Yunge hesitated, then didn't dare conceal the truth: "Master, Qingyan and I have already parted ways."

"Parted ways?" Po Lu Godly King looked puzzled.

"I entered under master's tutelage and devoted myself solely to cultivation, unwilling to be distracted by anything else. That's why I parted ways with Qingyan," Zhang Yunge said respectfully.

Po Lu Godly King's gaze turned cold.

As an invincible entity in the First Realm of Godly King, who cultivated the Primordial Bloodline, Po Lu Godly King would normally treat all beings kindly, but he was also influenced by the residual will within the bloodline, which he had always managed to control completely.

Anger surged, and an invisible murderous aura spread naturally. Zhang Yunge felt her soul shivering, her mind going blank.

"Foolish girl!" Po Lu Godly King rebuked coldly, then waved his sleeve.

Whoosh.

An invisible force surrounded Zhang Yunge, instantly transporting her out of Po Lu Mountain.

When Zhang Yunge regained her senses, she found herself in Po Lu City. She looked around and saw the distant sacred land "Po Lu Mountain."

"Have I been exiled by master?" Zhang Yunge couldn't believe it.

"Until I permit it, you are not to ascend the mountain again." The voice of the master echoed in her mind, like a brand seared into her soul.

Zhang Yunge trembled in her heart.n/o/vel/b//in dot c//om

She had always thought that her master was high and unattainable, being a direct disciple of Emperor Qing, an overlord-level existence on the Land of Origin, whose fame spread far and wide. How could her master, willing to teach all living beings, care about her own matters of the heart?

"Idiot, master called me an idiot." That angry rebuke, Zhang Yunge would never forget.

Her master, an existence that enlightened all beings, yet scolded her, showing the extent of his fury.

"I was wrong," Zhang Yunge gazed towards Po Lu Mountain, feeling a chill in her heart, "I thought master wanted to help the weak, to publicly preach to countless weak beings out of pity for all living beings, exhibiting boundless compassion, starkly different from us eternal true gods."

"But I was wrong, master and the eternal true gods are the same, they too form alliances with powerful beings, they too are entangled in interests."

Zhang Yunge completely understood from her master's calling her "idiot" that he took her as a disciple, not because of fate, not because of pity, but to curry favor with the Godly King Luo He!

After she and Moyu Qingyan parted ways, her "master-disciple bond" with her master also faded.

...

Huyang City is now bustling with activity, many small and medium forces responding quickly, starting to buy many cave mansions within the city at a premium price because they understand... Huyang City will become the center of the surrounding twenty Primal Chaos Prefectures.

Whoosh! Whoosh! Whoosh!

One after another, Flying Boats quickly left Huyang City, heading towards the many surrounding Primal Chaos Prefectures, beginning to take over large cities.

Read exclusive content at empire

Luo Feng's Power of the World covered his territories, so the relocation of both Shi Kingdom and Yu Kingdom was orderly; the teams sent out from Huyang City to take over were also extremely smooth.

"With your strength, Brother Luo He, twenty Primal Chaos Prefectures are still too few," Godly King of Po Lu had already come to visit Luo Feng, saying with a smile.

"I have no interest in competing for territories," Luo Feng said, "This time, Brother Yushui asked for my help, willingly giving twenty Primal Chaos Prefectures; I even tried to ask for less. As for the Emperor of Tian Kun from Shi Kingdom, since he has taken action, he naturally has to pay a price."

"Brother Luo He is generous, helping Emperor Yushui for just ten Primal Chaos Prefectures and making such a formidable enemy," Godly King of Po Lu remarked.

On the Land of Origin, the strong beings, if asked casually to make an enemy of Shi Kingdom, couldn't be moved by just ten Primal Chaos Prefectures.

Luo Feng just smiled.

"There is another matter for which I feel somewhat sorry towards you, Brother Luo He," Godly King of Po Lu said.

"What is it?" Luo Feng, surprised, asked.

"Previously, I accepted the wife of your disciple 'Moyu Qingyan,' Zhang Yunge, as a disciple; unexpectedly, this broke their marriage bond," Godly King of Po Lu shook his head, "I've already expelled Zhang Yunge from the mountain to let her cool down and reflect."

Luo Feng said with a smile, "Since they've split, it means they were not fated. I should thank Godly King of Po Lu for allowing them both to see each other more clearly."

Godly King of Po Lu nodded.

...

In Huyang City, when Luo Feng met Godly King of Po Lu.

In Xiangjie City, a mysterious visitor had arrived.

"Hmm?"

Luo Feng sensed a quite powerful aura flying directly into the Garrison Mansion, and an invisible voice came through Causality, "Luo Feng."

To call out his name directly? Luo Feng was startled in his mind.

Not many on the Land of Origin knew his name.

Luo Feng arrived at a courtyard and saw a standing unfamiliar figure, this figure was quite tall, with blue Scale Armor wings, turning its head and smiling at him.

While looking at him, the stranger's face began to change, transforming into the appearance of the Mountain sitting guest.

"Luo Feng, long time no see," the Mountain sitting guest said with a smile.

(End of this volume)

This volume has come to an end, and Tomato will take a two-day break to carefully plan the plot of the fifth volume.

It's too rushed to conceive a complete plot in one day, and Tomato also hopes to come up with a better storyline for the 'Godly King arc,' asking for everyone's understanding.

In two days, the fifth volume will begin updating.

Chapter 204 Watching the Winds Rise and the Clouds Surge

Luo Feng looked at the figure of the Mountain Sitting Guest before him, whose physique was much sturdier than the teacher he remembered from his memories. After all, when he was in the Primordial Cosmos Region, the Mountain Sitting Guest was merely a True God. It was only close to when he was to challenge the Samsara Channel that he had broken through to become a true god of void space. Now, however, he was a Cultivator of the Primal Chaos Realm, cultivating the Primordial Bloodline.

"You've engaged in combat with the Master of the Shi Kingdom so quickly, much earlier than I expected," the Mountain Sitting Guest said with a smile, looking at his disciple.

Hearing this, Luo Feng was certain without a doubt: "Teacher!" Discover more stories at empire

It was impossible to confirm the identity of his teacher by life force and causality alone.

But those who knew he was Luo Feng were countable on one hand in the Land of Origin; Yuan, Morosa, and Emperor Chu were all deeply trusted by him. Being able to call out his name, Luo Feng trusted him mostly already.

The feud between the Mountain Sitting Guest and the Master of the Shi Kingdom was only revealed to him by his teacher when he was about to challenge the Reincarnation Era. Only he and his teacher knew about it, with no third party in the know!

"I've placed my hopes for revenge on you—it's unfair to you," the

Mountain Sitting Guest looked at Luo Feng and expressed his feelings. "Because to completely kill a Second Realm Godly King is something not even Emperors and Monarchs can necessarily achieve."

"But I see no other possibility. Only in you do I see a chance," the Mountain Sitting Guest continued, "And I know, such pressure, you simply wouldn't care about."

Luo Feng just smiled.

Indeed, this kind of pressure was nothing to him! His teacher also hadn't forced him to meet his death but rather to make his move when he was confident!

"You've only been in the Land of Origin for less than two centuries... yet you've achieved such a realm, far surpassing me," the Mountain Sitting Guest said with complex emotions, remembering the time he transformed Earth and nurtured a powerful race.

He had watched Luo Feng rise from weakness step by step.

As a Godly King, he had always been detached, protecting and guiding his weak disciples towards growth.

In a blink of an eye, his disciple had completely surpassed him!

"To kill the three Masters of the Shi Kingdom, my strength is far from enough," Luo Feng stated. "This time, it was merely establishing causality with the Emperor of Tian Kun, acting as a catalyst."

"There's no rush," the Mountain Sitting Guest replied. "Even if you were stronger and could destroy the Emperor of Tian Kun's True Body, he could still cultivate himself back to strength! He would even become more cautious. If we scare him into reincarnating, then it would be problematic."

"I have a plan for how to thoroughly kill the three Masters of the Shi Kingdom," Luo Feng stated.

"Oh?" the Mountain Sitting Guest's eyes brightened. "Are you confident in your plan?"

"Mm," Luo Feng nodded. "There are multiple methods, but all need sufficient time for cultivation."

Multiple methods?

The Mountain Sitting Guest, in all his experience, thought the complete annihilation of the three Masters of the Shi Kingdom, especially 'Emperor Tian Kun', to be extremely difficult. Yet his disciple claimed to have multiple methods.

The Mountain Sitting Guest felt exhilarated and exclaimed, "Now, even your visions far surpass mine."

"But remember, your own safety comes first," the Mountain Sitting Guest looked at Luo Feng. "I was originally just a First Realm Godly King, not involved in the top-level struggles of the Land of Origin. But I've seen a lot. I know how brutal and crazy those at the top can fight."

"The strongest existences in the Land of Origin, the detached Godly Kings, and the two Ancient Countries fight fiercely! There have been many clashes at the level of Emperors," the Mountain Sitting Guest spoke. "The detached Godly Kings have more numbers and more highly talented individuals, while the two Ancient Countries have excessively fearsome Emperors and Monarchs... Amidst all the slaughter and conflict, the detached Godly Kings would even reincarnate and hide their identities, striking again in secrecy later on."

The Mountain Sitting Guest looked at Luo Feng. "As a First Realm Godly King, I was a bystander, which allowed me to see everything clearly. All strife stems from the struggle for resources."

"If you are not in dire need of resources, don't get involved," the Mountain Sitting Guest cautioned. "Focus on cultivation, and grow stronger. Once you're strong, even the two Ancient Countries will have to respect you."

"The waters of the Land of Origin are deep. I can't see through them but know that Emperors and Monarchs have repeatedly made their moves, shattering the heavens and the earth! Your clash with the

Emperor Tian Kun, compared to that level... it's a qualitative difference," the Mountain Sitting Guest said.

Of course, Luo Feng understood.

The difference between the Second Realm of Godly King and the Ultimate Realm was a qualitative transformation.

Like his master Emperor Chu, who could obliterate his body with a single move. Even with his life force regenerating him, it would only take Emperor Chu a few more moves. The Emperor Tian Kun, whose life force was somewhat inferior to his own but who had a more terrifying burst of power, could probably be dealt with by Emperor Chu in a single move.

This showed the vast gap between a normal Second Realm Godly King and an Ultimate Realm Life Form!

"Teacher, don't worry. I've just become a Godly King, and I'm not in a hurry to join the struggles," Luo Feng said.

The Mountain Sitting Guest smiled. "Good, I should be going now. You can contact me anytime if you need anything."

Having met once and confirmed the identity, they could communicate via causality in the future.

"Good," Luo Feng nodded. With his understanding of all those in the Land of Origin who had achieved Transcendence of Primal Chaos Realm, he naturally knew the reincarnated identity of his teacher was the 'Zuo Shanjin', the Transcendence of Primal Chaos Realm from the Thunder Ancient Country.

Sigh.

With one step, the Mountain Sitting Guest had quietly departed.

...

In the night sky.

The Mountain Sitting Guest looked back toward the direction of

Xiangjie City.

"In this world, all my dearest have perished." Although the Mountain Sitting Guest had returned to the familiar Land of Origin, he found no kin, no dearest, and no Sect!

His sensation of profound solitude had always haunted him.

He lived in the Thunder Ancient Country like a solitary ghost, with his purpose of existence being revenge.

But this night, he felt relieved and less lonely.

"On this Land of Origin, I still have a disciple," murmured the Mountain Sitting Guest. He had watched his disciple grow from weakness, step by step, and now in the Land of Origin, his disciple continued to strive for revenge on his behalf.

******

The bustling Huyang City witnessed a silent shadow sneaking into the City Lord's Mansion; it was a child, who smiled while observing Luo Feng.

"Hmm?" Luo Feng, sitting in a pavilion, was surprised to see the newcomer. When his teacher, the Mountain Sitting Guest, had gone to Xiangjie City, it was through causal sound transmission that he had faced no obstacles. However, this child had ignored all formations and Luo Feng's attempts to block him, appearing silently in front of him.

In terms of cultivation realm, he was clearly much higher than Luo Feng.

"Luo He," the child said with a smile, "I am the 'Boat Master' of the Time-Space Lonely Boat."

Luo Feng looked at the other party.

In the shadows of the Land of Origin, the three major forces—the Two Realms Palace, Wanfa Tower, and Time-Space Lonely Boat—were all established by powerful alien entities. Because these aliens

traversed great distances to reach the Land of Origin, their might was suppressed to the level of the Primal Chaos Realm; even with their profound moves, they possessed only the fighting strength of the First Realm of Godly King.

The true powerhouses of these three forces were some of the extremely powerful ancient entities native to the Land of Origin.

The Time-Space Lonely Boat was especially famous for its Boat Master.

The Boat Master had cultivated the Time Primordial Dao to an inconceivable extent and was considered the highest master of the 'Time Primordial Path' on the Land of Origin.

His identity in reality had long been exposed; after all, it was quite easy to guess, given his accomplishments in the path of time. He was the Heart Honing Godly King, who in a past life had studied under the Lord of Ten Thousand Realms. Later, he had a fallout with the Lord of Ten Thousand Realms and reincarnated in hiding… Now, even the Lord of Ten Thousand Realms could not do anything against him.

"Boat Master," said Luo Feng with a smile.

"I consider my talent exceptional, but compared to you, Brother Luo He, I am still quite inferior," the child grinned. "I am here to invite Brother Luo He to join the Time-Space Lonely Boat. I can offer you resources worth 'one billion merit points' for you to choose from at will."

"Resources worth one billion merit points? Thanks, but I have no plans to join another force," said Luo Feng.

"Even if you join one force, you can still join others," said the child with a smile.

Luo Feng gently shook his head.

"Is it because the Time-Space Lonely Boat was established by an alien race?" the child looked at Luo Feng. "Aliens are very limited in the power they can exert on our Land of Origin and pose no threat at all!

And their True Bodies… are existences that transcend the Ultimate Realm of God King. Why not cooperate with them?"

"Even the ancestors of the two Ancient Countries are not usually on the Land of Origin; they also cooperate with alien race powerhouses in the outside world, don't they?" said the child. "As long as one has sufficient strength, cooperation with aliens can still be advantageous. For example, when the aliens invited me to join the Time-Space Lonely Boat, my condition was… I become the master of the Time-Space Lonely Boat, and he could only assist me."

The child looked at Luo Feng: "You possess great talent, but you still need time and resources! You must become an Ultimate Realm Life Form before the great destruction of this Source World, or you will perish alongside the destruction of the Source World… Time is precious. The Time-Space Lonely Boat is willing to offer you far more than the two Ancient Countries."

"No rush," Luo Feng shook his head.

"Still not in a hurry?" the child looked at Luo Feng. "Let me also tell you a secret: the duration of this Source World has already been quite long, and the remaining time is probably just a few billion eras at most."

"Thank you for the information, Boat Master," replied Luo Feng.Nôv(el)B\\jnn

A few billion eras?

That long?

He had arrived at the Land of Origin just over a century ago!

In the Primordial Cosmos, a Reincarnation Era, whether long or short, corresponds to about ten thousand eras on the Land of Origin.

A few billion eras… For Luo Feng, it was indeed a very long time! The time for cultivation was more than ample.

"It's incredibly difficult for one at the Second Realm of Godly King to achieve the Ultimate Realm. Time is still very tight," the child looked

into Luo Feng's eyes and stopped persuading. "My invitation from the Time-Space Lonely Boat always stands."

"Thank you for the invitation, Boat Master," said Luo Feng.

"We will meet frequently in the future," the child said with a slight smile, then vanished into thin air.

Luo Feng was amazed: "Walking different timelines, just like that, he's gone?"

Cultivators of the Time Primordial Dao were indeed formidable.

Compared to him, he was still too naive.

"This Boat Master is indeed well-informed, the Source World has only a few billion eras left? I must become an Ultimate Realm Life Form before then?" Luo Feng realized.

…

When Luo Feng was in the Primal Chaos Realm, few major forces invited him. After all, in their eyes, even if Luo Feng became a Godly King, he would only be unrivaled in the First Realm of Godly King, barely reaching the threshold of an Overlord.

At that time, only the Two Realms Palace and Reincarnation Tower had invited him, and naturally, Luo Feng had chosen the Reincarnation Tower.

However, Luo Feng's battle with the Emperor of Tian Kun not only demonstrated his terrifying strength but also his potential for talent! His power at the First Realm of Godly King even surpassed the history of the Land of Origin! This talent made all sides astounded.

Speculations arose among all parties… Could this Luo He, in the future, contend with Emperors and Monarchs across levels?

And so, many forces came to invite Luo Feng, who gained broader insights into the hidden forces of the Land of Origin and understood various kinds of intelligence.

"For the time being, I reject them all."

In the Quiet Room of the Huyang City Lord's Mansion, inside the Star Tower.

Luo Feng knew that the Land of Origin was undergoing tumultuous changes, with the forces openly and secretly fighting over various treasures. Yet, he did not intend to get involved. Focused on solidifying his own strength, he was well aware that he still had much room for progress in the First Realm of Godly King.

"Hum." Luo Feng sat cross-legged in the Star Tower, cultivating.

With an unprecedentedly strong foundation of the soul, Luo Feng's thought processes were much faster, over ten times quicker than when he was in the Primal Chaos Realm.

Chapter 205 Season 5, Episode 2 The First Retreat after Becoming the Godly King

"There are indeed many ways to kill the Emperor of Tian Kun completely," Luo Feng's insights had already surpassed those of his teacher, the Mountain Sitting Guest. Some were secrets told by Emperor Chu, while others he learned from comprehending the Special Grade Inheritances.

Although it was just the Special Grade Inheritance 'First Realm of Godly King', it still provided vague guidance for the later stages of the path.

"For me, there are three more likely methods to kill the Emperor of Tian Kun."

"The first method, my Spiritual Will reaches the 'Beyond God King' tier! Combined with the Lie Yuan Technique, it can almost sweep away the will of any at the Godly King level!" Luo Feng thought, "But this path is extremely difficult!"

The will of the First Realm of Godly King to the Ultimate Realm of God King, all are still considered within the Godly King tier, slowly improving, none of them could be considered a qualitative change.

A major tier leap! That's the real qualitative change!

During the Primordial Cosmos era, when he was still a True God, Luo Feng already possessed the Peak Will of the Primal Chaos Realm!

Coming to the Land of Origin, his Spiritual Will only had one major leap — from the will of the Primal Chaos Realm to that of the Godly King's Will!

"According to the information provided by Master, there are only three beings in the Land of Origin with 'Beyond God King' level Spiritual Will at this era; Emperor Qing, the Lord of Ten Thousand Realms, and Emperor Ming!"

The Ancestors of the two Ancient Countries and the Ancestor of the East Extreme Domain, all were powerhouses of a bygone era!

This era has only these three.

"Emperor Qing and the Lord of Ten Thousand Realms both broke through to the Beyond God King tier after comprehending a complete Origin Great Dao. Emperor Ming... attained the Ultimate Realm Life Form with the aid of the Primordial Bloodline; he has yet to comprehend a Great Dao."

The ascent of a Great Dao brings an all-around enhancement. Seeing through the essence of everything between heaven and earth naturally leads to an incredibly powerful Spiritual Will.

"According to Master, Secret Treasure Weapons above the Godly King level, especially defensive ones, generally have the effect of blocking will attacks. Ultimate Realm Life Forms have a complete constitution, offering some blocking effect. Against Emperor Ming... Emperors and Monarchs either suffer great losses in power or lose control completely."

"Secret Treasure Weapons that can block will attacks are even more precious, Master doesn't even have one."

Luo Feng couldn't help but sigh quietly, he had discovered during his detailed research of the Star Tower that it had the ability to obstruct will attacks.

"This path is difficult, but once successful, there wouldn't be many on the Land of Origin who could stand as my opponent."

"The second method, mastering the complete Great Dao of Life Origin! Then, control over life would reach an unbelievable level, which could instantly... cut off all of Emperor Tian Kun's revival carriers' vitality, preventing him from reincarnating in time."

Each Great Dao has many flaws in the early stages, but once a complete Dao is mastered, there are no obvious defects.

For example, the Great Dao of Life Origin is weak in killing initially. But the complete Great Dao of Life Origin... is practically the embodiment of the 'Life' concept in the Source World, even able to strip away life directly.

The same is true for other paths; reaching the Ultimate Realm, they become self-sufficient, naturally unfathomable.

"The third method, the Special Grade Inheritance of the Great Dao of Destruction Origin, reaching the Pinnacle of the Second Realm of Godly King! You could hope to battle against Emperors and Monarchs, extinguishing Countless Avatars and revival carriers of an enemy in just a thought."

Morosa can even perform Curse Killing now.

If one reaches the Second Realm of Godly King and cultivates Special Grade Inheritance killing moves, Luo Feng felt it would be enough to deal with the Emperor of Tian Kun.

"Three paths, take it slow."

Luo Feng sensed his own Spiritual Will.

In the Primal Chaos Realm, his will had already reached the Ultimate Realm of God King tier! Subsequent cultivation's improvements became progressively slower, and the comprehension of a World Life Form nourished his Spiritual Will a bit.

After becoming a Godly King, his soul grew stronger, benefiting his Spiritual Will.

Having comprehended six branches of life, Luo Feng's understanding of life deepened, his Spiritual Will seemed filled with endless vitality and resilience.

"My Spiritual Will has reached the bottleneck of the Ultimate Realm of Godly King, unable to improve any further." Luo Feng sensed, even cultivating the Heart Refining Method of the 'Lie Yuan Technique'

couldn't enhance it in the slightest.

Completely capped! Like a chasm in the sky, blocking his way.

"'Lie Yuan Technique' records multiple Heart Refining Methods, and I chose to focus on the 'Great Destruction Heart Refining Technique'. The effectiveness of this Heart Refining Method depends on my realm in the Great Dao of Destruction Origin."

"Now, focus on cultivating the Path of Destruction."

A Secret Technique surfaced in Luo Feng's mind.

This was a combat Secret Technique recorded in the Special Grade Inheritance 'Chaotic Hole Beast Body', originally meant to complement the Chaotic Hole Beast Body! But with a stronger 'World Life Form', Luo Feng didn't need to comprehend the Chaotic Hole Beast Body any further.

This combat Secret Technique, called 'Chaos Hole Six Strikes', integrates the six branches of the Path of Destruction with each strike, exhibiting incredible power when combined with an ultra-strong Physical Body.

"This Chaos Hole Six Strikes, each one a combination of the six branches, is as challenging to comprehend as the 'Ten Directions World Form'. If I can comprehend even one strike... I'll have a formidable killing move," Luo Feng looked forward to it eagerly.

Any single blow of these Chaos Hole Six Strikes is more powerful than the first three strikes of the 'Extermination of Seventy-Two Blades'!

And when performed by a World Life Form like Luo Feng! It means he will no longer have any weaknesses!

...

As time passed, three eras went by in a blink of an eye.

Wind Zhang City.

Zhang Yun Ge concealed her aura and changed her appearance, returning to her ancestral home.

"Wind Zhang City." Zhang Yun Ge looked at the familiar city. It's where she grew up, yet she felt a bit timid.

She quietly went to her family residence, then sent a message to her father.

Soon, the door of the cave mansion opened.

"Why have you come back?" Zhang Father stood at the entrance of the cave mansion, annoyance in his eyes, "Didn't we already send word for you not to come back?"

"This is my ancestral land, I wanted to come back and see it," Zhang Yunge said, looking at her father.

"You still think our lineage hasn't been disgraced enough?" Zhang Father said angrily, "You were with Moyu Qingyan and even became a disciple of Godly King Po Lu. Our family had been valuing our lineage greatly, giving us resources, status, and power. Many of our kinsfolk's lives have greatly improved because of it. But you?"

"What have you done?" Zhang Father asked furiously, "You broke up with Moyu Qingyan, offended that Godly King Luo He, and were expelled from Po Lu Mountain by Godly King Po Lu himself! You turned such a great opportunity into a complete mess! The elder ancestor of our family was so enraged that he has completely revoked many of our lineage's privileges. It's even worse than before you were with Moyu Qingyan. Our lineage can't get involved in the family's important affairs at all."

"Our lineage has completely declined, even more so than before you were with Moyu Qingyan! All because of you!" Zhang Father glared at her, "As your father, do you think I've had it easy? I can tell you, I have already applied to the family, and I am about to move out of the ancestral land."

"Moving out? Wouldn't that be completely marginalizing us?" Zhang Yunge couldn't help but say.

"Aren't we already marginalized now? And we still have to suffer this humiliation," Zhang Father said angrily, "You'd better leave quickly. If the kinsfolk of our lineage find you, some of your family elders might even take action against you."

In their lineage, there were also over ten eternal true gods, as well as a considerable number of void space true gods and true gods! Previously considered a normal lineage within the family, it has been marginalized due to the elder ancestor's wrath.

"I will leave now," Zhang Yunge didn't say much.

Zhang Father watched as his daughter's figure departed, shaking his head gently.

Perhaps it was because she grew up in the royal family and her father was also an eternal true god of the royal family, she had lived too comfortably.

...

Zhang Yunge had been expelled from the mountain and without an order from Godly King Po Lu, she could never return. But at least she still had the title of 'Direct Disciple of the Godly King,' so in any city of Flame Wind Ancient Country, the local forces wouldn't dare to bully her.

Thus, she wandered from place to place and in the blink of an eye, several epochs had passed. After much wandering, she arrived back in Xiangjie City.

The pride in her bones had brought her this far and only now had she come here.

She sat atop a pavilion, silently watching the distant streets, waiting...

At last, she saw him.

Moyu Qingyan, riding an exotic beast from the Primal Chaos Realm and followed by a group of trusted aides, flew across the sky! Since reaching the Primal Chaos Realm, the management of Xiangjie City

had been completely handed over to Moyu Qingyan.

Not only that, within a twenty Primal Chaos Prefecture radius around Huyang City, the Moyu Family also had great influence.

"Qingyan," Zhang Yunge suddenly stood up and hurriedly spoke.

Moyu Qingyan turned his head and saw Zhang Yunge. Recognizing his former wife, he immediately steered the exotic beast towards the tavern's vicinity and then went up alone.

Inside the pavilion.

"Why did you come to Xiangjie City?" Moyu Qingyan asked as he looked at her.

Zhang Yunge said, "Qingyan, I know I've made many mistakes, I..."

"No need to say it," Moyu Qingyan shook his head, not wanting to listen.

"I came here this time to ask you... can we go back to the way things were? If you refuse, I will leave right away and never appear before you again," Zhang Yunge looked at Moyu Qingyan.

Moyu Qingyan looked deeply at Zhang Yunge, "Let's just end it here."

Having said that, Moyu Qingyan turned and left.

Zhang Yunge stood there in a daze, her pride preventing her from speaking again, from holding on. She just watched Moyu Qingyan walk away.

She knew everything was over.

...

Moyu Qingyan sat on the back of the Primal Chaos Realm exotic beast, returning with his trusted aides. He seemed expressionless, but his heart was in great pain.

He cared deeply about that relationship; it was also his only love.

But he was very clear in his heart.

"When she first went to Po Lu Mountain, she didn't even want to leave a Divine Power Incarnation at home with me. I knew then... compared to her future prospects, I was nothing!" Moyu Qingyan had personally gone to Po Lu Mountain to plead for her return to no avail. That moment, he decided to let go.

"Let's never meet again."

Now, all Moyu Qingyan wanted was to focus on his cultivation under the guidance of his two masters.

...

Time flows like water; it has been twelve epochs since Luo Feng became a Godly King.

Within one of the layers of the Star Tower.

Silver-clad Luo Feng stood there, his fingertip light as a feather.

"Boom." The moment his fingertip touched, a point of light appeared, dazzling and brilliant! The point of light released an unimaginable force, annihilating everything around it instantly, sweeping and destroying. Its might swept through the entire layer of the Star Tower, with the entire space thundering.

"I've finally figured it out," Luo Feng said with a smile.

Your next chapter awaits on empire

After becoming a Godly King, his soul's thought processing speed was over ten times faster than before. It took Luo Feng twelve epochs to comprehend a single strike of the 'Chaos Hole Six Strikes.'

"Hm?" Luo Feng's mind naturally produced the complete branch lineage of the 'Heaven Splitting Lineage,' and then naturally triggered the 'Dark Heaven Lineage,' 'Chaos Heaven Lineage,' and other branches, comprehending them one after another as if it was all falling into place.

Chapter 206 Territories Under Command

A moment later, the six branches of the Great Dao of Destruction Origin had all surfaced in Luo Feng's mind.

"Without a complete Great Dao of Destruction Origin as a reference, my cultivation of the Great Dao of Life was considerably slower," Luo Feng revealed a smile. After becoming a Godly King, his soul's foundation had grown more robust, his thoughts quicker, and his overall state better—a single era equated the work of the previous twenty eras.

"Though slower, it is still much higher than the average level of the Godly Kings from the Land of Origin." Luo Feng was quite satisfied nevertheless.

But there were aspects that troubled Luo Feng as well.

"Master gifted me ten Primordial Crystal Spirit Fruits to use during my time in the Primal Chaos Realm and the First Realm of Godly King," Luo Feng gently shook his head. "However, the physical body and soul of my current state in the First Realm of Godly King far surpass those of the same level... The effects of the Primordial Crystal Spirit Fruit have become quite weak."

In these twelve eras, Luo Feng had consumed one primordial Crystal Spirit Fruit.

The speed of his thought seemed to increase only by thirty to forty percent, and his soul's condition had improved slightly—that was all!

"I'll leave the remaining Primordial Crystal Spirit Fruits for Primoridal Ancestor," Luo Feng thought. To Primordial Ancestor, still in the Primal Chaos Realm, the effect of these fruits was still excellent.

Sigh.

Luo Feng stepped towards the edge of this level in the Star Tower.

Explore hidden tales at empire

"Chaos Hole Six Strikes is an attack technique from the Special Grade Inheritance 'Chaotic Hole Beast Body' and is even more exquisite than the first three blades of Extermination of Seventy-Two Blades. Displayed by a World Life Form... Even one of my avatars, I reckon, has almost half the strength of the Emperor of Tian Kun, but still unable to affect the Star Tower in the slightest?" Luo Feng touched the tower wall.

When he had first become a Godly King, his combat techniques were weaker, even lesser in might compared to the Emperor of Tian Kun. It was only because of his multiple avatars and extremely strong life force that he had been more troublesome.

Now, Luo Feng merely needed to dispatch two avatars to fight on par with the Emperor of Tian Kun.

Luo Feng had reached this step due to multiple reasons.

The accomplishment of the Great Dao of Life Origin combined with Special Grade Inheritance, comprehending the 'Ten Directions World Form.'

The accomplishment of the Great Dao of Destruction Origin combined with Special Grade Inheritance, grasping one of the Chaos Hole Six Strikes.

The Formless and Intangible ability, which transmuted materials for the 'Ten Directions World Form.'

The vast soul basis brought by the Perfect Life Form, along with the will at the bottleneck of the Ultimate Realm of God King.

"In the First Realm of Godly King, I'm quite impressive, able to contest those from the Second Realm of Godly King who have accumulated profound depth," Luo Feng thought. "However, my current accumulation does not even qualify to practice the Perfection

Level Inheritance 'Nine Realms of Extinction' at the first realm."

The first realm of 'Nine Realms of Extinction,' part of the First Realm of Godly King chapter in Perfection Level Inheritance, requires surpassing the Godly-King's Will right at the entry level!

Indeed, those who can surpass the Godly-King's Will are generally counted on one's fingers within a Source World.

This Perfection Level Inheritance also made Luo Feng soberly realize...there is always a higher mountain! He might seem outstanding, but only within the Source World of the Land of Origin.

"This Star Tower, I've long refined and controlled it. Even when I was an eternal true god, I couldn't detect its particularity," Luo Feng mused internally.

Back then I was too weak, and the aids like Sha Wu Wings were stronger than the Star Tower.

Remembering the period in the Primordial Cosmos, I thought that the Bloodshadow Knife, Sha Wu Wings, Boat of Mausoleum, and others were superior to the Star Tower. Indeed, it was like a pearl covered in dust.

"Now that I can match the profoundly accumulated Second Realm of Godly King, I still can't comprehend it through and through!" Luo Feng felt that even with some Secret Treasure Weapons beyond the Godly King level, he could at least glimpse some mysteries with his understanding of the Great Dao.

But the Star Tower, he couldn't glimpse anything at all. Note that I have nurtured the Star Tower over the long years, and it felt like a part of my own life—I should be the easiest to investigate its truth.

"Mountain Sitting Guest Teacher, was also in the First Realm of Godly King, his secret patterns created during the Star Tower's refinement are not even on my level."

"The Star Tower's particularity seems to come from a strand of Golden Light accidentally integrated during the refinement process," Luo Feng felt the Star Tower carefully.

Even with this realm's breakthrough, I still couldn't glimpse anything.

"I wonder what realm it will take to glimpse its reality."

Luo Feng set this aside for the moment and sat down cross-legged, beginning to implement the 'Great Destruction Heart Refining Technique' from the 'Lie Yuan Technique.'

Rumbling~~~

Having comprehended the six branches of destruction, Luo Feng only felt as if the 'Great Destruction Heart Refining Technique' had turned into a dark chaos hole enveloping his spiritual will, fiercely compressing, crushing, slaughtering...

Under this influence, Luo Feng's spiritual will naturally became more refined, visibly transforming at a perceivable rate.

"The progress in the Great Dao of Destruction was very helpful for the 'Great Destruction Heart Refining Technique,'" Luo Feng was delighted internally. Although his spiritual will was transforming, its strength remained firmly capped at the bottleneck of the Ultimate Realm of God King, unable to advance in the slightest.

******

City Owner's Mansion, Huyang City.

"Master."

"Luo He."

Morosa and Moyu Hu came to see Luo Feng together, and an avatar of Luo Feng came out to meet them.

"What's happened that brings both of you to me at the same time?" Luo Feng smiled as he looked at them.

Now that I command this faction, it covered the surrounding twenty territories! Given the capabilities of Moli Meng and Moyu Hu, they lacked the ability to manage such an enormous territory.

Therefore, this territory was mainly managed by Morosa and Moyu Hu, and below them were a host of eternal true gods.

Having an illusionary avatar, his path of cultivation involved comprehending the operation of everything under the heavens, and he was inclined to arrange multiple illusionary avatars with different identities to understand the workings of the Land of Origin.

As a Sector Beast, Morosa had avatars from a young age, capable of being formless, intangible, and without the need for cultivation, allowing him leisure time to indulge in food, drinks, and pleasure around the world while also leading many affairs.

Looking at Yuan beside him, Morosa was ultimately a servant, while Yuan was Luo Feng's grandmaster.

In the world of cultivators, the relationship between master and disciple was highly valued, but as for a grandmaster? Not so much! Firstly, grandmasters and their succeeding generations might not even have met each other more than a few times. Secondly, the lifespan of cultivators was so lengthy that the master's master's master could form a whole lineage of grandmasters!

However, the relationship between Luo Feng and the Primordial Ancestor was not ordinary.

From Luo Feng's perspective, the Primordial Ancestor had sheltered all of humanity for countless years, a fact that alone commanded immense respect.

From the Primordial Ancestor's perspective, Luo Feng had rescued him from the suppression in the Primordial Cosmos and had helped him substantially on the path of cultivation.

"We encountered some troubles." Yuan said seriously, "Managing twenty Primal Chaos Prefectures requires recruiting many eternal true gods. During the recruiting process, we discovered a hidden power."

Luo Feng listened.

Managing twenty Primal Chaos Prefectures, each having several

major cities and many ordinary towns, each prefecture would recruit hundreds of eternal true gods, which was already considered a few.

"In recruiting eternal true gods, we naturally select the elite," Yuan stated, "but we found that in each Primal Chaos Prefecture, the elite are being quietly recruited and taken away by a certain force."

Luo Feng was surprised, "Is this the case in all Primal Chaos Prefectures? These twenty owned by me come from both Yu Kingdom and Shi Kingdom."

"Yes."

Yuan nodded, "All twenty Primal Chaos Prefectures are like this, being targeted by this mysterious force recruiting elite eternal true gods! I even discovered that in a broader area... such as in Shi Kingdom, Yu Kingdom, and some other places, this power is probably also recruiting elite eternal true gods."

"That's a wide range," Morosa spoke, "My avatars traveled across different regions to investigate, and the infiltration range of this power is hard to estimate."

"Oh?" Luo Feng frowned slightly.

Being able to infiltrate across such a large range means even the Masters of Shi Kingdom and Yu Kingdom, among others, turned a blind eye—this power must have substantial influence.

"The numbers they recruit are not that large, just three to five individuals per major city after their selection process," Yuan added, "I learned of this and did not dare to act rashly."

"This power is troublesome," Morosa stated gravely.

"Let me first contact the Master of Yushui," Luo Feng smiled faintly, and immediately contacted the Master of Yushui through causal transmission, briefly explaining the situation Morosa and the others discovered.

"Luo River, little brother, this force is called 'Life Mother River', and they have infiltrated about thirty percent of the territories in the

Land of Origin, all recruiting elite eternal true gods—it's highly troublesome," Morosa explained.

"Thank you, I know what to do now," Luo Feng replied upon hearing the name Life Mother River, understanding the whole situation.

Emperor Chu had informed him of this mysterious power before.

Knowing some details about the opposition, Luo Feng already had a plan.

"Primordial Ancestor," Luo Feng addressed, "send one of your avatars to their branch headquarters and inform them... to forever withdraw from my territories."

Primordial Ancestor understood immediately.

"Should they opt for confrontation, you can dissipate your avatar as needed; there's no need for a direct clash," Luo Feng added.

"Understood," Primordial Ancestor nodded, "Luo River, what's the origin of this force?"

"This power is called Life Mother River," Luo Feng replied with a smile, "As long as they remain hidden, they are not to be feared."

Primordial Ancestor nodded, "I will go and meet them now."

Primordial Ancestor immediately left.

"Master, I shall take my leave first," Morosa spoke and then departed.

"Emperor Chu, and Life Mother River have some old grievances!" Luo Feng thought, "If that 'Master of the Mother River' arrives, it could bring my master into the scene."

In the information Emperor Chu shared with Luo Feng, whom among those pinnacle beings in the Land of Origin he had ties or enmities with was clearly recorded.

Hum!

With a thought, Luo Feng activated the World Reflection, beginning to observe his vast territories to check on the activities of Primordial Ancestor's illusionary avatar.

Normally, Luo Feng would not constantly perform 'World Reflection' since it consumed concentration. Even when reflecting… the actions of countless creatures within his vast territories were generally 'ignored' instinctively unless something significant caught his attention.

...

In Quyang Chaos State, within the bustling core city, 'Quyang City', which was also one of the twenty Primal Chaos Prefectures under Luo Feng.

An illusionary avatar of Primordial Ancestor walked within the city.

This power is about to recruit internal members here in Quyang City in a few dozen days; the invited elite eternal true gods will all come," Primordial Ancestor soon arrived outside a cave mansion.

His figure, ghost-like, ignored the formation guarding the mansion and naturally entered a plaza within the cave mansion.n/ô/vel/b//jn dot c//om

"Which Primal Chaos Great Saint dares intrude into our sect's division?" An angry voice came, "Oh? It's the former Guest Elder of the Flame Wind Ancient Country!"

"It is I," Yuan stood in the plaza, sweeping his gaze all around, calmly stated, "The City Lord has ordered that your group swiftly withdraw from the twenty Primal Chaos Prefectures under his command."

Chapter 207 - 4 The Lord of the Mother River

This cave mansion, as a division of the Life Mother River and about to recruit new members, now has a Primal Chaos Realm entity temporarily presiding over it. The entity from the Primal Chaos Realm, perched there with a nine-segmented tail slowly swaying, had emerald green eyes filled with unease, "Did Luo He himself order this?"

He didn't take Yuan seriously — after all, Yuan was just a newly promoted entity from the Primal Chaos Realm who became a guest elder of the Flame Wind Ancient Country through connections with Luo He.

But Luo He, the Godly King, was an overlord who could directly contend with the Emperor of Tian Kun.

"God King Bei Feng." The entity from the Primal Chaos Realm immediately sent a message upward, "This former guest elder, by the command of Luo He, ordered us to retreat from the surrounding twenty Primal Chaos Prefectures."

"Luo He? Neither the Shi Kingdom nor the Yu Kingdom dare to be our enemies, and he dares? I'll handle this."

"Yes." The entity from the Primal Chaos Realm breathed a sigh of relief.

Luo He could extinguish him with just a breath, and the pressure was indeed great — best to leave such matters to higher-ups.

...

Yuan stood in the plaza, after proclaiming the command of the city

lord, and the whole cave mansion fell silent, not responding with a single word.

"A minor division should not have the authority to decide whether to retreat, probably reporting upward," Yuan patiently waited.

Buzz!

Suddenly, a terrifying energy descended from the void, transforming into a figure with emerald hair and a robust build. His presence alone seemed to alter the rules of the surrounding heavens and earth, with endless winds blowing in all directions.

This figure with emerald hair, his beard lush and eye piercing, looked at Yuan: "The former guest elder? I've heard about you. Luo He values you highly and helped you secure the position of guest elder in the Flame Wind Ancient Country."

"It's the God King Bei Feng," Yuan recognized him right away, as the other did not conceal his identity, and immediately smiled, "As a newly promoted Primal Chaos Realm entity, it is indeed quite fortunate to have become a guest elder in the Flame Wind Ancient Country."

"Let's get straight to the point," the God King Bei Feng said, "Luo He wants us to completely withdraw the Life Mother River from these twenty Primal Chaos Prefectures? That's impossible! The Life Mother River has spread across many territories, and it was here before the Shi Kingdom and the Yu Kingdom were even established."

"No matter who founded the kingdom!" the God King Bei Feng looked at Yuan, "they have no right to prohibit our recruitment of members."

"If it's a small recruitment, we wouldn't mind," Yuan said, "but you are recruiting all over each of the twenty locations and even filtering out the most elite, taking them all away without even notifying my lord the city lord—isn't that excessive?"

"One recruitment per city every thousand years, is that too much?" the emerald-haired figure said, "Not really. As for notifying? Your city lord should inquire a little, and he should know who we are! He

should know... he cannot provoke our Life Mother River!"

"Alright, hurry up and scram."

The emerald-haired figure sneered at Yuan, "Don't think that by being evenly matched with the Emperor of Tian Kun, you can provoke our Life Mother River!"

Yuan sighed softly.

Suddenly—

In the plaza of this cave mansion, an immense and invisible force descended, a tremendous power of the world, completely suppressing the aura fluctuations of the emerald-haired figure.

"Hm?" The expression of the God King Bei Feng changed slightly.

A figure clad in silver appeared next to Yuan.

He, dressed in silver, with a sharp horn on his forehead and a cool gaze, was none other than Luo He, the Godly King of towering fame in the Land of Origin.

"Luo He himself came?" God King Bei Feng stared at Luo Feng.

Silver-clad Luo Feng, seemingly ordinary in aura, but the endless world around him was filled with his power of the world, he looked at the God King Bei Feng, his voice very calm, "God King Bei Feng, are you so arrogant in my territory?"

The God King Bei Feng's aura subsided, much more solemn, as the spreading power of the world oppressed him too strongly.

"Greetings to City Lord Luo." The God King Bei Feng said politely.

"You should know my intent," Luo Feng said, "Give me an answer from your Life Mother River. Withdraw, or not!"

Without hesitation, the God King Bei Feng shook his head, "Our Life Mother River has rooted here for eons; it's impossible to withdraw. City Lord Luo... although you are exceptionally talented, you should

know which existences in the Land of Origin you cannot provoke."

"I am well aware of the reputation of the Mother River," Luo Feng said with a smile.

"Knowing that, you still dare to drive our Life Mother River away?" the God King Bei Feng said angrily.

"Asking one last time," Luo Feng looked at him calmly, "Do you withdraw, or not?"

God King Bei Feng angrily said, "Luo He, don't invite disaster upon yourself!"

Luo Feng gently shook his head.

Boom—

Endless power of the world converged, enveloping the body of the God King Bei Feng.

The true body of Luo Feng's world power was sufficient to cover the range of eighteen Primal Chaos Prefectures, and when most of that power converged in one place, the level of oppression was imaginable! The God King Bei Feng felt oppressed and bounded everywhere he turned.

"How dare you!" the God King Bei Feng cried out in shock and rage, yet found that even with his strong power at the First Realm of the Godly King, he couldn't struggle at all.

"I gave you face, allowing you to withdraw, and you didn't. So now I'll just drive you away!" Luo Feng's eyes turned cold.

Boom!!!

The might of the world power swiftly surged, terrifying the God King Bei Feng.

"You'll regret this," the God King Bei Feng stared at Luo Feng, as his body under terrifying might was compressed and shattered, turning to dust.

"Just a small lesson," Luo Feng said calmly.

Mere destruction of a true body was indeed just a lesson. The God King Bei Feng had come prepared for the talks to break down and had not brought any treasures.

Yuan watched the entire process, and only after the true body of the God King Bei Feng was annihilated did Yuan speak, "Luo He, the Life Mother River is not easy to provoke, right?"

"Rest assured," Luo Feng said with a smile.

He was well aware of the depths of the Life Mother River.

"What do we do now?" Yuan looked around, sensing some internal members of the Life Mother River still present in the cave mansion, but they were all eternal true gods.

"Wait," Luo Feng said.

...

In the Land of Origin, a hidden world opened up, also known as the 'Mother River World.'

Here, creatures thrived and reproduced; eternal true gods, Primal Chaos Realm dwellers, and Godly Kings cultivated here, making it the true core of the Mother River's power.

"This Luo He is too arrogant! He completely disregards our Life Mother River," the Divine Power Incarnation of God King Bei Feng roared furiously in indignation. "In the Land of Origin, what is a Luo He worth?"

"I heard he can rival Tian Kun with his strong life force." Distant figures relaxed nearby, among them, a towering figure suddenly stood up, revealing a smile, "Let me test him to see how many moves his body can withstand from me."

"Zongfu, there is no need for you to make a move for such a trifle," said others.

"Zongfu, leave this matter to me," another offered.

The surrounding Godly Kings all prevented him.

God King Zongfu, next only to the 'Master of the Mother River' in the Life Mother River's forces, and even in terms of frontal combat prowess, was on par with the Master of the Mother River, whose methods were even more profound and inscrutable.

"I will handle this matter myself," a voice said.

The multitude of Godly Kings turned to look, seeing a figure in a black robe that seemed to merge with the world around him.

All the gathered Godly Kings stood up and paid their respects.

"Master of the Mother River."

"Zongfu."

"Big brother Zongfu."

The Godly Kings called him by different names, but all very respectfully.

"Zongfu, are you going to meet him yourself?" the towering 'God King Zongfu' asked.

"This Luo He is currently of average strength," the man in the black robe said with a smile. "But in the future, he might influence the order of the Land of Origin. It is time to meet him."

God King Zongfu nodded slightly.

The two of them were friends who had reached this pinnacle together. The core of the entire Life Mother River's power was these two!

...

In the square inside the cave mansion, the silver-clad Luo Feng stood waiting, Yuan beside him.

"He’s here," Luo Feng sensed, within the range covered by the Power of the World, a force that followed causality and appeared instantaneously on the square, teleporting from a distant place directly in front of Luo Feng.

This was a man in a black robe, his smile carrying endless charm, imbued with boundless life force, and also shrouded in mystery.

"Master of the Mother River ’God King Zongfu’?" Luo Feng looked at him.

"It seems your mentor has told you all about me," the man in the black robe said with a smile.

"The most powerful servant of the Flame Wind Ancient Country," Luo Feng said. "How could I not know?"

In the early days of the Flame Wind Ancient Country, ’Emperor Yan’ was the first Emperor of the Flame Wind Ancient Country.

At that time, the Imperial Clan had only three members in the Second Realm of Godly King and five Guest Elders in the Second Realm of Godly King! The most powerful among them was none other than ’God King Zongfu,’ who fought battles far and wide for the Ancient Country.

In that era, the prowess of God King Zongfu was almost unrivaled.

"Indeed."

The man in the black robe said wistfully, "Back then Emperor Yan relied heavily on me. As a Guest Elder God King, I chose to fully join the Flame Wind Ancient Country and devoted myself to serving it. But, you see the result."

"Because my weapon was too powerful, Emperor Yan mobilized the entire force of the Flame Wind Ancient Country to eliminate me," the man in the black robe scoffed. "He truly couldn’t stand having a servant stronger than himself! I didn’t have as many resources; I’m not an Ultimate Realm Life Form... It was simply that my own realm was high enough that just possessing a formidable weapon allowed me to rival him. He couldn’t tolerate me any longer."

The man in the black robe looked at Luo Feng, "Luo He, your potential is maybe even greater than mine. Do you think, in the future, they will tolerate you?"

"At least for now, my mentors are gracious to me," Luo Feng said.

Luo Feng was well aware of the power of the person before him.

In the whole Land of Origin, according to his mentor's intelligence, there were only five individuals who could challenge Emperors and Monarchs from the Second Realm of Godly King.

They were the Wind Capital Empress, the Earth God King, a mysterious powerhouse from the Shadow Sky Realm, Fire Ancestor, and the Master of the Mother River before him.

The Wind Capital Empress and Fire Ancestor were relatively detached.

The Earth God King... having a great enmity with the Thunder Ancient Country, usually acted alone, only joining the Reincarnation Tower because of a close relationship with the Wind Capital Empress.

The figure from the Shadow Sky Realm was very mysterious; even the two Ancient Countries were unclear about his real identity.

The Master of the Mother River, whose true identity was 'God King Zongfu,' had fought against the Flame Wind Ancient Country countless times. Many Godly Kings with grudges against the Flame Wind Ancient Country joined the 'Life Mother River,' gradually strengthening it.

The two Ancient Countries, three top-tier forces, and five supreme powerhouses — these were the entities that decided the order of the Land of Origin.

Forces like the Two Realms Palace, Wanfa Tower, and Time-Space Lonely Boat, because they were led by Alien race powerhouses comparable to the two ancestors, were very tricky; they didn't seek to change the order of the Land of Origin, only aiming for some resources left by Yuan.

None of the five supreme powerhouses had joined the three forces established by the Alien race.

"You're right, they are currently gracious to you," the man in the black robe looked at Luo Feng and smiled, "Let's consider today our first acquaintance. You asked me to leave your twenty Primal Chaos Prefecture domains. I agree, I will have them leave immediately."

"I believe that in the future... we may have a day when we join forces," the man in the black robe said with a smile before disappearing into thin air.

Luo Feng stood in the square, frowning slightly.

In the future, will we join forces?

Chapter 208 - 5 The Early Construction of the Blade River Sect

"The ruler of the Life Mother River doesn't seem to quite match the information my master gave me," Luo Feng thought.

In the intelligence given by his master Emperor Chu, the ruler of the Life Mother River was described as brutal and arrogant, with a ruthless and merciless approach. He cultivated both the 'Great Dao of Life Origin' and the 'Origin Dao of Causality' and possessed a terrifying secret treasure, which, like a spike, was known to the outside world as 'Causality Wind'. Countless Godly Kings from the Imperial Clan of Flame Wind Ancient Country fell at his hands, making him the number one enemy of the Flame Wind Ancient Country.

For one, the supreme rules of the Land of Origin limited the power of foreign creatures to the ceiling of the Primal Chaos Realm, while the power of native creatures was limited to the ceiling of the Ultimate Realm of Godly King. Even if the Ancestors of the two countries returned, their destructive power would be limited in the Land of Origin.

Secondly, the ruler of the Life Mother River specialized in the two paths of 'Life' and 'Causality', which gave him a considerable advantage in preserving his own life.

The Primogenitor Yan Feng had once made a move against him. Despite being limited by the 'Ultimate Realm of God King' in terms of power, by capitalizing on his high realm and terrifying treasures... he instantly eradicated all avatars and revival hosts of the ruler of the Life Mother River in the Land of Origin.

Yet, after Primogenitor Yan Feng left, the ruler of the Life Mother River somehow reappeared, clearly having a way to avoid being completely eradicated by Primogenitor Yan Feng.

"Flame Wind Ancient Country, with deep-seated hatred for the ruler of the Life Mother River, still couldn't kill him," Luo Feng mused.

"And among the Godly Kings who held enmity with Flame Wind Ancient Country, quite a few have joined the Life Mother River. There are as many as seven or eight at the Second Realm of Godly King, which has made the actions of the Life Mother River increasingly overbearing and powerful," Luo Feng had previously sensed.

They boldly recruited followers in their own territory, too lazy to even notify him.

Even a Godly King Bei Feng dared to challenge him openly.

"And my master also has a grudge against him," Luo Feng knew this for a fact.

The ruler of the Life Mother River, with enmity against all the royalty of the Flame Wind Ancient Country! One of Emperor Chu's close relatives died at the hands of the ruler of the Life Mother River, hence the intense hatred from the master, who had pursued him numerous times.

In the face of Emperor Chu, an 'Ultimate Life Form' who practiced the Great Dao of Destruction Origin, even the ruler of the Life Mother River, with his 'primary avatar' carrying the secret treasure 'Causality Wind', couldn't fight back, and thus had always kept a distance.

"His subordinate, a Godly King Bei Feng, is already so arrogant. And yet, the ruler of the Life Mother River is so friendly to me, convinced that I will join forces with him?"

"Regardless, I owe a great debt to my master, to Emperor Ming, as well as to Emperor Chu Yu and Emperor Chu Ying... They have helped me quite enough." Luo Feng momentarily set these thoughts aside and turned to the Primoridal Ancestor standing beside him.

"Primoridal Ancestor, let us go," said Luo Feng.

The Primoridal Ancestor nodded. The smooth resolution of matters was beyond his expectations.

Whoosh.

Luo Feng, taking the Primoridal Ancestor with him, vanished in an instant.

In the square, countless eternal true gods gathered, numbering in the hundreds, all somewhat perplexed.

"From now on, my Fiery Fire Sect will completely withdraw from the twenty Primal Chaos Prefectures under the rule of City Lord Luo, and there will be no more recruitment and screenings. All of you may go back!" a grand voice echoed across the square.

"We have already come all this way, please show mercy on us."

"We want to join the Fiery Fire Sect."

The eternal true gods grew anxious.

However, this decision was made by the highest leader of the 'Life Mother River', the grand power behind the Fiery Fire Sect! They will withdraw entirely from all twenty Primal Chaos Prefectures within their charge, without dissent.

"We have received an invitation and took great pains to travel here from the surrounding areas. Although the Fiery Fire Sect's selection is strict, one in ten could make it, and now, there's no chance at all!"

"The Fiery Fire Sect may be mysterious and powerful, but clearly it cannot overpower City Lord Luo."

"City Lord Luo is formidable, and his battle with the Master of the Shi Kingdom shook heaven and earth, but he wouldn't care about us eternal true gods."

This group of eternal true gods were considered elite, having been invited to come here! Of course, they still had to go through the

selection process, out of the hundreds of them, dozens would have been able to join the Fiery Fire Sect.

The Fiery Fire Sect was one of the many forces under the Life Mother River.

These eternal true gods would belong to many different forces, and there would be internal competition!

"Let's go, let's go."

"Alas, for us eternal true gods, seeking a legacy and an opportunity is so difficult."

"It's rare to find a sect like the Fiery Fire Sect, and now we've been driven away by City Lord Luo."

Hundreds of eternal true gods could only leave in disappointment.

...

Original and Luo Feng returned to the Huyang City Lord's Mansion together.

"Luo He," Original began, "in my investigation of the Life Mother River's infiltration into our twenty Primal Chaos Prefectures, I have come to understand the ordinary eternal true gods quite well. Seeking an opportunity, finding a suitable inheritance is extremely difficult for them! That's why they care so much about the recruitment by the Life Mother River."

Luo Feng nodded.

In the Land of Origin, the realms of Primal Chaos and various sects rely on inheritance and resources to push their eternal true gods to strive fiercely.

In the past, he himself had spent a lot of effort just to earn some resources.

"Having driven away the Life Mother River, we have stripped the eternal true gods in our twenty Primal Chaos Prefectures of a major

opportunity," Original stated.

"What do you suggest?" Luo Feng asked, looking at him.

"With the speed of your growth, Luo He, the territories you command in the future may well be much larger than they are now," Original said. "I think we could start cultivating suitable cultivators in advance."

Luo Feng smiled, "I'm not concerned about the size of the territory I command."

"If you become powerful enough, even matching the level of an Emperor, I'm afraid Godly Kings would lead their nations to you. The Master of the Shi Kingdom, Tian Kun, would probably be anxious and might even give you the entire Shi Kingdom territory as compensation," Original remarked.

Luo Feng's eyes narrowed.

Compensate?

Emperor of Tian Kun, there's no chance for you to compensate!

However, if Tian Kun's Emperor were to be dealt with, the territories of Shi Kingdom would likely fall under his name.

"You may not care about the size of the territories, but those ordinary cultivators do," Yuan said. "If the ruling Master is too cruel and merciless, ordinary cultivators will naturally live in misery, just like the creatures in the Snow Realm Territory under the Ancestral God of the Snow Realm... Countless creatures live in utter despair."

"Under your rule, however, the lives of the ordinary cultivators would be vastly different," Yuan added.

Shock flashed through Luo Feng's heart.

It might be trivial for him, but the impact on countless cultivators was profound.

"You're right," Luo Feng looked at Yuan, who saw things more clearly

than he did.

"My many illusionary avatars have integrated into all aspects of life in the Land of Origin, and some have even ventured to other territories," sighed the Primordial Ancestor. "I am well aware of the lives ordinary cultivators lead."

Luo Feng nodded, "Then let's establish a sect and recruit disciples in the name of the sect."

"What's the name of the sect?" the Primordial Ancestor asked.

"Blade River Sect," Luo Feng said with a smile.

The Primordial Ancestor understood.

Of course, he knew that Luo Feng was once known as 'King Dao He' in the Primordial Cosmos.

"As for the rules of the sect, and the recruitment of disciples, I'll leave all these aspects to you, Primordial Ancestor," Luo Feng said. The Primordial Ancestor had long since created the 'Virtual Universe' secret technique, and now he delved deeper into this path, with a profound understanding of the workings of the world and the desires and emotions of all beings.

Luo Feng felt most at ease with the Primordial Ancestor handling this.

"Alright," the Primordial Ancestor gladly accepted, as it was his own suggestion, and he also cared about the ordinary cultivators.

"Our Blade River Sect has territory and resources; the only thing missing is a truly powerful inheritance," said the Primordial Ancestor. "Although we can easily come up with many inheritances leading to the Primal Chaos Realm, the 'Primal Chaos Realm inheritances' created by beings of different levels have different effects."

One written by a being from the Primal Chaos Realm.

One written by a Godly King.

Even an inheritance written by a Godly King at the Ultimate Realm, all aimed at reaching the Primal Chaos Realm, the one from the Ultimate Realm of God King would be simpler and more straightforward, and would greatly increase the chances of becoming a being of the Primal Chaos Realm.

"I'll do it myself, I will write a dozen or so Godly King Level inheritances recently," Luo Feng said.

"Good," the Primordial Ancestor's eyes lit up. "With your accumulation and your talent, the inheritances you create will naturally be far superior to those commonly purchased outside."

...

Writing Godly King Level inheritances was an easy task for Luo Feng.

He, after all, deduced the 'Mental State of the Ten Directions' relying on the profound mysteries at the Primal Chaos Realm level and also the first strike of the dynamic six strikes. His deep understanding of the mysteries of the Primal Chaos Realm needs no saying.

And now, he had even deduced the six major branches of life, the six branches of destruction, and even fused some moves of the 'Great Dao of Life and Death' from the two Origin Great Daos. He had also understood four special grade inheritances, which greatly expanded Luo Feng's horizons.

With such an accumulation, he began creating the most basic Godly King Level inheritances! Probably even more effective than those created by beings at the Second Realm of Godly King.

Writing inheritances was also a review and summary of one's own cultivation.

"The fifteen Godly King Level inheritances are all here." In just over a hundred thousand days, Luo Feng had stored the fifteen Godly King Level inheritances in the newly established headquarters of the 'Blade River Sect.'

"So fast?" Yuan picked up a Godly King Level inheritance part one and began to read. Immersed in the text, he didn't look up until he

finished, then he looked at Luo Feng in amazement and said, "This part one leads to the Primal Chaos Realm, it's simpler and more accessible than any inheritance I've ever seen, with a clearly higher ceiling."

Luo Feng nodded with a smile: "The part one and part two are a whole, with part one leading to the Primal Chaos Realm, laying a solid foundation and facilitating the cultivation of part two, which hopefully will also increase the chances of reaching the Godly King Realm!"

Luo Feng adhered to his own cultivation attitude; he did not expect his sect disciples to 'comprehend high-level secret techniques from a low realm,' but that they master enough techniques at the same level to have a solid foundation.

"Among the fifteen inheritances, six are based on the Great Dao of Life Origin and six are based on the Great Dao of Destruction Origin. The remaining three inheritances... have no complete Dao references within the Supreme Rules. Those destined may comprehend them," Luo Feng said.

In Luo Feng's view, these were all basic inheritances.

The six Life inheritances, each focusing on a single branch.

The six Destruction inheritances, each also focusing on a single branch—to lower the difficulty of becoming a Godly King to the minimum. Of course, Luo Feng also knew... even so, producing a Godly King was extremely difficult.

"With these fifteen inheritances, the sect's foundation will be extremely solid," Yuan marveled. "I myself have to take a good look and learn. I attained the Primal Chaos Realm long ago... but now I feel that my understanding of the Law of Primal Chaos is not thorough enough."

Seeing these inheritances, Yuan felt the solidity of Luo Feng's foundation.

"Shall I start openly recruiting disciples now?" Yuan said. "As the

leader of the Blade River Sect, your fame alone... will make countless eternal true gods yearn to join the Blade River Sect. The appeal of the Blade River Sect will be far greater than those hidden factions by the Life Mother River."

The Life Mother River was, after all, targeted by the Flame Wind Ancient Country, recruiting disciples in small groups, and there was no publicly known sect headquarters in the outside world.

The Blade River Sect, founded by City Lord Luo, presiding over twenty surrounding Primal Chaos Prefectures, is a proud and legitimate major sect.

"Begin the recruitment," Luo Feng nodded.

Yuan was quite excited; he believed that in the future, human powerhouses who journeyed through the cycles of reincarnation to the Land of Origin would also become part of the Blade River Sect.

Chapter 209 Reincarnation Tower's Squad

The establishment of the Blade River Sect near Huyang City was a huge celebration across dozens of Primal Chaos Prefectures! Countless cultivators were excited, and some eternal true gods from both Shi Kingdom and Yu Kingdom rushed to join the Blade River Sect.

"A sect established by Godly King Luo He!"

"Luo He, the absolute best in the Primal Chaos Realm and upon becoming a Godly King… could immediately rival the Master of the Shi Kingdom!"

Cultivators from the dozens of Primal Chaos Prefectures nearby, who didn't know of the Master of the Shi Kingdom's tyranny! Over the long years, Shi Kingdom had been eroding and annexing the surroundings, even giving Yu Kingdom a tough time.

Luo Feng's battle with the Master of the Shi Kingdom, even forcibly taking ten Primal Chaos Prefectures from Shi Kingdom, had already proven his dominance!

Otherwise, why would the Master of the Shi Kingdom cede ten Primal Chaos Prefectures?

"With the establishment of the Blade River Sect, the first recruitment of disciples brought in 1508 eternal true god level disciples, over 30,000 true god of void space level disciples, and the selection for true god level disciples was extremely strict, also bringing in more than 50,000 of them," Yuan said.

Morosa also said, "We've tried to raise the bar as high as possible, but too many cultivators came to participate."

"The number is more than I expected," Luo Feng said.

With the sect just established and still running with some flaws, the first recruitment was intended to be controlled as much as possible with very high standards, but the number of selected disciples ended up being multiple times more than estimated.

"Mainly because, aside from our twenty Primal Chaos Prefectures, too many cultivators from the surrounding Shi Kingdom and Yu Kingdom rushed over," Yuan said. "Neither the Master of Shi Kingdom nor the Monarch of Yu Country have established sects; only the most elite and brilliant eternal true gods in their countries are invited to become their disciples. The numbers are really too few."

Luo Feng nodded. Initially, since he was outstanding enough, he even received an invitation from the Monarch of Yu Country who wanted to recruit him as a disciple.

How many could reach such brilliance?

"For the Master of Shi Kingdom and the Monarch of Yu Country, having disciples isn't that significant," Luo Feng said. For them, at their level, the numerous resources brought by the state were chiefly for their family, for their subordinates.

They cared more about some resources left behind by Yuan, more about their own cultivation of the Primordial Bloodline.

"This time, our recruited disciples, about one-third of them are from our twenty Primal Chaos Prefectures," Yuan said.

"From now on, I'll leave the affairs of the sect to you two," Luo Feng said with a smile.

"Rest assured," Morosa immediately responded.

Yuan nodded.

Though both seemed to be from the Primal Chaos Realm, Morosa was actually at the Godly King Level, and they were sufficiently capable of managing the regular affairs of the sect.

"We might also need you, Luo He, to give some disciple quotas," Yuan said. "Registered disciple quotas will suffice; it will make the sect's disciples strive even harder."

Luo Feng nodded, "Start with ten registered disciple quotas and one direct disciple quota."

"That's enough," Yuan nodded.

Upon hearing this, Morosa felt a surge inside: "Master is recruiting a second direct disciple? Qingyan's status might not be so stable soon; this young man who is cultivating the Bloodline Cultivation System under my personal guidance, with resources provided… has only managed to discern one Primal Chaos Realm movement technique so far! He's far too far from reaching the Primal Chaos Realm."

Like the previously mentioned Divine Monarch Xue Yun, who mastered many Primal Chaos Realm movement techniques and even formed a complete system.

"I need to push him hard," Morosa decided firmly, aware that with the sect's broad recruitment of disciples, in the future, both direct and registered disciples would possess high talents.

Only by becoming a Primal Chaos Realm cultivator and leveraging his status as the top disciple could Moyu Qingyan secure his position.

Otherwise, even as the top disciple, being just an eternal true god, he would eventually be marginalized among the other disciples.

...

The establishment of the Blade River Sect in Huyang City, and across the Shi Kingdom and Yu Country, was considered a major event. However, in the whole Land of Origin, it hardly caught any attention as the Blade River Sect barely qualified even as a second-rate power!

In terms of territory and the overall strength of the sect, they were too weak! Only the sect's master, "Godly King Luo He," was considered a local overlord.

In the blink of an eye, it had been half an era since the establishment

of the Blade River Sect.

"Hmm? Emperor Gui Xu has invited me to the treasured 'Dream Domain'?"

Luo Feng, who had been in retreat, was intrigued by an invitation from the Reincarnation Tower and promptly used his token to project his thought to that tower.

In the ethereal assembled loft, Luo Feng, since becoming an official member of the Reincarnation Tower, had visited several times. After becoming a Godly King, he had also received several call-to-action invitations, but Luo Feng had declined them all.

"Brother Luo He," called out a towering figure in the Reincarnation Tower, the recruiter this time, 'Emperor Gui Xu,' with a welcoming smile.

"Luo He." Another figure, a one-eyed woman clad in a pale green robe exuding a slightly sinister aura, was 'Cloud Sky God King', also in the First Realm of Godly King, and in the entire Reincarnation Tower, only she and Luo Feng were in the First Realm of Godly King.

Luo Feng casually sat down and asked, "Who else is coming?"

"Wuxin God King will be here shortly," Emperor Gui Xu said.

Luo Feng nodded.

Just a few breaths later, a young man entered with a smile, "Brother Gui Xu, are there any other members?"

"Just the four of us this time," Emperor Gui Xu said with a smile. "Brother Luo He rarely makes an appearance; it's truly rare that he accepted the invitation this time. This is the first time Brother Luo He is willing to take action since coming to the Reincarnation Tower."

Wuxin God King also said, "Brother Luo He has been busy lately, just became a Godly King, fought with the Emperor of Tian Kun, and now has established a sect."

"Just finished being busy," Luo Feng said.

"Establishing a sect actually adds a burden," the one-eyed woman, Cloud Sky God King, said from the side. "If a big disaster is stirred up in the future, the sect could become a weakness."

Emperor Gui Xu said, "Brother Luo He and us are different, he excels in the clone technique and cultivates multiple Great Daos. His life-saving methods are much stronger. Even if he stirs up big trouble, how many would be willing to pursue him to the death? I've come to realize that in the Land of Origin, the ability to protect oneself is more important than the ability to kill!"

"Right." Wu Xin, the Godly King, also nodded in agreement.

"The two of you still think your life-saving measures are weak." The one-eyed lady, Cloud Sky Godly King, shook her head speechlessly.

In his past life, Emperor Gui Xu had died from an encirclement by three emperors, yet he still managed to reincarnate in time.

Wu Xin, the Godly King, had comparable strength to Emperor Gui Xu head-on but possessed greater escape abilities. The Flame Wind Ancient Country had attempted to kill him numerous times, and each time Wu Xin successfully escaped. Later, for the sake of his own clan, he deliberately allowed himself to be reincarnated amidst the encirclement.

After reincarnating, he hid in the shadows, and the Flame Wind Ancient Country couldn't locate him through causality. Instead, they feared him even more and dared not easily strike against Wu Xin's clan members.

Keeping one's clan is a form of constraint.

The Flame Wind Ancient Country learned their lesson; a Godly King with nothing to lose and full of hatred poses a great threat.

Initially, the three emperors believed they could completely annihilate Emperor Gui Xu when they killed his wife, children, clan, and even all creatures in the entire city! But Emperor Gui Xu's methods were stronger than they anticipated, and despite handing over his secret treasure, he still managed to withstand their combined

deadly move momentarily, long enough to reincarnate.

After reincarnating, Emperor Gui Xu used every method at his disposal, particularly targeting the new Godly Kings of the Flame Wind Ancient Country! Those who had just broken through were relatively weaker… Emperor Gui Xu, exploiting his advantage over the weaker ones, exhausted all means to assassinate them, even erasing their resurrection mediums.

To this day, he has thoroughly eradicated seven or eight Godly Kings of the Flame Wind Ancient Country! This caused great pain to the Flame Wind Ancient Country.

"Let's talk business." Emperor Gui Xu sat down, "This time, I plan to go to the treasure land 'Dream Domain', and I've invited all members. Those willing to come are just the four of us."

Yuan left behind multiple treasure sites in the Land of Origin.

Some require quotas.

Others are open to everyone! But because there are no restrictions, the thresholds are extremely high! Powerful forces will try to monopolize them, and the only way to get in is to fight your way in!

"Dream Domain…" Luo Feng was naturally aware of this treasure site's information, "With my strength, I can't fight my way in! If I get in through a relationship with the Flame Wind Ancient Country, I'd have to work under them."

This is the price of being a guest elder; want to get in? The Flame Wind Ancient Country can allow it, but you must complete many missions. Even the treasures obtained, the lion's share goes to the Imperial Clan!

"Usually, it's the three of us who act together," Emperor Gui Xu laughed, "This time we have Brother Luo He with us, so it's much easier. Many dangerous situations can be handled by asking Brother Luo He for assistance."

"Leave it to me," Luo Feng nodded.

Scouting hazards could be assigned to weaker avatars.

"From now on, the four of us will act together," Emperor Gui Xu said, "Cloud Sky Godly King will be responsible for the domain; Wu Xin and I will handle powerful enemies, while Brother Luo He will take care of scouting."

"Previously scouting was all up to me," Wu Xin, the Godly King, cheerfully interjected, "I am good at escaping, but I have only one true body. Once I encounter big trouble, I can't even escape. Now it's better with Brother Luo He… his scouting is far superior to mine."

Because the avatars dispatched by Luo Feng didn't care about escaping!

"Do the other members usually not participate?" Luo Feng asked.

Wu Xin, the Godly King, replied, "Wind Capital and Earth Godly King, both of them are powerful enough to rival emperors and monarchs! Unless it's something incredibly important, they wouldn't participate. To them, we are not just unhelpful, but rather a burden."

Luo Feng nodded.

Empress Wind Capital is well-respected, having never caused friction with various forces.

Although the Earth Godly King fights fiercely with the Thunder Ancient Country, he always acts alone.

"Great Freedom Sovereign is the highest power in the Wanjie Kingdom, second only to the 'Lord of Ten Thousand Realms'. He is a direct disciple of the Ten Thousand Realms Lord, has high status and power, and generally lacks nothing in terms of resources. He does not usually join in ordinary activities," Wu Xin, the Godly King, explained, "Tian Kun Emperor also, being a direct disciple of the Primogenitor Yan Feng, normally does not participate. As for 'Black Fire Demon Lord', commanding a major power, he won't easily involve himself."

"Only the top resources of the Land of Origin can attract those three," Wu Xin chuckled. "Me, Gui Xu, and sister Cloud Sky, we all operate

independently, which is why we often act together." Read new chapters at empire

"Now we have Brother Luo He added to the mix," Emperor Gui Xu laughed heartily, "Although Brother Luo He also commands a force, he does have many avatars after all."

"Our team has become stronger," Wu Xin expressed his satisfaction.

"It's thanks to Brother Gui Xu and Brother Wu Xin leading me; I am the weakest in the team," the green-garbed one-eyed lady said.

Luo Feng also said, "This is my first mission, and I'm not very familiar with it, so please feel free to speak up about anything."

"Brother Luo He is too polite," Emperor Gui Xu still valued Luo Feng greatly. Having become a Godly King so impressively, what level could he achieve in the future? He would definitely be a great asset on his path of revenge.

Perhaps now Luo He is reluctant to conflict with the Flame Wind Ancient Country,

but by utilizing Luo He to obtain more treasure land resources and strengthen himself, this too is a form of cooperation.

"For the treasure land 'Dream Domain', we need Emperor Gui Xu and Emperor Wu Xin to fight our way in," Luo Feng also understood that Emperor Gui Xu and Emperor Wu Xin definitely ranked among the pinnacle of the Second Realm of Godly King, stronger than the Emperor of Tian Kun. To reach this level within the normal Godly King Second Realm was already the limit.

To advance further, to the level of emperor or monarch?

According to the known methods on the Land of Origin.

Either by mastering the complete Origin Great Dao, like the Lord of Ten Thousand Realms,

or by cultivating into an 'Ultimate Realm Life Form', like the emperors and monarchs of the two ancient countries, which requires

immensely vast resources,

or by possessing extraordinary talents, like Empress Wind Capital and the Master of Yun He, who cultivate multiple Great Daos and practice powerful legacies… only then can one rival that level.

"If no one has any objections, then let's meet at Huang Yao Mountain in three days," Emperor Gui Xu proposed.

Chapter 210 Dream Domain

Huyang City, city owner's mansion, in the Star Tower of the underground quiet room.

Two Luo Fengs sat cross-legged, one being a Perfect Divine Body, the other a World Life Form. After such an extended period, Luo Feng's Perfect Divine Body, drawing energy from his small universe, had long since returned to a state of Perfection. The energy reserve of the World Life Form had also reached 60% of the 'Perfect Divine Body'.

"Bloodshadow Knife." Luo Feng with the Perfect Divine Body held the Bloodshadow Knife, its surface manifesting secret patterns, containing an endless aura of destruction.

"As of now, I have grasped three strikes of the 'Chaos Hole Six Strikes,' and all three secret techniques have already been integrated into the Bloodshadow Knife." Luo Feng looked at the Bloodshadow Knife, "After all, the Bloodshadow Knife is a weapon of slaughter, its cultivation centers around the Path of Destruction."

In terms of slaughtering, the Path of Destruction certainly surpasses the Great Dao of Life.

And the integration of both into the 'Great Dao of Life and Death' is even more terrifying, but without a clear dao guiding, progression is too slow. From the Godly King Level secret techniques of the Life and Death Path that Luo Feng has grasped, more than ten, yet not a single branch of the dao has emerged, from which one could see the difficulty in pioneering a new path.

One could foresee...

Grasping the complete Path of Destruction would definitely be much easier than figuring out the complete 'Great Dao of Life and Death'! The Bloodshadow Knife naturally suits carrying the 'Path of

Destruction' better.

"After imprinting the secret techniques, holding the Bloodshadow Knife, just a slight stimulation would allow one to execute three moves of the Chaos Hole Six Strikes." Luo Feng examined the Bloodshadow Knife, "The requirements for Spiritual Will are much lower then."

Weapons nurtured personally have their strengths right here! A perfect fit for oneself, executing moves with an extremely low burden on the spirit. Thus, in battle, the Spiritual Will can perform many other moves.

.p> "With one tenth of my World Life Form energy reserve, holding the Blood Shadow Knife, I could execute the Chaos Hole Six Strikes. I estimate its power could approach Brother Gui Xu, Brother Witch Heart, but there's no need!" Luo Feng was clear.

With multiple avatars, he could entangle the Emperor of Tian Kun! Some emperors and monarchs of the two Ancient Countries could still tolerate...

But if it were at the First Realm of Godly King, reaching the levels of Emperor Gui Xu, Wuxin God King, what those emperors and monarchs would think would be hard to say.

"Once my power progresses further, when I'm completely unafraid of any challenger in the Land of Origin, things will be much better." Under the guidance of a few Special Grade Inheritances, Luo Feng had a clear direction to become fearless of any challenger on the Land of Origin.

Multiple directions in parallel.

"The enhancement of the dao is fundamental, but it needs to be achieved one step at a time, it cannot be rushed."

"Instead, my Spiritual Will has already reached its peak, and I could attempt to break through to 'Beyond God King Level' during the First Realm of Godly King stage." Luo Feng had this plan.

In this era on the Land of Origin, three individuals whose Spiritual

Will reached Beyond God King Level are Emperor Qing and the Lord of Ten Thousand Realms, who both realized the complete dao before their Spiritual Will breakthrough.

Emperor Ming was at the Second Realm of Godly King stage when his Spiritual Will reached 'Beyond God King Level.'

But as a Perfect Divine Body, his soul's foundation surpasses the contemporary ones, much thicker than Emperor Ming's. With a far more profound base, coupled with Yuan's 'Lie Yuan Technique,' Luo Feng himself believed, during the First Realm of God King he could attempt to challenge and reach a breakthrough.

"Among the treasures Yuan left behind, the 'Dream Domain' was most suited for practicing the Great Destruction Heart Refining Technique." Luo Feng was quite interested in the treasure 'Dream Domain.'

"This time I'll take a tenth of the World Life Form energy reserve."

Luo Feng willed it.

A huge part of the World Life Form immediately divided into one tenth of its energy reserve, transforming into a silver-clad Luo Feng image.

With so much energy reserve, it was enough for Luo Feng to create numerous avatars.

"Entering the Dream Domain this time could also allow me to take root in the Dream Domain, using its environment to cultivate the Great Destruction Heart Refining Technique." Luo Feng was quite looking forward to it, as Yuan's treasures vary greatly.

Likewise, Tianhe, especially suited for Cultivators with Primordial Bloodline of water attributes. But Luo Feng had no interest at all.

The Dream Domain, mysterious and enigmatic, nurtures all kinds of bizarre and exotic rarities; however, the deeper the Dream Domain, the greater the influence on the mind, even running the risk of delving too deep and falling into a sleep-like trance, potentially never waking up. But Luo Feng liked such an environment!

...

Three days later.

The towering giant Huang Yao Mountain, spanning tens of trillions of kilometers, the convener of this mission, 'Emperor Gui Xu' had already arrived.

Dressed in blue armor and an aged face, Emperor Gui Xu stood atop the mountain peak, waiting.

"Brother Gui Xu," a woman in black 'Cloud Sky God King' arrived, members of the Reincarnation Tower would always conceal their presence and change their appearances; Cloud Sky God King's aura was now reined in, utterly ordinary.

"The two of them have also arrived." Emperor Gui Xu looked into the distance.

Two figures arrived one after the other.

One clad in a mask, tall and thin.

The other in black scale armor and golden horns.

"Is this brother Luo He?" Emperor Gui Xu, Cloud Sky God King, and Wuxin God King all looked at Luo Feng's disguised form with a smile, the three of them familiar with each other, but seeing Luo Feng in disguise for the first time.

"How does it feel?" Luo Feng smiled, his transformed appearance borrowing some traits of the 'Golden Horned Giant Beast.'

"Quite different from usual indeed," Wuxin God King commented from the side, "Brother Luo He, your previous physical body had a very strong life aura. But this one now contains an aura of destruction."

Luo Feng thought to himself, formless and intangible, naturally, he could change as he wished.

"Land of Origin, many are skilled in the Path of Destruction,"

Emperor Gui Xu also nodded, "There are quite a few with the Clone Technique."

The Supreme Rules encompass only nine Origin Great Daos, each exploring some Godly Kings cultivating them, but there is also a difference in numbers. Time Primordial Dao has the fewest cultivators among Godly Kings, then like Causality, Extreme Point, Infinite, these three daos are quite challenging to master, with fewer cultivating Godly Kings.

Space, Matter, World, Life, Destruction—these are relatively easy to start with, with more cultivating Godly Kings.

But in terms of the most number of cultivators, it's undoubtedly the 'Great Dao of Destruction Origin'! After all, everyone would study methods of killing during their growth.

"Wuxin, it'd be troublesome for you to lead us in," said Emperor Gui Xu.

"Alright."

Wuxin God King responded.

Hum!

An invisible force instantly enveloped the four present, making them feel the flow of energy as they perfectly merged with the operation of the laws between heaven and earth.

"This..." Luo Feng was somewhat stunned. They were clearly still in the same place, but light, spatial fluctuations, and sensory perceptions all ignored them, and even causality was blurred.

All probing methods of the laws of heaven and earth were being blurred.

"No wonder the Flame Wind Ancient Country tried to kill Wuxin God King several times, even deploying Emperors, yet he always escaped. In the end, it was he who chose to reincarnate." Luo Feng realized how terrifying this escape technique was.

"Let's go." Wuxin God King winked at Luo Feng, showing off his escape technique.

Whoosh!

In an instant, the four of them tunneled through heaven and earth, and in a trance, they had crossed half of the Land of Origin.

"The entrance to the Dream Domain is just ahead," Wuxin God King said as he looked ahead.

Before them lay a dark canyon, its darkness profound, swallowing all light and perception, making it difficult for even a Godly King to probe inside.

"The structure of the Dream Domain entrance is unique, making it impossible to set up a stable formation." Wuxin God King explained with a smile, "However, the two Ancient Countries have sent Godly Kings with mobile formations to envelop the entrance."

Luo Feng was the only one among them who had never entered, and clearly, Wuxin God King was explaining for his benefit.

"In a moment, I will try to enter from a spot, and most likely they won't detect me. If discovered, we'll have to take action," Wuxin God King said with a grin.

"Wuxin and I will take action if needed," Emperor Gui Xu stated.

Whoosh!

Luo Feng and the other three immediately flew into the dark canyon.

"Hum." The moment they flew in, Luo Feng felt an invisible force tugging at his spiritual will, but with the strength of his will, he naturally resisted easily.

This was a gloomy world, where the world itself was floating and distorting under the influence of an invisible and vast formation.

"This vast area at the entrance of the Dream Domain is occupied by the two ancient countries, and they're using it to blockade the

entrance," Wuxin God King said as they tunneled slowly to avoid detection, "The two formations from the two countries complement each other, intercepting all who try to enter."

Luo Feng secretly marveled.

The Dream Domain, left by Yuan, set no threshold, yet entering it remained incredibly difficult.

"Hmm?" Luo Feng spotted a majestic white figure sitting cross-legged in the distance. That figure possessed a vast aura and was a node of a giant formation, engaging with him would trigger the entire formation's retaliation.

"It's from the Thunder Ancient Country's Imperial Clan," observed Wuxin God King briefly, "It seems this area is blocked by the Thunder Ancient Country."

"He's guarding a rare treasure," Cloud Sky God King transmitted the message.

Luo Feng also saw it; in front of the figure sitting cross-legged, there was indeed a black fruit tree growing, with exactly six hundred and sixty-six fruits on it, obviously not yet fully matured.

"The rare treasures in the area of the Dream Domain entrance belong to the two ancient countries. There's no need to fight them here. Let's go deeper. The deeper we go, the better the treasures," Wuxin God King said.

The formation of the Thunder Ancient Country, though restrained, still left Wuxin God King cautious. After flying for a long time—

Rumble~~~~

Golden chains streaked across the void, covering the vast area, meticulously sealing and inspecting every location.

"We've now entered the area covered by the Flame Wind Ancient Country's formation," Wuxin God King said, familiar with the area, "Usually, the two ancient countries fight fiercely, but when it comes to blockading the entrance to the Dream Domain, they directly join

forces."

"Their greed is too unsightly," Emperor Gui Xu also remarked, "Forcing the independent Godly Kings to unite."

Luo Feng nodded.

Completely blockaded, giving no chance at all.

If Luo Feng were to act alone, he simply couldn't breach the dual heavy formations of the two ancient countries.

Of course, this time, all four were acting together, seamlessly tunneling along the way, undetected by both formations, including the few Royal Family Godly Kings they encountered by chance.

Because the flying speed was relatively slow, it took a full half day to completely fly out of this vast area at the entrance to the Dream Domain.

"Out of their formation range," Wuxin God King chuckled, "How about that? What can the two ancient countries do? They couldn't detect my tunneling technique at all."

"Impressive," Luo Feng exclaimed.

"Brother Wuxin's tunneling technique is the most impressive one I've seen," Cloud Sky God King also praised.

"Haha," Wuxin God King laughed joyously.

Luo Feng, having had the chance to see the operation of the supreme rules, could better appreciate the terrifying aspect of Wuxin God King's tunneling technique, which seemed to tunnel into the operation of the supreme rules itself.

"This tunneling technique of Wuxin is actually the ultimate realm secret technique 'Hidden Sky Tunneling Technique'," Emperor Gui Xu said, "In the entire Land of Origin, there aren't many whose tunneling technique can match Wuxin's."

Luo Feng marveled. For a Second Realm Godly King to grasp an

ultimate realm secret technique was extremely difficult.

Of course, like Master Emperor Chu, he had also achieved this, having to comprehend the 'ultimate realm life form' secret technique! After comprehending it and using many precious treasures, he could cultivate into an ultimate realm life form.

Experience tales at empire

"Next, we'll first enter the middle layer of the Dream Domain, then we'll need Luo He's help to scout the way," Emperor Gui Xu said, looking at Luo Feng.

Chapter 211 Middle Layer

"Leave it to me," Luo Feng said with full confidence, carrying with him one-tenth of a World Life Form's energy reserve, enough to split into numerous avatars.

Buzz!

Wuxin God King used an Escape Technique and since there were no ancient country formations to hamper their speed, they moved quickly.

It was as if passing through bubbles, swiftly moving through one distinct space after another.

"According to the intelligence, the Dream Domain seems to be a congregation of numerous bubbles, each a separate space with its own operating rules, creatures, and treasures," Luo Feng mused to himself.

Exploring the Dream Domain was like treasure hunting.

"The Dream Domain, we divided it into the outer, middle, and deep layers, as well as the dark region," Emperor Gui Xu said, "The deeper you go into the Dream Domain, the greater the impact on the Spiritual Will. In the outer layer, the will of First Realm Godly King can remain clear-headed. In the middle layer, the will of Second Realm Godly King can stay alert, but in the deep layer, one must have the will of Ultimate Realm God King. As for the dark region... only a will beyond the Godly King's level can explore it! There are only a few in the entire Land of Origin who possess such Spiritual Will."

"We shall mainly explore the middle layer," Wuxin God King stated.

"All four of us possess the will of the Ultimate Realm God King,"

Emperor Gui Xu added, "Luo He is fine, but the three of us also need to distract ourselves by suppressing the residual will of the Primordial Bloodline... once we enter the deep layer, it's easy to lose control."

Luo Feng nodded.

All three companions cultivated the Primordial Bloodline, and all possessed the will of the Ultimate Realm God King.

It was normal for Emperor Gui Xu and Wuxin God King to have the will of the Ultimate Realm God King.

But for Cloud Sky God King, being an invincible at the First Realm of Godly King and having the will of the Ultimate Realm God King was truly rare, which was one of the reasons she was invited into the Reincarnation Tower! Before Luo Feng, she was the only First Realm Godly King to be recruited.

Another reason for her recruitment was that she had excavated the Primordial Bloodline to an exceedingly high degree. Originally with the will of Second Realm Godly King, she instantly lost control and caused a great disaster.

Later, amidst the torment of alternately being lucid and losing control, her Spiritual Will finally transformed, breaking through to the will of the Ultimate Realm, only then could she stay clear-headed all the time.

"We've reached the middle layer."

In casual conversation, Wuxin God King had already led the team to a space within the middle layer of the Dream Domain.

This was a space even darker than the outer layer, vast and filled with countless plants; at a glance, it looked like a mountain forest world.

"As the intelligence recorded, the deeper into the Dream Domain, the darker it gets. The so-called 'dark region,' that's total darkness! Only a will beyond God King's can probe and explore by relying on Spiritual Power," Luo Feng felt the impact of the middle layer's Spiritual Will

but was quite pleased.

This influence was an all-encompassing penetration of the spirit, making the cultivator unconsciously fall into it.

"Training the 'Great Destruction Heart Refining Technique' under the influence of the Dream Domain's infiltration, the pressure on the spirit will definitely be greater, and the effect would be better," Luo Feng was quite satisfied.

"Brother Luo He, please check our surroundings," Emperor Gui Xu requested.

"Steer clear of areas with too many creatures from the Dream Domain," Wuxin God King said, "They're not easy to provoke."

"Don't worry."

Luo Feng grinned slightly.

Whoosh!

Instantly, he split into nine black scale-armored avatars that flew off in all directions to start carefully exploring this space in the middle layer.

...

There are many spaces in the middle layer, and according to the history of exploration in the Land of Origin, there are likely tens of thousands! Moreover, as time passes, these spaces continue to change, completely transforming after one or two eras until unrecognizable from their past appearance.

So, past maps and intelligence are useless, and each time one must explore on-site.

"Middle layer creatures of the Dream Domain are, as described, bizarre and vary greatly in strength. The weaker ones are just ordinary Godly Kings; the strongest may even reach the Ultimate Realm level, but generally, they possess low intelligence and clumsy moves," Luo Feng's nine avatars all continued their exploration.

One of the avatars flew around a forest, carefully sensing and observing all directions.

He also unleashed his formless and intangible abilities, completely hiding his presence similar to ordinary rocks and trees.

"What is that?"

Luo Feng caught sight of a dazzling light in the distance and flew closer to get a clear view.

It was a fiery red tree with only one fruit on it, shining with endless light and wobbling as it emitted laughter. Luo Feng could feel the attraction just hearing the laugh.

"It's this fruit emitting the light," Luo Feng felt the draw of the fruit, "It seems much stronger than the Primordial Crystal Spirit Fruit."

"No dangers around this fruit?" Luo Feng carefully scouted, drawing closer at the same time.

If there's truly no obstruction, take it and run!

Just as Luo Feng was meticulously scouting.

"Huh?" Suddenly a massive eye opened in the distant sky, and for the first time, Luo Feng saw a vague head! The head was unimaginably large.

"Boom—"

A terrifying invisible force instantly descended upon Luo Feng's body.

Luo Feng felt only the crushing dominance of an absolute power, and this clone, which possessed roughly one-thousandth of the energy reserves, was instantly crushed into nothingness.

"So weak." The giant eye in the sky closed again, ready to continue its slumber, then suddenly looked puzzledly in that direction once more. In the region that was supposed to be obliterated, an invisible energy reformed and the avatar coalesced again.

"Run! Ultimate realm creatures from the Dream Domain!" Luo Feng truly hadn't expected to encounter such beings—the strongest in the middle area of the Dream Domain were supposed to be at the ultimate level of the Godly Kings—on his very first exploration

That destructive power was simply irresistible.

Whoosh!

No sooner had Luo Feng begun to escape than a vast and terrifying force bore down on him, and this time Luo Feng discerned it clearly: it was a blurred, gigantic hand pressing down like the sky itself.

Smack! Luo Feng's body was obliterated once again by the strike.

However, as a world life form, every fraction of his strength was imbued with endless life spirituality, possessing boundless vitality, like the source of life itself, naturally absorbing energy from the void and condensing once again.

"How interesting," mused the giant eye, somewhat bewildered, observing Luo Feng curiously as it kept swinging its immense palm, time and again.

With every reformation, Luo Feng frantically attempted to flee, each time escaping billions of kilometers in an instant.

After seven consecutive strikes!

The massive hand finally ceased its assault, as Luo Feng had managed to leave the range of its slumber and it couldn't be bothered to chase anymore.

"It's not pursuing me anymore."

Looking back, Luo Feng's avatar felt a sense of relief, "My avatar was destroyed seven times in a row; I'm lucky that its power, though terrifying, wasn't too damaging."

If it had been his master, Emperor Chu, an ultimate realm life form of the Great Dao of Destruction Origin, every move infused with various destructive capabilities, probably just two or three smacks would

have been the end of him.

"This avatar still has about thirty to forty percent of its energy left," Luo Feng thought to himself. "These creatures of the Dream Domain, they can't leave their own space. But they are unreasonably powerful! It's a mystery how Yuan created them."

...

"An intruder!" No less than fifteen stone monsters, each as strong as a Godly King in the second realm, frantically pursued Luo Feng's avatar who could only flee desperately.

...

"Roar!"

As Luo Feng flew past a lake, a beast within suddenly roared with a gaping maw, drawing him in uncontrollably and swallowing him into its belly.

After spending quite some time in the monster's stomach, Luo Feng executed the Chaos Hole Six Strikes with various moves, until the creature, unable to digest him, regurgitated him. Luo Feng immediately made a swift escape.

...

"No wonder Wuxin God King was so pleased to have me join in; it's always been him paving the way," Luo Feng realized how challenging it was to scout the Dream Domain. Even Wuxin God King, with his Hidden Sky Tunneling Technique, often had to beat a hasty retreat when faced with the terrible creatures of the Dream Domain.

...

In the middle layer of the Dream Domain, amidst the mountains and forests, Wuxin God King, Emperor Gui Xu, Cloud Sky God King, and Luo Feng were gathered.

"Brother Luo He, you've been through a lot, come, have a drink," said Wuxin God King as he pulled out some fine wine he'd brought along,

pouring a cup generously. "Scouting is tough, isn't it? Previously, it was always me paving the way, neither Gui Xu nor Yun Tian Sister have the skill to scout."

"It's not easy," Luo Feng acknowledged to himself, thinking his techniques were quite formidable, yet scouting was still a clumsy affaiAr.

"Dream Domain creatures all live in their own spaces and generally don't leave their position easily," said Emperor Gui Xu, chiming in, "they seem to have low intelligence and appear to coexist with their space."

"If they were smarter, we wouldn't have a chance to hunt for treasures," added Wuxin God King.

The four of them drank and joked around, while Luo Feng's nine avatars had a hard time.

"I've found a place where a treasure lies," Luo Feng suddenly spoke up; one of the nine avatars he had sent out had come across a discovery.

"Oh?" The eyes of Wuxin God King, Emperor Gui Xu, and Cloud Sky God King all lit up with interest.

"There are nine Dream Domain creatures around the treasure, three of which are at the second realm of the Godly King level, with another six weaker ones," Luo Feng disclosed. Dream Domain creatures did not know how to conceal their aura, making it easy to judge their strength.

"We can take action!" Wuxin God King laughed heartily, "Brother Luo He, your scouting is impressive! So quick to find a treasure. Let's go, let's hurry, Brother Luo He, lead the way."

With that, Luo Feng, Wuxin God King, Emperor Gui Xu, and Cloud Sky God King immediately set off together.

...

At that moment, another team had also arrived in the middle layer's

mountain and forest space of the Dream Domain.

"This is the seventh space we've explored in the middle layer of the Dream Domain," declared the team of seven powerful beings, led by a figure with short white hair, who, despite radiating the weakest aura of the chaos realm, was clearly the team's leader.

"This space," the short-haired white figure surveyed the surroundings, "has three powerful presences, clearly indicating the space has birthed three ultimate realm creatures. There are also seven other areas likely inhabited by large Dream Domain creature clans that we should also avoid."

A map materialized in the air, with ten perilous locations clearly marked out.

"Jiu Yu, steer clear of these ten areas. Carefully examine everywhere else," the white-haired figure commanded.

"Yes, Palace Master," a winged woman responded as shadows flew from her body, her many avatars dispersing in all directions to start scouting.

The Palace Master of Two Realms Palace, who came from beyond the Land of Origin.

Even if he was suppressed by the Supreme Rules, limiting the power of his techniques to the chaos realm's maximum, his realm was exceedingly high. With his leadership, members of the Two Realms Palace could easily slip in, completely undetected by the two ancient countries. Find adventures on empire

He would also bestow powerful Secret Treasure Weapons, and many treasures he simply did not care for, naturally attracting many ancient beings to join the Two Realms Palace.

Chapter 212 Reincarnation Tower and Two Realms Palace

Luo Feng led the way, and Wuxin God King used the Hidden Sky Tunneling Technique to bring the team nearby.

"Look."

Luo Feng looked into the distance, where several swaying purple flowers in the distance emitted specks of purple light, which held a strong attraction for cultivators like them.

"These treasures produced by the Dream Realm can greatly benefit life within the Braided Cage," Emperor Gui Xu observed. "These are the relatively common 'Purple Heart Realm Flowers,' each worth three million Merit Points. From a distance, there are a total of seven Purple Heart Realm Flowers."

The value of treasures on the Land of Origin is assessed based on the Merit Points of the two Ancient Countries.

"Where are the Dream Realm creatures?" asked Wuxin God King.

"Over there," Luo Feng pointed into the distance, "Those ordinary-looking trees around the flowers are actually plant life forms. If we get close, we'll be attacked by nine plant life forms."

Luo Feng pointed out the nine inconspicuous big trees.

"Dealing with them isn't hard, but we need to be careful not to damage the treasures. As we agreed earlier, Yun Tian, show your poison fog; Brother Wuxin and I will make a move! Brother Luo He, you protect these treasures," commanded Emperor Gui Xu.

Wuxin, Yun Tian, and Luo Feng all nodded.

Luo Feng knew very well that, in terms of the intricacy of techniques, he was far inferior to Wuxin God King and Emperor Gui Xu! His advantage lay in having multiple avatars and being resilient! Hence, at critical moments, he could entangle Dream Realm creatures and protect the treasures as best as possible.

"Act now."

Under the Hidden Sky Tunneling Technique, the four of them quickly approached the purple flowers.

Hum~~~~

Invisible rules began to ripple, revealing all four of their figures. Under the control of the rules of the nine tree life forms, huge branches transformed into giant hands that enveloped them, while numerous tree roots burst from the ground, entwining towards Luo Feng and the others.

"In the Dream Realm, various treasures seem to be key to the operation of the realm itself. Approaching these treasures exposes any use of escape skills due to the Dream Realm's operational rules. Even alien beings from the Two Realms Palace, the Wanfa Tower, and the Time-Space Lonely Boat would be forced to reveal themselves when near the treasures," Luo Feng, though it was his first time in the Dream Realm, already felt the operational rules within it.

The Dream Realm's operational rules are unique, starkly different from the Supreme Rules of the Land of Origin.

The Dream Realm's rules are not as impeccable as the Supreme Rules of the Land of Origin! But they are also of a very high level, far beyond the reach of lives within the Braided Cage.

"Ssss~~~"

The nine tree life forms, with three of them being mightier than the Emperor of Tian Kun and the other six possessing the invincible standard of the First Realm of Godly King, were relatively clumsy and low in intelligence. This was a common trait among all Dream Realm creatures.

At this moment, the nine tree life forms were being eroded invisibly. The bodies of these life forms started to show signs of erosion, with the weaker six ones almost immediately riddled with numerous holes, while the strong three also suffered great reductions in strength.

"What a terrifying poison," Luo Feng was shocked by this scene. "I heard this poison not only erodes the physical body but also the soul! That Godly King from the Imperial Clan of Thunder God Country was struck by the poison, his soul extinguished instantly, dying completely before he could reincarnate."

This was Cloud Sky God King!

Her poison was not part of any poison under the Supreme Rules. Instead, it was a terrifying poison unearthed from the Primordial Bloodline that even life forms below the Ultimate Realm dreaded.

Including Emperor Gui Xu and Wuxin God King, who also had to be very careful in dealing with it.

"Invisible and colorless, one cannot see how it is deployed, but all these Dream Realm creatures are affected," Luo Feng understood why the Reincarnation Tower would make an exception to recruit a Godly King in the First Realm.

"Boom." "Boom." "Boom."

Three terrifying bolts of lightning struck the three mighty tree life forms, instantly leaving them severely damaged. Emperor Gui Xu revealed eight arms, each arm wielding weapons of immense power. With simultaneous strikes from eight arms, in the blink of an eye, the three damaged tree life forms were completely shattered and obliterated.

Wuxin God King was even faster; with just six strikes of his sword, he killed the six weaker tree life forms whose strength had been greatly diminished.

Luo Feng, meanwhile, used the Power of the World to protect the treasures and prepared to block any impacts with his physical body.

Fortunately, Emperor Gui Xu and Wuxin God King were both efficient

and did not affect the nearby plants.

"Emperor Gui Xu, the intelligence reports say he cultivated the Origin Dao of Matter. But his eight arms... are capable of unleashing eight different attacks including thunder, Blood Light, fire, and water rays, and their combination is too much even for the Second Realm of Godly King to withstand," Luo Feng could sense the terror of this combined assault.

In terms of strength, he could fight on equal terms with a mighty plant life form, one-on-one.

But to destroy it? Luo Feng couldn't do that.

Emperor Gui Xu's overwhelming power, even though it was assisted by the poison from Cloud Sky God King, still astonished Luo Feng.

Not surprisingly, he was someone who, despite relinquishing a Secret Treasure, was able to reincarnate even after a long-prepared joint attack from three Emperors.

And what he was demonstrating now, were probably just some ordinary techniques, not his desperate killing moves.

"It's been relatively easy," Emperor Gui Xu said with a smile, observing the purple flowers. "These seven 'Purple Heart Realm Flowers' are of good quality. Wuxin, you do the picking."

Wuxin God King nodded.

Luo Feng and Cloud Sky God King watched on. This had all been agreed upon beforehand.n/ô/vel/b//jn dot c//om

Among the four of them, Wuxin God King had the strongest survival capabilities and was the most suitable to carry the treasures! They would distribute them after exiting the Dream Realm.

According to the earlier agreement, Emperor Gui Xu and Wuxin God King would each take thirty-five percent, Luo He, for leading the way, would take twenty percent, and Cloud Sky God King would take ten percent! In the harsh environment of the Dream Realm, leading the way was extremely important.

Should someone contribute significantly during the process, they would discuss afterwards and adjust the distribution ratio.

Wuxin God King was very adept, picking all seven Purple Heart Realm Flowers. Then he smiled at Luo Feng and said, "Brother Luo He, the number of treasures we will get depends on how many you can find."

"I'm already trying hard to find them," Luo Feng replied. His nine avatars were risking danger, scouting various areas.

Time passed.

Luo Feng and his team were highly efficient, unraveling the location of treasures every day or two on average. These treasures were of great aid even to the Second Realm of Godly King, and they were all very valuable.

Luo Feng was in excellent spirits. According to the twenty percent share agreement, each time he could earn at least a million Merit Points, which was much faster than the earnings from the missions as a Guest Elder in Flame Wind Ancient Country!

Emperor Gui Xu, Wuxin God King, and Cloud Sky God King were quite composed about it since they were already accustomed to it. For someone like Emperor Gui Xu, earning hundreds of millions of Merit Points in one visit to the Dream Realm was quite ordinary.

Discover more stories at empire

Of course, if one miscalculated and their True Body died here, the loss would be immense!

Emperor Gui Xu and Cloud Sky God King had both experienced True Body deaths in their ventures across various treasure sites—a misfortune that had befallen them more than once! However, they had already extracted part of their "Primordial Bloodline" from their True Bodies and safely stored it in the outside world, merely requiring enough treasured nurturing items for them to cultivate back to form.

Other than the time Wuxin God King deliberately died for a rebirth

cycle, he indeed had never died on a treasure adventure.

"In this space, the share allocated to me already exceeds ten million Merit Points in treasure. According to the plan, we are set to explore five Dream Realm spaces in the middle layer," thought Luo Feng.

The more spaces explored, the higher the likelihood of accidents.

An accident could arise either from the Dream Realm itself or from other Cultivators.

The five spaces were chosen by Emperor Gui Xu and the others based on past experiences. Luo Feng estimated that exploring these five spaces should garner him hundreds of millions of Merit Points in treasure.

This was the type of resource that truly powerful beings from the Land of Origin valued. Compared to these treasure sites, the appeal of commanding a territory seemed much less significant. It was only the ordinary Godly Kings, Walkers, disciples, and clan members under their command who were more in need of territories.

...

The team from Two Realms Palace was also exploring this forest space.

"Hmm?"

The White-haired Palace Master suddenly looked up into the distance.

The other six Second Realm Godly Kings in the team turned their gazes toward the Palace Master, trusting in his capabilities.

"How interesting." After locking onto a trace of aura, the White-haired Palace Master looked into the distance, his gaze following the trail of the aura through an endless expanse, seeing Luo Feng's team in action.

"It's the team from Reincarnation Tower, and one of them is Gui Xu," said the White-haired Palace Master with a smile.

In the treasure realms, identities were concealed so that even if someone acquired a precious treasure, the Land of Origin would not know the actual identity of the powerful being who obtained it.

But Emperor Gui Xu didn't care—he couldn't be publicly recognized in the outside world, either!

"Reincarnation Tower?"

"Them again?" The six Second Realm Godly Kings behind all harbored hostility.

Although the members of Reincarnation Tower were few, they had clashed over treasures time and again, and Two Realms Palace had often found themselves on the losing end, which naturally led to growing animosity.

"Since we've encountered our old friends from the Reincarnation Tower, we should obviously present them with a gift," said the White-haired Palace Master. "That group of Dream Realm Creatures we found earlier is extremely protective. Jiu Yu... go capture one creature from that group and lead the whole Dream Realm Creature tribe to the Reincarnation Tower team's location."

"First, let the Dream Realm Creature tribe severely weaken them, then we'll make our move and wipe them out in one fell swoop, killing as many True Bodies as possible," the White-haired Palace Master said, his eyes cold.

He united the Two Realms Palace members.

Yet for those outside of the Two Realms Palace and other forces vying for treasures... he had never been merciful.

"Palace Master, leave it to me," the winged woman said excitedly.

"This Reincarnation Tower team probably has explored several Dream Realm spaces and should have a considerable haul. If we kill their True Bodies, we might obtain some treasures."

"Last time, they destroyed my True Body."

One by one, they were filled with hostility.

...

Luo Feng and the other three were enjoying wine and delicious food by a lake. Of course, Luo Feng's nine Avatars continued treasure hunting.

"This forest space should yield a few more treasures, and then we'll have about enough," said Emperor Gui Xu. "Then we can move on to the next Dream Realm space."

"Yes," Luo Feng nodded. "The easier-to-obtain treasures have all been taken. The next ones... are indeed guarded more securely, some by Ultimate Realm Dream Realm Creatures, some by vast tribes of Dream Realm Creatures."

"Hmm?" Wuxin God King suddenly frowned and turned his head to look into the distance.

Emperor Gui Xu, Cloud Sky God King, and Luo Feng also became alert, although their sensing capabilities were nowhere near that of Wuxin God King.

Whoosh!

Suddenly, a winged woman holding a Stone Monster emerged from the void, charging straight at Luo Feng and his colleagues.

"Two Realms Palace's?" Although they couldn't be sure of the winged woman's real identity, her current disguise was something Emperor Gui Xu and the others had seen many times.

"I'm bringing you a gift," the winged woman sneered.

"Boom."

As the winged woman, bearing the Stone Monster, came near where Emperor Gui Xu and the others were, they seemed to encounter an invisible fluctuation and suddenly exploded into fine dust.

"Rumble~~~" One after another, towering Stone Monsters appeared

from the void, followed by smaller ones. At a glance, there were hundreds of Stone Monsters swarming the scene.

These Stone Monsters stood in mid-air, with tears streaming down, then turned hateful gazes on the four—Luo Feng and his companions—as their fury made the whole world start to bleed red, sending chills down their spines.

In the far distance, the Two Realms Palace team watched on, led by their Palace Master, who was using a Secret Technique to observe the scene.

Chapter 213 5 volumes 10 chapters Let me try

"Not good!" Emperor Gui Xu, Wuxin God King, and Cloud Sky God King all changed color. Having explored the Dream Domain multiple times, they were far more experienced than Luo Feng and knew the terrifying aspects of such massive Dream Realm creature groups.

The most terrifying thing about the Dream Realm creatures group was their ability to coordinate their powers perfectly, as if they were a single entity!

"Boom～～～" The whole world began to turn bloody, and the rules of the Dream Domain were changing around the hundreds of Stone Monsters at the core, their endless hatred directed towards Luo Feng and the others.

The surrounding vast area exerted a tremendous binding and compressing force, squeezing Luo Feng and the four of them.

This binding and compressing force was not physical strength; it was a rule! Luo Feng's "Power of the World" could not be weakened, and the means of Emperor Gui Xu and the others could not resist; they could only withstand it forcibly.

"The more Dream Realm creatures there are, the greater their impact on the rules of the Dream Domain. Hundreds of Dream Realm creatures have already significantly altered the surrounding rules... We need to find a way to escape," transmitted Emperor Gui Xu.

"My Hidden Sky Tunneling Technique is also suppressed by the Dream Domain's rules, unable to remain hidden," Wuxin God King also transmitted anxiously.

Any escape technique, including those from Two Realms Palace,

Wanfa Tower, and Time-Space Lonely Boat led by alien races, failed to hide under the rules prescribed by alien races. If they could hide... they would be able to steal various rare treasures at will.

"My poison fog is also being suppressed and cannot spread," even though Cloud Sky God King's poison fog was invisible and hard to detect, at this moment, the operational rules of the Dream Domain suppressed it from all directions.

"Roar~~~"

Accompanied by the roar of the largest Stone Monster, a large group of Stone Monsters attacked at once, making the whole world tremble.

Emperor Gui Xu immediately displayed his eight arms and collided with the Stone Monster Leader.

"Bang!"

The Stone Monster Leader, being incredibly large, swung down its massive arm with no finesse, only endless overwhelming power! Meanwhile, Emperor Gui Xu's eight arms held weapons, enabling him to deflect, transform the force, and counterattack with many subtle techniques.

However, with one collision, Emperor Gui Xu was shaken back flying, while the Stone Monster Leader only took one step back.

"Don't clash head-on with it at all costs," transmitted Emperor Gui Xu. "Its strength is comparable to mine."

In terms of prowess, the Stone Monster Leader far surpassed him.

However, in terms of realm, Emperor Gui Xu's was high enough to fight a evenly matched battle.

"Whoosh whoosh whoosh!!!" Wuxin God King drew his sword. The moment he drew his sword, it created countless densely packed sword shadows, which covered all the Stone Monsters. The intangible domain naturally weakened these sword shadows, but they still landed on every Stone Monster.

For those Stone Monsters of large size, they remained completely unharmed; only those smaller ones showed some scars on their surface.

A move that divided into numerous sword shadows, while not particularly powerful, also allowed Wuxin God King to understand the details of the whole Dream Realm creature group.

"This Dream Realm creatures group, its leader has reached the Peak of the Second Level of the God King Realm, and there are also 92 others that can be considered as being in the Second Realm of Godly King. Moreover, over two hundred qualify as being in the First Realm of Godly King, each with an extremely resilient body," Wuxin God King immediately transmitted to his companions.

...

In the distance, the team from Two Realms Palace was present.

The White-haired Palace Master utilized Secret Technique, causing the clash between the Stone Monster Group and Reincarnation Tower Team to appear before him in the air.

"This massive Dream Realm creature group unites their powers to form a domain of rules! It suppresses all extensive domains, making escape difficult for the Reincarnation Tower," members of the Two Realms Palace watched with pleasure.

"These Dream Realm creatures have the strength of the Second Realm of Godly Kingdom, numbering close to a hundred," the White-haired Palace Master said with a smile. "Together, they can easily crush the Reincarnation Tower. It would be quite an achievement if even one of those four survives."

"Dream Realm creatures don't care about Secret Treasure Weapons. After they die, we can collect the treasures they leave behind, hahaha..."

"It's about time the Reincarnation Tower took a big loss."

They watched from afar.

Besides the Palace Master, the other six were also at the Peak of the Second Level of God King Realm, each a ruler in the Land of Origin! In the outside world, they seldom had conflicts. However, in certain treasure-rich areas, their contradictions were substantial.

For instance, if they discovered an extremely precious treasure, would they yield? Naturally, they wouldn't!

Conflict after conflict, resentment accumulated over time.

The struggle for resources in the Land of Origin was complex; the independent Godly Kings had conflicts and grudges among themselves, just like the Mountain Sitting Guest who deeply resented the three rulers of the Hensi Country.

Many independent Godly Kings also competed with the two ancient countries, some befriended and others sided with these ancient powers.

Even within the two ancient countries, the Emperors and Monarchs would turn against each other. You killed my disciple's entire family and stole my Cultivation Resources? So what if you're also an Emperor? If you can act ruthlessly, can't I retaliate?

Among these beings of long lifespans, only a few remained in very good terms.

"Reincarnation Tower!" The White-haired Palace Master watched the scene from afar. His True Body was powerful enough to rival the Ancestors of the two countries, and among the resources left by Yuan, only the very top tier attracted him.

"This Reincarnation Tower has spoiled my plans multiple times," the White-haired Palace Master had suffered losses too. "Reincarnation Tower has the Wind City Empress and the Earth God King; their high-level strength far exceeds ours."

For many powerhouses in the Land of Origin, the members of Reincarnation Tower were a secret.

However, for the White-haired Palace Master, as soon as he had seen them once, he identified the identities of the Wind City Empress and

the Earth God King.

But what good was breaking their identities? Once the teams of the Wind City Empress and the Earth God King from the Reincarnation Tower entered a treasure site, the teams from the Two Realms Palace, Wanfa Tower, and Time-Space Lonely Boat couldn't compare!

"However, when exploring treasure lands, the number of strong fighters is also very important."

The Two Realms Palace had many members, being the first major force in the shadows, with multiple teams exploring treasure lands.

As a Palace Master deploying Avatars to assist, he naturally expected a large share of Merit Points. Most of these treasures he didn't keep for himself; instead, he exchanged them for the chance-based treasures he needed.

...

Emperor Gui Xu transmitted urgently: "We must find the weaknesses of this Dream Realm creature group as soon as possible, then use the weaknesses to make a quick escape. If we delay too long, we won't be able to escape."

"Except for Brother Witch Heart, I fear none of us can escape," Cloud Sky God King also said urgently.

In the team, neither Emperor Gui Xu nor Cloud Sky God King had an Avatar; once their True Body died, even if they could cultivate again using the 'Resurrection Carrier,' starting over and nurturing the Primordial Bloodline to regain peak strength would be a huge expense.

It might take exploring the Dream Realm ten times to make up for it.

"I'll try to find the weaknesses," Wuxin God King transformed into a blur of flowing light in an instant. The flowing light spread, intending to cover a group of Stone Monsters; however, the largest Stone Monster Leader, upon seeing the vast expanse of blurry light, let out a furious roar!

With this roar, heaven and earth trembled, the world twisted, and the might caused even Emperor Gui Xu to slightly change his expression, also forcing Wuxin God King's flowing light to recondense into his True Body.

"Phew." Even though the Cloud Sky God King had cultivated the Primordial Bloodline and possessed an extremely formidable physique, he was still roared at until his skin cracked open.

Luo Feng's World Life Form also felt quite uncomfortable.

"This leader is too difficult to deal with," the Wuxin God King said anxiously.

"This time the trouble is big," Emperor Gui Xu waved his eight arms, struggling to resist.

"Let me try," Luo Feng suddenly transmitted.

"Huh?"

Emperor Gui Xu, Wuxin God King, and Cloud Sky God King all paused in surprise.

He's going to try?

Facing this vast group of Dream Realm Creatures, mainly Emperor Gui Xu and Wuxin God King were devising a response strategy and did not expect the Cloud Sky God King or the Luo He God King, both at the First Realm of the Godly King, to be of much help.

Luo Feng had merely observed for a moment and had already gathered a lot of intelligence on the Stone Monster Group, forming a plan in his mind.

Whoosh!

Standing still, Luo Feng suddenly transformed into a dense swarm of black shadows, dark figures darting in every direction.

Luo Feng avoided the four strongest Stone Monsters.

Based on his earlier observations, the Stone Monster Leader was comparable to Emperor Gui Xu, and three extremely powerful Stone Monsters each had strength akin to the Emperor of Tian Kun. Luo Feng chose to give up completely, leaving them to Brother Gui Xu and Brother Wuxin to handle.

As for the other Stone Monsters... Luo Feng took them all on!

"Huff, huff, huff!!!"

The two hundred plus First Realm God King Tier Stone Monsters encountered over two hundred black-scaled, golden-horned Luo Fengs! Each avatar was merely a 'one ten-thousandth' energy reserve of a World Life Form! Each used only simple techniques, which also kept the burden on Spiritual Will sufficiently low.

Even using simple techniques, a World Life Form with one ten-thousandth energy reserve still had the ultimate strength of a First Realm God King Tier, perfectly entangling these Stone Monsters.

The Stone Monsters moved clumsily, and so did Luo Feng.

The bodies of the Stone Monsters were tough and nearly impossible to destroy, and so was Luo Feng's! He had no intention of destroying these Stone Monsters; entangling them... was much simpler than destruction!

"Huff, huff, huff!"

There were also 89 Second Realm God King Tier Stone Monsters, each encountering avatars with 'one two-thousandth' energy reserves.

These avatars were slightly weaker than when Luo Feng had fought against the Emperor of Tian Kun, but because he had mastered all six branches of the Great Dao of Destruction Origin, Luo Feng's combat methods had greatly improved.

These 89 avatars, merely adequate in technique for a Godly King Tier, held an absolute advantage in technique against the Stone Monsters!

And these 89 Stone Monsters... were generally weaker than the

Emperor of Tian Kun.

Contending with 89 Second Realm God King Tier Stone Monsters with 89 avatars, Luo Feng felt relatively manageable; he could still hold on.

Maintaining over three hundred avatars at once!

Even with Luo Feng's deep spiritual foundations, far surpassing any other Godly King, even though his Spiritual Will had already reached the ultimate bottleneck of a Godly King Tier, he felt it was pushing the limit of what his mind could endure.

"Boom, boom, boom~~~"

The three hundred plus Stone Monsters and the three hundred plus black-scaled, golden-horned figures tangled in a fierce brawl, both sides' bodies tough and nearly indestructible, brimming with vitality.

"Huh?"

The Stone Monster Leader and the three extremely strong Stone Monsters were stunned; they were the only four not entangled.

"This..."

Even the well-travelled Emperor Gui Xu, Wuxin God King, and Cloud Sky God King felt baffled.

How is this possible?

How could this be achievable?

...

"Impossible!!!"

Even the team from Two Realms Palace watching from a distance couldn't believe what they were seeing.

"Each of his avatars can contend with a Dream Realm Creature, to simultaneously control so many avatars, it's like single-handedly

manipulating a huge group of Dream Realm Creatures by himself! Even if his techniques are clumsy, controlling such a vast life form, the burden on the soul, on the Spiritual Will, this is definitely not something a normal Godly King can do," a slender figure said.

"Over three hundred avatars, each still so powerful? How does he control them?"

"Has his Spiritual Will surpassed the Godly King Tier? But on the Land of Origin, how many can do this?"

The dominant Palace Masters present couldn't believe it; having seen much, they understood all the more how difficult this was to achieve.

The White-haired Palace Master watched this scene and was also secretly astonished.

"This black-scaled, golden-horned one, I cannot even determine his identity from his aura. Obviously the concealment of his aura has reached an incredible degree. How does he control so many avatars? Soul Path? Or is there another reason?" The White-haired Palace Master firmly memorized the appearance of the black-scaled, golden-horned figure.

Another mysterious powerhouse!

...

Emperor Gui Xu, Wuxin God King, and Cloud Sky God King were all stunned by Luo Feng.

"Brother Gui Xu, Brother Wuxin, aren't you going to make a move?" the three hundred plus black-scaled, golden-horned Luo Fengs urged simultaneously, "I have already held them off, quickly break them one by one!" Handling so many Dream Realm Creatures at the same time, Luo Feng also felt tired.

"Okay, okay." Emperor Gui Xu and Wuxin God King responded, while feeling their worldviews being overturned.

A First Realm Godly King, actually able to achieve this?

Explore hidden tales at empire

Not long ago, wasn't brother Luo He managing only ten avatars when he contended with the Emperor of Tian Kun?

Chapter 214 - 11 Alone

Wuxin God King's sword suddenly split into twelve swords, forming a sword array, and attacked the Stone Monster Leader and three other formidable Stone Monsters simultaneously!

Emperor Gui Xu and Wuxin God King worked together seamlessly. Seeing his friend deploy the sword array, he also burst forth entirely, his Primordial Bloodline fully unleashed, spreading surging crimson flames.

Ignoring the extreme burst of power that damaged his physical body, Emperor Gui Xu also used one of his two ultimate realm secret techniques, "Heaven and Earth Great Destruction."

"Boom boom boom!!!" Emperor Gui Xu, with eight arms wielding eight weapons, twisted heaven and earth.

With the first strike, he wielded a massive hammer, cracking the colossal Stone Monster's body. The third strike was a black axe, which cleaved the Stone Monster's body in two with a painful wail.

In the blink of an eye, a series of earth-shattering moves returned all things to chaos, turning that Stone Monster into a stream of chaotic energy.

This scene astonished the other Stone Monsters.

"Emperor Gui Xu's explosion is truly fierce," Luo Feng murmured to himself. That Stone Monster was comparable in strength to the Emperor of Tian Kun; its tough body was not inferior to the Emperor of Tian Kun's Primordial Bloodline, yet it was blasted into bits after more than ten hits.

"Beautiful!" exclaimed Wuxin God King with delight. "Gui Xu, quickly eliminate those lesser Stone Monsters. I'll handle these three

formidable ones."

Now merely entangling the Stone Monster Leader and two other formidable Stone Monsters, Wuxin God King's burden was significantly lightened. His sword array was fully capable.

"Roar~~"

The Stone Monster Leader roared angrily, and the other two formidable Stone Monsters also attacked furiously.

The sword array of Wuxin God King was incredibly robust, trapping the three like a cage, allowing them to watch helplessly as Emperor Gui Xu, fully bursting forth, moved to slaughter the entangled Stone Monsters.

Those over three hundred Stone Monsters were being entangled by more than three hundred Luo Feng's avatars.

"Boom!" "Boom!" "Boom!"...

Where Emperor Gui Xu passed, those Stone Monsters with the strength of Second Realm of Godly King differed in power; the stronger ones required three or four moves to kill. The weaker ones might be smashed into pieces with one hammer blow.

In the blink of an eye, more than ten Stone Monsters were dead.

The entire group of Stone Monsters started to stir. Although their intelligence was low, they could feel anger, fear, and attachment to their peers.

"Converge!" the furious Stone Monster Leader roared, his voice carrying his will.

Previously, this group of Dream Realm Creatures had sought to trap Luo Feng and prevent their escape! But now, at the leader's command, they no longer dispersed but began to converge actively.

The Stone Monster Leader, with his two powerful subordinates, also actively moved to converge with the others.

Booming sounds echoed~~~

More than three hundred avatars of Luo Feng could only entangle, not trap the enemy! As these Stone Monsters continued to converge, they naturally began to merge.

"They can merge into one," said Emperor Gui Xu.

Wuxin God King laughed, "They've given up surrounding us."

Once merged into one, while seemingly more robust, they became a single entity! A clumsy entity, even with terrifying might, still couldn't stop the Reincarnation Tower team from escaping.

"Booming sounds~~" With the Stone Monster Leader also converging with his kind and merging into it, the 'super-large Stone Monster' formed was immensely huge.

"Retreat!" Luo Feng and his team were not afraid at all.

With the escape techniques of Wuxin God King at the Ultimate Realm level, both the agility and speed of their flight were significantly superior to the super-large Stone Monster, quickly losing it and fleeing far away.

"Roar~~~" The super-large Stone Monster stood there, roaring angrily and reluctantly, chasing for a few hundred steps, but Wuxin God King had already escaped from the influence of the Dream Realm Creatures domain, completely disappearing.

…

"They actually let them escape."

From a distance, members of the Two Realms Palace felt somewhat regretful.

"Although the members of the Reincarnation Tower are strong, if surrounded by nearly a hundred Second Realm God Kings, they would probably have died in large numbers this time," said a winged woman, shaking her head. "But this time there was one who was skilled in using avatars."

"Being able to simultaneously control hundreds of avatars, entangling eighty-nine Second Realm Dream Realm creatures. Although it's just entangling... it's still quite remarkable."

"Land of Origin, another troublesome being has risen."

Observers from various parties watched.

They all were Second Realm Overlords, but they also understood that even within the Second Realm, differences were substantial.

Like the 'Boat Master' of the Time-Space Lonely Boat, who cultivated only one Great Dao, the "Time Primordial Dao," he was the highest achiever in this path across the entire Land of Origin. Even at the peak of the Second Realm of Godly King, he walked different timelines, with three versions of himself... Even the Emperors and Monarchs of the Land of Origin found him a headache.

Emperors and Monarchs, even with Ultimate Realm Life Forms, could only interact with his 'present body,' unable to threaten the Time-Space Lonely Boat's 'past body' and 'future body.'

Like Wuxin God King, who never died a single time in his True Body in his countless years of cultivation, except for that one time he willingly went to die through reincarnation, whether it was being surrounded by Emperors or the dangers in various treasured lands!

Such Second Realm beings are naturally much stronger than those like the Emperor of Tian Kun or the Monarch of Yu Country.

"He can entangle so many Dream Realm Creatures because they are low in intelligence and simple in techniques. If he encounters God Kings, their moves are much more sophisticated, and he would find it tough to even entangle one… it would require a lot of effort."

"Even so, entangling seven or eight God Kings in the Second Realm would probably not be difficult."

"His real identity, I wonder which old fellow it is."

Everyone concealed their aura and altered their appearance. They naturally suspected Luo Feng was an old figure in reality.

"Probably some peak existence in the Second Realm of Godly King."

"The team from Reincarnation Tower had never seen him before -- it looks like they have another member now," they said.

Although the White-haired Palace Master was surprised that Reincarnation Tower had an additional formidable member, he wasn't too concerned. In the Land of Origin, there were many more troublesome than 'Luo Feng', like Wind City Empress and Earth God King. If someone of their caliber were to appear, that would truly shake the entire Land of Origin.

"Let's go; there's no need to stay in this Dream Realm Space any longer. Let's move to the next one," the White-haired Palace Master said.

"Let's go."

The team from Two Realms Palace quietly left that space and headed towards the next Dream Realm Space.

...

Under the leadership of Wuxin God King, Luo Feng and the others quickly escaped from the pursuit of a gigantic Stone Monster.

"Haha, we all survived," Emperor Gui Xu laughed.

"Thanks to Brother Luo He," Wuxin God King looked at Luo Feng, "Brother Luo He, your Clone Technique has been cultivated to an unimaginable level; there aren't many in the entire Land of Origin who can compare to you."

Luo Feng smiled.

There are still many! Emperors and Monarchs who excel in cloning outnumber the fingers on one hand!

"I just have this technique going for me," Luo Feng said, "I'm much worse in other areas."

"The previously agreed share distribution doesn't seem suitable now,"

Emperor Gui Xu said, "Brother Luo He not only scouts for dangers and treasures. When facing strong enemies, he can also help intercept many foes."

"In that case, Gui Xu and I will each give half of our share to Brother Luo He," Wuxin God King said, "That way, Gui Xu, I, and Brother Luo He each have thirty percent."

"With Luo He's powerful avatar, I actually benefit," Cloud Sky God King laughed.

While her share percentage seemed unchanged, the team's overall strength was stronger, and they found more treasures, hence her share was naturally larger.

She was self-aware that with her contributions, having ten percent was already quite generous.

"I won't decline then," Luo Feng was straightforward.

"That's the spirit," Emperor Gui Xu said, "This time we were outsmarted by that winged woman, whose real identity I don't know... but I've encountered her several times in these treasure lands; she's a member of the Two Realms Palace."

"Two Realms Palace has calculated against us again," Wuxin God King was also quite annoyed, "I just tried to track them too, but they're very good at hiding their traces, and I couldn't detect any sign."

In terms of tracking enemy trails, Wuxin God King is likewise extremely strong.

"The teams from Two Realms Palace generally have a Palace Master's avatar leading them," Emperor Gui Xu said, "The Palace Master of Two Realms Palace, after all, belongs to an alien race, with a realm comparable to that of the ancestors of two countries. If he intends to hide, none of us can find him."

At this moment, Luo Feng also understood why the two Ancient Countries were specifically targeting Two Realms Palace, Wanfa Tower, and Time-Space Lonely Boat.

With these three major alien forces, numerously divided into teams and led by alien race powerhouses' avatars to fight for fortunes, their perceptive and competitive strength in targeting top-tier treasures was much stronger than that of Reincarnation Tower.

"We'll find an opportunity later," Wuxin God King said.

"Brother Luo He, conflicts among different forces are a common occurrence; you will witness even more in the future," Emperor Gui Xu smiled.

Luo Feng nodded: "We should also leave this Dream Realm Space; two palaces have searched here as well, so the easily found treasures are probably scarce now."

"Okay."

"Let's head to the next Dream Realm Space."

The team from Reincarnation Tower quickly left and continued to search another Dream Realm Space.

...

Inside this mountain forest space.

Luo Feng left a World Life Form avatar here; this one held one thousandth of the energy reserves and would naturally absorb energy slowly and grow over time.

"This mountain forest space, previously explored by Reincarnation Tower and Two Realms Palace, holds few treasures. I expect it'll be quite peaceful for a while," Luo Feng sat cross-legged on a patch of grass.

Dream Realm Creatures are usually in fixed territories.

Only in very rare cases do they leave their territories.

"I'll try practicing the 'Great Destruction Heart Refining Technique' here," Luo Feng didn't rush to cultivate in the deeper spaces of the Dream Realm, as he still needed to accompany his companions to

hunt for treasures, and the deep Dream Realm spaces placed too much strain on 'Spiritual Will,' potentially affecting his combat performance.

The middle layers of the Dream Realm's mountain forest space were more suitable.

Explore stories on empire

"Boom~~~"

Upon initiating the 'Great Destruction Heart Refining Technique', it immediately transformed into a Dark Chaotic Hole that enveloped the Spiritual Will, constantly squeezing, crushing, strangling, and annihilating the Spiritual Will. The illusions of the middle Dream Realm also continuously infiltrated Luo Feng's mind.

The increasingly adverse environment naturally provided a more distinct tempering of the Spiritual Will.

The slight stray thoughts influenced by the environment, losing stability, were naturally crushed and annihilated by the 'Dark Chaotic Hole,' making Luo Feng's Spiritual Will even purer.

"Cultivating the spirit is an everlasting endeavor," Luo Feng understood this.

Because as time passes, new stray thoughts emerge.

Constant self-tempering is the only way to make progress.

If one stops moving forward, it might even lead to regression.

This is also why some powerhouses in Thunder Ancient Country lose control halfway; they might suppress the residual wills in their bloodlines for a while, but as soon as stray thoughts arise and the mind wavers slightly, the residual wills can rebound and cause them to lose control.

"The environment of the Dream Realm is quite suitable for the 'Great Destruction Heart Refining Technique.'" Luo Feng calmly continued his cultivation, his other avatars accompanying Emperor Gui Xu and

the others in their treasure hunt.

Chapter 215 Five-Colored Treasure Medicine

In the middle space of the Dream Realm, although there were occasionally some terrifying Dream Realm creatures that even Luo Feng could not detect, when treasure hunting and being attacked by these creatures, with the strength of their team, they were still able to jointly respond.

This team was incredibly powerful, with Emperor Gui Xu being domineering and the abilities of Wuxin God King being numerous. The two of them were already a strong combination, and now with the addition of Luo Feng, who had many avatars and was very good at entangling the enemy... the team's ability to handle risks had greatly increased.

"Ha ha ha, with Brother Luo He here, our exploration of the Dream Realm is much safer," Emperor Gui Xu said with a grin.

"That ultimate realm creature that was just now frantically chasing the other team members... in reality, those members were all transformations of Brother Luo He," laughed Wuxin God King.

Cloud Sky God King also felt much more at ease.

In the past, exploring the Dream Realm was terrifying and much more dangerous.

Having one more powerful companion in the team made all the difference.

"I only have these avatar techniques," Luo Feng said with a smile.

They sat by a stream, drinking and chatting, waiting for the results of Luo Feng's avatars scouting ahead.

Suddenly—

Luo Feng and the others looked towards the distance, where a team was fleeing at an extremely high speed. The team consisted of nine figures, with the leader being a cloaked figure, having three faces: one at the front and one on each side, each face scrutinizing the surroundings.

"Wanfa Tower!" Emperor Gui Xu, Wuxin God King, and Cloud Sky God King all tensed up, the smiles vanishing from their faces.

Luo Feng also saw the cloaked figure within that team.

"Is that the Wanfa Tower Master?" Luo Feng had not had any dealings with the Wanfa Tower Master and felt no fear, but he had also collected detailed intelligence on this Wanfa Tower Master.

The founders behind the three major alien race forces, Two Realms Palace, Wanfa Tower, and Time-Space Lonely Boat, all had different approaches.

The Two Realms Palace Master acted domineeringly and was the most aggressive, with Two Realms Palace also having the greatest momentum.

The "Time-Space Demon" from the Time-Space Lonely Boat was extremely low-profile, ruthless, and vicious in his actions, and even the two Ancient Countries... feared this Time-Space Demon the most.

The master of Wanfa Tower, it is said, mastered "all techniques". Even if his abilities were restricted to the upper limit of the Primal Chaos Realm! An uncountable number of secret techniques could transform the quality of the team under his command, making them the most difficult opponent to deal with.

"In the treasures realm, the most difficult to face head-on is the team led by the Wanfa Tower Master," said Emperor Gui Xu with some pressure, communicating telepathically, "Let's quickly leave this Dream Realm Space! And stay far away from them!"

"Right, let's hurry and go, the farther from them, the better," Wuxin God King also felt uneasy.

Luo Feng inwardly sighed.

Wanfa Tower Master... Even with his powerful abilities suppressed, just by leading a team, he still made beings at the peak of the Second Level of God King Realm like Emperor Gui Xu and Wuxin God King feel wary and even afraid!

How terrifying would it be if his true body could descend?

It's no wonder that on the Land of Origin, it is rumored that the true bodies of these three alien races are not inferior to the ancestors of the two countries.

…

The Wanfa Tower Master leading his team spotted Luo Feng and his four companions from afar.

"It's the team from Reincarnation Tower, and compared to the past, they have one additional member with black scales and golden horns," all three faces of the Wanfa Tower Master scrutinized the Reincarnation Tower team.

In an instant, he observed from many aspects, studying, and recorded a lot of information.

"I have locked onto them, if they continue to stay in this Dream Realm Space, we can look for an opportunity to deal with them," instructed the Wanfa Tower Master telepathically.

"Yes, Master," the eight members behind him replied, six of whom were at the Second Realm of God King, while two were also invincible at the First Realm of God King. They were a combination team handpicked by the Wanfa Tower Master.

Following the secret techniques passed on by the Wanfa Tower Master, the eight members working together could bring a qualitative change to the overall strength of the team.

The members of Wanfa Tower greatly admired their Master! Because he would often give them guidance in cultivation, he could be considered "half a master"!

"Phew." The distant Reincarnation Tower team quickly left, and in just a moment, they were out of that Dream Realm Space.

"They left, they've left this Dream Realm Space," the Wanfa Tower Master shook his head, "Too cautious."

The Dream Realm contained an enormous number of spaces.

Each space was independent, and once the Reincarnation Tower left that space, even the Wanfa Tower Master would have difficulty continuing to lock onto them.

"They are afraid of the Master."

"Master, there is no need to mind that Reincarnation Tower," one God King at the Second Realm directly called him Master. Indeed, within the internal members, the Wanfa Tower Master had taken on fifteen Direct Disciples. In terms of teaching ability, he was even above the ancestors of the two countries and also above the alien races behind Two Realms Palace and Time-Space Lonely Boat.

The internal unity of Wanfa Tower had a great relationship with the Master's willingness to teach the internal members.

…

Luo Feng's team quickly left that Dream Realm Space.

"Every time I meet the Wanfa Tower Master, I feel anxious," Wuxin God King couldn't help saying, "I feel like none of my techniques are secret from him."

"Although his own strength is suppressed by the Supreme Rules, he is able to make his team exhibit overwhelming strength," Emperor Gui Xu shook his head, "I've died at the hands of Wanfa Tower's team three times already."

"Died that many times?" Luo Feng was surprised.

"Mhm."

Emperor Gui Xu nodded, "Wanfa Tower's team works together

perfectly, during combat, it's as if they've calculated all our counter-moves. No matter how we resist or struggle, it's hard to escape."

"I also have to rely on the 'Boundary Breaking Escape Technique' every time I escape, but when I use the Boundary Breaking Escape Technique, I can't take any creatures with me," Wuxin God King shook his head.

"The Boundary Breaking Escape Technique of Brother Witch Heart can instantly appear anywhere in the Land of Origin; it can even leave the Source World. Theoretically, it holds the promise of reaching another Source World," Emperor Gui Xu said.

"But I can't go," Wuxin God King shook his head. "I need precise coordinates to have a chance of reaching another Source World. Beyond the Braided Cage World... even I would get lost. So at most, I dash out, take a tour, and then return to the Source World."

"Amazing," Luo Feng exclaimed. "Brother Witch Heart, you can actually fly and escape outside the Braided Cage World."

"When it comes to escape skills, Witch Heart truly is among the best in the Land of Origin," Emperor Gui Xu laughed.

"What does it feel like to fly and escape outside the Braided Cage World?" Luo Feng was curious.

"Very dangerous."

Wuxin God King said, "Outside the Braided Cage World lies the endless Primordial Space, filled with infinite Primordial Force! Once we are corroded by the Primordial Force, we creatures inside the cage can quickly be eroded into nothingness and die completely."

"In the end, we are still creatures inside the cage, while the real Primordial Lives can live comfortably in the Primordial Space," Wuxin God King said.

Luo Feng understood.

Cloud Sky God King often participated in teams and was very familiar with the means of Gui Xu and Witch Heart.

Emperor Gui Xu said, "We have run into teams from Two Realms Palace, and teams from Wanfa Tower... and this time, we have also explored five Dream Realm Spaces, so we can leave now."

"Greed is bad," Wuxin God King also nodded.

The more Dream Realm Spaces they explored, the more likely they could take a big fall one day.

"I agree," Luo Feng nodded. He had many Avatars that had long been left in various Dream Realm Spaces; he could take root here entirely.

"Let's hurry and go. I get a bit scared just seeing the Wanfa Tower Master," Cloud Sky God King also said.

"Let's go!"

And just like when they came, under Wuxin God King's Hidden Heaven Escape Technique, the entire team quietly returned and carefully passed through the Dream Realm entrance area, blocked by two Ancient Countries, finally making it back to the normal world of the Land of Origin.

Phew.

In the blink of an eye, the entire team crossed the vast distance from the Dream Realm entrance to Huang Yao Mountain.

Inside Huang Yao Mountain, the four of them, including Luo Feng, finally relaxed completely.

"Ha ha, this exploration of the Dream Domain went very smoothly. Although we were sabotaged by the Two Realms Palace and also attacked by powerful Dream Realm Creatures, it was much easier with Little Brother Luo He," Emperor Gui Xu laughed.

"Now let's distribute the treasures," Wuxin God King also said.

Luo Feng and Cloud Sky God King's eyes shone.

"The treasures we took from the Dream Domain are well known to everyone, together they are worth about two hundred and eighty

million Merit Points," Wuxin God King said. "Sister Yun Tian will take twenty-eight million Merit Points! The rest of us will each take eighty-four million Merit Points."

Luo Feng also felt excited.

Treasures worth over eighty million Merit Points?

Entering coveted areas like 'Infinite Space,' even for Guest Elders to exchange in the two great Ancient Countries, it would cost fifty million Merit Points. This income was something ordinary creatures at the First Realm of Godly King could not amass in a lifetime.

People like Emperor Tian Kun, who were at that level, their gains from raiding treasure areas were generally much less than Emperor Gui Xu's and Wuxin God King's tier. Yet Luo Feng's gain was equal to theirs.

Clearly, the hundreds of Avatars simultaneously restraining the entire Dream Realm creature tribes had impressed Gui Xu and Witch Heart, who acknowledged Luo Feng's contributions as no less than their own.

"Good, everything has been distributed," Wuxin God King quickly allocated the treasures, handing them over to the three companions.

Luo Feng also received a spatial storage bag filled with many rare treasures, all uniquely fostered by the special environment of the Dream Domain, and invaluable. However, Luo Feng did not cultivate the Primordial Bloodline, so most were useless to him.

"Do you know the detailed information about the treasures of the Dream Domain, Brother Luo He?" Wuxin God King asked. "Knowing their detailed value allows us to use them better and to sell them to other Godly Kings."

"I know," Luo Feng nodded. His master, Emperor Chu, had given him that information earlier. "By the way, does anyone have 'Five-Colored Treasure Medicine'?"

The Five-Colored Treasure Medicine was reportedly concocted from the heart of a Sector Beast which surpassed the Godly King Level,

sold exclusively by the two Ancient Countries! Upon taking it, one's affinity with the Great Dao of Destruction Origin could be significantly enhanced as if the Dao itself favored them!

With this treasured medicine, cultivating the Great Dao of Destruction Origin would be much smoother! The higher one's achievement in this area, the more effective the Great Destruction Heart Refining Technique could be.

But a dose of the medicine cost ten million Merit Points, a staggeringly high price! Over the long years, many doses of the 'Five-Colored Treasure Medicine' had been acquired by various Ke Qing God Kings.

"None here," Gui Xu, Witch Heart, and Cloud Sky God King all shook their heads.

"Five-Colored Treasure Medicine is rare. While some Ke Qing God Kings have exchanged for it, most have used it up long ago," Wuxin God King said. "You can ask your master; he is an Emperor after all."

Luo Feng nodded.

"Now that this mission is over, let's disband," Emperor Gui Xu laughed. "Let's gather for the next mission."

"Alright."

"Until we meet again."

Luo Feng and the others all replied with smiles, all very pleased with their haul.

For Luo Feng, venturing out once and gaining treasures worth tens of millions of Merit Points was a significant boost to his cultivation journey. Naturally, he was willing to participate in some of the upcoming actions.

Phew.

Soon after, the four of them quietly dispersed and left Huang Yao Mountain, each returning to their respective places.

Chapter 216 The Help of Emperor Chu

Flame Wind Ancient Country, Chu Capital.

"Finally, I'm not poor anymore," Luo Feng stood inside the Guest Elder Cave Mansion, in quite a good mood.

Before exploring the Dream Domain, he was indeed a bit poor.

A Guest Elder has very few Merit Points, and as for Cosmic Sand? The value of Cosmic Sand is too low; the three hundred billion units of Cosmic Sand used for the 'Desert Wind City Lord' to redeem himself in the Thunder Ancient Country's Transcendence of Primal Chaos Realm only equates to one million Merit Points!

In the treasure trove 'Infinite Space,' the tens of thousands of Reward Points are indeed precious, but Luo Feng is saving these points to exchange for the God King Second Realm section of the Special Grade Inheritance. After all, although resources are important, a Special Grade Inheritance is even more critical. It's very difficult to obtain Reward Points in Infinite Space, and each expenditure must be considered even more carefully.

"Over eighty million Merit Points is enough for me to be extravagant," Luo Feng immediately left the Cave Mansion and went directly to the Palace of Emperor Chu to meet his master.

Inside the Palace of Emperor Chu.

Emperor Chu was deeply immersed in his cultivation, a dark and colossal phantom appeared, emanating an endless aura of destruction.

"The complete Great Dao of Destruction Origin, trying to fully

comprehend it is truly too difficult," Emperor Chu opened his eyes. He had experienced too long a torment and always felt he was only a little bit away, but that little bit forever blocked his path.

Unlike those who practised the Primordial Bloodline, Emperor Chu, using treasures to cultivate into an Ultimate Realm Life Form, was not influenced by bloodline will and could maintain absolute clarity to comprehend the Dao!

"To date, I've realized five Ultimate Realm Secret Techniques and my accumulation is profound enough," cogitated Emperor Chu, "Among the Emperors, I can rank within the top five! Yet I cannot break through."

"Only by mastering the complete Dao... can I continue to stay on the Land of Origin in the next era," Emperor Chu understood this point. Enjoy new stories from empire

The threshold for leaving the Land of Origin is to become an Ultimate Realm Life Form! Even if the Land of Origin undergoes destruction, they can continue to live in the outer realms.

But leaving the Land of Origin, without the protection of the home Source World, the living conditions would be harsher by a thousand to ten thousand times—the environment for the Ancestors of the two countries outside is just such a perilous and severe one.

Only 'staying on the Land of Origin,' to withstand the destruction and rebirth of the Land of Origin, would then be recognized by the Supreme Rules of the Land of Origin as a 'native life of the new era.' But to withstand the entire process of destruction and rebirth of the Source World, one must realize a complete Dao.

Thus, in the last era, only the East Extreme Domain Ancestor and the two countries' Ancestors, these three survived into this era.

Those who relied on external forces to cultivate into 'Ultimate Realm Life Forms' are still alive in part but have long left the Land of Origin.

"The protection of the home Source World is very important, I must comprehend a complete Dao!" Emperor Chu also had ambitions.

The Godly Kings of the Royal Family in the two Ancient Countries all have desires.

Their first step is to become Emperors and Monarchs—on one hand, they have the qualifications to leave the Land of Origin and can live a long time; on the other hand, their strength and status increase, gaining more resources.

The second step is to master the complete Dao.

In this era of the two Ancient Countries, only Emperor Qing has achieved this!

Di Fu, not hesitating to be reborn and giving up the cultivation of the Primordial Bloodline, aimed to achieve this goal.

"Hm?" Emperor Chu looked outside, his disciple Luo Feng had already arrived at the entrance of the hall.

"Master," Luo Feng greeted respectfully from outside.

"Come in," Emperor Chu smiled, very satisfied with Luo Feng as a disciple. Already possessing achievements that surpass history in the First Realm of Godly King, he looked forward to his disciple's future accomplishments.

If the disciple is powerful, he might also be able to help his master!

Luo Feng immediately stepped into the grand hall.

"I heard you've recently established a sect 'Blade River Sect'," Emperor Chu said with a smile.

"It gives ordinary Cultivators more cultivation opportunities," said Luo Feng. He indeed didn't care much— at his level, even if the sect was powerful, what benefit would it bring to him? Even if it was incredibly significant and cultivated three or five Godly Kings, how would it matter? Luo Feng himself could easily create hundreds of powerful Avatars.

The path of cultivation is such—the stronger your power, the less significant the number of the weak becomes.

"Master, I came today to inquire if there's a way to purchase the 'Five-Colored Treasure Medicine'," Luo Feng said.

"Five-Colored Treasure Medicine?" Emperor Chu's eyes lit up and he smiled, "I've used this Five-Colored Treasure Medicine before, the effects are excellent. A portion of Five-Colored Treasure Medicine is valued at ten million Merit Points. Can you afford it now?"

The disciple's time in cultivation is quite short to have accumulated such wealth?

"There are not many Merit Points from being a Guest Elder," Luo Feng said, "But by chance, I did obtain some treasures that could be exchanged."

"No big deal, I can buy it for you," Emperor Chu said, "But the Imperial Clan has its rules: when the Royal Family exchanges for treasures, they must use them on themselves. If exchanged and traded with the outside world... the exchange price and the Guest Elder's exchange price are the same, and this is also to prevent the God Kings of the Royal Family from emptying the treasure trove."

Luo Feng nodded.

As long as there's a price difference, the God Kings of the Royal Family acting as traders could make a huge profit. Obviously, the two Ancient Countries had long closed this possibility.

"The Five-Colored Treasure Medicine is scarce; I can help you buy at most two portions," Emperor Chu said, "Each portion is also ten million Merit Points."

"Thank you, Master," Luo Feng rejoiced.

The Five-Colored Treasure Medicine, such a level of treasure, a Guest Elder Elder could exchange for it only once in their lifetime, and even that required sufficient contributions. As an Emperor, Emperor Chu could now buy at most two portions.

If Luo Feng were outside, the price he feared would be much greater.

"This Five-Colored Treasure Medicine was crafted from the heart of a

'Sector Beast' beyond Godly King Level, combined with other materials. Once consumed, it's as if it becomes a part of the Great Dao of Destruction Origin, greatly benefiting cultivation," Emperor Chu said.

"Sector Beast beyond Godly King Level?" Luo Feng was curious, "In the Land of Origin, only the Sector Beast from the Tianmu Kingdom is at the Ultimate Realm of God King."

"Of course, the Sector Beast beyond a Godly King ... isn't from our Source World," Emperor Chu didn't hide it from Luo Feng, "I once asked the Ancestor about this, and he told me the story."

"It comes from another Source World, an incredibly powerful Catastrophe Beast that had broken the limits of fate and cultivated beyond the level of God King! After leaving its Source World, cultivation wasn't easy, so it used its own heart and some materials to craft the 'Five-Colored Treasure Medicine.' The Ancestor bought some and left it in the Imperial Clan," Emperor Chu said, "For that Sector Beast, using its heart for alchemy, it could cultivate it back with some time."

Luo Feng was astonished, "The Sector Beast crafted the Five-Colored Treasure Medicine itself?"

"How difficult is it to kill a Sector Beast beyond the Godly King Level and still preserve the entire corpse? The huge price one pays, and even if the treasures were created, would it be your turn?" Emperor Chu smiled, "It was that very Sector Beast that crafted it itself, and in large quantities too, selling them to the ancestors. That's why the prices are relatively low, and you can afford it."

Luo Feng nodded.

That Sector Beast had it tough! It broke the limits of fate, becoming beyond a God King, yet it still had to use its own body for alchemy.

"The body of a Sector Beast is very special, fitting extremely well with the Great Dao of Destruction Origin. The more powerful the Sector Beast, the more valuable its bodily material," Emperor Chu said, "That Sector Beast beyond the Godly King, its heart, blood, and

bones—everything could be turned into treasures aiding cultivation."

"Actually, the Five-Colored Treasure Medicine is just the most well-known treasure aiding the Great Dao of Destruction Origin," Emperor Chu said, "There are even better aiding treasures that I once used."

"Better ones?" Luo Feng's heart stirred.

"Boundary Beast Blood Talisman!" Emperor Chu said, "Also personally crafted by that pioneering Sector Beast beyond the Godly King, using its own blood to make the Command Token… One token costs one billion Merit Points. Once used, it can temporarily condense a complete Great Dao of Destruction Origin within one's body! One token lasts about three epochs."

Luo Feng was startled.

"You prepare one billion Merit Points' worth of treasures, and I will buy you one," Emperor Chu grinned, "My cultivation is of the Great Dao of Destruction Origin, so I still have the qualifications to exchange for one more."

"Okay," Luo Feng nodded repeatedly.

"As your mentor, I know, this is the best treasure aiding the Great Dao of Destruction Origin," Emperor Chu said, "Want better? You'll probably have to find the Ancestor."

"That's already great," Luo Feng was excited.

Before this, he didn't know about the 'Boundary Beast Blood Talisman.'

"People say I'm not good at teaching disciples." Emperor Chu looked at Luo Feng, "I'm aware of my limitations, indeed not skilled at instructing disciples. Luo Feng, you transcended the Primal Chaos Realm and are absolutely the first in the First Realm of Godly King, not because of my teachings, but because your own talent is high enough."

"As your mentor, the most I can do is to help you as much as possible with resources," Emperor Chu said, "Of course, you still need to

provide the treasure yourself; your mentor here is quite poor too."

Luo Feng laughed.

"The Great Dao of Destruction Origin, you need these treasures. What about the Great Dao of Life Origin, the Origin Dao of Matter?" Emperor Chu asked, "What treasures do you need? Can I help with anything?"

Luo Feng was moved.

Because he could always directly confront the complete Great Dao of Life Origin, on this path, Luo Feng had indeed walked much further than the 'Great Dao of Destruction Origin,' having already started experimenting with integrating branches of the Dao.

"Master, I also need materials from the 'Twenty-four Forms'," Luo Feng said, "Not much, just a little flesh and scales. Is there a way to purchase them?"

"Twenty-four Forms?" Emperor Chu frowned slightly, "Twenty-four Forms is one of the many forms presented after reaching the Ultimate Realm of the Life Origin Great Dao. This particular form is quite special."

Luo Feng listened.

"Beings with 'Primordial Bloodline Life' bred within the Land of Origin have very powerful life forms," Emperor Chu said, "Though their intelligence is low, those of Primal Chaos Realm levels of Primordial Bloodline Life, even the ones with the thinnest bloodline, could manifest 'Ten Direction World Life Form.'"

Luo Feng nodded, having collected some materials while he garrisoned Xiangjie City.

"As for those with richer bloodlines, those at the First Realm of Godly King level of Primordial Bloodline Creatures, I haven't heard of any with the Twenty-four Forms," Emperor Chu said, "At the Second Realm level, it's extremely rare."

"At the Ultimate Realm of God King level of Primordial Bloodline

Creatures, the life forms are extremely powerful, many go beyond the 'Twenty-four Forms.'"

"As for those beyond God King? They are true Primordial Life forms, existences that have escaped the Braided Cage," Emperor Chu said.

Luo Feng nodded.

Primordial Bloodline Creatures generally have the characteristics of 'extremely high life essence, low intelligence, low realm,' thus they can only unleash very little of their body's potential.

Like true Primordial Life forms beyond God King, they clearly are beings that have escaped the Braided Cage! But the strength they can demonstrate might not necessarily be comparable with the ancestors of two ancient countries.

"Ultimate Realm of God King level Primordial Bloodline Creatures are strictly guarded by the two Ancient Countries, absolutely not disclosed," Emperor Chu looked at Luo Feng, "Because extracting their bloodline makes becoming an Emperor or Monarch much easier."

"Unless you have treasures that even the Ancestors fancy, allowing the Ancestors to make an exception for you," Emperor Chu said, "We, these Emperors and Monarchs, have no rights to give them to you, not even a drop of blood."

Luo Feng understood.

"Primordial Bloodline Creatures at the Second Realm of Godly King, theoretically, are the best Primordial Bloodlines a Guest Elder could obtain," Emperor Chu said, "But the threshold is extremely high."

"I only need a small amount of material," Luo Feng said.

"I will find a way to see what cost it takes to get some materials," Emperor Chu said, "But I advise you to start with Thunder Ancient Country! In cultivating Primordial Bloodline Creatures, Thunder Ancient Country is more skilled than our Flame Wind Ancient Country, and they have more in number, making it easier to obtain."

Chapter 217 Taking the Precious Medicine

Luo Feng nodded, "Master, how much do you estimate it would cost to buy some materials for the 'Twenty-four Forms Life Form'?"

"This life form with the Primordial Bloodline is extremely valuable, a single portion of a refined complete bloodline... for a Ke Qing God King exchange in the Flame Wind Ancient Country, it requires a billion Merit Points," Emperor Chu said. "As for a small amount of materials? They generally don't sell in small quantities. Even Thunder Ancient Country would not sell them in pieces."

Luo Feng said, "I do not need to refine a complete bloodline, what I need is to comprehend the life form! A partial corpse would be enough for me, is that possible?"

"A complete corpse can be refined into three to five portions of complete bloodlines, depending on the refining capability," Emperor Chu said. "If you do not need to refine, they can directly sell you one-third of a corpse, saving the cost of refining as well."

Luo Feng understood.

One-third of a corpse of a Primordial Bloodline Creature with the Twenty-four Forms Life Form costs a billion Merit Points?

For beings like the Emperor of Tian Kun and the Master of the Shi Kingdom, amassing treasures to gather a billion Merit Points is also extremely difficult. Because with each adventure, it's uncertain when one might fail, and if the True Body dies, there would be a considerable loss.

"A billion Merit Points is too high. It's the highest exchange level for a Ke Qing God King," Emperor Chu said. "In Thunder Ancient Country,

you only need six hundred million Merit Points, which is much cheaper."

"I understand," Luo Feng nodded and smiled. "It's all very far from me, I can't afford them for now."

These materials were very important to Luo Feng.

Stay connected through empire

Without these materials, Luo Feng could only construct the Twenty-four Forms Life Form with Divine Power, and the power would be much less.

But if he got the materials and peered into their essence, changing into them with the Formless and Intangible, he himself could have the physical body of a 'God King Second Realm Primordial Bloodline Creature'! Those Primordial Bloodline Creatures did not utilize their physical potential fully. In Luo Feng's hands, who clearly comprehended the essence of physical life forms, he could naturally unleash their full potential. Even if his Physical Body's strength was slightly inferior to an 'Ultimate Realm Life Form,' the difference would not be much.

"I haven't even comprehended the first of my Twenty-four Forms yet, so there's no hurry," Luo Feng also had patience.

The essence must be clearly comprehended to transform with Formless and Intangible.

Moreover, 'Formless and Intangible' had one limitation. When Luo Feng became a Godly King and his body merged with the Supreme Rules... he realized that Formless and Intangible could only transform matter born within the Source World.

If it went beyond the range of the Supreme Rules, Formless and Intangible could not change.

And these Primordial Bloodline Creatures were indeed native creatures of the Land of Origin, bred and cultivated from true Primordial Life bloodlines by the two Ancient Countries through successive dilutions over generations.

"Here are two vials of Five-Colored Treasure Medicine, take good care of them." Suddenly, Emperor Chu stretched out his hand, and two black bottles appeared with swirling liquid within.

"Treasures worth twenty million Merit Points, I haven't even prepared," Luo Feng was surprised at his master's swift action.

"Whenever you are ready, just give them to me," Emperor Chu said indifferently.

Luo Feng immediately took them.

"With your many avatars, a reminder," Emperor Chu said, "the Five-Colored Treasure Medicine... must be consumed by your True Body. If a weak Avatar takes it, then the effects of the medicine will only influence that weak Avatar."

"I understand," Luo Feng nodded.

"You've been a Godly King for so long now, haven't you claimed the 'Extermination of Seventy-Two Blades' and 'Eight Tribulations Life Form' God King Second Realm inheritance?" Emperor Chu asked, because this was his promised gift to Luo Feng.

Once Luo Feng claimed it, the Merit Points would be automatically deducted from Emperor Chu.

Emperor Chu naturally knew that Luo Feng had not yet claimed the inheritance.

"I know you went to Infinite Space, because in the Infinite Space Treasure Vault, you saw better Special Grade Inheritances and even perfect inheritances, so you were not in a hurry for 'Extermination of Seventy-Two Blades' and 'Eight Tribulations Life Form,'" Emperor Chu shook his head, "but an inheritance isn't necessarily better because it's higher class; the higher class ones are harder to cultivate. More importantly... the higher the class of the inheritance, the more Reward Points they cost in the Infinite Space Treasure Vault."

"To exchange for a First Realm Special Grade Inheritance as a Godly King is possible, but the Second Realm section would be around 3000 Reward Points, and the Ultimate Realm would require about 60,000

Reward Points! It's very difficult to earn Reward Points in the Infinite Space; even if you open up a new Great Dao that reaches the First Realm of Godly King, you are only rewarded with 10,000 Reward Points!" Emperor Chu said with emotion. "The Ultimate Realm section of a Special Grade Inheritance can be seen, but how many can afford to exchange for it?"

Luo Feng immediately understood a lot of information.

Opening a branch of the Great Dao, ten thousand Reward Points?

As an identity with the Primal Chaos Realm and Spiritual Will reaching the Ultimate Realm of Godly King, he, too, had received ten thousand Reward Points.

But just to exchange for an Ultimate Realm section of a Special Grade Inheritance needs about 60,000 Reward Points.

"Upper-class Inheritance is more accessible to obtain," Emperor Chu said. "At least it's a clear path to the Ultimate Realm."

"Disciple understands, I will go claim the two inheritances right away," Luo Feng responded.

...

That day, Luo Feng first went to the Inheritance Palace to claim the 'Extermination of Seventy-Two Blades' and 'Eight Tribulations Life Form' God King Second Realm sections, and also delivered treasures worth twenty million Merit Points to his master.

Emperor Chu immediately recognized that these treasures came from the Dream Domain, and he smiled without saying anything.

******

In the Quiet Room of the city owner's mansion in Huyang City.

Inside the Star Tower.

"Five-Colored Treasure Medicine." Luo Feng's Perfect Divine Body True Body looked at the black bottle in front of him. His Perfect

Divine Body had long since recovered to its full state, and he was prepared to consume the treasure medicine with the Perfect Divine Body.

"Come, let's see just how powerful this treasure medicine made from the heart of a 'Sector Beast' above Godly King level is," Luo Feng pulled the cork, pouring it directly into his mouth.

Swoosh!

When the liquid swirled out from the black bottle, it radiated five-color radiance and even faintly revealed the phantom of a Sector Beast, a figure that had a seventy-percent resemblance to Morosa's True Body. The treasure medicine liquid all entered his throat.

"Hm?" As soon as it entered his throat, Luo Feng's face changed.

Boom, boom, boom~~~

As if a vast universe had exploded within him, an endless and terrifying might instantly swept through his body and even merged into his soul.

"This, this…" Luo Feng was immensely shaken. On his path of cultivation, he seldom relied on external substances, and he had never used anything at the level of the Five-Colored Treasure Medicine. At this moment, Luo Feng understood.

This Five-Colored Treasure Medicine had been well worth the purchase!

"I made the right choice, this treasure medicine was the right purchase."

"I am different now."

Luo Feng could clearly feel a mysterious network of veins appearing inside his Perfect Divine Body! This network seemed to be a new framework, transforming his Perfect Divine Body! While his strength and speed had only increased by about fifty to sixty percent, it was still far from the effects experienced by a World Life Form.

However, now that this new layer of veins was present within his Perfect Divine Body, Luo Feng felt as if he himself had changed.

"Boom～～～" With a gentle wave of his hand, countless Law Secret Patterns emerged, and the essence of the Great Dao of Destruction Origin flowed naturally with his movements.

"This world is too filthy, and the Source World too weary, it needs a thorough cleansing."

At this moment, Luo Feng could even sense an instinctual desire.

A desire to 'cleanse' the Source World thoroughly.

There were so many weak life forms; the greater their number, the less opportunity these weaker beings had to grow! By significantly reducing their numbers, weak life forms would have access to more abundant resources and nourishment from heaven and earth, becoming more elite and outstanding.

"Hm?"

"What am I thinking?" Luo Feng's Spiritual Will was ultimately strong, and he immediately sensed something was amiss.

"My soul has also been affected by the power of the Five-Colored Treasure Medicine." Luo Feng noticed a mysterious rune structure within his soul, maintained by the power of the Five-Colored Treasure Medicine.

This made Luo Feng's soul perfectly align with the Great Dao of Destruction Origin, so that every motion naturally manipulated the mysteries of destruction.

"From my physical body to my soul, everything has become perfectly aligned with the Great Dao of Destruction Origin, even giving me the instinct to 'cleanse the world.' However, as long as the will is strong enough, these instincts can still be suppressed," Luo Feng thought.

At this moment, Luo Feng also understood why Sector Beasts caused calamities and even destroyed all living beings.

Sector Beasts were born from the Great Dao of Destruction Origin! Compared to Luo Feng's current state, they were much more in harmony, for they had long since had 'cleansing the world' ingrained in their souls.

Only through soul enslavement could the instincts of Sector Beasts be suppressed.

"I'm now in a weakened state akin to a Sector Beast?" Luo Feng stopped pondering and started to focus on cultivation.

Because he could feel that both the vein network within his physical body and the rune structure within his soul were maintained by the power of the Five-Colored Treasure Medicine. Once it ended, this state would also come to an end.

Luo Feng first contemplated the Secret Techniques in the Special Grade Inheritance "Chaotic Hole Beast Body," of which he had already deduced three strikes.

The first strike took the longest time to understand, and because of it, Luo Feng had comprehended all six branches of the Path of Destruction. The second and third strikes came much quicker.

"Isn't it quite simple?"

With the foundation of the first three strikes, Luo Feng gave it some thought, and the fourth, fifth, and sixth strikes were all deduced in a moment, without any obstacles.

"My past understanding of the Great Dao of Destruction Origin was too naive."

"Destruction is not just destruction... it is also a form of cleansing, a rebirth." Luo Feng's perspective on the Great Dao of Destruction Origin had changed, and with this shift in perspective, the difficulty of comprehension instantly decreased.

Cleansing the world, clearing all things.

Just annihilate these impurities!

"Then I should try to deduce the strongest Secret Technique 'World Unification' that can be understood at the First Realm of Godly King, as recorded in the Special Grade Inheritance 'Chaotic Hole Beast Body'!" Luo Feng immediately decided.

For the Great Dao of Life Origin, Luo Feng had always been contemplating the "Twenty-four Forms."

For the Great Dao of Destruction Origin, Luo Feng decided to deduce "World Unification."

"World Unification..."

Luo Feng immersed himself in study, and a flood of insights surged forth.

Luo Feng soon encountered various obstacles, but his current state was exceptional, and he kept breaking through the hurdles.

"The World Unification Secret Method requires first establishing a 'foundation,' then defining the 'Six Paths.' Afterwards, with the perfect coordination of the Six Paths, everything can be brought to 'Unity.'" Luo Feng wrestled with the complex Secret Technique, gradually grasping the essence of the entire method.

Once he understood the essence, Luo Feng addressed the problems one by one and began to forge the foundation.

...

Time passed, and Luo Feng quietly cultured himself, disengaging from the conflicts of the Land of Origin, cherishing each day sustained by the Five-Colored Treasure Medicine.

Before long, three eons had passed.

"Hum."

Inside the Star Tower.

The power of the Five-Colored Treasure Medicine finally ran out, and the network within Luo Feng's Perfect Divine Body and the rune

structure in his soul collapsed in an instant. Luo Feng immediately felt a sharp estrangement from the Great Dao of Destruction Origin, as the sense of being one with it was lost.

"Gone?" Luo Feng was somewhat lost and disappointed.

Having grown accustomed to the favor of the Great Dao, returning to his previous level of perception was naturally uncomfortable.

"In these three eons, my comprehension of the Great Dao of Destruction Origin has truly undergone a complete transformation!" Luo Feng reflected on the gains of those three eons, realizing the tremendous strides he had made.

Chapter 218 Dream Domain Asleep

In the outer layer of the Dream Realm, one of the spaces was enveloped by howling winds, with countless mountains and rocks standing tall.

One large rock, subjected to the wind's erosion for a long stretch of time, suddenly—

The large rock moved, naturally transforming into a figure with black scales and golden horns, which was none other than one of Luo Feng's three main avatars that occupied the outer layer of the Dream Realm. While the Perfect Divine Body completely immersed itself in comprehending the Great Dao of Destruction Origin, Luo Feng's other avatars were almost in a state of slumber.

"The cultivation with the Five-Colored Treasure Medicine is over; it's time to properly cultivate the Spiritual Will," Luo Feng's one avatar quietly left and swiftly proceeded on its journey.

While dividing other avatars for reconnaissance, Luo Feng quickly arrived at the deep layers of the Dream Realm.

"The deep layers of the Dream Realm."

Luo Feng could see a space ahead, even more dim and with faint thunder flashing.

Whoosh, Luo Feng carefully flew into it.

"Indeed, it's the deep layers of the Dream Realm," Luo Feng felt a terrifying pressure acting upon his spirit, with layers upon layers of heart pressure enveloping him, seemingly endless, exhausting Luo Feng considerably.

"The ancient beings from the Land of Origin form teams, yet they seldom venture into the deep layers of the Dream Realm," Luo Feng was well aware of this.

Only wills at the God King Ultimate Realm could maintain lucidity here, and most of the ancient beings also cultivated the Primordial Bloodline, needing to divert their attention to suppress the residual will within their bloodlines. So, to form a team where every member could traverse the deep layers of the Dream Realm? That was exceedingly difficult!

"For an individual to sneak into the deep layers of the Dream Realm, dealing with more powerful Dream Realm Creatures becomes very difficult," one of Luo Feng's avatars encountered three flame Exotic Beasts, each with a black body. Merely judging by their aura, each could rival the Stone Monster Leader.

One of the flame Exotic Beasts noticed Luo Feng and immediately whooshed into a clump of black flames, enveloping him.

"Escape," Luo Feng's one avatar immediately divided again into ten smaller ones, scattering and fleeing.

"Pfft!"

Soon, one of the avatars was trapped by the black flames, burned for a moment, and eventually was extinguished.

"The deep layers of the Dream Realm, the influence on the Spiritual Will is even greater, and the Dream Realm Creatures are even more terrifying. But the treasures here are even more precious! Only... there are very few who have the capability to come here and harvest these treasures," Luo Feng thought to himself.

Even Emperors and Monarchs, for the most part, needed to divert their attention to suppress the will of the bloodline, and not many were qualified to come here.

"Too dangerous."

Luo Feng divided many avatars and briefly explored a portion of this deep Dream Realm space, "With my current strength, I can't even

grab a single treasure."

In the middle layers of the Dream Realm, Luo Feng could still harvest treasures from a limited number of regions based on his abilities.

The deep layers of the Dream Realm? A few random creatures could rival the teams from the Reincarnation Tower. Even some terrifying Dream Realm species, any true body of an Emperor or Monarch daring to enter might not be able to escape.

"These Dream Realm Creatures all contain a trace of will but possess no soul," Luo Feng was also curious.

Without souls, most Dream Realm Creatures remained within their territories. Only a few would leave their domain due to special reasons... yet they could never leave this Dream Realm Space!

Over time, the Dream Realm Space would change, Dream Realm Creatures would perish, and new terrifying Dream Realm Creatures would emerge.

"Dream Realm, Dream Realm, is it truly just a dream?" Luo Feng pondered.

Some powerhouses in the Land of Origin believed that the Dream Realm... was merely a dream! A dream created by Yuan.

Yet others objected, after all, they could enter with their True Body and the wonders of heaven and earth they harvested could be used normally in the outside world! It was hard to explain with 'just a dream.'

This also made many powerhouses further revere 'Yuan.'

"Let's do it here," after exploring the surrounding area, Luo Feng chose a secluded spot on the mountainside of a desolate mountain, sat down cross-legged, and naturally turned into an inert stone.

Luo Feng then started to cultivate the 'Great Destruction Heart Refining Technique.'

In the deep layer of the Dream Realm, since Luo Feng was not seizing

any treasures and not provoking any Dream Realm Creatures, merely cultivating here was quite safe.

"Rumble~~~" The pressure of the Dream Realm on the Spiritual Will was relentless and endless, and under this terrifying pressure, Luo Feng continued to sustain the Great Destruction Heart Refining Technique, causing an immediate surge in the pressure on his Spiritual Will.

Hiss!

Taking the 'Five-Colored Treasure Medicine,' and the enhancement in comprehending the Great Dao of Destruction Origin, made the 'Great Destruction Heart Refining Technique' also evolve, increasing its might substantially.

"Hmph!" In an instant, Luo Feng felt extreme pain, extreme torment.

"Increased potency of the Great Destruction Heart Refining Technique, harsher conditions in the deep layers of the Dream Realm… dual refinement, truly uncomfortable," Luo Feng found every moment excruciating as his Spiritual Will seemed to be crushed to pieces and then congealed again.

"The Great Destruction Heart Refining Technique... indeed painful!"

Like the Seven Emotions of Heart Refining Technique, which refines the heart with emotions, and is a relatively pleasant experience during cultivation. But the Seven Emotions of Heart Refining Technique cannot be sustained for long.

The Great Destruction Heart Refining Technique shows ordinary results in a short time but has the advantage of being sustainable over the long haul.

"To have obtained the 'Lie Yuan Technique,' and to learn the 'Great Destruction Heart Refining Technique' within it, I'm already fortunate," Luo Feng endured silently, and in the process of tempering, gradually discovered the many unstable thoughts of his spirit, relentlessly eroded time and again.

In this ongoing process of Destruction Refinement, the erosion by the

deep spatial layers of the Dream Realm also continued ceaselessly, and unbeknownst to him, the influence of the Dream Realm's erosion grew deeper.

Hum!

About half an era into Luo Feng's cultivation in the deep layer of the Dream Realm, his increasingly tired spirit was completely eroded by the Dream Realm.

In an instant, Luo Feng fell into a deep sleep.

At that moment, all his avatars in the outside world, including those in Infinite Space, also fell into slumber.

"Whoo, whoo, whoo～～～"

The piece of inert stone in the deep Dream Realm space became a complete stone.

...

Luo Feng forgot who he was, as if he had turned into a massive creature flying through the air.

"What a mighty Primordial Life," accompanied by hearty laughter, a towering hand had already grabbed him. Luo Feng felt a fear emanating from the depths of his soul. He had no desire to resist; there was only fear and thoughts of escape.

"I must escape."

"Flee for my life."

"Ancestor, save me."

A jumble of disordered thoughts.

It seemed like Luo Feng had escaped that giant hand, but soon he was enveloped by a Formation, and he escaped again! Another figure was in pursuit…

This dream was twisted, as if he was constantly running, fleeing in terror.

While "asleep," Luo Feng lost control of himself and naturally stopped the Great Destruction Heart Refining Technique! His Spiritual Will had long reached the bottleneck limit of the Godly King Tier.

Just under the mere deep layers of the Dream Domain, Luo Feng gradually began to awaken from the terrified flight in his dream.

"Am I, am I dreaming?" Luo Feng was astonished.

Dreaming was such a distant concept for him.

With his spiritual state, he should have perfectly mastered control over himself and not dream at all.

"I'm Luo Feng. I'm cultivating in the deep layers of the Dream Domain." Once Luo Feng became aware of his existence within the dream, he felt the dream start to shake and become unstable.

"This dream is interesting, stabilize it," Luo Feng tried to harmonize more with the dream.

Because at this moment, the massive creature he had become…

Was too vast, even more magnificent than the 'complete Life Origin Great Dao' he had observed before, and it even carried a hint of the 'Supreme Rules.'

And the figures that seemed to chase after him from behind appeared even more terrifying than the entire Source World.

"What is this?"

Luo Feng wanted to maintain the dream, but he eventually woke up. The longer he was awake, the more fragmented the dream became.

Bang!

Finally, the dream completely dissipated.

In that space deep within the Dream Domain, on a barren mountain's mid-slope, a stubborn rock opened its eyes.

"I fell into a slumber, that dream just now..." But Luo Feng found his memory of the dream to be very vague, only remembering that he had turned into a massive creature, only remembering that what chased him was terrifying.

The appearance of the pursuer, Luo Feng could no longer recall. The methods they used, he also could not remember.

"How could I have such a dream?" Luo Feng was somewhat puzzled.

When other strong beings enter the Dream Domain, if they fall into slumber, it's very difficult for them to awaken.

Either they rely on other strong beings to bring their True Body out, or they have a lucky breakthrough in their spirit in the dream, but the odds of that are negligible!

Luo Feng had consciously entered into spiritual Cultivation here, which is what led to his slumber. But once asleep, he naturally stopped the Great Destruction Heart Refining Technique! Given the real strength of his Spiritual Will, it was easy for him to regain consciousness.

"Cultivating for half an era, indeed, I'm somewhat fatigued. Time to rest for a while." Luo Feng immediately left the deep layers of the Dream Domain silently and returned to the outer layers.

...

Within the Primordial Cosmos, that Mysterious Land.

Luo Feng's Divine Power Incarnation was observing the complete Life Origin Great Dao before him.

"I didn't expect that in just three eras, with the help of the Five-Colored Treasure Medicine… the accumulation of the Great Dao of Destruction Origin would be comparable to the Great Dao of Life Origin," Luo Feng thought. "But once I use up the treasure medicine, the speed of Cultivation will become very slow again."

The path of Life has the advantage of facing the Great Dao directly, always ensuring a higher efficiency in Cultivation.

"There are only two doses of the Five-Colored Treasure Medicine, and the 'Boundary Beast Blood Talisman' is even more precious… Even with the status of my master, I can only exchange for one," Luo Feng mused inwardly. "The use of the Boundary Beast Blood Talisman must be even more prudent."

Master Emperor Chu cultivated the Great Dao of Destruction Origin, which is why he could exchange for one. It is possible that other Emperors couldn't even make the exchange. As for Ke Qing God King? They didn't have the qualifications to see it!

"Whether it's the Five-Colored Treasure Medicine or the Boundary Beast Blood Talisman… they must be used at critical moments."

Understanding the Great Dao, many of the superficial aspects are relatively easy to understand.

Without using treasures, one could comprehend them over time.

The real key things, the extremely difficult ones, might make one stuck for a long time. At such times, using a treasure is highly efficient.

"I'll take the Five-Colored Treasure Medicine again in thirty eras," Luo Feng decided. The Five-Colored Treasure Medicine is slightly less precious, after all, even a Ke Qing God King can exchange for it. With some extra effort, he should still be able to obtain a few more doses.

But the Boundary Beast Blood Talisman… Luo Feng wanted to save it for use during the Second Realm of Godly King stage to better charge towards the Ultimate Realm.

"Life and Destruction, indeed, are quite distinct."

Luo Feng faced the Great Dao of Life and began to immerse himself in cultivation.

Cultivation, after all, also requires a change of mind! If one hits a bottleneck in understanding Destruction, try understanding Life then

attempt 'Life and Destruction Fusion'… and then go back to comprehending Destruction, the bottleneck might just loosen.

Cultivation is about daily accumulation!

In this way of cultivation, Luo Feng soon received a second invitation to action from Emperor Gui Xu.

Chapter 219 The Schemes of the Black Fire Demon Lord

The most active members in the Reincarnation Tower now are Emperor Gui Xu, Wuxin God King, Luo Feng, and Cloud Sky God King. Since Cloud Sky God King only had one true body and was the weakest, he dared not venture into overly dangerous areas.

Over the long years that followed, Gui Xu, Wuxin, and Luo Feng took action time and again. Cloud Sky God King would join them only when he was confident enough, whereas King Tian Du, Great Freedom Sovereign, and Black Fire Demon Lord only joined them occasionally.

As for the strongest in the Reincarnation Tower, Wind City Empress and Earth God King, it was a rare occasion when they assembled a team.

In these repeated actions, Luo Feng and the members of the Reincarnation Tower became increasingly acquainted.

Huyang City, the headquarters of Blade River Sect.

"Brother Xin Yu."

"Brother Xin Yu."

The disciples of Blade River Sect, upon seeing a young man in blue clothes, immediately called out respectfully. The young man carried a blade on his back, with a wind chime hanging on the handle, which made sounds when the wind blew.

Since the establishment of Blade River Sect, the founder Luo He God King had only taken one direct disciple, this Brother Xin Yu! Brother Xin Yu also became one of the two major direct disciples under Luo

He God King.

Moreover, in terms of prestige, Brother Xin Yu far exceeded the other 'Master Moyu Qingyan'; after all, in terms of talent, Brother Xin Yu was much more dazzling.

"Elder Luo Sa." Xin Yu spotted a powerful presence immediately and respectfully greeted him. The Blade River Sect was managed by two elders—the original elder and Elder Luo Sa.

"Xin Yu, how was your journey out?" Morosa looked at this young junior with mixed emotions.

"I have accumulated enough and have returned to prepare for the breakthrough to the Primal Chaos Realm," Xin Yu respectfully said.

Morosa nodded slightly, joyful, "With your accumulation, it is indeed about time! Hurry and breakthrough, once you do... you will be the first disciple from the Blade River Sect to reach the Primal Chaos Realm."

"Yes." Xin Yu bowed respectfully and then left.

Morosa watched Xin Yu's retreating figure.

"The gap is too big, too big," Morosa murmured to himself, "My poor Qingyan, simply no match!"

This was one of the most dazzling and talented individuals from numerous elites in the hundreds of surrounding Primal Chaos Prefectures. Even Luo Feng was quite satisfied, specially selecting him as a second disciple! In terms of talent, he was much stronger than the original Divine Monarch Xue Yun.

"Qingyan also tries hard, and I've tried my best to help him, but even with the 'Bloodline Path,' he is still far from making a breakthrough," Morosa shook his head. "Yet this Xin Yu, born in a weak tribe, managed to cultivate into one of the unlimited godly bodies! Following the path of laws... his accumulation is now immensely profound, and he has comprehended many moves of the Primal Chaos Realm."

No matter how one compared, the gap was too large.

Yet Morosa favored Qingyan, as he had raised him from a True God step by step. Back then, by the master's side, there was only one servant, one disciple.

"Am I not good at cultivation myself, or is it my teaching that fails?" Morosa muttered to himself, "Well, if I really can't cultivate Qingyan, then I can only rely on myself."

"The stronger I become, the more secure Qingyan's position will be."

"If I can reach the Ultimate Realm, I won't need to hide anymore. Qingyan... being a direct disciple of an Ultimate Realm Beast, I believe he would also be quite formidable," Morosa thought delightedly.

After all, Moyu Qingyan had two masters; the great master Luo He and the second master himself, Luo Sa!

"But to reach the Ultimate Realm, constantly absorbing the power of heaven and earth, how long would that take?" Morosa thought for a moment, then immediately went to the city owner's mansion to find his master.

In a pavilion of the city owner's mansion, Luo Feng sat high in a black robe.

"Master," Morosa hurried over.

"Rushing over from the Blade River Sect in such a hurry, is there something urgent?" Luo Feng smiled at him.

"Master, the little fellow Xin Yu returned from his journey and said he's going to seclude himself for the breakthrough to the Primal Chaos Realm," Morosa said.

"He indeed has the potential of a Godly King; reaching the Primal Chaos Realm is a minor matter," Luo Feng said. Even in the internal rankings of Blade River Sect, despite outstanding performances... most would at most become registered disciples of Luo Feng.

Among the various registered disciples, Luo Feng chose Xin Yu as his direct disciple.

Born humble, with an unlimited godly body, exceptional comprehension, and strong spiritual will... in all aspects, one could say he was a diluted version of himself! In terms of godly body and spiritual will, to compare at the same level with himself was a bit unfair to the disciple, but Xin Yu's conditions already showed the potential of a Godly King.

"The little guy is about to breakthrough, yet I have always been unable to." Morosa looked at Luo Feng and transmitted his thoughts, "Master, the Blade River Sect has been established for over a century now, and my progress has been minimal. Absorbing the power of heaven and earth at such a slow rate, when will I reach the Second Realm? When will I reach the Ultimate Realm?"

Luo Feng smiled at Morosa, understanding what he meant; Morosa also wanted some resources.

"Don't be in a hurry," Luo Feng said.

"I'm not in a hurry, but only when I'm strong can I better help you, Master," Morosa transmitted.

"There will be good news soon," Luo Feng said.

Morosa's eyes lit up immediately: "Master, you mean..."

"Just what you think," Luo Feng waved his hand, "Alright, you also hurry off to cultivate! In terms of cultivation, you need to put more effort into it yourself."

"Understood," Morosa responded verbally, then immediately retreated.

Cultivation?

He had tried cultivating himself but only felt utterly confused.

It was most comfortable to just lie flat and grow naturally.

"I have done everything I could with the 'Twenty-four Forms Biological Materials' parts of the corpses," Luo Feng was somewhat exhausted, "Now it all depends on Brother Black Fire."

Since the time, over a century ago, he met his master Emperor Chu, Luo Feng had been wanting parts of the 'Twenty-four Forms Biological Materials'. He'd been pushing this matter forward, but at the Flame Wind Ancient Country side, cultivating Primordial Bloodline Creatures was inherently weak. The more elite the Primordial Bloodline Creatures, the stricter the guarding, and even his master Emperor Chu couldn't get the materials as everything had to follow the ancient country's rules.

"Luo He." Luo Feng suddenly received a message from the Black Fire Demon Lord.

Black Fire Demon Lord rallied a large number of Godly Kings with enmities against Thunder Ancient Country to form a significant power.

If the Mother River Master that leads the Life Mother River is a force resisting Flame Wind Ancient Country,

then the Black Fire Demon Lord leading the Black Fire Gate is a force resisting Thunder Ancient Country. Although not as prominent as the Life Mother River, the Black Fire Gate is still formidable. Black Fire Demon Lord could even bring out the "Earth God King" in critical moments to come to his aid.

...

Inside the Reincarnation Tower,

Black Fire Demon Lord met Luo Feng.

"Luo He," the Black Fire Demon Lord was quite handsome with flame-like Secret Patterns on his face, leading an influential force against Thunder Ancient Country. Despite opposing such a powerful entity, he cordially befriended various dispersed Godly Kings, earning a remarkably good reputation.

Luo Feng had once discussed "Twenty-four Forms Biological

Materials" in the Reincarnation Tower, asking if other members could provide any help, and the Black Fire Demon Lord offered to give it a try.

"Brother Black Fire, do you have news for me?" Luo Feng asked in surprise.

"Haha, I've always said that when it comes to familiarity with the Royal Family Godly King of Thunder Ancient Country, I am second to none on the Land of Origin," the Black Fire Demon Lord said with a smile.

He was an early Guest Elder Godly King of the Thunder Ancient Country and was already in the Second Realm of Godly King at that time. Ambitious, he aimed to become a Monarch.

In terms of merit points... he had accrued countless merit points for Thunder Ancient Country, far surpassing those of the Royal Family Godly Kings. Yet, merely because he was a Guest Elder Godly King, he could never access the resources to become a Monarch.

After long suffering, he finally resolved to steal a portion of Primordial Bloodline to become a Monarch, but ultimately failed and could only flee Thunder Ancient Country.

But the Black Fire Demon Lord had strong social skills; many Godly Kings within Thunder Ancient Country were his close friends, as were many inact Godly Kings. This was one of the reasons his 'Black Fire Gate' continued to exist until now.

Despite Thunder Ancient Country consistently putting a bounty on his head, many Godly Kings cultivating Primordial Bloodline remained unconcerned and frequently associated with the Black Fire Demon Lord.

"Your matter is settled!" Black Fire Demon Lord said with a smile.

Luo Feng's eyes brightened.

"A 'Twenty-four Forms' Primordial Bloodline Creature, approximately one-tenth of the corpse," said the Black Fire Demon Lord. "It has been quietly moved out. You can exchange it for treasures worth three

billion merit points, which is within your budget, right?"

"Brother Black Fire, thank you so much," Luo Feng said excitedly.

It was extremely difficult!

Flame Wind Ancient Country required ten billion merit points, not a bit less.

In Thunder Ancient Country, Luo Feng had tried visiting some Guest Elder Godly Kings and Royal Family Godly Kings, all of whom asked for a significantly higher price. He also visited Jia Yin Godly King, who could provide complete Primordial Bloodline for 'six billion five hundred million merit points' worth of treasures, but the price was the same even for only the materials.

As for obtaining a smaller amount of materials?

Thunder Ancient Country had strict controls; such high-level Primordial Bloodline materials were directly managed by the Monarch's avatars!

Over more than a century, Luo Feng had participated in every operation in the Reincarnation Tower. But considering even the crazed nature of Emperor Gui Xu and others, operations only occurred once every dozen or so years, amassing a total of five billion merit points worth of treasures for Luo Feng.

And the Boundary Beast Blood Talisman had consumed another billion merit points! Luo Feng had about four billion merit points available.

Luo Feng had even prepared to wait until he had gathered more merit points before making any plans.

"Let me be clear beforehand, it's only one-tenth of the corpse, and you can't extract a complete Primordial Bloodline from it," Black Fire Demon Lord said. "But you were already willing to accept just a part."

A complete corpse could typically yield three to five complete Primordial Bloodlines.

"No problem," responded Luo Feng.

"How this one-tenth of the body came about, you don't need to ask. Right now, I'll deliver this body to your Huyang City, and we can exchange there," Black Fire Demon Lord said.

"Alright," Luo Feng said gratefully.

...

In the city owner's mansion of Huyang City,

Luo Feng waited eagerly.

Whoosh!

A figure descended from the void, suddenly appearing nearby — it was Black Fire Demon Lord! His handsome face had a charm akin to that of a true Sector Beast.

"Brother Black Fire," Luo Feng was very grateful, having planned for this material for too long.

"Take a careful look at the one-tenth of the body," Black Fire Demon Lord said, setting a cloth bag on the table, as Luo Feng also placed a Jade Vial on the table.

Luo Feng inspected the cloth bag.

The bag concealed a space inside, containing a huge tail billions of miles long, likely the remaining tip of a complete tail. There was also a massive, mountain-like half a hoof with scales, the flesh emitting a thick and potent aroma, and imbued with terrifying Spiritual Will. It also contained a massive disarray of scales, muscles, bones, and blood.

Luo Feng estimated this was one-tenth of a body remaining after extracting the Primordial Bloodline.

"Three billion merit points?" Black Fire Demon Lord, holding the Jade Vial, couldn't help but look at Luo Feng. "Luo He, my brother, you've given too much."

"I'm buying Brother Black Fire some drinks," Luo Feng said with a smile.

Black Fire Demon Lord was always reluctant to ask for any benefits, but the effort he put into securing the one-tenth of the body from the strictly managed Thunder Ancient Country over thirty years must have not been easy.

Giving an extra twenty or thirty million merit points was really nothing.

"Alright then," Black Fire Demon Lord chuckled. He was willing to help Luo Feng and didn't care about these resources.

Chapter 220 5 volumes 17 chapters First aspect

Black Fire Demon Lord put away the Jade Vial, and once again instructed, "Brother Luo He, you also should know that extracting part of the body of a Primordial Bloodline creature is against the rules. This matter must be kept secret. And do not let any of this material get out!"

"Rest assured, it will not be disclosed," Luo Feng replied.

Black Fire Demon Lord nodded and then disappeared.

Holding the cloth bag in his hand, Luo Feng didn't need Black Fire Demon Lord's reminder to comprehend the difficulty of obtaining this one-tenth of a body; after all, he had spent over a century pushing this project in both Flame Wind Ancient Country and Thunder Ancient Country, and although he failed, he understood many of the intricacies involved.

Creatures of this level of Primordial Bloodline were guarded by entities at the Monarch and Emperor levels.

The highest 'Ultimate Realm strength' Primordial Bloodline creatures were reportedly either avatars or incarnations of the two primogenitors garrisoning them! There was fear that these Primordial Bloodline creatures might escape and cause great disasters.

"Sigh."

With one step, Luo Feng traversed the Void and returned inside the Quiet Room, entering the Star Tower.

In one of the spatial layers of the Star Tower, Luo Feng released all parts of the body contained in the cloth bag.

"Boom~~~" First came the immensely large half hoof claw, which accounted for about half of the body material this time! The hoof claw resembled a towering mountain, each sharp hook claw spanning hundreds of millions of kilometers. There was also a segment of a gigantic tail billions of kilometers long. These two parts were relatively intact; the rest were comprised of numerous scale armors, muscles, bones, and a large amount of blood, among others.

The aura that struck his face made Luo Feng hold his breath.

"The physical body exhibits a Twenty-four Forms Life Form; this Primordial Bloodline creature... although at the Second Realm of Godly King strength, I estimate it to be among the top within that category," Luo Feng observed. "Low intelligence, low realm, yet it can demonstrate such strength. This physical body must be close to that of an Ultimate Realm Life Form."

"Roar~~~~"

On the corpse, a vast shadowy figure coalesced, appearing as an endless majestic upright figure staring at Luo Feng, emitting an angry roar.

"Bloodline will," Luo Feng understood.

This bloodline will was not the will of the deceased Primordial Bloodline creature but rather the source of the 'Primordial Bloodline'—the residual will of a genuine Primordial Life! Even through generations of dilution, the will could still transmit through the bloodline, possessing strong contamination capabilities.

Walking the path of the Primordial Bloodline, one must first be able to resist such contamination! Despite it being fraught with flaws and calamities, if one surpasses all the flaws and withstands all calamities, it can also lead to tremendous achievements, like the Thunder Ancestor.

The Thunder Ancestor and Primogenitor Yan Feng had captured genuine Primordial Life and used its bloodline to propagate generations across the Land of Origin to dilute the bloodline.

"Brilliant." Luo Feng ignored the impact of this illusive will. Extending his hand to touch the scales, examining the dark yellow hook claws on the hoof, his consciousness penetrated, probing the essence within these matters.

Under his observation, matter immediately magnified billions of times, allowing him to observe the tiniest structures swiftly.

Every ten particles fused with each other, inseparable, naturally forming one form.

Two hundred forty particles divided into twenty-four groups, with the group of particles intertwining and revolving, naturally forming twenty-four spaces! These twenty-four spaces, akin to a Formation, were tightly linked, continuously revolving.

"So beautiful!"

Luo Feng watched carefully.

Though both Special Grade Inheritances had detailed explanations, it was like seeing a three-dimensional schematic. When the materials of a 'Twenty-four Forms Life Form' were right before his eyes, the shock was much stronger.

"Perfect, such a perfect life, each basic structure of life contains twenty-four spaces, tightly interconnected like a Formation. Trying to destroy such a life structure... is extremely difficult," Luo Feng merely looked and knew the terrifying nature of this life form.

The form of the Ten Directions World is only the entry level for a 'World Life Form.'

The Twenty-four Forms truly reflect some terrible aspects of a 'World Life Form.'

The path of World Life Form is daunting, yet the Special Grade Inheritance of 'World Life Form' in Infinite Space can only be exchanged up to the Ultimate Realm chapter. Additionally, Luo Feng could unleash the power of this inheritance because of the 'Formless and Intangible' ability, but 'Formless and Intangible' can only transform matter born within the Land of Origin, which does not

nurture matter above the 'Ultimate Realm of God King.'

If one becomes an Ultimate Realm being, the path must eventually change.

Of course, that is a matter for the future! First in the Land of Origin, own true, unrivaled strength.

"Every form of the Twenty-four Forms, the combination of the six branches is too perfect," Luo Feng immersed himself, and his research lasted over ten thousand days until suddenly a complete 'single form' naturally emerged in his mind.

"The difference between learning from books is shallow! By observing actual, tangible life materials, I have finally broken through the last bottleneck, comprehending the first form of the Twenty-four Forms Life Form!" Luo Feng laughed heartily.

The first form of the Twenty-four Forms is the hardest to comprehend.

Because the difficulty of each form is equal, once the first form is comprehended... the second and third forms will get progressively easier.

Comprehending the first form is akin to having comprehended half of this life form.

"I can feel it, just a little more effort in studying and researching, and within ten eras, the Great Dao of Life Origin could step into the Second Realm of Godly King," Luo Feng felt.

Because of his comprehension of the first form, Luo Feng accumulated much experience in the integration of the six branches.

"It's no wonder the inheritance records state that the form of the Twenty-four Life Forms... is theoretically the highest level of the life form attainable at the First Realm of the Godly King. But comprehending three or four forms naturally leads to a breakthrough," Luo Feng was in high spirits.

From the First Realm of the Godly King to the Second Realm of the

Godly King is still very difficult.

Many Godly Kings are stuck in the First Realm, eventually choosing to cultivate the Primordial Bloodline!

Even the proud Jia Yin God King had never cultivated the Primordial Bloodline, yet she was invincible in the First Realm of Godly King. She wanted to rely on her own strength to reach the Second Realm of Godly King… but making that breakthrough was immensely difficult.

"I had just become a Godly King, wielding the six major branches of life, and my cultivation went so smoothly because I mastered all six branches."

"Observing the complete Great Dao of Life Origin and guided by two special grade inheritances, in over a hundred eras, I had touched the threshold of the Second Realm of Godly King." Luo Feng was quite satisfied; of course, he wouldn't be shortsighted, rushing to comprehend the breakthrough.

Every step of the cultivation must be solid and dedicated, constantly honing one's comprehension.

If one were to always seek shortcuts in the early stages, what about comprehending the complete Great Dao in the future? Without any reference to the Great Dao, how could one comprehend realms beyond the Godly King? By then, it would be too late for regrets.

"Compared to the Great Dao of Life Origin, progress in the Great Dao of Destruction Origin is considerably slower; even now, I don't feel close to breaking through to the Second Realm of Godly King." Luo Feng silently reflected.

Although he had taken 'Five-Colored Treasure Medicine' twice, which greatly hastened his progress on the path of destruction.

Yet, the path of life excelled continually in observing the Great Dao, always progressing more quickly.

"Now that I have the Twenty-Four Forms Life Materials as a reference, my comprehension of the Twenty-Four Forms will only be smoother. It seems that the Second Realm of Godly King will first be

attained on the path of life." Luo Feng looked at the enormous corpse materials in front of him and, with one thought, began to collect some of the materials.

A few scales, muscles, bones, blood, film from the tail, and the shortest hook claw.

The materials Luo Feng collected were less than one-thousandth of all the materials.

"Sigh."

After setting aside the materials he had collected, Luo Feng then mentally communicated, "Morosa, hurry to the Star Tower."

...

Ever since his master had said 'there will be good news soon', Morosa's heart had been restless, always waiting for his master's call.

"Go to the Star Tower?" Morosa heard the mental communication and couldn't help but rejoice.

It was not normal for the master to summon him to the Star Tower.

"Sigh."

Morosa proficiently made his way to the quiet room in the city owner's mansion and saw the Star Tower. Without any obstacles, he entered the interior of the Star Tower.

"Master." Just as Morosa started speaking, he saw the towering Primordial Bloodline corpse materials nearby, especially the massive hooves, which dazzled his eyes.

"This is, this is?" Morosa's voice trembled with excitement.

Swallow it! Swallow it!

As the instinct of a Sector Beast, he intensely desired to devour the enormous corpse materials in front of him.

"This is roughly one-tenth of a Primordial Bloodline creature's body," Luo Feng said. "In terms of physical strength, it far surpasses the normal Second Realm of Godly King, even possessing some traits of an 'Ultimate Realm Life Form.'"

"I can feel..." Morosa looked and muttered, "If I swallow it, I will definitely break through! I will become much stronger!"

"I've spent almost all the treasures I've accumulated since coming to the Land of Origin, even owing some favors, to get this part of the body." Luo Feng smiled at Morosa. "Morosa, I've given up a lot for you."

Luo Feng was joking.

His significant investment was primarily for practising his own Twenty-Four Forms. But in essence, ten percent of this Primordial Bloodline creature's body... Luo Feng only took some scraps; he mainly gave the rest to Morosa.

"Yeah, yeah, thank you master, you are so good to me." Morosa looked greedily at the hot materials; he could hardly restrain himself.

Luo Feng asked, "Are you sure you can reach the Second Realm of Godly King this time?"

"I definitely can! I can feel that this part of the body material will help me far more than the bodies of ten Second Realm Godly Kings." Morosa was very sure. "In the stage of the Second Realm of Godly King, I guess the accumulation will be quite deep."

"Good, after you break through, I want to see what a Sector Beast of the Second Realm of Godly King can do," Luo Feng said, waving his hand, "Go to your own layer of space, and slowly absorb and assimilate."

Swoosh!

The plethora of body materials, along with Morosa, was transferred to Morosa's designated layer of space.

...

"I'm getting closer and closer to the Ultimate Realm." Morosa looked at the massive body materials in front of him and immediately opened his huge mouth. First, countless blood flew into his mouth.

Although the bloodline will was roaring, Morosa didn't care; he wasn't merging with the bloodline but was using the 'realm' inside his body to devour and thoroughly digest.

Just by a surge of massive blood into his internal realm, Morosa felt the 'realm' as if greatly nourished, the growth rate rapidly accelerating.

—

Thank you to the two new Alliance Hierarchs for the rewards: Infatuated Web Connection and Fairy Fruit Fried Eggs.

Thank you for your support!

Chapter 221 5 articles 18 chapters Morosa's Breakthrough

Luo Feng was contemplating the materials for the Twenty-four Forms Life Form, and he could also sense Morosa's cultivation progress at any time.

"Morosa is digesting very slowly this time," Luo Feng noticed. It took Morosa more than a hundred days to absorb the blood, and only then did he start to consume the muscles… very carefully and meticulously.

After more than a thousand days, he had devoured all the bones to exhaustion.

After consuming all the fragments, Morosa opened his huge bloody mouth and directly swallowed the several billion kilometers long tail into his 'domain.' With this gulp, Morosa began his transformation.

He reverted to his true form, his body surfaced with snow-white scale armor, and his entire body started to radiate a holy light, as if it was meant to cleanse everything.

This formless aura made even Luo Feng's heart tremble.

"Did Morosa just naturally evolve his physical body right after breaking through to the Second Realm of the Godly King?" Luo Feng silently marveled.

For cultivators, even if they broke through in their realm, they still needed to comprehend the corresponding Secret Techniques. Just like how he himself must comprehend the 'Twenty-four Forms' and obtain the 'Twenty-four Forms Materials' and combine them with the Formless and Intangible ability to finally transform the physical body.

But Sector Beasts, being Perfect Life Forms from birth, had a perfect trajectory of growth, heading straight for the ultimate.

Laws of the Physical Body? Laws of Domain? Laws of Assassination? All sorts of Secret Techniques are naturally understood as they grow to the corresponding levels.

"After he completely digests his food, I must compare our strengths," Luo Feng was quite looking forward to it.

"Hm? Xin Yu, this little fellow, has also broken through?" Luo Feng realized that his second disciple, Xin Yu, had finally broken through to the Primal Chaos Realm.

******

Blade River Sect, the main hall of the Sect headquarters.

All of Luo Feng's registered disciples had already arrived in the hall. As a sect established by the overlord of the Land of Origin, the Blade River Sect was relatively new, having been established only for just over a century. The only ones qualified to enter the main hall of the sect were Luo Feng's direct disciples, registered disciples, and two elders.

"Brother Xin Yu is truly amazing. This time in closed-door cultivation, he directly advanced to the Primal Chaos Realm."

"He's the first in our Blade River Sect to break through to the Primal Chaos Realm since its establishment."

The registered disciples were both envious and hopeful, also looking forward to the day they would break through.

Suddenly, Moyu Qingyan, dressed in a cyan robe, walked in.

"Big senior brother."

"Big senior brother." Each of these registered disciples respectfully greeted him, as the big senior brother was after all the first disciple under their master! And he was also the disciple of Elder Luo Sa, holding an indisputable status within the sect.

Moyu Qingyan nodded with a smile and briefly chatted with his junior brothers and sisters.

"Big senior brother can still smile!"

"This time, Brother Xin Yu has become a Primal Chaos Realm being, soon to be an elder, on par with Elder Luo Sa in status."

"Cultivators, ultimately it's about personal strength. Big senior brother is still lacking somewhat."

These registered disciples were outwardly enthusiastic and respectful, but they also knew some of the internal dynamics of the sect, and naturally, they were more convinced by Brother Xin Yu.

Soon, Brother Xin Yu, dressed in blue robes, walked in. His knife had completely disappeared, but as a being of the Primal Chaos Realm, his life level was naturally much stronger.

"Brother Xin Yu."

"Brother Xin Yu."

The registered disciples were even more sincere and respectful.

"Second junior brother." Moyu Qingyan also looked at his junior brother with a smile, quite emotional. He had tried very hard. Yet, he couldn't reach the Primal Chaos Realm through the Bloodline Path, while his second junior brother was an unlimited godly body on the Law Path and had already reached the Primal Chaos Realm.

Their talents were too far apart.

Xin Yu also looked towards Moyu Qingyan, politely saying, "Big senior brother."

"Second junior brother, your breakthrough is a joyous occasion for the whole Blade River Sect," Moyu Qingyan said. "You're the first Primal Chaos Realm being nurtured by our sect since its establishment."

Xin Yu smiled and replied, "In the future, the Blade River Sect will

see many more Primal Chaos Realm beings emerge! I'm merely going ahead temporarily, it's nothing special. And with big senior brother's accumulations, I believe it won't be long before you reach the Primal Chaos Realm."

"I'm still far off," Moyu Qingyan chuckled self-deprecatingly.

The two direct disciples conversed while the registered disciples listened on.

Suddenly, an intangible aura enveloped the area.

"Hm?"

Moyu Qingyan, Xin Yu, and the ten registered disciples all looked up towards the main hall above, where Luo He in a silver robe was seated on the throne, and to his left was the former Elder!

"Master!" Moyu Qingyan and Xin Yu, the two direct disciples, immediately bowed respectfully.

"Master!" The registered disciples followed suit.

These disciples had all gone through hardships to join the Blade River Sect. They were well aware that throughout the Land of Origin there were ancient and terrifying beings, and among the many neighboring nations, the Monarchs of Shi Kingdom and Yu Kingdom, as well as City Lord Luo He, were prominent figures!

To be disciples of City Lord Luo He was definitely clinging to a powerful support.

"Luo Sa is in closed-door cultivation and couldn't come," Luo Feng looked down and smiled, "Xin Yu, you have achieved the Primal Chaos Realm in such short time, which shows your exceptional talent! From today onwards, you will also become an elder of our Blade River Sect."

"Yes," Xin Yu responded.

Luo Feng waved his hand.

Immediately, a complete set of 'Chaos Realm Supreme Grade' Weapon Secret Treasures flew out, along with a green and a black Jade Vial.

"Grant a set of Secret Treasures, a hundred billion Cosmic Sand, and ten treasures to assist in cultivation," Luo Feng said indifferently.

Xin Yu looked at the treasures flying towards him; he could feel that each Weapon Secret Treasure was terrifying, each likely a supreme item among the Primal Chaos Realm treasures—a complete set probably worth two to three hundred billion Cosmic Sand! And the ten treasures assisting in cultivation...those were rare treasures hard to acquire in the outside world. Yet, the hundred billion Cosmic Sand was the most common among them.

"Thank you, Master," Xin Yu felt at this moment, appreciating the advantages of having a terrifying overlord as a master, casually granting what would take him eons to accumulate on his own.

The other disciples also watched with envy.

The Master, truly generous!

Luo Feng, however, did not think it was much.

In many border countries, joining the Primal Chaos Realm could grant one a Primal Chaos Prefecture as a fiefdom! A fiefdom was worth more than what Luo Feng had given. Of course, the 'Primal Chaos Prefecture fiefdom' was by slowly accruing minor benefits over time and was a way to completely bind a cultivator of the Primal Chaos Realm; once they left, they had to return the fief.

What Luo Feng granted was outright! Moreover, as the disciple grew and established merits, more would be granted. This was why cultivators were eager to have super-powerful individuals as their masters.

"As Luo Feng grows stronger, these treasures will seem trivial to him," Yuan, who was watching by the side, was also a beneficiary!

Primordial Crystal Spirit Fruit, and even treasures from sacred places that suited cultivation in the Primal Chaos Realm, Luo Feng had given plenty to Yuan.

For Yuan, Luo Feng provided wholeheartedly! Because he was the second pillar of the human race.

For Xin Yu, Luo Feng just treated him as he normally would a direct disciple.

Naturally, there was a difference in the resources provided to both sides. And Yuan's talent...Luo Feng could feel it was much more formidable than Xin Yu's, already possessing the strength matching that of a 'Guest Official of the Primal Chaos Realm'—Pinnacle of Primal Chaos Realm strength.

Yuan, drawing from some inheritances in the Flame Wind Ancient Country's Inheritance Palace, forged his own path; his True Body and Illusionary Avatar now bore no distinction, each manifesting identical strength.

But forging a path was exceptionally difficult! Yuan, not following the orthodox 'Origin Dao of the World,' instead merged illusion and reality! The Illusionary path was his own creation, while the Real path was the 'Origin Dao of the World'; only by merging the two could illusion and reality integrate.

"Forge a path is quite challenging," Luo Feng glanced at Yuan beside him.

He himself had opened up the Great Dao of Life and Death and had yet to fathom any branch of the Great Dao.

...

Inside the Star Tower.

After nearly half a century of devouring and absorbing, Morosa had assimilated all essentials from the Primordial Bloodline Creature Corpse and had stopped cultivating.

"How do you feel, Morosa?" Luo Feng looked at Morosa, who stood before him in his true form, draped in snow-white scale armor, with even the top scales naturally forming a crown-like shape.

Morosa stood there, a holy light naturally illuminating everywhere,

his formless majesty terrifyingly extreme.

"I feel great," Morosa looked at Luo Feng, "I feel stronger than even you, master."

"Haha."

Luo Feng laughed, "It seems you want a beating."

"Master, just try! I don't believe you can still beat me!" Morosa felt an unprecedented strength; the evolution of his physical body and the natural growth of his soul, combined with the Great Dao of Destruction Origin, made his spiritual will also grow continuously, reaching the bottleneck of a Godly King's limit.

In every aspect, Morosa felt fearless.

"Let's give it a try then," Luo Feng said, and a silver-clad Luo Feng appeared beside him.

Boom!

The silver-clad Luo Feng transformed into a dazzling silver blade light, slashing towards Morosa.

Morosa stood there, bathed in holy light which illuminated everything around him. As the silver blade light approached, it slowed down... When it was about a dozen feet away from Morosa, the silver blade light completely stopped.

"Master, your avatar can't even touch me," Morosa said with a smile. "I'm not like the flawed second-realm Godly Kings of Shi Kingdom; I don't have any weaknesses."

"Domain, energy, physical body, close combat... my avatar, I can't break through my domain," Morosa looked at Luo Feng.

"Interesting," Luo Feng watched Morosa. "Then I'll give it my all and see."

Thunderous roars~~~~

Suddenly, a huge figure descended from another layer of the Star Tower space; it was the immensely majestic silver-clad Luo Feng! This tremendously majestic silver-clad Luo Feng, whose aura was no less strong than Morosa's, held in his hand a gigantic Bloodshadow Knife.

"Now this is interesting," Morosa observed the majestic giant silver-clad Luo Feng, grinning broadly, "Come on, I'll let you make three moves first!"

Feeling incredibly confident, Morosa, having absorbed a Primordial Bloodline Creature, had greatly grown. He had naturally realized many secret techniques of the second realm of the Godly King. He felt that any move he made could handle his master.

"You are letting me make three moves?" Luo Feng's body was one-third of a World Life Form! Controlling such a body was a substantial burden on Luo Feng's spiritual will.

However, just by triggering the moves ingrained in the Bloodshadow Knife, it was still possible for Luo Feng, and this was also his strongest state without using the Star Tower.

Morosa looked at Luo Feng leisurely, standing there and letting Luo Feng make his moves.

"Boom!"

Luo Feng struck with his knife, and the blade light shone brilliantly, dazzling Morosa.

An incredibly dazzling strike! It gathered all the might of Luo Feng as a vast World Life Form and then unleashed it all at once! This explosive force cascaded forth magnificently, reminiscent of the crushing stars of the Lie Yuan Technique.

By the time Morosa sensed this, he was already hit.

First, an intangible force infiltrated and eroded Morosa's body. By the time he realized he had been struck, that overwhelming force was already upon him, inevitable, rolling over Morosa's body, his body being eroded, sliced, minced, crushed, and obliterated... Various

destructive forces merged, annihilating this body.

"The master is indeed the master, able to unleash such formidable might even at the First Realm of the Godly King, truly terrifying!" Morosa, with ninety-nine percent of his body crushed, still had invisible energies regathering, his blurry figure speaking, "But master, I am a Sector Beast! Do you think it's easy to kill me with moves from the Great Dao of Destruction Origin?"

In the blink of an eye, Morosa had fully recovered, the holy light shining brightly all around him, unscathed.

"Two moves left," Morosa smiled at Luo Feng, "Continue."

Chapter 222 Season 5, Episode 19, Surprise

Luo Feng was somewhat surprised looking at Morosa, the prowess of one-third of a World Life Form only required a small amount of Spiritual Power to trigger the Bloodshadow Knife techniques. In terms of sheer power, it was already fifty to sixty percent of Emperor Gui Xu's.

Of course, the techniques fell far short of Emperor Gui Xu's, who, like Wuxin God King, had comprehended Ultimate Realm Secret Techniques!

"Truly worthy of being a Sector Beast," Luo Feng remarked, before striking with his knife again.

Swoosh!

Blade Light carved a scar through heaven and earth!

In an instant, a new scar appeared in the world, which also pierced through Morosa's body. Though Morosa's body was healing, it was hindered by the scar of heaven and earth.

"This move is weaker in might than the last, but it seems to sever everything…" Morosa felt the surprise and asked, "Master, what do you call this technique?"

"It's a Special Grade Inheritance I studied which contains a Secret Technique quite powerful even at the Second Realm of Godly King, named 'Unity'." Luo Feng did not hide it from Morosa, "This 'Unity' Secret Technique can be divided into three realms: Foundation, Six Paths, and Unity. I am currently at the level of 'Six Paths,' proficient in six different techniques."

Morosa admired, "Master's Secret Technique is very powerful, it should possess thirty to forty percent of the power of my technique."

Luo Feng's expression darkened.

What a tough guy!

"The third move!" Luo Feng's expression darkened, and he merged as one with the Bloodshadow Knife in his hand.

Boom!

A rainbow light flashed! That same rainbow light had already entered Morosa's body, and once inside, it explosively detonated! An immensely tumultuous force violently surged in all directions, devastating the insides of Morosa.

"Master, are you playing with self-destruction?" Morosa felt the wild and terrifying force within his body but showed a hint of confidence in his eyes. His body rapidly expanded under the blast, like a super-sized balloon.

Yet, his body withstood the frightening explosion.

Whoosh.

The rainbow light in Morosa's body flashed and had already escaped to the outside world; it was Luo Feng holding the Bloodshadow Knife.

"This is not self-destruction," Luo Feng, holding the Bloodshadow Knife, said, "This avatar of mine has only burnt one-tenth of its power!" Direct self-destruction was too inefficient. This was an explosive technique from the Unity Secret Method, the more body burned, the stronger the power. Of course, Luo Feng burning such a vast amount of energy was already the limit of what he could bear when wielding this technique.

"Just one-tenth inflicted injuries on me; if it were a full explosion, indeed it could cause me to lose thirty to forty percent of my strength," Morosa looked at Luo Feng and reflected, "Master, being in the First Realm of Godly King, you are indeed a bit too strong."

Luo Feng was somewhat speechless.

That last move had been his strongest.

This Morosa was already much stronger than himself.

"My strongest suit is not killing the enemy," Luo Feng looked at Morosa, "Come on then, it's your turn to make a move. Go ahead! If you can, destroy this World Life Form avatar of mine."

"Good!"

The real Morosa looked at Luo Feng, his whole body's light erupting suddenly!

Boom-

In an instant, this level of Star Tower space was engulfed in a vast whiteness! The entire space seemed to be cleansed, and Luo Feng was naturally eroded by this light.

"Such potent erosive power," Luo Feng stood still, his massive body showing ragged wounds, yet they were also continually healing.

Luo Feng looked up and surveyed the surroundings, his skin already tattered.

"I can no longer find him by realm alone," Luo Feng silently lamented.

As the master of Star Tower, he could control everything within Star Tower at any time.

And he was also Morosa's master, so he was very clear about Morosa's current state.

Morosa...

At this moment, he had fused with heaven and earth; this layer of Star Tower space had become Morosa.

"Master, be careful!"

A terrifying force approached, as if the entire space was being flattened, also compressing Luo Feng's body, but even when flattened into a silvery river… Luo Feng's World Life Form remained intact.

"Destruction."

There was also an invisible attack, suddenly striking at every life structure of Luo Feng's Life Form.

But these invisible attacks were relatively weak; each life structure of Luo Feng was like a small world, capable of defending against them.

...

Morosa consecutively executed thirty different techniques, but to no avail against Luo Feng's avatar, which held the energy reserves of one-third of a World Life Form! Even an Emperor personally acting would need several techniques to clean it completely.

"Master's World Life Form has too strong a recovery ability," Morosa stopped, "The rate at which I'm depleting it can't keep up with Master's recovery speed."

"You're very impressive already."

The vast silvery river condensed into Luo Feng in silver attire, "Your current strength, among the Second Realm of Godly Kings, can already be considered pinnacle level! On par with Emperor Gui Xu and Wuxin God King."

Having ventured into treasured lands with the members of Reincarnation Tower many times, Luo Feng had seen much and was naturally able to judge Morosa's strength level.

"Peak of Second Level of God King Realm?" Morosa pondered.

"In terms of the complexity of moves, you're still quite behind Emperor Gui Xu and Wuxin God King," Luo Feng said, "But you're more well-rounded! And the explosive power of a Perfect Life Form is certainly high enough!"

In the realm of cultivation, he was inferior.

But Morosa's foundations were too deep! Without a single weak point!

"Still too weak," Morosa shook his head. "I've heard that even at the peak of the Second Realm of Godly King, facing Emperors or Monarchs, there'd be no chance of resistance, at most just enough time to reincarnate."

"Both Emperors and Monarchs are, after all, Ultimate Realm Life Forms. And as rulers of two major Ancient Countries, they possess powerful Secret Treasure Weapons... strong enough to rival Pinnacle Sector Beasts," Luo Feng explained.

At the level of Emperor Gui Xu and the others, when facing Emperors or Monarchs, indeed their only option would be reincarnation.

Even among those at the peak of the Second Realm of Godly King, the few who could escape from Emperors or Monarchs were Wuxin God King, the Boat Master of the Time-Space Lonely Boat, and a few others whose escaping abilities were at an inconceivable level.

"Even my World Life Form," Luo Feng said, "the damage you inflict to me can't keep up with my own rate of recovery. But facing Emperors or Monarchs... A few more moves, and they could completely annihilate my body."

Even if you strike a hundred times! With the speed of an Emperor, a hundred strikes could happen in the blink of an eye.

"It wouldn't take so many moves," Morosa looked at Luo Feng. "If they can rival a Pinnacle Sector Beast, they should be capable of breaking the Braided Cage! They could directly banish you from the Source World, throwing you outside the Braided Cage. Without the ability to return... I'm afraid, in an instant, a World Life Form would be annihilated in the Primordial Space."

Luo Feng was startled.

Banished from the Source World?

"Do you now know about the power of Pinnacle Sector Beasts?" Luo Feng asked.

"Yes," Morosa nodded. "The power of a Pinnacle Sector Beast is much greater than mine right now! And their moves are far more terrifying. I suspect that even the use of Secret Treasure Weapons by Emperors and Monarchs of the two great Ancient Countries can only match a Sector Beast. But they wouldn't be able to stop its 'Destroyer'."

"Not able to stop it?" Luo Feng was puzzled.

"It's just that their strengths are comparable! Like me, Sector Beasts can have many Avatars," Morosa said. "At the same level of existence, even three or five would not be able to stop it from destroying."

Luo Feng pondered.

Sector Beasts, being Perfect Life Forms, grasp the complete Great Dao of Destruction Origin! And they have numerous Avatars! An intimidating thought.

"It must be the Ancestors of both countries and the Ancestor of the East Extreme Domain, and also the 'Emperor Qing,' who is Beyond God King," Morosa speculated. "The ones a Pinnacle Sector Beast truly fears must be them."

"But those Ancestors won't easily make a move, as you've said, their attack power has a 'God King Ultimate Realm Limit,' and their realms are exceedingly high," Morosa said. "As long as they can't instantly wipe out all the Avatars of a Sector Beast, a Sector Beast's counterattack... would also cause severe damage to both Ancient Countries."

By now, Morosa had a vague sense of the direction of many high-level moves and was very aware of how frightening his future could be!

"If Pinnacle Sector Beasts had no resistance, I'm sure they would have been overpowered and imprisoned long ago," Luo Feng agreed.

"Morosa," Luo Feng asked, "how much Primordial Bloodline Biological Material like this time would you need to consume to reach the Ultimate Realm?"

"I haven't even reached the limit of the Second Realm of Godly King

myself," Morosa said. "To become Ultimate Realm? I reckon it would take another twenty or thirty portions of similar food."

"Twenty or thirty portions?" Luo Feng felt a great pressure upon hearing that.

That's equivalent to two or three whole Primordial Bloodline Creature Corpses! Each comparable to the previous food.

To think, one entire corpse could be refined into three to five shares of Primordial Bloodline! The value was astronomical!

"If I slowly absorb the power of heaven and earth, there's also hope of reaching the Ultimate Realm. It would just take a very long time," Morosa looked at his master. "Lesser quality food would do too, but the quantity needed would be much greater."

"No rush," Luo Feng waved his hand.

I'll wait until my own power is stronger.

"Master, I have good news," Morosa looked at his master.

"Good news?" Luo Feng looked at him quizzically.

"Now that I have reached the Second Realm of Godly King, I can fully mobilize the pathway of the Great Dao of Destruction Origin within my body," Morosa smiled slightly, and suddenly the vast and complete Great Dao of Destruction Origin appeared in this level of the Star Tower's space.

Luo Feng watched with joy.

A complete Great Dao of Destruction Origin?

The two Ancient Countries had a way for Guest Elders to observe the complete Origin Great Dao, needing 800,000 Merit Points for One Era, and the longer the observation time, the better! For example, the Great Dao of Life Origin, Luo Feng had observed for more than two hundred Eras.

The higher one's realm, the more new gains one could make in

observing the Great Dao.

Although Luo Feng himself had many treasures, the Merit Points he had earned in the Flame Wind Ancient Country were not enough, not even enough to exchange for One Era.

"Morosa can mobilize a complete Great Dao within his body? Does this mean I can observe it permanently?" Luo Feng was extremely excited.

Luo Feng looked up.

The complete Great Dao displayed by Morosa... At first glance, Luo Feng saw a colossal being with six curled horns seated cross-legged; the six horns faintly signifying the six directions of the Path of Destruction.

In a moment of distraction, the complete Great Dao of Destruction Origin transformed into a dark red terrifying monster, its gaping maw as if to swallow everything whole.

Various appearances manifested in Luo Feng's observation.

He understood that following any one of these forms... he could forge a path.

And all paths ultimately led to the same goal—the complete Path of Destruction!

"Master, my True Body here is maintaining the Great Dao of Destruction Origin. Should I send an Avatar out?" Morosa couldn't help but speak up.

"Go ahead," Luo Feng waved his hand.

Immediately a simple-looking Morosa Avatar, with Luo Feng's permission, quietly left the Star Tower to delightfully enjoy life outside.

Chapter 223 Season 5, Episode 20: The Monarch's Tour

At the entrance to the sacred land "Tianhe," one could see an illusory river. However, if one truly flew into it, they would find that this river was infinitely vast! The depths of Tianhe, too, had no end.

"Whoosh whoosh whoosh～～～"

Deep in Tianhe, there was a Flying Boat. Inside the boat, a figure covered in hair sat cross-legged, naturally absorbing the water of Tianhe into his body, nourishing his Primordial Bloodline.

"Emperor Tian Kun and the others really are persistent, still blocking me around the perimeter," Yu Shui Country Master scoffed, "But they don't have the guts to come deep into Tianhe."

On Emperor Tian Kun's side, there were six formidable beings, who were not only searching for Tianhe treasures and cultivating in Tianhe, but also blocking off key areas.

Yu Shui Country Master was also very patient.

It wouldn't matter if it was over a hundred eras, or even a thousand; Yu Shui Country Master had the patience to wait it out.

"Just keep enduring. If I can advance further and comprehend the 'Ultimate Realm Secret Technique' from the Primordial Bloodline, then I'll be able to take on all six of them by myself," Yu Shui Country Master looked forward to making further progress.

But they all knew how difficult it was to make such progress, as not even eons of time had allowed them to advance further. How difficult it was to break through!

"Brother Yu Shui, 'Lan Duo Monarch' from Thunder Ancient Country has entered Tianhe! Run away!!!" Suddenly, a message came through.

Yu Shui Country Master received the message and his heart trembled.

"This is bad!"

In an instant, Yu Shui Country Master packed up the Flying Boat and without any hesitation, dove deeper into Tianhe!

"Rumble rumble rumble~~~" The deeper areas of Tianhe were fraught with peril, filled with lurking terror, but at this moment, Yu Shui Country Master fearlessly burrowed deeper!

Suddenly, he spotted an underwater mountain range. Yu Shui Country Master immediately wanted to approach it, but as he got closer, invisible fluctuations began eroding his body, causing it to rapidly disintegrate.

"Go." Yu Shui Country Master tossed the God King Grade Secret Treasure Flying Boat he held. This secret treasure, which contained all his gains from Tianhe over the long eons, resisted the mountain range's fluctuations and proved to be much tougher than Yu Shui Country Master's body, ultimately landing within the mountain range.

Whoosh.

Yu Shui Country Master immediately turned to flee in another direction.

He fled frantically, but after merely flying for a dozen or so breaths, he sensed a terrifying power had already locked onto him from afar.

"Lan Duo Monarch," Yu Shui Country Master looked up, this terrifying power locking onto him, and he also saw the source of that power... a towering figure clad in water-blue robes.

His entire body was covered with blue and white scales, three scaled tails, his appearance sacred, his gaze cold and indifferent as he looked directly at Yu Shui Country Master.

Through causality, he easily locked onto Yu Shui Country Master.

Even though they were separated by an immense distance, being within the same range of Tianhe allowed Lan Duo Monarch to cast a glance, bringing an endless majesty down upon him.

"Whoosh—"

Yu Shui Country Master's body was tough and full of vitality, constantly absorbing the water of Tianhe to sustain himself, but under the overwhelming majesty, he was already half destroyed in less than a breath's time, and in less than a breath's time, Yu Shui Country Master's body was completely annihilated.

"All the treasures hidden away?" Lan Duo Monarch took a glance then immediately continued hunting other targets.

Tianhe seemed vast, but the actual safe areas were quite limited. Lan Duo Monarch, very familiar with these areas, patrolled them one by one, wanting to scout almost all of the major safe zones within Tianhe.

"Monarch."

"Greetings to Lan Duo Monarch."

Within Tianhe, the ancient Godly Kings, especially the independent ones and the Guest Elders from Flame Wind Ancient Country, were extremely respectful upon sensing this monarch's power.

The Royal Family Godly Kings from both great Ancient Countries were not implicated, and the Guest Elder Godly Kings from Thunder Ancient Country were spared as well! As for the others? Any other Godly Kings that this Lan Duo Monarch found, he exterminated without exception!

"It's Lan Duo Monarch from Thunder Ancient Country!" Emperor Tian Kun received the news, and he and his companions were so frightened that they frantically dove deeper into Tianhe.

Emperor Tian Kun was a Guest Elder of Flame Wind Ancient Country! Lan Duo Monarch would not spare him either!

In just a short moment.

Lan Duo Monarch patrolled near where Emperor Tian Kun was, and his intangible domain had already locked onto Emperor Tian Kun.

"It's over." Knowing that the terrifying power had locked onto him, Emperor Tian Kun realized it was over, he even knew that begging for mercy would be futile.

Emperor Tian Kun's body was also annihilated.

...

Within Tianhe, the bodies of over ninety percent of the ancient Godly Kings, mainly the solitary ones and the Guest Elders from Flame Wind Ancient Country, were destroyed under Lan Duo Monarch's patrolling. Only a handful managed to escape, either due to their impressive escaping abilities or by leveraging the environment of Tianhe.

In this patrol by Lan Duo Monarch within Tianhe, both Yu Shui Country Master and Emperor Tian Kun truly died. Of Emperor Tian Kun's five companions, four also perished, with only one luckily evading death.

******

Huyang City.

"What?" Luo Feng also received the news.

"No help for it, just bad luck to run into Lan Duo Monarch from Thunder Ancient Country!" Yu Shui Country Master transmitted.

Luo Feng had never ventured to Tianhe, "I've heard that the environment in Tianhe greatly assists those of the Water Origin Bloodline, but repels other Great Dao forces? The only ones from the two Ancient Countries with the Water Origin Bloodline are 'Emperor Xuan' and 'Lan Duo Monarch', I presume."

"Right, it's those two. They have accumulated a profound foundation and rarely come to Tianhe now," Yu Shui Country Master sighed, "but

once they do visit, they will patrol the area. Aside from the Imperial Clan of the two Ancient Countries and Guest Elders of our own country, all others will be eliminated without exception."

Luo Feng nodded, "The environment in Tianhe is indeed not easy to hide in."

Like the Dream Domain, which has a vast amount of space, and each space exists independently! One can only be discovered if in the same space. Naturally, the safety there is much higher.

Like Infinite Space, where one must carve out their own Great Dao, even when Emperors enter, they also possess the same physical bodies and their strength is significantly weakened. This makes it much safer for the scattered cultivators.

There are many treasured places that offer some protection to the weak. It's just that the protection varies in strength, and the disadvantage of Tianhe is that the safe areas are easily discovered, while the danger zones deep within... are difficult to enter.

"Fortune and disaster are interdependent," Yu Shui Country Master transmitted, "Tianhe is a treasure land for us, and there aren't many crises normally! The dangers of Tianhe… actually come from other cultivators. Encountering an Emperor or Monarch can only be chalked up to bad luck."

"Is there anything I can help you with?" Luo Feng asked.

"No need, the Emperor of Tian Kun also lost his True Body this time," Yu Shui Country Master replied with a chuckle through a voice transmission, "he doesn't have the guts to come back and cause trouble either. I can sense that, of my six enemies, five have had their True Bodies destroyed."

Everyone had suffered massive losses, so Yu Shui Country Master felt more at ease.

Luo Feng inwardly sighed.

Just one Monarch's patrol was sufficient to sweep through everything in their path!

And the Flame Wind Ancient Country had thirteen Emperors, while Thunder Ancient Country had nine Monarchs!

On the side of the scattered cultivators, those in the Ultimate Realm included the Lord of Ten Thousand Realms and the Sector Beast, and only a few like the Wind City Empress and Mother River Master were able to match the level of Emperors. Over half of these beings were on good terms with the two Ancient Countries!

Although there were many scattered cultivators, their top-level fighting power was too inferior.

And this was without counting the Ancestors of the two countries above the Godly Kings and the Ancestor of the East Extreme Domain, who rarely took action.

"No wonder the scattered cultivators each hide in the shadows, or even join forces established by the three Alien races," Luo Feng mused in secret. With the guidance of those three Alien races, the scattered cultivators were able to compete with the two Ancient Countries for resources.

There was also a silver lining.

Their biggest competitors were each other, the Emperors and Monarchs! This gave the scattered cultivators a chance to breathe.

...

In the treasured land 'Infinite Space'.

Above a vast and misty lake stood a small island, where an Avatar of Luo Feng was cultivating.

Ever since Morosa reached the Second Realm of Godly King, able to manifest the complete Great Dao of Destruction Origin, Luo Feng's cultivation in the 'Great Dao of Destruction Origin' had also entered an Eruption Period.

All his past accumulations were transforming.

"Whoosh." A Dark Chaotic Hole appeared in the center of Luo Feng's

palm, filled with an unbelievable level of resilience and density of life. Inside the hole, forces swirled as countless condensed dark Blade Lights circulated and merged continuously.

"Five lineages unite."

"Chaotic Hole Undying Light."

Luo Feng watched as a blade light, substantial in form, was born within the dark Chaotic Hole.

The blade light's might was terrifying beyond belief, far more dreadful than the strongest move Luo Feng used against Morosa during their sparring when he wielded the Bloodshadow Knife with one-third of a World Life Form's strength.

"The Chaotic Hole Undying Light has reached Perfection," Luo Feng looked at the blade light forming within the hole in his palm, barely believing it, "The first Godly King Second Realm Secret Technique I've conceived is actually from the Life and Death Dao Branch."

Yes.

The Chaotic Hole Undying Light was a concept Luo Feng had fashioned long ago, originating from the 'Path of Destruction's Heaven Splitting Lineage, Dark Heaven Lineage, Mixed Heaven Lineage', then integrating 'Origin of Life' and 'Life Spirituality' from the Great Dao of Life and Death—five major branches in total. With Luo Feng's realm's growing achievements, the integration and perfection of these five branches had been ongoing.

Just moments ago, Luo Feng had unknowingly fused these five branches into this move 'Chaotic Hole Undying Light' completely.

The 'Twenty-Four Forms' and 'Unity Secret Method' he was pondering were theoretically the limit for Godly King First Realm to create.

But now, the 'Chaotic Hole Undying Light' was a fusion of five branches from two Great Daos!

"Life, Destruction, Life and Death... Three Great Daos, yet it's the Life and Death Dao that I've first created a Godly King Second Realm

technique for," Luo Feng pondered with a hint of melancholy.

Of course, creating a Secret Technique does not mean one has reached the Second Realm of Godly King.

One must master the essence of 'Dao' thoroughly to truly break through.

Just as Emperor Gui Xu and Wuxin God King had occasionally created Ultimate Realm Secret Techniques by chance! But fully mastering the 'complete Great Dao' was still far off.

Nevertheless, as a move fully merging the five branches, it was already quite remarkable among the Godly King Second Realm... After all, the Great Dao of Life Origin and the Great Dao of Destruction Origin were comprised of six branches each.

Even the techniques currently controlled by Morosa were not as profound as Luo Feng's 'Chaotic Hole Undying Light'!

"Life and Death..." Luo Feng sat cross-legged on the grass, murmuring to himself as Spirit Light flickered in his mind.

For the first time, with the conception of the Godly King Second Realm's Life and Death Secret Technique, Luo Feng's understanding of the Great Dao of Life and Death underwent a transformation.

In this moment.

Various 'Life and Death Dao Branches' gradually started to take shape in the depths of Luo Feng's heart.

Chapter 224 - 21 Treasures Exchange

Luo Feng had been in the Infinite Space treasure trove for over two centuries, and his understanding of the Great Dao of Life and Death was immensely profound. On the topic of the Great Dao of Life and Death, he had created nineteen different Secret Techniques at the First Realm of Godly King alone. He didn't care about the quantity of Secret Techniques; each one had been comprehended naturally by himself!

When he enhanced the "Chaotic Hole Undying Light" to the Second Realm of Godly King level this time, Luo Feng's accumulation finally underwent a qualitative transformation.

One by one, branches of the Great Dao of Life and Death emerged in his mind, Luo Feng meticulously contemplated and integrated them.

Three more days passed before Luo Feng finally stopped.

"I have comprehended six branches of the Great Dao of Life and Death... but, clearly, it's not yet perfected," Luo Feng slightly furrowed his brow, "It seems my accumulation is still insufficient to comprehend all branches."

How many branches does an Origin Great Dao have? That was uncertain.

For instance, the Origin Dao of Space has nine major branches. Entry is relatively easy, but as one goes further, it becomes increasingly difficult. One must eventually merge the nine branches into one to attain the Ultimate Realm.

The Time Primordial Dao, with only three major branches, is extremely difficult to enter. But once someone becomes a Godly King

through this path, their strength is terrifying.

In the Infinite Space treasure vault, Luo Feng once saw the perfect inheritance "Temporal Walker", which involves the fusion of time and space, forming an even more terrifying Time-Space Dao... Of course, the threshold for cultivation is unbelievably high.

"Life and Destruction, these are two Great Daos that exist within the Supreme Rules, each with six major branches."

"With these two as my foundation, I cast my own Dao of Life and Death... The Dao of Life and Death... should have nine major branches!"

Luo Feng now had six branches comprehended, with the remaining three vaguely taking shape. However, to thoroughly penetrate them, he still needed accumulation.

"The six branches I've comprehended are..."

"Blood Dripping Lineage, Red Sun Lineage, Annihilation Lineage, Eternal Lineage, Black Smoke Lineage, Walker Lineage."

Having clearly understood these six branches, Luo Feng felt somewhat melancholic.

"After all, my abilities are limited. In the fusion of life and destruction, I discarded too many paths." Luo Feng was very clear about this. Life and Destruction, each with their six major branches, could integrate some aspects from a few branches during the fusion process, resulting in certain possibilities.

Therefore, the branches of the Great Dao of Life and Death... the possibilities are numerous. Perhaps there are thirty, fifty, or even over a hundred possibilities. For example, thirty-six branches? A total of one hundred and eight branches to fully interpret all the mysteries of life and destruction fusion? But exhausting all options is not something Luo Feng, as just a Godly King, could accomplish.

At this time, one must make choices.

Perfection? Luo Feng still hasn't felt its limit.

Discarding is a must!

Discard the uninteresting ones, choose what you truly desire.

Following the direction you've set, then confirm each branch afterward!

"By discarding a lot, I chose the core parts I wanted." Luo Feng thought, "Even so, it takes a full nine major branches."

Each branch is stronger than the Life six major branches or the six branches of Destruction.

The foundation is exceedingly profound.

"Sigh."

Luo Feng sat cross-legged on this Lake Heart Island, now standing up to look around him.

"I've comprehended branches of the Great Dao, yet Infinite Space has not awarded any Reward Points?" Luo Feng speculated, "Could it be that it needs to be demonstrated?"

Infinite Space, a treasure land, cannot probe the thoughts of every cultivator at every moment.

"Walker Lineage."

Luo Feng pointed casually.

Buzz!

Countless Secret Patterns emerged naturally, forming a dark humanoid shape.

This dark human shadow seemed to contain endless might, yet all of it was condensed within this tiny figure. Every movement appeared capable of destroying heaven and earth! Merely with this one branch, it would already be considered a very strong benchmark in the First Realm of Godly King.

This dark human shadow was formed by countless Secret Patterns, which flowed and interpreted the mysteries of the Dao.

Infinite Space sensed all of this, and immediately information was transmitted to the mark on Luo Feng's palm—

"Trialist: Luo Feng from Land of Origin"

"Based on the two Great Daos of Life and Destruction as the foundation, you've pioneered a new Great Dao. Evaluation of the new Great Dao: Superior. Reward Points 10,000 points. On this new Great Dao, you've finally taken the first step. You must continue to work hard."

"Body of Primal Chaos Realm, reaching the Spiritual Will of the Ultimate Realm of God King, evaluation of Spiritual Will: Superior. Reward Points 10,000 points. Your Spiritual Will is relatively excellent; please continue to maintain it after becoming a Godly King."

"Total Reward Points 20,182.01 points."

Luo Feng sensed this information, everything was as expected. The Reward Points for pioneering a Great Dao branch, his master Emperor Chu had already told him.

"Let's try again."

Luo Feng extended his hand to point again, and numerous Dao Secret Patterns converged, eventually coalescing into a drop of blood.

This drop of blood, condensed by the Tao Secret Patterns, faintly contained an endless breath of life, yet it seemed incredibly heavy and even more difficult to shake.

This is the Blood Dripping Lineage.

"A new Great Dao only rewards points for the first Dao branch you comprehend. There are no points for subsequent branches... Earning these points is just too difficult," Luo Feng reflected in frustration.

Dealing with the spiritual beings in Infinite Space alone, on the one

hand, takes too long, and on the other hand, the main core areas have been occupied by the great powers. If I act alone, I can only target spiritual beings in remote locations.

How many points can one earn from spiritual beings not occupied by the great powers?

Therefore, the methods to obtain a large number of Reward Points still rely on "pioneering Great Daos" and "Spiritual Will."

"Opening a new branch of the Great Dao is even more difficult than reaching the Second Realm of Godly King," Luo Feng secretly said. The accumulations along his paths of life and destruction were such that with a bit more research, he could quickly reach the Second Realm of Godly King.

The Dao of Life and Death was the path Luo Feng had chosen during his time in the Primordial Cosmos, the one he selected from deep within his heart. Yet creating even one branch was so difficult.

This demonstrates just how hard it is to gain Reward Points!

Many ancient Godly Kings believe the value of Infinite Space is at the very bottom among all the treasure lands, which is understandable.

With his talents, Luo Feng has only slightly more than 20,000 points to date! With such points, converted into the Merit Points of the two ancient countries as a Guest Elder, it would be only a few hundred million at most. Those ancient Godly Kings earn far fewer points than Luo Feng.

"The value of Infinite Space lies in the inexistent inheritances and treasures outside."

Luo Feng immediately reviewed the Infinite Space Treasure Vault.

The vault contained two types of resources: inheritances and treasures.

Most ancient Godly Kings come to the Infinite Treasure Land at great cost, all for the inheritance within! Here, one can find ’Special Grade Inheritances’ and even ’Perfect Inheritances’ that are not available in

the outside world.

On the path of cultivation, the importance of inheritance is surely above that of treasures!

With so few Reward Points, naturally, they should be used where they’re most needed. Luo Feng had never bought any treasures before.

"The Godly King Second Realm chapters of ’World Life Form’ and ’Chaotic Hole Beast Body’ both require 3,000 Reward Points. That’s a total of 6,000 points which I need to reserve."

With such a scarce amount of points, Luo Feng was only willing to set aside one Special Grade Inheritance for both the paths of life and destruction.

The ultimate chapters of a Special Grade Inheritance were too expensive, he couldn’t afford to read them for the time being.

"Let’s check the treasures."

Once exchanged, treasures in the Infinite Space can be teleported directly to the True Body in the Land of Origin.

Treasures information.

Ranked number one was the Heart’s Desire Flying Boat, which required 20,000 points to exchange. It was a flying boat beyond Godly King level, stable and robust, unbreakable within the Source World, capable of instant travel to any location within the Source World.

"Unbreakable within the Source World?" Luo Feng found this very tempting. To think that one could even purchase a God King Grade Secret Treasure with Reward Points from the Infinite Space! Such treasures could surely make even the Emperors and Monarchs of the two ancient countries envious.

"If I bought it, I wouldn’t dare to use it," Luo Feng thought and moved on.

The second-ranked treasure was the Tao Map, which required 20,000 points to exchange. The Tao Map could deduce secret techniques suitable for oneself and analyze the Great Dao to assist in cultivation, significantly improving the efficiency of comprehension. The weaker the strength, the better the assistive effects of the Tao Map! It could even ease one's path to the Peak of the Second Realm of Godly King.

Danger reminder: To master a complete Great Dao still requires self-enlightenment; the Tao Map cannot help in the slightest. And because one relies on the Tao Map for early enlightenment, the difficulty of attaining a complete Great Dao eventually becomes extremely high. Please choose carefully. If you use it merely to deduce secret techniques suited for yourself, there will be no future troubles.

...

The ninth-ranked treasure, a Lotus Heart Seed, required 18,000 points to exchange. The Lotus Heart Seed could grow a 'Life Lotus' within one's internal universe, making the internal universe more stable and the physical body full of endless vitality, greatly enhancing physical strength. The flesh body and the Great Dao of Life Origin have a perfect affinity, significantly increasing the efficiency of cultivation, as if one were the favored child of the Great Dao of Life.

"This Lotus Heart Seed is a good item," Luo Feng thought covetously. Strengthening his World Life Form could naturally advance his strength further.

More importantly, it could make him the favored child of the Great Dao of Life!

The only problem was the high price. Luo Feng couldn't bear to spend all 18,000 points in one go.

...

The treasure 'Destruction Scale,' one piece required 12,000 points to exchange. Fusing the Destruction Scale into the body could transform one's flesh into the body of a Destruction demon race, perfectly matching the Great Dao of Destruction Origin and greatly increasing cultivation efficiency, as if one were the favored child of the Great

Dao of Destruction Origin.

Danger reminder: 1. Fusing with the Destruction Scale will bring an onslaught of a killing will, and one's Spiritual Will must reach the Ultimate Realm of God King to integrate successfully.

2. It is recommended to have an Avatar before exchanging! If there is only one True Body, transforming into the body of a Destruction demon race will affect the cultivation of other Great Daos.

"Transform into the body of a Destruction demon race?" Luo Feng was tempted. He had an Avatar, and his Spiritual Will fit the requirement.

Of all the treasures he had seen, the Lotus Heart Seed and the Destruction Scale were the most appealing because both could aid in the cultivation of the Great Daos of Life and Destruction. The Lotus Heart Seed was more helpful and carried no dangers.

Yet, the Destruction Scale was much cheaper.

"Become the favored child of the Great Dao of Destruction Origin? I want to try what it feels like to be a favored child of the Dao!" Luo Feng carefully reviewed all the treasure information and without further hesitation, decided on the Destruction Scale.

"Exchange!"

Luo Feng gritted his teeth.

The hard-earned Reward Points, a full 12,000, were all spent at once.

An invisible fluctuation descended quickly, and a 'Destruction Scale' had already arrived at the Quiet Room in the Huyang City Lord's Mansion, in Luo Feng's hands.

Chapter 225 - 22 Memory

Within a spatial layer of the Star Tower.

"Equivalent to a secret treasure beyond the level of a Godly King?" Luo Feng looked at the warm scale in his palm, in the Infinite Space Treasure Vault, the cheapest treasure beyond the level of a Godly King was also about 12,500 merit points, almost no different from the scale of Destruction.

"This scale..."

Luo Feng was patient, he didn't use it right away, instead he carefully observed.

The scale was primarily black, with edges that gradually turned transparent and tinged with green. Magnified by billions of times, one could glimpse the mysterious secret patterns on the scale. Countless engraved secret patterns completely sealed the scale's aura.

When Luo Feng's consciousness tried to touch it, upon contact with the scale, he felt an intensely terrifying murderous will.

"Kill, kill, kill!" This terrifying will struck at Luo Feng's spirit, only with the will of the Ultimate Realm of God King could one maintain clarity under such an assault.

"Just a single scale, and one that has been refined at that, still harbors such dreadful murderous will?" Luo Feng was secretly alarmed. "How terrifying must the life that was the source of this scale be?"

"To be able to refine a scale, allowing the weaker Godly Kings to obtain the body of a Destroyer Clan demon? The strength of the refiner is also unfathomable," thought Luo Feng.

The more he understood, the more he realized his own insignificance.

Be it the scant information leaked from the special grade inheritance or items like the scale of Destruction, all allowed Luo Feng a glimpse into the higher planes of the world!

"If Yuan can leave behind numerous treasure lands, then he can leave behind so much resources in these treasuries. Clearly, outside the Source World, Yuan's status must be extremely high. Far surpassing the ancestors of the two great ancient countries," Luo Feng thought.

Luo Feng carefully observed this scale of Destruction for a full three days, recorded the part of the secret patterns he was able to observe, and only then began to truly integrate it into his body.

...

His Perfect Divine Body split off an avatar that contained 99% of his Divine Power Reserve! The remaining small amount of the Perfect Divine Body... once again began to crazily absorb energy through the Small Universe, gradually recovering.

"I will transform this enormous avatar." Luo Feng held the black scale and pressed it directly onto his chest, where the black scale quickly merged into his skin. At the time of the exchange, Luo Feng had already received detailed instructions for its use.

"Kill!"

"Destruction!"

The terrifying will of slaughter swept over his spirit, but Luo Feng's expression did not change, remaining calm as he observed the changes in his body.

Once this scale of Destruction merged into his skin, the hidden power naturally erupted, beginning to erode Luo Feng's entire body, causing his skin, flesh, and bones to naturally transform! The erosion was incredibly fast, and even the energy reserves of this avatar of Luo Feng, which were more plentiful than those of a World Life Form, could only hold out for little more than ten breaths before the body was naturally reformed.

At the instant the transformation was successful, the scale of

Destruction naturally disintegrated, and the original murderous will dissipated, leaving no further effect.

"Even the most minute components of the body have been altered!"

Luo Feng closely examined this 'Destroyer Clan demon avatar.'

This enormous body was covered with scales similar to the scale of Destruction, covering Luo Feng's face as well, but these scales were a pale blue, and their aura was much weaker than that of the scale of Destruction.

His eyes glowed golden, a tail naturally grew out, and six horns sprouted naturally from his head! These six horns bore some resemblance to one aspect of the Great Dao of Destruction Origin.

"This Destroyer Clan demon avatar is average in strength, barely meeting the threshold of the Second Realm of Godly Kings even after I transformed it using a sufficiently large godly body. It's far inferior to the World Life Form avatar," Luo Feng shook his head lightly.

"But it truly is the favored child of the Great Dao of Destruction Origin."

Luo Feng extended his right claw and waved it lightly.

Whoosh!

He could easily manipulate the mysteries of the Great Dao of Destruction Origin! Luo Feng felt as if his body were a part of the Great Dao of Destruction Origin itself, able to use his body to sense and understand the Great Dao of Destruction Origin.

Of course, this body's sensitivity to other great daos was rather vague.

"I have taken the Five-Colored Treasure Medicine before. The Five-Colored Treasure Medicine makes both the body and spirit resonate with the Great Dao of Destruction Origin, continuing for roughly three eras."

"While the scale of Destruction only transforms the body! But it does

not affect the spirit."

"Yet, the compatibility of the body is stronger than that of the Five-Colored Treasure Medicine..."

"In terms of overall effect, the scale of Destruction can reach about seventy to eighty percent of the Five-Colored Treasure Medicine," thought Luo Feng. "Most importantly, this state is permanent."

Luo Feng was very pleased with this state.

A dose of the Five-Colored Treasure Medicine was valued at ten million merit points!

The body of the Destroyer Clan demon could maintain about seventy to eighty percent of the 'Five-Colored Treasure Medicine' state permanently, and its value was self-evident.

"My cultivation in the Great Dao of Destruction Origin is going to completely surpass that of the Great Dao of Life Origin," realized Luo Feng. Ever since Morosa was able to exhibit a complete Path of Destruction, the speed of cultivation along both paths was quite similar.

But now, the speed of progress in the Great Dao of Destruction Origin had accelerated.

In the Infinite Space Treasure Vault, there was also the 'Lotus Heart Seed' that could make one a favored child of the Great Dao of Life Origin, but it was too expensive.

...

Time passed, era by era.

Though he had become a favored child of the Great Dao of Destruction Origin, he still needed time to accumulate his own strength. Compared to the ancient existences of the Land of Origin, Luo Feng was much too young.

******

In one of the deep spaces of the Dream Domain.

Here the darkness was unfathomable, countless tunnel passages formed a labyrinth-like world, within one of these caves, Luo Feng transformed into a large stone, cultivating through the Great Destruction Heart Refining Technique.

Yuan's inherited will, "Lie Yuan Technique", of which the 'Great Destruction Heart Refining Technique' that cultivated will, showed increasing effects as Luo Feng's Great Dao of Destruction Origin made progress.

"Rumble～～～" In the center of the endless Chaos Hole, Luo Feng's spirit had already transformed into a vague human silhouette, which vaguely resembled his appearance.

The spirit silhouette sat cross-legged, resisting the continuous infiltration and erosion of the Dream Domain, as well as the wear from the Great Destruction Heart Refining Method.

"I have been in the Dream Domain for over one hundred and fifty eras, and I feel my spirit continuously transforming, yet its strength will forever fail to break through the bottleneck of the Ultimate Realm of God King," Luo Feng found this path exceedingly arduous.

Cultivation in the Dream Domain was torturous. Luo Feng always pushed his limits, cultivating until he completely succumbed, falling into the dreamscapes of the Dream Domain.

Of course, once he entered the dream, he would stop the Great Destruction Heart Refining Method, and he would quickly awaken.

Over one hundred fifty eras, Luo Feng had succumbed dozens of times.

The advancement of the Great Dao and the pioneering of new Great Daos... these enhanced Luo Feng's understanding of the Dao, and his Spiritual Will naturally improved.

The Infinite Space obliterated Spiritual Beings time and again, which benefitted the spirit as well.

The Great Destruction Heart Refining Technique was consistently upheld, and after gaining the Demon Clan Avatar of Destruction, the effects were even more pronounced.

"I can feel myself transforming, yet I have not broken through,"

"It's no wonder that on the Land of Origin, apart from Emperor Ming, others only transcend the Godly King Level after fully understanding a complete Origin Great Dao," Luo Feng admired Emperor Ming at this moment.

Emperor Ming, in terms of soul foundation, definitely couldn't compare to his Perfect Divine Body. Yet he managed to transcend Godly King Level in his Spiritual Will before understanding the complete Great Dao!

Of course, as an Imperial Clan God King of the Flame Wind Ancient Country, Emperor Ming, once he ascended, was too dazzling, and the resources he received were definitely far more than Luo Feng's own. What a freestanding Godly King like him received was probably just a fraction of what two major Imperial Clan cores had.

Bracing against the profound intrusions of the Dream Domain and the dual refinement of the Great Destruction Heart Refining Technique, Luo Feng was still able to multi-task, just that under such conditions he could not focus too much on Cultivation.

As time went on, Luo Feng gradually grew more exhausted, even unable to multi-task, and all his Avatars in the outside world temporarily went into seclusion.

"Hum."

Luo Feng didn't stop but kept persevering, until the very limit, until... he sank into the dream.

...

During the past one hundred and fifty Eras, Luo Feng had sunk into dreams dozens of times, and he would reflect upon each awakening.

Most of the dreams, Luo Feng would forget, while a small part he

managed to recall!

The parts he remembered were very chaotic, and some were even contradictory! But there were some scenes that Luo Feng felt were far beyond the scope of the Source World.

"...The Ancestor summons you..."

A voice rang out.

Luo Feng forgot who he was; at this moment, he was enormous in stature, seemingly possessing unfathomable power.

Yet, he stood there with utmost respect, patiently waiting.

"I've made great Merit Points this time, even receiving a summons from the Ancestor. I wonder how the Ancestor will reward me." Emotions of joy bubbled up within him.

"When will the Ancestor summon me again? I've been waiting so long..." An emotion of weariness surfaced.

"How will the Ancestor punish me?" A feeling of fear began to grow.

The dreamscape was incredibly chaotic, as if the scenes of visiting the Ancestor had happened many times, and he seemed to be constantly awaiting a summon from the Ancestor.

Finally—

A giant eye appeared!

Luo Feng looked at this huge eye with utmost respect, "Ancestor!"

This so-called 'Ancestor' was shrouded and veiled by endless Great Daos. In the dream, Luo Feng couldn't see its true form, seeing only that enormous eye, which seemed to be etched into Luo Feng's soul, instilling fear in him, without any thought of resistance.

"Hum hum hum~~~" The entire dreamscape began to tremble. Having stopped the Great Destruction Heart Refining Technique, Luo Feng's Spiritual Will was already struggling to break free from the

dream.

In the instant he saw the giant eye, Luo Feng's Spiritual Will instinctively resisted fiercely, causing the entire dreamscape to start to fragment and shatter.

Whoosh!

It completely shattered, and everything vanished.

Luo Feng regained consciousness.

"This..." Luo Feng revealed his true appearance, his eyes filled with horror, "Why is this memory so clear this time?"

In the past, most of what he saw in the dreams would be forgotten, and the few memories that remained would not have any impact.

But this time!

That eye! Luo Feng still remembered it after waking up! Although it had blurred somewhat, that eye still filled Luo Feng's heart with endless fear, even his Spiritual Will couldn't suppress this sense of dread.

Fear, trembling with terror.

Uncontrollable!

Only thoughts of fear and submission.

"How could this be?" Luo Feng immediately dissipated that Avatar, self-annihilating.

...

In Huyang City, within the Star Tower.

Luo Feng's Perfect Divine Body, Demon Clan Avatar of Destruction, and World Life Form Avatar, all showed expressions of shock and anger.

"Unable to forget, unable to obliterate."

Luo Feng attempted to erase that memory, but he couldn't! This segment of memory had already permeated and fused into his entire soul, even if he destroyed all memory and left his brain a blank slate. This memory would still emerge.

"Erase it!"

Luo Feng employed the Great Destruction Heart Refining Technique, and the Great Destruction Heart Refining Technique scrubbed away the stray thoughts from his mind, the fears within.

"That's better."

He continued to maintain the Great Destruction Heart Refining Technique. As soon as thoughts of fear or submission arose, they were obliterated, and Luo Feng felt his spirit become much more serene and ethereal.

"Yet it remains rooted in the soul," acknowledged Luo Feng, realizing the issue. The Great Destruction Heart Refining Technique could only scour away all stray thoughts, making the spirit sufficiently ethereal.

But it could not destroy the root.

"I have heard that when cultivating the Primordial Bloodline, the wills remaining within the Primordial Bloodline will contaminate the spirit... even if one undergoes reincarnation like Di Fu, where there is no will contamination after reincarnation, this 'memory contamination' still exists. Memory contamination can only be controlled by oneself; it is difficult to eradicate."

Memory contamination is less severe than will contamination.

But it is a contamination all the same!

Di Fu had carried it all along! And now, Luo Feng too bore the weight of memory contamination!

Chapter 226 - 23, The Secret Technique of the Second Realm of the Dao of Life and Death

Huyang City, inside the city owner’s mansion.

Luo Feng sat alone on the pavilion drinking wine, his brows furrowed, clearly troubled by something.

"Moyu Qingyan, that foolish lad, has finally comprehended another Primal Chaos Realm secret technique. His accumulation has thickened somewhat." Morosa walked within the mansion in good spirits, regardless of the distance Moyu Qingyan was from the Primal Chaos Realm, he was getting closer.

Although the second disciple of Blade River Sect, ’Xin Yu,’ was far more talented, no other disciple surpassed his own.

Upon looking up, Morosa saw Luo Feng in the distance on the pavilion.

"Strange." Morosa felt puzzled. "There’s something off about the master..."

Swoosh.

Morosa quickly made his way up to the pavilion, cautiously addressing him in the corridor below the stairs, "Master."

Luo Feng glanced at Morosa, "What is it?"

"Does master have troubles?" Morosa observed and inquired, "I wonder if there’s any way I can help?"

Morosa believed himself to have reached the Second Realm of Godly King, utterly surpassing the master in every aspect! Perhaps, he could resolve the master's trouble.

"You cannot help," Luo Feng shook his head.

"Master, perhaps you could tell me?" Morosa asked.

Luo Feng chuckled, "I have encountered a great terror, fear uncontrollably springs forth in my heart! This greatly affects my cultivation... Do you have a method to prevent me from feeling fear?"

In full force, the Great Destruction Heart Refining Technique indeed had the power to crush all stray thoughts, making one's spirit sufficiently pure and ethereal.

But this also diffused much of his Heart Force, slowing down Luo Feng's thoughts considerably, and greatly reducing the efficiency of his contemplation and cultivation. It was less than half as effective as in his prime state.

How could Luo Feng be in good spirits bearing such a negative impact for the long term?

He was pondering, how to solve this trouble!

"Encountered a great terror? Fears cropping up?" Morosa was puzzled. "What in the Land of Origin could possibly invoke fear in the master?"

Luo Feng just smiled.

"Would it cause the master to die completely? Even affect our kin?" Morosa inquired, suspecting that the master had encountered a terrifying foe.

"There is no danger of death," Luo Feng said. "It's just affecting my cultivation."

"If it's not lethal, what's there to be afraid of?" Morosa asked.

Luo Feng shook his head, "One cannot control the heart by nature,

and fear arises naturally."

"Control the heart, isn't that enough?" Morosa looked at Luo Feng, puzzled.

"Control the heart?"

Luo Feng was slightly taken aback.

As a Godly King, with the will of the Ultimate Realm of God King, even he felt an intrinsic terror when faced with the memory of that huge eye!

"Yes, it's merely memory contamination. A threat even less than that of will contamination. What's there to fear?"

"Intrinsic fear of life? Then I'll control the intrinsic."

"All fear comes from within."

"Control the heart, and you can control the intrinsic."

Luo Feng vanished in the blink of an eye, leaving Morosa on the pavilion with a trace of confusion.

"What terrifying thing has the master encountered?" Morosa wondered, bemused.

...

Inside a space within Star Tower.

Luo Feng sat cross-legged, ceasing the Great Destruction Heart Refining Technique.

The memory of that huge eye, as if gazing through eternity, looking down on him.

Fear surfaced once more in his heart!

His spirit trembled!

Fear, subjugation, dread!

"Steady! It’s merely a segment of memory within a dream, it can’t threaten me, why should I fear it? Don’t fear, face it! Face it!" Luo Feng kept convincing himself.

But knowing that is one thing! Life’s intrinsic is another!

Fear continually bloomed, spreading ever wider, the horror brought by that huge eye dug deeper into Luo Feng’s heart.

"Face it!"

"It’s only memory!"

Luo Feng forced himself to confront it, as time passed by, the fear penetrated deeply, becoming more influential, until Luo Feng could only utilize the Great Destruction Heart Refining Technique, erasing all stray thoughts, to restore the clarity and ethereal nature of his spirit.

After erasing the thoughts, Luo Feng again stopped performing the Heart Refining Method, and continued to face it.

"Control your own heart, your own intrinsic." Luo Feng kept confronting it willingly.

From initially having to perform the Great Destruction Heart Refining Technique every few days to erase all stray thoughts, gradually, tens of days, thousands of days... the longer he observed, the more familiar he became with the horror brought by the huge eye, the stronger his control over his spirit.

After half an age.

"The fear of facing it is now quite weak." Even without the assistance of the Great Destruction Heart Refining Technique, Luo Feng could withstand facing the huge eye for an extended period.

Those Godly Kings who cultivated the Primordial Bloodline did the same, repeatedly challenging and suppressing the will of their bloodline! This, too, was a kind of tempering, and like the Cloud Sky God King, reached the "God King Ultimate Realm Will" through such tempering.

Luo Feng's spirit had also undergone transformation during this period.

"Is this giant eye real, belonging to some terrifying being, or is it merely an illusion within the dream realm?" Luo Feng was quite curious.

"It is the most terrifying existence I have ever witnessed, even though it was only seen in the dream realm."

"We could try to create an extremely terrifying Secret Technique."

Luo Feng was inspired to create a Secret Technique.

In previous years, he had comprehended all "nine branches" of the Dao of Life and Death.

"With the nine branches of the Dao of Life and Death, I can try to create this technique," Luo Feng faced the giant eye, ignoring the slight fear it inspired, as he attempted to create the Secret Technique.

The nine branches of the Dao of Life and Death were as follows: the initial six branches that he had understood—Blood Dripping, Red Sun, Annihilation, Eternal, Black Smoke, and Walker lineages, and the later three that he continued to comprehend—the Sky Light, Nihility, and Reincarnation lineages.

The nine branches encompassed the core essence of the Dao of Life and Death. Each branch extracted some mysteries from both the six life branches and six destruction branches, each extremely formidable.

"That giant eye should focus on the Eternal Branch, Blood Dripping Branch, and Reincarnation Branch," Luo Feng had faced it for so long that he now had a direction for the Secret Technique.

"And then supplemented by the Red Sun Branch, Black Smoke Branch, and Nihility Branch."

"The integration of six branches! A technique that perfectly integrates them should capture some essence of that eye."

Luo Feng began to ponder.

The conception was so lofty that creating it proved more difficult than Luo Feng had anticipated.

Whenever he encountered confusion, Luo Feng would directly face the giant eye, watch it closely, study why it caused such great horror, while searching for inspiration to refine the technique.

Fully focused on creating the Secret Technique, Luo Feng had no interest in other matters.

Even when the Reincarnation Tower invited him to join an expedition, Luo Feng temporarily declined, saying he was in closed-door cultivation and had no interest in exploring treasures.

...

"I no longer feel fear when facing this giant eye." After more than a decade of studying the giant eye and trying to create the Secret Technique, no matter how he faced it, he no longer felt any fear.

Once fear vanished, the great eye's help in cultivation also lessened.

"The Seven Emotions of Heart Refining Technique increases my perception."

Luo Feng began to cycle the Seven Emotions of Heart Refining Technique. In this state, emotions such as joy, anger, sorrow, thought, grief, fear, and shock were much more intense, and even slight emotions could raise huge waves in his spirit.

"Boom—"

Once he activated the Seven Emotions of Heart Refining Technique, the giant eye once again provoked a strong sense of fear in Luo Feng, as if he were facing it for the first time, his spirit trembling with fear.

"Good, good, this is the feeling I want," Luo Feng was overjoyed and again went to perfect the Secret Technique.

The Secret Technique was gradually perfected.

Decades passed! Finally, after thirty-four decades of Luo Feng facing the giant eye,

"I've done it!"

Inside the Star Tower, Luo Feng was incredibly excited.

The long years of research had finally led to the success of creating the Secret Technique, a sense of accomplishment that left Luo Feng very satisfied.

"I have finally created this Secret Technique! It wasn't easy! It was much harder than the Chaotic Hole Undying Light." Luo Feng was incredibly thrilled, "This memory from the dream realm wasn't a disaster, but a blessing!"

Now, even while maintaining the Seven Emotions of Heart Refining Technique, that giant eye could no longer inspire fear in Luo Feng.

Because Luo Feng had researched it too deeply.

Understanding too much, the mystery was lost, and naturally, the sense of horror disappeared.

After all, it was just an image from a dream realm memory.

"The dream realm memory I studied is just an image. If it truly exists, I wonder how terrifying it would be," Luo Feng thought.

"In essence, the Secret Technique I've created this time is strictly the Life and Destruction Dao Second Realm Secret Method!" Luo Feng smiled brightly, his emotions under the Heart Refining Technique even more intense.

Last time, the perfected "Chaotic Hole Undying Light" actually merged two life branches with three destruction branches, a total of five branches.

This time, it was the full integration of 'six branches' from the nine branches of the Great Dao of Life and Death, a true Life and Destruction Dao Second Realm Secret Method. Although he hadn't tested it yet, Luo Feng could tell that the power of this new Secret

Technique was far beyond that of the Chaotic Hole Undying Light.

"Having been a God King for over two centuries, it is only now, with the help of a dream realm memory, that I have finally created this move."

Luo Feng knew that without such accumulation, it would have been difficult to create such a technique in a short period. This time was entirely influenced by the memory of the dream realm, which provided a clear direction and took over three decades to create such a technique.

"This Secret Technique, with each branch being extremely powerful, and the integration of six branches, could its power match an Ultimate Realm Secret Technique?" Luo Feng was somewhat curious.

Emperor Gui Xu, Wuxin God King, they all had Ultimate Realm Secret Techniques.

While each of his branches was strong, it was Emperor Gui Xu and Wuxin God King who unified all branches into a perfect entity, creating a qualitative change that truly made their techniques Ultimate Realm Secret Techniques.

"Let's see."

The Secret Technique could be executed with the body or different weapons, with a blade it would be a terrifying Blade Technique, with an axe, an Axe Technique, and with a hammer, a Destruction Hammer Technique.

Luo Feng stretched out his hand.

His right hand darkened instantly as if becoming the core of the entire world! If the world were to end, his hand would remain unharmed! Carrying an endless terror, Luo Feng's palm struck out with five fingers.

"BOOM—" In a flash, his five fingers shone dazzlingly bright, forcefully destroying everything; the invisible membrane of the Source World was shattered, tearing open to reveal a trench several zhang long.

Outside the membrane of the Source World, rolling black currents surged through the trench.

"This move shall be called the Great Extinction Style!" Luo Feng, seeing this scene, was quite satisfied.

Chapter 227 - 24 Mind Metamorphosis (Part 1)

"This segment of dream memory no longer produces the slightest fear," Luo Feng carefully observed the giant eye within the memory, feeling regret instead; regret that it was a dream memory, not clear enough.

"Having become a Godly King for over two centuries, I've spent almost all the time in the Dream Domain undergoing the Destruction Refinement Method."

After wholeheartedly creating the 'Great Extinction Style', a hint of fatigue blossomed in Luo Feng's heart! While maintaining the Seven Emotions of Heart Refining, his inner emotional turmoil was also intense, and the slightest bit of fatigue spread through his spirit.

"It's time to relax my body and mind."

"For my heart refining, I originally chose the Great Destruction Heart Refining Technique and the Seven Emotions of Heart Refining Technique. Now, it's time to relax with the Seven Emotions of Heart Refining Technique." With just a thought, Luo Feng immediately took action.

...

A black-clad avatar of Luo Feng left Huyang City, heading first towards the Shi Kingdom.

"I've always wanted to completely kill the three monarchs of the Shi Kingdom to avenge my teacher. But I don't have a deep understanding of the Shi Kingdom..." The black-clad Luo Feng wandered leisurely, his knowledge of many places across the continent relying on intelligence reports.

But this time, Luo Feng decided to see for himself!

Throughout his tour of the continent, Luo Feng maintained the Seven Emotions of Heart Refining Technique.

"The reputation of Tian Kun's Emperor of the Shi Kingdom is quite bad, invading neighboring areas, and killing at will. But the cities within the Shi Kingdom are quite prosperous." Luo Feng toured city after city, listening and watching any musician proficient in the music Illusion Technique.

Gourmet food, dances, music...

Under the influence of the Seven Emotions of Heart Refining Technique, the pleasure Luo Feng experienced was a hundredfold, a thousandfold.

"Good."

"Well done." Upon tasting delicious food, Luo Feng was generous with his reward, casually tossing out hundreds of Cosmic Sand, exciting the shop owner.

"To become an eternal true god through culinary skills? Impossible! It's impossible to be this awful!" Tasting something appalling, Luo Feng's suffering was also magnified a hundredfold, a thousandfold, and he couldn't help but seize the chef in anger.

It turned out that after he paid a hefty price for the chef's cooking, the chef had his apprentice do the cooking, and the apprentice did it carelessly.

In the end, Luo Feng smashed up the restaurant before finally departing.

"I come to listen to music and you're shouting and yelling next to me?" Luo Feng kicked an eternal true god clear out of the entire city, and immediately all the guests quieted down like chickens, the musicians also trembled in their hearts, playing even more earnestly.

While exploring various places, Luo Feng was very relaxed.

Under the influence of the Seven Emotions of Heart Refining Technique, his behavior was even more unrestrained than usual, laughing and cursing as he pleased.

******

One day, Luo Feng came to the Wind Snow Tower, attracted by its fame.

"I've heard that the music and Illusory Realm performances of the Snow Tower Master are ranked among the top ten throughout the Shi Kingdom." Luo Feng sat leisurely, taking out a collection of fine wines, as he couldn't count on the place to have good wine for listening to music.

These wines were all sought out by Luo Feng from gourmet destinations across the lands, affordable, yet each with unique characteristics.

"Mmm." Luo Feng took a satisfying sip, the fine wine intoxicating his senses.

The sound of music began to rise.

The Snow Tower Master had already begun her performance, her snow-white wings and a face covered with soft down, her eyes kind and gentle. She held a flute-like instrument and played.

The music was tender, as if penetrating the soul.

All cultivators in attendance enjoyed the endurance within.

With Luo Feng's spiritual will, even deploying the Seven Emotions of Heart Refining, it was hard for him to completely fall into an Illusory Realm again, but music that resonated with the soul... Even without entering an Illusory Realm, was still a delight.

"Wonderful, wonderful, wonderful. Among the musicians I've heard, she would rank in the top three," admired Luo Feng.

The Snow Tower Master performed one piece after another, a total of twelve pieces, each more soul-piercing as it progressed.

Luo Feng listened deeply immersed.

He felt as if he had returned to his youth when he went to the martial arts hall for practice, to the times he tasted his parents' cooking... many beautiful and warm memories surged to his heart.

Only when the music halted,

did Luo Feng come to his senses, with tears in his eyes.

"I, I unknowingly entered an Illusory Realm?" Luo Feng was astonished as he looked at the Snow Tower Master with the snow-white wings, "Among the musicians I have seen, she ranks first!"

"Twelve pieces, each a Primal Chaos Realm level, and all perfectly fused into one... This Snow Tower Master, she must not be far from achieving the Primal Chaos Realm."

"The most important thing is, she has a strong spiritual will."

Luo Feng naturally confirmed this after waking.

Only with an extremely strong spiritual will infused into the music could it have such a powerful impact.

"Her spiritual will, even if it has not reached the Pinnacle of Primal Chaos Realm, must be close," Luo Feng felt admiration for talent, after all, she is a genius poised to reach the Primal Chaos Realm through the path of music, and with an exceptionally strong spiritual will, Luo Feng truly appreciated.

With this interest for talent, Luo Feng began to observe the Snow Tower Master closely.

"Hmm?" This look caused a slight change in Luo Feng's expression.

After the Snow Tower Master finished her performance, she turned and left without speaking. Guests then came out of their trance, each exclaiming in admiration.

On one of the corridors of the Wind Snow Tower.

The Snow Tower Master walked along the corridor, puzzled to see the black-clad man sitting comfortably drinking wine ahead.

"This is a forbidden area of my Wind Snow Tower, not open to guests. How did he suddenly end up here? And the formation had no reaction?" The Snow Tower Master was somewhat puzzled.

"Xue Fengyu!" The black-clad man set down his wine jug, looked over calmly, and said, "A Heavenly Snow Woman by tribe, born among the clan, cultivated into an eternal true god through talent. Later, controlled by a mysterious force, am I right?"

Luo Feng watched the Snow Tower Master.

The Snow Tower Master's expression changed slightly as she immediately offered a respectful salute, "Faced with the Supreme, I do not know what your commands are."

She couldn't determine the strength of the being before her.

"I have ten registered disciples under my wing, would you be willing to become the eleventh?" Luo Feng, carried by the mood, directly proposed. He had already planned that during his visit to the Land of Origin, he would take on some registered disciples if fate allowed.

Upon hearing this, the Snow Tower Master felt a surge of melancholy.

If a powerful being had taken her as a disciple a long time ago, she would naturally have been overjoyed. But now...

"The Supreme knows, I am not my own master, how can I take guidance from another master?" said the Snow Tower Master.

"Not your own master?"

Luo Feng looked at her.

Under the domain of his own world, Luo Feng saw at a glance the mark on the Snow Tower Master's forehead and the "True God's Heart" inside her infiltrated by layer upon layer of secret patterns, already completely controlled, she couldn't even commit suicide if

she wanted.

"Disperse." Luo Feng softly commanded.

Around him, the world revolved with Luo Feng as its center, causing both the mark and the secret patterns on the true heart to disperse.

"Now you are free to govern yourself," Luo Feng said to her.

The Snow Tower Master couldn't believe it, feeling the controlling power dissolving from her body; she was overwhelmed with emotion and immediately knelt: "Disciple Xue Fengyu greets the master."

Luo Feng nodded in satisfaction.

"Master, the power that controlled me is unfathomable..." the Snow Tower Master immediately reported.

Luo Feng looked up with a smile: "That power has already arrived."

In the high sky, a colossal figure crossed the Void, bathed in thunder, its might covering billions of kilometers. As soon as it appeared, it completely sealed off the vast region around it from the inside and out.

"Which Godly King dares to break my secret technique and snatch away my Divine Son?" The figure bathed in thunder looked towards Luo Feng. "So it's Luo He from the Blade River Sect! Luo He, seeing the mystery of my secret technique, you still dare to act?"

Upon hearing this, the Snow Tower Master was startled.

Luo He?

The Luo He God King was extremely famous in the surrounding territories! After all, many cultivators had rushed to join when the Blade River Sect was established.

"I am Luo He," Luo Feng said, looking up at the other party, puzzled. "And who are you, lingering in the shadows, still not daring to reveal your identity even now?"

"Who I am, someone at the First Realm of Godly King is not worthy of knowing." The imposing figure spoke, "I am taking my Divine Son away! If you dare to stop me... don't blame me for leveling your Blade River Sect!"

Saying so, the towering figure stretched out a massive hand.

This huge cyan palm, emitting countless bolts of thunder, larger than an entire large city, directly enveloped the area.

This scene terrified countless cultivators within the city.

"There's always a group skulking around in this Land of Origin," Luo Feng shook his head. Hiding identities within treasures is one thing, but to still hide oneself when capturing an eternal true god in the open.

The Snow Tower Master watched nervously at the side.

Luo Feng casually waved his hand: "Be gone."

A 'Chaotic Hole Undying Light' nurtured within his body was released at once! This blade light, honed to the extreme, instantly cut across the giant hand! The giant hand was strong and tough, but under this blade light, it was forcefully severed, and golden blood dripped down.

"What, impossible!" The imposing figure shouted in surprise and anger. His strong and resilient body couldn't withstand that blade light?

Puff!

The blade light swept across his body once more, cleaving it in two!

The blade light pursued the towering figure, almost in the blink of an eye, cutting the imposing figure into dozens of pieces! Under this blade light, his seemingly mighty body was utterly unable to withstand.

"Luo He, have you advanced to the Second Realm of Godly King?" The towering figure could not believe it. This terrifying oppressive

force and the enigmatic nature of the blade light, both exceeded that of the Emperor of Tian Kun.

He felt the difficulty of dealing with this blade light, as if the blade light could cut everything! And its energy could continuously recover! With his realm's tactics, he simply couldn't dodge this blade light.

"Stop, stop, take the Divine Son if you will," the towering figure urged.

Luo Feng, sitting there, looked up: "You at the Second Realm of Godly King, why are you so weak?"

"Boom."

Seeing Luo Feng not stopping, the figure had no choice but to explode frantically, turning into countless thunders that fled in all directions, still partially sliced by the blade light in an instant, the remaining thunder disappearing into the world.

Whoosh.

The streak of blade light flew back from afar, returning to Luo Feng's palm.

The Snow Tower Master witnessed this tremblingly, her master's methods were indeed terrifying.

"Not bad for power," Luo Feng said, observing the blade light. The blade light hadn't diminished at all and, with a thought, he reabsorbed it into his inner world.

"Come with me to Huyang City, do you need to prepare anything?" Luo Feng asked the Snow Tower Master.

"Master, I need to bring my tribe," said the Snow Tower Master.

"Okay."

Luo Feng's body divided, creating an avatar, taking the Snow Tower Master and her tribe to Huyang City together.

Luo Feng's original body continued on his journey of exploration.

"Luo He, I heard you've reached the Second Realm of Godly King?" contacted the Monarch of Yu Country.

"You're well-informed," Luo Feng laughed heartily, not denying it. From the First Realm of Godly King to the Ultimate Realm, there was no difference in the foundation of Divine Power or soul, it was mainly the difference in the Dao.

Without displaying one's realm of the Great Dao, other cultivators would find it difficult to determine.

Luo Feng could wield the secret technique of Second Realm of Godly King, and such profound secret technique at that, the outside world naturally believed he had broken through.

Chapter 228 5 Volumes 25 Chapters Soul Metamorphosis (Part 2)

"Amazing, truly worthy of being the strongest Godly King in the history of the Land of Origin, ascending to the First Realm of Godly King in just over two centuries and has even reached the Second Realm!" the Monarch of Yu Country exclaimed.

"In the Land of Origin, there are many stronger than me," Luo Feng laughed, inadvertently acknowledging himself as being in the Second Realm of Godly King.

The 'Chaotic Hole Undying Light' and 'Great Extinction Style' he had realized, along with the Second Realm secret techniques he would realize in the future! Possessing such powerful secret techniques, who would believe he was still in the First Realm of Godly King?

Moreover, Luo Feng was intentionally creating higher realm secret techniques at a lower realm to hone his comprehension. In fact, in terms of accumulation, the paths of life and destruction, could easily propel him to the Second Realm of Godly King if he pursued them deliberately.

By acknowledging himself as in the Second Realm of Godly King, his strength seemed more reasonable.

"With your talent, Luo He, you have every chance of reaching the Ultimate Realm," the Monarch of Yu Country said.

"The Ultimate Realm is much harder than the Second Realm of Godly King," Luo Feng replied. In the Land of Origin, a fair number of secret techniques of the Ultimate Realm had been realized by Emperors and Monarchs, even those at the level of Emperor Gui Xu could manage

it. But in this era... only the Lord of Ten Thousand Realms and Emperor Qing had reached the Ultimate Realm.

"Yes, it's very difficult," the Monarch of Yu Country sighed, having not even realized a single Ultimate Realm secret technique himself!

...

The news that Luo Feng had defeated a Second Realm Godly King with a single 'Chaotic Hole Undying Light' spread rapidly, even detailed battle images were available!

"This Luo He, without showing his physical strength, simply released a blade light to defeat an ordinary Second Realm Godly King?" the Emperor of Tian Kun of Shi Country, also keenly watched the battle images, "This blade light is not from a Weapon Secret Treasure, but from condensed prowess! It possesses such terrifying power. With attributes like 'All Things Can Be Cut,' 'Unavoidable,' 'Energy Eternal,' it has many terrifying aspects."

The Emperor of Tian Kun, being a high-ranking overlord, recognized many fearsome traits of this blade light.

"This blade light reaches a very high realm."

"I can't perform such a refined move myself," the Emperor of Tian Kun admitted, his feelings complex, "Even if I were to utilize my full power with the Primordial Bloodline, I probably could only match this one blade light."

"Is this what they call a peerless talent?"

The Emperor of Tian Kun, himself a reigning overlord, felt a sense of powerlessness facing Luo He.

Last time, Luo Feng's techniques were still clumsy, merely relying on having many avatars and a resilient physical body to entangle the enemy. In just over two centuries, his previously weakest aspect, 'realm,' had already surpassed that of the Emperor of Tian Kun.

"I'd better keep more distance from him in the future," the Emperor of Tian Kun thought silently.

Of course, he wasn't alarmed.

Even if Luo Feng's realm was high enough to master Ultimate Realm secret techniques, comparable to Emperor Gui Xu or Wuxin God King, so what?

Even at the Emperor level, no one would dare claim they could destroy the Emperor of Tian Kun in one stroke, leaving him no chance for reincarnation. The life force of the Emperor of Tian Kun, with his Primordial Bloodline, was also exceptionally robust.

...

Below the endless flames, a figure appeared, none other than the first Emperor 'Di Yan' of the Flame Wind Ancient Country.

"Luo He has reached the Second Realm of Godly King?" Di Yan nodded slightly, "His realm has greatly improved, and he's skilled in creating avatars! For my Flame Wind Ancient Country, he could be very useful, handling many tough and arduous tasks."

Among the Guest Elder Godly Kings, Luo Feng was already considered a powerful force, with his multitude of avatars equivalent to a group of Royal Family Godly Kings.

"The only obstacle is his master 'Emperor Chu'," Di Yan frowned.

He believed that, on one hand, the Emperors' strength was a deterrent, and on the other hand, offering merit resources, Luo Feng would obediently bow down and toil without complaint. But with Emperor Chu around, he would certainly protect his disciple's interests.

******

Revealing some of his strength had stirred up some disturbances, but Luo Feng continued to leisurely stroll around.

"Although the large cities of Shi Country are prosperous, the wilderness outside the cities... is much more brutal and cruel," Luo Feng frowned slightly, watching a warship approach a tribe in the distance.

The tribe comprised merely a few thousand creatures.

The warship carried a crack troop consisting of ten true gods of void space and a hundred true gods, who now led with a secret treasure that produced a massive bag, aiming to completely swallow the whole tribe.

"This is bad."

"Run!"

Panic ensued within the tribe.

However, the troops on the warship were quite casual, having grown accustomed to such tasks. Every so often, they had to capture enough creatures to offer up! If the numbers fell short, they would have to pay with their own lives.

"Scram!" A commanding shout instantly transported the warship billions of kilometers away, and the tribe miraculously survived.

The few thousand creatures in the tribe stared blankly at the scene, the massive bag and warship that had dominated the sky disappeared.

"Hurry."

"We've been discovered, we must hide deeper in the mountains."

"Quick, move quickly."

The tribe swiftly mobilized, taking only essential items, and moved to a more secluded location aboard a Flying Boat.

From afar, Luo Feng watched the entire tribe relocate.

"This is Shi Country, known for its cuisine, but also for devouring countless creatures," Luo Feng shook his head lightly. When he annexed ten Primal Chaos Prefectures of Shi Country, he discovered that their wilderness tribes all lived in extremely remote areas.

"That Emperor of Tian Kun... he intends to consume countless

creatures over the long term."

This was also why Shi Country was so brutally aggressive in its expansion.

In fact, with the strength of Shi Country... annexing some third-rate nations through sheer force was usually unchallenged. Through normal negotiations and intimidation, annexation was easily achieved.

This was a common way for many second-rate nations to expand their territories.

However, Shi Country preferred bloody massacres. When annexing a nation, usually, every single resident of the 'Royal Capital' of that nation was devoured, leaving no one alive. As for the wilderness tribes, there were mass captures for consumption.

"The Emperor of Tian Kun, protecting the prosperity of large cities and maintaining the sustainability of wilderness tribes, only periodically captures some. Only when annexing other nations... does he have his feast."

"In the Land of Origin, this isn't considered unusual."

Luo Feng sighed.

The Land of Origin was more brutal and wicked than the Emperor of Tian Kun, with many others still far surpassing it.

They occupied vast territories, devouring countless Creatures at will, with no hope for these Creatures to ever rise up!

Compared to that, the mysterious force that had previously enslaved and controlled "Xue Fengyu" only enslaved a few geniuses. In the Land of Origin, when it came to sin, they were hardly worth mentioning.

...

Luo Feng wandered from place to place.

Second-rate nations, numerous third-rate nations, he even visited the Tianmu Kingdom and the Wanjie Kingdom, passing through many smaller neighboring countries, and finally took a route around the Thunder Ancient Country, stepping onto the Tianji Icefield from the border of the Thunder Ancient Country...

Except for the most remote East Extreme Domain, Luo Feng had traveled all across the Land of Origin.

During this process, Luo Feng also took on some registered disciples.

"Hoo hoo hoo~~~"

The wind and snow howled.

The deeper into the Tianji Icefield, the colder it got; most outdoor areas were uninhabitable for ordinary tribes. Thus, countless Creatures built cities.

Luo Feng walked alone through the snow.

"Hm?" Luo Feng's ears twitched.

He heard the sound of melodious music.

"Beautiful piece."

Luo Feng's eyes lit up. Having traveled through most of the Land of Origin, he had heard many pieces of music, but fewer and fewer moved him.

Looking ahead, Luo Feng saw a desolate city covered with ice in the distance, atop its walls a figure held a leaf, playing solo. The music spread and filled the whole city.

The lonely melody, however, warmed the soul.

Luo Feng saw memories of his days in school with his wife Xu Xin, and playful moments with his sons Luo Ping and Luo Hai... Luo Feng naturally immersed himself in these beautiful memories.

"An Fengya, are you done playing? If you're finished, I'll make my

move." An elite military troop was also near the city walls, waiting for the music to stop before their leader spoke.

The young man in white on the walls, smiling, said, "Thank General Yun for allowing me to finish this newly created piece."

"An Fengya, duty calls, don't blame me." General Yun said, "Are you going to surrender, or should I take action?"

"Please."

The young man in white said with a smile.

Suddenly, the elite military squad transformed into a giant black Exotic Beast, charging towards the young man in white! The young man in white pulled out an oval musical instrument and began to play a tune that turned into various Illusory Realms, capturing the black Exotic Beast.

Alas, the black Exotic Beast, with unified Spiritual Power, was not afraid.

"My strength is insufficient," the young man in white sighed as the huge claw of the black Exotic Beast loomed over him.

"Little guy, the piece is nice." A voice sounded.

The young man in white looked over in shock.

A man in black sat atop the city wall holding a wine jug, drinking and smiling at him. Meanwhile, everything around became quiet, and the huge black Exotic Beast froze mid-air.

"An Fengya has met the Supreme," the young man in white immediately greeted.

"An Fengya?"

Luo Feng nodded slightly and contacted the Flame Wind Pavilion to obtain all the detailed information about An Fengya.

"An Fengya, you love music and wander through many cities," Luo

Feng observed him, "because you saw a small city's hundreds of millions of Creatures about to be devoured, you injured the son of Jiu Ye God King and saved the city's people. Is this elite army chasing you under Jiu Ye God King's command?"

"Yes." An Fengya respectfully answered, this Supreme knew everything.

"Knowing he was the son of Jiu Ye God King, why did you intervene?" Luo Feng asked.

"One life for hundreds of millions, it's naturally worth it," An Fengya smiled, "After I intervened, those hundreds of millions of lives immediately dispersed and fled, and I believe most of them survived."

"Are you willing to exchange your own life for the lives of hundreds of millions of unfamiliar Creatures?" Luo Feng was surprised.

Luo Feng knew he couldn't do it.

He was willing to sacrifice for his hometown and tribe, but he could not sacrifice for strangers.

"All of us are the essence of heaven and earth, all of us brilliant lives," An Fengya smiled with a smile so infectiously.

Luo Feng could feel that An Fengya spoke from his heart.

Perhaps, it was a soul that genuinely loved and devoutly cherished all life that could create such music.

"I currently have nineteen registered disciples, would you like to become the twentieth?" Luo Feng asked him, drawn by his love for music. Most of the registered disciples Luo Feng had taken on during his travels across the Land of Origin were skilled in music, with two specializing in culinary arts.

An Fengya was startled and couldn't help but say, "Supreme, I have offended the son of the Jiu Ye God King."

"From today onward, there will be no Jiu Ye God King in the Land of Origin." Luo Feng smiled at him.

A mere First Realm Godly King causing trouble far and wide.

Since he had a grudge against my disciple, he had tied himself to the same fate!

Might as well deal with him now!

An Fengya was surprised and immediately knelt down: "Disciple An Fengya, greets Master!"

"Ha ha ha..." Luo Feng laughed, very satisfied.

At the same moment, an avatar of Luo Feng already traversed through the void, searching for that Jiu Ye God King.

Chapter 229 Mind Metamorphosis (Part 3)

In a majestic palace, within the Quiet Room.

Jiu Ye God King revealed his true form, a massive avian creature! His body was shrouded in ink-like mist, with a hint of blood red at the top of his head, and his cold eyes appeared both closed and open.

He was born in the Primordial Cosmos and had come to the Land of Origin via the Samsara Channel.

In the Primordial Cosmos, he was a special kind of life form, inherently a ferocious avian creature that delighted in consuming other creatures... He was like a nightmare in that cosmos, annihilating one group after another.

Eventually, he became the most terrifying entity in the border territories of that Primordial Cosmos. All living beings within were consumed by him, and only after he passed through the Samsara did the newly-born creatures in that area get a chance to breathe.

Yet upon arriving in the Land of Origin, his strength continued to rise, and he later took control of his home Primordial Cosmos too! His Divine Power Incarnations randomly consumed living beings at will.

"In the Land of Origin, I'm still not strong enough," Jiu Ye God King lamented. Although he was born with a predilection for consuming living beings, he could now only indulge himself within his own territory to 'whet his appetite.'

The children he had raised in the Land of Origin had extraordinary bloodlines and were born powerful, most of them also preferring to devour creatures.

"When will I become truly invincible in the Land of Origin?" Jiu Ye God King wondered expectantly, his icy eyes shining with anticipation. "Only then can I consider the entire Land of Origin my hunting ground." It would be a true delight, utterly carefree.

Suddenly—

An invisible attack descended.

Jiu Ye God King vanished silently into nothingness.

As if a rubber had erased him, he was no more.

His weapons and treasures, however, fell to the side, untouched by the assault.

"Hmm?"

In the Quiet Room, Luo Feng dressed in black appeared on the scene.

"He's too weak," Luo Feng shook his head lightly. "With just a slight penetration of my Great Extinction Style, he's gone."

Great Extinction Style was a combination of six branches of the Great Dao of Life and Death with curse-killing properties that could affect all avatars of the opponent! Of course, Jiu Ye God King did not have an avatar, and at the moment of his death, his Resurrection Carrier was impacted as well.

A Resurrection Carrier could be something as simple as a drop of blood or a feather, which was far less resistant than an avatar.

Under the Great Extinction Style, it was instantly annihilated.

Because it happened so swiftly, Jiu Ye God King didn't even have time to use his Reincarnation Secret Art.

"You are the first Godly King to die under my Great Extinction Style," Luo Feng was quite pleased with the power of this move, which he had created over the span of thirty-plus years referencing the memories from his dreams.

"Annihilate." With just a thought from Luo Feng, a wisp of black smoke instantly crossed vast distances and descended upon the seven children of Jiu Ye God King. Aside from a daughter who loathed consuming living beings and took a different Godly King as her master, the rest of the seven were like Jiu Ye God King himself, relishing the prolonged consumption of countless creatures.

...

With the death of Jiu Ye God King, the Primordial Cosmos he controlled was once again free.

"Buzz." Outside the Primordial Cosmos, a slightly smaller, vast Small Universe also began to collapse.

"The Holy Land is collapsing? Has the Ancestor died?"

"Impossible, how could the Ancestor possibly die?"

In this Small Universe, the descendants of Jiu Ye God King were filled with horror.

However, in the Primordial Cosmos and numerous Small Universes, the mighty beings cheered! The creatures from many Reincarnation Eras had lived in the shadow of Jiu Ye God King, with even the Primordial Cosmos under his control.

Previously, they had been mere food on Jiu Ye God King's plate, chosen at will for consumption, powerless to resist.

Until today, Jiu Ye God King had finally perished, and they had all been liberated at last!

******

Although the death of Jiu Ye God King drew some attention from the powers of the Land of Origin, they didn't care too much.

After all, it was not uncommon for ordinary First Realm Godly Kings to fall. Even if they were weak and destroyed, they usually had time to reincarnate! Reincarnating to escape disaster was a common practice among ordinary Godly Kings.

Jiu Ye God King was weak, but even before Luo Feng had discovered the Great Extinction Style, Jiu Ye God King could still reincarnate to escape.

The power of Chaotic Hole Undying Light was not enough to instantaneously annihilate Jiu Ye God King along with his Resurrection Carrier.

Even with the God King Ultimate Realm Will combined with the Lie Yuan Technique, there was no certainty of completely exterminating Jiu Ye God King. After all, Jiu Ye God King had traversed from the Primordial Universe, unlike those Godly Kings created through external forces in the Shadow Sky Realm.

"Hu hu hu~~~"

After returning his disciple An Fengya to Huyang City, Luo Feng himself continued to travel through the Land of Origin.

Tianji Icefield was a harsh environment, growing more frigid the deeper one went.

"Here..." Yet Luo Feng arrived at a warm and comfortable expanse, where no snow or wind could be seen, and lush vegetation thrived, with many tribes living in the wilderness.

This environment was comfortable, and the number of Cultivators had greatly increased.

"This is the Fire Ancestor Realm."

The Fire Ancestor had long resided in Fire Ancestor City, ruling over an extremely vast territory. This vast area... due to his presence, had become warmer, more suitable for life.

Taking up less than a tenth of the Tianji Icefield, this place housed over half of the field's creatures.

"There are five reclusive Cultivators with the strength of Emperors in the Second Realm of Godly King. Among them, the Wind City Empress and the Fire Ancestor stand aloof."

"He stands aloof because he does not contend."

The Fire Ancestor lived in the secluded Tianji Icefield, not joining any power, and was rarely seen at various sacred sites. His strength was immense.

Both Ancient Countries liked such powerful beings!

"He does not contend, yet he shelters more than half of the creatures in the Tianji Icefield," Luo Feng mused as he journeyed through the Fire Ancestor Realm, observing its prosperity and the reverence countless creatures held for the Fire Ancestor.

Luo Feng also caught a distant glimpse of Fire Ancestor City.

Fire Ancestor City seemed like a warm origin, with intangible rules in operation, naturally affecting the vast territories.

"Though it does not contend, it still protects countless creatures to the best of its ability."

"Admirable."

Luo Feng also felt respect, there were very few powerhouses in the Land of Origin he admired, and the Fire Ancestor was one of them.

Huu~~~

Luo Feng continued to roam.

"Luo He?" Inside Fire Ancestor City, a figure with simple clothes and red hair looked at Luo Feng from a distance and smiled, "The Land of Origin is about to see the rise of another formidable being."

As long as one comes to the Fire Ancestor Realm, the Fire Ancestor can sense it.

The Fire Ancestor then closed his eyes, his spirit and the myriad flames between heaven and earth seemed to merge as one. Some of these flames were used to cook food, some to refine pills, others to refine artifacts, and his spirit was one with these flames...

Luo Feng arrived in the East Extreme Domain, the most remote and desolate place in the Land of Origin.

"The Ancestor of the East Extreme Domain protects this place, and the Wind City Empress also hails from here." Luo Feng traversed this vast territory, where the power of heaven and earth was much thinner, and the treasures of the world were rare.

However, this place was comfortable, and various fruits were common.

These indigenous creatures were generally burly and gigantic, and they seldom used exquisite Weapon Secret Treasures, opting instead for simple weapons like stone and wooden clubs. Their diet was also very ordinary, consisting mainly of common fruits.

They worshiped heaven and earth and many indigenous creatures were attuning to and comprehending the universe.

When they fought, it was also cruel and frenzied.

"The indigenous creatures care not for external objects, but seek what is within."

"Yet among them, many Godly King Level beings have been born, even existences on the level of the Wind City Empress. Who can say that their path is mistaken?" Luo Feng understood their way.

Casting aside all externals, focusing on oneself, focusing on the Great Dao! This was the path of the indigenous beings.

Luo Feng walked to the end of the Land of Origin, looking ahead at the endless Universe Ocean.

The Primal Chaos Current surged tumultuously, dark and without end in sight.

"Whether it's the Primordial Cosmos or the Land of Origin, the world is fascinating." Luo Feng sat cross-legged at the edge of the continent, gazing at the Universe Ocean, "Yet many ancient Godly Kings have used countless creatures as fodder for their cultivation."

"They are all extremely intelligent and have partially unraveled the profound mysteries of the operation of the Great Dao."

"However, they do not care about the joy and sorrow of ordinary creatures, what they care about is their own power! Whether they can reach the Ultimate Realm? Whether they can transcend the Source World?"

And so, those ancient beings meticulously schemed.

"Perhaps, this is a part of the natural order of the cosmos."

Luo Feng understood this too.

The operation of the cosmos is composed of nine complete Great Daos.

The law of the jungle... is just one aspect of it, which also drives countless creatures to strive and compete.

Empathy... is a characteristic of living beings, and Luo Feng also understood that his pity for the weak was an aspect of 'compassion' in his emotions.

The functioning of the cosmos, with the law of the jungle, emotions, order, cleansing of destruction, hope... all interwoven, contributed to the operation of the world.

"All things have their own Dao, and each has its fate."

"However..."

"I have my Dao!"

"Cultivators are those who overcome the cosmos with their own strength!"

"With their Dao, they transcend the Dao of the cosmos and utterly break free from the Source World." Luo Feng's eyes remained calm, "When the time comes, I will be able to decide how everything operates. The so-called order and fate will be determined by me!"

"This is cultivation!"

To follow the way of heaven is the path of the mediocre.

To overcome the cosmos with individual strength is the pursuit of cultivators and the hope of the Supreme Rules that give birth to countless creatures, expecting them... to transcend it!

At this moment, Luo Feng's spirit underwent another transformation.

For more than two centuries as a Godly King, with a powerful soul foundation, cultivation in the Dream Domain, cultivation in Infinite Space, the assistance of treasures like the Five-Colored Treasure Medicine and the Destruction Scale, creating the 'Great Extinction Style' from direct confrontation with dream memories, the Seven Emotions of Heart Refining, journeying across the Land of Origin...

A series of slow transformations, until now, had finally led to a qualitative change through accumulation.

"One's strength can prevail over heaven!"

The will of Luo Feng's spirit formed a clear humanoid figure, with a face similar to Luo Feng's.

This clear figure enveloped Luo Feng, with terrifying will congealing, surveying in all directions with an intimidating presence.

"A Spirit Body?"

The will had become so powerful that it could leave the body and form an illusory entity.

"I feel... this Spirit Body... is even stronger than my physical body." A will surpassing the Godly King's Level, extremely formidable, could suppress or even destroy any Godly King's Will before it.

Breaking through this bottleneck from a Godly King's Will to a will Beyond God King was the most difficult threshold on the path of Luo Feng's spiritual will.

This bottleneck had trapped many Godly Kings.

In the Land of Origin, only a very few could achieve this step. As of now, Luo Feng was one of them.

Chapter 230 Evaluation of Infinite Space

Land of Origin, within the Infinite Space treasure trove.

On an ordinary island in the middle of a lake, Luo Feng sat cross-legged, his terrifying spiritual will slightly spreading around him, causing the space itself to twist slightly.

"Buzz."

A message immediately came from the mark in Luo Feng's palm—

"Trialist: Luo Feng of Land of Origin"

"Rooted in the Great Dao of Life and Great Dao of Destruction, a new Great Dao has been forged. Evaluation of the new path: Superior. Reward Points: 10,000. You have finally taken the first step on this new path, but you must continue to strive."

"Before mastering a complete Great Dao, your spiritual will successfully broke through the limit of a Godly King. Evaluation of spiritual will: Special Grade. Reward Points: 100,000. Your spiritual will is outstanding. Perhaps, you can still advance further?"

"Reminder: It is prohibited to kill any spiritual beings; violators will be expelled from the Infinite Space permanently."

"Total Reward Points: 108,193.03."

Luo Feng looked at this message and couldn't help but show a smile.

Rich at last!

Finally wealthy!

The Infinite Space treasure trove had more allure than many other troves. The only flaw was that reward points were so difficult to come by! This time, one hundred thousand reward points gave Luo Feng a sense of affluence.

"Added a new reminder?" Luo Feng noticed, "Prohibit the killing of any spiritual beings?"

"Indeed, every cultivator who arrives in the Infinite Space gets a common Godly King level physical body! Once the spiritual will breaks the Godly King limit… in the Infinite Space, one becomes virtually invincible, able to kill a large number of spiritual beings with impunity."

Luo Feng understood the rationale behind the rules.

Without such a prohibition, there would hardly be any spiritual beings left alive in the Infinite Space!

Of course, even with the prohibition, his avatar would remain here! The inheritance and resources obtained here were far superior to those in the two Ancient Countries. Perhaps this was also why Emperor Ming lingered here.

"Right, Emperor Ming is staying here. However, the Lord of Ten Thousand Realms and Emperor Qing, who have also surpassed the Godly King limit in terms of their spiritual will, have not stayed." Luo Feng speculated as he looked at his information.

"Before mastering a complete Great Dao, if the spiritual will breaks through the Godly King limit, the reward is 100,000 points. For people like the Lord of Ten Thousand Realms, who only broke through after reaching the Ultimate Realm, will their evaluation drop to Superior? Reward points merely 10,000?"

"I understand why they didn't stay," Luo Feng nodded slightly.

The Lord of Ten Thousand Realms and Emperor Qing received fewer reward points, and if they weren't confident that they could reach a high enough level on a new path outside their current paths, it made sense to temporarily leave the Infinite Space.

"Only Emperor Ming and I, in the entire Land of Origin, have spiritual will evaluated as Special Grade."

"Forging a new Great Dao, reaching a Special Grade evaluation—I wonder what the threshold is." Luo Feng mused.

With his achievements in the Great Dao of Life and Death, he only reached a Superior evaluation.

A Special Grade evaluation had such a high threshold.

This also demonstrated the preciousness of reward points!

Luo Feng began to look at the treasure trove of the Infinite Space. Now that he owned over 100,000 points, the information on treasures he could access greatly increased. Numerous inheritance messages emerged, and Luo Feng's gaze quickly swept to the seventh-ranked information.

…

The seventh-ranked inheritance: "Eight Tribulations Life Form," covering the sixth, seventh, and eighth tribulations. Requires 100,000 points for exchange, with the highest cultivation attainable being 'Half Primordial Life.'

Reminder: The theoretical 'Ninth Tribulation' within this inheritance holds potential for realization, and once completed, one may escape the Braided Cage.

…

"That high?" Luo Feng was startled.

The first five tribulations of "Eight Tribulations Life Form," added together, amounted to just over ten thousand reward points, including the complete Godly King stage of cultivation. However, from beyond the Godly King to 'Half Primordial Life', it demanded such a high price.

"Senior Yuan managed to collect this inheritance and even recognized that completing the Ninth Tribulation might offer a chance to escape

the Braided Cage?" Luo Feng's appreciation for this inheritance greatly increased, "I have just over 100,000 points; I must set it aside for now."

He couldn't possibly exchange all his reward points for an inheritance he couldn't use at the moment; what's most crucial for him now was first achieving the Ultimate Realm.

Beyond God King? That was still far off for him.

Moreover, according to the information he obtained from the Special Grade inheritance, every stage of a Godly King's foundation needed to be immensely solid, so these reward points certainly needed to be used!

…

"World Life Form: Chapter Three (Special Grade Inheritance), requires 60,000 reward points for exchange, Godly King Ultimate Realm section."

"Chaotic Hole Beast Body: Chapter Three (Special Grade Inheritance), requires 60,000 reward points for exchange, Godly King Ultimate Realm section."

Luo Feng saw the information he wanted.

Special Grade inheritance in the Infinite Space, max exchanged up to the Ultimate Realm section of a Godly King!

…

Luo Feng viewed a vast amount of inheritance information; Perfection Level inheritance just for the Second Realm of Godly King required 10,000 reward points. As for the points needed for the Ultimate Realm section, Luo Feng temporarily couldn't see them.

"Let's take a look at the treasures instead." Luo Feng wasn't in a hurry to exchange inheritances and began to first look at various treasures.

…

The highest-ranked treasure, a Primordial Heart, needed 100,081 reward points for exchange. By integrating it into the body, one could achieve a Primordial Body, highly compatible with all Origin Great Dao!

Recommendation: At least those who have enlightened branches in five Origin Great Dao should exchange!

Reminder: Once more than half of the Supreme Rules are controlled within each Great Dao, achieving at least the Second Realm of the Godly King in each, one has the hope to control the Supreme Rules, becoming the Source World Master!

…

The second-ranked treasure, a Miniature Source World, required 100,081 reward points for exchange, suitable for cultivators of the 'Origin Dao of the World.' They could refine it as one of the worlds within their body, with boundless benefits.

…

The third-ranked treasure, a Primordial Life Research Spaceship, required 100,000 reward points for exchange, suitable for cultivators of the 'Great Dao of Life Origin.'

Suggestion: Suitable for studying Primordial Bloodline, conducive to the ultimate awakening of Primordial Bloodline, escaping the Braided Cage.

...

The rows of treasures at the front left Luo Feng dumbfounded.

The sparse information made Luo Feng's heart tighten.

"Within the Supreme Rules, over half of the Great Daos reach at least the Second Realm of Godly King, thus one could aspire to become the Master of the Source World?"

"Ultimate awakening of the Primordial Bloodline can also escape the Braided Cage?"

Even without purchasing many treasures, Luo Feng had learned some secret information.

Luo Feng looked at them one by one.

Time and again he was tempted, but Luo Feng was clear that the opportunity to buy was always there! However, he had only so many Reward Points and must "maximize their use."

Common 'Beyond God King Level' Weapon Secret Treasures were generally priced between 12,500 to 50,000 points! The most expensive was fifty thousand points.

"Beyond God King Level Weapon Secret Treasures generally have the effect of resisting Spiritual Will, either strong or weak." As Luo Feng viewed the simple information about these Secret Treasures, like the most expensive one worth fifty thousand points, per the introduction, it reduced all attacks from beings less than a Half Primordial Life to ten percent of their original strength!

All attacks, including those of Spiritual Will, soul attacks, causality attacks, etc., were all weakened.

"Who crafted these Secret Treasures?" Luo Feng muttered to himself.

Holding a sum of Reward Points, Luo Feng felt somewhat dazzled.

He wanted this, and that too! Because treasures of this level could give Luo Feng tremendous help.

The only problem—too few Reward Points.

"Regardless, studying the Great Dao is the foundation."

"First, exchange for the cheapest 'Lotus Heart Seed'." Luo Feng had previously exchanged for the 'Destruction Scale', and among the treasures compatible with the Great Dao of Life Origin, the cheapest was the Lotus Heart Seed, costing 18,000 Reward Points.

"Exchange."

Luo Feng didn't hesitate.

The Reward Points immediately dropped to 90,193.03 points.

Considering future inheritance exchanges, he naturally needed to think more carefully about the treasures.

His Spiritual Will had just broken through, and Life and Destruction were on the verge of reaching Second Realm of Godly King, Luo Feng planned to stabilize his overall strength and then pick treasures according to his strength at that time.

******

In Huyang City, inside the Quiet Room of the city owner's mansion, within the Star Tower,

Luo Feng held a multicolored seed in his hand, feeling very good.

"Senior Yuan left infinite space in the Land of Origin, the more outstanding a Cultivator, the greater the benefits one gains." Luo Feng felt great, as both the Lotus Heart Seed and the Destruction Scale would perfectly align him with the Life and Destruction Great Daos.

Like Emperor Gui Xu, Mother River Master, Earth God King, etc., all outstanding beings who'd received treasures left by Yuan, even those Beyond God King Level, yet their outcomes were all quite tragic.

Luo Feng's mind stirred, looking towards the Star Tower.

"In the Infinite Space Treasure Vault, Beyond God King Level Weapon Secret Treasures range between ten thousand to fifty thousand points. I wonder how much my Star Tower is worth." With a thought, Luo Feng's Spiritual Will began to penetrate the Star Tower.

This was the first time he carefully observed the Star Tower after his Spiritual Will breakthrough.

Spiritual Will began to penetrate inside the Star Tower.

"Huh? It's different from before!"

Luo Feng was pleasantly surprised to discover that his powerful

Spiritual Will quickly penetrated deeper layers of the Star Tower, revealing infinitely mysterious Secret Patterns in his consciousness.

"These Secret Patterns?" Luo Feng was perplexed, the Secret Patterns in the deeper parts of the Star Tower had significantly advanced in mystery, far exceeding a complete Origin Great Dao! Luo Feng couldn't understand them.

Countless Secret Patterns spiraled into deeper areas; Luo Feng's Spiritual Will followed these spiral directions, continuing deeper.

The deeper he went, the more vast and complex the Secret Patterns became.

"Is this the hidden side of the Star Tower?" Luo Feng's Spiritual Will continuously penetrated, peering into more Secret Patterns.

As he penetrated to a very deep point, suddenly time stopped.

"That's strange."

Luo Feng could feel that all his other avatars were in a suspended state of time, clearly he was frozen in this moment! Yet this avatar's Spiritual Will kept peering.

Though he couldn't understand the Secret Patterns, they became even more beautiful, even radiating with colors.

Mainly in blood-red, but also black, cyan, emerald green, purple, and many other colors.

"Boom!"

Luo Feng didn't know how long he had penetrated when finally, his Spiritual Will 'saw' it.

It was something hidden in the deepest part of the Star Tower.

"Scales?"

Luo Feng curiously looked.

A piece of scale, hidden in the deepest part of the Star Tower, was a blood-red scale, yet the edge of the scale bore fully twelve colors. This scale within the Star Tower felt like the Supreme Rules within the Source World, naturally affecting everything.

"It is not truly real." As the master of the Star Tower, Luo Feng had a feeling.

This scale was the Star Tower! The Star Tower was the scale!

Both were one.

What he had peered into… was just the 'outer appearance' manifested by the mystery of the rules.

(Tomato wrote this chapter on a high-speed train; for the next week, Tomato will attend a closed conference, so the update timing might be somewhat unstable.)

(Thanks to the 'Lord of Los Angeles' and 'Red Essence Child', two new Alliance Hierarchs for their rewards, feeling grateful for Alliance Hierarch Old K's multiple rewards! Thanks, everyone!)

Chapter 231 Season 5 Episode 28 The Truth of Star Tower

Luo Feng's spiritual will observed the crimson scales shimmering with a twelve-colored radiance, which emanated a tremendously terrifying oppressive force. Even Luo Feng's spiritual will felt an immense burden.

"This crimson scale is far more terrifying than the huge eye in my dream memory. If the will of a God King in the Ultimate Realm were to face it directly, they might go insane!" Luo Feng compared in his heart and naturally made a judgment.

Previously, he had been unable to probe deeper into the Star Tower, which was actually a form of protection.

As his spiritual will became strong enough, he naturally managed to probe into it.

Of course, that huge eye was merely an image from a dream memory. If it really existed! The real huge eye... and this blood-colored scale, it would be hard to say which is more terrifying.

"Is the will beyond the God King Level merely a prerequisite to observe it?"

"Those 'Beyond God King Level' secret treasures in the Land of Origin, I've heard none so terrifying," thought Luo Feng. The emperors and monarchs of the two ancient countries are all equipped with secret treasures beyond the God King Level.

Relying on Ultimate Realm life forms and powerful secret treasures, they were able to compete with the Lord of Ten Thousand Realms and the Sector Beast.

According to legend, the ancestors of the two countries could fabricate 'Beyond God King Level' secret treasures.

"These emperors and monarchs, except for Emperor Qing and Emperor Ming, their wills are all merely at the Ultimate Realm of God Kings! Many of them also have to expend effort suppressing their chaotic bloodline will. Their spiritual wills... to unleash the power of those treasures, how could those treasures compare to the Star Tower?"

Luo Feng deduced based on known intelligence and the information gathered from the Infinite Space Treasure Vault, among many aspects —

The Star Tower should far surpass the common 'Beyond God King Level' secret treasures in the Land of Origin.

This made Luo Feng even more cautious.

"Let's see how powerful the Star Tower is." Luo Feng's divine power tried to permeate the profound and vast secret patterns deep within the Star Tower; of these patterns, Luo Feng only understood a little at the shallowest level.

A deeper investigation left him completely baffled.

It was like a kindergarten child on Earth facing a thick book on advanced mathematics, unable to understand even the symbols.

"Of what little I can understand, I'll study thoroughly first." Luo Feng was rather invigorated. The more complex these secret patterns were, the higher the level of the Star Tower.

"I can discern Life, Destruction, Causality, Time, Space, Matter, World, Infinite, and Extreme Point. These are the tracks of the nine essential Great Daos under the Supreme Rules..."

Luo Feng, having once merged his heart with the Supreme Rules and observed these nine Great Daos, albeit not understanding the other paths much, could barely categorize them.

"These secret patterns surely encompass more than nine Great Daos."

"The deeper they go, the more tightly they integrate until they finally form that piece of blood-colored scale."

"Based on the shallow-layer secret patterns, life-related patterns account for 34.1%, destruction-related patterns 9.2%, and material-related patterns around 7%," Luo Feng could fairly accurately judge life-related and destruction-related patterns. However, his judgment on the material patterns, though rough, was far too vague for others...

"Life is the core."

"The other types revolve around it."

After categorizing, Luo Feng felt much clearer, and his divine power began to penetrate.

To drive the secret patterns, one must first comprehend most of them. It's like facing a tangled mess; the first step is understanding how to unravel the 'mess,' methodically, step by step, with no mistakes.

The secret patterns deep inside the Star Tower were such, only much more profound.

The order of activation, the order of integration, how to coordinate...

With a considerable accumulation in the directions of life and destruction, even on how the two could integrate, Luo Feng studied the shallow-layer patterns continuously, driving more and more.

"Cultivators usually focus on one Great Dao. It's quite rare for one to practice two or three Daos."

"This scale contains at least a dozen kinds of Daos, yet manages a perfect integration." Luo Feng was also quite shocked.

In the process of researching and driving the secret patterns of life and destruction, Luo Feng's horizons were greatly broadened!

"The combination of life and destruction has so many methods! The way I tried to integrate them, compared to it... is far too rudimentary." Luo Feng felt like a parched desert, frantically

absorbing water.

The methods of combining 'life and destruction' within the secret patterns of the Star Tower greatly expanded Luo Feng's perspectives, giving him many more directions.

"Boom!"

A fusion mystery of the Great Dao suddenly emerged in Luo Feng's mind.

It was the mystery of a perfect integration of the 'Sky-splitting branch' and 'Dark Sky branch' of the Great Dao of Destruction Origin, thoroughly demonstrating all possibilities of this integration.

"Second Realm of Godly King?" Luo Feng realized.

This was his first insight into the deeper secret patterns of the Star Tower when he naturally reached the Second Realm of Godly King in the Great Dao of Destruction Origin.

This was also due to his profound prior accumulations and because of the 'Scale of Destruction,' he had trained an avatar of the Destruction Demon Race! The accumulation in the Great Dao of Destruction Origin had long surpassed the path of life unknowingly.

These two branches, once completely integrated, allowed Luo Feng to easily create numerous moves based on the integration mysteries of 'Sky-splitting and Dark Sky.'

However, such moves were of little help to Luo Feng's strength.

"Instead, I could create an Escape Secret Technique." With a thought from Luo Feng, an outline for an Escape Secret Technique was already forming, which he estimated he could fully perfect in just a few hundred days.

But Luo Feng was not distracted and continued to study the deep-layer secret patterns of the Star Tower.

This research lasted nearly half a century! Only then did Luo Feng feel the difficulty in making progress.

"I can drive the secret patterns reasonably well now, let's see how powerful they can be." Luo Feng was quite curious.

This time, with even more powerful "Power of the World" completely ignited, the deep-level Secret Patterns of the Star Tower began to be activated.

"Buzzzzz～～～"

The Star Tower was situated within the Quiet Room of the Huyang City Lord's Mansion, and Luo Feng had released his World Domain to cover the surroundings, isolating any external prying. At that moment, the Star Tower shook slightly, its aura causing the World Domain released by Luo Feng to tremble.

Luo Feng felt as if he was in control of a colossal entity, a colossal entity that might rampage uncontrollably with a power that could surpass the "Great Extinction Style!"

"What terrifying power." Luo Feng felt it briefly and did not dare to fully deploy it.

Once deployed, Luo Feng was not confident that he could completely contain the power.

"This power is also somewhat terrifying."

Luo Feng was somewhat astonished.

The Secret Treasures that could be exchanged in the Infinite Space Treasure Vault, those legendary Secret Treasures from the Land of Origin, should not be able to unleash such power, even at his Second Realm of Godly King status.

"After the transformation of the Spiritual Will, I could sweep through most of the Godly Kings on the Land of Origin. But those Emperors and Monarchs... I'm not confident."

Emperors and Monarchs, they all possess Ultimate Realm Life Forms.

Ultimate Realm Life Forms are incredibly complete in themselves and partly resistant to the effects of Spiritual Will.

Moreover, the Emperors and Monarchs of the two Ancient Countries also possess Beyond God King Level Secret Treasures, which more or less hold resistance against the Spiritual Will.

With these two aspects combined, merely relying on Spiritual Will, Luo Feng estimated he could somewhat affect their strength, but killing them seemed unlikely.

"Apart from Spiritual Will, my experiential combat strength compared to Emperors is still weaker."

"Once the Star Tower is exposed."

"Emperor Qing, the Ancestor of East Extreme Domain, the Ancestors of both nations, if they make a move to contend for the Star Tower, can I survive?"

In front of those figures, his Spiritual Will is useless, even their Spiritual Will might be stronger than his!

Physical Body? Techniques?

The gap was enormous!

"There's no need to use the Star Tower yet," Luo Feng thought, "and in time, without external aid, my strength will reach a new level."

It wouldn't be long before he could comprehend the Twenty-four Forms.

Then, with the help of Primordial Bloodline Biological Materials, he could cultivate a higher realm of World Life Form.

"The Ten Directions World Form is the entry to the World Life Forms."

"The Twenty-four Forms truly display the power of a World Life Form," Luo Feng looked forward with anticipation, "Maybe without the Star Tower, I could even match an Emperor or Monarch in strength."

In the Primordial Bloodline Creatures at the Second Realm of Godly

King strength, those with the Twenty-four Forms are considered top tier. This is still these Primordial Bloodline Creatures with low intelligence, in Luo Feng's hands... the World Life Forms of the Twenty-four Forms, naturally, would have even greater power!

Luo Feng's Spiritual Will could also make the World Life Forms even more formidable!

"The techniques of the Land of Origin have a limit, the limit of the God King Ultimate Realm, which is also why Primogenitor Yan Feng could not kill the Mother River Master."

"The stronger I get on my own, the more powerful the Star Tower can be."

"Right, there's also this."

Luo Feng looked at the colorful Lotus Heart Seed in his hand.

The Lotus Heart Seed, rooted within the Inner World, could grow into a Life Lotus! Besides increasing the alignment with the Great Dao of Life Origin, it also makes the Inner World more stable, fills the Physical Body with endless vitality, significantly enhancing the Physical Body's strength.

"Life Lotus."

After exchanging, Luo Feng obtained more detailed information.

The larger the Inner World, the better the Life Lotus can grow! The Life Lotus could also be transferred to the outside world, even used in combat against enemies. Inside the body, it also strengthens the Physical Body.

"Planting."

This Lotus Heart Seed, naturally, Luo Feng planted in the Inner World of the True Body of the World Life Form he could control as his Spiritual Will had transformed, allowing him to drive an even more formidable World Life Form.

Currently, Luo Feng's Small Universe continuously absorbed energy

to the greatest extent, channeling an endless supply of Perfect Divine Power for the growth of the World Life Form.

"Whoosh."

World Life Form, Inner World.

When a seed fell deep into the earth, in just a moment, a streak of green broke through the ground and grew rapidly.

The growth rate of the Life Lotus was astonishing; it used the entire Inner World as its foundation, growing taller and taller, petal by petal unfolding, until finally, after one thousand and nine days, the Life Lotus had grown to the limit that the Inner World could bear.

It was all in shades of green, with huge lotus leaves like worlds themselves.

Thirty-six green lotus leaves occupied one-tenth of the entire Inner World while its roots permeated every part of the Inner World's earth, making the Inner World even more stable.

If Luo Feng were to release his World Domain, its power would greatly increase.

This Life Lotus, connected as if one with the Great Dao of Life Origin, naturally possessed endless vitality!

Chapter 232 Between Emperors

Flame Wind Ancient Country, Chu Capital.

Under the night sky, dressed in black Luo Feng leisurely flew over the city.

"After the Path of Destruction, having reached the Second Realm of Godly King... I am now capable of glimpsing the entirety of the Path of Destruction, making Morosa much less useful to me," Luo Feng said with a slight smile.

To master a branch of the Great Dao, one can glimpse parts of it.

Reaching the Second Realm of Godly King, one can glimpse the complete Dao and even wield some of its power to some extent.

If one is at the Ultimate Realm, then they have mastered the complete Dao themselves.

"Once my Life Path also reaches the Second Realm of Godly King, I can also disregard the assistance from the Primordial Cosmos."

Many precious opportunities from the past are continuously declining in importance!

Like the once Sha Wu Wings, as an Eternal True God Level Mechanical Flow Secret Treasure, it was of help to Luo Feng when he first arrived at the Land of Origin. But as his power increased, it became merely a treasure of some commemorative significance.

The Primordial Cosmos will soon become redundant, Morosa would still be of some help if he reached the Ultimate Realm.

"The Lie Yuan Technique, as the highest form of the Secret Technique of Willpower I have encountered, still gives significant assistance.

The Star Tower... the further I progress, the more important it becomes!" Luo Feng found it interesting.

Back in his home Primordial Cosmos, when he was weaker, he even considered the values of the Boat of Mausoleum, Sha Wu Wings, and Bloodshadow Knife to be greater than that of the Star Tower.

It shows that when one's strength is weak, even with treasures in front of them, it's difficult to see through their true potential.

Even his master, Mountain Sitting Guest, who personally crafted the Star Tower, only regarded it as a God King Grade Secret Treasure! He hadn't seen through the Star Tower's true nature.

"Sigh."

As Luo Feng thought about this, he flew leisurely and soon arrived at the Palace of Emperor Chu.

He came to the Palace of Emperor Chu to receive the subsequent inheritance of "Eight Tribulations Life Form" and "Extermination of Seventy-Two Blades." He only needed to demonstrate the mysteries of the Path of Destruction at the Second Realm of Godly King to prove that he had reached the realm.

A moment later.

Luo Feng had now completed the entire inheritance of the "Eight Tribulations Life Form" and "Extermination of Seventy-Two Blades" for all stages of Godly King.

Of course, Luo Feng now only referred to these two inheritances.

"Compared to the Special Grade Inheritance, they are indeed much simpler, and their secret techniques are more common," thought Luo Feng.

The Special Grade Inheritance represents the theoretically strongest moves at the same stage, and their complexity is staggeringly high.

For instance, the life form with Twenty-four Forms, "contemplating the essence of the Twenty-four Forms" and "researching the matter

suitable for the Twenty-four Forms," Luo Feng has barely begun to comprehend just one aspect of it.

For example, the Unity Secret Method from the Chaotic Hole Beast Body is a combat technique tailored to the Chaotic Hole Beast Body! Luo Feng has only studied the combat technique and hasn't contemplated the "Chaotic Hole Beast Body," but rather uses the technique with a stronger World Life Form.

So with these two Special Grade Inheritances, Luo Feng has only partly grasped their theoretically strongest moves.

...

After learning the inheritance, Luo Feng naturally came to meet his master. He had saved about two hundred million Guest Official Merit Points with these two inheritances, so of course, he came to thank his master.

"Luo Feng," Emperor Chu smiled upon seeing Luo Feng.

He was extremely satisfied with this disciple.

Becoming a Godly King in just over two hundred years, now at the Second Realm of Godly King. This talent amazed Emperor Chu.

"Master, I have already received the subsequent content of the two inheritances," Luo Feng said.

"Mm."

Emperor Chu nodded in satisfaction, "When you first became a Godly King, you were already unmatched in the First Realm of Godly King. I knew your talent was terrifying, but reaching the Second Realm of Godly King in such a short time... there are only a handful in the history of the Land of Origin faster than you."

Luo Feng knew that indeed there were some who became Godly Kings of the Second Realm faster than him.

This was also due to his 'lower realm comprehension of higher-level secret techniques,' honing his comprehension.

"Your cultivation path is going smoothly," said Emperor Chu, "Some with high talent may shine brightly in the beginning but suddenly hit a bottleneck... and become mediocre. Yet, you have smoothly broken through to the Second Realm of Godly King."

"For you, the next target is the Ultimate Realm!" Emperor Chu said expectantly, "The Ultimate Realm is many times more difficult than the Second Realm of Godly King, you still need to diligently focus and cannot afford the slightest carelessness."

"Disciple understands," Luo Feng certainly understood.

"As your strength grows stronger..." Emperor Chu looked at Luo Feng, "Some of the disputes and conflicts of your teacher may implicate you."

"Implicate me?" Luo Feng was startled.

"You are my disciple," Emperor Chu said, "Before, when your strength was weak, those at the pinnacle of the Land of Origin would not even notice you. But now that you have become a Godly King of the Second Realm, you've entered their field of vision."

"Who are they?" Luo Feng inquired.

Emperor Chu looked at Luo Feng, "Who do you think are my enemies in the Land of Origin?"

With the transformation of Luo Feng's spiritual will, fully concealing his will and hiding his presence, his sensitivity was still acute! With the master sitting there, the formless pressure was terrifying. Much stronger than Emperor Gui Xu, and even more than the Mother River Master!

Luo Feng had seen the Mother River Master, Wind City Empress with his own eyes, these two through their realms and treasures, could fight beyond their class with Emperor level powers. But in terms of life form majesty, they were far from the Emperors.

"With your strength, Master, the main opponents you'd have on the Land of Origin would be other Emperors and Monarchs. Very few stray cultivators could stand as your opponents," Luo Feng said.

"My archenemies are mainly the other Emperors of Flame Wind Ancient Country!" A coldness flickered in Emperor Chu's eyes.

Luo Feng was startled.

"Flame Wind Ancient Country and Thunder Ancient Country are natural rivals! When facing external threats, the thirteen Emperors of Flame Wind will naturally band together to confront the enemy. As natural foes, the lines between friend and foe are very clear," Emperor Chu looked at Luo Feng, "but it's different within the borders of Flame Wind Ancient Country."

"Whether it's exploring the multitude of treasure sites, various opportunities, or the distribution of resources, that's where most of the conflicts arise."

"In the depths of the treasured lands, to seize treasures, one would go as far as to murder a fellow clan Emperor..."

"To strike mercilessly against another Emperor's disciples, to annihilate their entire lineage and take their treasures."

Emperor Chu looked at Luo Feng, "On the surface, there are thirteen Emperors of Flame Wind Ancient Country, but the grudges run deeper than with any wandering cultivator in the world."

Luo Feng listened, secretly alarmed.

There had long been rumors in the outside world that relations between the Emperors were extremely poor, and indeed they were true.

"In the future, you must clearly distinguish who is the enemy and who is the friend." Emperor Chu looked at Luo Feng, "Among the thirteen Emperors of Flame Wind, Emperor Qing is the most transcendent, with the strongest ability to rally others."

"Next comes Emperor Yan, someone you must be wary of," Emperor Chu looked at Luo Feng. "Emperor Yan was the first Emperor of Flame Wind Ancient Country. He once led the country and held great power over the distribution of resources... because back then, he was the only Emperor of the country, and he was very friendly toward the

Imperial Clan, helping many juniors. As a result, he wields great power even today."

"He and Di Wu are like siblings, sharing a life-and-death bond."

"He and Di Xi are husband and wife."

"Emperor Yan, Di Xi, and Di Wu, these three have always moved together. Being old enough and ruthless enough, they have also amassed the most treasures," Emperor Chu looked at Luo Feng. "All three have a full set of God King Grade Secret Treasures. The three of them joining forces is incredibly terrifying."

"Among the thirteen Emperors of Flame Wind, Emperor Qing ranks first, while Emperor Yan, Di Xi, and Di Wu rank second when teamed up."

"Emperor Ming has Spiritual Will beyond the God King level! This allows him to draw out even more formidable strength from his Primordial Bloodline Body, and his Secret Technique of Willpower is also terrifying... He should be considered the third power among the thirteen Emperors of Flame Wind."

"All the other Emperors, including Di Fu, each has their own interests, none keeping a perpetual alliance," Emperor Chu looked at Luo Feng.

"Bloodline cultivation paths, apart from Emperor Ming, are generally more violent and rash."

"The Primordial Body Refining Route is relatively more rational, but once they scheme, they are even harder to deal with."

Luo Feng listened and understood.

They say Di Fu is highly talented, possibly the next Emperor Qing! But in terms of strength, among the twelve Emperors other than Emperor Qing, Emperor Ming is the strongest.

"My archenemy is Di Wu, a foe as bitter as death," Emperor Chu looked at Luo Feng. "This has also led to Emperor Yan and Di Xi targeting me."

"The disciple understands," Luo Feng nodded.

"I was ambushed by her and fell into the Polluted Blood River at the very depth of the Land of Origin's First Treasure Land 'Heavenly Pillar Realm.' Normally, a Second Realm Godly King who comes into contact with the polluted blood of the Polluted Blood River would be contaminated and die instantly, with the pollution even affecting their avatars, leading to total death," Emperor Chu looked at Luo Feng. "I sank to the bottom of the Polluted Blood River myself, and as an Ultimate Realm Life Form, more than ninety percent of me was eroded. I was on the brink of death, but luckily I obtained a secret treasure at the bottom of the river, which allowed me to escape alive from the Polluted Blood River."

"If there is a chance, I will definitely kill her," Emperor Chu said calmly.

"She deserves to die," Luo Feng nodded.

"Among the Emperors, is there anyone who has a good relationship with the Master?" Luo Feng asked.

Emperor Chu was slightly taken aback, then said, "No!"

"Although not friends, at least the other Emperors don't have a death grudge against me," Emperor Chu said, "As for the grudges between other Emperors... I will send you a detailed report."

Luo Feng received the report and glanced over it.

Upon analysis, Luo Feng discovered that Emperor Chu wasn't so bad.

Like Di Kong! His relationship with all the Emperors was very poor.

Emperor Ming! He had made moves against all other Emperors except Emperor Qing, forcibly seizing treasures through overpowering strength. Because he was so powerful, none of the other Emperors dared to forge a death grudge against him. Similarly... Emperor Ming also had no real friends.

"My Master Emperor Chu is quite alright among the thirteen Emperors," Luo Feng thought to himself, "I had not expected Emperor

Ming, who was so friendly to me, to be such a domineering and oppressive character."

"If you ever get involved with other Emperors, let me know immediately," Emperor Chu said. "Don't make hasty decisions; it's easy to fall into a trap accidentally."

"Don't worry, Master," Luo Feng replied.

******

Everything happened just as Master Emperor Chu had predicted, and within just half a record's time, Luo Feng's Guest Official Token received a task.

Within Huyang City, Luo Feng was surprised as he looked at this particular task. He had received many tasks over the long years, but this task was somewhat special.

The task read—

"In the Royal Family Forbidden Land, there are 192 worlds each cultivating 192 Primordial Bloodline Beast Eggs. They require the strength of a Second Realm Godly King and need to be meticulously cared for by 192 avatars. All that is required is careful cultivation for three thousand records. Very few Guest Officials can complete this task, and after discussion by several Emperors, Guest Official Luo He was assigned this task."

Luo Feng was very surprised.

"Assigned to me?"

Unless it's a punishment like being the Guardian of Xiangjie City, normal Guest Official tasks are entirely voluntary, and the Guest Officials have the right to refuse.

Chapter 233, The Emperors' Vote

"The merit points for this task are fifty million, which is rather small. Given the high threshold and arduous nature of the task, such measly merit points for three thousand eras of hardship? In the Dream Domain, one could easily earn that much by picking up some treasures."

"This task has been discussed and designated for me by several Emperors?" Luo Feng slightly furrowed his brows.

Before the completion of the Twenty-four Forms World Life Form, he was not willing to be in too much conflict with the Emperors.

"Master, I have received a task assignment." Luo Feng immediately transmitted the message and sent the complete task content to his master.

"Reject it," Emperor Chu immediately ordered, "Cultivating Primordial Bloodline Beast Eggs is very troublesome, as you need to multi-task with one hundred and ninety-two focuses simultaneously and tend to them with care, and furthermore, you are always under puppet surveillance, you cannot slacken in the slightest. Three thousand eras of time... will greatly impact your cultivation."

"This is a tough and exhausting job. Those whose cultivation has stalled at the Second Realm of Godly King and are adept at creating avatars will take on this task to please a certain Emperor. You don't need to accept it," Emperor Chu instructed.

"Yes, Master." Luo Feng did not intend to accept it either.

He already had the material of the Primordial Bloodline for the Twenty-four Forms, and if he wanted stronger Primordial Bloodline

materials, they would have to be from Ultimate Realm Power Primordial Bloodline creatures, which are forbidden to be shared by both Ancient Country Imperial Clans.

According to Luo Feng's understanding, even the Avatars of the Ancestors would be watching, and even if one took on the role of a guard, private maneuvers were not possible.

"Based on my understanding of them, once you reject, they will still have other moves," Emperor Chu commanded. "Don't worry about how they threaten or tempt you, just refuse everything. Leave the rest to me."

"Disciple understands," Luo Feng thought to himself, rejected yet there are other moves?

...

Huyang City, City Owner's Mansion.

Luo Feng was drinking fruit wine on the upper floors of the high-rise pavilion.

"The path of life has finally reached the Second Realm of Godly King as well." Luo Feng felt quite relaxed; since the Life Lotus rooted in his inner world, Luo Feng and the Great Dao of Life were in perfect harmony, and studying the Secret Patterns of life in the Star Tower also helped him a lot.

The life-related Secret Patterns in the Star Tower represent the largest category.

That very night, the three branches of 'Life Spirituality, Body of Life, Origin of Life' merged perfectly, and he made further progress in realm, which allowed even smoother comprehension of the Twenty-four Forms.

"Just by displaying a bit of Second Realm of Godly King strength, the Emperors have begun to pay attention to me," Luo Feng said to himself while holding his wine cup. Earlier, he had made his power at the First Realm of Godly King public, capable of entangling with the Emperor of Tian Kun only through multiple avatars, and the

Emperors ignored him.

Now, one after another, they took notice and even had designs on him.

Luo Feng could feel subtle threads of causality beginning to entangle him. Though these threads of causality were faint, they were also cryptic and profound, and even Luo Feng found it difficult to detect the connections at the other end.

Because he couldn't detect who was connected, Luo Feng could extrapolate the outcome.

"Given my realm and the perceptiveness of my Spiritual Will, if I cannot detect these obscure causal threads, then they must be the doings of Emperors and Monarchs. As Ultimate Realm Life Forms that have achieved Perfection, they can isolate themselves from all causality inquiries, so naturally, I cannot detect them."

Suddenly—

The temperature around him rose, and invisible white flames began to burgeon.

"Hm?" Luo Feng's complexion slightly changed.

The rules of heaven and earth around him changed, transformed into the rules of fire. Within the spreading white flames, the visage of a woman made of fire appeared, looking at Luo Feng with indifference.

Seeing her, Luo Feng stood up and politely paid his respects: "Guest Official Luo He pays his respects to the Emperor."

The woman wielding such terrifying flames could only be 'Di Wu,' one of the thirteen Emperors of the Flame Wind Ancient Country, and she had a life-and-death enmity with his master, Emperor Chu.

"Hurry up and accept the task of cultivating the Primordial Bloodline Beast Eggs," the woman's visage ordered coldly.

"Emperor, I cannot accept," Luo Feng shook his head.

The woman's gaze suddenly turned much colder, and the invisible white flames instantly eroded Luo Feng's body. Luo Feng's World Life Form felt extreme pain as his body was almost instantly burned to a state of near annihilation before starting to recover again.

This terrifying flame was intentionally restraining its power, scorching Luo Feng's physique to the brink of obliteration but not completely destroying it.

"Just a newly initiated World Life Form is still too weak in front of an Emperor," Luo Feng felt a sizable gap at that moment.

"Just because you are a disciple of Emperor Chu, you dare to refuse me?" the woman's visage looked at Luo Feng with coldness. "You must accept this task. If you dare to refuse... all the disciples of your Blade River Sect will turn to ash."

Luo Feng's expression changed, "Emperor!"

An Emperor using the lives of all disciples of the Blade River Sect to threaten him without any care for appearances?

"Speak, do you accept or refuse?" the woman's visage asked coldly.

"Di Wu, are you threatening my disciple?" A terrifyingly dark presence arrived, wantonly eroding the surrounding white flames, and formed a towering figure that stared at the woman's visage, "If you dare to annihilate all the disciples of the Blade River Sect, I'll just kill another of your children. Guess who I'll choose this time?"

The woman's visage watched the other with eyes full of murderous intent.

She had five children.

Over the years, two had been utterly killed by Emperor Chu, without any chance for reincarnation! Now only three remained!

If all her children were gone, she would be free of attachments and would fight to the death with Emperor Chu. But because of the remaining three, she had to be exceedingly cautious.

"You threaten me for a disciple?" the woman's visage said angrily.

"Yes, I am threatening you," Emperor Chu looked at the woman, with his Ultimate Realm Power of Destruction and the Great Dao, combined with powerful Secret Treasures, he could curse kill anytime he wished, making her children's survival impossible.

Even while hiding within the Diwu Palace, Emperor Chu's direct curse killing couldn't save Di Wu's children.

"Good, very good." The woman's face sneered, and then the white flames dissipated completely, and she vanished.

"Master." Luo Feng looked to Emperor Chu.

"Have you seen their shamelessness?" Emperor Chu's terrifying aura condensed as he spoke with a smile.

"I hadn't expected an Emperor to use the life of an entire sect to threaten me into doing things." Indeed, Luo Feng had his eyes opened. For a God King Grade Secret Treasure, one might understand the unscrupulous methods, but still...

Just one task, and he threatened with the life of an entire sect?

Luo Feng felt this so-called Emperor's way of doing things wasn't even on par with that of a common Godly King, not to mention a common Primal Chaos Realm in terms of dignity.

Emperor Chu said, "When power is unrestrained and can do as it pleases, it takes a strong Mental State to control oneself".

Luo Feng nodded.

Unrivaled power, in the hands of a madman, was indeed terrifying.

"Practicing the Primordial Bloodline, having the bloodline will contaminate oneself; they act even more recklessly." Emperor Chu shook his head, "I also have to keep her three children to restrain her. In the future, should you get involved with Emperors or Monarchs, immediately contact me, and I will help you resolve it."

"Thank you, Master." Luo Feng was truly grateful.

"Of course, the best solution is for you to grow stronger yourself." Emperor Chu said with a faint smile and then left.

Luo Feng nodded.

He was going all out in his comprehension of the Twenty-four Forms.

...

A vast space.

Twelve thoughts converged here, manifesting twelve vague and towering figures. They were the twelve Emperors of the Flame Wind Ancient Country, excluding Emperor Qing!

Each of them exuded a terrifying presence, all like complete Great Daos descending. Whether it be devastating and destructive, or an endless abyss, or full of boundless vitality...

"This assembly is proposed by Di Yan," Di Fu spoke, "Di Yan suggests... stripping Luo He of his Guest Official status! According to the Imperial Clan's traditions, to strip a Guest Official status requires at least half of the Emperors in attendance to agree."

The Guest Official system was established by the Ancestor.

Stripping the Guest Official status wasn't something that one or two Emperors could decide.

"Strip the Guest Official status?" Emperor Chu laughed, "My disciple Luo He, with his extraordinary talent, was unbeatable in the First Realm of Godly King right after he became a Godly King. Now that he has reached the Second Realm of Godly King... The Blade Light he cast before, in the Second Realm of Godly King, is considered top-tier."

"With such talent, Di Yan, you actually want to strip him of his Guest Official status?" Emperor Chu shook his head.

"Do our Imperial Clan need to care about a mere cultivator's talent?

Even the Lord of Ten Thousand Realms wouldn't dare defy our Flame Wind Ancient Country!" Di Yan sneered coldly, "The dignity of the Flame Wind Ancient Country is what's most important."

"How exactly did this little fellow offend the dignity of our Flame Wind Ancient Country?" Emperor Chu continued.

Di Yan spoke indifferently, "Since Luo He became a Godly King, he has rejected all tasks given to him, never accepting one! Instead, by using his status as an Emperor's Disciple, he received a heritage worth over 200 million Merit Points. A Guest Official who only knows how to take without giving... I think the Imperial Clan does not need such a Guest Official!"

"The heritage he received was bestowed by me." Emperor Chu said, "It's customary for Emperors to pass down heritage to their disciples."

"While it is customary, he still refuses every single task." Di Yan spoke.

"I personally asked him to accept a task... but even with my status as an Emperor, he didn't consider it and still refused." Fire Lady Di Wu spoke lightly with a laugh, "If he doesn't care for an Emperor's orders, what's the use of such a Guest Official?"

"He directly refused you when you personally asked?" a dusky figure spoke up, "Since the Emperor personally saw him and ordered him to do something, he should obediently accept. With such disregard for hierarchy, I also agree to strip his Guest Official status."

"What? Just because you're high-ranking, he has to obediently listen to you? He doesn't have the right to refuse?" Emperor Ming chuckled lightly, "Even the Ancestor had set the rule that Guest Officials have the right to refuse. But it seems in front of you, Di Yuan, he somehow loses that right."

"In their eyes, even as an Emperor's Disciple, he should be completely under their control, at their mercy to kill at will." Emperor Xuan said coldly from the side.

Di Fu looked at the scene in front of him with a headache.

"Gentlemen, let's make a decision on Di Yan's proposal," Di Fu urged.

The results quickly came in.

Those who agreed to strip Luo He of his Guest Official status were Di Yan, Di Xi, Di Wu, Di Yuan, and Di Wu—a total of five.

Indeed, Di Wu's attempt to see Luo Feng and his subsequent refusal caused dissatisfaction among some Emperors. Some Emperors were very concerned about hierarchy! A mere cultivator not giving face to an Emperor deserved punishment! This was why Di Yan dared to propose stripping Luo He of his Guest Official status.

But Di Yan and the other two had thoroughly offended several Emperors over the long years.

For example, Emperor Xuan, who also greatly valued hierarchy, did not hesitate to stand on the opposite side of Emperor Yan. His disciple, 'Emperor Gui Xu,' being pushed to such an extent, Emperor Xuan saw it as a great shame! Di Yan and his two associates simply didn't care about Emperor Xuan's dignity!

Emperor Kong would always oppose Di Yan in every vote.

Thus, in the end, those who disagreed were Emperor Chu, Emperor Ming, Emperor Xuan, Emperor Kong, Di Jiufeng, and Di You—six in total.

Di Fu abstained from voting.

"Di Fu, you abstain?" Di Yan was quite annoyed. Before initiating the proposal, he had assessed that the likelihood of success was high. He never expected that Di Fu, on whom he had bestowed numerous favors, would abstain.

Chapter 234 Heavenly Pillar Realm

Stripping a Guest Elder of their title requires at least half of the attending Emperors to agree. Therefore, on this proposal, abstaining... is essentially equivalent to disagreeing.

Emperor Yan stared at Emperor Fu.

He had always valued Emperor Fu; they were among the earliest Emperors of the Flame Wind Ancient Country, with Emperor Yan being the first and Emperor Fu the second. The earliest Emperors had always been quite united.

But then Emperor Fu had forsaken the Primordial Bloodline to choose reincarnation, and afterward, he became even more formidable.

Using formations for body refinement, without much reliance on external forces, he had cultivated to become an Ultimate Realm Life Form, which shocked the entire Land of Origin.

Emperor Yan could also deduce that Emperor Fu was likely the next Emperor Qing! Even if he couldn't break through this Reincarnation Era, he would be able to do so after leaving the Source World and given more extended time. Emperor Fu's potential was much greater than that of their trio of Emperors, which is why he had always been on good terms with Emperor Fu.

Who would have thought that, over such a trivial matter today, Emperor Fu would actually stand on the opposite side?

"Emperor Yan," Emperor Fu said, "Luo He has been a Godly King for just over two centuries. To strip him of his Guest Official status after two centuries of not accepting tasks, if word got out, it would reflect poorly on us. After all... the right to refuse tasks was determined by

the Ancestor."

Emperor Yan looked at Emperor Fu.

Emperor Fu spoke gently, but his words were impossible to persuade otherwise.

"Forget it," Emperor Yan disappeared immediately, retreating and leaving. With his departure, Emperor Xi and Emperor Xuan also left.

"To think they still behave as if the Flame Wind Ancient Country was still the time when he was Emperor?" Emperor Kong scoffed, "Still wanting to do as they please!"

Soon, one by one, the Emperors began to leave as well.

"Emperor Chu," Emperor Fu called out, and quickly only Emperor Fu and Emperor Chu were left in the vast expanse.

"Emperor Fu, thank you for this time," Emperor Chu said with a smile, Emperor Fu's vote was the last. If he had chosen to agree... then Guest Official Luo He would have been stripped of his title. So his final vote was very important.

Emperor Fu smiled and said, "In this matter, Luo He is truly not at fault! I've also seen the task that Emperor Yan and the others had assigned to Luo He, to split into 192 avatars to watch over the Primordial Bloodline Beast Eggs for three millennia! For an average Second Realm Godly King, three millennia is indeed not long. But for Luo He, who reached the Second Realm as a Godly King in just over two centuries, now is the time when his cultivation is advancing by leaps and bounds, to have him delay three millennia of cultivation... anyone would refuse!"

"Yes, Luo He is at a critical juncture in his cultivation, if he were stuck at a bottleneck for countless millennia, unable to advance an inch. Assigning him this task then would be of no consequence," Emperor Chu nodded, "But at this moment, it really isn't suitable for him to take it on."

"However, since becoming a Godly King, Luo He indeed hasn't taken on another task." Emperor Fu said, "I think if we get him to quickly

take on a task, Emperor Yan and the others will have no grounds to complain."

"Accepting a task is also fine."

Emperor Chu nodded, "But it must not affect Luo He's cultivation."

"I have a task here, see what you think," Emperor Fu immediately sent a task to Emperor Chu.

"To garrison the entrance to the 'Heavenly Pillar Realm,' the First Treasure Land, for a thousand millennia?" Emperor Chu looked up, his eyes lighting up, "Good, good, very good."

Emperor Fu laughed, "Although garrisoning the entrance requires the creation of thirty-six avatars, it does not require the expenditure of Heart Force, only needing to engage in battle if enemies invade... and the chances of battle over that thousand millennia are slim."

"I have no objections," Emperor Chu smiled and nodded, "Quite good."

Such a task was the kind that Ke Qing God Kings would scramble for.

Firstly, it is minimal strain on the Heart Force, not tiring in the slightest.

Secondly, it also provides an opportunity to explore some areas of the 'Heavenly Pillar Realm,' the First Treasure Land.

"Then I will send this task to Luo He," Emperor Fu nodded.

Very soon, Emperor Chu bid farewell to Emperor Fu with a laugh, evidently in a very good mood.

Only Emperor Fu was left in the vast and boundless space.

"Luo He..."

Standing there, Emperor Fu watched as an immense Formation rose within the vast and boundless space, the Formation's operation naturally revealing many secrets of the Land of Origin, including the

nodes related to Luo He, which were rather conspicuous.

"From the Primordial Cosmos through the cycle of reincarnation to the Land of Origin, he arrived as an eternal true god."

"Within a century, he became a Godly King."

"And in another two centuries, he reached the Second Realm of a Godly King."

"Furthermore, he is favored by Supreme Rules."

"Such potential, once he leaves the Land of Origin, should become my fellow traveler," thought Emperor Fu.

In terms of deductions on the secrets of the Land of Origin, Emperor Fu was ranked first.

Although the Wind City Empress, the Earth God King, the Mother River Master, the mysterious presence in the Shadow Sky Realm, and the Fire Ancestor could all fight above their levels, comparable to Emperors, they were unable to cultivate an Ultimate Realm Life Form.

Emperor Fu, without consuming too many precious treasures and solely through Formation Body Refinement, had reached the status of an Ultimate Realm Life Form.

In terms of accumulation, in this era, he was the one most likely to reach the Ultimate Realm after Emperor Qing and the Lord of Ten Thousand Realms.

"According to the Ancestor, after leaving the Land of Origin, one faces countless dangers and surviving is difficult," Emperor Fu considered, "Emperor Yan's temperament and their strength potential are not suitable to be fellow travelers."

"Luo He might become my fellow traveler, and I may even need his help."

Within the Land of Origin, few could garner Emperor Fu's regard, and Luo He was one of them.

******

Huyang City.

"This task?" Luo Feng looked over the task to garrison the entrance to the Heavenly Pillar Realm, which required a millennium and offered only ten million Merit Points. Still, he was shocked, "How did such an excellent task fall into my hands?"

These types of tasks were coveted by Guest Elder Godly Kings.

"Huyang City, the premier treasure land of the Land of Origin. The two Ancient Countries sealed off the entrances here at all costs. Other forces simply couldn't sneak in; the only way to get in was to force their way through." Luo Feng was aware of this, "The Guardian of the Shadow Sky Realm is bound to have Emperors and Monarchs guarding it."

The Flame Wind Ancient Country would arrange for an Emperor while the Thunder Ancient Country would assign a Monarch. These were the core strength of the defense.

"Luo Feng." Mentor Emperor Chu sent a message, "Did you receive the task?"

"Yes, Master. How did such a good task fall into my hands?" Luo Feng inquired.

"It was given to you by Di Fu," Emperor Chu said, "This time Di Yan and the others planned to strip you of your Guest Elder status…At that time, Di Yan, Di Xi, Di Wu, Di Yuan, and Di Kong, five Emperors agreed. If there were a sixth Emperor to agree, you would have been stripped of your Guest Elder status."

Luo Feng understood, so, in addition to Di Yan's core group, there were Di Yuan and Di Wu?

"Di Fu also arranged this task for you, I will send you a 'Shadow Sky Realm' map intelligence. Seize the opportunity well," Emperor Chu promptly sent a map intelligence.

"Good, I will head to the Heavenly Pillar Realm now." After

confirming with his master, Luo Feng naturally chose to accept the task.

The moment a task was taken, was the moment of departure.

Whoosh!

A black-clad avatar of Luo Feng quietly left Huyang City, heading to the entrance of the Heavenly Pillar Realm.

There were a total of thirty-six entrances to the Heavenly Pillar Realm. Luo Feng arrived at the nearest one, which was located in a wide expanse of wilderness in midair. With Luo Feng's realm, he could sense a vast expanse of twisting void here.

"Swoosh~~~~" Luo Feng voluntarily flew into it. As he entered, endless golden light enveloped a vast area.

Stay connected via empire

Luo Feng immediately saw a white skeletal figure sitting cross-legged in the distance.

This skeletal figure, white and smooth as if made of ivory, had a pair of normal eyes in its sockets calmly looking towards Luo Feng.

"Luo He Godly King," the skeletal figure stood up, smiling, "My duty period has ended, and I wondered who would come to take over. Turns out it's the newly promoted Second Realm Luo He Godly King. Seems that the ruling Emperor holds Luo He Godly King in high regard."

Nurturing 192 Primordial Bloodline Beast Eggs has always been the responsibility of Emperor Xuan, so she was the one to issue the task.

As for the Heavenly Pillar Realm garrison task, as the First Treasure Land, only the ruling Emperor had the authority to issue this task.

"It's also luck," Luo Feng said with a smile.

"Follow me first to pay homage to 'Emperor Xuan'," said the skeletal figure, "Guarding the Heavenly Pillar Realm is mainly Emperor

Xuan's responsibility. We are merely assisting the Emperor."

Luo Feng nodded, "Thank you, God King Bai Feng."

God King Bai Feng, one of the Guest Elder Godly Kings of the Flame Wind Ancient Country, was a Second Realm of the Great Dao of Life Godly King, and had a life-and-death friendship with Emperor Xuan.

Whoosh!

God King Bai Feng manifested an avatar to accompany Luo Feng further inside.

The entrance's Formation was a combination of those from the Flame Wind Ancient Country and the Thunder Ancient Country. Besides God King Bai Feng, there was also a Thunder Ancient Country's Guest Elder Godly King guarding there, a figure with water-blue long hair.

"The Heavenly Pillar," Luo Feng remarked, looking at a towering column.

The column's height was immeasurable.

"There are thirty-six Heavenly Pillars, each at one of the thirty-six entrances," God King Bai Feng explained, "They uphold the entire Heavenly Pillar Realm, and each column has its own chances for fortune. When you guard the realm, you can explore them."

Luo Feng nodded; he could send thirty-six avatars to guard the entrances and could divide a few more to explore the Heavenly Pillar Realm.

"We can only explore the outer perimeter of the Heavenly Pillar Realm," God King Bai Feng said, "The inner areas of the realm are exclusive to the two Imperial Clans."

"I understand," Luo Feng acknowledged. He knew this after receiving information from his master Emperor Chu.

The Heavenly Pillar Realm was not like any ordinary treasure land.

This was where the Ancestor of the Universe left his most crucial

treasure sites, and the two Ancient Countries spared no expense to monopolize this place.

"The Heavenly Pillar." Luo Feng looked from afar, feeling the overwhelming pressure coming from the pillars, which was greater than the pressure from a complete Great Dao.

...

Moving deeper from the entrance, passing through two large entrance Formations, they flew for a long while before arriving at the inner area of the Heavenly Pillar Realm.

There was a Formation barrier around the edge of the inner area.

"Emperor," God King Bai Feng respectfully saluted, and a figure emerged from the Formation, a figure with a terrifying might, clad in a black robe with golden Secret Patterns, his gaze cold.

"Luo He pays his respects to the Emperor," Luo Feng said, knowing the other party was Emperor Xuan and also the past life teacher of Emperor Gui Xu.

From his conversations with Emperor Gui Xu, Luo He knew the emperor was very grateful to his teacher.

"Imperial rules," Emperor Xuan addressed Luo Feng, "You are responsible for guarding the entrance and may explore the peripheral regions, but you are forbidden to enter the inner area of the Heavenly Pillar Realm."

"Yes," Luo Feng replied.

"While guarding the entrance, in case of invaders, cooperate with the Formation to resist at full strength! I will arrive as quickly as possible," Emperor Xuan instructed coldly.

"Yes," Luo Feng responded again.

"Go," Emperor Xuan said, then turned and went back into the inner Formation area.

Luo Feng felt a silent appreciation.

Among the Emperors who practiced Primordial Bloodline Cultivation, Emperor Xuan was considered to have a good temper, merely being extremely proud and caring about honor and hierarchy. But precisely because of his pride, he upheld his dignity in his actions.

Chapter 235 Garrison Years

"God King Bai Feng, let's proceed with the handover," Luo Feng looked towards God King Bai Feng by his side.

God King Bai Feng nodded slightly, and his body transformed, splitting into thirty-six avatars, "Let's go, I'll lead the way." Luo Feng also divided himself into thirty-six avatars and went to different entrances of the Heavenly Pillar Realm to carry out the handover.

Clone techniques of the Time Primordial Dao, Origin Dao of Space, Great Dao of Life Origin, and Origin Dao of the Infinite all exist, but each has its differences.

The clone technique of the time lineage, including the original self, can only create three avatars, representing past, present, and future! Yet each avatar has a complete physical body and soul, with peak strength as if three complete selves were confronting the enemy. Moreover, these three selves could exist on different timelines.

The path of space is similar, with a limited number of powerful avatars that can be cultivated, each maintaining a complete physical body and soul.

The paths of life and infinity are different.

For the path of life, the number of avatars is unlimited, but they are all split from oneself. For instance, Luo Feng has only one powerful soul, and as he divides part of it, the divided soul is considerably weaker.

He can only control a finite number of world life forms! The more he splits, the weaker he becomes.

The path of infinity is the same; while it claims infinity, it is still unique.

This has already made other paths envious.

Destruction, Extreme Point, Causality, Matter, World—typically can't cultivate clone techniques.

Like Yuan's illusionary avatar, it is actually a technique from the Void Realm Dao, a Great Dao not present in the Land of Origin. The path Yuan is now on, the 'Unity of Illusion and Reality,' is also a fusion path that aims to unite the 'Void Realm Dao and World Dao.' However, this path is even more difficult than Luo Feng's. Continue your saga on empire

The bases of life and destruction that Luo Feng regards as fundamental are based on complete Great Daos.

Yuan's illusory path has nothing to reference. To seek unity? Naturally, it is even more elusive and beyond reach!

"Brother Luo He, I entrust you with the garrison duty from now on," God King Bai Feng said with a smile after completing the handover with Luo Feng, "Being a garrison commander here might put you in some tough spots. You'll have to bear with it."

"I understand," Luo Feng nodded with a smile.

The Heavenly Pillar Realm, viewed as the First Treasure Land, allows at most a Guest Elder to be a Garrison Commander, while the true exploration deep into the Heavenly Pillar Realm is done by the high-ranking members of the two great Imperial Clans! Numerous members of the two Imperial Clans practice the Primordial Bloodline, and many have bad tempers.

God King Bai Feng nodded and then flew away.

Luo Feng watched him leave.

"God King Bai Feng and Emperor Xuan are close friends in life and death, and he has completely joined the Flame Wind Ancient Country. But it seems he has also endured quite a bit of mistreatment," Luo Feng thought to himself.

The Guest Elder Godly Kings in the Flame Wind Ancient Country

Royal Family who are made use of—all extraordinary! After all, the Flame Wind Ancient Country Royal Family doesn't care for the weak.

In terms of strength, God King Bai Feng is comparable to King Tian Du and Emperor Gui Xu, his reputation grand and far-reaching.

Of course, from an outsider's perspective...

Luo Feng, at the First Realm of Godly King, was already able to match the Master of the Shi Kingdom. Now at the Second Realm of Godly King and with the number of avatars he has, he shouldn't be far behind God King Bai Feng and Emperor Gui Xu. Most importantly, Luo Feng's rise has been rapid with immense potential! Emperors and Monarchs must pay him attention.

Emperor Yan, Di Xi, and Di Wu targeted Luo Feng not only because of his feud with Emperor Chu but also because they felt the threat Luo Feng represented.

Thus, they wanted to strip him of his Guest Elder status, preventing Luo Feng from obtaining certain opportunities.

However...

Di Fu appointed Luo Feng to garrison the Heavenly Pillar Realm.

The ruling Emperor holds the greatest power. His bias in favor of Luo Feng meant that Emperor Yan and others were helpless.

"Hum."

Luo Feng maneuvered the Array Plate he received from the handover, with the terrifying might of the formation enveloping the surroundings.

"The thirty-six auxiliary formations are integrated with the central core formation, which is primarily controlled by Emperor Xuan," Luo Feng felt, "I can only guide and manipulate the might of the formation."

"With the power of the formation, I can suppress the likes of Emperor Gui Xu and Wuxin God King," Luo Feng confirmed this.

The formation of the Flame Wind Ancient Country in the First Treasure Land is also the most powerful. Only if the team from the Reincarnation Tower proceeds with leaders like the Wind City Empress or the Earth God King can they withstand the formation and move forward.

But by doing so, the Garrison Commanders and Monarchs of the two ancient countries will also join the battle immediately. The combined might of the two, along with the formation, can only be imagined.

"Although I am a Garrison Commander, I dare not let cultivators enter on my own. Since Emperor Xuan, as the controller of the formation, can sense everything happening here," the use of Luo Feng was only to make it exponentially harder for outsiders to break the formation.

Without a Garrison Commander, a fixed formation plate would be much easier to crack.

With a Garrison Commander carrying it, one must first kill the Garrison Commander! Protected by the formidable formation, killing Luo Feng's avatar, who has reached the Second Realm of Godly King, would be notably difficult.

"According to the information from my master, the greatest opportunity on the outskirts of the Heavenly Pillar Realm are those thirty-six pillars," With a thought, Luo Feng divided out an avatar and flew towards a towering Heavenly Pillar in the distance.

The pillar extended high, with no end in sight.

Luo Feng landed in front of this pillar and immediately noticed a figure in purple armor not far away.

"Yano Demon King." Luo Feng recognized the figure at a glance.

Yano Demon King, also a top three powerhouse among the Guest Elder Godly Kings of the Thunder Ancient Country, follows the Path of Destruction and cultivates the Primordial Bloodline; his strength is extremely formidable, and he is highly valued by the Thunder Ancient Country.

Yano God King looked up at Luo Feng.

"Luo He God King," Yano God King said with a faint smile. Despite his pride, he dared not underestimate this Luo He God King. The momentum of Luo He God King was indeed terrifying, and many of the ancient and powerful beings in the Land of Origin believed... that Luo He God King was likely to reach the level comparable to Emperors.

"Yano Demon King," Luo Feng nodded in return, then carefully examined the towering Heavenly Pillar.

Countless secret patterns spread over this Heavenly Pillar.

Luo Feng watched intently.

"Boom!"

As Luo Feng observed, the spreading secret patterns transformed into a giant axe that seemed boundless and endless! The axe was so vast that Luo Feng could only see a part of it, yet he felt as though it could split all rules and cleave through everything…

Luo Feng was utterly astounded.

He watched spellbound for several days before finally stopping.

"This axe's vision indeed far surpasses that of a complete Origin Great Dao," Luo Feng thought. "It has a hint of the flavor of the Star Tower's blood-colored scales. However, the patterns on the Star Tower's scales are more vast and detailed, requiring the will beyond the Godly King level just to observe them. As for this Heavenly Pillar... it feels like the will at the Ultimate Realm of the God King is sufficient to observe it, and the patterns seem more rudimentary and casual."

Luo Feng could tell at a glance that about three thousand six hundred intertwining secret patterns had led him to the vision of the Giant Axe Diagram.

The patterns were far simpler than those of the blood-colored scales of the Star Tower.

But the vision was extremely profound, and the pressure to observe was relatively small. A normal cultivator of the Second Realm of Godly King level from the Land of Origin could see this hidden scene of the Heavenly Pillar.

"This axe, it feels like the Path of Destruction. Only much more profound."

"In the future, I can contemplate it further."

Luo Feng wasn't in a hurry to immerse himself.

His main focus now was on the "Twenty-Four Forms," and the most urgent matter was to achieve a breakthrough for the World Life Form as quickly as possible.

Such a scene, far surpassing a complete Origin Great Dao and with such simple patterns, would undoubtedly be much harder to comprehend than to understand a complete Origin Great Dao! This was also the reason why the two Imperial Clans were willing to let Guest Elders observe it.

It was tough to make significant discoveries; to gain even a sliver of understanding and to create a formidable Secret Technique would already be quite an achievement.

...

Luo Feng successively watched thirty-six Heavenly Pillars, each wrapped in secret patterns, and his spiritual will was clear enough to discern the final vision that the secret patterns transformed into.

Sometimes it was a giant axe that split everything...

Sometimes it was an endless raging river...

Sometimes it was a strange cube...

Sometimes it was a flaming lotus…

Every scene, the vision was beyond the Great Dao.

"I heard that once one comprehends a complete Origin Great Dao, there are no clear guidelines anymore; one must grope in the dark," Luo Feng thought. "These thirty-six Heavenly Pillars are probably like a lamp in the darkness, guiding the way."

These thirty-six Heavenly Pillars were primarily related to the nine Origin Great Daos of the Land of Origin, such as the Dao of Life and the Path of Destruction, with four pillars each.

"Senior Yuan truly put in great effort," Luo Feng could feel the goodwill this predecessor had towards later generation cultivators.

******

After briefly exploring the outer regions of the Heavenly Pillar Realm, Luo Feng settled down to garrison the area and focused on his cultivation.

Eons passed by.

"Hu hu."

Two figures flew into the formation, their Command Tokens resonating with the formation, encountering no resistance.

Luo Feng, responsible for the garrison, looked up.

"So it's Luo He God King on duty," one of the figures said with a smile.

Luo Feng smiled as well, "Tian Mu God King, long time no see."

When he first went to the treasure land "Infinite Space," he met Tian Mu God King. As a member of the Flame Wind Ancient Country Royal Family, Tian Mu God King was very friendly towards him, which was quite rare so Luo Feng remembered it vividly.

"We are fated to meet. When Luo He God King ventured to the Infinite Space, he was at the Primal Chaos Realm. At that time, I was just at the First Realm of Godly King," Tian Mu God King said with a smile. "Now Luo He God King has reached the Second Realm of Godly King, while I am still at the First Realm."

Tian Mu God King felt somewhat wistful; he had access to far better resources than Luo Feng, able to enter many treasure lands and obtain many precious resources.

He didn't want to use his Primordial Bloodline at the First Realm of Godly King.

He desired to reach the Second Realm of Godly King first and resort to using the Primordial Bloodline only if he hit an absolute bottleneck.

"Tian Mu, let's go," another emperor-level existence of the Royal Family God King in the Second Realm frowned and snapped. He couldn't be bothered to exchange a word with Luo Feng.

"Goodbye," Tian Mu God King bid farewell to Luo Feng and left with his companion.

Luo Feng watched them leave.

...

In the blink of an eye, Luo Feng had garrisoned the Heavenly Pillar Realm for twenty-seven eons. During this time, two Royal Family God Kings from the Flame Wind Ancient Country entered, and three Royal Family God Kings from the Thunder Ancient Country also entered. The Royal Family God Kings from the Thunder Ancient Country barely glanced at Luo Feng and disdainfully entered the depths of the Heavenly Pillar Realm without a word.

"I always heard that the Royal Family God Kings of the Thunder Ancient Country generally cultivated the Primordial Bloodline and some royals treated all non-royals like servants," Luo Feng mused privately. "Compared to them, the Flame Wind Ancient Country seems slightly better."

In these tranquil years, he gradually comprehended each of the Twenty-four Forms. As his understanding deepened, the later stages became quicker, until he finally comprehended them all.

"It is done."

In this moment, all avatars of Luo Feng scattered across Infinite Space, Dream Domain, Heavenly Pillar Realm, the Primordial Cosmos Region, and Huyang City smiled simultaneously.

Chapter 236 5 volumes 33 chapters 24 forms

Huyang City, city owner's mansion Quiet Room, inside the Star Tower.

A vast and imposing body of Luo Feng sat cross-legged. Since his spiritual will surpassed the limits of a Godly King, the world life form had begun to grow again! Both the Perfect Divine Body and the demonic clan avatar had growth limits. However, the "world life form" was unique; as long as Luo Feng's consciousness could control it, it could continue to enhance.

Now, this "world life form" was still growing, never reaching the limit of what his spiritual will could endure.

"Finally figured out the Twenty-four Forms."

"Breakthrough!"

Luo Feng had been waiting for this day for too long.

After the breakthrough of spiritual will, he was confident in killing the Master of the Shi Kingdom. Yet, Luo Feng had been enduring! Because killing the three Masters of the Shi Kingdom … once he revealed himself, he would not be confident in surviving an encirclement by some beings at the Emperor Tier!

For instance, the groups of Di Yan, Di Xi, and Di Wu, who had many treasures and combined were more fearsome than "Emperor Ming." Previously, Luo Feng with only a spiritual will advantage truly wasn't confident in resisting those three.

So, he patiently waited until this moment today!

"Condense."

At this moment, Luo Feng's vast world life form stretched out its hand, changing the basic structure of the power of the world, transforming from the crude 'Ten Directions World Form' into the 'Twenty-four Forms.'

In the Ten Directions World Form, each life unit needed just ten particles to form a micro world.

In the Twenty-four Forms, each life unit required exactly two hundred forty particles, forming a combination of twenty-four spaces perfectly, increasing stability by untold magnitudes—a complete qualitative change.

"Beautiful." After condensing a life unit in his palm, Luo Feng smiled and began increasing the proportions.

Millions at once, billions…

Luo Feng's vast soul, with a powerful spiritual will, made the transformation highly efficient.

However, this time, Luo Feng's world life form's energy reserves were extremely vast! Luo Feng converted with all his might but still used thirty-two days to successfully transform the entire true body of this world life form.

Avatars, stationed in places like the Dream Domain, Heavenly Pillar Realm, Chu Capital, and Xiangjie City, also quietly transformed their bodies, which being smaller in energy reserves, converted much faster.

"Succeeded."

Luo Feng stood up within this layer of the Star Tower.

"I feel like it's easier to control my physical body after the life form's transformation?" Luo Feng could feel that his world life form in the Ten Directions World Form was loose and hard to handle.

The world life form of the Twenty-four Forms had much tighter life

units and was easier to control.

It was as if on Earth, a two-hundred-pound obese person struggled to walk, while a two-hundred-pound athlete, all muscle and lean-looking, had speed, strength, and explosive power.

"With the previous world life form, its energy reserves were about 29 times that of the Perfect Divine Body. Using my spiritual will to control it felt a bit cumbersome, able to perform moves only at the threshold of the Second Realm of Godly King."

"Now, the Twenty-four Forms, with the same energy reserves, is easy to control, and I can even effortlessly perform my strongest 'Great Extinction Style.'"

"This body can still grow significantly."

Find more chapters on empire

Luo Feng's body naturally formed a black robe, still in the shape of the Twenty-four Forms.

"Boom."

With a slight release of his aura, Luo Feng caused the surrounding Void to begin collapsing, layer by layer of space naturally falling in until only the membrane wall of the Source World remained. The rules of heaven and earth around him naturally changed.

"Such powerful strength; I feel that my physical body is probably not inferior to my master now." Luo Feng had seen his master, Emperor Chu, and also Emperor Xuan.

In terms of artistic conception, my current world life form still falls a bit short of their ultimate realm perfection.

But my world life form is too large! The advantage in quantity is enough to compensate for some quality disparities.

"Finally touched the Emperor Tier status," Luo Feng reflected solemnly.

Previously, my own body was too weak.

One strike would crush me to dust; even relying on the life recovery power would only resist a couple more strikes.

"The Life Lotus is also growing." Luo Feng observed his inner world. As the range of the inner world expanded thousands of folds, the Life Lotus naturally could continue growing, also enhancing the stability of the inner world and the life force of the body.

"My world life form has enhanced, and my inner world has expanded. To nurture the 'Chaotic Hole Undying Light,' it can also be stronger." Luo Feng was quite satisfied.

Whoosh—

The black robe spread out, turning into an endless black river.

The black river surged mightily, sweeping all around.

Every drop of 'river water' was a Twenty-four Forms unit, its binding force and imposingness much stronger.

"The world life form doesn't have a fixed shape; I can be humanoid, beast-shaped, or even a river, a star." Luo Feng was very clear on this point.

Any shape constituted of basic life units was possible.

"With such strength, combined with the Star Tower... in the Land of Origin, who can be my opponent?" Luo Feng suddenly felt a bit elated.

"Calm down, calm down."

"One step at a time."

Having just mastered the Twenty-four Forms world life form, Luo Feng, according to the Special Grade Inheritance description, gradually familiarized himself with the capabilities of this body, also contemplating how to deploy his numerous combat methods.

...

Thunder Ancient Country.

After Luo Feng publicly reached the Second Realm of the Godly King, Mountain sitting guest also quietly broke through to the Godly King Tier, but cultivating the Primordial Bloodline to become a Godly King did not cause any stir in the Land of Origin.

"Luo Feng has become a Godly King of the Second Realm, his strength should be much stronger than the Emperor of Tian Kun. But to completely kill him and prevent him from reincarnating is still extremely difficult," Mountain sitting guest expressed his annoyance while sitting on his throne.

"From what I know, even if a Monarch or an Emperor takes action, the Emperor of Tian Kun should still be able to withstand one or two strikes and manage to reincarnate."

Among the three Masters of the Shi Kingdom, Mountain sitting guest harbored the deepest hatred towards the Emperor of Tian Kun.

Without the Emperor of Tian Kun, the other two Masters of the Shi Kingdom also would not have destroyed his kingdom back then.

"Luo Feng only has one chance to act."

"Once we allow the Emperor of Tian Kun to reincarnate, he will definitely hide his identity and not expose himself again."

"How long will it take for Luo Feng to grow to a level where the Emperor of Tian Kun can't reincarnate?" Although Mountain sitting guest was patient, he had been waiting for that day to come.

He calmed Luo Feng and urged him not to rush.

But within himself, he was constantly longing for that day, a fixation that had already penetrated deep into his soul.

"Sss sss sss."

Mountain sitting guest closed his eyes and began to delve into

cultivation again, exploring the Primordial Bloodline within his body.

He could only temporarily forget the hatred through 'Immersive Cultivation.' If he stopped cultivating, he would always think of the hatred, always remembering those haunting figures.

"Teacher." Suddenly, a voice came through causality.

"Hmm?" Mountain sitting guest was startled, stopped his cultivation, and responded with a smile, "Luo Feng, what is it?"

"Come to Huyang City. It is now time to act against the three Masters of the Shi Kingdom." This transmission through causality, felt like it struck Mountain sitting guest's soul.

At this moment, his soul was trembling.

"Now it's time to act?" As a Godly King, it took Mountain sitting guest a full three breaths to completely regain his senses. But at this moment, he felt as though he had ingested the most precious treasure, his soul in an unprecedented state of excitement.

His thought processes were soaring, and his Spiritual Will was unprecedentedly concentrated.

"I'm on my way." Mountain sitting guest quietly responded and then immediately left the cave mansion, quietly rushing to Huyang City.

...

Past meetings between master and disciple were generally in Xiangjie City, because it was close to the Thunder Ancient Country.

But this time, Mountain sitting guest crossed half the Land of Origin and quietly came to Huyang City.

"Hoo."

Mountain sitting guest quietly entered the city owner's mansion, and at a glance saw Luo Feng sitting high up in a tower, and he immediately flew over.

Buzz.

Luo Feng's World Power had long enveloped the surrounding billions of kilometers of Huyang City, and the city owner's mansion was even more shrouded by Luo Feng's Spiritual Will, no powerful being in the Land of Origin could hope to break through Luo Feng's World Domain and Spiritual Will to spy here.

"This Spiritual Will." Mountain sitting guest sensed the Spiritual Will surrounding Luo Feng, which even frightened him, vast as the sea, seemingly capable of annihilating him instantly.

"Teacher." Luo Feng, dressed in a black robe, smiled as he looked at him.

This Luo Feng in black was in his Twenty-four Forms World Life Form True Body! This action was of great significance for his teacher, Mountain sitting guest, and Luo Feng naturally went all out, eliminating all chances of accidents.

"Luo Feng." Mountain sitting guest looked at his disciple, the intangible aura brought by his disciple felt not a bit less powerful than the Monarch of the Thunder Ancient Country.

"Teacher, please sit," Luo Feng said.

Mountain sitting guest sat down, and then Luo Feng took his seat.

"You said in your transmission earlier that you could kill the three Masters of the Shi Kingdom?" Mountain sitting guest looked at Luo Feng, "We shouldn't be hasty with this matter. Once we make a move, we must be able to kill them completely. Once we allow them to reincarnate and escape, we won't be able to find them again."

"I am confident that they will not be able to reincarnate," Luo Feng said.

"Even the Emperor of Tian Kun can't reincarnate?" Mountain sitting guest asked again.

"Yes," Luo Feng nodded.

Mountain sitting guest suppressed his excitement, carefully pondered various possibilities, and asked, "How can you accomplish this? Is it a powerful secret treasure? With the two Ancient Countries' ability to probe the past and future, deduce celestial patterns, if they find out you made the move! Would they act against you because of the secret treasure?"

"That's why when I make the move, I will change my appearance and breath, blurring causality," Luo Feng said, "Even if they investigate the past, they can only trace the identity I've disguised. As for deducing celestial patterns, even if my identity is exposed, I am prepared."

Why wait for this day.

It's to wait until I am stronger than the Mother River Master and the Wind City Empress, all five of them! They have been able to live well under the threat of the two Ancient Countries, so Luo Feng is confident.

"Are you prepared?" Mountain sitting guest looked at Luo Feng, "Although I really want revenge, the dead are gone, the living are more important! You are my disciple who I watched grow up... We still have enough time, we can wait!"

Even with his anxious heart, Mountain sitting guest could still endure.

"Teacher, I will not use any secret treasures for this move," Luo Feng said.

"No secret treasures and you can still kill the three Masters of Shi Kingdom?" Mountain sitting guest looked at his disciple.

"Mm." Luo Feng nodded.

At this moment, Mountain sitting guest realized that his disciple's strength had become terrifying, far beyond a normal Emperor or Monarch.

"Okay, okay, okay." Mountain sitting guest's eyes seemed to ignite, fully prepared, then let's make the move.

Chapter 237 Death of the Master of the Shi Kingdom (Part 1)

"Teacher, the Shi Kingdom now has five Godly Kings," Luo Feng looked at the Mountain Sitting Guest, "Do we only need to kill three?"

The Mountain Sitting Guest nodded, "Only those three earliest rulers who are blood enemies of mine, the Emperor of Tian Kun, the Wuxiang Ancestor, and the Ancestor of Blade Demon, matter to me. Eliminating those three will suffice!"

Luo Feng nodded.

The three earliest rulers of the Shi Kingdom were the closest of friends, with the Emperor of Tian Kun still in the First Realm of Godly King. They ventured together in the Land of Origin, and all three were sinners of the highest order. On the other hand, the two who came later were much less sinful.

The Kufeng God King was invited to join by the Emperor of Tian Kun because of his proficiency in the Life Origin and Clone Techniques, capable of dealing with many matters. He was a hardworking and uncomplaining character who exchanged his services for some resources.

The Liuyu God King, similar to the Mountain Sitting Guest, was once the ruler of a small edge country, the Liuyu Country. As the Shi Kingdom invaded its surroundings and approached the Liuyu Country, the Liuyu Country Master didn't wait to be attacked and offered allegiance! It gave the Shi Kingdom no reason for conflict. Among the five Godly Kings of the Shi Kingdom, she was the least noticeable and held the lowest status, but at least she preserved her people.

"Do we need to have a talk with them before killing them?" Luo Feng

asked again.

"No need," the Mountain Sitting Guest shook his head, "There's nothing to talk about! The more we talk, the more likely accidents will happen! I just want them completely dead!"

Luo Feng nodded and stood up, "Then let's set out now."

"Make sure you are well prepared and try to keep both Ancient Countries from discovering your identity," the Mountain Sitting Guest stood up and reminded him.

"Don't worry."

A black robe spread across Luo Feng's body, a golden mask appeared on his face, and his hair grew much longer. His aura became dark and profound, yet filled with great terror! He was mimicking the Formless and Intangible to resemble the memory of that vast eye from his dreams.

Luo Feng studied that vast eye deeply and even created the Great Extinction Style based on it. Although the mimicry fell far short of the dream memory, it still instinctively struck fear into the Mountain Sitting Guest beside him.

It was like a lower-level creature encountering a higher-dimension being, feeling instinctive fear.

"With this appearance, there should be few who can guess my identity," Luo Feng smiled.

"Your aura is even more terrifying than in your true form," the Mountain Sitting Guest couldn't help saying, "I've seen the Monarch of the Thunder Ancient Country, who cultivates the Primordial Bloodline with a terrifying aura. But it seems they're nothing compared to you."

Luo Feng smiled.

His true form's aura was comparable to Emperors and Monarchs, and naturally even more terrifying when mimicking the 'vast eye.'

"An existence like this, it's only right to easily and completely kill the three rulers of the Shi Kingdom," Luo Feng said, "Let's go."

The Mountain Sitting Guest watched his disciple and nodded slightly.

His emotions were tumultuous. On the one hand, he had waited too long for revenge; on the other, his disciple had now exceeded his expectations! After all, the "Earth" was cultivated by humans after the Mountain Sitting Guest had reformed the environment. Luo Feng was like the child he raised, step by step cultivating to this day, guided by the Star Tower, the "Nine Volume Manual," and the "Lie Yuan Technique."

He watched Luo Feng grow, but now he was somewhat incomprehensible. This made the Mountain Sitting Guest feel a sense of fulfillment.

"Whoosh." The Mountain Sitting Guest's body had golden liquid flowing, and his aura strangely disappeared entirely. Under the flow of the golden liquid, the Mountain Sitting Guest reverted to his appearance from the Primordial Cosmos Region.

"This is a Golden Armored Puppet I refined; it barely has the strength of a Godly King," the Mountain Sitting Guest said, "My True Body is hidden within the puppet. The visible puppet has no life aura whatsoever."

Luo Feng nodded. Most formidable Godly Kings have ways to hide their aura, like when traveling to the Dream Domain, they conceal their identity.

However, the hiding technique of his teacher, the Mountain Sitting Guest, was quite special! He walked with a puppet's body outside, while his True Body was utterly concealed.

"Teacher's Artifact Refining Skills are indeed formidable. Then let's set out now," Luo Feng immediately took the Mountain Sitting Guest and quietly left Huyang City, arriving at the Royal Capital of the Shi Kingdom in a blink.

Above the Royal Capital of the Shi Kingdom, Luo Feng and the

Mountain Sitting Guest looked down upon the vast city.

"Hm?" Luo Feng was puzzled.

"What's wrong?" the Mountain Sitting Guest asked, confused.

"The True Body of the Emperor of Tian Kun is not in the Royal Capital," Luo Feng said with a furrowed brow.

Luo Feng came this time as a World Life Form in his True Body, also carrying the Secret Treasure "Star Tower." The World Life Form's inner world was solidified by the "Life Lotus," making it tremendously powerful! It could reflect the outside world, even capturing vast external regions entirely 'into' its inner world and imprisoning them.

Using his inner world's outward sensibility, Luo Feng could confirm that the entire Royal Capital had no sufficiently powerful creatures, just a Kufeng God King Avatar.

Furthermore, the Star Tower possessed the abilities to capture, suppress, and seal enemies. Luo Feng, utilizing the Star Tower to feel around, also did not detect any strong auras. For Luo Feng at this point, ordinary Godly Kings were no longer considered strong auras.

"I've already locked onto the Wuxiang Ancestor and the Ancestor of Blade Demon with my avatars, ready to strike at any moment," Luo Feng said, "But the location of the Emperor of Tian Kun is currently undetermined."

"What shall we do if he has entered some treasure land for cultivation and might stay for a long time?" the Mountain Sitting Guest asked.

Luo Feng shook his head, "I've always been subscribing to information about some of the most powerful beings in the Land of Origin, including regular updates on the Emperor of Tian Kun. According to information from the Flame Wind Pavilion, since the last time the Emperor of Tian Kun's True Body was destroyed and he recovered it using a Resurrection Carrier, he has been nurturing the Primordial Bloodline... During the period of nurturing the Primordial Bloodline, he hasn't gone to any treasure land."

The Mountain Sitting Guest nodded.

"As long as he doesn't go to the treasured land, he must eventually return, and we'll just wait for him in the Royal Capital," Luo Feng said.

"We have no other choice," the Mountain sitting guest nodded.

...

Flame Wind Ancient Country, Yan Capital.

Emperor Di Yan sat there, tasting the delicacies in front of him and exclaimed, "Tian Kun, when it comes to culinary artistry, only a few in the Land of Origin can match you. Your understanding of ingredients is unique, enabling you to bring out their naturally wonderful flavors."

"With the various top-notch ingredients prepared by the Emperor, I was able to make these dishes," the Emperor of Tian Kun said with a hearty laugh, showing humility, "And these ingredients have also enhanced my understanding of the Primordial Bloodline and benefited my cultivation. I should be the one thanking the Emperor for giving me this opportunity."

Emperor Di Yan glanced at the Emperor of Tian Kun.

He was very fond of the Emperor of Tian Kun, who was very obedient, always finding ways to please him. The most important thing was... the culinary creations of the Emperor of Tian Kun very much suited Emperor Di Yan's palate.

The Emperor of Tian Kun followed the 'Origin Dao of Matter,' studying the various materials in the world, even elevating the concept of 'deliciousness' to an unimaginable level. After cultivating the Primordial Bloodline, he even tried to use the flesh and blood of Primordial Bloodline creatures as ingredients, making the dishes even more astounding.

The Royal Family of Flame Wind Ancient Country enjoyed such luxurious pleasures. After all, the supreme delicacies of the Land of Origin were considered of the Godly King Tier in terms of culinary standards. This also enabled the Emperor of Tian Kun to form good

relationships with many Godly Kings of the Royal Family.

"You've been cooking for me for an Era now. Tell me, what do you need my help with?" Emperor Di Yan smiled at Tian Kun.

Tian Kun had a good habit of serving Emperor Di Yan; he never actively set conditions. He always sincerely served until Emperor Di Yan himself would inquire, and that's when Tian Kun would speak up.

"Your Majesty is also aware that there are some troublesome powers surrounding my Shi Kingdom," the Master of the Shi Kingdom said with a smile, "The Yu Shui Country Master of Yu Kingdom and the Luo He God King of Huyang City have formed an alliance! Now my Shi Kingdom can only target the neighboring second-rate nation, 'Cold Forest Country.' The Cold Forest Country Lord is just an ordinary Second Realm Godly King, inferior to me. However, Cold Forest Country has a special relationship with Tianmu Kingdom."

The Shi Kingdom had taken over its surroundings as much as it could.

What remained were only Yu Kingdom and Cold Forest Country.

Yu Kingdom seemed easy to bully, but who would have anticipated Luo Feng? Now that Luo Feng had become a Second Realm Godly King, the Shi Kingdom completely abandoned the thought, suspecting... not even with ten of Luo Feng's clones combined would he be able to defeat him.

"Cold Forest Country?" Emperor Di Yan nodded, "Alright then, you go back and prepare. Once everything is ready, I'll send 'Yanxiu God King' with you. With Yanxiu God King's involvement, I believe Tianmu Kingdom will not dare to interfere."

Emperor Di Yan, as the first Emperor of Flame Wind Ancient Country, also had quite a number of powerful followers. Aside from Emperor Di Yan, there were two Second Realm Godly Kings in the Royal Family, namely 'Di Yanqiong' and 'Di Yanxiu.'

Di Yanqiong, more ambitious, had used the Ultimate Realm level

Primordial Bloodline in an attempt to break through to Emperor, but fell short in strength, resulting in a semi-uncontrolled state. He was currently imprisoned in a small world and required a Formation to maintain clarity. According to the rules of Flame Wind Ancient Country, unless absolutely clear-headed, one would not be released. If he were in Thunder Ancient Country, where a semi-uncontrolled individual during their lucid phase was willing to leave only to be confined again upon losing control.

Di Yanxiu, with the supply of numerous resources, had become the strongest Godly King under Emperor Di Yan.

"With Yanxiu God King stepping in, even Tianmu Kingdom with all its courage would hold back," the Master of the Shi Kingdom rejoiced.

Emperor Di Yan nodded slightly.

...

The Master of the Shi Kingdom left Flame Wind Ancient Country and returned to the Shi Kingdom.

"It's good that Yanxiu God King can assist," the Master of the Shi Kingdom was very satisfied with his gains; he had served Emperor Di Yan for too long and was very clear about Di Yan's temperament! He was currently nurturing his inner Primordial Bloodline, and if he were to request treasures for nurturing the bloodline, Emperor Di Yan would likely turn hostile.

After all, Emperor Di Yan was also poor!

Aside from Emperor Qing, the twelve Emperors all owed massive debts to the Imperial Clan! They even tried to raise their debts to the limit permitted by the Royal Family, borrowing all sorts of treasures for their own use, which is why they each had powerful Secret Treasures.

As for repaying their debts? They would pay back slowly!

"If I could devour Cold Forest Country, I could consume one-third of its Creatures. The remaining Creatures can still slowly reproduce and provide a sustainable nourishment for my cultivation," the Master of

the Shi Kingdom thought, "One-third of the Creatures of Cold Forest Country would be enough to restore most of the strength of my Primordial Bloodline."

Some portions of the Primordial Bloodline could be enhanced by consuming Creatures.

The countless Creatures birthed within the Source World, each one an aggregation of the essence of heaven and earth, provided great nourishment to the Primordial Bloodline.

"Whew." The Master of the Shi Kingdom leisurely returned to the Royal Capital.

In an unremarkable Cave mansion in the Royal Capital.

Luo Feng and the Mountain sitting guest sat opposite each other, leisurely discussing Artifact Refining Skills.

"Huh?" Luo Feng's expression shifted.

The Mountain sitting guest looked at Luo Feng.

"Master of the Shi Kingdom has returned," Luo Feng said.

The Mountain sitting guest's eyes brightened.

Chapter 238 Episode 5 Chapter 35 Death of the Master of the Shi Kingdom (Part 2) (End of the Episode)

Chapter 238 Episode 5 Chapter 35 Death of the Master of the Shi Kingdom (Part 2) (End of the Episode)

Royal Capital, deep within the palace.

"Sigh." Emperor of Tian Kun arrived and sat on the grand throne in the enormous hall.

"Yi Xiu, prepare a large portion of food." Emperor of Tian Kun immediately issued an order through telepathy. Having served Di Yan for an era, he dared not be distracted by devouring countless creatures and had long held back his hunger fiercely.

"Yes, my lord."

Soon, Emperor of Tian Kun's most loyal subordinate, 'Yi Xiu Great Saint,' presented the prepared food in a transparent bottle, imprisoning billions of creatures.

As a cultivator in the Primal Chaos Realm and due to his unwavering loyalty and meticulous work, the task of harvesting countless creatures regularly was handled by Yi Xiu Great Saint. He led a secret army specialized in capturing countless creatures.

"My lord, a large portion of food includes about 3000 eternal true gods, 50 million true gods of void space, 50 trillion true gods, and thirty trillion lesser beings not yet at the true god level, all within this food bottle," Yi Xiu Great Saint respectfully reported.

Emperor of Tian Kun looked at the over eighty billion creatures inside the transparent bottle, nodding with satisfaction.

Even ruling the vast Shi Kingdom, accumulating such a large portion of food was not easy. The tribes of the Shi Kingdom lived in the wilderness, hiding in the most secluded places, and the eternal true gods were often the core backbone of many large cities. Capturing such a massive scale, even covertly throughout the entire range of the Shi Kingdom, was no easy task.

"Very well." Emperor of Tian Kun looked at the transparent bottle and felt the primordial bloodline within him boiling, craving for the countless lives.

Yet the over eighty billion creatures inside the bottle had no idea that a terrifying existence outside was about to utterly devour them.

Emperor of Tian Kun reached out and grabbed the bottle, suddenly—

Emperor of Tian Kun felt everything before his eyes disappear; he lost all physical senses, only seeing a vast and enormous constellation forming! This massive constellation was spinning; he could see every process, but he had no way to dodge.

It seemed slow, yet it was so fast it was merely a momentary flicker of the spirit.

A flicker of the spirit, impossible to evade, too late to use the Reincarnation Secret Technique.

All he could do was take it head-on!

Survive, and he lives!

Fail, and he dies!

This rolling constellation was terrifyingly formidable, even more so

than Di Yan whom he served! It was the most terrifying force Emperor of Tian Kun had seen in his long years—he hadn't even begun to defend when he intuitively knew—he couldn't block it!

"No—"

The constellation rolled, crushing over his spiritual will. His spiritual will was instantly crushed to dust, and under the sweeping roll of the constellation, not even a trace was left.

In an instant, his spiritual will was completely annihilated.

A dominant figure on the Land of Origin, the renowned 'Emperor of Tian Kun,' was now just a corpse.

He was dead.

His death was so sudden, so utterly without the capability to resist.

...

Inside this enormous hall.

The Emperor of Tian Kun still sat there, reaching out to grab the transparent bottle. However, the fervor in his eyes had completely faded, leaving them utterly dull.

"Boom~~~" The moment he died, the Emperor of Tian Kun's body naturally began to reveal its true form.

"Sigh."

An invisible wave swept over, collecting the bodies of the Emperor of Tian Kun, Yi Xiu Great Saint, and the transparent bottle.

Under Luo Feng's terrifying spiritual will, even a slight involvement completely obliterated Yi Xiu Great Saint's spiritual consciousness! Firstly, allowing Yi Xiu to live and witness the death of the Emperor of Tian Kun might enable outsiders to deduce a lot of information. Secondly, as a minion of the Emperor of Tian Kun who had long been capturing countless creatures, Luo Feng felt no mercy.

"Although the Emperor of Tian Kun was not as mad as the Ancestral God of the Snow Realm, he ruled over a much broader Shi Kingdom, and the number of creatures who died by his hand… is probably far more than those who perished under the Ancestral God."

The 80 billion-plus creatures in that transparent bottle made Luo Feng more aware of how much catastrophe peaking beings from the Land of Origin could cause once they turn malevolent!

"The stronger the power, even if only harvesting a small portion within their dominion, the numbers could be many times those of the Ancestral God."

"My current strength already allows me to change parts of the Land of Origin."

"Of course, for now, I can only change a part."

"To completely change it, to establish my own rules! I need to be even stronger!"

Luo Feng knew this path was difficult because under the limit of the Supreme Rules, the might of maneuvers had an upper limit in the Ultimate Realm! Even with his own formidable powers, he couldn't exceed this limit, meaning his impact on Emperors and Monarchs was limited.

Emperors and Monarchs decided the order of the entire Land of Origin. To alter the order of the Land of Origin, many of the Emperors and Monarchs from the two Ancient Countries might not tolerate it.

"Cultivators, with their own power, surpass heaven and earth!"

"To change the fates of countless creatures in the Land of Origin is part of my cultivation. If I cannot even achieve this, how can I talk about surpassing heaven and earth!" Seeing the 80 billion-plus creatures in the transparent bottle and witnessing the various darknesses in his travels around the Land of Origin, Luo Feng's resolve was unbreakable.

He was not strong enough yet, so he temporarily hid his claws.

Once strong enough, he would reveal his claws and tear through this veil of darkness!

...

Wuxiang City and Sword Demon City in Shi Kingdom were attacked simultaneously.

To ensure the killing of the 'Emperor of Tian Kun' was foolproof, Luo Feng first concentrated all his efforts against the Emperor of Tian Kun! After all, the other two 'Wuxiang Ancestors' and 'Ancestor of Blade Demon' were only at the First Realm of Godly King, and even using the Curse Killing Technique, Luo Feng was confident he could annihilate them.

The moment the Emperor of Tian Kun died, Luo Feng's two other avatars acted simultaneously. Wuxiang Ancestor and Ancestor of Blade Demon had no time to react, instantly dying without resistance under Luo Feng's terrifying spiritual will.

"Collect." Luo Feng also took the bodies of these two Godly Kings.

******

In Huyang City, within the Quiet Room of the city owner's mansion, Star Tower.

Luo Feng and Mountain Sitting Guest both came to one of the layers in Star Tower, where the true bodies of the three rulers from Shi Kingdom were laid out, all of their bodies intact but their spiritual consciousnesses completely annihilated.

"They are dead," Mountain Sitting Guest observed the bodies carefully.

The body of the Emperor of Tian Kun was immensely vast, hundreds of millions of kilometers in length, with tough, thick scale armor. He cultivated the Origin Dao of Matter, tapping into the potential of the Primordial Bloodline, making his body far tougher and more terrifying than Luo Feng's early 'Ten Directions World Form World Life Body', normally giving him enough time to use the Reincarnation Secret Technique even if Emperors and Monarchs attacked.

But this time, he couldn't reincarnate.

No matter how strong his physical body was, it couldn't help him against a technique aimed wholly at the spiritual will! Only reaching the Ultimate Realm Life Form and achieving perfection could he resist some attacks on spiritual will.

As for the God King Grade Secret Treasure, the Emperor of Tian Kun had no power to obtain it. In the Land of Origin, there were not many such secret treasures, and lacking the power to possess such treasures, one would only invite disaster. With strength like that of Emperor Gui Xu, owning such treasures in his previous life had brought great calamity.

He had not reached the Ultimate Realm Life Form, had not resisted the God King Grade Secret Treasure of Spiritual Will… he was utterly no match for Luo Feng!

Will Beyond God King Level, and then activate the "Lie Yuan Technique" again!

"None of them managed to reincarnate?" Mountain Sitting Guest couldn't help but ask, "Tian Kun, not in time either?"

"I'm sure."

Luo Feng nodded, "The moment I used the Secret Technique of Willpower, he died. He simply had no time to reincarnate."

"Secret Technique of Willpower?" Mountain Sitting Guest nodded slightly, Luo Feng had not concealed it from him, the willpower displayed was indeed vast and mighty, and felt as though it could crush the Godly Kings with the slightest pressure.

"Indeed, indeed."

Mountain Sitting Guest, touching the scale armor of the massive corpse of the Emperor of Tian Kun, then looked toward the corpses of the Wuxiang Ancestor and the Ancestor of Blade Demon beside.

At this moment, Mountain Sitting Guest seemed to see those familiar figures.

"Ah Jin!"

"Sister!" The once young boy, seeing the dazzling genius sister in his sect for the first time, was nervous and tense.

"Ah Jin, Master has ordered, from now on, you will follow me. I will teach you on behalf of Master."

"Okay."

…

"Ah Jin, you've reached Primal Chaos Realm! Even faster than me."

"Sister, would you like to walk the path of cultivation with me?" The youth, now a Primal Chaos Realm, voiced the desire he had harbored for long.

Sister smiled happily, nodding through tears, "From now on, we walk the cultivation path together."

…

Jin State was established.

Although it was a third-rate frontier small state, it was still an unprecedented achievement for the entire sect! God King Jin, with his Artifact Refining Skills, also became famed all around.

"Ah Jin has become the monarch," Sister said proudly, "You have already surpassed all the predecessors of the sect."

God King Jin smiled slightly.

He needed to become even stronger, walk further in the path of cultivation with Sister, and lead the younger brothers and sisters and the sect further.

…

Mountain Sitting Guest faintly saw those familiar figures, his brothers and sisters who admired him immensely, the love of his lifetime. It

was the world that haunted his dreams.

"I've taken revenge, I've avenged you all," Mountain Sitting Guest whispered softly.

Fled into the Universe Ocean.

With endless hatred and reluctance, he entered the depths of the Universe Ocean.

Forced to reincarnate within the Primordial Cosmos.

The long years…

Until today!

Mountain Sitting Guest, looking at the three massive corpses before him, suddenly felt a bit dazed.

The goal he had always pursued was completed, yet he didn't know how to proceed.

"How I wish I could return to the past," Mountain Sitting Guest said in the moment of successful revenge, not feeling the satisfaction of avenging a great wrong, but an endless nostalgia instead.

Luo Feng silently watched from the side.

He felt the surge and changes of emotions in his master, even his master's powerful spiritual will needed time to adapt.

Finally, Mountain Sitting Guest calmed completely.

He turned his head to look at Luo Feng.

"Luo Feng, thank you," Mountain Sitting Guest smiled faintly, "At this moment, I am without regrets."

"Teacher, you have helped me immensely, it is I who should say thank you," Luo Feng said.

Mountain Sitting Guest pointed to the three massive corpses, "Forget about the other two, but the Emperor of Tian Kun had a renowned

reputation, his sudden death will definitely attract the attention and investigation of major powers. These three corpses must be destroyed utterly, otherwise they could reveal much information from being examined."

"I know," Luo Feng nodded, these three corpses will not appear from Star Tower again!

"Killing felt satisfying, but there will be a lot of investigation afterward. Especially since the Emperor of Tian Kun and several Emperors of the Flame Wind Ancient Country have very good relations, you must be careful," Mountain Sitting Guest advised.

"I'm all prepared," Luo Feng nodded.

"You now far surpass my strength, and your considerations are definitely more meticulous than mine," Mountain Sitting Guest smiled and nodded, "Well, I should leave now."

"Teacher, are you going back? Back to Thunder Ancient Country?" Luo Feng asked.

"From now on, I will focus on studying Artifact Refining and Primordial Bloodline, living my own peaceful days," Mountain Sitting Guest looked at Luo Feng, "If you ever need anything, just let me know."

"Okay," Luo Feng nodded, "I'll see you out."

Luo Feng personally escorted Mountain Sitting Guest out of Star Tower, even to the border of Thunder Ancient Country, then watched as Mountain Sitting Guest left.

"Teacher…" Luo Feng sensed Mountain Sitting Guest's change, the past Mountain Sitting Guest always harbored a strong spiritual obsession, but today, that obsession was gone, he had completely let go.

This grand causality had entangled the teacher for countless years.

This major causality had also shaped himself.

"Teacher, I hope you enjoy your days ahead," Luo Feng silently said, he also decided, unless necessary, not to disturb the teacher's peaceful days anymore.

Chapter 1 Identity of the Murderer

Huyang City, city owner's mansion, atop the tower.

Luo Feng sat alone, drinking wine, "Three kings of Shi Kingdom suddenly died, especially the Emperor of Tian Kun—a powerhouse at that level suddenly dying. The two Ancient Countries will definitely investigate carefully! Now, let's see what they're capable of."

The outcome of the investigation by the two Ancient Countries would also determine his own course of action.

...

"What?"

"They all died?"

Out of the five God Kings in Shi Kingdom, only Liuyu God King and Kufeng God King, who were alive, could confirm through causality that the three more powerful kings of Shi Kingdom were all dead. This baffled them!

Three died instantly, while the two weaker God Kings were still alive.

"No matter whether the Emperor of Tian Kun has reincarnated or not, to be able to kill him silently, it must be at the level of an Emperor or a Monarch, right?" Liuyu God King was alarmed. With the strength of the Emperor of Tian Kun's Primordial Bloodline, even if an Emperor like Emperor Gui Xu took action, it would probably cause a tremendous disturbance, splitting heaven and earth, and the Emperor of Tian Kun would be able to resist for quite some time.

Like the previous time when the Emperor of Tian Kun and his

companions teamed up against the Yu Shui Country Master, it took a long time and still yielded no result.

As one can imagine...

To kill an existence at the level of the Emperor of Tian Kun, or even force him to reincarnate, was an exceedingly difficult feat.

"What should I do?" Liuyu God King felt uneasy. She had only one True Body, having originally led her entire nation to take refuge in Shi Kingdom, where her race also prospered and thrived within the boundaries of Shi Kingdom.

"Investigating the deaths of the three kings might lead back to me," Kufeng God King acted swiftly. "Those who can move, move quickly."

Kufeng God King, with many avatars, naturally had multiple strongholds; he controlled several cities within the Tianji Icefield alone! When invited to join Shi Kingdom, he only brought part of his race. Now, he quickly began moving them.

At this moment, they were all somewhat panicked! They felt that behind the deaths of the three kings of Shi Kingdom... lay a hidden crisis, and once it affected them, they would have no power to resist.

...

"Eater King's Capital." A figure of white light appeared in the Eater King's Capital, his entire body composed of white light, gazing down expressionlessly at the city—and at this moment, the entire city had turned gray, with all creatures motionless.

The entire world seemed to have paused.

The white light figure walked through the paused Eater King's Capital, entering the palace, then the grand hall.

The Emperor of Tian Kun was sitting there; Yi Xiu Great Saint was respectfully presenting a Food Bottle.

"Hmm?"

The white light figure watched the scene, with a flicker of thought, and behind him, a massive flow of sand began to move slowly, and everything around him started to come alive.

The Emperor of Tian Kun reached for the Food Bottle, when suddenly —

The eyes of the Emperor of Tian Kun and Yi Xiu Great Saint dimmed.

"Instant annihilation, no chance to resist. The Emperor of Tian Kun probably didn't have time to reincarnate," observed the white light figure. "Is it a secret technique of Willpower? Or an attack targeting the soul? The Supreme Rules of the Land of Origin restrict all power limits! Whether it's energy type, material type, causality type, willpower type... there are limits to power."

"Within the limits of power, to achieve this step, there are no more than ten in the entire Land of Origin," pondered the white light figure.

"This Emperor of Tian Kun has always been very cautious, although he is domineering towards surrounding countries, he never dares to offend truly powerful beings."

"Who killed him?"

"And also, simultaneously killed three kings of Shi Kingdom? Could it be related to a vendetta against all three kings?" pondered the white light figure.

Huh!

Time continued to pass, the bodies of the Emperor of Tian Kun and Yi Xiu Great Saint, including numerous creatures in the Food Bottle, all disappeared.

"He performed techniques of either soul type or willpower type, he must be close by," the white light figure flew above the entire royal capital and began to carefully examine all creatures within the vicinity during this period.

"Hmm?"

The white light figure's eyes lit up, he fully activated an Ancestor's bestowed treasure, and the vast sandy shadow behind him rapidly expanded and spread, covering the entirety of the royal capital almost instantly.

Buzz!

Two previously elusive figures became visible under the shadow of the sand.

A man in a black robe with long hair, wearing a golden mask, stood above the royal capital, coldly looking toward the palace direction. Beside him was an old man with no signs of life, clearly discernible as a puppet.

"Hmm?" The white light figure was startled and closely observed the black-robed man with the golden mask.

Even from observing traces from the past, the white light figure felt the deep and unfathomable aura of the black-robed man, and it exuded a strange, immense fear, giving him a fright!

"Such an appearance, such aura, never seen before," the white light figure was secretly alarmed, "Land of Origin, how did such a terrifying existence emerge?"

As one of the nine monarchs of the Thunder Ancient Country—the 'Sky Light Monarch', there were very few strong people he did not know about. Previously, there was only that mysterious strong man from the Shadow Sky Realm, possessing Emperor Level combat power, whose identity no one knew.

And now there was another.

"He took that bottle, and there are countless creatures inside the bottle, which can be traced through their causality, perhaps there will be discoveries," the white light figure tried to trace his steps, he looked at the Food Bottle, saw some creatures in it and thus naturally produced causality.

Small cultivators couldn't hide causality, and by utilizing causality tracing, discoveries were to be made.

"Hmm?"

"All these weak cultivators have been released into the wild, regaining their freedom?" the white light figure was somewhat surprised, "It seems this mysterious strong man is quite compassionate towards the weak."

The white light figure shook his head slightly, having traced this far, it was hard to investigate further.

"This mysterious strong person also carries a puppet servant," observed the white light figure as he also examined the old man next to the black-robed man with the golden mask; the elder transformed into a puppet, showing no traces to investigate.

"Bringing out a servant to handle matters, how odd."

The white luminescent figure smiled and then quickly departed.

Across the entire Land of Origin, the two Ancient Countries jointly established order! Anything that might threaten this 'order,' they meticulously investigated. Currently, their focus was on the hidden three alien race powerhouses as well as five formidable figures including the Wind City Empress and the Mother River Master.

Today, they discovered that another mysterious powerhouse demanded their attention.

"Emperor Di, I went to the past timeline, and the culprit should be this man in a black robe and golden mask," Di Jiufeng reported, revealing the scene he had investigated.

Emperor Di watched closely.

"He also has a puppet servant," Di Jiufeng continued, "It's certain he's not in the Ultimate Realm, nor does he possess any time-space related Secret Treasures, hence my ability to detect him. However, his strength must be terrifying."

"Quite extraordinary," Emperor Di observed the black-robed, golden-masked figure, feeling an immense dread that would even alarm Emperors and Monarchs.

"Who knows where this powerful being came from," Di Jiufeng shook his head, "He feels more terrifying than the five Earth God Kings."

Emperor Di nodded, "There are a decent number of beings at the Peak of Second Level of God King Realm in the Land of Origin. They just lack resources. It might be one of them who... crossed that threshold due to gaining some resources."

"Judging by how he killed the Emperor of Tian Kun, he likely specializes in soul-based or willpower-based techniques," Di Jiufeng explained. "In other words, below Emperors and Monarchs... he could likely kill instantly. He's much more terrifying than the five Earth God Kings."

"Indeed," nodded Emperor Di, "He conceals his identity and does not seem to want to openly confront the two Ancient Countries yet."

"Emperor Di, can you divine his identity through fate?" Di Jiufeng asked.

"I can't," Emperor Di shook his head, "Calculating fate also requires sufficient information. This mysterious figure has given us too little to work with."

Di Jiufeng gave a slight nod.

"Even my Flame Wind Ancient Country tried everything, yet couldn't kill the Mother River Master. This mysterious powerhouse seems even more difficult to handle. Even the two Ancient Countries might not be able to deal with him," Emperor Di chuckled, "Not being able to find out his identity might even be a good thing."

"Not being able to flee like the Mother River Master doesn't mean this particular person can too," Di Jiufeng remarked.

Emperor Di said no more.

Di Jiufeng also then departed.

"Who are you?"

Emperor Di, curious, looked at the mysterious figure clad in a black

robe and golden mask, "Are you Pu Xin? Luo He? Or perhaps Emperor Ming?"

There indeed aren't many from the Land of Origin who could reach this level in terms of soul or willpower techniques. Yet, based on many aspects, Emperor Di truly had three suspects.

Pu Xin, a mysterious and low-profile God King in the Second Realm, rarely involved in conflicts, occasionally accepting disciples in the Illusory Realm. Among his disciples are two other God Kings of the Second Realm, including the Wuxin God King.

Luo He, at the stage of Primal Chaos Realm, was already in the Ultimate Realm of God King in terms of willpower, and Emperor Di has been observing Luo He.

Emperor Ming... as the highest achiever in willpower in the Land of Origin, his willpower strength had long reached the upper limit set by the Supreme Rules. Moreover, he had also received the legacy left by Yuan and has been obsessively studying 'Catastrophe Beasts' as well as other images of Primordial Life. Emulating some of the dread associated with Primordial Life was easy for him.

"Who could it be? Pu Xin, have you been biding your time until now to make a move?" Emperor Di was curious, "Or the terrifyingly potential Luo He? Or perhaps the unimaginably dreadful 'Emperor Ming'?"

Nothing Emperor Ming does would surprise Emperor Di.

Even if Emperor Ming completely killed seven or eight Emperors, causing a massacre throughout the Land of Origin, Emperor Di would find it normal. Because this fits 'Emperor Ming' very well.

Emperor Ming and Catastrophe Beasts are quite alike!

Once he shows his true colors, he doesn't hesitate to kill all his comrades!

In Huyang City, at the city owner's mansion.

Luo Feng regularly ordered detailed intelligence on the Emperor of

Tian Kun from the Flame Wind Pavilion, and he had just received a report, albeit a rather costly one.

"Flame Wind Pavilion, did they find out who killed the Emperor of Tian Kun?" Luo Feng scrutinized the information.

The report contained a segment of footage.

A man in a black robe and golden mask with long hair, along with an old puppet man.

"An unknown mysterious powerhouse? With a puppet?" Luo Feng laughed, the changes that are Formless and Intangible are indeed hard to decipher within the range of the Supreme Rules.

"The detailed cause of the Emperor of Tian Kun's death, requiring an additional payment of one billion Cosmic Sand?" Luo Feng did not make the purchase, he was quite aware that since they could capture his image, they must know the body of the Emperor of Tian Kun was intact.

It could be deduced that the attack targeted the soul or the mind.

"Luo He, Luo He!" The Yu Shui Country Master communicated, "You know about the Emperor of Tian Kun's death, don't you?"

"Of course, I know," Luo Feng responded.

Find adventures on empire

"Flame Wind Pavilion and Thunderclap Commerce are publicly selling the intelligence, saying it was a soul-based or will-based attack that killed the Emperor of Tian Kun, and it looks like the Emperor of Tian Kun couldn't even reincarnate," the Yu Shui Country Master excitedly communicated, "This mysterious powerhouse... below Emperors and Monarchs... could probably kill instantly."

"Brother Yu Shui, you seem rather pleased with the disaster," Luo Feng remarked.

"The Ancestors of both countries, the Ancestor of the East Extreme Domain, Emperor Qing, Lord of Ten Thousand Realms, Sector Beast,

Emperor Ming... there are quite a few in the Land of Origin who could instantly kill us. One more doesn't make much difference," the Yu Shui Country Master laughed, "I'm happy because the Emperor of Tian Kun is truly dead, probably couldn't even reincarnate, and it's really exhilarating!"

Since Shi Kingdom and Yu Kingdom are neighbors, the Emperor of Tian Kun and the Yu Shui Country Master had fought for too long.

"Luo He, your controlled territory is near Shi Kingdom, and now that Shi Kingdom is leaderless, you could completely seize the entire Shi Kingdom!" the Yu Shui Country Master transmitted, "I'll definitely support you fully!"

Thank you to the three new Alliance Hierarchs who supported: Book Friend Corpses, Book Friend 20240720133747580, and Devour Forever.

Chapter 2 Shi Kingdom Territory

"Occupy the Shi Kingdom?" Luo Feng revealed a smile, "I indeed have such a plan!"

Upon hearing this, the Yu Shui Country Master immediately chuckled, "Haha… Luo He, when you were at the First Realm of Godly King, you were already undaunted by the Emperor of Tian Kun. Now that you've reached the Second Realm of Godly King, in terms of the multitude of methods at your disposal, you are even above the Emperor of Tian Kun! If you occupy the Shi Kingdom, I believe other powerhouses won't dare to compete."

A territory of a second-rate country, the mere display of a portion of Luo Feng's power qualified him to take it over.

"Don't rush."

Luo Feng responded, "The three sovereigns of the Shi Kingdom have just died. If I immediately occupy the Shi Kingdom, I fear it may draw the attention of that black-robed, golden-masked powerhouse. Once he is displeased, that would be trouble."

"Right, that mysterious powerhouse who single-handedly killed the three sovereigns of the Shi Kingdom must have had a vendetta with the Three Sovereigns of Shi Kingdom," Yu Shui Country Master said in agreement, "Right now, various forces are also watching over the Shi Kingdom; indeed, it is not suitable to make a move immediately."

"Let's wait for a day," said Luo Feng, "We'll act after one day, which can be seen as a sign of respect to that mysterious powerhouse."

"A day? There might be unforeseen changes," Yu Shui Country Master said worriedly, "Such a vast territory could attract other ancient

Godly Kings to make a move."

"To occupy such a vast territory is not easy," Luo Feng was very patient.

He was the one who had killed the three sovereigns of the Shi Kingdom.

Having just killed, then to immediately take over the Shi Kingdom! That could increase the suspicion on himself.

Luo Feng was not clear about the investigatory methods of the two Grand Ancient Countries; according to previous intelligence, both Ancient Countries had strong abilities to investigate the past and to deduce the secrets of heaven, and they might already suspect him.

Although Luo Feng was prepared for 'exposure', it would naturally be better if it happened later.

The later the exposure, the deeper his preparations! The easier it would be to deal with danger.

"I have already exchanged for the Special Grade Inheritance 'World Life Form' and 'Chaotic Hole Beast Body' in the Second Realm of Godly King, I must also properly comprehend it to increase my own accumulation," Luo Feng valued Special Grade Inheritance highly.

Upper-class Inheritances like 'Eight Tribulations Life Form' and 'Extermination of Seventy-Two Blades' were still too simple for him.

Only some extremely difficult Secret Techniques from the Special Grade Inheritance could better temper his comprehension!

"I also don't know if the two Grand Ancient Countries will discover me," Luo Feng was sensing in all directions with the aid of Star Tower, feeling the countless disciples within the Blade River Sect, sensing the innumerable populace within Huyang City.

If only for relying on the Twenty-Four Phase Form World Life, the Will Beyond God King Level, and numerous avatars… Luo Feng would be more cautious in his actions, he might even exchange for a Beyond God King Level Secret Treasure from the Infinite Space to

protect himself.

Without Star Tower, he was barely on par with an Emperor. Although he had the advantage of will, an Emperor typically possessed more than one Secret Treasure Beyond God King Level.

But with Star Tower!

Luo Feng was calmly prepared even for exposure.

The more he researched Star Tower, the clearer Luo Feng became on the dreadful might of Star Tower.

...

Within the boundaries of Thunder Ancient Country.

Inside an ancient hall, three figures were seated separately.

"I invited you two here today because there is a favor I need to ask," a huge figure with silver-white fur said while sitting there.

"Silver Moon God King, you have something to ask of us?"

The other two figures were somewhat surprised.

The figure with silver fur had a profound look in his eyes and said indifferently, "As you both know, just now, the three sovereigns of the Shi Kingdom died!"

"That black-robed, golden-masked powerhouse is extremely terrifying. Any monarch below would probably be powerless against him," the two powerhouses also understood the situation, knowing how formidable the murderer was.

"That powerhouse, his strength far exceeds ours, not someone we can provoke," the figure with the silver fur said, "But the Shi Kingdom is now without a master, and it is an opportune time to occupy."

"Silver Moon, are you going to leave Thunder Ancient Country?" the two powerhouses were surprised.

The Silver Moon God King, a Guest Elder God King of Thunder Ancient Country, had served for countless years.

"I have never completely joined Thunder Ancient Country," the figure with silver fur said, "I have loyally served them for countless years, yet many troublesome tasks were assigned to me. My True Body has been devoured by those madmen more than once."

Thunder Ancient Country's 'half-out-of-control' Monarch-Level powerhouses numbered three. When lucid, Thunder Ancient Country would let them roam! These monarchs needed minions when they were out, and the Royal Family God Kings would hide, so the Guest Elder God Kings had to obediently be minions.

Silver Moon God King was strong enough and as a guest elder, had followed more than one 'half-out-of-control' monarch. When a monarch went mad, driven by the craving of the Primordial Bloodline, they would devour all living creatures in the vicinity! At the very least, Silver Moon God King was able to resist for a moment or two, enough time to revive back via a Resurrection Carrier.

"I've had enough."

The figure with silver fur shook his head, "I've decided to take over the territory of the Shi Kingdom and live freely! No longer will I suffer in Thunder Ancient Country. I also invite both of you, my good friends, you are both adept with avatars. Each of you sends an avatar… I'll give each of you ten Chaos Hole Prefectures!"

The two powerhouses looked at each other.

Being adept at avatars was quite advantageous. Even the locations they could hold could be numerous.

"Okay."

"Fine," both agreed cheerfully.

On one hand, they would each have ten more Chaos Hole Prefectures, and on the other hand, they were willing to befriend Silver Moon God King! Silver Moon God King had on numerous occasions served the 'half-out-of-control' monarchs, which indirectly proved his

strength.

In direct combat, he was on par with the Emperor of Tian Kun, but regarding life force, he was considerably stronger than the Emperor of Tian Kun.

"When do we act?" the two powerhouses looked at Silver Moon God King.

Read exclusive chapters at empire

"As soon as dawn breaks, we'll move," Silver Moon God King looked outside, "Surviving this night can also be seen as a sign of respect to that mysterious powerhouse."

...

With the death of the Three Sovereigns of Shi Kingdom, Kufeng God King was scared into a frantic escape, while Liuyu God King couldn't escape in time due to her weak strength. None of the major forces in the Land of Origin cared for her.

Shi Kingdom temporarily lacked a ruler!

Shi Kingdom, now boasting a whole 135 Primal Chaos Prefectures, was considered quite sizeable even among second-tier kingdoms, naturally attracting numerous Overlord Level beings.

******

As night passed, dawn began to break.

Panic spread throughout the Eater King's Capital, where the Cultivators were well-informed of news. Knowing about the death of the three kings, they were naturally concerned that a great struggle would ensue! A clash at the Godly King Level, even a mere ripple of it, would turn them to dust.

At this moment, they could only feel uneasy and anxious, waiting apprehensively. Some Cultivators had even temporarily left the Royal Capital.

"Whoosh."

A massive figure appeared above the Royal Capital.

It was covered in silvery white fur, and its size was comparable to the True Body of the Emperor of Tian Kun! Its fluffy tail seemed to extend to the very end of the world. Its eyes were many times larger than the entire Royal Capital.

"From this moment on, Shi Kingdom shall be renamed 'Silver Moon Country'. I, Silver Moon God King, along with Sea Demon God King and Tian Yi God King, will rule the entire Silver Moon Country together!" This silvery figure's voice boomed, echoing throughout the entire territory of Shi Kingdom.

Behind the figure of silvery fur stood two other figures.

One was a figure condensed from endless water flows, and the other a vast ethereal figure.

It took the Emperor of Tian Kun long years to claim such a vast territory! The Silver Moon Wolf King wanted to pick the ripe fruits, but worried he wouldn't be intimidating enough on his own. Hence, he brought along the Sea Demon God King and Tian Yi God King, who had Avatars. Their joint forces naturally commanded a much greater deterrent power.

"Hahaha, Silver Moon God King, a mere Guest Elder from Thunder Ancient Country, crossing over half the Land of Origin to conquer Shi Kingdom?" A laughter sounded.

Two figures emerged from the void.

Silver Moon God King, Sea Demon God King, and Tian Yi God King looked over.

"I, Cold Forest Country, am adjacent to Shi Kingdom," said a towering bald figure coldly, "Shi Kingdom should belong to Cold Forest Country!"

"Cold Forest Country Lord?"

The three God Kings, Silver Moon God King, Sea Demon God King, and Tian Yi God King, didn't take much notice of the Cold Forest Country Lord, whose strength was relatively mediocre within the Second Realm of Godly King! The only thing he had to brag about was that he and the Emperor of Tianmu Kingdom, the Purple Wood Godly King, were close friends.

"I've already discussed this matter with Tianmu Kingdom, and they agree," the bald figure stated.

"You three, leave quickly." Next to the bald figure was a man in black Scale Armor, expressionless, but his presence was apprehensively noted by all three—Silver Moon Wolf King included.

"One of the six great Venerables of the Destruction Army, 'Dark Sky Venerable'," they naturally recognized.

The strongest force in Tianmu Kingdom was that Pinnacle Sector Beast.

That Sector Beast gave birth to a vast Destruction Army! The Destruction Army's strength ranged from high to low, with the highest being the Six Great Venerables! Each Venerable's strength could rival that of Emperor Gui Xu and Wuxin God King.

Six Venerables, eighteen Generals, thirty-six Leaders. All were Godly King Tier fighters within the Destruction Army.

Even the weakest of the army leaders was considered at the limit of the First Realm of Godly King.

"So what if it's Dark Sky Venerable?" Silver Moon God King sneered, "If all six Venerables from your Destruction Army came at once, I'd turn tail and leave immediately! But just you alone? Hmph." He had served half-outraged Monarchs, so why would he fear a single Venerable from the Destruction Army?

"Cold Forest Country Lord, you're overextending your strength by trying to claim Shi Kingdom... it will backfire on you," added Sea Demon God King.

...

Luo Feng had originally planned to wait a day before taking action, but who would have thought that as soon as dawn broke, some powerful beings couldn't wait any longer.

"Silver Moon God King has taken action with Sea Demon God King and Tian Yi God King, and the Cold Forest Country Lord has brought out Dark Sky Venerable from the Destruction Army of Tianmu Kingdom." Luo Feng nodded slightly, "They have all made their move, so it's only right that I do so too."

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

In an instant, five Silver-clothed Luo Fengs moved at once.

Each Silver-clothed Luo Feng contained roughly one percent of the 'World-lifebody'sTrueBody's' energy reserve! This also equated to about thirty percent of the Perfect Divine Body's energy reserve. It was already terrifyingly powerful.

If Luo Feng had the Will at the Ultimate Realm of a God King, even with an expansive soul foundation, controlling these five Avatars, each could only exert fifty to sixty percent of their strength.

But with Will Beyond God King Level, Luo Feng could easily manage his True Body.

Each of these five Avatars could envelop a territory range of 50 to 60 Primal Chaos Prefectures, with their Inner World at the center.

Yet, with the Life Lotus, the World-lifebody'sTrueBody could cover around 300 Primal Chaos Prefectures. At this moment, with just a thought, the Power of the World was already spreading throughout Shi Kingdom.

"Rumble~~~~"

The entire region of Shi Kingdom was engulfed.

The terrifying Power of the World spread everywhere, suppressing all directions, naturally including the Silver Moon God King, Sea Demon God King, Tian Yi God King, as well as the Cold Forest Country Lord and Dark Sky Venerable of the Destruction Army.

"Uh?" All five felt the immense oppressive force bearing down on them and their expressions changed slightly.

"I am Luo He."

Within the range engulfed by the Power of the World, all Creatures felt a shiver, a grandiose voice echoed through every city and wilderness.

"From this moment on, Shi Kingdom falls under the Blade River Sect's rule."

"Do any of you five have an objection?"

Five Silver-clothed Luo Fengs appeared above the Eater King's Capital, looking down at the five second-realm God Kings below.

Chapter 3 Making a Move

"Luo He is so domineering?"

Silver Moon Godly King, Sea Demon Godly King, Tian Yi Godly King, Cold Forest Country Lord, and Dark Sky Venerable were all somewhat dumbfounded!

They were all in the Second Realm of Godly King, and there was even a Venerable from the Destruction Army among them! Luo He Godly King didn't take them seriously at all, intending to completely monopolize the entire territory of Shi Kingdom and even asked them if they had any objections?

"Luo He, you are being too domineering!" Cold Forest Country Lord rebuked angrily—he was a close friend of the Purple Wood Godly King from Tianmu Kingdom, and most forces on the Land of Origin had to show him some respect.

Dark Sky Venerable looked on with a cold gaze, merely observing Luo Feng.

"Luo He Godly King, we five are here, and yet you want to monopolize the entirety of Shi Kingdom? Isn't that too much?" Silver Moon Godly King spoke, "I think we can discuss this properly and divide Shi Kingdom among us, each of us taking a part."

Silver Moon Godly King had realized that the situation was turning unfavorable.

Dark Sky Venerable was already immensely strong and represented the Destruction Army. Luo He had just become a Godly King and could contend with the Emperor of Tian Kun. Now, he was in the Second Realm of Godly King, and his strength was unpredictable. Silver Moon Godly King no longer harbored hopes of monopolizing Shi Kingdom alone.

"Cold Forest Country and Blade River Sect are neighbors of Shi Kingdom, each having only one in the Second Realm of Godly King. The thirty Primal Chaos Prefectures adjacent to you belong to you," Silver Moon Godly King proposed, "The remaining Primal Chaos Prefectures belong to the three of us in the Second Realm, how about that?"

"135 Primal Chaos Prefectures, and Luo He and I each get 30, but you want to take 75?" Cold Forest Country Lord laughed bitterly, "Silver Moon, aren't your hopes too high?"

"We three Godly Kings in the Second Realm, averaging twenty to thirty Primal Chaos Prefectures each—it's not too much," Silver Moon Godly King reasoned.

"Cold Forest Country is a second-rate country as is; gaining some Primal Chaos Prefectures this time is already tremendous!" Tian Yi Godly King frowned as he spoke.

"I want at least 50 Primal Chaos Prefectures!" said Cold Forest Country Lord.

At the level of the Second Realm of Godly King, when they couldn't overpower each other, negotiations usually decided the division of interests.

"Gentlemen,"

Five silver-clothed Luo Fengs stood in the distance, looking at them, "I made myself clear—the entire territory of Shi Kingdom belongs to Blade River Sect! There's no room for negotiation!"

Silver Moon Godly King and Cold Forest Country Lord, who had already begun negotiating, were shocked and turned towards Luo Feng.

"If you disagree, old rules apply—strength will decide," Luo Feng said, looking at them, "You can invite as many friends as you like! For every friend you invite, I'll send an avatar! One on one guaranteed!"

"Arrogant!"

"That Luo He!"

Silver Moon Godly King and Cold Forest Country Lord were each furious.

This Luo He was too excessive, aiming to monopolize everything! Not even leaving them a drop of soup.

"Finally, I'll give you ten breaths to consider. If you don't leave, I'll make my move," the five silver-clothed Luo Fengs said coldly, watching them.

…

The confrontation within the territory of Shi Kingdom, gathering six Godly Kings in the Second Realm, naturally attracted attention from various forces across the Land of Origin.

"Cold Forest Country Lord is so mediocre, barely managing to protect his own country. And yet he dreams of occupying a part of Shi Kingdom?" Emperor Chu watched from afar, "Silver Moon pulling together two helpers, they think they can compete with my disciple?"

In terms of strength, deterrent power, and background, his disciple Luo Feng surpassed both Cold Forest Country Lord and Silver Moon Godly King.

In Emperor Chu's view, for his disciple Luo Feng with his current strength, merely occupying the current twenty Primal Chaos Prefectures was deemed too little! Occupying the territory of Shi Kingdom was just barely adequate for Luo Feng's capabilities.

"But this time, Luo He should reveal some of his strength," Emperor Chu said with a smile, watching. "The last time he released Blade Light, he defeated an ordinary Godly King in the Second Realm. It proves his high level! But that clearly wasn't all his strength." Continue your journey at empire

With his disciple advancing so

fast, Emperor Chu wasn't entirely sure about how powerful his disciple truly was.

…

"Since Tian Kun was killed, his neighbors and Silver Moon Godly King have started scheming to take over his domain." Di Yan also watched from a distance, unconcerned with the struggle over Shi Kingdom's territory.

Di Yan cared more about tracking down the murderer who had killed Tian Kun.

"The Land of Origin knows that Tian Kun was following me," Di Yan's gaze was icy, "The murderer didn't care about losing face with me and still killed Tian Kun and the others."

"That murderer…"

With a wave of his hand, an image of a man in a black robe and a golden mask appeared before Di Yan, the man's presence profound, also mixed with great terror.

"Who exactly are you?" Di Yan's brow furrowed.

Just from seeing this image, Di Yan instinctively felt a significant threat.

"In Wind City, the Shadow Sky Realm, the Earth God King, Fire Ancestor, Zongfu—none of them have posed such a threat to me," Di Yan observed. "You're well-hidden, but as long as you care about resources, acting repeatedly will ultimately expose you."

Di Yan continued to watch the battle.

"This Luo He has high potential; if left uncontrolled, he might become another Zongfu!" Di Yan watched, "It's a pity, Emperor Chu is protecting him, and it seems Di Fu also highly regards Luo He."

Di Fu had even assigned Luo Feng to garrison the Heavenly Pillar Realm, clearly indicating his stance.

"As a member of the Imperial Clan, yet favoring independent cultivators." Di Yan bore hostility toward all independent cultivators, but alas, even if he were in the position of the ancestors of two

countries, favoring independent cultivators, he couldn't change it.

…

One by one, powerhouses on the Land of Origin, including those on good terms with Luo Feng like the Wind City Empress, Emperor Gui Xu, Wuxin Godly King, and Yu Shui Country Master, were watching the battle, as were Di Chuying and Emperor Chu Yu, who were using the recorded images from Flame Wind Pavilion to watch this confrontation.

"I wonder how much strength my disciple will reveal this time," said Mountain Sitting Guest in Thunder Ancient Country, also watching the battle through images recorded by Thunderclap Commerce.

******

At this moment, in the high-altitude area around the capital city of Shi Kingdom, invisible fluctuations were already clashing.

The Power of the World suppressed the surroundings, and forces of destruction, icy chills, and surging waters all resisted—the three Godly Kings in the Second Realm and Cold Forest Country Lord and Dark Sky Venerable were all ready to engage.

It wasn't possible that a few words from Luo Feng would make them slink away!

"Luo He, it's better for all of us if we divide Shi Kingdom together!" Silver Moon Godly King continued to speak.

"Ten breaths are up!" All five silver-clothed Luo Fengs extended their hands, and a Blade Light appeared in each palm.

This blade light,

At first glance, it was pitch black with edges that shimmered in azure blue.

Chaos Hole Undying Light! It was nurtured within Luo He's inner world; the stronger the inner world, the more blade light it could accumulate, and the "Chaos Hole Undying Light" could be refined to

higher levels.

After reaching the Twenty-four Phase Form World Life Form, the inner worlds of the five avatars had become much stronger. Although they weren't as potent as the True Body, they all possessed some traits of an Ultimate Realm Life Form.

With such inner worlds, the might of the "Chaos Hole Undying Light" could be well imagined.

The Silver Moon Godly King, along with the three others, Cold Forest Country Lord, and Dark Sky Venerable, felt their hearts pound instinctively at the sight of the five pitch-black blade lights in the palms of Luo He's five avatars.

"Go!" Five Silver-clothed Luo Hes released the blade lights simultaneously.

Shooo shooo shooo shooo shooo!

The moment the five pitch-black blade lights were released, they immediately reached the Five Second Realm Godly Kings.

Too fast, impossible to dodge!

"Puh!"

In a split second, the Cold Forest Country Lord was bisected from his waist, a look of terror in his eyes! The blade light had swelled enormously, and with the first strike, it immediately obliterated a significant portion of the Cold Forest Country Lord's Divine Power Reserve. The blade light flashed again, continuing to cut through.

"If it strikes two more times, won't I be utterly dead?" Terrified, the Cold Forest Country Lord immediately abandoned his True Body. His resurrection carrier, far within the borders of Tianmu Kingdom, had already awakened.

Chaos Hole Undying Light!

Its pursuit was to cut through all things. While it pursued the ultimate sharpness, it was somewhat inferior in terms of erosion and

obliteration. Usually, it relied on the blade light slicing multiple times, eroding repeatedly, to completely obliterate a body.

This was Luo He's kindness!

Chaos Hole Undying Light, cutting over and over again, giving the enemy enough time to resurrect through their 'resurrection carrier.'

If it were a technique like "Great Extinction Style," with its overwhelming destructive erosion, a weaker Second Realm Godly King might be obliterated in one move, without even a chance for rebirth.

After all, it was just a struggle for territories; there was no need to be too harsh! Moreover... Luo He hadn't planned on revealing the Great Extinction Style yet. With his formidable stature, ordinary techniques were sufficient.

Like Chaos Hole Undying Light, it was also an integration technique of the five major branches, strong enough.

"Puh."

The Sea Demon Godly King, whose body was comprised of endless water flows, was sliced by a huge blade light, and a portion of his water flow divine power was instantly annihilated. This frightened the Sea Demon Godly King.

"Just one hit, and two-tenths of the divine power in this avatar has been destroyed?" The Sea Demon Godly King was shocked, although it was just one of his ordinary avatars, Luo He had also merely sent an avatar.

Both were Second Realm Godly Kings, both using avatars, yet the disparity was so vast?

"Puh puh puh." This swath of blade light, condensed from endless blade lights, inherently had a terrifying energy reserve and self-recovery ability. It moved extremely quickly, continuously slaying.

"How terrifying is this blade light?" In the blink of an eye, this body of the Sea Demon Godly King was completely obliterated.

"Silver Moon, Luo He is too strong. Let's withdraw." The true body of Sea Demon Godly King, far away, sent a causation transmission.

"Puh."

The body of the Tian Yi Godly King flickered ethereally, and in the moment he was hit, he escaped trillions of kilometers away.

But the pursuing blade light flashed and had already caught up, sweeping across his ethereal body again.

"Huh huh huh." The ethereal body of Tian Yi Godly King flickered repeatedly, eerily elusive. But the swath of blade light completely locked on him, persistently pursuing and attacking.

"Silver Moon, let's withdraw. This Luo He is too frightening," Tian Yi Godly King transmitted before saying, "I'm running first!"

Huh.

Subsequently, the avatar of Tian Yi Godly King, having already lost over half of its Divine Power Reserve, vanished in a flash, completely leaving the vast surrounding territory. Luo He's Chaos Hole Undying Light could no longer find the target.

Tian Yi Godly King traversed the Origin Dao of the Infinite; if truly fleeing long distances, Chaos Hole Undying Light couldn't lock on.

Within the range covered by the Power of Luo He's World, that was the actionable range for the Chaos Hole Undying Light.

"Brother Sea Demon's avatar is destroyed, Tian Yi's avatar escaped." Silver Moon Godly King was in his True Body, his massive true body contending against the terrifying blade light before him.

This swath of blade light cut everything.

Again and again, it left massive wounds on Silver Moon's body, eroding and damaging the body of the Silver Moon Godly King. But the wounds on Silver Moon Godly King also healed rapidly.

"This blade light..."

Dark Sky Venerable stood there, the blade light striking his body's black scale armor, merely causing one or two black scales to shatter, but they healed in an instant. Dark clouds rose around the Dark Sky Venerable, attempting to entangle the blade light.

But the blade light, much faster than the movement of the godly kings, rapidly and unpredictably sliced through the body of the Dark Sky Venerable, each time a few scales shattering then rapidly healing.

"Now, only you two are left." Five Silver-clothed Luo Hes looked at Dark Sky Venerable and Silver Moon Godly King.

Luo He also sensed the difference in strength.

Dark Sky Venerable was indeed the most terrifying existence in the Destruction Army! His own "Chaos Hole Undying Light" was merely tickling him.

Silver Moon Godly King's strength was mediocre, unable to withstand his Chaos Hole Undying Light, but his body's life force was exceedingly tenacious.

"Go." Luo He waved his hand.

Five pitch-black blade lights simultaneously assaulted Silver Moon Godly King.

"Five attacking me?" Silver Moon Godly King's expression changed. He couldn't even block one swift, elusive blade light, only able to withstand it forcefully. Five blade lights ganging up?

"This Luo He is not easy to mess with." Silver Moon Godly King clenched his teeth, instantly turning into a streak of light diving into the Void, even though he was instantly hit by dozens of strikes from the five blade lights' collaborative attack, scattering hair and blood into the sky. Yet, Silver Moon Wolf King still forcefully escaped.

He didn't want the territory of the Eater King anymore!

With Luo He Godly King as a neighbor, he couldn't defend his territory.

"Dark Sky Venerable, only you are left now." The five Silver-clothed Luo Hes, watching the Silver Moon Godly King, smiled faintly. All five blade lights returned, being absorbed back into their inner worlds.

Chapter 4 The Terrifyingly Talented Luo He God King

Huyang City, Morosa also looked toward the direction of the Eater King's Capital from afar.

"Something's amiss; the life of the Dark Sky Venerable... doesn't quite align with the direction of nurturing an inner world!"

As a God King Second Realm Beast, Morosa had a certain perception of the abilities possessed by the Pinnacle Sector Beast and could even nurture an army right now. However, he refrained from doing so only to conceal his identity.

Therefore, as he observed the figure of the Dark Sky Venerable, Morosa sensed something was wrong and immediately used telepathy to contact Luo Feng, "Master! A Pinnacle Sector Beast can nurture a powerful Destruction Army, which should be able to produce warriors stronger than itself."

"Sector Beasts are very balanced in all aspects."

Find exclusive stories on empire

"Destruction Army leans more towards combat," Morosa transmitted telepathically. "An army nurtured by a Pinnacle Sector Beast must first have a commander, who could be called the 'Destruction Emperor,' governed by eighteen generals and thirty-six leaders."

"The Destruction Emperor is the most perfect Ultimate Realm warrior! Inferior to Sector Beasts in terms of survival but stronger in combat."

"I feel that the life of the Dark Sky Venerable is incomplete! The fusion of six Venerables should be the Destruction Emperor," Morosa

transmitted. "As a part of the Destruction Emperor, the life form should be immensely strong, master you must be careful."

...

Luo Feng heard Morosa's telepathic message.

Good heavens.

The Sector Beast of Tianmu Kingdom was too low-profile, splitting the most terrifying leader of the Destruction Army into six Venerables.

"Luo He." The Dark Sky Venerable looked at Luo Feng and smiled, "Your talent is indeed remarkable, but a mere avatar of yours is no threat to me. Send up all five of your avatars!"

The previous four God Kings of the Second Realm, the Dark Sky Venerable had not considered a threat! Even the Silver Moon God King whose strength was on par with the Emperor of Tian Kun, the Dark Sky Venerable ignored.

"All five together?" Five silver-clothed Luo Fengs looked at him, "No need!"

One silver-clothed Luo Feng stood there, his silver robe rapidly spreading to transform into an endless silver river! This vast silver river swept across trillions of kilometers, enveloping heaven and earth, and trapped the Dark Sky Venerable.

"Annihilate!" The silver-clothed Luo Feng stood amidst the vast river; the river trapped and corroded the Dark Sky Venerable.

This corrosive power was clearly stronger than the previous Chaotic Hole Undying Light, causing the scale armor on the body of the Dark Sky Venerable to shatter and reveal the green flesh beneath! The flesh was being eroded.

"This corrosive power?" The Dark Sky Venerable was a bit surprised, "It has the essence of my path of destruction, possessing extensive destructiveness, and the matter forming this river is terrifying; each portion of force is filled with endless vitality, constantly corroding

and wearing away my physical body."

The killing techniques Luo Feng employed at this phase included the Star Tower, Will Beyond God King Level, Twenty-four Phase Form World Life, and Great Extinction Style.

The previous Chaotic Hole Undying Light belonged to a powerful move of the Second Realm of God King.

Thus, employing the corrosive technique with his physical body now truly displayed the terrifying aspect of his physical body!

"What? It can actually cause the Dark Sky Venerable light injuries?"

"This Luo He's river domain is so terrifyingly corrosive?"

Observers from all around the Land of Origin were shocked.

"This Dark Sky Venerable's technique realm is slightly inferior to mine. But its physical body is still superior to mine," Emperor Gui Xu watched the scene, "Luo He's brotherly domain's erosion caused the Dark Sky Venerable light injuries; if I were in his place, my injuries might even be more severe."

"What a terrifying domain." Wuxin God King also secretly marveled, "Even someone with my movement technique prowess can only flee faced with such a vast domain."

No matter how powerful one's movement or escape skills are, the domain is a large-spanning cover! Anyone daring to fight Luo Feng at close range is bound to be eroded by the domain.

...

This domain's prowess made everyone acknowledge Luo Feng's strength.

"Boom." The Dark Sky Venerable moved; despite the hindrance of the endless river, his speed remained extraordinarily fast, breaking through all obstructions of the river, heading straight for that silver-clothed Luo Feng avatar.

"Destroy!"

As the Dark Sky Venerable charged forward, he also unleashed a punch.

This punch affected the operational rules of heaven and earth, locking onto Luo Feng's avatar completely, unavoidable, with an endless horrifying force bearing down! Yet Luo Feng responded with a palm strike like a blade, slashing forward.

This strike was like a great sun appearing between heaven and earth! This great sun collided directly with the punch.

"Blast~~~" The terrifying force from the collision swept across all directions and even impacted towards the nearby Eater King's Capital! Countless cultivators in the Eater King's Capital were utterly terrified, feeling as though death was descending.

Whooo~~~

The Galaxy shrouded all around, completely restraining the collateral force.

The Dark Sky Venerable still stood in his original place after the punch, only a few scales fractured on his fist.

But Luo Feng was sent flying backward before he could stabilize, his right hand dripping with blood.

"My physical body is slightly inferior to his, and so is the realm of techniques," Luo Feng realized the gap between them upon clashing; this avatar was just one percent of the World-lifebody's True Body's energy reserve, still slightly inferior when compared to the Dark Sky Venerable.

"Boom!"

In the vast silver river, the Dark Sky Venerable charged and rushed towards Luo Feng relentlessly, as Luo Feng used him as a whetstone, repeatedly testing his own techniques.

Luo Feng studied the deep secret patterns of the Star Tower, Life,

Destruction, Integration of Life and Death... He gained insights! Although not as perfect as the 'Great Extinction Style,' it was still quite formidable.

Now he tested it in actual combat!

The Dark Sky Venerable, deemed the darling of the path of destruction origin, continuously pressed Luo Feng hard with various techniques.

The two fought for a moment, exchanging hundreds of moves!

"Even a mere avatar of Luo He, his physical body is only slightly weaker than mine," Dark Sky Venerable was secretly alarmed, "Moreover, his vitality is even more terrifying than mine; even after so much fighting, his Divine Power Reserve hasn't diminished at all."

Neither's energy reserves had been spent.

This was the result of a terrifyingly powerful physical body.

"I can't always be helping the Cold Forest Country Lord guard his territory, this Shi Kingdom will ultimately fall to Luo He," Dark Sky Venerable realized this fact.

"However, I can't let my Destruction Army lose its prestige!"

Dark Sky Venerable's eyes turned cold, and a long stick appeared in his hand—it was a God-King Ultimate Realm Weapon!

For Tianmu Kingdom, it was difficult to procure a weapon beyond the God-King level. However, weapons and secret treasures of the God-King Ultimate Realm level were still accessible. Each of the Six Great Venerables possessed one such suitable weapon of the ultimate realm.

"Rip!"

As soon as the stick in Dark Sky Venerable's hand swept out, it instantly tore open the heavens and the earth, creating a small, finger-wide fissure in the membrane wall of the Source World.

The fissure extended all the way to Luo Feng's avatar.

"Puff!" Luo Feng's physical body was torn open with a huge wound.

"Ultimate Realm technique." Luo Feng realized in the moment he was hit that Dark Sky Venerable's skill with his own techniques was slightly inferior, but with the aid of a God-King Ultimate Realm weapon, he unleashed an even more horrifying power.

"His Godly body takes this hit, and the energy expenditure seems negligible?" Dark Sky Venerable was startled.

This scene also alarmed many strong beings of the Land of Origin.

"Luo He, already powerful at the First Realm of Godly King in terms of his physical body, has now reached the Second Realm... His physical body has become even more formidable!" Emperor Di Yan was secretly alarmed, "In the Land of Origin, there are few who can kill Luo He now."

"Emperor Qing, Emperor Ming might be able to completely eliminate Luo He."

"But I am no longer capable."

Emperor Di Yan disliked this feeling, but the reality was right in front of him: even a single avatar of Luo He was tremendously difficult to deal with! Completely destroying his many hidden avatars seemed nearly impossible.

"Good!" Emperor Chu, however, was quite delighted.

"My disciple has exceptional talent; what he needs now is time! Given enough time to grow, I believe he might face the Emperors directly in the future," Emperor Chu thought.

His current disciple, besides being tough and resilient, was still naïve in his techniques! He hadn't grasped a single Ultimate Realm secret technique nor possessed any powerful secret treasures.

Yet, solely with such a formidable physical body, Emperors and Monarchs too must now take Luo He seriously.

...

"Dark Sky Venerable, I too have a weapon; please give this a try." Luo Feng extended his hand, and the Bloodshadow Knife appeared in it.

The Bloodshadow Knife, as a God-King Ultimate Realm Blade Embryo with Secret Patterns needing Luo Feng's own inscription, was originally intended for Luo Feng to imprint primarily with patterns of destruction, since the path of Life and Death wasn't systematic yet. The path of destruction had guidance from a Special Grade Inheritance.

However, after observing the deeper secret patterns within the Star Tower, Luo Feng changed his mind.

The secret patterns inside the Star Tower were systematic and could perfectly complement each other.

Luo Feng contemplated this.

He began integrating the comprehensible secret patterns of life and destruction into the Bloodshadow Knife! The Bloodshadow Knife could be said to be a 'super-simplified version' of the Star Tower, primarily based on patterns of life and destruction, complementing each other.

"Buzz." Luo Feng held the Bloodshadow Knife, its blade light terrifyingly formidable.

"Slash!"

The secret patterns in the blade, inscribed by himself, were naturally easy to invoke, allowing him to perfectly wield the fearsome might of the Bloodshadow Knife.

The blade reached Dark Sky Venerable in an instant, who disdainfully didn't dodge and instead countered with a swing of his stick!

The blade edge and the long stick collided!

Boom!!!

Dark Sky Venerable, astonished, felt the heaviness of the blow, even surpassing his stick technique.

His stick technique contained many characteristics of the path of destruction, but Luo Feng's blade... its only character was 'heaviness'! Extremely heavy! Dark Sky Venerable forcefully endured it with his strong body.

Neither moved in midair.

This strike, though, was equal in power.

"God-King Ultimate Realm weapon, and you can wield it?" Dark Sky Venerable looked at Luo Feng, "Impressive, impressive."

Harnessing a God-King Ultimate Realm weapon to perform its ultimate techniques was not easy, as it required understanding the mysteries of the weapon's secret treasures.

"My blade technique relies on heaviness to win, yet it couldn't make you, Dark Sky Venerable, step back; I am still considerably weaker." Luo Feng observed him.

"You've won."

Dark Sky Venerable coldly glanced at Luo Feng, "And this is just one of your avatars."

Aware that he stood no chance against even an avatar, Dark Sky Venerable knew he had lost! Instantly, he stepped forward and traversed the Void, returning to Tianmu Kingdom!

At this moment, the various strong beings across the Land of Origin who witnessed this battle finally realized just how terrifying 'Luo He God King' really was! Even more daunting than Emperor Gui Xu, Wuxin God King.

Perhaps only under the Wind City Empress, Mother River Master, and possibly comparable to Pu Xin, Time-Space Lonely Boat's Boat Master, Yu Fu God King.

Chapter 5 Emperor Chu Yu and Moyu Qingyan

As the Dark Sky Venerable left, only Luo Feng's five avatars remained in the skies above the Eater King's Capital.

"No one is coming to contend anymore." Luo Feng's Power of the World enveloped the entire territory of the Shi Kingdom, and he detected no other powerful beings infiltrating it.

"The power I displayed this time was just right, not posing a threat as overwhelming as the Earth God King or the Mother River Master, yet the emperors and monarchs would need to weigh their options carefully if they want to confront me," Luo Feng thought.

If Luo Feng had been a God King Ultimate Realm Will, controlling the 'Twenty-four Forms' with his five avatars to burst forth such power would indeed have been his limit, and he certainly couldn't compete with emperors and monarchs.

"It's time to claim the entire territory of the Shi Kingdom." Luo Feng also knew that taking over and managing such a vast territory was no easy task. Fortunately, over the long years, the Blade River Sect had nurtured a multitude of disciples.

Now, it was time for these disciples to take charge of the expansive territories.

Whoosh!

Luo Feng's five avatars also vanished.

...

Chu Capital.

Marquis Chu Yu hosted a lavish banquet, with many marquises, guest elders, and Godly King disciples from Emperor Chu's Lineage in attendance.

"Brother Luo He is my life-and-death brother," Marquis Chu Yu said from the head of the table, raising his wine cup, "We both started from humble beginnings, back in Huyang City, when I was still an eternal true god. He too was an eternal true god! Later, we both came to Chu Capital, and the first guest elder I had was Brother Luo He..."

Marquis Chu Yu boasted.

The surrounding marquises, guest elders, and Godly King disciples lavished their praises as well.

"This is destiny!"

"Luo He God King truly is remarkable. Initially, he was the unparalleled transcendent of the Primal Chaos Realm, then he became the invincible First Realm of Godly King, and now even just one of his avatars is enough to rival one of the six leaders of the Destruction Army, the Dark Sky Venerable..."

"Such natural talent is truly enviable."

These beings from the Primal Chaos Realm, whether they were marquises from the Imperial Clan or guest elders, all envied him immensely.

Perhaps some powerful God Kings from the Imperial Clan could still maintain their pride before Luo Feng! But these Imperial Clan marquises had no pride left, only looking up to him in absolute respect! After all, 'Luo He God King' was only a step away from the emperors and monarchs.

Of course, this step was as formidable as a chasm in the heavens!

"Brother Luo He is Brother Luo He, and I am me," sighed Marquis Chu Yu, "I can't even grasp the branches of the Great Dao, filled with endless confusion."

"Brother Chu Yu's time in cultivation is still short, we believe that you

will definitely become a Godly King in the future," the guests flattered.

Now, amongst the many marquises of the thirteen lines of the Imperial Clan, Marquis Chu Yu had a far-reaching reputation! After all, he had a good brother 'Luo He God King,' so even ordinary God Kings from the Imperial Clan dared not treat him lightly.

The powerful God Kings of the Imperial Clan had pride, but ordinary God Kings who had been trapped in the First Realm of Godly King for a long time were not valued within the clan, receiving fewer resources! These ordinary God Kings also thought about making connections with Luo He!

...

"God King, Emperor Chu Yu is currently entertaining guests. This time, one of Luo He's avatars proved capable of rivaling one of the six leaders of the Destruction Army, the 'Dark Sky Venerable,' and it has really brought Emperor Chu Yu quite a few benefits," a tall and thin elder spoke, "Speaking of which, you also have connections with Luo He. You helped to secure a guest elder position for Luo He back then."

God King Chu Ying smiled.

At that time, giving Luo He a guest elder position was considered by Marquis Chu Ying to be the most 'astute' decision.

Luo Feng thereby owed God King Chu Ying a great favor.

The stronger Luo Feng's power grew, the more valuable this favor became!

"With Brother Luo He's rate of growth, he may reach even greater heights in the future," God King Chu Ying said, knowing his own limits. He had spent such a long time becoming a God King, and he knew the journey ahead would only get harder.

Thus, he needed support!

The rules within the Imperial Clan were strict, with each God King

having a corresponding resource quota. As for the thirteen emperors, apart from Emperor Qing, the other emperors all owed the Imperial Clan an immense debt of wealth. They simply couldn't help God King Chu Ying much.

"This favor should be kept for as long as possible, the longer the better," God King Chu Ying also had patience, naturally using the resources of the Imperial Clan to improve himself as much as possible.

When there's no further progress to be made, completely stuck at a bottleneck, then seek external assistance.

******

In Liuyu City, within the King's Palace.

Liuyu God King, one of the five God Kings of the Shi Kingdom who didn't flee, was feeling uneasy as she waited.

"Hm?"

Liuyu God King suddenly saw an invisible force converging, forming the figure of Luo Feng, who was calmly looking at her.

Now, with the entire territory of the Shi Kingdom enveloped by the Power of the World, Luo Feng naturally condensed an avatar in a thought.

"Liuyu pays respects to Luo He God King," Liuyu God King said with the utmost respect as she bowed.

"Kufeng God King has moved his kin and fled away. Yet you stayed here and didn't leave," Luo Feng looked at her.

Liuyu God King said helplessly, "My kin have been thriving for countless years, rooted deeply in this land, and moving them is too difficult. That was why we joined the Shi Kingdom in the first place, and now I hope that Luo He God King will take us in. I am willing to serve Luo He God King."

Luo Feng understood well.

Liuyu God King's kin, with their long and storied history, were comparable to the 'Jin State' of his teacher, the Mountain Sitting Guest, with a vast kin spread across numerous large cities and even many wilderness tribes.

"If one's heart is hard enough," she thought, "one could simply migrate the elite of the tribe away."

But the Liuyu God King cared deeply about the entire tribe.

Whether it was the original decision to join the Eater King's Capital or now to serve Luo Feng, it was all for the sake of the tribe.

"Alright, but your fiefdom only consists of five Primal Chaos Prefectures," Luo Feng looked at her.

With numerous avatars and the Power of the World that could envelop the entire territory in a thought, whether he had a Godly King under his command was not important to Luo Feng.

The Liuyu God King was slightly startled, and respectfully replied, "Yes, I am willing to reduce my fiefdom to five Primal Chaos Prefectures, but I hope that countless creatures within the original 'Liuyu Country' can be spared from large-scale captures."

"I'm not the Emperor of Tian Kun who needs to consume countless creatures," Luo Feng said as he looked at her, "In all the territories under my command, large-scale captures of countless creatures are prohibited."

Cultivators' normal battles and slaughters, even clan annihilations among some wilderness tribes, Luo Feng would not mind.

But systematic capturing of countless creatures as food like the Emperor of Tian Kun did was strictly forbidden by Luo Feng.

"The Luo He God King is merciful," the Liuyu God King rejoiced.

"You will work with Yuan, Luo Sa, and Xin Yu to take charge of receiving the entire Eater King's Capital territory," Luo Feng waved his hand, and twenty names appeared in front of him, "These twenty Primal Chaos Realm cultivators, if they are willing, can continue to

govern their original fiefdoms. All other Primal Chaos Realm cultivators... must be expelled."

Luo Feng had reviewed the Primal Chaos Realm cultivators from the Eater King's Capital and deemed that only twenty were worth recruiting.

As for the others who had long followed the three kings of the Eater King's Capital, their styles were similar. Luo Feng knew they were just following orders, but still did not bother to take them in.

"Yes," the Liuyu God King respectfully took the order.

...

Receiving the entire Eater King's Capital territory involved many aspects.

The handover of various cities, various assets, some places that nurtured heaven and earth's treasures, numerous mines in the wilderness, some artifact refining, alchemy, and other industry chains... The handover was complicated.

The entire reception task was primarily handled by Yuan and Morosa, with assistance from the second disciple Xin Yu and the Liuyu God King! The Blade River Sect's many disciples were responsible for specific duties! At the same time, Luo Feng's Power of the World enveloped the entire territory, aiding in the completion of the reception.

Because the Power of the World enwrapped everything, none of the actions of all the powers, large or small, within the territory could escape Luo Feng's notice.

At first, there were some greedy individuals who wanted to take a great amount of treasures and resources away, but after Luo Feng severely punished them, destroying three Primal Chaos Realm cultivators, everyone promptly became much more docile.

Of course, Luo Feng only destroyed the Primal Chaos Realm true bodies and took all their treasures, expelling them from the territory without completely annihilating them. However, this punishment still

frightened all the various powers within the territory and also made the subsequent reception go much smoother.

Enjoy new chapters from empire

"Master, the reception is essentially completed, but there have been quite a few losses during the handover process," Morosa respectfully reported.

"Losses?" Luo Feng looked at him.

"Those Primal Chaos Realm cultivators were expelled, and they took their families and subordinates with them," Morosa reported, "Their families were previously in charge of many industries, and suddenly without so many leaders, a lot of businesses could no longer operate. These losses were unavoidable."

Luo Feng nodded.

Many of the elites from previous cities were direct subordinates or even family members of the Primal Chaos Realm cultivators. Their expulsion indeed had a significant impact.

"The impact is temporary," Luo Feng said. "After the reception tasks are handled properly, discuss with Yuan and prepare for the next large-scale recruitment of disciples by Blade River Sect! This time, the scale should be at least ten times that of the past."

"Such a large scale?" Morosa's eyes lit up.

"With countless citizens across the 135 Primal Chaos Prefectures of the Eater King's Capital territory, who have suffered for long years, this large-scale recruitment of disciples can be considered a great opportunity for cultivators," Luo Feng explained.

Morosa nodded.

As master and servant were talking, they suddenly turned their heads toward the direction of the Blade River Sect's base.

"Has Qingyan broken through?" Morosa showed a look of surprise.

"He actually broke through, faster than I anticipated," Luo Feng also smiled.

...

In the Quiet Room of Moyu Qingyan's cave mansion within Blade River Sect,

Moyu Qingyan had always longed for a breakthrough! He had followed Luo Feng from the very beginning in the Land of Origin, receiving careful guidance from Morosa, and later, advice from Yuan! As Luo Feng's status rose higher and higher, as his only Direct Disciple, the resources he received were the best.

Even Morosa secretly shared some resources that he managed to obtain with Moyu Qingyan.

"Junior brother Xin Yu has broken through and become a Primal Chaos Realm cultivator."

"Master has also taken in a group of Registered Disciples, many of whose talents are above mine."

As the eldest senior disciple of Blade River Sect!

The pressure on Moyu Qingyan was naturally enormous.

The only thing he could do was to be even more diligent!

Consulting with Yuan, consulting with second master Luo Sa, and even thickening his skin to consult with master Luo He! Master rarely gave guidance, but every time he did, Moyu Qingyan would study every word said by the master, ponder it a hundred, a thousand times over.

"Me?" Moyu Qingyan felt the transformation of his bloodline within him, though he did not yet fully understand, he could already control the Primal Chaos Laws.

"I've broken through; my bloodline has transformed," Moyu Qingyan's eyes brimmed with tears of excitement.

Finally, he had broken through.

As the second one under his master's guidance to become Primal Chaos Realm! Although he was only a Primal Chaos Realm cultivator through the bloodline path!

Chapter 244 6 episodes 6 chapters Morosa's Food

After the Bloodline Transformation of Moyu Qingyan, the godly body also needed transformation and growth.

During his seclusion, the Blade River Sect began the largest scale recruitment of disciples since its establishment. The "Initial Disciple Selection" took place simultaneously in every major city of the 155 Primal Chaos Prefectures governed by the Blade River Sect.

As long as one passed the initial selection, they would become a common disciple of the Blade River Sect.

Afterwards, these disciples would be sent to Huyang City together, where a more stringent selection at the sect headquarters would pick out the more elite "Core Disciples". Only the Core Disciples were qualified to cultivate at the headquarters in Huyang City. The vast majority of common disciples would cultivate at the branch locations.

Above the Core Disciples, a very few dazzling prodigies would be selected, with the hope of becoming disciples under the Sect Master "Luo He God King" and becoming registered disciples of Luo He God King.

As for being a Direct Disciple of Luo He God King?

It would depend on fate!

Since its establishment, Luo He God King had two Direct Disciples: one was the elder disciple "Moyu Qingyan," who had followed the God King since the eternal true god stage, and the other was the younger disciple "Xin Yu," who was chosen when the Blade River Sect was first established.

...

Blade River Sect, Main Hall of the Sect Headquarters.

Sect Master Luo Feng sat high in the main hall, flanked by Yuan, Morosa, Xin Yu, and Liuyu God King. Liuyu God King was now a Guest Elder of the Blade River Sect.

Inside the hall, there were thirty-two Registered Disciples. These Registered Disciples should be the high-ranking members of the entire sect! Each Registered Disciple had significant authority and was responsible for many affairs of the sect.

"Qingyan." Luo Feng sat high in the hall, smiling at his eldest disciple.

Moyu Qingyan was very excited.

The Master was so powerful, and the disciple felt immense pressure.

Especially with a group of extremely talented Registered Disciples, each aiming to become the next "second younger brother Xin Yu" and reach the Primal Chaos Realm. One could imagine the pressure Moyu Qingyan faced as the eldest brother in the sect.

"From today onwards, you are the fourth elder of our Blade River Sect. I grant you a set of Secret Treasures, ten billion Cosmic Sand, and ten treasures to aid in your cultivation." Luo Feng said with a smile, waving his hand and bestowing a whole set of supreme grade Primal Chaos Realm Weapons Secret Treasures, a green Jade Vial, and a black Jade Vial.

The treasures given to the eldest and the second disciples were of equal value but different types.

The items granted to the second disciple Xin Yu were mainly to aid in cultivation, as Xin Yu had great potential and was expected to become a Godly King.

The items given to the eldest disciple Moyu Qingyan were focused on enhancing strength and protection since, as a pathway of bloodline reaching the Primal Chaos Realm, Luo Feng no longer expected him to become a Godly King.

"Thank you, Master." Moyu Qingyan respectfully received it.

"The Master is still stingy. The items for Qingyan and for Xin Yu, they are of equal value." Morosa sat aside, thinking to himself, "The treasures I gave to Qingyan are much more than what the Master provided."

Nowadays, the 155 territories governed by the Blade River Sect were under the core charge of Morosa and Yuan, and they naturally divided many resources and benefits among themselves, receiving resources comparable to the previous God Kings of the Shi Kingdom.

Luo Feng treated all his disciples equally.

Morosa, however, was completely biased towards Moyu Qingyan.

As the celebration dispersed—

"Congratulations, elder brother."

"Big brother."

The Registered Disciples all came to congratulate Moyu Qingyan, knowing well that the elder brother was viewed differently by the higher-ups of the sect, as he had followed the Master from much earlier.

...

After the celebration dispersed, Morosa also sought out Luo Feng.

"Master, there's no more food." Morosa looked at Luo Feng, "When can we get some formidable food? I also wish to break through soon."

"Formidable food, that's not easy to find," Luo Feng laughed, "I'm working on it."

Morosa obediently nodded.

He also yearned to advance further and fully reach the Ultimate Realm! By then, he could act covertly. As for now? According to Luo Feng's instructions, using the Sector Beast power in the outside world

was absolutely forbidden before reaching the Ultimate Realm.

"You are still too weak now. Once exposed, it would bring big trouble," Luo Feng said, "After your breakthrough, we can do many things."

Owning a complete Great Dao of Ultimate Realm, his methods would be much more mysterious than those of Emperors and Monarchs.

For example, in terms of "Isolating cause and effect," perfect completion of the Great Dao could perfectly isolate causality! By then, when he acted, even the investigations of the two Ancient Countries would become a hundred, a thousand times more difficult.

Hiding, escaping, curse killing, cooperating against enemies... Morosa could help him in all these aspects.

"I have been enduring ever since I came to the Land of Origin," Morosa said.

"Ha ha..." Luo Feng laughed.

******

After Luo Feng occupied the territory of the Shi Kingdom, the first gathering in the Reincarnation Tower took place.

"Ha ha, Luo He's talent is truly extraordinary! Now, in our Reincarnation Tower, Luo He's strength is second only to Wind City and the Earth God King," the Great Freedom Sovereign laughed.

The Wind City Empress sat there, smiling without speaking. When Luo Feng was in the Primal Chaos Realm, she had actively invited him, and time had proven her insight!

"Yes, without realizing it, he has become stronger than me," Emperor Gui Xu sighed. "This is the gap in talent."

"I just have more avatars," Luo Feng added.

"Clone Technique, it's a formidable approach," Wuxin God King remarked from the side. "Gui Xu and I, if we also had several

powerful avatars, each capable of maintaining the strength of our original selves! The deterrence would naturally be different; the two Ancient Countries would probably not dare push us too far."

"Yes, at the level of Luo He, even if he is more aggressive and domineering, the two Ancient Countries wouldn't easily take action," Black Fire Demon Lord also said.

Among the members of the Reincarnation Tower, apart from 'Cloud Sky God King' who was still in the First Realm of Godly King,

the others—Great Freedom Sovereign, Black Fire Demon Lord, King Tian Du, Emperor Gui Xu, and Wuxin God King—all of them were at the Peak of the Second Realm of Godly King! But none of them had the ability to directly oppose an Emperor or Monarch.

Like the Boat Master of the Time-Space Lonely Boat, Pu Xin, and the publicly recognized Luo He God King, their bursting strength was also at the Peak of the Second Level of God King Realm. But they had the strength to confront an Emperor!

That Boat Master, the highest achiever of the 'Time Path' in Land of Origin, stood there, letting Emperors and Monarchs attack him. Even if his current body was annihilated, his future body or past body could repair his 'current body'. The Boat Master had enmity with the Lord of Ten Thousand Realms, who controlled the complete Great Dao, and yet he was untouchable.

Pu Xin was even more mysterious; each time he appeared, it was through a spiritual body! Only soul-based or spiritual will-based techniques could injure him, neither Emperors nor Monarchs could do anything against him.

Luo Feng, however, had multiple avatars, and each avatar was extremely tough! His physical body felt stronger than many 'Primordial Bloodline Creatures of the Second Realm of Godly King,' almost comparable to one Lord from the Destruction Army! One avatar alone gave Emperors and Monarchs a headache, let alone the uncertain number of Luo Feng's avatars!

Boat Master, Pu Xin, Luo He, their strong survival abilities indeed

made the other Peaks of the Second Realm of Godly King envious.

"One avatar of Luo He is comparable to one Lord of the Destruction Army, if seven or eight avatars joined forces, wouldn't that be comparable to the entire Destruction Army?" exclaimed the Great Freedom Sovereign.

"This is the power of cultivating multiple paths," the Earth God King stated, "Luo He, cultivating the paths of life, matter, and destruction, each to the level of the Second Realm of Godly King. Supporting each other, his means are naturally powerful; he is the only one in the entire Land of Origin to reach the Second Realm in three paths."

"We who cultivate just one path are indeed far behind," Black Fire Demon Lord lamented.

"One path, if you reach the Ultimate Realm, you would also be formidable," Wuxin God King replied with a smile.

Envy was of no use.

Godly Kings generally focus on one path; cultivating multiple paths is even harder.

There are only a few in Land Origin who can reach the Godly King level in two paths!

Three paths, all at the Second Realm of Godly King? Currently, there is none.

Indeed, Luo Feng cultivates three paths: life, destruction, and life and death! However, he has yet to reach the Second Realm in the life and death path.

During the gathering, everyone chatted casually.

Cloud Sky God King was the weakest present. She also longed for a breakthrough, with the uniqueness of her Primordial Bloodline, if she could reach the Second Realm of Godly King... her deterrent power would immediately skyrocket to a terrifying level.

"When will I reach the Second Realm of Godly King? In the

Reincarnation Tower, the other eight members are all at the Second Realm of Godly King," Cloud Sky God King thought.

"Brother Black Fire, the complete corpse of a Second Realm of Godly King Primordial Bloodline Creature, can you get one?" Luo Feng inquired from Black Fire Demon Lord.

"A complete corpse?" Black Fire Demon Lord looked at Luo Feng. "That's tough! Even Thunder Ancient Country generally only sells a refined portion of the Primordial Bloodline. At most, they sell some incomplete corpses."

"It's only occasionally that they refine a portion of the Primordial Bloodline; the incomplete corpses available for sale are very few. We must wait for the right opportunity," Black Fire Demon Lord explained. "As for a complete corpse? Haven't heard about anyone selling that."

Luo Feng nodded.

Complete corpses have too many uses," Black Fire Demon Lord remarked. "For instance, crafting potent puppets, feeding Sector Beasts, or using them for Soul Transfer... too big a threat to the two Ancient Countries. If anyone trades with them, the two Ancient Countries would definitely investigate, checking the reasons for the purchase."

Luo Feng understood.

Incomplete corpses were the remnants of the refined bloodline. We need to wait for the opportunity to gather enough to transform Morosa to the Ultimate Realm, which might take a very long time.

A complete corpse... entails too great implications.

"It's not easy to make Morosa break through to the Ultimate," Luo Feng silently mused. "If it's just absorbing the heaven and earth energy, the pure energy, that would require an endless expanse of time."

Maybe because of a Pinnacle Sector Beast's presence, the two Ancient Countries are also very cautious in this aspect.

Black Fire Demon Lord looked at Luo Feng.

With Luo He's strength, he still wants a complete corpse of a Primordial Bloodline?

"Complete corpses of the Second Realm Primordial Bloodlines, there's no way," Black Fire Demon Lord confided quietly. "But potentially more powerful fragmented bodies of Primordial Life from Primordial Bloodline Creatures, even escaping the Braided Cage... there might be a way." Find adventures at My Virtual Library Empire

Luo Feng was startled.

"What way?" Luo Feng couldn't believe it.

"Three alien races," Black Fire Demon Lord whispered. "The two Ancient Countries cultivate a large number of Primordial Bloodline Creatures, which the two Ancestors brought back from the outside. These three powerful alien races could also bring some fragments of Primordial Life."

Thank you to the new Alliance Hierarch 'Repeat Underline' for the reward. Also, thanks to the old Alliance Hierarch 'Muruqingxi Yizhou' for the multiple rewards.

Chapter 7 Time-Space Demon

"The two Ancient Countries can offer items, and the three Alien races can do the same," conveyed Black Fire Demon Lord. "However, the Alien races need to transport their items from other Source Worlds, which incurs significant transportation costs! Therefore, what the Alien races bring are all extremely precious treasures... such as small remnants of Primordial Life, Beyond God King Level Secret Treasures, inheritances surpassing the Ultimate Realm, the corpses of Primordial Bloodline Creatures with Ultimate Realm strength, and even 'Ultimate Realm' refined Primordial Bloodlines, and so on!"

"On the other hand, weaker items like the corpses of Second Realm of Godly King Primordial Bloodline Creatures and other less valuable things will not be brought over," continued Black Fire Demon Lord through telepathy.

Luo Feng nodded with understanding.

High transportation costs meant bringing only items of great value.

"The three Alien races have many treasures, but they require equivalent exchanges," said Black Fire Demon Lord. "They have high standards, and the treasures that can attract them are generally those originating from Yuan's sanctuaries."

"With your current clone capable of matching the Dark Sky Venerable of the Destruction Army, I believe the three Alien races will take notice of you. They should all contact you soon."

"Here in the Land of Origin, their strength is completely suppressed. In the end, they need our help; they need us to search for treasures," Black Fire Demon Lord observed, glancing at Luo Feng. "Your strength is formidable, and you have many avatars, making you especially suited for treasure hunting. They will surely contact you."

Luo Feng nodded slightly.

"When the time comes, bargain as much as you can. Compare offers from all three, and see who provides the best advantages," Black Fire Demon Lord said with a smile. "With Alien races, you don't need to care about face—just see who offers the most benefits!"

Luo Feng gained much insight from this meeting at the Reincarnation Tower.

Although his strength had grown substantially, his experience still lacked somewhat. Black Fire Demon Lord, who led the largest resistance force in the Thunder Ancient Country, had been rooted there for countless ages and certainly knew far more.

...

Night.

In Huyang City, a casually dressed middle-aged man stepped into the city owner's mansion with ease, as if the Formation there and the Power of the World enveloping it from Luo Feng were a joke, completely unable to hinder him in the least.

"Hm?" Atop a tower within the city owner's mansion, Luo Feng appeared out of nowhere, observing the middle-aged man.

"Even though I see him, both the Formation and the Power of the World just can't stop him," Luo Feng noted the immense gap in realms.

The middle-aged man smiled warmly, and with one step, arrived atop the tower.

"Time-Space Demon," Luo Feng recognized the visitor.

The Time-Space Demon, creator of the Time-Space Lonely Boat, embodied several images—'child, middle-aged man, old man.' In contrast, the appearance of the Two Realms Palace Master and the Wanfa Tower Master was always the same.

The Time-Space Demon was notorious for his unscrupulous measures,

prompting both Ancient Countries to be particularly wary of him.

The three Alien races...

Luo Feng preferred dealing with the Wanfa Tower Master; the other two's reputations were relatively poorer.

"You native Cultivators of the Land of Origin, I've told you many times, you can simply call me 'Emperor of Time and Space.'" The middle-aged man continued to smile. "But of course, I won't fuss over it with you."

"Time-Space Demon, what brings you to me?" Luo Feng inquired.

"A good thing, a great thing!"

The middle-aged man sat down leisurely, taking out a jug and a cup and pouring himself a drink without prompting. "Come, have a drink. I've brought some good wine from afar for the Land of Origin."

Luo Feng also sat down but didn't partake in the wine.

Stay updated through My Virtual Library Empire

"Such good wine, yet you lack the courage to drink," the middle-aged man said after drinking a cup. "I know you are a disciple of the Emperor of the Flame Wind Ancient Country and must be very vigilant towards us Alien races."

"There's really no need! The three of us Alien races and the Ancestors of the two countries are direct rivals; that's why they target us, the three," the Time-Space Demon looked at Luo Feng.

Luo Feng said nothing, only listening.

"I'm not here for you to join the Time-Space Lonely Boat," the Time-Space Demon said with a smile. "I merely wish to engage in a fair trade with you."

"Oh?" Luo Feng looked at him. "What trade?"

"There are a total of four kinds of treasures in the Land of Origin that

could catch my eye," the Time-Space Demon began. "These are also the four kinds of treasures that the other Alien races, as well as the Ancestors of the two countries, are concerned with."

Luo Feng listened attentively.

"The first kind, Secret Skills passed down by Yuan," said the Time-Space Demon, looking at Luo Feng.

"Only Secret Skills?" Luo Feng was surprised.

"Of course, inheritances of the Great Dao are more valuable. But even so, Perfection Level Inheritances and Special Grade Inheritances can only reach the Ultimate Realm of God King at most. Anything higher is unattainable," the Time-Space Demon explained. "However, some powerful Secret Skills with techniques for use are indeed spread around. And of course, they must be the ones left by Yuan himself, Secret Skills beyond the God King level."

Luo Feng understood.

The Lie Yuan Technique was of this kind, dealing with some usage techniques. It was not a Great Dao Inheritance.

"Secret Skills, in the sanctuaries left by Yuan, are mostly expected to be acquired. However, they are generally not to be transmitted externally," observed the Time-Space Demon, gazing at Luo Feng. "I need those that can be taught to me."

"One set of Secret Skills can at least be exchanged for an entire set of 'Beyond God King Level' Secret Treasures. The specific value will depend on the Secret Skills," stated the Time-Space Demon.

"An entire set?" Luo Feng asked.

"Anything you can think of, I can provide for you," the Time-Space Demon declared.

"The second kind, Special Life Remnants," the Time-Space Demon continued. "Throughout the entire Land of Origin, only the Dark Area of the 'Dream Domain' and the deepest part of the 'Heavenly Pillar Realm' might yield Special Life Remnants."

"These Special Life Remnants, one piece, are likewise valued at least an entire set of Beyond God King Level Secret Treasures!"

"Of course, a Secret Skill or a piece of Special Life Remnants can also be exchanged for anything else you desire," the Time-Space Demon said with a smile. "I could even trade you parts of the corpse of a Low-Level Primordial Life that has leapt out of the Braided Cage."

"Low-Level Primordial Life?" Luo Feng was puzzled.

"Primordial Lives that have leapt out of the Braided Cage also have levels. Low-Level Primordial Lives... refer to those with lesser intelligence, comparable perhaps to the True Gods of the Land of Origin. Their intelligence is too low to tap into the potential of their bloodlines. Born beyond the Braided Cage, they still can't muster the strength that I can," the Time-Space Demon explained.

"The third type, Innate Secret Treasures."

"Ordinary treasures don't interest me; I can easily refine treasures Beyond God King Level." The Time-Space Demon looked at Luo Feng. "What I want are those 'treasures' naturally nurtured in the deep reaches of the Dream Domain, mystically formed by nature itself. Similarly, in the deep areas of the Heavenly Pillar Realm, there are also treasures nurtured by nature."

"Each Innate Secret Treasure has its value, some as low as Beyond God King Level treasures. The most valuable ones are comparable to a piece of Special Life Remnants."

"The fourth kind is exotic treasures!"

"Many treasured places in your Land of Origin contain some exotic treasures worth well over ten billion Merit Points. Those exotic treasures worth more than ten billion Merit Points are also what I need," the Time-Space Demon said. "Again, it will be a fair trade."

Luo Feng was startled.

The Tianhe, the Dream Domain, the Heavenly Pillar Realm, and other such treasured places all produced exotic treasures.

But an exotic treasure worth over ten billion Merit Points! These were the legendary treasures Luo Feng had never seen. Such treasures are something any power would seek to acquire regardless of the cost.

"If you obtain any of these four types of treasures, you can trade them with me, and we can discuss the terms," the Time-Space Demon said smilingly. "You can also compare offers with the Wanfa Tower Master and the Two Realms Palace Master to see who gives you a better deal."

"I never coerce anyone into a trade. Ha-ha, my techniques are not powerful enough to break through the limits of the Primal Chaos Realm, nor do I have the right to coerce you," the Time-Space Demon continued. "But it is different with the Ancestors of the Ancient Countries! If you get your hands on something precious, the Ancestors of the Ancient Countries may personally step in to seize your treasure."

Luo Feng nodded.

"Don't let the two Ancient Countries affect you too much, to the point of harboring great hostility against us," the Time-Space Demon warned. "We are cultivators too, just from other Source Worlds."

"When it comes down to it, I'm actually envious of you."

The Time-Space Demon looked at Luo Feng, "Your Source World has Yuan watching over you, and Yuan left you a transmission pathway. As long as one attains the status of an 'Ultimate Realm Life Form,' they can withstand the pressure of the transmission pathway and head out into the vast cosmos to explore and adventure."

Transmission pathway? Only Ultimate Realm Life Forms can pass through it?

"My homeland is different."

"In my homeland Source World, there is no transmission pathway," the Time-Space Demon lamented. "I went through three Reincarnation Eras in my Source World before I comprehended the method to breach through worlds by transmission, allowing my

Avatar to journey to other Source Worlds. By using their 'transmission pathways,' I finally ventured into the greater universe."

"I have also encountered the two Ancestors from your Land of Origin. They are life-and-death friends who adventured and tempered themselves together. I've even had conflicts with them, ha-ha..."

"We are all groping in the dark, often facing terrifying dangers," the Time-Space Demon gazed at Luo Feng, "One day, we might truly perish."

The Time-Space Demon looked at Luo Feng, "I came to the Land of Origin to seek more opportunities, to gain more strength, just to survive in the face of peril. Perhaps in the future when you leave the Land of Origin, we will meet again. So there's really no need to draw lines between natives and Alien races."

"I understand," Luo Feng nodded.

"I have high hopes for you," the Time-Space Demon said. "With your potential, you are sure to step out of the Land of Origin! That's a much vaster world."

"If you wish to find me, simply use the causality transmission to send a message," the Time-Space Demon advised. "Call out to me, and I will come to you immediately."

Luo Feng nodded.

He indeed sensed a tenuous thread of causality, a connection between himself and the Time-Space Demon.

But this thread of causality was so vague, he could use it to send messages but couldn't tell where it led.

The Time-Space Demon took a step and was already at the horizon, then completely vanished from sight.

"Beyond the Source World?" Luo Feng murmured to himself, the Time-Space Demon's homeland Source World astonishingly had no transmission pathway. Different Source Worlds truly differ greatly.

...

Dream Domain.

Luo Feng had kept an Avatar in the Dream Domain ever since his Spiritual Will broke through, and the Avatar in the Dream Domain began to absorb energy with full effort! The environment of the Dream Domain is special, abundant in energy and easier to absorb, but still not as rapid as the supply of energy from a Small Universe.

Today, the Avatar in the Dream Domain had an Energy Reserve that was roughly five percent of the World-lifebody's True Body.

"From what the Time-Space Demon said, it appears that the special treasures and Innate Secret Treasures are only produced in the Dream Domain and the Heavenly Pillar Realm," Luo Feng realized the uniqueness of these two places. "Special Life Remnants, only the Dark Area of the Dream Domain has them! Only those whose Spiritual Will is Beyond God King Level could barely enter the Dark Area... Exploring there is much harder than in the Heavenly Pillar Realm."

The Dream Domain is far more treacherous; forget the Dark Area, even the Strong Cultivators of the Land of Origin, like Emperors and Monarchs, dare not venture into the deep layers! Because once inside, they might lose control.

On the contrary, the environment of the Heavenly Pillar Realm is much safer, a better place for Emperors and Monarchs.

Thus, they completely sealed off the Heavenly Pillar Realm.

"As for the Dark Area of the Dream Domain, I have not ventured there yet," Luo Feng thought to himself, and immediately sent a weaker Avatar off towards the 'Dark Area' of the Dream Domain.

The Dream Domain is divided into the Outer Layer Area, Middle Layer Area, Deep Layer Area, and Dark Area.

The strong Cultivators of the Land of Origin primarily treasure hunt in the Middle Layer Area.

Sightings of them in the Deep Layer Area are scarce.

As for the Dark Area? It's a rarity for anyone to enter!

Chapter 8 Dream Domain, Dark Area

Luo Feng's avatar in the Dream Domain usually stayed in its outer layer, where the impact on the Spiritual Will was weakest.

At the moment, a weaker avatar scouted ahead while a more powerful avatar followed behind. This powerful avatar possessed one percent of the energy reserves of a "World-lifebody'sTrueBody."

"Phew." Luo Feng's two avatars silently hastened through various independent spaces and finally reached the deeper areas of the Dream Domain.

"The deep layer of the Dream Domain."

Luo Feng became even more cautious.

In previous long years, Luo Feng had already explored the deep layer of the Dream Domain! Here, even an ordinary life form possessed the strength of Emperor Gui Xu, and some leaders were even at the Emperor's level, making crises common.

"Huh? The Wanfa Tower Master is also looking for me?" Luo Feng paused, momentarily stopping his advance.

...

The battle for the territories of the Shi Kingdom thoroughly proved Luo Feng's strength! Although Land of Origin was full of strong individuals, the power Luo Feng had publicly displayed was already one of the strongest below the Emperor level.

Following the Time-Space Demon, the Wanfa Tower Master also personally visited Luo Feng, offering similar terms.

"The Wanfa Tower Master is truly as rumored, quite friendly towards us native cultivators," thought Luo Feng. Among the three alien races, the Two Realms Palace Master was domineering, the Time-Space Demon was unscrupulous, and the Wanfa Tower Master was compassionate and merciful.

The Wanfa Tower Master was even willing to instruct many Godly Kings in their cultivation.

"The four treasures, they value the first two the most: Special Life Remnants and Secret Techniques," thought Luo Feng after talking with the Wanfa Tower Master, as his avatar in the Dream Domain continued to move forward.

"Special Life Remnants, there are only two places where they exist! The Dark Area of the Dream Domain and the deepest part of the Heavenly Pillar Realm. Since the Heavenly Pillar Realm is completely sealed, finding Special Life Remnants... is only possible in the Dark Area of the Dream Domain."

The Heavenly Pillar Realm was heavily guarded by the two Ancient Countries, and Luo Feng had no confidence in confronting these two great powers alone.

The sealing of the Heavenly Pillar Realm must have been a joint decision by the ancestors of the two Ancient Countries.

Sigh.

After a long time, Luo Feng finally arrived at the very end of the deep layers of the Dream Domain.

"Up ahead is the Dark Area." Luo Feng looked at the expanse of darkness ahead, where only his Spiritual Wil could probe.

"Enter."

With a thought,

the weaker avatar entered first while the powerful avatar waited a while before following.

In the Dark Area, an invisible, terrifying force enveloped Luo Feng's Spiritual Will, continuously dragging at his Spiritual Will. If Luo Feng could not resist, he would completely sink into a dreamy slumber.

Experience exclusive tales on My Virtual Library Empire

"I need to use about fifty to sixty percent of my Heart Force to resist the influence of the Dark Area," thought Luo Feng.

His Spiritual Consciousness explored the surroundings.

The surrounding darkness was incredibly oppressive; even Luo Feng's Beyond God King Level Spiritual Consciousness could only probe around tens of thousands of kilometers.

"Puff."

The weaker avatar scouting ahead suddenly flashed with a beam of light, instantly piercing through the avatar.

Luo Feng's weaker avatar was obliterated in an instant. However, thanks to the super-strong Life Force of the 'Twenty-four Forms Life Form,' it was momentarily restored from nothingness, but just as it was regaining some form, the light flashed again and once more obliterated Luo Feng's weaker avatar.

"I saw it," said Luo Feng's weaker avatar upon recovering when it clearly saw the appearance of the 'light.'

It was a weapon resembling a Silver Shuttle.

It was just too fast; within Luo Feng's probing range of tens of thousands of kilometers, a flash of light meant an inevitable hit.

"So that Silver Shuttle-like weapon attacks twice, and my weaker avatar is gone?" Luo Feng was shocked, "This weaker avatar of mine, although low in energy, is still a Twenty-four Forms Life Form. Compared to the powerful avatar in the 'Ten Directions World Form,' it isn't much weaker. Even an Emperor should be able to withstand two or three strikes."

Carefully, Luo Feng proceeded forward.

He didn't deploy another weaker avatar, for within the range of tens of thousands of kilometers, discovering an 'enemy' meant a sure hit.

"Phew."

In the Dark Area, as Luo Feng continued his exploration, the ground was made of a strange black metal endlessly encrusted with Secret Patterns.

Walking on this black metallic ground, Luo Feng continued to search for the 'Special Life Remnants.'

"Huh?" Luo Feng suddenly shuddered.

At the boundary of the tens of thousands of kilometers his Spiritual Will could observe, a light flashed suddenly, and that light had already pierced through Luo Feng's body! The speed was too fast for Luo Feng to respond in any other way.

However, this avatar contained one percent energy reserves, equivalent to thirty percent of a Perfect Divine Body reserve! The energy was vigorous, and the body was resilient!

This beam of light, though it pierced through Luo Feng's body, his body rapidly recovered.

"One strike, obliterating about one ten-thousandth of my energy reserve?" Luo Feng thought, as his robe spread out into a massive river, transforming into a vast, surging Silver River.

The vast Silver River enveloped the surroundings.

Luo Feng stood at the center of the Silver River.

"Swoosh."

The silver light flashed; it attacked from beyond the boundary of Luo Feng's observation range! In a flash, it pierced through the obstructing vast Silver River and also through Luo Feng's body, then flew out from the other end of the observation boundary.

"No way to block, no way to entangle, I can only take the hit," Luo

Feng realized the disparity, "It's too fast; so fast that at the moment it's launched, time seems to stop."

This silver light, in a moment when time stopped, crossed tens of thousands of kilometers.

"I want to influence the surrounding celestial rules."

"Even using a bulky body to obstruct is impossible."

In an instant, Luo Feng was at a loss.

The native life forms of the Dream Domain were immune to all attacks on the Spiritual Will, and Luo Feng's Spiritual Will attack had no effect whatsoever on this 'Silver Shuttle.'

His most powerful move, "Great Extinction Style," hadn't even started before the opponent's light attacked, crossing from one end of the observation boundary to the other! Luo Feng couldn't even lock onto the target.

"How to fight?" Luo Feng felt befuddled.

This Silver Shuttle, although it seemed to use a simple maneuver—moving back and forth with just one move—it was more terrifying than most Emperors.

"Thank goodness my body has a strong recovery ability," Luo Feng thought. Each time one ten-thousandth of his energy reserve was eradicated, the eradicated energy would quickly reintegrate and recover most of it.

"Swoosh." "Swoosh." "Swoosh." "Swoosh." "Swoosh." "Swoosh."

Suddenly, six beams of light flashed and instantly traversed the area Luo Feng was crossing. During this attack, the Silver Shuttle creatures did not pause; they continuously shuttled back and forth, ferociously slaughtering.

"Six Silver Shuttle creatures?" Luo Feng's face changed, and he immediately turned and fled without hesitation.

However, in terms of speed, he was far slower than these eerie Silver Shuttles.

Luo Feng had barely sprinted for over a dozen breaths of time.

The six Silver Shuttle creatures had madly besieged and slaughtered him over twenty thousand times.

"Phew."

Luo Feng narrowly escaped from the Dark Area and returned to the deeper area. The six Silver Shuttle creatures did not chase him any further.

"This avatar of mine now has only one-third of its energy reserve left," Luo Feng said somewhat fearfully, clearly concerned about his energy reserves. Even if a Small Universe was fully absorbing energy, it would only manage to absorb the energy reserve of a Perfect Divine Body in about one Era.

The energy lost this time would approximately take two-tenths of an Era to recover.

This was also the reason why Luo Feng was reluctant to use his True Body.

The environment in the Dream Domain was so harsh.

The stronger the avatar, the greater the cost of its death. Monarchs and Emperors without avatars dared not venture into dangerously treacherous environments.

"Dark Area, I just entered and encountered six Silver Shuttle Creatures? Each Silver Shuttle possessed Emperor Level strength," Luo Feng thought to himself. Six Emperors joining forces in a mad onslaught was terrifying even without understanding formations.

"Let's try a different entrance."

Luo Feng thought for a moment.

The powerful avatar immediately started heading back to replenish

its energy.

Afterward, still maintaining one percent energy reserve, the powerful avatar entered the Dark Area through another entrance in the deeper area of the Dream Domain.

...

Merely moments later.

"My god."

This time, Luo Feng's powerful avatar couldn't escape.

"The life form I encountered in the Dark Area this time was far too strong! It was much more powerful than the previous Silver Shuttle creatures," Luo Feng felt a tremble in his heart. It was an enormous creature burning with flames, possessing a black metallic body.

The colossal creature was so large that, within the tens of thousands of kilometers that Luo Feng could observe, he could only see part of its head.

With one pounce, there was no escape for Luo Feng.

Its collisions and claws slashing, Luo Feng was merely severely wounded.

But when it swallowed Luo Feng whole!

Inside its body, the strangulating obliteration meant that Luo Feng's avatar, existing inside it for just a few breaths of time, was completely gone.

"Once swallowed, it was like entering a huge prison, with no escape. One could only wait for death, this already surpassed the normal strength of Emperors and Monarchs," Luo Feng felt somewhat speechless.

Into the Dark Area twice.

One encounter with six Silver Shuttle creatures, each at Emperor

Level.

The next with a Dark Flame creature, yet it was significantly more powerful than the collective force of six Silver Shuttle creatures.

"How to explore the Dark Area? It's unexplorable!" Luo Feng realized; even if his True Body came, encountering the Dark Flame creature would mean death or losing most of the energy reserve, "I am still not strong enough."

"I only have one Ultimate Realm technique that barely counts, the Great Extinction Style, and I dare not bring a Super Secret Treasure in! Relying purely on the physical body, in terms of power, is not on par with the native life forms, and I'm even more deficient in other aspects."

"I need to be more comprehensive!"

"I need more Ultimate Realm techniques, movement techniques, defense techniques, Domain techniques... I need to be well-rounded in many aspects to qualify to explore the Dark Area," Luo Feng thought, suddenly feeling puzzled.

"These Three Alien Clans, knowing that there are Special Life Remnants in the Dark Area, must mean that some powerful beings retrieved Special Life Remnants from the Dark Area at some point."

At this moment, Luo Feng realized that there were always bigger fish.

Even in the Land of Origin, there were quite a few stronger than him.

"With my current strength, going into the Dark Area means certain death. Better to explore the deeper area. The treasures of heaven and earth in the deep area should be much more abundant than in the middle area," Luo Feng thought.

The 'Special Life Remnants' in the Dark Area were outrageously valuable, yet he was currently unable to attain them.

So, he decided to lower his targets and first explore the deeper area.

"After all, the strong cultivators of the Land of Origin primarily

explore the middle area. Some treasures are worth tens of millions of Merit Points. The treasures in the deeper area are even more valuable."

"Maybe I can obtain treasures worth over a billion Merit Points."

Treasures worth over a billion Merit Points were also coveted by the Three Alien Clans and the Two Ancestors, who always purchased them.

With such treasures, he should also be able to trade for what he needed.

"Dark Area… One day, I will come and thoroughly explore your secrets," Luo Feng's avatar in the Dream Domain began to cautiously explore the deeper area! The degree of danger in the deeper area had clearly dropped significantly.

Here, the majority of creatures were at the level of Emperor Gui Xu.

Even the more formidable leaders were at the Emperor level and often acted alone, allowing Luo Feng's powerful avatar to escape.

Of course, if he encountered too powerful a tribe or too terrifying a leader, there was still the risk of avatar obliteration.

...

In the days that followed, Luo Feng occasionally explored the deep area of the Dream Domain, mainly focusing on cultivation.

Because exploring the Dream Domain also came with risks.

Once dead, he would lose an avatar with 'one percent energy reserve,' which would need to be slowly recovered through cultivation. Naturally, he had to control the number of explorations. Moreover, he needed to ensure that his True Body grew more massive and that the energy absorption rate of the Small Universe exceeded the rate of energy consumed by Dream Domain exploration.

Each time Luo Feng harvested precious treasures in the Dream Domain, he sent them to be stored with his outer layer avatar.

When the team from the Reincarnation Tower arrived in the Dream Domain, Luo Feng would also take the opportunity to send a powerful avatar in. When the team left the Dream Domain, he also took the treasures he had accumulated out with them.

Chapter 9 All Parties Gather

Blade River Sect had absorbed the territories of Shi Kingdom, and a century had already passed in the blink of an eye.

As the power controlling 155 Primal Chaos Prefectures, the Blade River Sect was renowned throughout the Land of Origin. Today was a significant day for the entire Blade River Sect.

The grand ceremony of Moyu Qingyan, the eldest disciple of the Blade River Sect, and Yushui Tianxin, the princess of Yu Kingdom, officially becoming husband and wife was being held in Moyu Qingyan's fief, Qingyan City.

"Eldest brother and sister-in-law already have a child, I saw the little guy, he's not arrogant at all."

"I heard that both the sect master and the Monarch of Yu Country will be present."

The whole Qingyan City was buzzing as countless people discussed the Daoist couple's celebration and the sect master alongside the Monarch of Yu Country.

Nowadays, there were five disciples of the Blade River Sect who had reached the Primal Chaos Realm! In terms of prestige, only the second disciple, Xin Yu, could match elder brother Moyu Qingyan. However, second disciple Xin Yu was entirely focused on cultivation and had no interest in managing the sect's trivial matters.

Only Moyu Qingyan, knowing the path of cultivation was hopeless for him, worked tirelessly. Morosa also gradually handed over more and more sect affairs to Moyu Qingyan.

Nowadays...

Moyu Qingyan could be considered the de facto chief steward of the Blade River Sect! Luo Feng's Power of the World could envelop the entire territory in a thought, and he had rooted out many moths within the sect, but Moyu Qingyan was diligent in his duties, which highly pleased Luo Feng.

"Second Master, this is Mo Yuxiu, my and Tianxin's child, Mo Yuxiu, this is your Master Luo Sa," Moyu Qingyan said, holding hands with a beautiful and tall woman and a child.

"Master." The child Mo Yuxiu sweetly called out.

Morosa laughed heartily as he picked up the child: "This child is really well-behaved."

"Father says that during his many years of cultivation, it is mainly Master who taught him," Mo Yuxiu curiously looked at Morosa, knowing how often his father got kicked out by the Second Master.

"Haha, yes, yes, it was mainly me who taught him," Morosa looked at the child, "Mo Yuxiu, how about I teach you to cultivate in the future?"

"Yes," Mo Yuxiu happily replied.

Moyu Qingyan and Yushui Tianxin looked at each other, both of them were Chaos Realm through the bloodline path! One was responsible for many affairs of the Blade River Sect, and the other for many matters within Yu Kingdom. It was their collaboration that brought them together, and having resonated on many matters, they quickly came together and decided to have a Daoist couple celebration after having a child.

At present, Morosa displayed power that transcended even the Primal Chaos Realm.

Moyu Qingyan and his wife, both being of the Chaos Realm through the bloodline path, naturally were more than willing to have Morosa teach their child.

"Qingyan, have more children," Morosa said with a laugh, "I'll teach them all! You are somewhat slow by nature, I hope one of your

children turns out to be a genius."

"Second Master is willing to teach, I naturally could not ask for more," Moyu Qingyan smiled.

"Thank you, Second Master," Yushui Tianxin also expressed her gratitude.

This is because on the Land of Origin, the stronger the powerhouses, the less they wish to devote effort to teaching disciples. They needed to focus more on themselves!

Morosa was still willing to teach their child, and they were naturally happy.

If it were up to the Great Master Luo Feng, Luo Feng hardly ever took the time to instruct even his direct disciples, let alone spend much attention.

"Hmm?" Suddenly, Morosa turned his head towards the distance.

Moyu Qingyan and Yushui Tianxin also looked with some puzzlement towards the distance. Shortly after, two figures appeared out of nowhere, it was Luo Feng and the furry-looking Yu Shui Country Master.

"Master."

"Father."

Moyu Qingyan and Yushui Tianxin both showed a measure of solemnity.

Luo Feng smiled at the couple, both of whom were Chaos Realm through the bloodline path, and quite a match.

"Master, this is Qingyan's child, Mo Yuxiu," Morosa said from the side.

"Moyu Xiu, greets Master," Mo Yuxiu respectfully called out.

Luo Feng nodded with a smile.

"I recently got a rare treasure that's perfect for nurturing a child's cultivation foundation," Luo Feng said and flipped his hand, taking out a jade box and opening it himself. Inside the jade box was a pale blue leaf with a natural fragrance that invigorated everyone around.

From the side, Yu Shui Country Master couldn't help saying, "Brother Luo He, that's too valuable."

It was one of the treasures Luo Feng had obtained in the deeper areas of the Dream Domain, valued at about eight million merit points and very suitable for establishing a foundation for the young.

"I recently got it, and it just so happened I met the little fellow, and I happened to be preparing a gift for Qingyan... this is the fate between him and me," Luo Feng said with a smile. Indeed, such a rare treasure was one of the cheaper ones in his possession.

"Mo Yuxiu, don't hesitate to thank your Master," Yu Shui Country Master urged.

For Yu Shui Country Master, obtaining a treasure worth eight million merit points was no small feat. Especially after hisTrue Body was destroyed in Tianhe, although Yu Shui Country Master's resurrection carrier also had a bloodline, it needed to be nurtured anew! Currently, Yu Shui Country Master... all the treasures and Weapon Secret Treasures added up were worth about one billion merit points.

He could not afford to spend eight million merit points on a gift for his grandson! Nurturing any of his children never involved spending so much.

The difference in strength by one level made a huge difference in the ability to obtain treasures.

Individuals like Emperor Gui Xu, Wuxin God King, possessed many more treasures than Yu Shui Country Master.

Time-Space Lonely Boat's boat master even had a stronger ability to obtain treasures.

Like Luo Feng, his real strength was at an emperor level! Will Beyond God King Level, and having many avatars... his ability to obtain

treasures was significantly stronger than that of ordinary emperors and Monarchs.

...

In Huyang City, at the City Owner's Mansion Quiet Room, inside the Star Tower.

The majestic Luo Feng, with a Perfect Divine Body, sat cross-legged! Next to him, another more vast World Life Form lay sleeping, as its True Body, possessing over a hundred times the Perfect Divine Body's energy, was currently maintaining consciousness, which imposed a certain burden on his mind.

"Star Tower Secret Patterns contain endless mysteries, far deeper than any Great Dao," Luo Feng's consciousness penetrated into the Star Tower, observing the infinite secret patterns.

Luo Feng's cultivation focused primarily on understanding the Star Tower Secret Patterns.

Assists like the Special Grade Inheritances "World Life Form" and "Chaotic Hole Beast Body," and the Heavenly Pillars of the Heavenly Pillar Realm, these were all secondary.

"Ever since I began understanding the Star Tower Secret Patterns, I've always wanted to interpret the perceptions of the patterns through the Great Dao."

"I aim to use the 'Great Dao of Life and Death's' nine branches as a foundation to perfectly interpret the mysteries of the Star Tower."

"But unfortunately..."

Luo Feng shook his head lightly.

Merging the nine branches could only interpret the parts he had understood. Even so, he still couldn't create a Nine Branches Fusion Technique.

"These scales." Luo Feng's mind observed the blood-red scales gleaming with twelve colors, as well as the infinite secret patterns

derived from the blood-red scales.

"Let alone the Nine Branches Technique, I haven't even devised the Eight Branches Fusion Technique."

The nine branches of Life and Death tried to interpret the Star Tower Secret Patterns.

Over the centuries, Luo Feng devised two Six Branches Fusion Techniques and two Seven Branches Fusion Techniques, still only scratching the surface of the Star Tower. Read new adventures at My Virtual Library Empire

"The Great Dao is boundless, but my life has been long, giving me ample time to slowly study," Luo Feng was satisfied with such a life, delving deeper into the mysteries, and getting closer to the essence of the world.

Luo Feng felt fortunate to have the Star Tower.

"The greatest value of the Star Tower isn't as a weapon of war, but as a book!"

"Hmm? In the deep region of the Dream Domain, that most important rarity should be ripe," thought Luo Feng.

In the past centuries, Luo Feng explored the deep layers of the Dream Domain only once per century! Each time he generally explored about ten deep spaces until an Avatar was fully depleted, then he would stop exploring.

Each century, he lost no more than one Avatar, roughly thirty percent of a Perfect Divine Body.

With this, Luo Feng's World Life Form continued to grow enormous.

"Over the centuries, I've superficially checked thousands of deep spaces, documenting many extraordinary rarities," thought Luo Feng. The rate of change in the deep spaces was much slower than in the outer and middle layers, and rarities grew even more slowly.

Moreover, precious rarities are typically surrounded by stronger

indigenous lifeforms.

"This rarity, over the centuries, is the only one I've found likely worth 'over ten billion Merit Points'." Luo Feng highly valued this rarity.

Within his power scope, Luo Feng only found this one rarity valued over ten billion Merit Points.

Such rarities, estimated to be collected by powerhouses from the two Ancient Countries, ancestors of the East Extreme Domain, the Lord of Ten Thousand Realms, proved very scarce.

...

In the deep region of the Dream Domain.

In the crevice of a cliff, there grew an inconspicuous fruit tree, on which hung a black fruit faintly shining with a purple luster, a sight quite inconspicuous in the Dream Domain.

"The Thousand Dreams Fruit, worth fifteen billion Merit Points, is finally about to ripen. I have waited for this day for a long time," a figure in a gray robe gazed at the fruit from afar, "With this Thousand Dreams Fruit, plus what I've accumulated before, I should be able to gather a complete set of 'Primordial Bloodline' of the Ultimate Realm."

"Hmph, the two Ancient Countries are really greedy, setting the price at only fifteen billion Merit Points for such a treasure," the figure in the gray robe thought.

He was well aware.

Rarities worth less than ten billion Merit Points are useless to the ancestors of the two Ancient Countries and the Three Alien Clans! Even a hundred 'one billion Merit Points' rarities are pointless to them.

But rarities worth more than ten billion Merit Points are needed by the ancestors! Hence, these 'over ten billion Merit Points' rarities shouldn't be priced by the two Ancient Countries.

Their actual value is much higher!

"The Thousand Dreams Fruit should be ripe now," a figure approached from the void, arriving close to the edge of the cliff. He wore a light golden robe and his invisible fluctuations enveloped a vast area, also noticing the concealed figure in the gray robe.

"Di Jiufeng?" The figure in the gray robe's expression changed.

"Who are you?" Di Jiufeng looked at him. "Don't you even dare to reveal your identity?"

The gray-robed figure chuckled softly: "Never mind who I am. This Thousand Dreams Fruit, Di Jiufeng, you can't have it."

Di Jiufeng looked into the distance, his control over the void was exceptionally wide-reaching, and he instantly locked on the newly arrived powerhouse.

"Two more have come," Di Jiufeng grinned.

A black river swept across the sky, condensing into a burly figure.

A shadow spontaneously appeared, condensing into a figure in a purple robe.

"Di Wu, you've come too," Di Jiufeng looked at the burly figure, who was one of the thirteen Emperors of Flame Wind Ancient Country, Di Wu, who cultivated the Great Dao of Life Origin and often left an Avatar in the Dream Domain.

"I've also waited a long time for this Thousand Dreams Fruit," Di Wu smiled, looking around, "I just didn't expect two unfamiliar friends to be here."

The four powerhouses watched each other.

Suddenly—

Another figure entered this deep space zone, immediately detected by Di Wu's spatial domain.

"Hmm?" all four were somewhat surprised.

A figure in a black robe and golden mask also arrived.

Chapter 10 Confrontation

Luo Feng was also very surprised.

He had explored the deep regions of the Dream Domain for over a century and had never encountered a competitor! The most precious "Thousand Dreams Fruit" was about to mature, yet it had already attracted five powerful figures, including himself, waiting for it.

"That's right, I only explore once every century, and each time only about ten spaces," Luo Feng thought to himself, "There are not many in the Land of Origin qualified to explore the deep regions! The chances of running into others are indeed very low."

He was not at all flustered by being discovered by the invisible spatial domain.

To compete for the Thousand Dreams Fruit, he had made ample preparations. Discover more content at My Virtual Library Empire

Now, all his avatars within the Dream Domain amounted to 12 times the energy reserve of a Perfect Divine Body! And this time… the powerful avatar Luo Feng sent to compete for the Thousand Dreams Fruit possessed a full 10 times the energy of a Perfect Divine Body.

In terms of physical body alone, it was dozens of times stronger than the avatar that had battled the Dark Sky Venerable.

Luo Feng believed his physical body was comparable to that of an 'Ultimate Realm Life Form.'

"Hmm?"

Emperor Jiufeng, Emperor Wu, the grey-robed figure, and the purple-robed woman all saw the figure in the black robe with a golden mask.

"Black robe, golden mask? This aura…"

"Is it the mysterious strongman who killed the Emperor of Tian Kun?"

All four were at the pinnacle level in the Land of Origin and were naturally aware of the 'black robe golden mask strongman' intelligence. This mysterious figure had only made a move once! Yet with a soul technique or Spiritual Will tactic, he instantly annihilated the Emperor of Tian Kun, preventing him from being reborn.

"Hahaha, it's quite rare indeed!" Emperor Jiufeng laughed heartily, "I thought that if the Thousand Dreams Fruit could attract two or three competitors, that would be impressive. Who would've thought there would be five powerful figures gathered here today!"

"Indeed, it's interesting," Emperor Wu observed the grey-robed figure, the purple-robed woman, and Luo Feng, "Three mysterious strongmen! It's indeed rare for there to be such powerful independent cultivators."

As emperors of Flame Wind Ancient Country, they naturally held a sense of pride in their bones, not putting independent cultivators in their eyes.

"Emperor Wu, Emperor Jiufeng, the emperors of Flame Wind Ancient Country are in the deep region of the Dream Domain, and dare not carry any precious Weapon Secret Treasures, yet you are still so arrogant?" the grey-robed figure said with a soft laugh.

Indeed.

Including Luo Feng, all five who had come to the deep region of the Dream Domain did not bring any 'Beyond God King Grade Secret Treasures.' After all, the deep regions of the Dream Domain were unpredictably dangerous, and losing an avatar was insignificant. But losing precious treasures would leave no time for regret.

"This black-robed strongman, was it you who killed Tian Kun?" Emperor Wu looked toward Luo Feng.

"It was me," Luo Feng nodded.

"Have we met before?" Emperor Wu looked at Luo Feng. Like the grey-robed and purple-robed woman, he had encountered them before and had some speculation about their true identities, but they had indeed never crossed paths with the black-robed golden masked strongman.

Luo Feng looked at Emperor Wu and Emperor Jiufeng with a smile, "If the two Emperors are willing to give up the Thousand Dreams Fruit, we might well sit down and have a good chat."

"Hahaha…" Emperor Jiufeng laughed out loud, "This black-robed strongman, skilled in soul techniques or Spiritual Will tactics. Even the Emperor of Tian Kun, whose will had reached the Ultimate Realm of God King, was powerless before him. We, facing such tactics ourselves, even if we can withstand it, will suffer greatly in strength. In my opinion, the four of us should join forces first to drive away this black-robed strongman."

Emperor Wu also looked toward the grey-robed figure and the purple-robed woman, "First, we drive away the black-robed strongman, then the four of us compete."

"Hmph, we three are independent cultivators, and you two are emperors of Flame Wind Ancient Country. Naturally, we three must join forces, otherwise, all the good treasures will end up in your hands," the grey-robed figure said without hesitation.

"We three should indeed join forces," the purple-robed woman added.

The black-robed Luo Feng with the golden mask nodded as well.

"Very well."

Emperor Jiufeng glanced at the distant Thousand Dreams Fruit, "The Thousand Dreams Fruit will ripen soon, before it does, we shall have our battle."

Emperor Jiufeng and Emperor Wu were relatively calm-minded! For them, this rare treasure could indeed help them repay a portion of the massive debts owed by their clan, but even if they didn't obtain the treasure, the impact on them wouldn't be too great.

On the contrary, the three independent cultivators desired the Thousand Dreams Fruit even more.

"Let's start," Emperor Wu commanded coldly.

Whoosh whoosh whoosh~~~

His body instantly transformed into a black river, this mighty black river swept across all directions, enveloping a vast area in the blink of an eye. Either Luo Feng and the others would flee far away, giving up the rare treasure, or they would be engulfed by this black river.

"Ssss ssss." Luo Feng stood still, allowing the black river to entwine him, like pythons coiling around, even more ferociously eroding his physical body.

"Emperor Wu also cultivates the Great Dao of Life Origin, but he is an Ultimate Realm Life Form! This avatar he sent to the Dream Domain, I wonder how much of his True Body's power it possesses," Luo Feng pondered, "The binding force is negligible to me! But this erosive power…"

The water of the Black River was terrifyingly erosive, but Luo Feng, with a colossal Life Form and ten times the energy of a Perfect Divine Body, withstood it completely. The rate of erosion was not even as fast as Luo Feng's vast body could recover.

"Emperor Wu, is that all you've got?" The purple-robed woman also said with a light laugh. The Black River Water's erosion, she too, did not bother to dodge, standing firm and undaunted.

"Emperor Wu, this avatar of yours only holds about thirty percent of your True Body's power, correct? Your power is too weak," the grey-robed figure stood there, his figure flickering in and out of visibility, somewhat translucent. Eight or nine parts of the erosive force of the black water were deflected, and the little erosive force that remained had no effect on him.

"Suppress!"

The rolling black river waters conjured three giant palms, overwhelming and crushing toward the three of Luo Feng.

The three had already stopped caring, 'Emperor Wu,' who followed the pure path of life, without powerful secret treasures, was relatively weak in offensive power.

Conversely, 'Emperor Jiufeng,' who followed the path of spatial origin, was a more cautious opponent.

"The avatar that follows the path of space, Emperor Jiufeng's avatar, might have a complete body, complete soul," Luo Feng was quite wary.

"Attack."

The grey-robed figure sent a message.

The grey-robed figure, the purple-robed woman, and Luo Feng attacked almost simultaneously, all aiming for Emperor Jiufeng.

"Annihilate!" Di Jiufeng also made his move instantly, all his might targeting Luo Feng alone! In the eyes of Di Jiufeng and Di Wu, it was the black-robed golden-faced expert whom they truly feared.

Naturally, they wanted to eliminate this troublesome opponent first.

"Whoosh whoosh whoosh～～～"

A wind was blowing.

This wind was the wind of space! It blew onto every part of the space where Luo Feng was, permeating the minutest structure of his physical body.

With this one blow...

Even the finest structure of space was shattering, every fundamental structure of Luo Feng's vast world life form suffered the attack of 'space shattering,' but every life unit of Luo Feng's was a perfect combination of twenty-four embryonic worlds, and even with minor damage, it rapidly recovered under the endless life force.

"What?" Di Jiufeng was shocked.

Loose cultivators, there were some who could match an Emperor or a Monarch. But in terms of physical body strength alone, those who could compare to an Ultimate Realm life form were extremely few.

Only a few like the Lord of Ten Thousand Realms, Sector Beasts, Fire Ancestor, and so forth.

"My Annihilation Wind can't disperse his physical body? He seems no less than an Ultimate Realm life form," Di Jiufeng's heart sank, "Such a strong body, this is going to be troublesome."

"Boom!"

Just as Di Jiufeng's move failed, he felt as if his soul was about to be torn apart.

Terrifying attacks, time and time again frantically tearing apart Di Jiufeng's soul.

"Zongfu!" Di Jiufeng painfully stared at the figure in the gray robe, "Is it you?"

This familiar technique, Di Jiufeng naturally recognized... It was once the strongest subject of the Flame Wind Ancient Country, now the leader of the greatest rebel force in Flame Wind Ancient Country—the Master of Mother River, 'God King Zongfu.'

Even more invisible forces permeated Di Jiufeng's body, eroding this Ultimate Realm life form, his physical body was also starting to fall apart.

This invisible force was also eroding Di Wu's vast Black River Water.

"Sssss～～～" The water of the Black River, amid the erosion, was quickly dwindling. To know that the life force of a physical body in the Ultimate Realm of the Great Dao of Life, even if only one-third remained, was terrifyingly strong.

But now the Black River Water was rapidly dwindling, obviously at a clear disadvantage.

"Not good."

Di Jiufeng and Di Wu felt a frightening pressure.

"Di Wu, this purple-robed woman is at the Ultimate Realm! She may even be the Ancestor of the East Extreme Domain."

"The Ancestor of the East Extreme Domain should have more strength than this."

"Foolish! The Ancestor of the East Extreme Domain is just intentionally concealing some strength, and this rare treasure is equally attractive to her."

The two of them knew something was wrong.

Without any super secret treasures, the existence at the Ultimate Realm with mastery of a complete Great Dao, the strength they could display, naturally exceeded the Emperors.

If the Ancestor of the East Extreme Domain made a move, bullying the weak, then this would be even worse.

"Merely one-third of an Ultimate Realm life form, and you dare to come out," the purple-robed woman sneered.

Luo Feng stood there, and suddenly, two beams of golden light shot from his eyes.

These two beams of golden light, as if they were slicing open the heavens and earth, landed instantly upon Di Jiufeng's body the moment they appeared. Di Jiufeng's body, already greatly weakened under the attack of God King Zongfu and the invisible force of the purple-robed woman, was pierced in an instant by the two beams of golden light.

The golden light was as swift as lightning, unavoidable, piercing through Di Jiufeng's body back and forth, accelerating the collapse of Di Jiufeng's body.

This golden light was a 'Six Branches Fusion Technique' within the Great Dao of Life and Death that Luo Feng had comprehended, one known as the 'Heavenly Light Silver Shuttle.'

In the Dream Domain's Dark Area, Luo Feng once endured the attacks of six silver shuttles and, while meditating in the Star Tower, he created a similar technique. He could instantly release two 'Heavenly Light Silver Shuttles' to coordinate and slaughter his enemies.

"Leave." Di Jiufeng, after all, had a complete physical body and soul, facing the siege of three powerful adversaries, still had seventy percent of his energy reserve.

By contrast, Di Wu's Black River Water had already eroded away by more than half.

"Whoosh."

In an instant, Di Jiufeng took the Black River Water and was already gone from this deep-layered space.

In terms of space evasion, Di Jiufeng was naturally adept. He wanted to leave, and Luo Feng and the others couldn't stop him.

...

After Di Jiufeng carried Di Wu away to escape, only Luo Feng and the other two were left around.

"The figure in the gray robe is the Master of Mother River, 'God King Zongfu,'" Luo Feng knew how troublesome this individual was.

Long ago, with just one super secret treasure, God King Zongfu could contend with 'Di Yan', the premier Emperor of Flame Wind Ancient Country, who even pursued Zongfu relentlessly to seize his treasures.

This also made them enemies as fierce as fire and water. God King Zongfu was too terrifying, having killed a double-digit number of God Kings from the Imperial Clan of Flame Wind Ancient Country, and even the Primogenitor Yan Feng could no longer bear it, stepping into the fray personally.

Primogenitor Yan Feng annihilated all his avatars and resurrection carriers. But in the end, God King Zongfu was still alive.

His cultivation of the Great Dao of Life and Causality granted him an

unimaginably strong survival ability.

Countless eons had passed, and his accumulation had naturally deepened.

"The other one... seems even more powerful," Luo Feng looked towards the purple-robed woman.

"God King Zongfu, and this black-robed powerhouse," the purple-robed woman smiled at her two companions, "Now only the three of us remain! It seems we will have to determine who is the strongest."

Chapter 11 Clash of the 3 Powerhouses

God King Zongfu looked at the purple-robed woman and Luo Feng, feeling uneasy, "My identity has been exposed, yet I can't see through either of them."

Whether it was the invisible force released by the purple-robed woman or the two golden lights emitted by Luo Feng, God King Zongfu found it hard to speculate on their identities.

The enemy was hidden while he was in the open, which naturally made God King Zongfu uneasy.

"No matter what, no one in the Land of Origin can kill me." God King Zongfu had some confidence, "At any cost, I must fight for the Thousand Dreams Fruit. With the treasures I have accumulated before, I can exchange for a piece of Ultimate Realm Primordial Bloodline."

With his status, he naturally had dealings with three alien races, and he was well aware that the Land of Origin, this Source World, was gradually entering its final phase. Once the Ultimate Destruction came, one either had to comprehend a complete Great Dao to withstand the huge destruction or cultivate an Ultimate Realm Life Form. Your journey continues at My Virtual Library Empire

Throughout the ages, failing to comprehend a complete Great Dao, he also needed to prepare a backup plan.

With his level of accumulation, by converting to cultivation with the aid of Ultimate Realm Primordial Bloodline, he could easily cultivate an 'Ultimate Realm Life Form'. The only issue was that a piece of Ultimate Realm Primordial Bloodline had to be personally refined by an Ancestor, which was a great cost and also very expensive.

"The Thousand Dreams Fruit is mine," the purple-robed woman declared, looking at God King Zongfu and Luo Feng, "In terms of Life Forms and realms, I am above them! It would be a joke if I lost to the two of them."

She was very confident.

And her confidence stemmed from her strength!

"This is my first time clashing with someone at the same level. Emperors Jiufeng and Di Wu, without the supporting super God King grade secret treasures, indeed have less deterrence," Luo Feng thought.

Emperors and Monarchs, most of them had no avatars, and those who came to the deep regions of the Dream Domain were few.

Those with only one True Body, when venturing out, carried a full set of 'Beyond God King' level secret treasures, their combat power comparable to that of the Lord of Ten Thousand Realms, Sector Beast level. If they were within their own cities, their strength was even more terrifying.

But without external objects, their deterrence greatly diminished.

"God King Zongfu and this mysterious powerhouse, even without secret treasures, are quite formidable," Luo Feng did not dare to underestimate them.

...

The three powerhouses each had their own thoughts.

Suddenly, silently, an attack came.

"Rip!"

Luo Feng felt a stabbing pain in his soul and an invisible force stripping away the life force of his World Life Form. This concept of 'Life Stripping' was extremely sophisticated.

But Luo Feng's Twenty-four Forms were too stable, and his World Life

Form too vast! The conceptual life stripping couldn't shake Luo Feng at all.

"Well played, Zongfu," Luo Feng was quite surprised.

The Great Dao of Life Origin, if one fully mastered the Dao, would also have no weaknesses, and the attack aspect was equally terrifying! 'Life Stripping' targeted not only the Physical Body but also the soul.

The Great Dao is interconnected!

Many Great Daos have some common aspects.

For example, the Great Dao of Life also has a 'Death Branch'. Although it's much simpler compared to the Death Origin Dao.

Similarly, the Great Dao of Life Origin encompasses the entire concept of life, affecting the soul as well. But it is far less specialized than those focused purely on the soul.

"Life intertwined with causality makes for such a bizarre attack," Luo Feng thought.

"Eh?"

God King Zongfu was shocked, "My life stripping isn't affecting either of them at all? Are they both Ultimate Realm Beings?"

What was clearly a powerful move, but the black-robed, golden-masked powerhouse and the purple-robed woman, both their Physical Bodies and souls were too strong! God King Zongfu couldn't shake them at all.

"Since God King Zongfu has made his move, isn't this black-robed powerhouse going to act?" the purple-robed woman said with a laugh, watching Luo Feng.

"If I make a move, you might not stand a chance," said Luo Feng, wearing a black robe and golden mask, his significant foundational strength in both body and soul giving him full confidence.

Even if Emperors and Monarchs had a complete set of superior secret treasures, Luo Feng was unafraid at this moment. Not to mention in the deep region, where no one carried secret treasures, Luo Feng was certainly confident.

God King Zongfu stared at this black-robed powerhouse.

"Hahaha..." The purple-robed woman laughed loudly, "Just make your move."

"Alright."

Luo Feng nodded.

In an instant!

At that moment, both the purple-robed woman and God King Zongfu felt the world vanish, seeing only Luo Feng's calm eyes.

Those eyes transformed into an incredibly vast star, slowly rolling but carrying an unmatched might! It naturally pressed down towards the spiritual will of the purple-robed woman and God King Zongfu.

Luo Feng's spiritual will, at this moment, was completely unrestrained!

Even the application of the Lie Yuan Technique was more profound.

Of course, Luo Feng didn't know the true identities of these two, and he still held back! In the past, once he deployed the Lie Yuan Technique, he would completely annihilate the enemy, crushing their spiritual will into nothing!

But this time, Luo Feng only intended to crush the spiritual will of these two into pieces, while letting them survive. If these two adversaries could retain some remnants of their spiritual will, they would not die.

It was just a contest for treasures, after all! Luo Feng had no intention to kill, and he even suspected... these two might be members of the Reincarnation Tower.

"Boom—"

Though it seemed slow, the spiritual attack was instantaneous.

This vast Will Star first rolled over God King Zongfu! God King Zongfu's spiritual will indeed was crushed into fragments, these remnants... Luo Feng did not pursue them to the end. The Will Star then rolled over the spiritual will of the purple-robed woman.

"Eh?" Luo Feng frowned slightly.

When Will Star rolled over the Purple-Robed woman's spiritual will, he felt tremendous resistance. When it touched her spiritual will, he also found it incredibly resilient.

Boom—

Despite the collision causing numerous cracks in her spiritual will, she still withstood it.

"Her spiritual will has not surpassed the Beyond God King Level! But she held on!" Luo Feng instantly determined, "Her physical body presents a strong obstruction to my spiritual will, she must be an Ultimate Realm Life Form! Her spiritual will is clearly that of the God King Ultimate Realm Will, yet her defensive capability is extremely strong..."

At this moment, Luo Feng was greatly confused.

Who was this Purple-Robed woman?

"Ah."

God King Zongfu felt as if his spirit was about to collapse, thinking of facing Emperor Qing and Primogenitor Yan Feng! Both Emperor Qing and Primogenitor Yan Feng had once attacked him spiritually!

Emperor Qing and Primogenitor Yan Feng had used many deadly moves, even eliminating all his apparent avatars and resurrection carriers.

"This Black-Robed powerhouse showed mercy. If he wished, he could

have destroyed this avatar of mine," God King Zongfu thought, his spirit in tatters, further influenced by the deep domain of the Dream Realm.

However, because the spiritual will of the external, 'life-saving avatar' remained intact, it also allowed this avatar to swiftly recover its spiritual will.

Such is the nature of spiritual will.

To exterminate, all avatar spiritual wills must be completely destroyed. Otherwise, as long as one avatar's spirit remains intact, the others can recover.

"I accept my defeat," said God King Zongfu, and using the Causality Escape Technique, he vanished without a trace.

Under such terrifying will, he had no way of fighting back.

Boom—

Luo Feng, however, looked at the Purple-Robed woman and began to use different attack moves from the Lie Yuan Technique. Aside from his most familiar Will Star, he also created a Will Blade Light, targeting her with all his might, but the Purple-Robed woman completely withstood them.

She withstood his spiritual attack and even resisted the influences of the deep domain of the Dream Realm.

"I admire you. Although I didn't bring any super secret treasures," the Purple-Robed woman looked at Luo Feng, "the one who came here is just one of my avatars, likely allowing me to use about 70% of my heart force to resist. You are already quite remarkable."

"Will Beyond God King Level on the Land of Origin is few and far between. You are neither Emperor Qing, Emperor Ming, nor the Lord of Ten Thousand Realms!"

The Purple-Robed woman looked at Luo Feng and smiled gently, "I didn't expect a new existence of 'Will Beyond God King Level' to emerge from the Land of Origin."

Luo Feng looked at her, "I was a bit arrogant just now! You truly are formidable, clearly possessing the God King Ultimate Realm Will, yet in front of me... you still have the strength to resist."

"This battle is not yet decided," the Purple-Robed woman said, "even with just 30% of my heart force, I can still use Ultimate Realm moves."

"Please," Luo Feng said with a smile as he looked at her.

The Purple-Robed woman looked back at Luo Feng, no longer holding back, having continuously endured the torment of terrifying spiritual will attacks.

Her eyes were cold.

An invisible attack descended!

Luo Feng's physical body immediately began to suffer various levels of attacks—material, energy, and rule operations all aimed to damage Luo Feng's physical body and hurt his soul.

Yet Luo Feng's very essence was like a vast world, operating naturally, minor damages naturally healing.

His soul was also a robust base, led by a strong spiritual will, with the Lie Yuan Technique in operation. It casually mitigated these minor soul-level perturbations.

"Her physical body is not an Ultimate Realm Life Form. It does not feel like the Great Dao Perfection. But his body is too vast, his energy reserve too powerful... The damage I caused on various levels, he instantly recovered," thought the Purple-Robed Woman, feeling a chill in her heart.

When a body's size reaches a certain extent, quantity can compensate for minor qualitative differences.

"You can also take one of my moves," Luo Feng said with a smile, reaching out and gently pointing.

A drop of blood, flew out from the tip of Luo Feng's finger.

This drop of blood, however, contained about 'one-tenth' of the reserves of this powerful avatar of Luo Feng.

"Hmm?" The Purple-Robed woman, upon seeing the drop of blood, sensed a terrifying fear.

This drop of blood...

Had some nuances of the blood-colored scales deep within the Star Tower.

Luo Feng had always pursued using the nine branches of the Great Dao of Life and Death, trying his best to decipher the secret patterns' mysteries of the 'blood-colored scales.' But so far, the strongest was the fusion of two of the seven-branch techniques! At this moment, Luo Feng used a seven-branch fusion technique—Blood Dripping.

This technique, the more energy incorporated, the more terrifying its potency. Now Luo Feng had integrated the energy reserve of a perfect divine body into one move, which was the limit of spiritual control he could achieve.

"Buzz."

The drop of blood, just as it flew out from Luo Feng's fingertip, instantly tainted the skin on the Purple-Robed woman's finger.

The moment it tainted her, this drop of blood instantly corroded, madly seeping into every part of the Purple-Robed woman's body, every life structure within her. As each life structure was completely eroded, that part of force was transformed, becoming part of the energy within Luo Feng's drop of blood.

"Absorption, transformation? Even the power containing my will can be taken?" the Purple-Robed woman was shocked, "This surpasses ordinary Ultimate Realm Secret Techniques, already having the 'Enlightenment' might of the Lord of Ten Thousand Realms."

The so-called 'Enlightenment' from the Lord of Ten Thousand Realms could also convert other powers into part of his own.

"My avatar can only maintain 30% of my heart force; it can't

withstand the erosion of this drop of blood. I must rely on my true self's power," the Purple-Robed woman looked at Luo Feng, knowing she had to give up.

"I admire you."

Having said that, she instantly left the Dream Realm Space.

As she fled the Dream Realm Space, the drop of blood also automatically separated from her, for it contained the energy reserve of a perfect divine body, which Luo Feng obviously could not let her take away.

"Combining Lie Yuan Technique and the Seven Branches Secret Method 'Blood Dripping,' I went all out, and it was only enough to repel one of her avatars," Luo Feng watched her leaving direction remotely, "I wonder who she really is."

Chapter 12 The Treasure

Luo Feng looked toward the only black fruit on the fruit tree in the distant cliff crevice, the Thousand Dreams Fruit that had been contested by five powerful individuals. Now, he alone stood there.

"The more critical the moment, the more cautious I must be. I can't let other powerhouses steal it in the end!" Luo Feng's Spiritual Will instantly spread out, enveloping the vast surrounding area to guard against any enemies who might silently come to snatch the treasure.

God King Zongfu and Di Jiufeng were each incredibly skilled in their escape techniques.

Only when his Spiritual Will covered a vast region did Luo Feng feel relieved.

"This battle also showed the difference in strength," Luo Feng reflected. "Among them four—without any treasures—Di Wu's weaker avatar was the weakest. Di Jiufeng and God King Zongfu were on par. The Purple-robed woman was the strongest! Without the "Lie Yuan Technique," I might not even be able to defeat the Purple-robed woman."

Even though his Spiritual Will was strong, without the "Lie Yuan Technique," the impact on the Purple-robed woman's mind would be greatly reduced, allowing her to unleash even stronger power.

"This is just one of her avatars."

"Once she utilizes her True Body combined with super secret treasures, her deterrence will dramatically increase."

Luo Feng pondered.

"This battle has also proved that my 'Heavenly Light Silver Shuttle,' a

fusion of six branches secret technique, is comparable to the moves of the Ultimate Realm, not inferior to those of the Emperor. My 'Blood Dripping,' a fusion of seven branches secret technique, is even generally stronger than their techniques," Luo Feng contemplated, summarizing his experiences from this battle.

The Great Dao of Life and Death, as a fusion Dao, was strong in each branch.

Six Branches fusion was at the level of ordinary Ultimate Realm techniques.

Seven Branches fusion was evidently stronger than Ultimate Realm techniques.

"The Great Dao of Life and Death, if I could merge all nine branches, the power of such techniques would far surpass the techniques of a single complete Great Dao," Luo Feng thought.

Indeed, the power of the Great Dao of Life and Death far surpassed individual Dao of Life, Destruction, and Space.

While Luo Feng was in the Infinite Space Treasure Vault studying about perfect inheritances and special grade inheritances, he had already learned about the terrifying nature of the "Fusion Dao." For instance, the fusion of Time and Space forming the "Time-Space Dao" was unimaginably powerful...

Despite the Fusion Dao being extremely formidable and inclusive, the difficulty of cultivation was also much higher.

...

Luo Feng sat cross-legged, his Spiritual Will spreading in all directions, silently on guard.

He waited for about three days.

On that fruit tree, the surface of the black fruit suddenly intensified in purple gloss, its dazzling purple light illuminating the vast surrounding area and emitting a faint fragrance.

"It's maturing," Luo Feng, sitting cross-legged, immediately stood up and looked at the Thousand Dreams Fruit.

"Swoosh, swoosh, swoosh~~~" Not far from the cliff, there was noise from the water in the pond, and a black head emerged from the water, followed by a massive creature flying out of it.

"I've been waiting for you."

Luo Feng had already explored the surroundings; within this vast range, there was only this one native Dream Realm creature, and from its aura, it was still within his handling capacity. That's why Luo Feng had set his sights on this Thousand Dreams Fruit.

In the deeper regions of the Dream Realm, treasures worth over a billion Merit Points were naturally not limited to the Thousand Dreams Fruit. However, the creatures around those treasures were far too terrifying!

This was the only kind Luo Feng saw a possibility to pick for now.

"Go!" Luo Feng stood there, and suddenly rolling river water spread out, the vastness of a galaxy instantly enveloping the surrounding hundred billion kilometers, naturally binding and wrapping that black native creature.

"Roar—" The native creature resembling a turtle let out a roar, emitting endless cold air, which instantly froze a large amount of the silver river water surrounding it. Once free from the river's constraint, the massive creature charged toward the Thousand Dreams Fruit, but a drop of blood had contaminated its body surface.

Seven Branches Secret Method "Blood Dripping."

This single drop of blood swiftly eroded its entire body. The black native creature turned a blackish-red color and let out angry howls. However, under the erosion, its strength greatly diminished, and it was again bound by the endless river water. This time, it couldn't break free.

The roars continued, and the cold air erupted.

But the blood contamination and the river domain's restraint had already ensnared it.

"I hope there are no complications," Luo Feng muttered as he watched the Thousand Dreams Fruit, which emitted a fragrance, its dazzling purple light visible from a vast area of this space.

"Not good," Luo Feng frowned slightly as he saw a dense swarm of Red Scale Creatures approaching from a distance. Each of these Red Scale Creatures wasn't very powerful—merely at the ordinary Godly King Tier—yet their numbers were overwhelming, impossible to count at a glance.

"It's the Red Scale Species! I knew it wouldn't be easy to harvest the Thousand Dreams Fruit."

Luo Feng identified the opponents and felt he could still contend. Having spent over a century in the deep area of the Dream Realm, he was very clear about the strength of this Red Scale Species group. "Red Scale Species, seemingly countless, in reality, they all share one life, operating under a collective vague consciousness."

Luo Feng, basing his actions on past intelligence, immediately devised a plan.

He couldn't defeat the Red Scale Species, but he could delay them, delay until the Thousand Dreams Fruit was completely ripe.

"Buzz～～～"

The massive Red Scale Species swarmed in.

Suddenly, a grand surge of Galaxy Water enveloped them, restraining the Red Scale Species. But the creatures, united in strength, easily broke through the water's restraints, charging straight for the Thousand Dreams Fruit.

"Go."

Luo Feng used the massive World Life Form transformed into endless river water to block the Red Scale Species while also binding and entangling the massive turtle-like creature. Under Luo Feng's subtle

guidance, the two forces collided.

The Red Scale Species' nature was to sweep through everything in their path.

They similarly ravaged the massive turtle-like creature, and in the blink of an eye, the creature was partially eroded, its body massively shrinking. The drop of blood from Luo Feng had already rapidly receded.

"Roar~~" The massive turtle-like creature roared unwillingly, trying to escape. But trapped under the surging river water, it couldn't break free. In just over a dozen breaths' time, it was completely eroded by the Red Scale Species, leaving no remains behind.

"That at least helped delay for a dozen breaths," Luo Feng slightly smiled and then immediately, with a thought, a drop of blood swiftly confronted the Red Scale Species, starting to erode them.

Hiss hiss hiss~~~

Several Red Scale Creatures were eroded, turning into part of the blood.

But many more Red Scale Creatures obliterated a vast amount of blood.

Both sides eroded and obliterated each other.

"Whoosh whoosh~~~"

The Blood Dripping Secret Method's erosion had some effect on the Red Scale Species. But their destructive power was terrifying, and Luo Feng's drop of blood, containing the energy reserve of a Perfect Divine Body, was now being rapidly depleted.

"The Blood Dripping Secret Method is too consuming," Luo Feng noted while keeping an eye on the Thousand Dreams Fruit, and closely monitoring the consumption of the Blood Dripping Secret Method.

In the time it took to drink a pot of wine, the drop of blood was

completely exhausted, and the Red Scale Species had only dwindled by about one-thousandth of their size. The entire species swarmed toward the Thousand Dreams Fruit again.

"Seal!" Amid the vast silver river, a towering hand suddenly formed.

This towering hand, with a gloomy abyss faintly visible in its palm, directly enveloped everything below.

Heaven and earth twisted!

Everything shifted!

Imprison!

Suppress!

The entire Red Scale Species vanished in an instant. Read latest chapters at My Virtual Library Empire

Luo Feng appeared, looking at his left hand, where the 'Palm World' in his hand was imprisoning this Red Scale Species.

Over the centuries, Luo Feng, after contemplating the Star Tower Secret Patterns, had deciphered two Seven Branches Fusion Techniques. One was the Secret Technique 'Blood Dripping,' and the other was 'Cage'—capable of completely suppressing and imprisoning a space!

"This Red Scale Species is truly troublesome. My Palm World formed into a cage, inherently with multiple spatial seals. Yet this Red Scale Species managed to consume space, and even gnaw at the world membrane of my Palm World." Luo Feng immediately replenished his energy continuously to maintain the integrity of the Palm Cage.

"Although in terms of killing efficiency, the Palm Cage is somewhat inferior to Blood Dripping. When it comes to trapping enemies, its efficiency is several times higher."

Luo Feng deduced.

With the same energy consumption, the Palm Cage could trap the

Red Scale Species for a longer duration.

"It's a pity I didn't dare to bring the Star Tower in here. If I had the Star Tower, I could have suppressed the entire Red Scale Species long ago." Luo Feng could only ruefully think about it; he dared not take the risk.

Risk-taking might succeed a hundred or a thousand times, but if it failed just once, the Star Tower would be gone!

All the treasures of the Dream Realm combined were, in his heart, less significant than the Star Tower.

Luo Feng, while watching the Thousand Dreams Fruit, maintained the integrity of the Palm Cage. Every moment, his body consumed a great deal of energy.

Suddenly—

The radiance of the Thousand Dreams Fruit converged, becoming utterly ordinary, and its fragrance completely restrained.

"It's finally fully matured." Luo Feng rejoiced. A stream of the vast river swiftly swept past the Thousand Dreams Fruit, harvesting it immediately.

A prepared Treasure Box instantly secured the fruit.

"Treasure in hand, time to go!"

Luo Feng's Palm Cage instantly released the Red Scale Species.

He himself, however, flashed with black light, having already escaped from this Dream Realm Space. The released Red Scale Species roamed angrily around, unable to find their foe and destructively eroding the surroundings.

...

Luo Feng arrived outside in the perimeter area of the Dream Realm, looking at the entrance areas sealed by the two Ancient Country's Imperial Clans.

"Whoosh."

With a flash of black light.

Luo Feng instantly crossed through the Sealing Array of the two Ancient Countries and out of the exit, and with another flash, he was already back within Huyang City.

This was one of Luo Feng's Six Branches Fusion Techniques, the 'Black Light Escape Technique.'

Luo Feng's Six Branches Fusion Techniques, aside from the earlier 'Great Extinction Style', the later deduced 'Heavenly Light Silver Shuttle' and 'Black Light Escape Technique', were similar, all exceptionally swift.

The speed was as fast as thought.

The thought arrived, the movement followed.

Thus, escaping the Heavenly Light Silver Shuttle was inevitable! Unavoidable!

The Black Light Escape Technique, in a single thought, moved from the outer layer of the Dream Realm to outside the exit, forcibly penetrating the entire formation. If it were in the Land of Origin, a single thought could move from one end of the Land of Origin to the other.

This was the might of the Ultimate Realm Escape Skill.

Each move of the Ultimate Realm had its exceptional qualities. Like the Wuxin God King's Hidden Heaven Escape Skill, even the formations of the two Ancient Countries in the Dream Realm couldn't detect it.

"Some powerful individual has forcibly crossed the formation." The two Ancient Country's Imperial Clans were all stirred, but given the limited strength of the garrison at the entrance of the Dream Realm—when even the Reincarnation Tower teams dared to make a strong assault—Luo Feng forcibly breaking out was something their formations simply couldn't stop.

Outside the exit of the Dream Realm.

A Purple-Robed woman stood in the distance, patiently waiting.

"Whoosh."

The Black-Robed man with a golden mask appeared instantaneously at the exit and then disappeared again in an instant.

"He's come out." The Purple-Robed woman watched the scene, "His escape skill has also reached the Ultimate Realm level, but his technique... carries a trace of the Path of Destruction."

"Who is he?" The Purple-Robed woman was quite curious.

Whoosh.

Silently, she disappeared without a trace.

...

Tianmu Kingdom.

Beyond the two Ancient Countries on the whole Land of Origin, the entities that could be considered first-rate powers included Tianmu Kingdom, Wanjie Kingdom, and East Extreme Domain. Of these, Tianmu Kingdom was the most low-profile.

"Whoosh."

The Purple-Robed woman arrived deep inside a palace where a handsome young man was observing a mysterious painting hanging in the air, with countless Secret Patterns flowing on it.

Whoosh.

The Purple-Robed woman directly transformed into a streak of light, flying into the body of the handsome young man.

"It's a pity that this attempt failed. I couldn't help big brother seize a share of the 'Thousand Dreams Fruit.'" The handsome young man looked at the mysterious painting and shook his head slightly, "As a

Sector Beast, relying on one's own cultivation is truly difficult. This Secret Pattern Book is utterly beyond me; it's too hard!"

—

Thank you to the new Alliance Hierarch 'k_one' and 'Hua Yue 233' for their rewards! Also, thank you to the old Alliance Hierarch, Old K, for rewarding again!

Chapter 13 Purple Wood Godly King and Di Fu

The handsome young man looked at the Secret Pattern Book. Read new chapters at My Virtual Library Empire

Behind him, a colossal dark red figure began to condense and emerge, its gaping maw seeming ready to devour everything.

"I have worked very hard, as for my physical body, I've cultivated a total of seven 'Destruction Path Bodies.'"

"As for Secret Techniques, I've also comprehended a total of one hundred and twenty-nine Ultimate Realm Secret Techniques! Even the power can be stronger when the Secret Techniques are combined."

"Regarding Spiritual Will, I've also collected various Spiritual Will Secret Techniques and have been diligently practicing them for a long time."

The handsome young man's face was fierce, his eyes crazed.

"But no matter how I practice, it's always the Ultimate Realm."

"Physical body, Secret Techniques, Spiritual Will—all are at the Ultimate Realm level, not one can break through the limit!"

"I won't practice anymore, I won't practice anymore!"

The handsome young man, in a rage, threw the Secret Pattern Book in his hand aside, smashing it into a corner of the hall. This was a legacy left by Yuan. The Tianmu Kingdom had only obtained two pieces of Yuan's legacy over the long ages, one of which was being contemplated by a Sector Beast for a long time.

Hoo.

The handsome young man disappeared from the hall in an instant.

On top of a majestic mountain, the handsome young man sat alone, drinking heavily and devouring meat. All these were delicacies and fine wines he had collected from the Land of Origin, preserved perfectly in time-stopped treasure storage, naturally maintaining the food's flavor.

"Yu," a middle-aged man appeared beside him.

"Big brother has come," the handsome young man said, continuing to drink his wine, "My avatar in the Dream Domain was unable to snatch the Thousand Dreams Fruit."

"Yu, you have collected resources for me for endless years and have also exchanged for a portion of 'Ultimate Primordial Bloodline' for me. I truly don't lack resources now," said the middle-aged man, "You need to consider more for yourself."

The handsome young man shook his head: "I don't want to think about myself!"

"The Land of Origin, this Source World, is gradually approaching its end, and it will probably only be tens of billions of years before it meets with great destruction," said the Purple Wood Godly King, looking at the handsome young man, "You, as a Sector Beast, were born from the destruction of the origin. You will also cease to exist along with the entire Source World when it is destroyed... This is the destiny of a Sector Beast! Only by breaking through the limit, becoming a being Beyond God King Level, can you free yourself from the shackles of the destruction of the origin."

Under the operation of Supreme Rules, the Great Dao of Destruction Origin nurtured the Sector Beasts, which could simply grow normally to reach the Ultimate Realm, possessing many abilities such as Perfect Life Forms, Clone Technique, and breeding legions.

But, Sector Beasts also had many constraints.

Their minds were born with constraints, making them naturally crave

the end of the world. It was only after being enslaved by the soul that they could suppress their innate desires of the mind.

Their lives had constraints too! All Sector Beasts cannot survive the great destruction and live into the next era of the Source World.

They were born from the Destruction Great Dao and in the end, would also return to nothingness.

"You helped me get the Ultimate Primordial Bloodline, and I have also become an Ultimate Realm Life Form," said the Purple Wood Godly King, looking at the handsome young man, "Yu, you have helped me a lot. In the future, I can use the transmission channel left by Yuan to leave the Land of Origin."

"But you?"

"When the Land of Origin is destroyed, are you ready to face death? To let me cultivate alone outside?" the Purple Wood Godly King looked at the handsome young man, "You know, you are the only close kin I have left."

The handsome young man looked at the Purple Wood Godly King. When he was born, the first figure he saw was the Purple Wood Godly King.

The Purple Wood Godly King had always helped him, taught him, and led his growth.

Although he was called a brother, he was more like a father.

"I, I really feel terrible," the handsome young man said, lifting his head, his face contorted, "Big brother, I really suffer! I was accustomed to various profound mysteries naturally appearing in my mind, naturally becoming Ultimate Realm! It's truly torturous and painful for me to cultivate on my own."

"You have already created some new Secret Techniques. As long as you keep progressing and accumulating, there'll eventually be a breakthrough," said the Purple Wood Godly King.

"No, these are just some application skills of the Path of Destruction,"

the handsome young man looked at the Purple Wood Godly King and said weakly, "I simply can't absorb new knowledge and integrate it into the Great Dao of Destruction Origin."

"The Great Dao of Destruction Origin is too perfect in my heart; I cannot change even a bit of it," said the handsome young man, "I can't break through the limit, I just can't. Big brother, stop pushing me; it's too difficult to live like this. I'd rather live a carefree life for tens of billions of years than torture myself with cultivation."

The Purple Wood Godly King paused, then sighed softly.

"Let it be, let's drink today," he said, sitting down.

"Yes, drink," said the handsome young man.

"For the days to come, how about we cultivate for one era and enjoy for another?" said the Purple Wood Godly King, "Devote fifty percent of your time to cultivation?"

The handsome young man appeared pained, but looking into the expectant eyes of the Purple Wood Godly King, he nodded: "Mm, okay, I'll listen to you, big brother."

The Purple Wood Godly King gave a slight smile.

"Drink, drink, for the next era, let's enjoy to the fullest!" the handsome young man laughed happily, drinking with the Purple Wood Godly King.

"Haha, drink," the Purple Wood Godly King also drank freely and chuckled, looking at the handsome young man, "Yu, don't blame me for pushing you too hard."

"I know big brother wants the best for me, to free me from the chains of a Sector Beast's fate," said the handsome young man.

"If you really can't free yourself, then I will be with you until the last day of my life," the Purple Wood Godly King laughed as he looked into the distance, "Let's face the end of the Source World together; that would be satisfying."

The handsome young man was taken aback, looking at the Purple Wood Godly King: "No, big brother, you must leave the Land of Origin before the end of the Source World. If you delay until the end, you will die!"

"I only have you left as my close kin, if you're not around anymore, why should I continue to cultivate, to fight for anything?" the Purple Wood Godly King looked at the handsome young man, "Cultivating alone, it's already pointless."

"No, no—," the handsome young man shook his head.

"Let's not talk about that anymore, let's just enjoy drinking," said the Purple Wood Godly King.

Yet, at this moment, the handsome young man felt the wine had lost its taste.

Indeed.

During the long years spent with his brother, the brother indeed valued his kin extremely. After his revenge, his longing for the world had waned considerably. He didn't even step out of Tianmu Kingdom!

In Tianmu Kingdom, many matters were handled by a Sector Beast's avatar transformed into the image of the Purple Wood Godly King.

"Big Brother holds little attachment to the entire Land of Origin. I am his only closest kin. If I die, Big Brother might truly…" At this moment, he felt a stronger sense of urgency towards cultivation.

Not only for himself but also for his older brother, the Purple Wood Godly King.

The Purple Wood Godly King watched the scene silently.

He admitted that after the long years they had spent together, deep feelings had indeed formed. Yet, deep within his heart, what he valued most… were still his family members and children from his weaker, earlier years.

"Yu, don't blame me for finding ways to motivate you to cultivate!

One is for your own good, so you can break free from the shackles of fate. The second is for me! The stronger you become, the more hope there is for my path of cultivation."

The Purple Wood Godly King once had the chance to meet Yuan.

The first question he asked was whether there was a way to revive his family members.

Yuan replied that one must break free from the Braided Cage and become the master of the Source World "Land of Origin"! Then it would be possible to rescue any life that has passed away from the river of time and space.

From that moment on, the Purple Wood Godly King was filled with endless longing when it came to cultivation.

He himself was diligently cultivating! He was also guiding his "Protector," the Sector Beast, to work hard at cultivation.

The Sector Beast greatly assisted him, and it collected various rare treasures under his guidance. He could not possibly stand idly by and watch the Sector Beast indulge in idleness until the end of this part of the Source World.

...

In Flame Wind Ancient Country, a hidden and vast space.

Emperor Qing, Di Jiufeng, and Di Wu, the three of them converged their thoughts here.

"Three dispersed cultivators, respectively, are God King Zongfu, the Purple-Robed woman, and the Black-Robed and Golden-Faced powerhouses," said Di Jiufeng. "I guarded the entrance to the Dream Domain for some time. On the day of my failure, God King Zongfu escaped through the Formation using the Causality Escape Technique. The Purple-Robed woman's escape was even more remarkable, and I could barely sense her with my domain. The Black-Robed and Golden-Faced powerhouse, however, broke through the formations of the two Ancient Countries just now and likely obtained the Thousand Dreams Fruit. His escape skill is extremely fast, giving

me no chance to intercept!"

Since his failure, Di Jiufeng had been secretly monitoring the entrance Formation. With his understanding of the spatial domain, he was aware of all who passed by.

Not one thread of causality or breath of life could escape his notice.

"Emperor Di Fu." Di Wu asked doubtfully, "And the scenes of their battles have also been provided to you. Can you confirm their identities?"

Di Jiufeng also looked at Di Fu.

Di Fu's ability to divine the destiny was extremely terrifying, and he possessed secret treasures of formations bestowed by the Ancestors. Very few in the Land of Origin could elude him.

"I cannot confirm," Di Fu frowned and shook his head.

"Neither the Purple-Robed woman nor the Black-Robed and Golden-Faced powerhouse can be confirmed?" Di Wu and Di Jiufeng both wondered.

"There are several possibilities for the Purple-Robed woman," said Di Fu. "It could be the Wind City Empress! She was cultivated by the East Extreme Domain Ancestor, and her resources are no less than ours of the Royal Family Godly Kings. She appears low-key, but in reality, she is unfathomable. The Purple-Robed woman could also be the Lord of Ten Thousand Realms or an avatar of the Sector Beast."

"Wind City Empress, Lord of Ten Thousand Realms, Sector Beast…" Di Wu and Di Jiufeng pondered.

"What about the Black-Robed and Golden-Faced powerhouse?" asked Di Jiufeng. "My Annihilation Wind could not even shake his physical body. His physical strength is definitely not inferior to that of an Ultimate Realm Life Form. His soul or Spiritual Will techniques could instantaneously kill the Emperor of Tian Kun."

"With the physical body and soul both being so terrifying, there are very few in the Land of Origin who could achieve this! But those few

I know of… are unlikely to be the Black-Robed and Golden-Faced powerhouse," said Di Jiufeng.

"I am also puzzled," Di Wu was confused.

"The suspects I'm considering do not match either," Di Fu shook his head. "I guess… it might be a newly emerged strong being. The Land of Origin is full of hidden dragons and crouching tigers, with many reaching the Second Realm of Godly King. It is possible that one of them has quietly reached the Ultimate Realm! Upon reaching the Ultimate Realm, having a strong physical body and transcending Godly King level Spiritual Will is quite normal."

The Lord of Ten Thousand Realms and Emperor Qing, the two who had comprehended a complete Great Dao, both had Spiritual Wills that surpassed Godly King level.

"A newly emerged strong being? A possible new Ultimate Realm?" Di Jiufeng and Di Wu were shocked.

"With both physical body and soul so strong, even if he is not yet of the Ultimate Realm, we must treat him as one," Di Fu did not say much more.

Di Jiufeng and Di Wu nodded and eventually had to leave.

Di Fu was alone in this vast space.

"Such a strong physical body?"

"Then there is an eight or nine out of ten chance it's Luo He."

Di Fu revealed a smile, quite satisfied, "Among the five powerhouses vying for the Thousand Dreams Fruit, suspected to be either the Lord of Ten Thousand Realms or an avatar of the Sector Beast, you were the final winner! Much stronger than I had anticipated."

"Emperor Qing looks down on me; he has long had an avatar leave the Land of Origin to forge his own path."

"The Lord of Ten Thousand Realms, cunning and deceptive, I do not favor."

"Emperor Ming… not suitable to be a companion, who knows if one day death will come by his hand."

"Luo He has grown up all along with considerable loyalty, just right to be a companion, to face life and death together."

Di Fu frowned slightly, "He has grown too quickly; I should still arrange an avatar to guard the transmission channel! Once he leaves, I will immediately go with him! That way, I can also head to the same place."

Because his strength was so formidable, Di Fu had long been preparing to leave the Land of Origin, and Luo He was the companion he had decided on.

Leaving the Land of Origin to risk one's life, finding a trustworthy companion with whom to share life and death is very difficult. Before Luo Feng rose to fame, Di Fu even prepared to venture alone. Without a suitable companion, he would rather act solo.

...

Huyang City.

"This Thousand Dreams Fruit, still must be traded with the two Ancient Countries, in exchange for some parts of the corpses of 'Ultimate Realm Primordial Bloodline Creatures'," Luo Feng pondered in the city owner's mansion over the trading affairs.

The Three Alien Clans might also provide parts of corpses of Ultimate Realm Primordial Bloodline Creatures, but most likely, they would offer creatures cultivated from other Source Worlds! And then he wouldn't be able to use "Formless and Intangible" to transform.

Luo Feng's World Life Form is currently in Twenty-four Forms!

Luo Feng had to consider for the Ultimate Realm as well! Naturally, he wanted to obtain the corpse materials of 'Ultimate Realm Primordial Bloodline Creatures' bred on the home turf.

"Most of these corpse materials should be consumed by Morosa. A very small amount will be left… for my own cultivation," Luo Feng

decided.

Chapter 14 Resolution of the Two Ancient Countries

Within the territory of the Thunder Ancient Country, the holy land "Mt. Leiting."

Nine monarchs, with either their true bodies or avatars, resided here. The Thunder Ancestor had even set up a terrifying formation at great cost, making this place the most dangerous in the entire Land of Origin. It was more fearsome than any city within the Flame Wind Ancient Country.

"Sigh."

The wind blew, and a figure in a black robe with a golden mask appeared at the foot of Mt. Leiting.

"The emperors of the Flame Wind Ancient Country live separately, but the majority of those from the Thunder Ancient Country are gathered here." Luo Feng raised his head to look at this holy mountain, where endless thunderbolts spread throughout the mountain ranges, "Deep within Mt. Leiting, there should be a hidden Origin Dao of Thunderbolt."

Although the nine Origin Great Daos contained in the Supreme Rules of the Land of Origin did not include the Thunderbolt Dao.

Yet, with Luo Feng's Spiritual Will, he could sense the presence of a Thunderbolt Dao hidden within this holy mountain.

In the Primordial Cosmos, one could harbor the Great Dao of Life Origin!

Sector Beasts, too, were vessels for the destruction of the origin.

It was understandable that, with the methods of the Thunder Ancestor, an Origin Dao of Thunderbolt could be concealed here.

"Hmm? A powerful figure in a black robe and golden mask!"

"That mysterious figure in a black robe and golden mask has come to Mt. Leiting?" The Formation of Mt. Leiting covered an extremely vast area. Although Luo Feng seemed to be just at the foot of the mountain, he was already within the observational range of Mt. Leiting, which immediately caused a few monarchs to become alert.

Whoosh.

Endless thunderbolts converged at the foot of the mountain, and these thunderbolts eventually formed into a white-robed elder. Thunderbolts still traversed his body, each one with a force that somewhat surprised Luo Feng.

"There are nine monarchs in the Thunder Ancient Country, and it is said that three of them belong to the Thunderbolt lineage," Luo Feng thought. "Those of the Thunderbolt lineage can display incredible strength from their Primordial Bloodline."

The white-robed elder before him, with thunderbolts naturally radiating from his body, each held the strength of Emperor Gui Xu and Wuxin God King.

In terms of tapping into the Primordial Bloodline, the Thunderbolt lineage was the most powerful in the Land of Origin, their Secret Techniques allowed for clearer consciousness and better extraction of the bloodline's power, and even Secret Treasures were highly compatible with their bloodline.

"I am Lei Fu," the white-robed elder said with a smile, looking at Luo Feng. "I have long heard of the renown of the one in black." As he spoke, an invisible will spread out, silently invading toward Luo Feng.

Boom!

Luo Feng's Spiritual Will was vast and profound, and with just a slight touch, the white-robed elder immediately withdrew his probe

of Spiritual Will.

"Your Spiritual Will can surpass that of a Godly King level; I am impressed," said the white-robed elder with a smile.

"The entire Land of Origin recognizes the Thunderbolt lineage of the Thunder Ancient Country as the strongest when it comes to cultivating Primordial Bloodlines. Who would have thought their Spiritual Secret Methods would be so extraordinary as well," extolled Luo Feng.

"You flatter me." The white-robed elder was quite curious about the identity of the strong figure in the black robe and golden mask before him.

After all, across the entire Land of Origin, those whose Spiritual Will exceeded the Godly King level were few and far fewer than Emperors and Monarchs. And they were particularly effective against Emperors and Monarchs who cultivated Primordial Bloodlines!

Before Luo Feng, those Emperors and Monarchs who cultivated Primordial Bloodlines, relying on Secret Treasures and Ultimate Realm Life Forms, could maintain clarity of mind but would suffer greatly in strength!

Even some Emperors and Monarchs with weaker Spiritual Will found it difficult to stay clearheaded under normal circumstances, and if they were attacked by Luo Feng's Spiritual Will, they were likely to lose control.

"Lei Fu Monarch, by chance I have obtained the exotic 'Thousand Dreams Fruit'," said Luo Feng. "I'm wondering if the Thunder Ancient Country might be interested?"

"Thousand Dreams Fruit?" Lei Fu Monarch said with a smile. "Of course, we're interested."

"I'd like to exchange it for parts of the body of an Ultimate Realm Primordial Bloodline creature," Luo Feng continued. "The more material from the bodies, the better, and it can come from different Ultimate Realm Primordial Bloodline creatures."

Upon hearing this, Lei Fu Monarch was surprised. "Body materials? Even if you obtain some material, it's not possible to refine a complete Primordial Bloodline. The Ultimate Primordial Bloodline is not easy to refine, even for our Ancestors."

"I know. I only need a small amount of body material," said Luo Feng. "I've also contacted the Flame Wind Ancient Country and the Three Alien Clans. Whichever side offers more material, I will eventually trade with them."

"Negotiating with all five sides at the same time?" Lei Fu Monarch nodded slightly. "Good, we in the Thunder Ancient Country will discuss this matter internally."

It was quite normal for negotiations involving treasures of this level to include all five parties.

"I hope that within three days, the Thunder Ancient Country can give me a reply," Luo Feng said as he threw out a Command Token. "You can contact me through this token when the time comes."

"The four most precious items are all things that our Thunder Ancient Country is willing to pay a great price for," Lei Fu Monarch took the Command Token and said, "Rest assured, we will give you a very satisfactory offer."

Luo Feng nodded and then disappeared without a sound.

Lei Fu Monarch watched this scene.

"An avatar completely self-destructing, and even the means of contact must be through a Command Token? Such cautiousness from the one in black," Lei Fu Monarch glanced at the Command Token, very curious about the identity of the figure in the black robe and golden mask, but obviously Luo Feng was very careful, making it extremely difficult to probe his identity.

...

"I've contacted both Lei Fu Monarch and Emperor Xuan, now it's just waiting for the results," Luo Feng thought to himself within Huyang City.

Emperor Xuan had a Clone Technique and, being extremely proud, was concerned with face. As a result, the other Emperors often trusted Emperor Xuan with many matters, since he disdained personal gain. Thus, it was easy to locate Emperor Xuan's avatar.

"I wonder what terms these two will offer." Luo Feng spoke of negotiating with five parties, but in reality, it was only two.

...

Mt. Leiting, inside a majestic hall.

Nine monarchs sat apart, some in their True Bodies and others in avatars.

```

"Gentlemen."

The reigning Lei Xiao Monarch surveyed the surrounding and spoke, "Just now, a black-robed figure with a golden mask offered to sell us a 'Thousand Dreams Fruit.' Since the price of the Thousand Dreams Fruit does not exceed 3 billion Merit Points, there's no need to report to the Thunder Ancestor. The decision can be made upon our collective discussion."

The four treasures that the two Ancient Country Ancestors and the top three Alien Clans value the most.

For the first two, Special Life Remnants and Secret Skills left by Yuan, both Ancestors would personally negotiate as they place great importance on them.

For treasures valued over a billion in Merit Points? Below 3 billion, the Monarchs can make a collective decision. Above 3 billion, the Ancestors themselves would negotiate.

As for Innate Secret Treasures, it's up to the Monarchs to determine the value first. Only if they surpass the complexity of the Secret Patterns of Mt. Leiting would they report to the Ancestor. Otherwise, the Monarchs can decide, especially since treasures below Mt. Leiting's level are not that useful to the Thunder Ancestor anyway.
```

"Is it true that the black-robed figure's Spiritual Will is beyond God King Level?"

"Such powerful Spiritual Will?"

The Monarchs were less concerned about the treasures but more about the black-robed figure's strength.

"I tried to make contact with my Spiritual Secret Method," said Lei Fu Monarch. "I can confirm, his Spiritual Will truly is beyond God King Level."

"Such a powerful figure is always troublesome."

"Another one has emerged."

Many Monarchs from the Thunder Ancient Country were quite displeased.

Such a figure was too much of a counter to them! Perhaps only the three Monarchs descended from the thunder lineage were better off, a bit clearer-headed, so they could reduce their power somewhat.

"Let's talk about the main issue," Lei Xiao Monarch said. "That black-robed figure stated that he needs 'materials from the corpses of Ultimate Realm Primordial Bloodline Creatures,' preferably from various creatures and the more, the better. He is negotiating with five parties at the same time; whoever offers more, he will trade with."

"What does he want with these corpse materials? These fragments can't be refined into a complete Primordial Bloodline."

"Is he feeding a Sector Beast?"

"Using these materials for Physical Body Cultivation?"

"Studying the materials to comprehend the Great Dao?"

"This black-robed figure has a powerful Spiritual Will; maybe with these materials, he wants to strengthen his physical body! If both body and mind are powerful, he will be even more difficult to deal with."

The Monarchs speculated variously.

The uses for an Ultimate Realm Primordial Bloodline corpse are many, but for a small amount of incomplete materials, the uses are much fewer.

The Monarchs didn't care much about the Thousand Dreams Fruit, but they were very concerned about whether the 'black-robed figure with the golden mask's' strength would increase.

"Gentlemen, let's discuss the main issue," Lei Xiao Monarch reiterated.

"A single Thousand Dreams Fruit," said the Monarchs, uncaring, "two or three parts of the corpse materials should suffice." Even if they exchanged for the materials, they would ultimately belong to the Thunder Ancestor. The Thunder Ancestor's rewards to them weren't much either.

"The three Alien Clans transport from other Source Worlds to our Land of Origin, so they bring precious items. Either God King Grade Secret Treasures or a refined part of Ultimate Primordial Bloodline or a complete Ultimate Primordial Bloodline creature's corpse. For such low-value 'Ultimate Realm Primordial Bloodline Creatures' fragmentary corpse materials, even if brought, wouldn't be much."

"Yes, the remnants the three Alien Clans bring are generally 'Low Level Primordial Life Remnants'."

"This black-robed figure only needs 'Ultimate Realm Primordial Bloodline creatures' incomplete corpses, the three Alien Clans won't be able to offer much. On the other hand, Flame Wind Ancient Country might offer quite a few incomplete materials."

A small amount of corpse materials, not enough to refine a complete bloodline, can only be stored in the treasure trove.

"Indeed, two or three parts of the corpse materials should be enough." They were unwilling to offer too much, fearful of making the black-robed figure with the golden mask significantly stronger.

"Then let's settle for three parts," Lei Xiao Monarch decided.

In the treasure trove, remnants from two 'Ultimate Realm' Primordial Bloodline creatures accounted for one-tenth and one-seventh of a body, respectively, adding up to almost three-tenths. To put it nicely, it's like offering three parts of one body's materials.

...

In the Flame Wind Ancient Country, the Twelve Emperors were also discussing the matter.

"The Thousand Dreams Fruit has actually been obtained by the black-robed figure," said Di Jiufeng. "In my opinion, there's no need to offer him too much. He's using the Thousand Dreams Fruit in exchange, clearly indicating he really needs the 'Ultimate Realm Primordial Bloodline' creature materials, so we should offer less."

"The Ancestor doesn't value one Thousand Dreams Fruit too highly either," remarked Di Kong as well.

"Hmph."

Di Yan said coldly, "The four treasures are all needed by the Ancestor. Although the Thousand Dreams Fruit is slightly less valued, and we Emperors can collectively decide, the Ancestor will ultimately investigate each of our collective decisions! If you are so careless and the Ancestor is enraged, who will bear the consequences? I think we must give a condition that won't enrage the Ancestor."

"At the very least, we shouldn't enrage the Ancestor," Di Xi added.

"I think two or three parts are about right," Di Chu commented. "Two or three parts of an Ultimate Realm Primordial Bloodline corpse is definitely not a low offer."

"We should choose materials from different corpses," suggested Di Yan. "Otherwise, he might have a special method to refine a complete bloodline."

The Emperors discussed among themselves.

Di Fu watched this scene.

"Gentlemen."

Finally, Di Fu spoke, "Currently, in our treasure trove, we have incomplete materials of three 'Ultimate Realm Primordial Bloodline corpses,' altogether amounting to five parts of a body. I think we can offer all of it to purchase this Thousand Dreams Fruit."

"All of it?" Everyone present turned to look at Di Fu.

```
```

Chapter 15 The Trade of the Thousand Dreams Fruit

Within the hearts of the Emperors, there was a general consensus on the value of the Thousand Dreams Fruit, commonly believing that "about twenty to thirty percent of a corpse with Ultimate Primordial Bloodline" would suffice. But now, Di Fu had proposed a full fifty percent of a corpse, indeed surprising all the Emperors.

"Five percent?" Di Yan furrowed his brows at Di Fu, "Even if it comes from different corpses, fifty percent of corpse materials... isn't that too much?"

The other Emperors said nothing, just looked at Di Fu.

Di Fu gave a slight smile, "Fifty percent corpse materials, too much? In my opinion, not at all."

"I think it's quite a lot," Di Yuan also frowned, "Di Fu, could you be purposely giving the tribe's treasures to this Black-Robed? Do you know this Black-Robed?"

Di Fu didn't speak, his face growing cold.

"This is a collective deliberation of the Emperors," Emperor Xuan chastised, "Each Emperor can express their own opinions! Di Fu merely put forth a suggestion, and Di Yuan, you accuse him of deliberately giving treasures to the Black-Robed? Di Yuan, you've gone too far!"

"Di Fu only proposed a suggestion, the final decision will still be made collectively," Di Jiufeng also spoke up, quite dissatisfied.

"Humph." Di Yuan sneered, "I'd like to see just what reason Di Fu has."

Di Fu glanced at Di Yuan, "Di Yuan, among the thirteen Emperors, you've caused the greatest trouble for the Imperial Clan. You are the least qualified to say such things."

Di Yuan's face changed, he retorted angrily, "Di Fu, you target me repeatedly…"

"Today, it's you who are targeting me!" Di Fu glared coldly at him, "I am the current ruling Emperor, am I supposed to ignore your mess? What, are we supposed to discuss your transgressions today?"

Di Yuan sneered again, "Fine, let's not discuss these things. I'm curious as to why you want to exchange fifty percent of corpse materials for a piece of the Thousand Dreams Fruit."

Di Fu looked around, "Let's continue with the matter at hand! I'd like to ask, do you Emperors sincerely wish to buy this piece of the Thousand Dreams Fruit, or do you not?"

The many Emperors present were taken aback.

"If we only bid 'thirty percent of corpse materials,' do you think we could get the Thousand Dreams Fruit?" Di Fu asked again, "I believe everyone understands that the Thunder Ancient Country has more corpse materials than us, and they would likely bid up to forty percent! And the Three Alien Clans... typically bid even higher than the two of our Ancient Countries."

"The Three Alien Clans probably don't have that many corpse materials," said Di Yuan.

"The Three Alien Clans will offer other conditions, such as a small amount of remnants from lower-level Primordial Life," said Di Fu, "In any case, from my understanding of the Three Alien Clans, their bids will be higher than those of our two Ancient Countries!"

The Emperors present fell silent.

Indeed.

It has always been like this! The homelands of the Three Alien Clans didn't possess such rare treasures; they were willing to pay a higher

price for each one. Whereas the Ancestors of the two countries had obtained so much that they became more selective.

"Bidding thirty percent of corpse materials, we all know that the chance of success is extremely low. It's merely to avoid blame from the Ancestors," said Di Fu, "If we truly wish to buy the Thousand Dreams Fruit for the Ancestors, the bid must be over 'forty percent of corpse materials' for there to be any hope of exceeding the Three Alien Clans, to win the Thousand Dreams Fruit."

"Our treasure trove only totals fifty percent; will bidding forty percent and bidding fifty percent make much difference to us? What can we do with the scant materials left?"

"Forty percent of corpse materials, the chance of success is still not high. I estimate that the bids of the Three Alien Clans will generally be in this range, possibly even higher. With fifty percent of corpse materials, the hope could be much greater."

"Paying such a hefty price, are you insisting on obtaining this piece of the Thousand Dreams Fruit?" Di Yuan scoffed.

"Don't forget, "

Di Fu looked around, "the Land of Origin is already in its final stages!"

The hearts of the Emperors in attendance jolted.

"As time goes on, the top treasures produced by the Dream Domain will become even scarcer," said Di Fu, "And before the end of the Land of Origin, we will also need to leave it. The Thousand Dreams Fruit may not be of great use to the Ancestors, but it is very useful for us."

The other eleven Emperors were moved.

"This top treasure, could it be our turn?" Di Kong couldn't hold back, his eyes ablaze with eager anticipation.

Since it was for purchasing for the Ancestors, everyone wasn't too concerned.

But if it was for their own consumption...

"My debt to the tribe doesn't count as too high," Di Fu said, "I will take the initiative to apply to the Ancestors for permission to purchase this piece of the Thousand Dreams Fruit, and the so-called price, I will bear it myself."

Di Ming, who had been silent, eyes brightened, said, "I will also apply."

Among the twelve Emperors present, in terms of debt, Di Ming and Di Fu owed the least to their tribe, both having enough allowance to purchase the Thousand Dreams Fruit.

"So that's your plan."

"We're going to leave the Land of Origin in the future, and afterwards, to obtain such top treasures, we won't have the opportunity," each Emperor was somewhat tempted; they couldn't live in the next era of the Land of Origin, and after leaving the Land of Origin, to obtain treasures of this level again? Too difficult.

Haven't you seen? The Three Alien Clans, breaking through dimensions to come to the Land of Origin, paying such a great price, are willing to buy the Thousand Dreams Fruit?

"We can't afford it," Di Kong, Emperor Chu, and others all looked envious.

The Ancestors of the two countries had the Emperors and Monarchs of their respective Ancient Countries shouldering enormous debts. The Emperors and Monarchs who wanted more treasures? They had to first repay their debts! So, each of them desperately collected top treasures.

The two Ancestors didn't need to spend any effort, and these Emperors and Monarchs would offer many treasures to them.

"I am willing to purchase with fifty percent of corpse materials, and I will also take the initiative to request purchase of the Thousand Dreams Fruit from the Ancestors. No matter the cost, I'll bear it myself," Di Fu looked around, "Any objections to offering fifty percent

of corpse materials?"

"Good," Di Ming nodded, "We'll apply to the Ancestors when the time comes, each according to their own abilities."

Di Fu nodded as well.

Di Fu indeed desired the Thousand Dreams Fruit.

After consuming it, one could experience a thousand lifetimes in dreams, undergoing Cultivation in the dream world as well, accumulating insights, and tempering the spirit! Such a treasure was of immense value! It was only the Ancestors of the two countries, who had reached extremely high realms of Cultivation and had obtained similar treasures before, that didn't care much.

The Thousand Dreams Fruit works best the first time it is taken. The benefit diminishes with the second and third times, and so on.

"I have no objection," Emperor Xuan nodded.

"You would have no objection, Emperor Xuan, since you will be bearing it yourself," Emperor Kong sighed.

"What a pity that I can't afford it," Emperor Chu shook his head.

None of the emperors had any objections, not even Emperor Yan at this moment. They could see that the emperors' resolution would definitely surpass half in favor.

"Then it is settled," Emperor Di Fu agreed with a nod.

"Emperor Di Fu," Emperor Yan suddenly spoke up, "if the Black-Robed agrees to this trade, may I observe?"

Emperor Di Fu glanced at Emperor Yan and smiled with a nod, "Of course."

Emperor Yan nodded in response.

...

Di Yan Palace.

Emperor Yan, Di Wu, and Di Xi, the three of them gathered together.

"Big Brother, are you going to observe this trade?" Di Wu asked Emperor Yan with confusion.

Emperor Yan nodded, "You both should know that I was the first in the Imperial Clan to become an emperor, with Emperor Di Fu being the second! At that time, we both cultivated the Primordial Bloodline and shared a deep bond. I offered him quite a lot of help."

Di Wu and Di Xi both nodded.

"In the whole Imperial Clan, I should understand Emperor Di Fu the best," Emperor Yan stated, "I've always wanted to persuade Emperor Di Fu to join us, so that the four of us can act together after we leave the Land of Origin."

"Given Emperor Di Fu's mastery in formations, if he joins us, our team's strength could at least double," Di Wu agreed with a nod, "But, Big Brother, you have been persuading him for so long and he does not take any notice."

"Yes."

Emperor Yan nodded, "Emperor Di Fu appears gentle on the surface, but in reality, he is extremely decisive. Originally, he didn't hesitate to abandon the Primordial Bloodline and chose reincarnation! And then there were the times of the collective emperor resolutions... Sometimes he would give me some face, but other times he would stand directly opposite me."

"He is not influenced by favors. If he has decided on something, I can't change his mind," Emperor Yan said, "I've long understood that he won't join us."

"However, this time his insistence is quite rare," Emperor Yan continued, "Although his explanation is sufficient, that he wants a share of the Thousand Dreams Fruit for himself... I have known him for too long. When he decides like this, I feel something isn't quite right. Therefore, during this trade, I'm preparing to observe. I also

happen to be quite interested in that Black-Robed one."

"Emperor Yan, don't become enemies with Emperor Di Fu," Di Xi, who had been silent, spoke up, "You can't defeat him."

Emperor Yan was startled and looked at his wife, smiling, "I know!"

Without relying on external items, achieving 'Ultimate Realm Life Form' through formations alone is something only Emperor Di Fu had done on the Land of Origin. Other powerful beings achieved their 'Ultimate Realm Life Form' status either through the Primordial Bloodline or with the help of many precious Primordial Materials.

Emperor Di Fu's mastery in formations is unimaginable. Moreover, he exchanged powerful formation secret treasures with the Ancestor, making his strength even more terrifying.

And that's just what's apparent on the surface!

Emperor Yan was very aware that Emperor Di Fu was always good at hiding!

"When it comes to scheming, who on the Land of Origin could compete with him?" Emperor Yan stated, "Honestly, despite all the mystery surrounding the identity of the Black-Robed, if anyone from the Ancient Countries could guess his identity, I believe Emperor Di Fu might be the first to figure it out."

"This time, when the Black-Robed faced off against Emperor Jiufeng and Di Wu, it was confirmed that the Black-Robed possesses a physical body no less powerful than that of an Ultimate Realm Life Form," Emperor Yan continued, "A terrifying physical body and a Spiritual Will beyond the God King level. Emperor Ming, after all, has the resources of the Imperial Clan for cultivation, but for the Black-Robed, as an independent Cultivator, to reach this stage is even more frightening than Emperor Ming."

"I have a feeling that there may be a connection between Emperor Di Fu and the Black-Robed," said Emperor Yan.

"The Land of Origin is entering its final phase, and we must be more diligent," Emperor Yan told Di Xi and Di Wu, "Any major opportunity,

the three of us must compete for it! The power within the Land of Origin is bounded by the upper limit of the Ultimate Realm! Therefore, as long as they can get involved, we are able to intervene."

"The more opportunities we seize, the stronger we become. Then, once we leave the Land of Origin, the three of us will be in a better position to survive," Emperor Yan said.

Di Wu and Di Xi both nodded.

They were not interested in ordinary opportunities, but for valuable resources, if there was a chance to get involved, they would never let it go!

...

Luo Feng received responses from the two Ancient Countries. Thunder Ancient Country was willing to offer 'about thirty percent of corpse materials,' which were from two different Ultimate Primordial Bloodline bodies. Flame Wind Ancient Country was willing to offer 'about fifty percent of corpse materials,' which were from three different Ultimate Primordial Bloodline bodies.

"Flame Wind Ancient Country is offering so much?" Luo Feng was surprised.

The terms provided by the Flame Wind Ancient Country were really too generous. Even in negotiations with the Three Alien Clans, the terms from Flame Wind Ancient Country would likely be the best.

"The terms from your Flame Wind Ancient Country are slightly better than those offered by the Three Alien Clans! I am willing to sell the Thousand Dreams Fruit to you," Luo Feng responded to Flame Wind Ancient Country through the Command Token, and they also set the time and place for the exchange.

...

In a small city 'Snow Peak City' on the border of Flame Wind Ancient Country, this city was built atop a majestic mountain range and was perennially covered in floating snow. There weren't many Cultivators living there, just a mere several billion.

In the highest place in the city, and also the peak of the entire majestic mountain range, it was completely sealed off today, prohibiting all Cultivators from approaching.

Whoosh.

The Black-Robed Luo Feng with a golden mask appeared in the sky. Since it was the trade for the Thousand Dreams Fruit, Luo Feng was preventing Flame Wind Ancient Country from forcibly stealing it. Therefore, his Physical Body was in the strongest state he could unleash, reaching the level of a World Life Form with 56 times the Perfect Divine Body Energy Reserve. Moreover, Luo Feng was also carrying the Star Tower!

"Whoosh."

With a step, Luo Feng was already on the mountaintop.

There were already two figures at the peak, their presence naturally influencing the surrounding environment. It was Emperor Di Fu and Emperor Yan.

"He's arrived." Emperor Di Fu and Emperor Yan also saw the appearance of the Black-Robed golden-masked figure.

Chapter 16 Morosa's Excitement

"Is this really Luo He's true strength?" Di Fu curiously observed Luo Feng. It was the first time he had seen Luo Feng in his black-robed, golden-faced form. As the most powerful entity in divining the heavens throughout the Land of Origin, a single glance from him could gather massive amounts of information.

Di Fu's body refinement was through formations; his body was a movable, massive formation. Wherever he went, an endlessly vast range was naturally within the influence of his formation, able to collect numerous subtle pieces of information.

"Wherever Luo Feng goes, the Void is under pressure."

"His life force is above both mine and Di Yan's!" Di Fu instantly made a judgment.

Every life form, including a grain of sand or a particle, as carriers, they all put pressure on the Void—although the strength of the pressure varies.

Life force encompasses both the physical body and the soul!

In Di Fu's formation sensing, Luo Feng seemed like a terrifying celestial body affecting the Void—much more so than both Di Fu and Di Yan.

"Talking about life force, among the twelve Emperors, only Emperor Ming is not inferior to him," confirmed Di Fu. Naturally, he excluded 'Emperor Qing' instinctively; Emperor Qing had already transcended the Ultimate Realm, his avatar had gone to explore the outside world.

Emperor Ming's spirit had surpassed the Godly King level, with deep cultivation in the Origin Dao of Matter and an exceptionally high level of extraction from the Primordial Bloodline! His physical body

was also the most formidable among the twelve Emperors.

In Di Fu's view, half of the twelve Emperors, in a one-on-one battle with Emperor Ming, would be completely killed.

At this moment, in Di Fu's perception, the life force of the black-robed, golden-faced strong one was about seventy percent of Emperor Ming's! Completely surpassing the other eleven Emperors.

"Is Di Fu observing this black robe?" Di Yan couldn't see through Luo Feng's reality, but he was very familiar with Di Fu. He could tell at a glance that this was Di Fu's careful observation stance. "Was I wrong? Di Fu and the black robe aren't familiar?"

Now Luo Feng approached and smiled, "I am indeed honored to meet two Emperors. One is the reigning Emperor of the Flame Wind Ancient Country, and the other is the once foremost Emperor."

"We, too, are seeing the black-robed brother for the first time," Di Yan also said with a smile.

"First time seeing the black-robed brother, indeed exceptional," Di Fu also praised.

The atmosphere was quite amiable as they met.

Luo Feng said, "I have brought the Thousand Dreams Fruit. The Ultimate Realm Primordial Bloodline Biological Materials, have you brought them?"

"Of course," said Di Fu.

"This time Di Fu insisted, despite opposing views, to trade about fifty percent of the corpse materials for this fruit," explained Di Yan, while also watching for any changes in the expressions and auras of Di Fu and Luo He.

Di Fu glanced at Di Yan before saying, "Indeed, I was the one pushing for it. According to the other Emperors, twenty to thirty percent of the materials would have been enough."

"Twenty to thirty percent of the materials won't get my Thousand

Dreams Fruit," said Luo Feng with a smile. "The Three Alien Clans have made offers that are almost worth forty percent of the corpse materials."

"Let's check the treasures then," Di Fu waved his hand, and there appeared a black Spatial Bag. The mouth of the bag opened, revealing the large amount of Ultimate Realm Primordial Bloodline Creature Corpse Materials inside.

Luo Feng also turned his hand and took out a Treasure Box, opening it to reveal the Thousand Dreams Fruit inside.

They checked the goods simultaneously.

Luo Feng's consciousness carefully entered the Spatial Bag to examine it.

With Ultimate Realm Primordial Bloodline Biological Materials, even a tiny amount of the corpse material upon inspection with the consciousness, would reveal the complete biological form! It would be easy to deduce the proportion of the materials to the complete body.

"These materials do indeed come from three creatures, all bred on the Land of Origin," judged Luo Feng after his assessment, "adding up to roughly fifty percent of the corpse materials."

"It's indeed the Thousand Dreams Fruit," Di Fu confirmed as well.

"Good, then let's make the trade," said Di Fu, waving his hand and the Spatial Bag flew towards Luo Feng.

With a thought from Luo Feng, the Treasure Box also flew toward Di Fu.

Both parties were wary, afraid of being forcefully robbed! If Luo Feng attempted to force the issue, Di Fu would have to call upon several ready Emperors, according to the rules. Those Emperors would work with Di Fu's grand formation to besiege Luo Feng together.

Luo Feng was also prepared, mobilizing the Secret Treasure, Star Tower, within his body. If a battle broke out, he would immediately

imprison both Di Fu and Di Yan in the Star Tower!

Whoosh! Whoosh!

The treasures flew respectively to each other's front without incident.

"Very good," Luo Feng reached out and picked up the Spatial Bag.

"If there are Four Great Treasures, our Flame Wind Ancient Country is always keen to purchase," Di Fu put away the Treasure Box as well.

With the successful transaction, both parties breathed a sigh of relief.

"Ha-ha, old rules, I usually negotiate with the five parties, the highest bidder wins," Luo Feng's mood seemed good as well, "Then I'll be taking my leave first."

"Black-robed brother, I would like to ask one more question. Why did you kill the three City Lords of Shi Kingdom?" suddenly asked Di Yan.

Luo Feng glanced at him, with a smile that was not quite a smile: "To kill when one wishes, is there need for a reason?"

After speaking, Luo Feng took a step.

In a flash of black light, he had already disappeared.

"This black robe, quite a temper," Di Yan commented.

"The stronger one is, the greater the temper," said Di Fu, before leaving as well, "Let's go." Di Fu needed to deliver the 'Thousand Dreams Fruit' to the clan's treasure trove. Only if the Ancestor approved of his application, could he consume the Thousand Dreams Fruit.

Di Yan stood there, slightly frowning.

"It seems they are not that familiar with each other," Di Yan was somewhat puzzled, "And this black robe, not caring at all about me."

He could tell the casualness in the tone.

"Interesting."

Di Yan smiled, "Now that you've shown yourself, your identity will ultimately be discovered."

Soon after, he also disappeared without a trace, returning to Yan Capital.

******

Huyang City, quiet room in the city owner's mansion, within one of the spaces in the Star Tower.

Luo Feng was here, and he had also taken out the corpse materials from his spatial bag.

The immense corpse materials from three Ultimate Realm Primordial Bloodline Creatures were scattered across this layer of space, piling up like a series of continuous mountain ranges! The giant silver-white unicorn horns alone spanned trillions of kilometers in length.

"They are all cultivated by the Land of Origin itself," Luo Feng was very satisfied. When he had inspected the goods before, the moment he saw them, his Formless and Intangible abilities determined... that as long as he studied their internal structure thoroughly, he could transform.

"These Primordial Bloodline creatures, with ordinary intelligence and very low realms, can all exhibit the strength of the Ultimate Realm. Their physical bodies are truly terrifying."

Luo Feng's eyes burned with fervor.

"Roar~~~"

"Hiss~~~"

"Wu wu wu!"

Above these corpse materials, three massive and vague shadows condensed.

This was the will of the bloodline!

It was the residual will of the 'Primordial Life,' the bloodline source of the three creatures, one with the form of an eight-hoofed clawed creature, one resembling a serpent, and one looking like a furry creature. Luo Feng didn't care about these residual wills.

"Just talking about the body alone, it's even more terrifying than 'Ultimate Realm Life Forms' we cultivated," Luo Feng said in front of a sprawling segment of the serpent's body—a segment that spanned over trillions of kilometers in length—and he observed carefully.

"It embodies the 'Twenty-four Forms,' 'All Things Phase,' 'Three Life Forms'..." Luo Feng exclaimed in admiration, "Just from what I can see, there are seven forms."

It was like Luo Feng was looking at a complete Great Dao.

From different perspectives, you see different Forms.

Thus, if one completely comprehends a complete Great Dao and cultivates an Ultimate Realm Life Form, there is hope to embody multiple Forms. The more 'Forms' one embodies, the more terrifying the physical body.

Like the 'Twenty-four Forms,' which is one of the Forms of the Life Origin's complete Great Dao.

Those Primordial Bloodline creatures with the strength of the Second Realm of Godly King, possessing the 'Twenty-four Forms' is already among the elite. It is impossible to find those embodying two Forms.

But these Ultimate Realm Primordial Bloodline creatures commonly embody multiple Forms.

"This multi-hoofed and horned creature, I can see it embodies six Forms."

"This furry creature, I can see... it embodies a full ten Forms!" Luo Feng was astounded, "This creature should be able to move easily through different timelines, can be large or small, and capable of devouring heaven and earth."

Generally speaking, the more Forms a physical body embodies, the

stronger it is.

Experience new tales on My Virtual Library Empire

"This multi-hoofed and horned creature is slightly easier to cultivate," thought Luo Feng, "but now I only know the 'Twenty-four Forms,' and I need to comprehend the other five Forms."

Each Form corresponds to one Form, and he must comprehend all the components of the six Forms to change into the body of the multi-hoofed and horned creature by using the Formless and Intangible ability.

The serpent creature and the furry creature are even more challenging.

Luo Feng observed the materials of these three creatures, Six Forms, Seven Forms, Ten Forms, with some overlaps. Overall, these materials could provide insight into a total of 'Fifteen Forms.'

"To observe real materials with my own eyes... is different from comprehending the Great Dao," Luo Feng mused with the physical specimen in hand, finding research much easier as if following detailed guidance.

In the past, Luo Feng had been drawing countless Secret Patterns from scratch, deducing other forms.

"Right, Morosa!" Luo Feng then remembered, one of the main reasons he had purchased these materials was for Morosa's growth.

Whoosh!

Luo Feng immediately took some of the fragmented corpse materials aside, taking about one percent of them!

"Morosa," Luo Feng communicated through his mind, and soon Morosa hurried over, summoned into the Star Tower.

"Master, what's the matter?" Morosa, seeing the gigantic corpse materials piling up like continuous mountain ranges to the side, couldn't help but bulge his eyes roundly; the aura from these corpse

materials was incredibly intense.

"This, this is?" Morosa couldn't believe it.

The best food he had ever consumed was only some parts of the Primordial Bloodline Creatures at the Second Realm of Godly King, not nearly as good as these before him.

"Master, all these, are these all prepared for me?" Morosa looked at his master excitedly.

Luo Feng watched him with a smile and nodded his head, "Of course."

"This is great, Master, you are the best," said Morosa, overwhelmed with excitement. He felt a primal desire within his 'Sector' wanting to devour these foods. He sensed—

These foods before him could elevate him to the pinnacle of life, to become a genuine Ultimate Realm Beast!

"I paid a considerable price to get these foods," Luo Feng reflected.

It wasn't easy to cultivate a Sector Beast.

A small amount of fragmented corpses of Second Realm Godly King Primordial Bloodline Creatures could be bought, but complete bodies? The two Ancient Countries wouldn't sell them.

Better creatures' corpses?

They could only be exchanged for one of the Four Great Treasures, and even the most inconspicuous treasure amongst the Four Great Treasures, the 'Strange Treasure with over a billion Merit Points,' was coveted by some Imperial-level beings. He had successfully obtained the Thousand Dreams Fruit by pressing down on the others and fending off creatures native to the Dream Domain.

Without strength, such treasures were unattainable!

Without strength, one might be robbed just after trading with the two Ancient Countries.

"Master, the price you paid is worth it," Morosa said excitedly, "I'm absolutely confident these foods are enough for me to become an Ultimate Realm. Then I can help the master."

"You have to conserve these foods a bit," Luo Feng cautioned, "If eating about seventy to eighty percent is enough to become Ultimate Realm, you have to give the rest back to me; I still need them."

"Don't worry, once I become Ultimate Realm, I won't need them anymore," Morosa said, "Hurry and send me to the retreat space, I can't wait." He dreamed of reaching the Ultimate Realm.

"Haha, go ahead then."

Luo Feng laughed and with a wave of his hand, moved the piled-up corpse materials like continuous mountain ranges and Morosa to another layer of space.

Chapter 17 Breakthrough

In the blink of an eye, Morosa had been in seclusion for half a century.

"Morosa's transformation this time sure is taking a fair bit of time," Luo Feng sat atop a pavilion in the city owner's mansion, sensing Morosa's condition within the Star Tower with just a thought. Of the corpse materials he gave, Morosa had devoured about two-thirds, leaving the rest untouched.

At this moment, Morosa was in deep slumber, and his aura was transforming very slowly.

"His aura has already become stronger than Emperor Gui Xu and Wuxin God King, and it's still transforming..." Luo Feng revealed a smile, "I believe once the transformation is successful, he will be at the Ultimate Realm."

The Ultimate Realm!

In this era, only Emperor Qing and the Lord of Ten Thousand Realms had attained a complete Great Dao through their own understanding.

Emperors and Monarchs could wield strength comparable to the Ultimate Realm with the help of numerous super secret treasures. However, when it came to techniques and the subtlety of their moves, naturally, they were no match for those truly at the Ultimate Realm.

Although the Sector Beast reached the Ultimate Realm merely by eating and drinking, it was genuinely at the Ultimate Realm, with extremely refined moves.

"Once Morosa breaks through and becomes Ultimate Realm, many things I want to do can be done," Luo Feng said, cradling a cup of

wine, looking at the snowflakes drifting within Huyang City.

Now he still acted with restraint because his every action could not be completely concealed! The various probing methods of the two ancient countries, whether from the aspect of time and space or causality, could trace many clues.

"Once Morosa grasps a complete Great Dao, he will be free from causality, achieving the Great Dao to Perfection, without leaving a trace."

Luo Feng knew this.

A complete Great Dao had many powerful aspects.

With the Great Dao at Perfection, its operation could weaken all attacks... Even Luo Feng's Spiritual Will Attack would be weakened.

As the realm increased, what seemed like the mysterious 'Spiritual Will Attack' lost its mystery. With a complete Great Dao in hand, it could be resisted and weakened to some extent! And if one was Beyond God King level, the means of defense would be even stronger. Even the 'Beyond God King Level Weapons' they refined had the effect of weakening will attacks.

After all, will attacks were but a branch of the Soul Path.

If it was a complete soul method, it would infiltrate and attack from various aspects, naturally much more terrifying.

Pure will attacks were very advantageous in the Land of Origin! After all, those who mastered a complete Great Dao were few and far between.

In the future, however, should he leave the Land of Origin and meet opponents like the Three Alien Clans, Ancestors of countries, and so on, his Spiritual Will help would weaken, and even Luo Feng's Spiritual Will might not be as strong as the opponent's.

"My cultivation time is still too short, and I'm only at the Second Realm of Godly King. Slowly does it, no rush." Luo Feng had a clear plan for his path of cultivation. During his period in the Land of

Origin, he had two objectives concerning cultivation.

One was to reach the Ultimate Realm. The other was to be patient enough to comprehend the high-level secret techniques from a lower realm, preferring to cultivate more slowly but refine his comprehension.

"Master."

A figure walked through the snow and came to the pavilion, respectfully saluting; it was Luo Feng's second disciple, 'Xin Yu'.

"Come up," Luo Feng put down his wine cup, smiling at his disciple.

Among the disciples of the Blade River Sect, the one with the highest talent was Xin Yu, who made rapid progress along the way and was now at the Pinnacle of Primal Chaos Realm. He had no interest in managing the sect's trivial matters and was solely focused on cultivation.

Xin Yu, dressed in a blue robe, respectfully saluted: "Master, I've cultivated the Heaven Splitting Branch and the Mixed Heaven Branch to their bottlenecks, but I can't take the final step and truly grasp the Great Dao Branch."

"Xin Yu, you've reached the Primal Chaos Realm in just over two centuries. To have reached the Pinnacle of Primal Chaos Realm is already quite remarkable," Luo Feng looked at his disciple, "But you should know, the Imperial Clan of the ancient countries, the first rank marquis, can reach the Pinnacle of Primal Chaos Realm in just a hundred years with enough resources."

"Disciple knows his talent is nothing in the whole Land of Origin," Xin Yu looked at Luo Feng, his eyes burning with passion, "Master, you only spent several years to become transcendent in the Primal Chaos Realm.

"Ha ha..." Luo Feng laughed.

Indeed, he became transcendent in the Primal Chaos Realm in just a few years. With his Perfect Divine Body and the Formless Transformation Technique, he possessed the strength of

Transcendence of Primal Chaos Realm. At that time, the outside world suspected Luo Feng to be the reincarnation of some Godly King.

"What I want to tell you is, even if the Imperial Clan and marquis of the ancient countries reach the Pinnacle of Primal Chaos Realm early on, many will be stuck at the bottleneck for a lifetime, unable to become Godly Kings," Luo Feng looked at his disciple.

"Stuck at the bottleneck for a lifetime?" Xin Yu's heart tightened.

"The cultivation of the Primal Chaos Realm involves only the gradual comprehension of the branches of the Great Dao and slow accumulation. However, to truly comprehend a branch of the Great Dao requires an epiphany," said Luo Feng.

"Epiphany?" Xin Yu was puzzled.

"An epiphany cannot be forced," Luo Feng said, "The key lies in 'extensive accumulation that leads to swift success'. What you need to do now is not comprehend the branches of the Great Dao, but rather, you should study the emperor-level secret techniques. Comprehending one secret technique means reaching the Transcendence of Primal Chaos Realm. Comprehend two or three secret techniques... the more secret techniques you understand, the closer you are to the Great Dao."

"One day, you will naturally comprehend the branch of the Great Dao," Luo Feng continued.

"To comprehend the Godly King secret techniques, the more I understand, the closer I am to the Great Dao?" Xin Yu asked, "Master, how many Godly King secret techniques do I need to comprehend to become a Godly King?"

"You're mistaken."

Luo Feng shook his head, "The more you crave for the comprehension of the Great Dao, the further you are from it! Do not seek the branches of the Great Dao, but focus on comprehending the secret techniques. Gradually accumulate and one day, the breakthrough will

occur naturally."

"Only with sound accumulation at each realm will you be able to go farther on the Godly King path," Luo Feng looked at his disciple.

"Focus on comprehending the secret techniques, not pursuing the branches of the Great Dao? I understand," Xin Yu respectfully saluted, "Disciple takes his leave."

Luo Feng nodded.

Luo Feng was very clear that focusing solely on comprehending Godly King Secret Techniques, without pursuing branches of the Great Dao, set an extremely high threshold for cultivation. For those with average comprehension, it would be quite an achievement to comprehend a single Godly King Secret Technique in their lifetime.

"Being my disciple, your goals should be more ambitious. Otherwise, spending a lifetime as an ordinary Godly King, what's the point?" Luo Feng naturally had expectations for his second disciple, Xin Yu.

...

In the Land of Origin, within a concealed world named 'Mother River World.'

This was the heart of the resistance force against the Flame Wind Ancient Country.

"This black-robed gold-faced powerhouse is extremely strong! His Physical Body is no less than that of an Ultimate Realm Life Form, and his Spiritual Will is even Beyond God King Level," God King Zongfu softly shook his head, "The dual strength of body and soul is so powerful that even the purple-robed woman was defeated by him... With such a terrifying strength, how can he remain so detached from the world?"

"The most pinnacle existences on the Land of Origin, including the Sector Beast of Tianmu Kingdom and the Lord of Ten Thousand Realms, are all acting covertly to battle for resources! This black-robed figure, does he not care about resources?"

"The pinnacle existences of the Land of Origin who stay out of worldly affairs are Wind City Empress and Fire Ancestor!" God King Zongfu said, "With the support of the Ancestor of the East Extreme Domain, Wind City Empress naturally doesn't need to fight for resources. As for Fire Ancestor... it's said that after Fire Ancestor met Yuan and received guidance from Yuan, he no longer needed to compete and devoted himself to cultivation."

"What's the black-robe's reason for not competing?"

God King Zongfu was somewhat puzzled. "He only made a move once in the Dream Domain, and we've never seen any trace of him in other treasure lands. All those resources, he's just going to watch and not care? With his strength, he could take a lot!"

"Being suppressed for long years by the two Ancient Countries, once one attains the strength of an Emperor or Monarch Level, they usually can't help but compete for resources," lamented Yu Fu God King.

"As the Source World of the Land of Origin gradually enters its end stage, anyone with a bit of ambition competes. I thought we might have an additional ally... By joining forces, we could take more from the two Ancient Countries," God King Zongfu shook his head, "Who would have thought that after parting in the Dream Domain, we would never see him again."

As the leader of the entire Mother River Force, God King Zongfu naturally participated in battles over numerous treasure lands.

He too longed to obtain more precious resources and to assemble a complete set of Primordial Bloodline!

The black-robed powerhouse... seemed like a casual cultivator, and God King Zongfu was very welcoming of that!

But it seemed that the black-robed powerhouse was too low-key and didn't care much for the treasure lands' resources.

God King Zongfu and Yu Fu God King had no idea that Luo Feng had only been a Godly King for just over three centuries while the so-

called end stage of the Land of Origin had tens of billions of centuries, so Luo Feng didn't feel any urgency at all.

...

Within Huyang City, in the Quiet Room of the city owner's mansion, inside the Star Tower.

Luo Feng had been studying the newly acquired materials from the 'Ultimate Realm Primordial Bloodline Creatures' corpses, which gave insight into fifteen life forms at the Ultimate Realm level, including the 'Twenty-four Forms' as one of those life forms.

These three Ultimate Realm Primordial Bloodline Creatures, in their most basic life configuration, each embodied multiple Forms.

Combining Six Forms meant combining six different life forms into one, which was truly marvelous.

The material inherited in their bloodline was equally miraculous, but Luo Feng, with little accumulation in the 'Origin Dao of Matter,' didn't understand it.

"Examining these materials with my own eyes has considerably improved my understanding of life forms."

Luo Feng's spiritual consciousness also penetrated the Star Tower, observing its vast and endless Secret Patterns.

The Secret Patterns of the Star Tower.

They included various categories, with life-related Secret Patterns being the most numerous, accounting for about one-third, and being absolutely central.

"These life Secret Patterns can merge multiple forms into one," Luo Feng discovered, and the life Secret Patterns on the superficial layers of the Star Tower resembled the fifteen life forms, which swiftly aided Luo Feng in sorting out the classifications.

As Luo Feng's research deepened, the source of countless Secret Patterns, 'blood-red scales with twelve colors,' seemed increasingly

terrifying.

"Hm?" Luo Feng was bewildered for a moment.

The blood-red scales radiated a horrifying, evil blood light, so much so that they seemed like an endless sea of blood enveloping Luo Feng's spirit, making even someone as strong-willed as he was tremble in fear, prompting him to immediately cease his observation.

"What's going on?" Luo Feng sat cross-legged inside the Star Tower.

"As my research deepens, these blood-red scales become even more terrifying?" Luo Feng calmed his mental state and soon revealed an excited smile, "Then I'll face it head-on!"

Facing it, studying it.

Incorporating all the elements that invoked terror into the creation of his Secret Techniques.

This was Luo Feng's initial response when he first encountered the enormous eye in the dreamscape.

Luo Feng immersed himself in cultivation once more, constantly attempting to interpret the 'blood-red scales' using the nine branches of life and death. This time, Luo Feng felt he had a deeper understanding of the blood-red scales and that his creation of Secret Techniques might bear fruit.

The various powers of the Land of Origin, ever since the black-robed gold-faced powerhouse made a move in the Dream Domain, were very keen on his next action...

Enjoy new chapters from My Virtual Library Empire

But Luo Feng was devoted to cultivation and was also waiting for Morosa's transformation.

Unconsciously, more than half a century had passed.

"Hm?"

"Still not successful." Inside the Star Tower, Luo Feng gently shook his head, "My understanding of the Star Tower is still not deep enough; I can't create a merged technique for the nine branches of life and death."

"I've barely understood the 'Eighth Branch Merged Technique'."

Chapter 18 Morosa of the Ultimate Realm

Luo Feng's thought stirred, and the massive World Life Form split in two, with the main avatar possessing 56 times the Perfect Divine Body Energy Reserve, and its inner world contained that one Life Lotus.

"Let's see my ultimate strength without using treasures," thought Luo Feng.

Boom!

The majestic power contained within the main avatar instantly operated according to the Secret Technique and the endless power naturally transformed into a blood-red force. In the blink of an eye, a vast Blood River appeared in every corner of this layer of the Star Tower space.

It was, in theory, boundlessly vast.

Once trapped in this endless Blood River, one would never be able to reach the end. Only those whose strength transcended the Blood River could break free from it.

"Is this the 'River of Life' that combines the Eight Branch Secret Method?" Within the endless Blood River, an image of Luo Feng formed.

In actuality, this endless Blood River was Luo Feng's main avatar! The image that formed was merely a concentration of power and not significant.

"Rumble~~~"

In Luo Feng's perception, this Blood River was actually its own world, and the rules of operation of this world were essentially a super-simplified version of the blood-red scales. From this moment, Luo Feng's Secret Technique could be said to barely scratch the surface of the 'blood-red scales'.

But the power was already unimaginably immense.

In the depths of the Life Blood River, there was a massive 'Life Lotus'. When Luo Feng's main avatar transformed into the 'River of Life' form, the Life Lotus also became the core of the River of Life, significantly enhancing the might of the River of Life.

"With the blessing of the Life Lotus, the River of Life fully erupts!" With a thought from Luo Feng, the Blood River surged tumultuously, the heavens and the earth seemed to invert, and the boundless Blood River engulfed and annihilated everything.

"Hmm?"

Luo Feng frowned slightly, "Supreme Rules!"

While unleashing the full might of the River of Life, Luo Feng felt the faint restraint of the Supreme Rules.

"The might of the River of Life is not far from the 'limit set by the Supreme Rules.' It feels like increasing its strength by another thirty to forty percent would touch this limit," Luo Feng was somewhat surprised.

He was only at the Second Realm of the Godly King Level! And he had not even used any treasures.

His spiritual will, commanding a World Life Form with 56 times the Perfect Divine Body Energy and employing the River of Life through the Eight Branch Secret Technique and the rare 'Life Lotus' blessing, was already close to the power limit of the Land of Origin.

"The Life Lotus is nearly as valuable as a Beyond God King Grade Secret Treasure," realized Luo Feng. "Without this rare item, perhaps only a Nine Branch Secret Technique could touch the limit."

The Six Branches Secret Method for Life and Death is comparable to the Ultimate Realm moves of ordinary Great Dao.

The Seven Branches Secret Technique is even more transformative in power. Last time Luo Feng used it to suppress the Catastrophe Beast avatar of Tianmu Kingdom.

The Eight Branch Secret Technique is even more powerful.

The terror of merging paths was gradually becoming evident.

"This is still without using the Star Tower, but it's very close to the limit set by the Supreme Rules."

"Let's try the might of the Star Tower!"

With a thought from Luo Feng, power flowed into the deeper Star Tower Secret Patterns, beginning to drive countless Secret Patterns.

The Secret Techniques that Luo Feng had comprehended, including the newly conceived Eight Branch Secret Method 'River of Life,' were all part of Luo Feng's gains from contemplating the Star Tower Secret Patterns! They could be executed out of thin air.

But with the Star Tower, Luo Feng could drive all the Secret Patterns he had understood.

The range of driven Secret Patterns far surpassed the Eight Branch techniques.

"Rumble～～～"

In the depths of the vast Blood River, the phantasm of 'blood-red scales' faintly appeared! The entire Blood River's might surged dramatically, instantly touching the limit set by the Supreme Rules of the Land of Origin.

It would have been one thing for the power to reach the limit, but under the influence of the Star Tower, every stream of Blood River appeared like a world, endlessly heavy, with abilities to suppress, imprison, crush, infiltrate, penetrate, strangle, and more.

Every characteristic of the Six Branches Secret Technique, the Seven Branches Secret Technique, and the Eight Branch Secret Technique that Luo Feng had previously comprehended were present in this river.

And they merged into one!

"The Supreme Rules limit the power of the Star Tower," the image of Luo Feng appeared on the surface of this vast Blood River.

"When the might reaches the limit, the contest is about the mystery of the moves."

"With the same power, different mysteries yield different might."

Luo Feng noticed this.

"I can feel that even a 'World Life Form' with ten times the energy reserve of my own, in front of the Blood River formed by the Star Tower, would be eroded and obliterated within a breath," Luo Feng thought to himself, "Those Emperors and Monarchs, even with the help of super-secret treasures, how long could they withstand in front of the might of the Star Tower?"

"No wonder the two Ancestors were able to deter the Heavenly Wood National Boundary Beast and the Lord of Ten Thousand Realms," Luo Feng understood.

There was only a thirty to forty percent difference in the might between not using the Star Tower and using it.

But with the Star Tower, the terror of each strand of Blood River had qualitatively changed, feeling ten times stronger!

"I can feel that even a 'World Life Form' with ten times the energy reserve of my own, in front of the Blood River formed by the Star Tower, would be eroded and obliterated within a breath," Luo Feng thought to himself, "Those Emperors and Monarchs, even with the help of super-secret treasures, how long could they withstand in front of the might of the Star Tower?"

"No wonder the two Ancestors were able to deter the Heavenly Wood

National Boundary Beast and the Lord of Ten Thousand Realms," Luo Feng understood.

Even if it was just the power limit, the extraordinary realm could still be extremely terrifying.

Primogenitor Yan Feng's strike could annihilate all of God King Zongfu's avatars and all his Resurrection Carriers. It was only that God King Zongfu had some special fortunate encounters, and a special avatar that could evade Primogenitor Yan Feng's detection.

...

After conceiving the Eight Branch Secret Technique, Luo Feng focused even more on comprehending the materials of the Primordial Bloodline corpses to deduce the Star Tower Secret Patterns.

Then one day.

"Hmm?" Luo Feng, who was cultivating, opened his eyes, "Morosa has finally made a breakthrough."

The aura of Morosa, which had been slowly increasing, finally stabilized completely. The current intensity of the aura was undoubtedly at the level of Emperors and Monarchs. This was still just a breakthrough for the Sector Beast, which needed to continuously absorb Heaven and Earth Energy to let its godly body grow to the limit, and by then, its physical body would become even more terrifying.

```

Sigh.

Luo Feng arrived at the layer of Star Tower space exclusively for Morosa.

"Master," Morosa's aura was thick and terrifying. The space was filled with endless auras of destruction that spread from Morosa as the center, as if it wanted to obliterate everything.

"Have you mastered the complete Path of Destruction?" Luo Feng
```

looked at the naturally spreading aura of destruction around him. It was much stronger than that of God King Zongfu and Emperor Di Jiufeng.

Without relying on any treasures, pinnacle Sector Beasts are indeed much stronger than emperors.

"I, Morosa, have finally made a breakthrough," Morosa said excitedly, "I have ultimately become a Pinnacle Sector Beast. Even upon breaking through, I naturally comprehended a Destruction Path Body! Now I just need to absorb energy. Approximately one era, and my Destruction Path Body... will grow to its strongest state."

"Destruction Path Body?" Luo Feng was curious.

"The Destruction Path Body possesses the three forms of the Path of Destruction. Although it's not as strong in life force as the Great Dao of Life and some other paths, it is extremely powerful in terms of destruction and devastation," Morosa explained excitedly. "I've also naturally comprehended thirty-six Ultimate Realm Secret Techniques, and the secret techniques can be combined! I'm confident that I can battle those emperors and monarchs without the need for any treasures."

"They only rely on super secret treasures," Morosa said with disdain, "In terms of realms and strength, they are far inferior to me."

"You're very powerful now?" Luo Feng smiled. "Then show me some moves."

Morosa gave an awkward smile, "Master, I might accidentally hurt you."

"It's alright. This is just one of my avatars. Even if you destroy this one, it won't affect me much," Luo Feng said with a smile.

"Master, you said so," Morosa said.

Luo Feng nodded slightly.

The most powerful being he had ever encountered was the purple-robed woman, but the purple-robed woman, in order to hide her true

identity, didn't use some of her more revealing moves, which in some measure affected her strength.

Morosa, with the Destruction Path Body, had just transformed and had not yet grown into its strongest form.

Luo Feng was still very interested in competing against an Ultimate Realm existence.

"Master, be careful."

Morosa stood still, extending a finger and gently tapping.

That tap.

It was like leveraging a complete Path of Destruction within the Supreme Rules, a small force levering the entire Path of Destruction, as various destructive powers enveloped Luo Feng's avatar in an instant.

Of course, Morosa also limited the range of the power, attacking only the master's avatar.

"The complete Path of Destruction?" Luo Feng felt it.

After all, he was at the Second Realm in the Path of Destruction and could understand some of the subtleties of this move. He felt that Morosa's technique was indeed exquisite, a small force that could burst with such strong power.

His own avatar, with ten times the Perfect Divine Body energy reserve, however, couldn't avoid it and had to endure the full brunt of the attack.

If it were an ordinary Second Realm Godly King, they might be obliterated by Morosa with just one finger. But Luo Feng only suffered minor injuries, which healed in the blink of an eye.

"Morosa, that wasn't enough power," Luo Feng smiled at Morosa. "As an Ultimate Realm being, show me some stronger moves."

"Hmm?" Morosa's expression changed slightly, and he felt uneasy, "I

only executed a normal strike, but I leveraged the entire Dao. The master recovered from his injury at the same time?"

"Master, I will use a truly powerful technique this time, be careful," Morosa said to Luo Feng.

"Start," Luo Feng commanded.

Morosa nodded.

Whoosh!

In an instant, Morosa split into eighteen avatars.

The eighteen Morosas dispersed into different positions within the vast space, each performing different Ultimate Realm Secret Techniques! At that moment, the eighteen Ultimate Realm Secret Techniques burst forth, and their combined might was not just eighteen times stronger. Their perfect synergy transformed the levels of mystery.

"Boom—" With the terrifying might converged at one point, it exploded within Luo Feng's body instantly.

In an instant, Luo Feng's body was tattered and full of holes.

In a flash, half of Luo Feng's body vanished.

But the terrifying life force recovered from nothingness, and Luo Feng's body was quickly restored to its original state in the blink of an eye, although his aura was noticeably weaker.

"Huff, huff, huff." Morosa's aura also weakened a bit as he looked at Luo Feng, unable to help but say, "Master, it feels like your avatar didn't lose much, right?"

"I lost thirty percent," Luo Feng said.

Under Morosa's terrifying attack, Luo Feng's avatar had lost three Perfect Divine Body energy reserves, which surprised Luo Feng! The power Morosa had unleashed was much stronger than that of the purple-robed woman.

Of course, in the deep regions of the Dream Domain, Luo Feng's use of Spiritual Will targeted the purple-robed woman, limiting her to only part of her strength.

"Master, let's compare again when my Destruction Path Body has grown to its pinnacle," Morosa said, still not convinced.

"Can your techniques be more intricate?" Luo Feng asked.

"No way."

Morosa shook his head, "As a Pinnacle Sector Beast, the Destruction Path Body and the thirty-six Ultimate Realm Secret Techniques I naturally comprehended are the best secret techniques granted to me by the Supreme Rules. Even if I contemplate further, it's unlikely I'll be able to improve much."

The Supreme Rules operated naturally, bestowing Sector Beasts with secret techniques that were the most suited to them.

"If the techniques can't be improved further, then there's no need to compare," Luo Feng shook his head, losing three Perfect Divine Body energy reserves at once left him somewhat distressed.

Had he known, he would have let a stronger avatar do the comparison to reduce the loss.

After this battle, Luo Feng also understood that, in the outside world facing emperors and monarchs with full sets of super secret treasures, it's safer to act with the strongest avatar, which was more stable.

```
```

Chapter 19 The True Gods of Void of the Human Race

Chapter 19 The True Gods of Void of the Human Race

In the Primordial Cosmos Region, Luo Feng's Small Universe.

Luo Feng's Small Universe was the same size as the Primordial Universe and had already become the sacred land of the Human Race.

Under a great tree, Luo Feng waited alone.

"It's time to let the Human Race strongholds come to the Land of Origin," Luo Feng thought.

With the Star Tower in hand, even if the primordial ancestors of the two Ancient Countries came in person, he would not be afraid.

Moreover, Morosa had also reached the Ultimate Realm, perfection in the Great Dao, and was not afraid of schemes.

Although he was strong, Luo Feng was not adept at dealing with causality and the machinations of fate; he could easily be trapped by schemes if he kept to himself. But the Human Race strongholds were about to embark on the Samsara Channel to the Land of Origin, so he naturally could not be careless.

Otherwise, if any of the Primal Chaos City Lords died, Luo Feng would not be able to forgive himself.

"Swoosh—"

Six figures appeared all at once, coming to a place nearby.

"Luo Feng."

"Galaxy."

They all looked at Luo Feng.

"Luo Feng," the Primal Chaos City Lord said with joy on his face, "you said the Human Race strongholds could come through the cycle of reincarnation, so I called these five old friends. All six of us are confident in advancing to a higher realm."

"Thank you, teacher," Luo Feng said with a smile. The six were the Primal Chaos City Lord, Peng Gong True God, Dark True God, Deserted Mirror True God, Ice Mountain True God, and Dragon True God.

These were the early powerful figures of the human race; they became True Gods with just a little bit of resources. With the help of Luo Feng and the Primoridal Ancestor, all six of them were confident in reaching the level of a true god of void space.

The Dark True God, who had a cold aura, said, "There are over a hundred Human True Gods, and now that the inheritance is plentiful, there should be more than just the six of us who are confident in making the breakthrough."

"Transcending reincarnation to an unfamiliar place has its risks. There's no need to rush all at once," said the Primal Chaos City Lord.

"Teacher's words make sense," agreed Luo Feng. "Even among you six, I think you should split into two groups. After the first group adapts, the second group can proceed."

"You decide, Luo Feng."

All six of them were very clear that they knew nothing about the world after transcending reincarnation and were willing to follow Luo Feng's arrangements.

After years of companionship, they naturally trusted Luo Feng.

"First group, teacher, Dark Uncle, and Peng Gong, you three go first. After some time has passed, the second group will follow," Luo Feng said.

Primal Chaos City Lord, Peng Gong True God, Dark True God...

They were, after Luo Feng and the Primoridal Ancestor, the next most powerful figures of the entire Human Race!

"Okay."

All six were very excited.

Even those who were to go in the second group, such as Deserted Mirror True God, Ice Mountain True God, and Dragon True God, were not in a hurry since Luo Feng's intentions suggested the two groups wouldn't be spaced far apart in time, and they had plenty of patience.

"Teacher, then you three should break through first. After the breakthrough, you can ride the same Flying Boat Secret Treasure through the Samsara Channel. This way, you can also arrive at the same region," Luo Feng said.

...

The Primal Chaos City Lord, Peng Gong True God, and Dark True God had been looking forward to the world on the other side of the Samsara Channel for a long time, and they soon began their breakthroughs, with their Small Universe starting to expand.

This scene naturally aroused the envy of other races in the Primordial Universe, but within the Primordial Cosmos Region, the absolute dominance of the Human Race was beyond doubt.

After all, seeing a 'Galaxy Universe' as large as the Primordial Universe, the other races did not even think about resisting.

After their successful breakthroughs.

The Primal Chaos City Lord, Peng Gong, and Dark True God rode on the same Flying Boat Secret Treasure and quietly set out to traverse the Samsara Channel.

******

Land of Origin.

Within Huyang City, Luo Feng had been waiting.

"They're here!"

Suddenly, Luo Feng sensed three lives entangled with him through deep causality arriving at the Land of Origin, the Primal Chaos City Lord and the other two, who were lower in realm. Under Luo Feng's observation of causality, they naturally had no defenses and their location was instantly locked.

Whoosh.

With a thought from Luo Feng and a flash of black light, he had traversed half of the Land of Origin and arrived at a wilderness.

This was the borderland of the Thunder Ancient Country.

Luo Feng stood in the wilderness, smiling as he watched the Primal Chaos City Lord, Peng Gong, and Dark True God who had just arrived on the Land of Origin. Luo Feng concealed his presence and did not rush to reveal himself.

"Let the teachers experience the Land of Origin well," Luo Feng watched with a smile.

"Is this the world on the other side of the Samsara Channel?" The three, Primal Chaos City Lord, were excitedly taking in their surroundings.

"What a powerful world; the space is very stable, and the pressure is immense. Without external help, True Gods probably can't even fly," Peng Gong said with emotion. "Moreover, the laws of the universe here are so clear, much clearer than back home."

"Practicing here is indeed much easier than at home," the Primal Chaos City Lord also showed delight. "It's more promising to reach higher levels."

Comparing his experience with his avatar far back home, Dark True God said, "The flow of time here is also different. While only one unit of time has passed here, back home 10081 times that amount has elapsed."

"Boom."

Crushing a stone, Peng Gong said with feeling, "In such an environment, everything is extraordinary. Even a regular stone here could be used to forge Weapon Secret Treasures back home."

Curious, the three of them began to explore all the extraordinary aspects of the Land of Origin.

```

Moments later,

Luo Feng appeared.

"Luo Feng," the three of them looked at Luo Feng with surprise.

"How did you manage to find this place so quickly in such a vast and endless world?" Peng Gong was astonished.

"This endless world is known as the Land of Origin," said Luo Feng with a smile, while three streaks of light flew towards the Primal Chaos City Lord, Peng Gong, and Dark, "Here is more detailed information about the Land of Origin. I am now going to take you to Huyang City, where the Primordial Ancestor is also waiting for you."

...

Above Huyang City,

The Primal Chaos City Lord, Peng Gong, and Dark appeared out of thin air and stared blankly at the gigantic city before them.
```

"So many powerful existences..." The trio was a bit shaken.

Huyang City now, as the headquarters of the Blade River Sect, commanded 155 Primal Chaos Prefectures! The city walls had naturally been expanded to ten times the length of Luo Feng's first visit to the Land of Origin, and the city's area had grown many times over.

It was home to Luo Feng, Morosa, and other Godly Kings, as well as many from the Primal Chaos Realm, and a large number of core disciples of the Blade River Sect, teeming with strong individuals.

"Luo Feng has established a sect in the Land of Origin named 'Blade River Sect,'" the Primordial Ancestor appeared beside them.

"Teacher," the Primal Chaos City Lord and Dark bowed respectfully.

"Primordial Ancestor," Peng Gong also showed great respect.

The Primordial Ancestor explained with a smile, "This Huyang City is the headquarters of the Blade River Sect! The number of True Gods within the city is as many as several tens of trillions, with over a billion True Gods of Void Space and tens of thousands of Eternal True Gods, as well as a few from the Primal Chaos Realm, and of course, Luo Feng, the Godly King."

"Even among the entire Land of Origin, Huyang City can be considered a top-tier city," continued the Primordial Ancestor.

The Primal Chaos City Lord, Peng Gong, and Dark listened in a daze.

They had just become True Gods of Void Space and were quite proud of themselves. Who would have thought that in Huyang City, there would be over a billion True Gods of Void Space?

"The creatures of the Land of Origin, as long as they grow normally, can generally become True Gods. So the number of True Gods is beyond count," Luo Feng said, "Our region in the Primordial Cosmos to produce a True God is many times more difficult."

Luo Feng and the Primordial Ancestor personally showed the way, treating the Primal Chaos City Lord, Peng Gong, and Dark to a meal

within Huyang City, and they also learned of the prosperity of the Land of Origin.

"Everything is extraordinary."

"So many different cultivation schools, dazzling to the eyes."

The trio of the Primal Chaos City Lord, Peng Gong, and Dark were thoroughly impressed.

"Disciples of the Blade River Sect are categorized into ordinary disciples, core disciples, registered disciples of Luo Feng, and direct disciples of Luo Feng," explained the Primordial Ancestor, "After joining the Blade River Sect, you three will be nominally my students."

The Primal Chaos City Lord and Dark were already disciples of the Primordial Ancestor and naturally had no objections. Peng Gong also revered the Primordial Ancestor and was willing as well.

Luo Feng watched from the side.

He had no choice; with one teacher, one martial-uncle, and one senior Peng Gong, although the status of his direct disciples was the most precious within the Blade River Sect, he could not take them as his own disciples.

Having the Primordial Ancestor step in was very appropriate and his status within the Blade River Sect was high enough that his direct disciples' status would be different from ordinary core disciples.

"I have discussed with Luo Feng, and the cultivation resources for you three will be of the highest level. Even higher than those of Luo Feng's direct disciples," said the Primordial Ancestor, "Any from the Human Race who manage to come to the Land of Origin through Samsara are of the highest level."

Luo Feng nodded.

In the future of the Blade River Sect, as human powerhouses rise, they would gradually be given management of many affairs.

"You all know that the Land of Origin is filled with countless crises," the Primordial Ancestor looked at them, "I only have one requirement for you: before you become an Eternal True God, you are forbidden from leaving Huyang City."

"Alright."

"Yes, teacher."

The three of them promptly agreed.

Already dazzled by Huyang City, they had plenty to explore. And since the city alone had over a billion True Gods of Void Space and over ten thousand Eternal True Gods... they were well aware that if they ventured out recklessly, they could easily fall into misfortune.

...

The headquarters of the Blade River Sect was beside the Primordial Ancestor's cave mansion, and three new small cave mansions were specially constructed.

"From now on, this will be your residence. I will take charge of all matters concerning your cultivation," the Primordial Ancestor told the Primal Chaos City Lord, Peng Gong, and Dark.

"Yes, teacher," the three of them responded.

"Rest today, and the arrangement of cultivation matters will start tomorrow," ordered the Primordial Ancestor before turning and leaving.

The trio gathered in the Primal Chaos City Lord's cave mansion.

"Unfathomable."

"The waters of the Land of Origin run too deep." They had received detailed information on the Land of Origin from Luo Feng, and as the information was vast, they were now able to understand it carefully.

The numerous countries in the Land of Origin, the forces both overt and covert, information about various Primordial Chaos Realm

beings, information about various Godly Kings.

Although it was all basic information, even concise pieces about Emperors and Monarchs had been included by Luo Feng.

"In the whole Land of Origin, Huyang City is rather inconspicuous. Some of the major cities of the two Ancient Countries are even more prosperous."

"Godly Kings are divided into three realms: First Realm of Godly King, Second Realm of Godly King, and Ultimate Realm of God King. The two Ancient Countries actually have thirteen Emperors and nine Monarchs? And two Ancestors..."

"Luo Feng is also formidable, having reached the peak of the Second Level of God King Realm! Just slightly below the Emperors and Monarchs."

"Luo Feng hasn't been in the Land of Origin for long, yet he has already come this far."

"Two Ancient Countries, three first-rate powers, and five solitary cultivators capable of matching Emperors... Then comes Luo Feng."

After understanding the information, they felt their own power was quite strong.

Although far from being comparable to the two Ancient Countries, in the peripheral areas of the Land of Origin, they were definitely a dominant power.

Chapter 20 Death of the Ancestral God of the Snow Realm

The Primal Chaos City Lord, Peng Gong, Dark, Deserted Mirror, Ice Mountain Master, and Long Xing, the six of them split into two groups, had traversed reincarnation and arrived at the Land of Origin, where they became disciples under the former elder of the Blade River Sect.

"Even with my guidance and that of the Primordial Ancestor, there would perhaps be only about ten human beings who could reach the level of a true god of void space," Luo Feng occasionally preached in his hometown, guiding the strong among the human race, hence he understood roughly the level of human power.

The six who came this time were almost the strongest, apart from himself and the Primordial Ancestor.

"Morosa," Luo Feng looked towards Morosa by his side, whose true body was still within the Star Tower absorbing energy, only an avatar accompanying Luo Feng.

Explore more adventures at My Virtual Library Empire

"Master," Morosa respectfully responded, only when sparring with his master did he realize... the unfathomable depths of his master! Having reached the Ultimate Realm himself, it was still very hard to gauge the actual strength of his master.

Morosa had reached the Ultimate Realm, and that was his limit! To break through that limit? The possibility was nearly zero.

"Master's talent is extraordinary. Having arrived at the Land of Origin

for five hundred epochs, he is already stronger than me, an Ultimate Realm Beast. Perhaps in the future, he will far surpass me, and maybe master will find a way to help me break through my limits," Morosa had his own thoughts.

If he didn't break the limit, then he would forever be under the influence of the Path of Destruction! When the Land of Origin meets its demise, he too would perish with the Path of Destruction...

Morosa didn't want to die; he wanted to live.

Incapable of freeing himself from his shackles, he could only rely on his master!

"Leave an avatar in Huyang City at all times to obscure the heavenly secrets and blur causality," Luo Feng said, "I need to ensure that the human race's strong can grow safely without being targeted by some old beings."

"Don't worry, master, I have mastered the complete Great Dao! Under my obscuring of heavenly secrets and blurring of causality, no one in the Land of Origin can spy on us," Morosa confidently said.

Luo Feng nodded.

The three major first-rate forces—Tianmu Kingdom, Lord of the Ten Thousand Realms, and the East Extreme Domain—were also stirring up trouble in secret, but external sources heard no rumors whatsoever. It was because they acted covertly that the outside world could not detect anything.

With heavenly secrets obscured and causality blurred, unless someone witnessed it on-site, who could confirm that these deeds were the acts of these first-rate forces?

Even the two Ancient Countries could only suspect!

"Nowadays, in cooperation with you, we are also considered a first-rate force," Luo Feng smiled at Morosa.

"The Ten Thousand Realms and Tianmu Kingdom are probably not as good as me and master working together," Morosa confidently said.

Luo Feng smiled.

Among the three major first-rate forces, the East Extreme Domain after all had the "East Extreme Domain Ancestor," even the ancient country ancestors had to show some respect.

"Don't underestimate them. The Lord of The Ten Thousand Realms was able to comprehend a complete Great Dao on his own, his spiritual will surpasses the Godly King level, and perhaps over the lengthy years of cultivation, he has secretly broken through the limits of a Godly King," Luo Feng said.

Currently, there were few in the Land of Origin that could catch Luo Feng's attention.

"Arrange three avatars; come with me on a trip," Luo Feng instructed, "You only need to obscure heavenly secrets and blur causality. Leave the rest to me."

"Three avatars to accompany master out?" Morosa was curious, "What for?"

"When you have enough strength, it's time to do certain things."

Luo Feng smiled slightly, "The top ten sinners of the Land of Origin—let's deal with them all!"

"Deal with them all?" Morosa was shocked and couldn't help saying, "Master, the top ten sinners of the Land of Origin, there are deep waters here. Among them, some have identities belonging to the two Ancient Country Imperial Clans! And these top ten sinners, some are only minions, they help capture billions of creatures, which ultimately are for the consumption of some Emperors and Monarchs."

The creatures of the Land of Origin inherently contained certain essential essences of the Source World.

Consuming billions of creatures was also a method for cultivating the Primordial Bloodline. Among those rumored to practice this method were some Emperors and Monarchs.

But Emperors and Monarchs bearing noble statuses naturally had

minions to do these deeds, some of whom became the so-called top ten sinners of the Land of Origin.

"Master, are you planning to offend the Emperors and Monarchs of the two Ancient Countries at the same time?" Morosa was somewhat panicked; even if his Destruction Path Body grew to its pinnacle, it was only comparable to an Emperor or Monarch equipped with a full set of super secret treasures.

"I'm not afraid, what are you afraid of?" Luo Feng looked at Morosa.

Morosa looked at Luo Feng, "Master, if several Emperors and Monarchs join hands, and many Beyond God King level secret treasures and formations are laid out, are you confident you can withstand it?"

His little self truly couldn't bear it.

"Don't worry," Luo Feng said.

Morosa's eyes lit up.

Master was very sure of himself.

Luo Feng chuckled; if it were outside the Land of Origin, he would have to keep a low profile.

But within the Land of Origin, even if the ancestors of the two countries personally came, there was nothing to fear.

"Master is not afraid, why should I be?" Morosa suddenly brimmed with confidence, "Kill, kill, kill, whomever master wants to kill, let's kill!"

"These top ten sinners, who exactly is behind them, is also a secret," Luo Feng smiled, "They say the waters of the Land of Origin are deep, let's take this chance to measure them, stir things up, and see who jumps out."

"The top ten sinners, the three weakest are the Ancestral God of the Snow Realm, the Sky Hou God King, and Lord Desolate Wind, let's deal with these three first," Luo Feng said, "From the weakest to the

strongest, step by step."

...

Snow Realm Territory.

Year-round endless snowflakes fell, pooling into streams upon touching the ground, merging into numerous rivers.

"The countless rivers throughout the Snow Realm Territory, and the snowflakes in the sky... all of these together constitute the True Body of the Ancestral God of the Snow Realm," a black-robed golden-faced man and an old servant appeared in this land.

"The Ancestral God of the Snow Realm cultivated the Great Dao of Life Origin and pursued the vastness of life. Although a large physical body is important, the essence of the body is even more significant," said Luo Feng, who also cultivated the Great Dao of Life Origin and had reached the Second Realm of Godly King.

He was currently comprehending various forms of the Ultimate Realm and naturally recognized the various flaws of the Ancestral God of the Snow Realm at a glance.

"The creatures that grew generation after generation in the Snow Realm were his cultivation fodder," Luo Feng observed coldly.

Survival of the fittest—he would not intervene too much.

Even if some so-called gangs or Dark Forces were involved, as long as they didn't confront Luo Feng directly, he would not bother.

After all, the creatures of the Land of Origin were not the human race of his hometown, and Luo Feng was reluctant to meddle too much. However, for beings like the Ancestral God of the Snow Realm and the Emperor of Tian Kun, who slaughtered billions of creatures for their own sake, Luo Feng instinctively felt a desire to kill!

To devour billions of creatures just to slightly enhance one's primordial bloodline?

Such cultivators no longer considered themselves part of the

cultivators. They reigned high above, viewing countless other creatures as their mere food. In Luo Feng's eyes, such cultivators were scum!

"To feast on billions of creatures, such cultivators should not be allowed to live in the Land of Origin!" Luo Feng murmured softly.

When he was not powerful enough, Luo Feng could endure.

But when he was strong enough, it was time to do what needed to be done!

"Annihilate."

Luo Feng looked at the sky filled with snowflakes, which were all part of the true body of the Ancestral God of the Snow Realm. Logically, as soon as one entered the territory of the Snow Realm, one could not escape the Ancestral God's perception.

However, neither Luo Feng nor Morosa was detected by the Ancestral God of the Snow Realm.

As Luo Feng initiated the Lie Yuan Technique,

"Boom—"

Luo Feng's Spiritual Will Attack struck the snowflakes before him, attacking the vast and endless true body of the Ancestral God of the Snow Realm.

The Ancestral God of the Snow Realm was at that moment immersed in the cultivation of the primordial bloodline. All within the Snow Realm were under his perception. With just a thought, snowflakes would devour the creatures, counted in 'trillions,' and turn them into fodder for his cultivation.

He was still careful, controlling the extent of his devouring.

Ensuring the reproduction rate could keep up with his devouring.

"When my strength advances further, I can expand the territory of the Snow Realm," the Ancestral God of the Snow Realm still found his

domain insufficient.

Suddenly—

The Ancestral God of the Snow Realm could no longer sense anything else; he could only "see" a massive star rolling towards him, crushing everything. The Ancestral God of the Snow Realm had no time to use any Secret Technique and was already crushed.

"No!" Under the crush, even the debris was crushed into nothingness, Luo Feng was merciless, giving the Ancestral God of the Snow Realm no chance of survival.

In an instant, the Spiritual Will of the Ancestral God of the Snow Realm was completely obliterated.

His enormous physical body had also become a corpse, appearing within the territory of the Snow Realm, resembling the majestic corpse of a beast.

With a wave of his hand, Luo Feng collected it and disappeared together with Morosa.

Henceforth, the countless creatures that had bred generation after generation in the territory of the Snow Realm entered a new era. The darkest 'sky' above their heads had disappeared.

...

At the same time.

A man in a black robe with a golden mask and an old servant also arrived in the domain ruled by the Sky Hou God King, known as the Sky Hou Country.

The Sky Hou God King's domain, nestled between the Thunder Ancient Country and the Wanjie Kingdom, was one of many small countries! Though weaker than the Emperor of Tian Kun, the Sky Hou God King, with his Second Realm of Godly King strength, was sufficient to wreak havoc.

As he ruled, all creatures within his domain were also his

consumption.

"I can only devour one-tenth of the food; the rest must be sent to the Monarch," the massive body of the Sky Hou God King coiled deep within the palace, "If I could devour freely, my strength could also advance further."

Suddenly—

The man in the black robe with a golden mask and the old servant arrived deep within the palace, where the Spiritual Will of the Sky Hou God King was obliterated, already reduced to a corpse.

With a wave of his hand, Luo Feng collected the corpse of the Sky Hou God King.

...

Lord Desolate Wind ruled a massive island, which housed thirty-nine provinces of Primal Chaos! This island, located near the Flame Wind Ancient Country, boasted a superior geographical location and a cultivation environment much higher than that around Huyang City.

The thirty-nine provinces of Primal Chaos bred a quantity of creatures equal to half the scale of the 155 territories under Huyang City's control.

Lord Desolate Wind, as an ancient Godly King of the Second Realm and also a Guest Elder of the Flame Wind Ancient Country.

Countless creatures on the entire island simply couldn't resist this Lord Desolate Wind.

"Puff."

Luo Feng and Morosa arrived on the island, and instantly in a Quiet Room within a palace, they collected the corpse of Lord Desolate Wind.

...

Thus, the three weakest Godly Kings among the top ten sinners of the

Land of Origin were all killed at the same time! Naturally, this event shocked all the powers across the Land of Origin.

Chapter 259 Season 6 Episode 21 The Mantis Stalks the Cicada

Ancestral God of the Snow Realm, Sky Hou God King, and Lord Desolate Wind might not possess immense strength, yet their sins place them within the top ten in the Land of Origin. They managed to elude punishment for eons, chiefly because their ability to protect themselves was exceedingly powerful!

After all, among ancient beings, there were those who abhorred evil, and some who had conflicts with them; nonetheless, they could do nothing to harm these sinners.

The Ancestral God of the Snow Realm followed the path of the Life Origin, Lord Desolate Wind, the path of the Void Origin, and Sky Hou God King even took the Infinite Path—each one's life-protecting abilities were incredibly troublesome. The simultaneous death of these three was indeed shocking for the entire continent.

"Good riddance!"

"They should have died long ago."

"These great sinners have roamed the Land of Origin with impunity. It's about time a supreme entity eradicated them."

Those who loathed evil rejoiced and cheered.

Some Godly Kings carrying deep sins began to worry, "They killed Sky Hou God King and the other two all at once, could it be that they will continue to hunt us down?"

"What a meddling affair."

"What should we do, what should we do? Should we reincarnate?"

"There are so many great sinners in the Land of Origin, this powerful being probably only targeted the top ten. They shouldn't find me."

These great sinners were thrown into complete disarray.

Of course, most Godly Kings were more concerned about the identity of the mysterious entity, "Who exactly killed Sky Hou God King and the other two? Could it be the black-robed, golden-faced powerhouse?" They were eager to understand the influence this mysterious entity would have on the situation of the entire Land of Origin.

"Flame Wind Pavilion and Thunderclap Commerce will probably uncover some information about the murderer soon." All forces were waiting in anticipation.

...

"We cannot find any traces."

Enjoy new chapters from My Virtual Library Empire

"Not even in the past timeline can we detect any sign of the murderer."

The two Ancient Countries utilized all their methods, but they found not a trace.

If Luo Feng's assassination of the three monarchs of the Shi Kingdom left obvious traces, with even clear images,

This time, there was no trace at all! Space-time, causality... even all forms of energy fluctuations failed to reveal the killer.

"Could this murderer not be the black-robed, golden-faced powerhouse?" Both Ancient Countries harbored doubts, as the most recent comparable deaths were those of the three monarchs from the Shi Kingdom, and Emperor Tian Kun, also a great sinner. Their primary suspect was the black-robed individual!

Yet now, no traces could be found.

"The methods of this murderer exceed those of the black-robed one."

"Could it be an Ultimate Realm entity! Or perhaps, an entity Above God King?"

The two Ancient Countries grew uneasy.

******

In Huyang City, at the city owner's mansion.

Luo Feng leisurely sipped his wine, gazing at the starry night sky sparkling brilliantly.

"After killing three Godly Kings, the stars in the night sky remain as dazzling as ever," Luo Feng commented.

Morosa glanced at the night sky and couldn't help but say, "Those three were of mediocre strength and inconspicuous amongst the night sky's stars. The most prominent ones are those from the Ultimate Realm, the Emperors."

Luo Feng smiled.

"Master, I've always been puzzled about something," Morosa said.

"What's bothering you? Let's hear it," Luo Feng poured himself another drink.

"Master, if you want to kill the top ten sinners, why not mobilize all at once and dispatch ten avatars... to exterminate them instantly!" Morosa said, "As it stands, you've already eliminated the weakest three. The remaining seven will certainly be on guard by now, and it's possible that some, out of fear, will reincarnate proactively. Then you won't be able to find them at all."

Luo Feng looked at Morosa.

"Among the top ten sinners of the Land of Origin, the three I killed were the weakest and their sins were the least severe among them."

"The remaining seven are not ordinary."

"Three are Royal Family God Kings! Residing in holy sites like 'Mt. Leiting' of the Thunder Ancient Country, and 'Yan Capital' of the Flame Wind Ancient Country. The moment we enter, we would be immediately discovered," Luo Feng explained. "Moreover, there are four other cultivators who are solitary wanderers with fearsome strength and sins that are sky-high."

Morosa agreed, "Three Royal Family God Kings and four solitary cultivators—their sins... are much more severe than those of the Ancestral God of the Snow Realm and the others."

Luo Feng continued, "Speaking of the ranking of sins, ranked first is 'Iron Demon Lord,' who once plundered nearly all living beings across twelve realms. His sins remain incalculable over the long years. Ranked second is 'Black Vulture Ancestor,' who has caused harm to dozens of realms, with even the living beings of the Thunder Realm suffering greatly, and yet he still roams free today? Ranked third is 'Eating Fox God King,' and fourth is 'Gui Ying God King,' only after them come the three Royal Family God Kings."

"Morosa, don't you find it curious? The sins of the four solitary individuals far outweigh those of the three Royal Family God Kings, and yet they remain at large?"

"Isn't it widely speculated that an Emperor or Monarch might be behind those four wanderers?" Morosa replied matter-of-factly, "They are said to be the claws of the Emperors or Monarchs."

Luo Feng nodded, "That's what I believe as well."

"It's about time," Luo Feng glanced at the night sky, "The next target, Eating Fox God King."

...

Eating Fox God King resided on the edge of the Tianji Icefield, ruling over a vast territory. Not only were countless creatures within his realm often devoured, but he also actively invaded many neighboring countries.

"Killing the three weaker ones like Sky Hou God King, will they turn

their hands against us?" A massive blood-red fox lay there, its golden eyes showing a trace of concern.

Eating Fox God King, also a Peak of Second Level of God King Realm existence, held a reputation far stronger than Emperor Gui Xu and Wuxin God King.

He practiced the cultivation path of the Void Origin, possessing as many as nine powerful avatars! With his unpredictable spatial techniques, he invaded countries at will, devouring countless life forms without any means of stopping him.

In addition to his nine strong avatars, he had many weaker ones.

"Your Majesty, I have a premonition that things aren't looking good," Eating Fox God King sent his message from afar.

"Don't worry, you have an avatar within my palace; no one can threaten you," a flippant and casual voice responded.

Eating Fox God King suppressed his thoughts.

Suddenly—

Eating Fox God King 'saw' a massive star rolling towards him, and he was filled with utter terror! At this moment, no matter how many avatars he had, he could only resist this formidable Spiritual Will Attack.

"Emperor, save me!"

The rolling stars came crashing down, and the Eating Fox God King lacked an Ultimate Realm Life Form, perfect protection of the Great Dao, and did not possess any super secret treasures. His only hope was the avatar hidden within the Emperor's Palace, where a bit of the Spiritual Will's power could be diminished.

"Pfft."

The Emperor Palace reduced the Will Attack by about twenty to thirty percent, but still, under the relentless crush of the rolling stars, the Spiritual Will of the Eating Fox God King was extinguished.

"In the shelter of my palace, the Eating Fox is dead?" The Emperor was utterly infuriated and astounded, staring at the avatar's corpse of the Eating Fox God King.

…

"This time, it was a struggle to kill the Eating Fox God King," Luo Feng slightly furrowed his brow, sensing the difficulty in completely crushing the Spiritual Will of the Eating Fox God King.

This made Luo Feng realize that his Spiritual Will, combined with the "Lie Yuan Technique," could sweep away any existence at the Godly King level!

Even with the obstruction of an Emperor Palace, he could still kill.

But if there were stronger protective measures, his Will Attacks might fail to kill.

"My Spiritual Will needs to become even stronger," Luo Feng thought.

Sigh.

Luo Feng and Morosa gathered the two avatars' corpses from within the hideout of the Eating Fox God King, along with many other items, and then they departed.

******

The deaths of the three Sky Hou God Kings had garnered attention across the Land of Origin, but the reactions were stable.

Yet, the death of the Eating Fox God King set many powerhouses into a panic! He was at the peak of Second Realm of Godly King and traversed the path of the Void. Even for an Emperor, he was difficult to kill, and his death was unthinkable?

Sigh!

On the endless grasslands, Luo Feng and Morosa walked side by side.

"Master, the Causality of Gui Ying God King has completely

disappeared," Morosa looked towards Luo Feng, "He must have been scared into immediate reincarnation."

"Decisive enough," Luo Feng nodded.

"The Iron Demon Lord ranked first and the Black Vulture Ancestor ranked second are still around," Morosa turned to Luo Feng, "Whom shall we seek next?"

Luo Feng looked into the distance: "Let's go find the Iron Demon Lord."

…

The Iron Demon Lord was without a doubt the most sinister existence in the Land of Origin, on par with Pu Xin, Boat Master of the Time-Space Lonely Boat, and Luo He God King.

He once captured almost the entire population of twelve nations on a solo venture, accumulating an unimaginable number of Creatures over long years. However, he had kept a low profile in recent times.

Inside a hidden palace.

The Iron Demon Lord, clad in armor with only his eyes visible, looked out with a cold gaze.

"Master, will that murderer who killed the Eating Fox God King come for me?" the Iron Demon Lord sent a message.

"Each time he strikes, he ensures success. At this moment, he is full of confidence. He will come," a voice responded, "As long as he dares to appear, he won't escape this time!"

The Iron Demon Lord waited patiently.

Suddenly—

He 'saw' the rolling stars bearing down.

"Such a powerful Spiritual Will Attack," the Iron Demon Lord feared nothing, yet under the crush of the rolling stars, his Spiritual Will was

still obliterated.

The Iron Demon Lord sitting there then hung his head low, silent.

"Not right."

Luo Feng, who was outside the palace exerting the Spiritual Will Attack, had a slight change in expression, "Something's off about this Iron Demon Lord." At the moment of killing the Iron Demon Lord, Luo Feng felt something peculiar about his body.

Boom~~~

Within the extensive scope of billions of kilometers, endless black flames suddenly appeared, burning everything in their wake. All life forms near the palace were instantly incinerated.

Amidst the terrifying flames, the Iron Demon Lord lifted his head and stood up respectfully, bowing: "My Lord."

Beside the Iron Demon Lord was an elder draped in a red cloak, laughing heartily as he looked at Luo Feng: "It wasn't easy to cultivate a strong consciousness in this puppet, which you've destroyed."

The blood-red flames covered the sky and held terrifying might. Even Peak of Second Level Godly King Realm beings could not withstand these flames for a few moments.

Luo Feng stared at the red-cloaked elder.

"Di Yuan!" Luo Feng recognized him at a glance.

This Iron Demon Lord was just a puppet life form cultivated by Di Yuan. Even the three Personal Guard Generals beside Master Emperor Chu were very special life forms.

"Although I've lost a strong consciousness, it was worth it." The cloak flapped in the wind, and Di Yuan's presence merged with the boundless blood-red flames, looking coldly at Luo Feng, "I've caught you!"

Luo Feng looked back at him but smiled.

His prey was never the likes of Iron Demon Lord or the Eating Fox God King; eliminating a minion meant nothing. As long as the mastermind behind them remained, they would swiftly promote other minions.

"Di Yuan!" Luo Feng spoke up, "Do you know why I didn't kill all the major sinners at once?"

Di Yuan's brows furrowed slightly.

"Because you are my prey!" Luo Feng stared at him.

Just as he finished speaking.

The heavens and earth changed color!

In the vast scope, blood-colored rivers surged, immense and overpowering, instantly obliterating the blood-red flames domain that Di Yuan had unleashed with a super secret treasure.

"This is—" Di Yuan stared at the endless blood-colored rivers and didn't panic.

For he was one of the thirteen Emperors from the Flame Wind Ancient Country!

The moment he took action, he had already notified the other Emperors.

Chapter 22 Emperors Assemble

In the Land of Origin, after Luo Feng discovered that behind the "Iron Demon Lord," the most sinful in the land, stood Emperor Yuan, he immediately sent forth himself and another avatar of Morosa, heading straight to the location of "Black Vulture Ancestor"—the second most sinful.

"This move against Emperor Yuan will surely make the emperors and monarchs of the Land of Origin wary and guarded. They will not give me a second chance."

"And to prevent this Black Vulture Ancestor from reincarnating, we must annihilate him first."

Luo Feng and Morosa's other avatar crossed the vast spatial distance in an instant, arriving at Black Vulture Palace.

Inside the Black Vulture Palace.

"Hmm."

A dense black mist pervaded the depths of the palace, which was indeed the body of Black Vulture Ancestor.

"Among the top four sinners in the Land of Origin, Eating Fox God King and Gui Ying God King have vanished with their causality. Are they dead, or have they reincarnated?" Despite the dense black mist, Black Vulture Ancestor remained composed. "I actually look forward to the arrival of this mysterious powerhouse. I want to see what he can do to me."

Black Vulture Ancestor was confident because behind him stood three monarchs from Thunder Ancient Country, although the three monarchs were not present at the moment.

Suddenly—

Black Vulture Ancestor "saw" a huge rolling star approaching. He was amazed by the sight, "What a powerful spiritual will attack!" Before the rolling stars, his spiritual will could not resist and was crushed into dust, turning this mass of black mist into a corpse.

At that moment, all the avatars of Black Vulture Ancestor in various parts of the Land of Origin also turned into corpses.

"Huh?"

Luo Feng frowned slightly, sensing that one avatar of Black Vulture Ancestor was in the distant Mt. Leiting, under its protection. His attack was significantly weakened, merely heavily injuring that avatar of Black Vulture Ancestor.

"Mt. Leiting, truly the most heavily defended place in the entire Land of Origin, even my spiritual will attack was weakened by seventy to eighty percent!" Luo Feng was shocked.

Every emperor in Flame Wind Ancient Country had a capital city.

For instance, Eating Fox God King had an avatar hiding inside an emperor's palace which reduced Luo Feng's spiritual will attack by twenty to thirty percent. Luo Feng still managed to kill Eating Fox God King.

"The entire Thunder Ancient Country has only one holy land, which is Mt. Leiting! Many monarchs are here, even the Thunder Ancestor is said to have avatars here," Luo Feng muttered. Whether it was spiritual attacks or causality attacks, it was too difficult to harm the powerhouses within Mt. Leiting.

…

Inside the holy land "Mt. Leiting."

"Boom."

Living in a cave mansion within the belly of Mt. Leiting, Black Vulture Ancestor only felt his spiritual will crushed, instantly greatly

damaged! All his avatars and resurrection carriers outside of Mt. Leiting had their will erased, leaving nothing behind.

"Me hiding in Mt. Leiting, yet still heavily damaged in my spiritual will?" At this moment, Black Vulture Ancestor was somewhat terrified, "I had absolutely no resistance outside."

"Three monarchs." Black Vulture Ancestor immediately communicated with the three closely related monarchs.

He was truly frightened.

With such a terrifying being out there, he dared not leave Mt. Leiting.

******

"The top four sins of the continent, Eating Fox God King died, Gui Ying God King must have actively reincarnated. This Black Vulture Ancestor has an avatar hiding in the holy land 'Mt. Leiting', Iron Demon Lord is then a special puppet life form." At this moment, Luo Feng felt his plan was quite wise.

His scheme successfully baited the big fish "Emperor Yuan!"

With the Supreme Rules of the Land of Origin in effect, power limits were determined.

This was a good thing, giving him confidence to face the Ancestors of both countries and the East Extreme Domain Ancestor. However, on the other hand, it also defined the power of the Star Tower, making it difficult for him to threaten the emperors and monarchs hiding in their lairs.

"This move against Emperor Yuan, the other emperors and monarchs will probably be more cautious in the future."

"In fact, I bear no ill will towards most emperors and monarchs. But they might нebet!"

Like Master Emperor Chu, Emperor Ming, Di Fu, Emperor Xuan, Luo Feng either respected or felt good about them. Very few truly evoked hostility in Luo Feng.

"This Emperor Yuan has not cultivated the Primordial Bloodline! He has only utilized Primordial Materials to become an Ultimate Realm Life Form, he is absolutely lucid! But he has cultivated a legacy that can transform into an Endless Abyss, eagerly devouring countless life forms." Luo Feng had long heard of Emperor Yuan's evil reputation.

Emperor Yuan, becoming an Endless Abyss, devouring billions of life forms. His several bold moves were well known to many God Kings.

Looking back now, Emperor Yuan's appetite was too vast, and he secretly used the "Iron Demon Lord" to capture countless creatures. The real number of creatures he devoured was simply astonishing.

"Black-robed!"

Emperor Yuan, with an aged face, his cloak fluttering.

He looked at the endless bloody rivers surrounding him, yet laughed heartily. The armor on his body gleamed with a dim light, the surroundings began to distort, and a blurry dark abyss started to descend.

At the same time, he extended both hands, each covered with gloves.

A pair of massive hands appeared in the heavens and the earth, countless Secret Patterns flowing in the palms of the hands. The hands began to close together, crushing everything between them, also aiming to crush the bloody rivers.

"This Emperor Yuan probably only mastered two or three Ultimate Realm techniques," Luo Feng thought, "But with the 'Beyond God King Level Secret Treasure,' each of his moves significantly increased in power. Feels like it could match my Seven Branches Fusion Techniques."

This is the advantage of Secret Treasures, greatly enhancing the mysteries of the realm.

With a few super Secret Treasures, an emperor could compare to Heavenly Wood National Boundary Beast and Lord of Ten Thousand Realms! Heavenly Wood National Boundary Beast, Lord of Ten Thousand Realms, they find it hard to obtain 'Beyond God King Level

Secret Treasure,' and even if they occasionally do, it may not suit them.

"Come quickly, join forces with me to catch this black-robed!"

"If we miss this chance and let the black-robed slip away, he will surely be very careful in the future. It will be tough to get another opportunity like this," Emperor Yuan urged while activating many super Secret Treasures on his body, also calling other emperors through sound transmission.

"Quick, quick, come quickly," Emperor Yuan anxiously urged.

He was afraid this big fish would slip away!

"Extinction."

In the Endless Blood River.

Luo Feng watched as Emperor Yuan's numerous moves erupted, and with a thought, the Star Tower within him was already activated!

Luo Feng did not intend to trap Emperor Yuan inside the Star Tower, because once inside, with suppression, imprisonment, and execution, it was estimated that Emperor Yuan wouldn't withstand even a moment. But if Emperor Yuan reincarnated, it would easily expose many secrets of the Star Tower!

Without taking the enemy inside, the Star Tower was merely activated to control the entire River of Life! Its power would soar to unimaginable levels.

"Huh?" Emperor Yuan, giving his all and full of confidence, suddenly noticed that the Endless Blood River had changed!

Each stream of the river seemed like a world of its own, immensely heavy, each stream aiming to suppress and imprison him, and this bizarre river even penetrated his armor, forcibly seeping into his body, twisting inside him, crushing the smallest components of his body.

Inside his body, there lay a black pearl that naturally evolved into an

abyss.

This abyss also affected his entire body, aiding Emperor Yuan in resisting the erosion of the blood-colored river.

But—

Under the drive of the Star Tower, the blood-colored river flowed more aggressively, erosively destructive in an overwhelming manner.

"How is this possible!" Emperor Yuan was staggered, "I have no less than five super secret treasures on me, three of which are for protection, and I am also an Ultimate Realm Life Form! How could this be?"

The might of the Endless Blood River had already reached the maximum power limit of the Land of Origin.

Under the drive of the Star Tower Secret Patterns, the realm even far surpassed the Eight Branches Techniques, and Emperor Yuan's three protective secret treasures were like sieves, continuously permeated. His Ultimate Realm Life Form was also continuously eroded and damaged.

"Three breaths' time, three breaths' time, and I'll be dead." Emperor Yuan instantly determined the rate of erosion.

Under the protection of the protective cloak, armor, and Abyss Pearl, his Ultimate Realm Life Form could only resist for three breaths' time.

This was something Emperor Yuan could never have anticipated!

But that was the reality!

"Quick, come save me, come save me, I can only hold on for two breaths' time!" Emperor Yuan immediately transmitted a message to the other Emperors, his thoughts exceedingly fast, beginning to desperately call for help, including from Emperor Qing and all other Emperors.

...

The matter between Emperor Yuan and the Iron Demon Lord was a secret! Although some Emperors guessed it, they also didn't rip off this veneer of modesty.

At this moment, the Emperors of Flame Wind Ancient Country each had their own affairs. Continue your adventure with My Virtual Library Empire

"The one who kills the great sinner is the Black-Robed! I have already found him!"

"He even dares to strike against me, hurry, come help me capture him." When Emperor Yuan first started transmitting the message, the other Emperors were somewhat astonished.

These Emperors, after all, some were in seclusion cultivating, some were responsible as garrison commanders, and some undertook clan missions. Suddenly receiving Emperor Yuan's message, those Emperors busy with duties were reluctant to pay attention.

"Catch Black-Robed? As if it's that easy to catch him?" Emperor Jiufeng scoffed.

"I can't be bothered to get involved." Emperor Chu simply didn't care.

"What a fool." Emperor Ming was also indifferent.

The relationships among the Emperors were very poor.

Emperor Yuan calling for help, those willing to help were very few!

"One of my subordinates, the Eating Fox God King, died at the hands of Black-Robed. It makes sense to join forces with Emperor Yuan once." Emperor Kong thought, "But I can wait a bit, wait until a few more Emperors make a move, then the chances would be greater."

Emperor Kong planned to wait for ten breaths' time, amidst the increasingly fierce battle, more Emperors participated, and then he would make his move.

"What's going on? Emperor Yuan went to catch Black-Robed?" Di Fu was shocked.

With his ability, he naturally guessed the truth instantly.

"This Emperor Yuan, always causing trouble." Di Fu also felt troubled; he couldn't handle Emperor Yuan, he could only try his best to suppress him. In recent years, the Iron Demon Lord had been keeping a low profile.

But past sins, ultimately have far-reaching effects.

...

While Emperors each harbored their own thoughts.

"Quick, come save me, come save me, I can only hold on for two breaths' time!" Emperor Yuan's urgent plea for help left all the Emperors of Flame Wind Ancient Country stunned.

How could he be asking for help?

Even Emperor Jiufeng, Emperor Chu, and Emperor Ming, one by one, were shocked.

Everyone knew how strong Emperor Yuan, with his complete set of super secret treasures, was!

"Hurry, I'm going to die!"

"This Black-Robed is too horrifying! If you don't come now, I'll have to reincarnate!" Emperor Yuan's transmission was frantic, for once reincarnated, he would lose his complete set of super secret treasures. He also couldn't afford the debt to cultivate an Ultimate Realm Life Form again.

So until the last moment, Emperor Yuan was not willing to reincarnate.

"Don't go alone." Di Fu immediately transmitted, "Come to me right now to rally, I will use Formation, and we'll go to rescue Emperor Yuan together."

Di Fu felt that if they allowed Emperors to go alone, they might probably be walking to their deaths.

"Okay."

"I'm coming."

"Here!"

In this critical moment, Emperors of Flame Wind Ancient Country realized the situation was unprecedentedly severe, even Emperor Ming and Emperor Chu, at this moment, did not hesitate to head over.

Except for Emperors who had important tasks and couldn't leave, at this moment, a total of eight Emperors instantly rallied under the leadership of the current Emperor, Di Fu, using Formation to collaborate, crossed distant lands in a thought, heading towards the vast battlefield enveloped by the Endless Blood River.

—

Thanks to the new Alliance Hierarch 'Zisang Lingfeng' for the reward, and thanks also to the Venerable Xu Xin for their reward!

Chapter 261 6 episodes 23 chapters Death of Di Yuan

Emperors indeed had numerous contradictions amongst themselves, but at critical moments, they were still united.

Only through unity could the Emperors of the Flame Wind Ancient Country possess enough deterrence to suppress all rogue cultivators and occupy the finest resources! This was also the command of the Ancestor of Flame Wind.

"Primordial Space Eight-Phases Array!" Di Fu drove the Array Formation Secret Treasure, unleashing an ancient array imbued with the essence of primordiality that manifested as an eight-layered formation! The layers were stacked upon one another, with Di Fu and Emperor Ming at the array's core, supported by the other six emperors.

"Activate Array!"

The might of this ancient, unadorned array immediately rose to the upper limit of power in the Land of Origin, and their coordination made the realm even more inexplicably profound.

In terms of strength, Emperor Ming, aided by his formidable Spiritual Will, had explored the depths of his Primordial Bloodline to new heights, combined with a Super Secret Treasure! Emperor Ming gave it his all, and his might could indeed reach the upper limit in the Land of Origin.

The combined might of the eight emperors was beyond doubt.

"Although Emperor Yuan has caused much trouble, he cannot die at the hands of a rogue cultivator," each of the emperors refused to allow such an event to occur.

"We must stop Luo He," Di Fu too did not wish for the relationship between Luo Feng and the Flame Wind Ancient Country to turn sour. "Killing an emperor, that would be a great disaster! If the Ancestor were to rage, I'm afraid I couldn't continue to join hands with Luo He either."

Whoosh!

The Primordial Space Eight-Phases Array, in an instant, traversed an immense distance to arrive at the region shrouded by the Endless Blood River.

"Rumble ~~~~"

As soon as the array descended, carrying an extremely terrible might, it was about to crush the Blood River to save Emperor Yuan.

"It's arrived." Emperor Yuan, his body eroded and ravaged by the endless bloody streams, excitedly looked up! At this moment, even though he was protected by a few Super Secret Treasures, his body was still being continuously destroyed and extinguished.

On one side was the Primordial Space Eight-Phases Array.

On the other side was the Endless Blood River, manipulated by Luo Feng through the Star Tower.

Both had reached the upper limit of the Land of Origin's power. Now, the Primordial Space Eight-Phases Array had crossed the vast expanse of space and forcefully pressed down, intending to shatter the Endless Blood River.

"Boom!!!"

The expressions of Di Fu, Emperor Chu, Di Yan, Emperor Ming, Di Kong, and the other five emperors simultaneously shifted.

Because when they tried to suppress with the array, they felt the Endless Blood River had tumultuous power, a completeness unto itself, as if an immense blood python rolled over, repelling the entire Primordial Space Eight-Phases Array!

The eight emperors joined forces!

With Di Fu and Emperor Ming involved, what they considered an invincible terrifying array was actually at a disadvantage in a head-on collision?

"Impossible!"

"The Primordial Space Eight-Phases Array, its might has already reached the upper limit of the Land of Origin! And it's driven by an Array Formation Secret Treasure, the realm of which is extremely profound."

"With Emperor Ming's Spiritual Will aiding in maneuvering the array's might, can we still not win?"

Di Fu, Emperor Chu, Di Yan, and the others couldn't believe it.

"Penetrate," Di Fu immediately switched tactics in the array.

The Primordial Space Eight-Phases Array, in an instant, seemed illusory, as if it became a part of space itself, quietly encompassing the endless and vast Blood River.

The Endless Blood River surged furiously, and with just a slight outburst of power, the Source World's membrane manifested countless tiny cracks, and in an instant, many fissures also appeared in the Primordial Space Eight-Phases Array.

"Quickly withdraw the array," Emperor Ming urged anxiously.

"Withdraw," Di Fu no longer dared to try to envelop the entire Endless Blood River, and the array instantly concealed itself as it pulled back.

"Head-on, we can't overcome. Not even through spatial infiltration," Di Fu communicated to the seven companions. "What can be done now?"

"Our array has long reached the upper limit of the Land of Origin's power, but still lost in a direct confrontation. Clearly, we lack at least an entire tier in mystery, which is a qualitative difference," Di Yan

transmitted anxiously. "This black-robed figure is likely an existence above a Godly King!"

"Could it be that the Lord of Ten Thousand Realms has broken through, reaching above a Godly King?"

"Is it the East Extreme Domain Ancestor who has intervened?"

All eight emperors were somewhat panic-stricken.

All eight united and still were at a disadvantage; they did not believe that those of the Ultimate Realm could achieve this.

The publicly known existences above Godly Kings on the Land of Origin were only the four: both countries' ancestors, the East Extreme Domain Ancestor, Emperor Qing! The Lord of Ten Thousand Realms, having comprehended a complete Great Dao on his own, also had the potential to take that step.

"Quickly save me, I can't hold on any longer! I am going to die!" Emperor Yuan transmitted in utter desperation.

"We can't save you," Di Fu replied. "The eight of us united cannot overcome it!"

"Emperor Yuan, reincarnate!" Di Yan also transmitted. "Don't use the Resurrection Carrier, it's too weak, and it definitely can't withstand the black-robed's pursuit."

...

When Emperor Yuan sensed the arrival of the Primordial Space Eight-Phases Array, he harbored hope.

But a moment later! That array and the Endless Blood River clashed several times, losing each time and being completely suppressed.

"It's over," Emperor Yuan felt a chill in his heart at this moment.

The emperors were transmitting to him at this moment.

"Emperor Qing, Emperor Qing, save me."

"Emperor Qing."

Emperor Yuan called out time after time.

At this moment, he only longed for Emperor Qing to act, but Emperor Qing hadn't responded to him at all from beginning to end.

"It's completely over."

At this moment, Emperor Yuan understood that he had no choice left.

If it were an ordinary battle amongst Godly Kings, even if his True Body were destroyed, he could still re-cultivate using a Resurrection Carrier.

But the black-robed figure, with the Endless Blood River's profound ability pressing down on the 'Primordial Space Eight-Phases Array', had such a high realm that it defied comprehension! Such an existence must be adept at techniques involving Causality, Curse Killing, and the like.

The Resurrection Carrier is weaker than any Avatar. It's weakest right after resurrecting!

The black-robed was also adept at Spiritual Will Attacks.

In the face of attacks related to Causality and Curse Killing, under Spiritual Will Attacks, Emperor Yuan knew that his Resurrection Carrier would most likely die! That sort of death would be absolute and complete. There would be no time for reincarnation.

"Emperor Qing, oh Emperor Qing, I'm about to die, and still, you refuse to heed my calls," thought Emperor Yuan at this moment, feeling extremely stifled. As his physical body rapidly deteriorated and infiltrated by a destructive force, he didn't have much time to think further.

In his final moments, he cast an affectionate glance at the super secret treasures on his body.

Five super secret treasures, an ultimate realm life form... all gone.

"Hmm."

When only a tenth of Emperor Yuan's physical body remained, he cast the Reincarnation Secret Technique with a single thought.

"Huh?"

Luo Feng, who controlled the vast and boundless Endless Blood River, noticed that Emperor Yuan's body had dissipated, leaving only items behind.

"Reincarnated?" Luo Feng readied himself, planning to join Morosa in unleashing the Curse Killing Technique! Morosa was skilled in curse killing from the time he was in the first realm as a Godly King, and now as an ultimate realm being, he was obviously confident in killing a resurrection carrier.

Luo Feng's own path of destruction had also reached the second realm of God King, and he had further understood many secret patterns of destructive paths in the Star Tower, capable of initiating the curse killing technique himself.

Together, they were highly likely to deal with a newly born resurrection carrier.

"Emperor Yuan really did it cleanly, choosing not to transfer his consciousness to a resurrection carrier but to reincarnate," Luo Feng thought, "If he ever exposes his identity in the future, then I'll find an opportunity to eliminate him."

The premise is that Emperor Yuan would voluntarily expose his identity. Once reincarnated, if Emperor Yuan was careful, nobody would know about his reincarnated form.

"Sigh." Luo Feng's Endless Blood River swept up and collected Emperor Yuan's remaining secret treasures.

"Black-Robed!"

A shout of anger came from a distance.

The eight emperors within the Primordial Space Eight Phases Array

all looked over, and it was Emperor Yan who shouted furiously, "Black-Robed, even if you are an existence above God Kings, by killing an Emperor of the Flame Wind Ancient Country, our Flame Wind Ancient Country Royal Family will not let this go."

"Hahaha..." Luo Feng laughed, "Not letting it go, what can you possibly do?"

"This Black-Robed!"

"He simply doesn't take us seriously!"

The eight emperors were frantic with rage, yet they knew there was nothing they could do.

Under the restrictions of the rules of the Land of Origin, as long as one reached above the God King level! Even the ancestors of two countries would find it difficult to harm each other.

In reality, beings like the East Extreme Domain Ancestor and the Lord of Wanjie Kingdom were relatively low-profile, because they were well aware... that the ancestors of the two countries had long achieved an exceedingly high realm, and if they ventured out from the Land of Origin, they still couldn't provoke the ancestors of the two countries, and might even need their care and protection.

This was also the reason why the East Extreme Domain Ancestor yielded to the ancestors of the two countries.

"This being above the God King really acts without any restraint, what can we do?" The emperors felt quite helpless.

They watched the black-robed, golden-faced powerhouse and the elderly servant within the boundless blood river, this master and servant pair, apparently unconcerned about offending the Flame Wind Ancient Country.

The guise Morosa adopted at this moment bore some resemblance to Mountain sitting guest's disguised puppet.

"Let's go."

Luo Feng smiled, taking Morosa with him as they swept away with the Endless Blood River.

The emperors within the Primordial Space Eight Phases Array looked at each other.

"What do we do?"

"Emperor Yuan has reincarnated, and with his debt level within the clan, even if he comes back to the royal family for 'recognition of his identity' after reincarnation, he won't be able to return as an ultimate realm life form."

"If he can't become an ultimate realm life form and exposes his identity, he's just seeking death!"

These emperors understood this point.

An ordinary God King at the peak of the second realm would find it very difficult to survive against the pursuit of a black-robed powerhouse.

"So, after Emperor Yuan's reincarnation, I guess he won't come to the royal family for recognition of his identity."

"It's a pity..."

"Thirteen emperors have become twelve."

"This is a big joke for our Flame Wind Ancient Country Royal Family."

They sighed.

The Flame Wind Ancient Country of the past was overwhelmingly powerful, suppressing all sides. Aside from the Thunder Ancient Country, no other forces dared to confront them directly; they all bowed their heads in their presence.

But today, Emperor Yuan died.

The death of an emperor in the Land of Origin had too great an

impact.

"The strength of Black-Robed is not something we can handle. We should tell Emperor Qing about this. And... report to the Ancestor as well," said Emperor Jiufeng with a shake of his head and a sigh.

"It's indeed necessary to inform the Ancestor," Emperor Xuan agreed.

"Let's go."

Di Fu immediately operated the array formation, leading the many emperors back.

...

In Huyang City, atop a tower in the city owner's mansion.

Luo Feng and Morosa were drinking wine.

"Master is wise, by killing those sinners one by one, you have drawn out the true culprit behind the scenes," Morosa said cheerfully, "Hahaha, openly killing an Emperor of the Flame Wind Ancient Country felt so gratifying!"

"Emperor Yuan deserved to die; it's only a pity I can't break the Reincarnation Technique. Otherwise, even if he reincarnated, I would still need to kill him," Luo Feng had no pity for scum like Emperor Yuan, who devoured creatures on a scale of 'nations', many times more terrifying than Tian Kun.

Continue your journey with My Virtual Library Empire

"I previously wanted to spar and compete with the master... but now I realize, I'm far too lacking compared to my master," Morosa said with emotion.

He had now seen for himself.

The Great Dao of Life and Death, as a Fusion Dao, with the seven branches combined into moves comparable to a Sector Beast's ultimate moves, and the eighth branch combined touching the threshold of 'Above God King'. With the aid of the Star Tower's

activation, the realm is much higher, naturally making Morosa look up to it.

"Stop buttering me up," Luo Feng laughed, "this matter isn't over yet."

"Not over yet?" Morosa asked in confusion.

"The Flame Wind Ancient Country still has Emperor Qing, and there's that unfathomable Primogenitor Yan Feng," Luo Feng said, "Let's see what they'll do next."

Chapter 24, Emperor Qing in Closed-door Cultivation

In Qingdu of the Flame Wind Ancient Country, the most transcendent of capital cities, none dared to be presumptuous, including the three powerful Alien Clans on the Land of Origin.

At this moment, inside the Emperor Qing Palace.

"While the Master is in closed-door meditation, no one can disturb him," a puppet creature said coldly as it stood outside the palace doors, facing the eight figures before it.

Marquis Di Fu and the other seven Emperors had gathered here.

"There has been a major incident," Di Fu began, "One of the thirteen Emperors of our Flame Wind Ancient Country, 'Emperor Yuan,' has been murdered. This is no trivial matter; you should go and report to your master immediately."

Although they had all sent messages to 'Emperor Qing,' during his meditation, he uniformly ignored all communication.

"You, servant, report to your master at once," Emperor Di Yan rebuked.

"Hurry up and report," Emperor Jing Feng also urged.

The puppet creature looked at the eight Emperors, expressionless, and shook its head: "The Master has ordered that no matter the significance of the event, he shall not be disturbed during his meditation."

"You—" Emperor Chu couldn't hold back, "Did you not hear that Emperor Yuan has been murdered?"

"Even if all the Emperors were killed, it would not be permissible to disturb my master," the puppet creature said coldly. It would carry out the master's orders without exception, regardless of who came.

The eight Emperors were fuming.

What kind of reasoning was this?

All the Emperors dead, and Emperor Qing wouldn't care?

"This puppet servant is too inflexible, impossible to reason with," Di Kong also commented from the side.

"Enough," Di Fu said, "Emperor Qing must be dealing with an important matter. Let's go to the Ancestor."

Although the eight Emperors were quite dissatisfied, none of them dared to forcefully enter Emperor Qing's place of meditation, and they could only leave helplessly.

...

Within a hidden world in the Flame Wind Ancient Country, there lay a simple and ancient cave mansion.

The eight Emperors stood respectfully at the entrance of the mansion, not daring to show the slightest carelessness.

"Informing the Ancestor, a black-robed figure accompanied by an old servant attacked and killed Emperor Yuan, forcing him to choose reincarnation," Di Fu reported respectfully at the entrance of the cave mansion, "This black-robed figure is extremely powerful. All eight of us together were no match for him and he is suspected to be a being Above a God King. How shall our Flame Wind Ancient Country deal with this black-robed figure? Please instruct us, Ancestor."

After Di Fu finished speaking, the other seven Emperors also stood respectfully to the side, patiently awaiting a response.

After a long time...

The cave mansion was silent, with no response whatsoever.

"I have reported as well, but the Ancestor has not responded. He must also be in meditation," Di Fu said to his companions, "Following the rules, the Ancestor will naturally become aware of everything once he comes out of his meditation."

"Mm," the other seven Emperors also felt helpless.

If the Ancestor's avatar were in an awakened state, it would have responded immediately.

But if he was in meditation, when he would respond was uncertain.

"Let's go," they said.

The eight Emperors could only leave, not daring to step into the simple and ancient cave mansion.

******

All the powers on the Land of Origin could sense the complete disappearance of Emperor Yuan's causality! This signified… Emperor Yuan was either dead for good or had been forced into reincarnation. This was a matter of grave importance.

"Emperor Yuan is dead?" A middle-aged man arrived at the previous battlefield. As he walked along the timeline of the past, he effortlessly discovered the pre-battle scene. The Iron Demon Lord was in a secret palace while Emperor Yuan lurked nearby.

Suddenly, the surrounding scene became indistinct.

"The killer must be at least of the Ultimate Realm," the middle-aged man murmured in astonishment, "A perfection of the Great Dao, leaving no trace behind."

"The battle made a huge commotion. I only saw from a distance the collision between the Endless Blood River and the Eight Phase array of the eight Emperors," the middle-aged man mused. "It's unclear who the killer is."

"Interesting."

"Daring to disrespect the Ancestors of the two countries and killing Emperor Yuan," the middle-aged man was quite curious.

...

The collision between the Endless Blood River and the Primordial Space Eight Phases Array was too terrifying to spy on. On the entire Land of Origin, only a few, such as the Three Alien Clans, the Lord of Ten Thousand Realms, and the Heavenly Wood National Boundary Beast, could glimpse some traces.

As for Luo Feng's appearance, no one had seen it.

All parties investigating the truth could only deduce—

Emperor Yuan was murdered by a being at least of the Ultimate Realm!

"Emperor Yuan, possessing a full set of super secret treasures, died within moments?"

"Eight Emperors of the Flame Wind Ancient Country combined their strength and still couldn't save him?"

This news was also spread among the Monarchs of the Thunder Ancient Country.

These monarchs were also shaken.

On the Land of Origin, it seemed as if the two ancient countries stood side by side. However, in terms of deterrence, the Thunder Ancient Country was a notch below the Flame Wind Ancient Country, which after all had Emperor Qing.

"That murderer, if targeting any one of us monarchs, could easily kill us," they speculated.

"This person is very likely an existence Above a God King! One glance could damage our minds and drive us mad," these monarchs felt unsettled, knowing well the clear flaw in those of them who cultivated the Primordial Bloodline.

In the face of a being Above a God King, just one look was enough to make them lose control.

"In the coming time, act more cautiously and identify the killer as soon as possible," these monarchs also became more wary.

...

In the subsequent days, the entire Land of Origin was fraught with tension!

The once high and mighty royal families of the two ancient countries had significantly reined in their arrogance, and their acts of devouring countless creatures had completely ceased! Everyone knew that the culprit hated evil intensely.

"Our emperor from the Flame Wind Ancient Country has been killed, for the first time in history."

"Emperor Yuan has been killed, and it's been quite a while. There's been no word of Emperor Yuan's return; could he be truly dead?" Read exclusive adventures at My Virtual Library Empire

"The Twelve Emperors personally tried to save him but only managed to delay things a bit. Emperor Yuan had enough time for reincarnation! Probably he dares not return to the Royal Family, fearing that the killer will continue to pursue him."

A group of Marquises from Emperor Chu's Lineage gathered and also discussed this matter.

Now, at the gatherings of the Royal Families of the two ancient countries, the hot topic was the death of Emperor Yuan!

The relationship between Emperor Chu's Lineage and Emperor Yuan's Lineage wasn't good, so these Marquises discussed the topic with visible excitement.

"That killer hates evil; he probably doesn't even care about us from the Primal Chaos Realm Royal Family," Emperor Chu Yu said with a smile.

The gap in strength was too vast.

The ordinary members of the Imperial Clan, on the other hand, were just onlookers.

The ones truly uneasy were the Godly Kings of the Second Realm from the Imperial Clan, the Emperors and Monarchs, and those members of the Royal Family entangled in major sins!

******

Emperor Qing Palace.

"Rumble~~~" The ancient great hall's doors finally opened.

Emperor Qing, the most detached among the thirteen emperors of the Flame Wind Ancient Country, had emerged from seclusion, and this news quickly reached the ears of the other emperors.

Instantly, Emperor Fu, Emperor Yan, Emperor Xi, and the others, whether in their true presence or as avatars, all rushed over.

"Please, take a seat."

Emperor Qing was seated at the head.

The eleven emperors took their seats, all with submissive postures.

They were well aware that although they all appeared to be emperors, they would soon have to leave the Land of Origin to venture forth! They were not on the same level as Emperor Qing, not even close.

"Emperor Qing, you should know about the matter," said Emperor Fu. "What do you think we should do now?"

"Ha ha..."

Emperor Qing sat there, and actually began to laugh, "With Emperor Yuan's death, we in the Flame Wind Ancient Country are down to twelve emperors."

Emperor Fu and the other eleven emperors were somewhat speechless. Could Emperor Qing actually be laughing at such an event?

"Has Emperor Yuan returned to the Royal Family after his reincarnation?" Emperor Qing asked again.

A reincarnated identity is uncontrollable, and judging by the number of creatures in the Land of Origin, the likelihood of reincarnating into a tribe in the Wilderness was highest. Emperor Yuan had the realm and could quickly recover his strength in a short period.

And he could even acknowledge his Royal Family! Confirming his identity was relatively easy, such as the few Ultimate Realm Secret Techniques that Emperor Yuan possessed, or the detailed Merit Points Emperor Yuan owed to the clan, which could easily confirm his identity.

"He has not returned," stated Emperor Fu. "He owes the clan too much, without enough points to exchange for adequate resources to cultivate into an Ultimate Realm Life Form again."

"He's quite clever," nodded Emperor Qing. "As long as he doesn't reveal himself, no one will know his reincarnated identity, making it the safest option."

Emperor Yan also spoke up, "Emperor Qing, are we just going to let this go?"

"It's a minor issue; why bother making too much of it?" replied Emperor Qing lightly. He considered it merely an amusement.

"A minor issue?" Emperor Di Wu could not help but interject. "The death of one of thirteen emperors affects the entire Royal Family of the Flame Wind Ancient Country."

Emperor Qing's gaze fell on Emperor Di Wu.

Emperor Di Wu's heart trembled, and he did not dare speak further.

"They haven't died completely; they've all reincarnated. What's there to fuss about?" Emperor Qing's gaze swept over the seated eleven

emperors. "You've been living too comfortably in the Land of Origin, this small setback is nothing."

Emperor Qing had left an avatar in the Land of Origin, but he had already started venturing outside.

The outside world was where true life-and-death struggles lay in darkness! That was where the real perils lurked!

In the outside world, at best one's avatar would die in battle, losing many precious treasures accumulated. At worst... it would affect the avatar in the Source World, leading to complete obliteration.

Even the Ancestors of the two countries tread carefully, cautiously venturing outside.

In Emperor Qing's view...

The Land of Origin was far too safe! These emperors had become too complacent.

"Yes," said Emperor Fu. "Compared with venturing in the outside world, the Land of Origin's issues are indeed minor. But we still need a plan of action."

"You eight acting together already possess might reaching the limit of the Land of Origin," said Emperor Qing leisurely. "Combined with the Array Formation Secret Treasure, even surpassing the Emperor Level in the intricacy of the moves. Even under such circumstances, you were suppressed by that Black-Robed individual."

"Black-Robed, either he's of a very high realm or he relies on a tremendously powerful Secret Treasure! In any case, his Endless Blood River... its realm is even higher than your formation," Emperor Qing shook his head. "Even if I took action, it would barely be a match. Even if I had the upper hand, I would not be able to defeat him."

"Under the rules of the Land of Origin, even an Ancestor wouldn't be able to get the better of him," said Emperor Qing.

The eleven emperors remained silent.

"Do not rush into battle heedlessly," Emperor Qing advised the eleven emperors. "In the future, when you leave the Land of Origin, you will encounter many more powerful individuals. You should learn to make friends, or at least not make too many enemies."

"If this Black-Robed individual reaches Above God King in the Land of Origin and becomes invincible, then we need to think of a way to coexist with him," Emperor Qing said with a smile. "If we can't kill him, we'll have to adapt to him."

The eleven emperors also understood the reasoning, but for the domineering Flame Wind Ancient Country Royal Family to now adapt to this Black-Robed individual?

"We're willing to make friends with him, but what if he continues to be hostile towards us and strikes us down?" Emperor Yan inquired.

Emperor Qing gave a slight smile: "If we proactively seek friendship and he still affronts us, then we become enemies. Once enemies, we'll kill him whenever we encounter him outside the Land of Origin!" In the outside world, making friends is important, but so is killing.

Power and position are won through battle.

"The foundation of our Flame Wind Ancient Country lies in the Land of Origin," Emperor Qing addressed the eleven emperors. "Therefore, we should try our best to befriend him. After all, if things truly escalate, the Ancestor and I can hunt him down outside. But within the Land of Origin, he could cause utter chaos."

"Mutual destruction is undesirable," Emperor Qing stated.

"Yes," the eleven emperors responded in agreement.

Chapter 25 A Swipe of the Finger

"The Land of Origin is only so vast. Logically, such a strong entity shouldn't suddenly emerge," Emperor Qing said thoughtfully. "I'll ask the Lord of Ten Thousand Realms to see if it's him."

The eleven Emperors were also waiting; their prime suspect at the moment was indeed the Lord of Ten Thousand Realms.

Previously, they had confirmed the black-robed figure to be Di Fu of Luo He, but now some doubts arose. After all, it's been not long since Luo He achieved the Godly King realm. Could he suppress eight Emperors working together? And without leaving any traces?

"Whoosh—"

Emperor Qing sat there.

Yet a ripple had already crossed vast distances, descending upon the capital of Wanjie Kingdom.

...

"Lord." A thought arrived in this capital.

The Lord of Ten Thousand Realms was currently in closed-door cultivation. He was tall and had a gentle appearance. Looking up at the condensing figure of Emperor Qing in front of him, he couldn't help but sigh, "Old friend, your strength has become more and more unfathomable."

In this era, only the two of them on the Land of Origin had comprehended the complete Great Dao! They were competitors as well as fellow travelers.

It's just that Emperor Qing's resource conditions were much better than the Lord of Ten Thousand Realms, taking a step ahead to reach Above God King! And he began to venture into the outside world, increasing the gap between them.

"Venturing into the outer worlds, although more dangerous, also offers more experiences and opportunities," Emperor Qing smiled at the Lord of Ten Thousand Realms. "I invited you to join me in the past, yet you were reluctant."

"You reached Above God King before venturing out. I still remain in the Ultimate Realm," said the Lord of Ten Thousand Realms. "The difference between the Ultimate Realm and Above God King is qualitative. Ordinary beings in the Ultimate Realm... life in the outside worlds is still too harsh for them."

"We are both creatures nurtured by the Source World, protected by the Supreme Rules of the Source World," Emperor Qing said. "Even if our avatars die in the outside worlds, the avatars that stay at home can recover their strength and dispatch new avatars."

This is the advantage of creatures from the Source World.

Born in the Source World and possessing Clone Technique! The likelihood of death becomes very low.

"I've heard that the outer worlds also face a great crisis! It could even affect the avatars within the Source World," said the Lord of Ten Thousand Realms.

"Yes."

Emperor Qing said, "If you're really unlucky and encounter High Level Primordial Life! Their level of life, their realm... is too high above us. Even though the Supreme Rules can block many attacks, Soul Pollution is unavoidable."

"Once we're contaminated, all our avatars' souls will be contaminated." Your journey continues on My Virtual Library Empire

"Too strong contamination, even avatars will completely perish," Emperor Qing explained.

Previously, Luo Feng's Spiritual Will in the Ultimate Realm of God King, just a segment of a dream vision, resulted in a mild contamination.

"High Level Primordial Life, so terrifying," the Lord of Ten Thousand Realms was shocked.

"The probability is very low," Emperor Qing said. "Predecessors like Yuan are also trying to protect us, the weaker ones, and are working hard to nurture us! Thus, we only face Low Level Primordial Life. If a Low Level Primordial Life could evolve into a 'High Level Primordial Life' and we happen to encounter it? That would just mean we have bad luck."

"You see, the Ancestors of the two countries also lived for so long," Emperor Qing smiled. "As long as we are a bit more careful and avoid the most dangerous places, those of us from the Source World with avatars are relatively safe."

"Is it true that most creatures from outside worlds don't have avatars?" the Lord of Ten Thousand Realms asked curiously.

Emperor Qing nodded: "Only creatures born in the Source World might have avatars. That's also an advantage of us, the creatures of the Source World!"

The Lord of Ten Thousand Realms nodded in understanding.

"By the way, that black-robed figure who killed Di Yuan, do you know his identity?" asked Emperor Qing.

"The battle back then was massive. I observed from a distance and only saw the Endless Blood River and the Primordial Space Eight Phases Array; I couldn't see through the identity of the black-robed figure," said the Lord of Ten Thousand Realms. "You didn't suspect it was me?"

"On the surface, the most likely one in the Land of Origin with the strength to do this would be you," Emperor Qing said with a smile. "But I know you too well; it's not your style."

The Lord of Ten Thousand Realms nodded: "I too wonder, just who is

this black-robed figure? Even the eight Emperors using the Primordial Space Eight Phases Array couldn't stand against him, yet he managed to suppress it."

Emperor Qing frowned: "If it's not you, and it can't be the East Extreme Domain Ancestor, then who could it be?"

"The rise of a strong entity is a process. From Primal Chaos Realm, First Realm of Godly King, Second Realm of Godly King, to the Ultimate Realm, growing step by step. In theory, there should be traces," the Lord of Ten Thousand Realms said.

"The Lord of the Shadow Sky Realm also cultivates the 'Matter' and 'Infinite' Great Daos. If he achieves Ultimate! By pioneering a new Great Dao and being recognized by the Infinite Space, he could exchange for a very suitable and powerful Secret Treasure for himself, it is possible to exert such strength," the Lord of Ten Thousand Realms speculated. "The Infinite Space rewards generously for pioneering a Great Dao."

"The Fire Ancestor is even more favored by Yuan and also has a slim possibility."

"And that Luo He, Luo He who just entered the Primal Chaos Realm, is already demonstrating a Transcending Primal Chaos strength. Just becoming a Godly King, he is already the strongest First Realm Godly King ever known. Just entering the Second Realm of Godly King... he is capable of contending with the Dark Sky Venerable of the Destruction Army. This Luo He, could also possibly create miracles."

The Lord of Ten Thousand Realms thought, "Considering the entire Land of Origin, those capable of creating miracles, doing inconceivable things, could only be these three. Other cultivators' talents all fall short compared to them."

"Shadow Sky Realm, Fire Ancestor, Luo He?" Emperor Qing smiled, "No rush, with such strength, he will reveal more and more of himself."

The Lord of Ten Thousand Realms nodded.

The strength of the black-robed figure is too terrifying; they don't want to risk exposing his identity.

...

Flame Wind Ancient Country and Thunder Ancient Country occupy the very center of the Land of Origin, which is also the most prosperous area. Surrounding them are also Tianmu Kingdom, Wanjie Kingdom, two top-tier countries, and a large number of second and third-tier countries.

The "Iron Demon Lord," ranked first in sins in the Land of Origin, initially dominated a second-rate country and even essentially controlled the surrounding dozen or so countries—as he had once plundered the populations of twelve countries in one swoop. The surrounding Godly Kings had long fled, not willing to be neighbors with this Iron Demon Lord.

Now...

Di Yuan is dead, and the Iron Demon Lord has also disappeared.

The surrounding dozen or so countries have lost their Leader! Naturally, there were undercurrents of strife.

"The territory actually controlled by the Iron Demon Lord includes three second-rate countries and thirteen third-rate countries! A total of no less than 359 Primal Chaos Prefectures. Such a vast area qualifies to establish a first-rate country."

"There are many forces coveting this territory."

"There are forces backed by the two Ancient Countries, the three Alien Clans, and that Black-Robed figure might also intervene."

Various forces initially restrained themselves, but over time they gradually began to fight each other.

...

Huyang City, city owner's mansion.

Luo Feng was inside the Star Tower, examining the Spoils of War before him.

A red cloak, a set of armor, a bead, a pair of gloves, and a pair of combat boots.

"Five Beyond God King Level Secret Treasures." Luo Feng was also studying the mysteries contained in these treasures, "Unfortunately, these five treasures are most suitable for Di Yuan; each one is centered around the 'Origin Dao of the World.'"

These five treasures.

Each one is centered around the 'Origin Dao of the World,' while also encompassing many other mysteries; clearly, they are above the Godly King level.

"This bead, for instance, has some use." Luo Feng picked up a black bead containing an evolving abyss, "This bead, with the world at its core, and accommodating both the paths of Life and Destruction. The three paths evolve the abyss together; it is somewhat helpful for me."

"These gloves also hold some mysteries of the Destruction Path."

"As for the other treasures, I can't use them at all."

Luo Feng felt helpless.

Exchanging treasures in the Infinite Space Treasure Vault, one can freely choose, selecting what is most suitable for oneself.

But what about the Spoils of War from killing Di Yuan? No choice, they were the Secret Treasures suitable for Di Yuan.

"Even this bead is centered around the Dao of the World." Luo Feng was somewhat disdainful; this Abyss Pearl could be used to aid in cultivation but was unsuitable for combat.

"These five treasures are wasted in my hands, I should think of a way to sell them." Luo Feng pondered.

"Master, Master," Morosa suddenly transmitted a message.

Luo Feng's thoughts moved, summoning Morosa in.

"What's wrong?" Luo Feng looked at Morosa.

"Master, the realm essentially dominated by the Iron Demon Lord has now erupted into conflict between various parties." Morosa couldn't help but say, "Shall we intervene and seize that territory?"

Luo Feng waved his hand, and a vast map of the Land of Origin appeared before him.

"The Iron Demon Lord essentially controlled three second-rate countries and thirteen third-rate countries; the territory is quite extensive," Luo Feng observed.

"It was the support from Di Yuan that enabled him to govern such a territory," Morosa spoke, "Di Yuan's death naturally attracted many forces. Such a vast territory with its regular output of rare natural treasures, the Residence Fees provided by countless Cultivators, and even some demons devouring Creatures... this vast area will attract many ancient existences."

"They are now fighting, even minor repercussions will affect many weaker Cultivators," Morosa looked at Luo Feng, "If the master were to govern this territory, it could also become stable."

Luo Feng carefully observed the Land of Origin map, pondering for a moment.

"Killing these Great Sinners does indeed leave behind quite a bit of territory." Luo Feng looked down and casually drew a line, "The territory of the Iron Demon Lord, the territory of the Black Vulture Ancestor, and the leftover territory of the Sky Hou God King, are all in this area."

With this stroke.

The Iron Demon Lord was between the two Ancient Countries.

The Black Vulture Ancestor was on the side of the Thunder Ancient Country.

The line drawn by Luo Feng completely encapsulated both, as well as some countries, forming a slender strip-shaped territorial pattern.

"This territory has been in long-term conflicts, and there are many demons lurking," Luo Feng said, "We'll take it over."

"Master, the Black Vulture Ancestor is still alive and is in control of this territory. He actually controls 287 Primal Chaos Prefectures. It's said that he controls it, but in reality, it's the Thunder Mountain Monarchs behind him," Morosa couldn't help but say, "We've just seriously offended the Flame Wind Ancient Country, and now we're going to take away such a large territory from the hands of Thunder Mountain?"

"Does the Black Vulture Ancestor have an opinion? Or do the Monarchs behind him dare have an opinion?" Luo Feng glanced at Morosa.

Morosa shivered.

He was still too timid!

"We'll follow the master's decision," Morosa immediately responded.

Luo Feng looked at the territory map before him; with this stroke, he had delineated a territory comprising 729 Primal Chaos Prefectures! In terms of size, it was much larger than Tianmu Kingdom, Wanjie Kingdom, and East Extreme Domain, and it came close to matching the two Ancient Countries.

Chapter 26 The Third Force of the Land of Origin

The stronger his power, the more Luo Feng was willing to protect creatures.

This Primal Chaos Prefecture was seen as a backyard by Thunder Ancient Country in some areas, while other areas acted as buffer zones between the two ancient countries, Wanjie Kingdom, and Tianmu Kingdom. Without the tacit approval of the rulers and monarchs of the two ancient countries, how could Iron Demon Lord and Black Vulture Ancestor wreak havoc for so long?

"Taking over this territory means I'm also stepping onto the stage," thought Luo Feng. "With a public identity, it will be more convenient to make deals with the two ancient countries and the Three Alien Clans."

Although he killed Di Yuan, Luo Feng was still willing to trade with Flame Wind Ancient Country.

He believed that Flame Wind Ancient Country would handle their relationship rationally.

If Flame Wind Ancient Country really went mad... Luo Feng wouldn't mind making another move to give them a wake-up call!

"Master, how shall we seize this territory?" Morosa looked at his master.

"Morosa, to conquer these 729 Primal Chaos Prefectures, you'll be the one to wage war," Luo Feng smiled at Morosa.

"Me?" Morosa pondered thoughtfully, his eyes flashing with brilliance. "Master, these 729 Primal Chaos Prefectures are

complicated matters, and I'm to wage war alone?"

"With your identity as my servant, you can wield the strength of a Pinnacle Sector Beast," Luo Feng said. "As a Pinnacle Sector Beast, there shouldn't be a problem taking over this area, right?"

Morosa felt his blood boiling, and a tinge of bloodlust appeared in his eyes, excitedly saying, "After waiting for so long, Master has finally allowed me to unleash the real power of a Sector Beast."

He had been holding back for far too long.

Luo Feng's eyelid twitched, and he quickly cautioned, "Morosa, you know what should be done and what should not."

He wanted to rule over the 729 Primal Chaos Prefectures, not to cause widespread disaster.

"Don't worry, Master hates evil as much as I do, I know what to do," Morosa replied. "Shall I start now?"

Luo Feng nodded.

Although in terms of power, understanding the Great Dao of Life and Death and having the Star Tower made him stronger.

But in terms of various methods, an Ultimate Realm Sector Beast had more.

...

Nighttime found Morosa floating high in the sky, looking down upon the vast world.

His gaze was distant, his soul's desires beginning to stir.

"I've endured for too long, and finally, with Master's permission, I can indulge a little," Morosa was well aware his actions had to stay within the framework set by his master.

"Master hates evil, and those who are sinful won't invite his objections when I kill them."

"Heh heh heh, you're my targets."

"Delightful morsels, I'm coming for you."

Morosa was far stronger than Luo Feng in identifying enemies, instantly locking onto the presence of all Godly King Level beings within the 729 Primal Chaos Prefectures.

Such was the norm for an Ultimate Realm being.

...

Wind Wolf Country, a third-rate nation located in the buffer area between Wanjie Kingdom and Thunder Ancient Country, was inconspicuous. Luo Feng's demarcated territory happened to include the lanky, middle region covering Wind Wolf Country.

"The territory practically ruled by Iron Demon Lord is now a mess; I hope it doesn't spread here," brooded the Wind Wolf Country Master as he consumed a Crystal Sphere, which contained over a hundred million creatures.

As a Guest Elder of Thunder Ancient Country with Primordial Bloodline, the supply of Blood Food in this third-rate nation was more than enough for the Wind Wolf Country Master.

For someone like him, situated on the fringe within a small nation and merely consuming blood food in moderation within his own domain, he was already keeping quite a low profile!

"I am a Guest Elder of Thunder Ancient Country, and the Spirit Guardian Lord of Wanjie Kingdom is also my friend," felt the Wind Wolf Country Master, confident that no matter the changes outside, his position was secure.

Suddenly, an invisible force enveloped him.

Wind Wolf Country Master was shocked and looked around, only to find himself in a dark place with ripples at the edges.

"Mercy—" Before he could utter another word, his Physical Body and spirit had melted, utterly dissolved to become part of the dark realm.

"Wind Wolf Country Master cultivated the Primordial Bloodline, but was still too weak. Next," Morosa muttered with a smile, savoring his Godly King Level food, as a treat that included both flesh and soul was too rare.

And so...

One morsel after another.

Morosa treasured his food dearly, taking his time with each one.

Even Black Vulture Ancestor fell victim to Morosa's consumption.

"How is this possible?" Black Vulture Ancestor was dumbfounded. Inside a hidden palace, this Avatar of his was suddenly swallowed! The Primordial Bloodline he cultivated was toxic, capable of damaging even Ultimate Realm Life Forms.

Yet now there was someone who swallowed him directly?

After being consumed, this Avatar of his vanished instantly, and his other Avatars elsewhere were also destroyed by an invisible Curse Killing, except for the one in Mt. Leiting, which barely survived.

"Last time it was an attack by a Black-Robed being's Spiritual Will, now I've been consumed and cursed?" thought the Black Vulture Ancestor, bitter and aggrieved. This reputed existence was reduced to the point where only by hiding in Mt. Leiting could his Avatar survive.

...

Morosa consumed nine sinful Godly Kings in a row, with only Black Vulture Ancestor escaping death! The other eight Godly Kings, regardless of their survival skills, could not escape the clutches of the Pinnacle Sector Beast.

"What?"

"Eight Godly Kings have died in a row?"

"Two from the Second Realm of Godly King and six from the First

Realm of Godly King? It's unknown if they had a chance to reincarnate."

In the Land of Origin, there were only a few hundred Godly Kings in total. Now, with eight dying one after the other, it certainly made other Godly Kings in Land of Origin tremble, fearing for their lives, worried they might be next!

"It's time for the next step." After consuming some sinful Godly Kings, Morosa chuckled and instantly created 23 Avatars to meet the other Godly Kings lingering in this territory.

Yunlan Country, Royal Capital.

"Godly Kings of the surrounding nations are dying one after another..." The Yunlan Godly King was uneasy when suddenly darkness enveloped the entire Royal Capital, and a figure of a simple old man appeared, looking at her coldly.

Under the influence of his invisible aura, the Yunlan Godly King felt her insignificance!

This old man could probably end her life with a single thought!

Yunlan Godly King felt in the dark that this was the most terrifying existence she had ever seen.

"Supreme." Yunlan Godly King immediately performed a respectful salute, her posture extremely low.

"My master intends to lead the surrounding 729 Primal Chaos Prefectures, naturally including your Yunlan Country." Morosa looked at Yunlan Godly King, "Your sins are light, thus you may live."

Upon hearing this, Yunlan Godly King immediately understood.

Indeed, the eight deceased Godly Kings were ones with heavy sins.

"You have two choices, one, to follow my master's command. Two, to leave swiftly." Morosa looked at Yunlan Godly King.

"May I ask who the Supreme's master is?" Yunlan Godly King asked at

this moment, nervously excited.

She felt that she had come in contact with a truly terrifying existence of the Land of Origin!

This elder was the most powerful being she had ever seen, yet he was but a servant. How terrifying must his master be?

"Not long ago, my master just killed Di Yuan." Morosa said.

Yunlan Godly King, without any hesitation, knelt down respectfully and with utmost reverence, "Yunlan is willing to follow at your side."

Throughout the long history of the Land of Origin, the only one capable of killing the Emperor of the Flame Wind Ancient Country was that mysterious existence! Most importantly... the Flame Wind Ancient Country has yet to retaliate, they actually endured.

"Very well." Morosa nodded.

Similar dialogues were simultaneously happening at 22 other locations.

These Godly Kings, some were in hiding, some harbored ambitions, some were assigned...

But once they encountered Morosa's Avatar, with Morosa's aura merged with the Path of Destruction, such terrifying power made even Godly Kings of the Second Realm feel a shiver in their hearts, devoid of any thoughts of resistance.

Most of these Godly Kings left, and a few chose to pledge allegiance and follow.

Morosa did not forbid the spreading of the news, and those Godly Kings who left soon spread the word.

******

"Black-Robed actually wants to take over 729 Primal Chaos Prefectures?"

"His servant, possibly at the Ultimate Realm?"

These two pieces of news quickly spread, and all forces were waiting for the reactions of the two great Ancient Countries! After all, these 729 Primal Chaos Prefectures were too close to the two great Ancient Countries, and many places were adjacent.

And with such a large territory, it was a direct challenge to the two great Ancient Countries.

Would the two great Ancient Countries allow such a colossal force to appear?

But strangely, the two great Ancient Countries were quiet, showing no signs of action.

...

The 729 Primal Chaos Prefectures were rapidly integrating. At the center of the entire territory, a large city was chosen. Based on it, a wide-scale expansion was being undertaken, to become the future 'Royal Capital'.

"Come with me." Morosa walked in the lead, with nine Godly Kings following by his side.

These nine Godly Kings were the ones who had decided to follow Black-Robed.

The Black-Robed golden-masked powerhouse had a huge conflict with the Flame Wind Ancient Country! Following Black-Robed, there were risks, but likewise, there were huge opportunities!

A moment later.

They arrived deep within the palace, seeing a figure standing there, cloaked in silver robes.

"Silver robes?" The nine Godly Kings were somewhat puzzled.

"Master." Morosa performed a respectful salute.

"We pay respects to the King," the nine Godly Kings also performed respectful salutes.

Luo Feng then turned around, in a suit of silver robes and wearing a golden mask, looking down on them, and said leisurely, "As you all know, I wish to lead the 729 territories and establish a Divine Kingdom. The name of this kingdom will be 'Galaxy'."

"Galaxy Divine Kingdom?"

"Galaxy..."

They were hearing this name for the first time and immediately praised it.

"Congratulations to the King, joyful tidings to the King. From now on, the Galaxy Divine Kingdom shall surely stand shoulder to shoulder with the two great Ancient Countries."

"The two great Ancient Countries are already waning, while our Galaxy Divine Kingdom is on the rise."

The Godly Kings praised while also harboring hopes for their future.

Luo Feng watched this scene.

The naming of the Galaxy Divine Kingdom was just the first step; in the not-too-distant future, Luo Feng would completely reveal his identity.

"Upon the establishment of the Galaxy Divine Kingdom, the powerhouse members of my human clan from my homeland should be able to guess my identity," Luo Feng thought.

"Boom～～～"

With a thought, Luo Feng activated the Star Tower within his body, naturally affecting an endless and vast area.

The current World Life Forms were unable to reflect the elongated strip of the 'Galaxy Divine Kingdom'! But with the assistance of the Star Tower, the Domain's reach could be much broader, enough to

envelop the entire Galaxy Divine Kingdom.

"Whoooosh~~~~"

Above the skies of the 729 Primal Chaos Prefectures faint blood rivers appeared, causing countless creatures to look up in awe. Experience tales with My Virtual Library Empire

"From today on, the Galaxy Divine Kingdom is established."

"The range of the Blood River Domain shall be the range of the Divine Kingdom."

The Endless Blood River resounded with a grand voice, spreading through every corner of the 729 Primal Chaos Prefectures.

Such terrifying power made the ancient beings of the Land of Origin tremble in their hearts!

They also realized...

The third major force of the Land of Origin was born.

Chapter 27 Above God King

On a vast and desolate plain.

A youth gazed into the distance, where the endless Blood River enveloped half of the sky.

"I was killed, yet the Flame Wind Ancient Country did nothing?" The youth's eyes were cold, "Now that the Black-Robed has grown insolent, occupying vast territories and establishing a divine kingdom rivaling the two ancient countries, I want to see if the two ancient countries will continue to tolerate this."

"Emperor Qing, Primogenitor Yan Feng, Thunder Ancestor, can you three really endure this?"

The youth mused silently.

He was none other than Di Yuan, reincarnated!

Knowing he didn't have enough capacity to cultivate into an 'Ultimate Realm Life Form', he wouldn't return to the Flame Wind Royal Family! He knew that there were some in the Royal Family who wished him dead! If he dared return to the Royal Family, his identity... would likely be leaked to that Black-Robed individual soon.

"Emperor Qing and the others might be in seclusion."

"Most of their energy is focused outward, only coming out of seclusion when they rest and relax."

"As for me, my most urgent task now is... to comprehend a complete Great Dao!" the youth thought, "Better to rely on oneself than others!"

His true realm is the Peak of the Second Level of the God King Realm.

Due to consuming countless creatures to aid his cultivation, he had also deciphered five Ultimate Realm Secret Techniques, making him quite exceptional among the emperors of the Flame Wind Ancient Country.

In terms of realm accumulation, he ranks near the top among the emperors.

In the Flame Wind Ancient Country, without relying on the Primordial Bloodline, just by utilizing some Primordial Treasures, it's common to become an 'Ultimate Realm Life Form' with deeper realm accumulation. Di Yuan, Emperor Chu, and Di Jiufeng were such cases.

Under normal circumstances, Di Yuan could dominate the world... until he met Luo Feng, who possessed the Star Tower, and was utterly defeated.

"If I can comprehend more Ultimate Realm Secret Techniques, maybe I can make a breakthrough," the youth stepped forward, vanishing without a trace.

...

The establishment of Galaxy Divine Kingdom has all parties of the Land of Origin watching, waiting for the reaction of the two ancient countries.

Night.

Galaxy Divine Kingdom, Capital.

"Establishing a divine kingdom is easy, but to sustain it stably and stand alongside the two ancient countries is still quite challenging," Luo Feng sat high in a nine-story pavilion, drinking alone, "Given the pride of the two countries' ancestors, whether they can tolerate the existence of 'Galaxy Divine Kingdom' is still hard to say."

"Ha ha, I'm really looking forward to the ancestors of the two countries taking action, to also test my skills' weaknesses," Luo Feng was quite eager to clash with the ancestors of the two countries.

As he delved deeper into the secret patterns of the Star Tower, his Blood River became ever more mysterious and terrifying, yet finding worthy opponents became more difficult.

Not even the combined forces of the Eight Great Emperors are worth mentioning. Thus, the collective forces of all emperors and monarchs are useless too.

Only Emperor Qing, the East Extreme Domain Ancestor, and the two countries' ancestors pose some challenge.

"Master, there is a visitor," Morosa appeared silently beside him.

"I've already noticed."

Luo Feng looked into the distance.

A faint bloody fluctuation swept across as a middle-aged man appeared somewhat disheveled.

"Preparing for establishing a divine kingdom, I was ready for the two ancient countries to take action, always maintaining the domain of the Star Tower, but the first to come turned out to be the Time-Space Demon," Luo Feng shook his head silently.

He never underestimated the two ancient countries, so even the body he sat in... was condensed from the Endless Blood River.

A single thought could unleash devastating power!

With continuous use, Luo Feng also became more adept in operating the Star Tower.

"The King's methods are truly formidable," the disheveled middle-aged man approached with a smile, "That Endless Blood River, containing infinite life mysteries. It can even penetrate through past and future, pervading everything. Even a shadow of mine reflected in time and space couldn't avoid it."

If it were a complete Great Dao of Life, it would indeed resemble a river of life, capable of penetrating past and future.

Luo Feng, being at the Second Realm of God King level in the realm of life, purely managed the 'Star Tower', centralizing on the mysteries of life! While he thoroughly mastered many of its secret patterns, such as creating Eight Branches Techniques, others he didn't fully understand, yet he could still operate them.

The domain he wields has already affected the past and the future, making it hard for any concept of life to escape its permeation.

"I've long heard of the name of the Time-Space Demon," Luo Feng said.

The middle-aged man, looking at the silver-cloaked, gold-faced man before him, could see with his realm that this 'silver-cloaked, gold-faced man' was a terrifying aggregation of energy! Once unleashed, this force could obliterate everything, unmatched within the Source Continent.

"This ruler of the Galaxy, must be on the path of the Great Dao of Life, and has surpassed the God King level," the Time-Space Demon sensed the terrifying nature of this power, "These existences on the pathway of life... become more troublesome as they progress."

As an Enlightened, Time-Space Demon knew well.

In the early stages, the pathway of life excels in preserving life, with weaker killing power. But as it progresses, the path of life becomes more and more 'unpredictable and mysterious'. Because it can target all life forms, fundamentally infiltrating, distorting, and destroying them.

If it doesn't kill you, it can greatly weaken your power. And you still can't kill him!

"What a tough opponent for both Flame Wind and Thunder, encountering a dreadful existence on the pathway of life, already invincible under the power restrictions of the Source Continent," the Time-Space Demon felt some schadenfreude.

The Source Continent, the backyard for Primogenitor Yan Feng and Thunder Ancestor. Most treasures ultimately end up in their hands.

The emergence of the Galaxy ruler, came to snatch their spoils!

His competitiveness far surpasses the three alien clans by a great margin.

"The King should know what we three alien race powerhouses desire the most." The Time-Space Demon said, convinced that this masked ruler of Galaxy should be one of the powerhouses from the Land of Origin.

However, even he couldn't see through the true identity of the Galaxy Ruler now.

"Four kinds of treasures." Luo Feng said.

"Yes, mainly the Special Life Remnants and the Secret Technique left by Yuan." The Time-Space Demon nodded, "I believe with the King's strength, there's a great chance of obtaining such treasures. I am always open for the King to trade with me, and I assure you, the terms I offer will certainly satisfy the King."

In his eyes, the Galaxy Ruler must be beyond the Godly King Level, and the treasures obtained from the Land of Origin were surely extraordinary.

Such a significant client!

"Take a look, what can these five Secret Treasures be exchanged for in your possession?" Luo Feng waved his hand, releasing the five spoils of war he got from Di Yuan: a cloak, an Abyss Pearl, armor, combat boots, gloves.

The Time-Space Demon chuckled upon seeing them, "Are these the Weapon Secret Treasures left by Di Yuan after his death? The Primogenitor Yan Feng is indeed stingy, preparing only early-stage Divine Emperor's treasures for his clan's younger generations."

"Early-stage Divine Emperor Treasures?" Luo Feng felt intrigued.

"Has the Galaxy Ruler not left the Land of Origin yet, knowing nothing about the outside world?" The Time-Space Demon instantly realized upon seeing this.

Luo Feng nodded, "Indeed, I haven't traveled there and know very little."

The Time-Space Demon smiled happily: "From the Ultimate Realm of God King to 'Beyond God King Level,' this step is a qualitative transformation! Once beyond the God King Level, there are no Great Dao for guidance, and everything must be explored in darkness."

"One never knows if the path they find themselves is right or wrong." The Time-Space Demon lamented, "Sometimes, taking the wrong path still elevates one's power. However, reaching a point may lead to many issues and possibly prevent any further advancement."

Luo Feng nodded.

He knew.

At the Third Realm of the Godly King Tier, the Great Dao provides guidance.

"The powerhouses above the God King come from billions of worlds and belong to different factions, naturally addressed differently," The Time-Space Demon explained, "Some are referred to as Divine Emperor Realm, some as Divine Emperor's Realm, others as Witch Ancestor Realm, and some as Dao Lord Realm."

Above God King, one gropes in complete darkness, relying solely on oneself. Hence, in the Special Grade Inheritance, there's a challenge for cultivators to 'create higher realm secret technique in a lower realm,' which prepares them for future exploration in the dark to advance further.

"The powerhouses above the God King come from billions of worlds and belong to different factions, naturally addressed differently," The Time-Space Demon explained, "Some are referred to as Divine Emperor Realm, some as Divine Emperor's Realm, others as Witch Ancestor Realm, and some as Dao Lord Realm."

"Because relying on bloodline cultivation is mainstream! Because it's the simplest, over ninety-nine percent of powerhouses are from the bloodline faction," The Time-Space Demon said, "The bloodline

faction is generally referred to as 'Divine Emperor Realm.' Therefore, that's the most commonly used title."

"The Divine Emperor Realm, divides into four stages: Early Divine Emperor, Middle Divine Emperor, Late Divine Emperor, and Perfect Divine Emperor."

"Like the so-called 'Dao Lord Realm,' it too is divided into First Step Dao Lord, Second Step Dao Lord, Third Step Dao Lord, Fourth Step Dao Lord."

"Different appellations, all divide into four steps."

"Four steps out of darkness! The fourth step is commonly known as the Half Primordial Realm."

The Time-Space Demon didn't mind sharing this common knowledge, "The Half Primordial Realm represents a limit! Only by breaking this limit... can one become a Primordial Life. Like 'Yuan,' he is a very powerful Primordial Life."

Luo Feng understood.

After God King, four steps out of darkness reach the Half Primordial Level? And beyond that is Primordial Life?

"All these Weapon Secret Treasures, their contained mysteries decide the level," The Time-Space Demon continued, "These five Secret Treasures of yours, all early-stage Divine Emperor Treasures are well-made, quite suitable for God Kings."

"To be honest, these Secret Treasures are of little use to me," The Time-Space Demon watched Luo Feng, smiling, "But since it's our first transaction, I'll give the King a hand. I happen to have a late-stage Divine Emperor's life-type Secret Treasure, which might be of some use to the King."

"Let's exchange this armor and this pearl then," said the Time-Space Demon.

"Rest assured, I won't take advantage. Once you leave the Land of Origin, you'll understand... this trade is actually at a loss for me," The

Time-Space Demon said smiling.

Upon hearing this.

Both being early-stage Divine Emperor Treasures, a set of armor is worth much more than gloves, combat boots, or cloaks. Only that Abyss Pearl could compare in value.

The Time-Space Demon obviously chose the two most expensive items.

"Rest assured, I won't take advantage. Once you leave the Land of Origin, you'll understand... this trade is actually at a loss for me," The Time-Space Demon said smiling.

"Alright, I agree to the trade." Luo Feng didn't mince words.

To be honest, he thought little of the five treasures from Di Yuan.

Because the Infinite Space Treasure Vault could also exchange for Secret Treasures, according to those introductions, many treasures could be used up to the Half Primordial Level. For example, the one worth 50,000 Reward Points could weaken all attacks below Half Primordial Life Level by ninety percent.

From those Secret Treasure descriptions, some appeared to be conceptually made, probably casually created by Primordial Life, suitable for Divine Emperor Level usage.

Like the five Secret Treasures used by Di Yuan, they were relatively inferior.

"In the Infinite Space, whether it's inheritances or treasures, the value is extremely high. The only problem is that Reward Points are hard to obtain." Luo Feng thought, "I also need to be very cautious with my Reward Points."

The Time-Space Demon said with a smile, "I will arrange an incarnation to deliver the treasures."

He didn't carry any valuable items with him when he came to meet Luo Feng.

He carefully hid many treasures across vast distances, transporting them to the Land of Origin carefully and only took out some for each trade.

Luo Feng sat there, patiently waiting.

Soon—

Another figure of the Time-Space Demon broke through the air, also bringing the items for the trade.

Chapter 28 Water Drop Flying Boat

```

The two figures of Time-Space Demon merged into one. He smiled and flipped his hand, revealing a drop of blue water, which gradually transformed into the shape of a flying boat: "This is a mysterious late-stage Divine Emperor level escape-type flying boat. In the future, when you leave the Source World, you will encounter many dangers, and it will be of great use then."

Luo Feng reached out to take it.

A drop of blue water fell into his palm.

"Hmm?" Luo Feng's thoughts penetrated, quickly mastering this secret treasure, the droplet naturally transformed into the shape of a flying boat.

"A late-stage Divine Emperor life-type secret treasure?"

Luo Feng had already glimpsed the secret patterns contained within this treasure. Although he could immediately determine that it was far less complex than the Star Tower, at present, he could only activate a mere portion of the Star Tower's potential.

Similarly, he could only activate a very small part of this water droplet.

As power permeated the treasure, Luo Feng felt the heaviness of this droplet, which existed tens of thousands of times more solidly than his own life form. Despite all his effort, he couldn't budge it in the slightest.
```

"I can sense the entire Source World!" With the help of the Water Drop Flying Boat, Luo Feng could sense every part of the Source World, including the three thousand-dimensional spaces of the Primordial Cosmos.

With just a thought, he could reach any place on the Land of Origin.

But the three thousand Primordial Cosmoses were vaguely protected by the Supreme Rules; if he ventured in recklessly, he might face severe consequences.

"The sensing range of this flying boat is extremely broad; within its range, you can arrive with just a thought," Time-Space Demon said, "and it is like a world of life, incomparably heavy, capable of shielding you from many dangers. Especially for you youngsters with weak strength, going outside the Source World without a protective item will easily lead to death."

"Is it very dangerous outside?" Luo Feng inquired.

"Extremely dangerous."

Time-Space Demon said, "Those who can walk out of the Source World are no ordinary strong beings! These strong beings... very few are creatures from the Source World. The vast majority come from other billions of worlds. They can be collectively referred to as 'Cultivators.'"

"Cultivators, with all kinds of array of methods. You just left the Land of Origin and are unaware of many arts, making it easy to fall into a trap," Time-Space Demon said with a smile.

Luo Feng listened intently.

"No matter what, Cultivators are ultimately from the same camp as us," Time-Space Demon said. "Those innate Primordial Life forms are our true enemies."

"They are born outside the Braided Cage and are Primordial Life forms! But the vast majority of them have low intelligence and comprehension, unable to unearth much bloodline power, their strength only at the level of Divine Emperor. These ones with lower

intelligence are called 'Low Level Primordial Life.' These are also opponents for us practitioners," Time-Space Demon said. "As for stronger 'High-Level Primordial Life' and so on, best not to think about it. Meeting them will certainly lead to death, and even hiding an avatar in the homeland Source World may involve death."

"Even the homeland avatar must die?" Luo Feng was horrified. "The Supreme Rules can't shelter them?"

"Nothing is absolute," Time-Space Demon snickered. "The Supreme Rules themselves are hard to ensure!"

"Hard to ensure themselves?" Luo Feng was puzzled.

"The innate Primordial Life clan is very large, with extremely powerful forces, far beyond our Cultivator faction," Time-Space Demon said. "Even Senior Yuan and others are resisting the innate Primordial Life clan. But overall, we are at a disadvantage."

"To my knowledge, there are some Source Worlds that have been devoured by the innate Primordial Life clan," Time-Space Demon lamented.

Luo Feng was shocked: "Some Source Worlds?"

Source Worlds, such gigantic entities led by Supreme Rules, could also be devoured?

"Did you think Yuan left many treasure lands on the Land of Origin for no reason?" Time-Space Demon lightly shook his head. "It's because the entire Cultivator faction is at a disadvantage in the struggle with the innate Primordial Life clan."

"I once saw with my own eyes a gigantic creature invade a world where practitioners gathered; even the Primordial Life from our practitioner side couldn't block it and were ripped to shreds," Time-Space Demon said. "I instantly self-annihilated my avatar to escape death. Among the creatures of that world... very few survived."

Luo Feng listened in bewilderment.

Devour Source Worlds?

A gigantic creature invades a world, even the practitioners' Primordial Life couldn't block and were shredded?

Compared to this level, indeed, he was too weak.

"Outside the Source World, it's very cruel," Time-Space Demon said, seeing Luo Feng's expression. "I also have to grasp every opportunity to break through and teleport to various Source Worlds, hoping to gain more chances to advance further on the cultivation path."

Time-Space Demon looked at Luo Feng, seeing him as a kindred spirit.

Countless kindred spirits continue forward in darkness.

Even those like 'Yuan' standing at the highest, also arduously resist greater forces.

...

Time-Space Demon left, and the Two Realms Palace Master and Wanfa Tower Master also visited Luo Feng! Clearly believing that with Luo Feng's strength, he should obtain special life remnants and secret skill techniques.

Luo Feng attempted to sell the other three divine emperor secret treasures left by Di Yuan – cloak, combat boots, and gloves. But these early-stage Divine Emperor treasures were not appreciated by the Two Realms Palace Master and Wanfa Tower Master.

"Time-Space Demon was right; among the cheap items, only the armor and beads have higher value."

Luo Feng also learned about information outside the Source World from the Two Realms Palace Master and Wanfa Tower Master, neither of whom concealed anything, voluntarily sharing a lot.

The more he learned, the heavier Luo Feng's heart became.

"The Source World is a cradle, sheltering Source Life forms."

"Outside, it's a place of darkness."

"Currently, I'm not even at the Ultimate Realm, still too weak," Luo Feng's once unyielding pride in having invincible power on the Land of Origin had dissipated, but he was also aware of both his shortcomings and strengths.

The shortcoming was a rather low realm, merely the Second Realm of Godly King.

The strength was the 'Great Dao of Life and Death,' as a Fusion Dao, evidently extremely formidable. It was a path far surpassing others at the same level. And he also had the 'Star Tower' to comprehend.

...

The Galaxy Divine Kingdom, nearly as significant as the two ancient countries, naturally attracted some enemies of the two ancient countries to seek refuge actively.

"Ruler."

Emperor Gui Xu's eyes were red with reverence. "In my previous life, I was Li He God King, holding a blood sea vendetta with Di Yan, Di Xi, Di Wu of the Flame Wind Ancient Country. My wife, three sons, two daughters, and all my clan were slaughtered by those three Emperors. After reincarnation, I have always wanted revenge. However, I have only targeted the three lines of Di Yan, Di Xi, Di Wu, without affecting others."

Luo Feng, in his silver robe and golden mask, sat on the throne, looking below, nodding slightly: "I have heard of the matters of Li He God King."

Emperor Gui Xu respectfully said: "I sincerely follow the Ruler, and ask for the Ruler's acceptance."

Revenge, too difficult indeed.

Those that could be killed, had long been killed. The remaining are too hard to deal with. Di Yan, Di Xi, Di Wu... only made Emperor Gui Xu see no hope.

Upon hearing that the Galaxy Ruler killed Di Yuan, he decided to

align himself.

"I like those who value sentiment and justice, not the despicable," Luo Feng said, overlooking below. "Gui Xu, from today, you are a member of my Galaxy Divine Country."

"Yes," Emperor Gui Xu responded respectfully.

"Emperor Gui Xu, come with me." Moli on the side said. Now Moli was the steward of the entire Galaxy Divine Country, with enough power to manage these arrogant powerful Godly Kings.

Watching Gui Xu leave, Luo Feng found it amusing.

"In the future, when I reveal my identity, I wonder what Brother Gui Xu will think." Luo Feng mused.

Gui Xu had a blood sea vendetta with Di Yan and the three Emperors, and Luo Feng also supported his revenge!

The Emperors of the Flame Wind Ancient Country, the Monarchs of the Thunder Ancient Country… there were some Luo Feng admired and others he disliked, as well as a few who made him feel murderous intent.

"Recently, God's Kings under me have been increasing," Luo Feng pondered.

Recently joined Godly Kings numbered sixteen, among them, Luo Feng familiar with two — Emperor Gui Xu and the Cloud Sky God King!

Cloud Sky God King was the only female Godly King in the Reincarnation Tower, and this time she joined the Galaxy Divine Country with her Daoist partner! Since forming enmity with the Thunder Ancient Country, the Cloud Sky God King had been fleeing outside, never revealing her Daoist partner!

This time, the two Daoist couples could finally live openly together.

...

Flame Wind Ancient Country, Qingdu.

Emperor Qing Palace.

"Galaxy Divine Country, having established for a period, I believe the Three Alien Clans have also visited this ruler. He should also be well-informed about outside the Source World," Emperor Qing gazed outside. "It's time to meet this Galaxy Ruler."

He stood there, and with just a thought, an invisible power traversed distant space, already reaching the capital of the Galaxy Divine Country.

"Hmm?"

In the capital, inside the palace.

Luo Feng and Moli simultaneously looked to the outside, both perceiving a terrifying power remotely transmitted, already reaching the limit of Origin Continent's might! Yet no great disturbance was caused, the heavens and earth remained peaceful.

Immense yet restrained!

"Master, he feels terrifying. I am far from being his match." Moli felt his heart tremble; in front of this dreadful power, he could not hold long and would soon face death.

"It's an existence above Godly King," Luo Feng said.

The Three Alien Clans, after all, come from the outside, their power suppressed to the limit of Primal Chaos Realm! So Luo Feng handled them easily.

But this existence at present...

Luo Feng had to be cautious.

"What friend is this, I wonder," Luo Feng initiated a thought, faintly scarlet waves appearing around the capital, blocking that enormous invisible power.

"Emperor Qing, greeting the Galaxy Ruler." A clear, cold voice resonated.

A blue-clothed man appeared within the capital, then, with a single step, reached the front of the palace's main gate.

He had not directly descended inside the palace but stood outside the main gate, symbolizing goodwill.

"Emperor Qing's visit is an honor for the Galaxy Divine Country," Luo Feng's voice echoed, the palace's main gate opening wide.

Emperor Qing stepped inside.

Just two steps.

Emperor Qing reached a nine-story tower within the palace, where Luo Feng had already set a banquet, and Moli stood by serving.

"Finally, I get to meet the Galaxy Ruler today," Emperor Qing smiled as he approached, suddenly astonished looking at Moli on the side, "Who is this old servant?" He had many observation methods in operation in his view, the Galaxy Ruler is an incarnate of a terrifying blood river, with weight and grandeur. But this old servant was like an abyss, hard to fathom.

He couldn't see through the Galaxy Ruler, but surprisingly couldn't see through this old servant either.

"It's my Sector Beast," Luo Feng replied.

Emperor Qing smiled: "I was wondering how the Origin Continent simultaneously sees the rise of two strong presences. It turns out this old servant is a Sector Beast. The Galaxy Ruler is truly extraordinary, able to cultivate a Sector Beast."

At Emperor Qing's level, naturally, he didn't mind a Sector Beast.

Sector Beasts can't break the fate limit, forever just within the Ultimate Realm!

Thanks to the new Alliance Hierarch 'Red Alliance Green Emperor' and 'God Dynasty_Night Cat kull' for their reward! Also, thanks to the old Alliance Leader 'Mao Ben' and 'Venerable Xu Xin' for the repeated reward!

```
```

Chapter 29 Emperor Qing's Invitation

Luo Feng was observing Emperor Qing, and through the domain formed by the Star Tower, he could sense the sharpness contained within Emperor Qing. Even his own Endless Blood River was not certain to withstand that terrifying sharpness.

"Not unworthy of being the only one Above God King in the Land of Origin of this era." Luo Feng thought silently.

The ancestors of the two countries and the Ancestor of the East Extreme Domain do not belong to this era.

"His talent is a cut above the rest, far surpassing other Cultivators." Luo Feng understood this. Not counting himself, Emperor Qing was the most terrifying of his contemporaries, followed by the Ultimate Realm Lord of Ten Thousand Realms, and then by Emperor Fu, Emperor Ming, Wind City Empress, Fire Ancestor, and so on.

Emperor Qing only had eyes for Luo Feng, not caring about the Sector Beast at all.

Because the minimum threshold for teleporting away from the Source World is an 'Ultimate Realm Life Form.' Outside of the Source World, there's a convergence of elites from many Source Worlds and countless other worlds. In that place, being at the Ultimate Realm is only the basic level, so he naturally didn't care about a Sector Beast.

"I originally thought that in our era of the Land of Origin, only I and the Lord of Ten Thousand Realms emerged." Emperor Qing's eyes were enthusiastic, "Who would have expected that as the Land of Origin gradually entered its twilight, the Galaxy Ruler appeared. Haha, it truly is a joyous occasion."

Being from the same Land of Origin, they were obviously the most suitable companions in life and death.

Having a trustworthy companion during adventures in the outside world is too precious!

"If you don't mind, I would like to call you Galaxy Brother." Emperor Qing smiled as he looked at Luo Feng.

"Of course that's okay." Luo Feng said. The thirteen Emperors of the Flame Wind Ancient Country all have different ways of doing things! Emperor Qing belongs to the most dazzling kind, with exceptional talent, outstanding above all! He disdains Primordial Bloodline, disdains devouring creatures, and other devious paths; by just comprehending the operations of the Heaven and Earth Rules, he naturally became an Ultimate Realm being.

Even while cultivating within the Land of Origin, he broke through the Ultimate Realm and reached Above God King!

It was indeed the case that resources helped him reach this point.

But other Emperors and Monarchs of the two great Imperial Clans, with similar vast resources, have not even produced one Ultimate Realm being! This shows just how terrifying Emperor Qing's talent is.

"As for Emperor Yuan's matter, it was his own fault." Emperor Qing didn't care, "His greedy nature, repeatedly devouring countless creatures, has caused a lot of trouble! Such a troublemaker and waste, according to my personality, should have been killed long ago. But the rules of the Flame Wind Ancient Country Royal Family were set by the Ancestor, and I couldn't readily change them."

Luo Feng listened with some surprise. Emperor Qing did not come to pick a quarrel but instead thought Emperor Yuan deserved to die?

"The Ancestor was lenient, believing that the Great Dao is immeasurable and need not be overly constrained." Emperor Qing shook his head with a smile, "Let's not talk about that. I came today also to invite Galaxy Brother to leave the Land of Origin and join me in adventures outside."

"Invite me, to join forces?" Luo Feng was a little surprised.

"In the outside adventures, dangers are everywhere." Emperor Qing looked at Luo Feng, "Alien races are not reliable and can betray at any time. You and I are both from the Land of Origin, even if we move on to the next era of the Land of Origin... We will still have Avatars staying in the Land of Origin, destined to coexist for endless eons, so naturally, we are the most trustworthy."

"Like Primogenitor Yan Feng and Thunder Ancestor, they have been lifelong companions through endless eons, supporting each other, and only then did they reach today." Emperor Qing looked at Luo Feng, "I really need a companion who is trustworthy and also has enough strength."

"I heard that teleporting away from the Land of Origin will lead to different places?" Luo Feng said, "It's not certain that I can meet up with you, Emperor Qing, right?"

"I have the Primordial Space Coordinates, which can lock onto the destination. I can send out an Avatar to teleport with you, so we can teleport to the world where I am." Emperor Qing said, "When I first teleported, it was to this world, where I have rooted myself for many long years, and I have established some foundations. Joining forces with me, your start will certainly be much smoother."

Luo Feng was quite tempted upon hearing this.

But he himself was not even an Ultimate Realm Life Form yet! Not qualified to leave the Land of Origin.

"The Land of Origin is too small for both of us." Emperor Qing urged passionately, "Outside the Source World! There are strong beings from a multitude of other Source Worlds and countless other worlds... That's where we should be going."

Discover stories at My Virtual Library Empire

"I am currently cultivating a Secret Technique." Luo Feng thought for a moment and then said, "I'll wait until this Secret Technique is mastered before heading outside the Land of Origin."

"Cultivating a Secret Technique?" Emperor Qing asked, "How long will that take?"

At their level of cultivation, if they devoted themselves to cultivating a powerful Secret Technique, it would be quite normal to take hundreds of thousands or even millions of eons.

"About a thousand eons," Luo Feng said.

Luo Feng received three kinds of Ultimate Realm Primordial Bloodline Biological Materials and naturally wanted to elevate the World Life Form to an even higher level! Those Ultimate Realm Primordial Bloodline Creatures, despite their low intelligence, have such strength. If Luo Feng succeeds, by relying solely on his Physical Body he may well match those Above God King!

Coupled with a deeper accumulation of the Great Dao of Life and Death, Luo Feng felt that by then, he could try to venture outside the Source World to gain some insight.

The most crucial point is... to pass through the teleportation channel, you must at least be an Ultimate Realm Life Form! This is the threshold set by the Universe.

"Only about a thousand eons?" Upon hearing this, Emperor Qing laughed, "No rush, no rush. Galaxy Brother, cultivate well and perfect your Secret Technique, and then we can set off together."

Luo Feng nodded.

According to the intelligence on Emperor Qing and from their current interaction, Luo Feng found that Emperor Qing was suitable to be a companion.

Most importantly, both sides are from the Land of Origin! In the future, they would have to coexist in the Land of Origin for a long time, and they also had to consider their friends and disciples. Coming from the same Source World, the possibility of betrayal was extremely low.

"If Galaxy Brother doesn't mind, shall we spar a bit?" Emperor Qing looked at Luo Feng, "Our confrontation will also show the forces of

the Land of Origin that they dare not make enemies with Galaxy Brother again."

"Spar? Sure." Luo Feng was also quite looking forward to it.

"Good, then let's go outside the continent, into the Universe Ocean," Emperor Qing said. "That way, we won't involve the innocent."

Luo Feng nodded.

Whoosh! Whoosh!

They came one after another, traversing the vast and remote distances to arrive outside the land of the Land of Origin, within the 'Universe Ocean'.

This vast expanse of the Universe Ocean, close to the Land of Origin, was already devoid of any creatures.

"Please." Emperor Qing said with a smile, he who had traveled and battled in the outside world, encountering countless strong beings from different realms. Under the power constraints of the Land of Origin, Emperor Qing naturally felt no pressure.

He was now merely curious about the strength of this 'future companion'. He only wished for his companion to be as strong as possible!

Luo Feng stood there.

"Be careful." Luo Feng brimmed with fighting spirit, such an opponent was rare indeed. With a single thought, his form instantly transformed into an Endless Blood River, which roiling and spread to an infinite expanse in a flash.

The scope of the Blood River enveloped its own realm! The Blood River's length and width had no end; those without sufficient strength would never be able to fly out of its bounds.

"Break!"

Emperor Qing stood still, yet from him radiated terrifying sword

lights that cut in all directions.

These sword lights were condensed to the extreme, cutting through all obstacles, even severing the operating rules! Even though Luo Feng's Endless Blood River was thick, each current like a world of its own, it was still being cut through by these sword lights.

Nineteen sword lights that could cut through All Things Even managed to slice open the obstructions of the Blood River realm, reaching the adjacent Universe Ocean.

"Boom～～～" The Universe Ocean was struck, creating void chasms, and even the membrane of the Source World had long cracks.

The might of these nineteen terrifying sword lights, unobscured and flagrant, instantly alarmed every Godly King in the Land of Origin.

"This—"

"This power?"

Every Godly King in the Land of Origin felt a heart palpitating sense of power, that could easily annihilate them, bursting forth at the edge of the continent, within a part of the Universe Ocean. Instantly, they each tried to pry into the scene.

The powerful Godly Kings could cast Secret Techniques to watch from afar.

The weaker Godly Kings needed to use the images from the Flame Wind Pavilion and Thunderclap Commerce to peer into the scene.

"The Galaxy Ruler and Emperor Qing have clashed."

"Is Emperor Qing stepping up for the Flame Wind Ancient Country? Is he avenging Di Yuan?"

Various powers were stirred up.

"Emperor Qing has made his move." Di Yan, Di Kong, Di Wu, and other monarchs were very excited; they had full confidence in Emperor Qing.

"Emperor Qing once said that he could do nothing against the Galaxy Ruler, so why would he still make a move?" Di Fu watched the scene from afar.

...

"Luo Feng!" Among the many Godly Kings watching, there was also the Mountain sitting guest.

The Mountain sitting guest had long known the identity of the black-robed golden-faced figure.

"Luo Feng's strength could easily suppress the combined forces of eight monarchs. I wonder how he will fare against Emperor Qing?" Although Mountain sitting guest was somewhat nervous, he still had confidence in his disciple.

This disciple of his, with such exceptional talent, was even above Emperor Qing and the Lord of Ten Thousand Realms.

Merely hundreds of age-cycles upon arrival at the Land of Origin, he had grown so much! How terrifying was this talent and potential?

...

Within the Universe Ocean near the land.

Luo Feng could naturally sense the gazes of numerous Godly Kings watching from afar; he also understood Emperor Qing's approach—to make a bigger scene, to make the various powers truly understand the strength of the 'Galaxy Ruler'.

"If you have strength, you must let them witness." Emperor Qing stood there, "Once they see it clearly, they will become very obedient!"

Outside the Endless Blood River stood no less than nineteen sword lights, naturally forming a massive Sword Array!

"Brother Emperor Qing's Sword Array is indeed formidable, able to effortlessly tear through my Blood River," Luo Feng remarked.

"Water flow fears not being torn asunder." Emperor Qing laughed, "I have struck nineteen swords, yet your Endless Blood River hasn't weakened in the slightest. But next, I shall get serious."

"This Sword Array, named 'Three Thousand Kill Array', draws from the core mysteries of an ancient Witch Array, integrated into one. Although it is restricted by the Supreme Rules, its power is limited. However, its profound mysteries can be fully displayed," Emperor Qing said smilingly, "Please receive my strike."

Upon finishing his words.

The immense Sword Array suddenly erupted with light, countless sword lights converged and rotated, turning the entire formation into black and white hues, seeking to annihilate the entire Blood River.

Yet the Endless Blood River was immensely thick; despite the black and white sword lights' efforts to rend it asunder, tendrils of blood infiltrated the sword lights, causing them to collapse.

"A Dao of Life Blood River?" Emperor Qing determined in an instant, "Each strand of the Blood River's life force is terrifyingly powerful, once contaminated, it can even corrode and destroy my sword lights."

Chapter 30 Star Tower, Out!

Emperor Qing stood there, naturally gathering endless sword light into his body, he himself seemed to be a sword, and even the vast Blood River could not erode him the slightest bit.

"Three Thousand Kill Array—Heavenly Pillar Realm!" With a single thought from Emperor Qing, the Sword Array transformed immediately. Amidst the Endless Blood River, pillars of sword light converged and towered into the sky. Each Heavenly Pillar was immensely majestic, infinitely tall, naturally supporting a vast world.

"Thirty-six Heavenly Pillars?" Luo Feng looked at the scene in front of him in amazement.

In this vast world, with thirty-six Heavenly Pillars supporting the sky, the torrential and heavy Endless Blood River was completely trapped.

"Brother Galaxy, these are the thirty-six Heavenly Pillars I have comprehended from the Heavenly Pillar Realm, a slight glimpse of understanding integrated into the Formation," Emperor Qing said with a smile, "What do you think of its power?"

"Using thirty-six Heavenly Pillars as the foundation, propping up a world, this world's Sword Array is indeed extraordinary," Luo Feng felt the endless murderous intent contained within the thirty-six pillars of sword light and laughed, "However, my Blood River is not that simple!"

"Rise!"

Luo Feng's vast Spiritual Will merged with the entire Endless Blood River.

In this moment, the entire Endless Blood River was like a giant python, and with a fierce swish of its tail, the entire river lashed at

one of the pillars of sword light.

"Boom~~~" At that instant, the sword light pillar trembled violently, numerous cracks appearing.

"Such profound mystery hidden within this Blood River?" Emperor Qing was secretly shocked, the seemingly simple lash of the Blood River's tail actually carried an incessant onslaught of an endless might, not simply an outburst of power from Land of Origin!

It was a continuous outburst of power, either with a sharp cutting force, a soft penetrating force, or the most basic crumble... a continuous unleashing of maximal power, coupled with different profound mysteries. Just by one lash, the Heavenly Pillar already showed cracks.

"Boom boom boom." The vast Blood River, like a serpent, rolled and lashed wildly, causing the sword light Heavenly Pillars to begin to topple, utterly unable to hold steady.

...

"What might is this?"

"Is this the strength of Emperor Qing and Galaxy Ruler?"

The other Godly Kings from Land of Origin watched from afar, including emperor levels from Flame Wind Ancient Country and Monarchs from Thunder Ancient Country, all feeling suffocated! Those infinitely tall pillars of sword light, that vast and unparalleled Blood River, were forces they could not resist.

"This is the power Above God King level!"

"Emperor Qing and Galaxy Ruler are too terrifying!"

These Godly Kings shuddered.

The Sector Beast from Tianmu Kingdom also watched from afar: "No matter how hard I cultivate, I can't break the bottleneck. I reached the Ultimate Realm by eating and drinking, but I am forever trapped in the Ultimate Realm. Compared to these two, I'm far behind!"

From the beginning, it hadn't relied on its own comprehension for cultivation, suddenly having to rely on itself to advance 'from Ultimate to Above God King' was naturally highly improbable.

"Above God King?" Lord of Ten Thousand Realms was also watching from afar, "On the basis of a complete Great Dao, drawing upon other mysteries, integrating them into one's own Dao, taking the Dao one step further! But this step is too difficult."

A complete Dao is already perfect.

Integrating other mysteries often becomes gilding the lily! The power does not increase but decreases instead.

Lord of Ten Thousand Realms was indeed able to integrate some mysteries into his Dao, the power could increase slightly, but it was clearly not a qualitative change!

"Perhaps I should leave the Land of Origin and take a look at other worlds," the Lord of Ten Thousand Realms thought.

Before, the only one stronger than him was Emperor Qing, but now there was another Galaxy Ruler.

The Lord of Ten Thousand Realms developed a desire to venture forth.

...

Emperor Qing watched the vast and torrential Blood River, roaring wildly, sweeping everything aside, even his own thirty-six Heavenly Pillars of sword light collapsed one after another, unable to resist this fearsome might, he couldn't help but smile, "Brother Galaxy, your Blood River indeed has extraordinary power, so I will display the strongest form of this Three Thousand Kill Array—Three Thousand Worlds!"

As soon as he spoke.

Billions of sword lights appeared, full of endless mysteries, naturally forming a grand formation.

"Hm?" Luo Feng's expression changed slightly.

Within a vast expanse, a world of chirping birds and fragrant flowers appeared, with endless land, skies, and mountains rising and falling, even some ordinary life was being born.

"Life is being born?" Luo Feng was shocked.

"Three Thousand Worlds can evolve everything in the world. Although it is far from the operation of the Supreme Rules, it's also considered a slight glimpse of understanding," Emperor Qing appeared in this world, smiling at Luo Feng.

Within this world, the Endless Blood River almost spanned half of the world, but it was suppressed by invisible rules, the whole world's power was suppressing the Blood River, making the tumultuous river struggle.

The entire world's power was suppressing this Blood River.

Hiss hiss hiss~~~

Within the Blood River, sword lights flickered, annihilating strands of the river's power. Yet the Blood River was filled with endless vitality, as one strand of power was annihilated, another would naturally recover.

"Within this Endless Blood River, every movement is strenuous, I am completely suppressed," Luo Feng was shocked; this was the Endless Blood River driven by the Secret Patterns within the Star Tower, yet it was suppressed.

"Brother Luo He, your Blood River is indeed profound, and in terms of realm, it is also at the early stage of Divine Emperor," said Emperor Qing, "Within the power limits of Land of Origin, although I can have a slight advantage, I cannot harm you in the least."

The Blood River that spanned most of the world thrived with terrifying vitality.

"Unexpectedly, within the Land of Origin, I have been suppressed," Luo Feng laughed, "Brother Emperor Qing, I shall give my all! You

should also bring out your Secret Treasure!"

"Give your all?" Emperor Qing was momentarily stunned.

"Come forth!"

Luo Feng stood amidst the Endless Blood River and shouted.

Suddenly, within the Endless Blood River, a dark and deep nine-story tower began to emerge.

```

"Boom~~~~" As this nine-story tower appeared, the surrounding three thousand worlds began to tremble, and countless cracks emerged. The earth, mountains, sky…everything was shattering.

Before, Luo Feng faced his enemies simply by driving the Star Tower's Secret Patterns to control his Physical Body into transforming into the Blood River.

Now, he truly controls the Star Tower itself to confront his adversaries!

"This power?" Emperor Qing's expression changed; upon the appearance of this nine-story tower, it naturally eroded the Three Thousand Worlds, which then started to disintegrate.

"This is no ordinary Secret Treasure." Emperor Qing sensed the terrifying aspect of this treasure.

As the Star Tower emerged, it grew larger and larger!

Vast! Majestic!

As it grew upon appearing, it naturally caused the collapse of the Three Thousand Worlds, and it continued to grow, crushing all around! Emperor Qing's Three Thousand Kill Array could no longer be executed.

"This..."
```

Emperor Qing looked up at the nine-story tower with palpitations, "This Secret Treasure must be one forged by Primordial Life. Within the Land of Origin, the Infinite Space is where one could most easily obtain such treasures."

Even though they are both 'Beyond God King Level' Secret Treasures, the ones the Divine Emperors like him forged and the ones Senior Yuan and company casually produced have a great disparity.

Senior Yuan and the others had already stepped out of the Braided Cage. Even a casual creation by them could achieve effects of Supreme Rules. For instance, reducing all attacks from beings below Primordial Life by ninety percent, including soul attacks and all other types.

Such 'rule-based' effects are beyond what Divine Emperors could forge.

At this moment, Emperor Qing also felt a sense of supremacy in the rules from the Star Tower, entirely unlike the Secret Treasures forged by ordinary Divine Emperors.

At this instant—

Various powers on the Land of Origin watched this scene from afar.

The nine-story tower appeared! Its might had already reached the limits of the Land of Origin! And there was also a terrifying rule-based erosion, making those who merely witnessed it feel innate fear and despair.

"What a treasure." All three Alien Clans, seeing it, grew covetous and greedy, "It might be a Secret Treasure refined by Yuan."

"Pity it's within the Land of Origin."

"Within the Land of Origin, nobody can snatch it."

The Three Alien Clans also realized this.

Meanwhile, the other powerhouses on the Land of Origin were completely shocked.

"The power of the Galaxy Ruler is actually capable of suppressing Emperor Qing?"

"How can this nine-story tower be so terrifying?" Emperors and Monarchs all felt their hearts tremble, "Turns out he didn't exert his full strength when he killed Di Yuan! With this tower, his strength is far too fearsome!"

...

"Galaxy brother, hurry up and retrieve the Secret Treasure." Already taking distance, Emperor Qing spoke out immediately.

Instantly, the Star Tower merged into the Endless Blood River and disappeared from sight.

The Endless Blood River then converged into the form of Luo Feng.

After sparring with Emperor Qing, Luo Feng confirmed... Emperor Qing could not even scratch his Blood River, and only then did Luo Feng publicly display the Star Tower!

There are too few on the Land of Origin worthy of wielding the Star Tower against! Luo Feng also itched for a challenge!

Emperor Qing stepped closer to Luo Feng and smiled, "With such a talent, Galaxy brother, it is only natural for you to possess a powerful Secret Treasure left by Senior Yuan. I, too, once received a Secret Treasure from Senior Yuan, but I have taken it to the outside world."

"Galaxy brother, be cautious when you bring this nine-story tower to the outside world in the future," Emperor Qing reminded, "It can easily become a target for strong individuals of the Alien race."

"Aren't you afraid of it being stolen?" Luo Feng asked.

"Ha ha, just be careful," Emperor Qing said, "There are quite a few Secret Treasures casually refined by Senior Yuan, such as those that can be exchanged within the Infinite Space! Places like the Heavenly Pillar Realm and other valuable sites might occasionally see the emergence of Secret Treasures."

Luo Feng understood.

Emperor Qing... considered his Star Tower as one of those that could be exchanged within the Infinite Space.

"The Secret Treasures exchanged in the Infinite Space are all refined by Primordial Life, and some might even be personally crafted by Senior Yuan," Emperor Qing said, "Of course, their value varies, with the highly valued costing over a hundred thousand Reward Points, and the ordinary ones around twenty to thirty thousand Reward Points."

"A Secret Treasure worth over a hundred thousand Reward Points, each one would drive the Divine Emperors mad," Emperor Qing exclaimed, "The ones worth twenty to thirty thousand Reward Points are much more common."

Luo Feng nodded.

Those few treasures in the Infinite Space worth one hundred thousand points each could all aid in 'stepping out of the Braided Cage.' Stay tuned for updates on My Virtual Library Empire

He had never exchanged a Secret Treasure before, so he wasn't clear on the differences between those of the Infinite Space and the Star Tower.

"The Star Tower is not so important to me for combat, but rather for aiding in my Cultivation," Luo Feng understood this point well. Comprehending the Star Tower Secret Patterns greatly benefited his Cultivation along the Life and Death Path.

Thus, even if he ventured outside the Source World, Luo Feng had no plans to take the Star Tower with him!

As long as the Star Tower remained in the Land of Origin, then no one would think of stealing it!

"Brother Emperor Qing, has any Cultivator exchanged for a Secret Treasure worth over a hundred thousand Reward Points?" Luo Feng inquired.

"None from our Land of Origin, but there are from other Source Worlds!" Emperor Qing smiled and said, "Senior Yuan has left the Infinite Space in many Source Worlds. It is commonly acknowledged that one hundred thousand Reward Points is a threshold; every treasure reaching this threshold is invaluable, even potentially helping in stepping out of the Braided Cage. Sadly, reaching a hundred thousand Reward Points is too difficult."

Luo Feng agreed.

Indeed, it was difficult.

He himself also received one hundred thousand Reward Points when his Spiritual Will broke through. But one can't possibly exchange all the Reward Points for just one treasure. The offers like the Special Grade Inheritance and Perfection Level Inheritance in the Infinite Space Treasure Vault are also very attractive! The scarcity of a Secret Treasure worth at least one hundred thousand Reward Points can be imagined.

```
```

Chapter 31 Universal Currency

"Even a Secret Treasure worth tens of thousands of Reward Points is quite good," Emperor Qing said with a smile, "By the way, those few Secret Treasures left by Emperor Yuan after his death, are they difficult to sell?"

"It is indeed difficult to sell; I barely managed to sell two out of the five," Luo Feng said with a wave of his hand, the remaining red cloak, combat boots, and gloves—these three Secret Treasures—appeared.

"Sold the two more valuable ones, and the remaining three are the most ordinary," Emperor Qing observed, "Three early-stage Divine Emperor Secret Treasures, how about this, my Flame Wind Ancient Country will buy them back, for a total of ten thousand Primordial Crystals."

One Primordial Crystal exchanges for a million Merit Points at the guest elder level of the two great Ancient Countries.

Ten thousand Primordial Crystals amount to ten billion Merit Points!

This is a massive amount of merit that even common Second Realm Godly Kings would look up to, and even Emperors and Monarchs would find it extremely difficult to amass such a grand amount.

"Alright," Luo Feng nodded with a smile.

With a swoosh, Emperor Qing waved his hand, and a pile of dazzling Primordial Crystals floated to the side.

Luo Feng's eyes lit up; each Primordial Crystal about the size of a fingertip, each round and emitting a natural aura that made Luo Feng have an urge to absorb them.

"Primordial Crystals are the Universal Currency beyond the Source World," Emperor Qing explained, "They are refined from the essence of endless Primordial Force by Primordial Life that has escaped the Braided Cage. Each is made so small to facilitate our transactions."

Luo Feng waved his hand and collected the stack of Primordial Crystals, but left three in his hand to feel them carefully.

"Primordial Crystals are beneficial for cultivation for all life within the Braided Cage," Emperor Qing said.

"Universal Currency?" Luo Feng understood as he carefully examined the three Primordial Crystals in his palm.

"Absorbing them is beneficial for cultivation. But moderation is necessary," Emperor Qing said, "With early-stage Divine Emperor strength, no more than 100 crystals should be absorbed per epoch. If the number absorbed is too large, the effect will diminish, and it might even become completely ineffective."

"Each Cultivator has different physical and soul strengths, so the optimal quota also varies. This requires you to slowly explore during your cultivation."

"In any case, once the effect starts to decline, you must immediately reduce the quantity," Emperor Qing advised, "As long as you maintain a lower quantity, the effect of the Primordial Crystals will always be good. Until you escape the Braided Cage, you can keep using them."

Luo Feng exclaimed in admiration, "Indeed magical."

Primordial Crystals can be used by ordinary guest elders of the two great Ancient Countries! Even Divine Emperors can use them… Indeed, it is a very versatile treasure.

"Brother Galaxy, if the Secret Technique is created and everything is ready, notify me anytime," Emperor Qing handed Luo Feng a token, "When the time comes, crush the token, and I will sense it immediately."

Other Emperors of the Flame Wind Ancient Country also have only transmission tokens to contact Emperor Qing, and Emperor Qing does

not check them when he is in seclusion.

But this token to Luo Feng, Emperor Qing will sense immediately.

"Alright, once everything is prepared, and when it's time to leave the Land of Origin, I will definitely notify Brother Emperor Qing," Luo Feng happily promised.

Emperor Qing smiled and nodded, then immediately stepped away and left.

…

In the Flame Wind Ancient Country, Qingdu, Emperor Qing Palace.

Emperor Di Fu, Emperor Di Yan, Emperor Di Jiufeng, Emperor Di Chu, and a total of eleven Emperors, either their True Bodies or Forms, had already gathered here.

"Emperor Qing and the Galaxy Ruler's battle, the Galaxy Ruler finally released a nine-story tower, defeating Emperor Qing?" These Emperors were somewhat anxious; the greatest confidence of the Flame Wind Ancient Country has always been the Primogenitor Yan Feng and Emperor Qing.

In the Land of Origin, due to the limitations on power, the difference between Emperor Qing and Primogenitor Yan Feng is not that big.

With a sigh, Emperor Qing appeared on the throne inside the great hall.

"Emperor Qing." All eleven Emperors turned to look at Emperor Qing.

Emperor Qing looked at his kin, frowned and shook his head: "This Galaxy Ruler is extremely powerful! He also possesses a very powerful Secret Treasure. With that tower-type treasure, I couldn't defeat him."

The eleven Emperors were bewildered.

Emperor Qing couldn't defeat him?

"The power limitations of the Land of Origin, even if the Ancestor made a move, he would need powerful Secret Treasures to suppress the Galaxy Ruler," Emperor Qing shook his head, "To suppress him, yet also unable to injure him."

"The foundation of this Galaxy Ruler is established!" Emperor Qing gently shook his head then disappeared.

Leaving the eleven Emperors looking at each other in dismay.

"The Ancestor made a move, with the aid of a Secret Treasure, yet couldn't injure this Galaxy Ruler?" Emperor Di Yan felt disheartened.

Emperor Di Fu sighed, "We Emperors, are also helpless against the Thunder Ancestor or the East Extreme Domain Ancestor. Now there's just one more Galaxy Ruler, that's all!"

"It seems, the vengeance for Emperor Yuan, can only be endured," Emperor Di Kong lamented from the side.

"Emperor Di Kong, don't take pleasure in the misfortune," Emperor Di Yan rebuked from the side.

"I'm speaking the truth, do you dare to take revenge?" Emperor Di Kong sneered, and with a step, he too had left.

"They're leaving, another Ancestor-level existence," Emperor Di Chu, Emperor Di Jiufeng, and others also departed one after another.

Emperor Di Fu, however, was quite troubled.

He chose the other! But... the other must see value in him, Emperor Di Fu! With such a huge difference in strength, the Galaxy Ruler probably wouldn't care about him.

"In cultivation, after all, it depends on oneself. One must be strong enough," Emperor Di Fu thought to himself, "I must find a way to reach the Ultimate Realm."

"This Galaxy Ruler is so strong, with a Secret Treasure in hand, he can even suppress Emperor Qing. Is he really Luo He?" Emperor Di Fu was not so confident at this moment, "With such strength, would he

leave the Land of Origin with me?"

Companions, are chosen by each other.

He chose the other! But... the other must see value in him, Emperor Di Fu! With such a huge difference in strength, the Galaxy Ruler probably wouldn't care about him.

"In cultivation, after all, it depends on oneself. One must be strong enough," Emperor Di Fu thought to himself, "I must find a way to reach the Ultimate Realm."

His Formation skill was extremely profound, only a thin barrier away from the Ultimate Realm, yet he just couldn't break through.

Emperor Di Fu was also distressed.

```

...

"Emperor Qing has finally taken action, seeking revenge for Emperor Yuan!"

"The power of Emperor Qing and the Galaxy Ruler is terrifying."

"Hm?"

"Did Emperor Qing lose?"

"Was that nine-story tower the one that defeated Emperor Qing?"

Those with a bit of insight could tell that in this clash, Emperor Qing had been bested! This shocked them.

In the Land of Origin, there is a consensus: if the Ancestors of the two countries do not act, Emperor Qing is invincible!

This time, with the Galaxy Ruler wielding the nine-story tower, he actually overwhelmed Emperor Qing.

"In our Thunder Ancient Country, apart from the Ancestor, there are no beings above Godly King. We need to be more cautious from now
```

on." The monarchs of the Thunder Ancient Country were even more anxious than those of the Flame Wind Ancient Country.

...

"Isn't this the Star Tower I refined?" Mountain Sitting Guest, observing through the recordings of the Thunderclap Commerce, clearly saw the entire battle between Emperor Qing and Luo Feng and witnessed the emergence of the Star Tower at the end.

"Star Tower, a First Realm of Godly King Secret Treasure, was actually able to defeat Emperor Qing?" Mountain Sitting Guest was stupefied.

"It seems that when I originally refined the Star Tower, that strand of Golden Light that merged into it was quite special," Mountain Sitting Guest thought.

With his abilities, he was extremely careful during the Artifact Refining process, not daring to allow any imperfections in the materials he used. Yet, a strand of Golden Light ignored his formations and his domain, directly merging into the Star Tower. Mountain Sitting Guest sensed something was off at that time.

Originally, after the Golden Light merged during the refining of the Star Tower, the Star Tower quickly took shape; from what he could see at that time, it indeed was a First Realm of Godly King Secret Treasure.

He could not see the true nature of the Star Tower.

The process of recognizing the master of the Star Tower was also much more difficult than Mountain Sitting Guest had anticipated! It was only Luo Feng, on the brink of life and death, who gained recognition from the Star Tower.

"A good treasure also needs a suitable master."

"In the hands of Luo Feng, the Star Tower can truly unleash its power," Mountain Sitting Guest felt quite emotional, being the refiner and a being at the First Realm of Godly King himself, he couldn't even discern the true mysteries of the Star Tower.

Yet, Mountain Sitting Guest only felt happy.

Happy for his disciple!

After avenging a deep vengeance, Mountain Sitting Guest felt incredibly peaceful inside. Now, his primary concern was his disciple, Luo Feng. The more luminous his disciple became, the happier he naturally felt.

"From Earth, this little guy has imperceptibly stood at the pinnacle of the Land of Origin," Mountain Sitting Guest thought, and smiled.

******

Huyang City, city owner's mansion, Quiet Room.

Luo Feng was in closed-door cultivation here, leaving the affairs of the Galaxy Divine Country mainly to Morosa, although at critical moments, one thought from him could reach the Galaxy Divine Country.

"This sparring, Emperor Qing intentionally let me win," Luo Feng understood this point.

From beginning to end, Emperor Qing only used one array, the 'Three Thousand Kill Array', and did not use any other powerful methods or any secret treasures! A being above Godly King, wandering outside the Source World for prolonged years, without any life-risking tactics? In his hometown, doesn't he have a single secret treasure?

If really sparing no expense, whether I could have the upper hand is still hard to say.

My secret treasures might have the advantage, but Emperor Qing's realm is higher than mine, using some treasures at the late or perfect level of Divine Emperor might be able to contend with the Star Tower.

"In the Land of Origin, the power is limited; myself, Emperor Qing, the Ancestors of the two nations... Even if one gains the upper hand, it's hard to significantly affect the others."

"But outside the Land of Origin, the gap becomes significant."

Luo Feng was very clear; his so-called invincibility was due to taking advantage of the supreme rules that limited power in the Land of Origin.

"Let's practice diligently, I at least need to reach the Ultimate Realm." Luo Feng flipped his hand, and a Primordial Crystal appeared in his palm; this finger-sized, smooth, stone-like treasure was swallowed by Luo Feng in one gulp.

Primordial Crystal, upon entering the body, began to be slowly absorbed.

"Hm?"

Primordial Crystal, the essence of refined Primordial Force, should be beneficial as long as one hasn't become Primordial Life.

At this moment Luo Feng's Physical Body was nourished, his spirit was also nourished, and his thoughts were processing several times faster, his Comprehension also seemed to be improving.

"It even has effects of strengthening my Physical Body and empowering my spirit," Luo Feng exclaimed.

Primordial Crystal, at an extremely slow pace, was fortifying his Physical Body, spirit. In theory, with an infinite amount of Primordial Crystal and infinite time, one could strengthen the Physical Body, spirit to an extremely terrifying state.

Unfortunately, the amount of Primordial Crystals one can consume in one epoch is limited; consuming too much, the effectiveness reduces, and can become ineffective.

"Normally, the higher the life level, the weaker the nurturing effect of treasures. But Primordial Crystal continues to be effective," Luo Feng closed his eyes, began to focus on understanding the materials of the three Ultimate Realm strength Primordial Bloodline Creatures he had acquired.

Time also continued to flow in the cultivation.

...

Since the sparring with Emperor Qing, no one from the Land of Origin has challenged the Galaxy Divine Country again.

The Galaxy Ruler now stands alongside the two country Ancestors, the East Extreme Domain Ancestor, and Emperor Qing! And since the Galaxy Emperor abhors evil, it also made the old beings of the Land of Origin no longer dare to act recklessly. At least devouring billions of creatures, this kind of thing, vanished for a short period.

In an instant, three hundred epochs had passed since the establishment of the Galaxy Divine Country.

That day, an inconspicuous event occurred—'Elder Yuan' of the Blade River Sect had a breakthrough, becoming a Godly King.

```
```

Chapter 270: The 6th Episode The 32nd Godly King 'Primordial Ancestor

A tavern within Huyang City, on the upper floor of a small building, Hong sat alone, sipping fine wine and enjoying delicious food.

"It is only after coming to the Land of Origin that one realizes there are heavens beyond our heaven and understands how insignificant one is," Hong mused with a smile as he watched the numerous cultivators outside the window, each controlling various kinds of Flying Treasures.

In his homeland, the Primordial Cosmos Region, not counting the Primordial Ancestor and Giant Axe, Hong was the 23rd True God among the Human Clan, and he even attained True Godhood a bit faster than Luo Feng.

Of course, Luo Feng had intentionally remained at the universe master stage for a long time to pursue a higher level of godly body, and in the end, he achieved the 'Perfect Divine Body'! But Hong's talent was still incredibly dazzling within the Human Clan.

Many predecessors, who seemed to have become True Gods earlier than Hong, had actually been cultivating for far longer than him.

"Aside from Luo Feng and the Primordial Ancestor, there are already eleven from the Human Clan who have come to the Land of Origin through the cycle of reincarnation, and I am the eleventh," said Hong, who had not long arrived at the Land of Origin and found everything fresh and novel.

The bustling Huyang City, the various races of life, the different schools of thought, all were places worth exploring for him.

"True gods of void space, eternal true gods, Primal Chaos Overlords, Godly Kings." Hong thought, "Moreover, Godly Kings are further divided into Three Realms, and the Emperors and Monarchs of the two ancient countries are comparable to the Ultimate Realm of God King."

"Above the Ultimate Realm of God King are the country Ancestors, the East Extreme Domain Ancestor, Emperor Qing, and…the Galaxy Ruler!"

"Younger brother, younger brother, have you really reached this step?"

Hong felt his blood boiling with excitement.

The many forces of the Land of Origin were not clear, but Hong, Peng Gong, Primal Chaos City Lord, the Primordial Ancestor, and other strong practitioners of the Human Clan were very well aware that the Galaxy Ruler was Luo Feng!

In their homeland, Luo Feng was called the Ancestral God of the Galaxy.

"My younger brother came to the Land of Origin and is already above Godly King?" Hong was profoundly shocked, "Back when he was still a universe master, he was invincible across the entire Universe Ocean. After becoming a True God, he resolved the Sector Beast calamity."

"Given such a harsh cultivation environment in the Universe Ocean, he managed to become an eternal true god. Upon coming to the Land of Origin, he soared to new heights," Hong sighed with emotion.

He had witnessed Luo Feng's growth from weakness, step by step.

In the beginning, he was the headmaster of the Extreme Martial Arts Hall! Luo Feng was just a naive warrior...

Later on, Luo Feng grew step by step, even aiding him, and aiding the Thunder Lord.

Hong knew that being able to become a true god of void space in the

harsh cultivation environment of the Primordial Cosmos Region and breaking through to the Land of Origin, the main reason was Luo Feng's help.

Without Luo Feng, the Primordial Ancestor would probably never have been released! Among the entire Human Clan able to break through by themselves... perhaps only the Primal Chaos City Lord had a slight chance.

Hong, in terms of innate comprehension, couldn't even rank in the top five among the Human Clan.

"Since coming to the Land of Origin, I've realized that great masters are like clouds," he thought.

"Talents from the native Land of Origin, countless geniuses nurtured by small universes, and the geniuses from three thousand Primordial Cosmoses who have broken through the cycle..." Hong reflected, "Compared to them, I am much more mediocre."

Any of the Human Clan who could break through to the Land of Origin, Luo Feng had prepared the highest standard of cultivation resources for them, so their cultivation went very smoothly. But Hong, Peng Gong, Dark, and the others, they all understood...

In their homeland, their talents were extraordinary.

In the Land of Origin, they struggled to become eternal true gods!

"Hmm?" Hong suddenly received a transmission, and upon seeing it, he couldn't help but show a look of joy.

"The Primordial Ancestor has become a Godly King!" Hong was quite excited.

It was only after coming to the Land of Origin that one could see the disparity in natural talent.

The Primordial Ancestor's talent was far above that of other human strong practitioners.

Hong immediately stood up.

"Divine Monarch, is the food to your satisfaction?" The attendant outside the small building was incredibly respectful. Hong's strength was nothing noteworthy within Huyang City, but as a 'Core Disciple of the Blade River Sect,' the merchants of Huyang City dared not neglect him.

"Mhm." Hong casually paid the bill and with a wave of his hand, he steered the Flying Boat and swiftly headed straight for the Blade River Sect headquarters. Discover hidden tales at My Virtual Library Empire

...

At the Blade River Sect headquarters, in the Cave Mansion where the Primordial Ancestor was located.

Strong practitioners from the Human Clan were continuously arriving at this moment.

"Young brother Hong, you've arrived."

"Long Xing."

Hong was naturally very familiar with this group of strong practitioners from the Human Clan, greeting each one by one, they were undoubtedly the closest-knit group in the Land of Origin!

"Fire Dome." Hong smiled at a young man with red hair.

"Master Uncle," Fire Dome replied with a smile.

Fire Dome, as Luo Feng's second disciple in the Primordial Cosmos Region and the one with the highest talent among his disciples, should be considered the senior brother to Moyu Qingyan and Xin Yu.

However, given that Fire Dome was only a true god of void space, he was not yet influential enough, and therefore currently just a core disciple of the sect.

As they were conversing and laughing, three figures walked in simultaneously - the Primordial Ancestor, Morosa, and Luo Feng!

Immediately, everyone in the room fell silent.

"The word outside is that under the command of the Galaxy Ruler, there is an old servant who is an Ultimate Realm Beast."

"It should be Elder Luo Sa," they murmured.

"Luo Feng has been in seclusion recently and has not been seeing any visitors. But when we came to the Land of Origin, it was Luo Feng himself who guided us."

Human powerhouses gathered and the conversation would also turn to Luo Feng and Morosa.

The Galaxy Ruler and the Ultimate Realm Beast attendant… were indeed a bit too stimulating for human powerhouses.

They actually had what could be called the thickest 'thighs' to cling to.

"Having cultivated in the Land of Origin for eight hundred epochs, I have finally become a Godly King," the Primordial Ancestor said with a smile as he looked around at his companions. "Of course, my becoming a Godly King was greatly thanks to Luo Feng's assistance."

"Resources alone won't make one a Godly King. Talent and comprehension are even more important," Luo Feng commented with a smile at his side.

Among the eleven strong human beings who came later, only the Primal Chaos City Lord became an eternal true god; the rest were merely true gods of void space. This revealed the gap in potential.

"Becoming a Godly King of the First Realm, I felt it was quite difficult, and I encountered many puzzles," the Primordial Ancestor shook his head. "The path of cultivation is truly getting more and more challenging."

The human powerhouses were all listening at the side.

"You all are nominally of my lineage," the Primordial Ancestor looked at the human powerhouses. "Now that I have become a Godly King, I

can arrange some official positions for you. Assigning you some positions now, there won't be any objections within the Blade River Sect."

Having become a Godly King, the Primordial Ancestor's status within the Blade River Sect naturally rose greatly.

"Cultivation is not just about seclusion and comprehension; taking on official duties, dealing with affairs, and interacting more with other powerhouses is also beneficial to your cultivation," the Primordial Ancestor said.

"Yes."

The group of human powerhouses all responded.

Luo Feng's gaze fell on Fire Dome and he asked with a smile, "Fire Dome, you've been in the Land of Origin for over a century now, how is your cultivation progressing?"

"I am still lacking some accumulation to reach eternal true god," Fire Dome replied respectfully.

"Concentrate on your cultivation. Once you become an eternal true god, then I can publicly take you as a registered disciple. When you reach the Primal Chaos Realm, I can publicly accept you as a direct disciple," Luo Feng looked forward to his disciple with anticipation.

Being weak, if forcefully chosen as a registered disciple or a direct disciple, it would be harmful rather than beneficial to Fire Dome.

Currently, as an ordinary core disciple, Fire Dome lacks nothing in terms of resources, and Luo Feng would even personally give guidance.

"Disciple understands," Fire Dome replied.

Seeing this, the Primordial Ancestor also laughed and said, "If any of you have any confusion regarding cultivation, feel free to speak up. Elder Luo Sa, Luo Feng, and I can all give you guidance."

The human powerhouses were overjoyed and began to ask questions

one by one.

The Primordial Ancestor, Luo Feng, and Morosa would answer in detail based on their own expertise.

Since their questions were generally related to the stages of true god of void space and eternal true god, it was easy to see the differences between Luo Feng, the Primordial Ancestor, and Morosa! Luo Feng's foundation was the most solid.

Having a special grade inheritance, creating high realm secret techniques time and again at a low realm, his understanding of the fundamentals was profoundly deep.

...

Finally, the gathering dispersed, leaving only Luo Feng and the Primordial Ancestor.

"Listening to your teachings, I have gained a lot," the Primordial Ancestor remarked emotionally. "In terms of fundamentals, I can't compare to you."

"I have obtained several special grade inheritances by chance in the Infinite Space. It's under the guidance of these special grade inheritances that my foundation has been hammered solid," Luo Feng smiled. "Primordial Ancestor, I also have a gift prepared for you."

"Oh?" the Primordial Ancestor was surprised.

Luo Feng flipped his hand and took out a silver token.

"This is a token to the treasured land 'Infinite Space,'" Luo Feng smiled. "Not long ago, I discovered this token within the bounds of my Galaxy Divine Country."

Infinite Space tokens appear randomly on the Land of Origin. The wider the territory, the easier it is to come across such treasures.

"Infinite Space token?" The Primordial Ancestor showed a look of surprise, as his status and position allowed him to peruse many of the Blade River Sect's secret reports, so he naturally knew information

about various treasured lands on the Land of Origin.

The Infinite Space values spiritual will and the opening of new Great Dao the most.

"Primordial Ancestor, you are cultivating both the 'Real and Illusion' paths," Luo Feng said. "The real world has accurate Origin Dao of the World as a reference. But the 'virtual world' doesn't have this Great Dao. On the entire Land of Origin, perhaps only the treasure trove of Infinite Space may have some inheritances that could help you."

"Luo Feng, you have helped me too much," the Primordial Ancestor was quite grateful.

Initially, Luo Feng had to try everything for an opportunity, but now he could easily pave the way for the Primordial Ancestor.

"In terms of nurturing human powerhouses, my energy is limited; I often need the Primordial Ancestor to put more thought into it," Luo Feng said. "For me, and for the entire human clan, the stronger your power, the better."

The Primordial Ancestor looked at the token, feeling a fervent warmth in his heart.

He became a Godly King by figuring out a branch of the Origin Dao of the World! After all, with a detailed reference, breaking through is much easier.

The path of illusion… the Primordial Ancestor encountered too many obstacles; now, even which branches exist on the path of illusion confused him.

"This is a map of Infinite Space," Luo Feng waved his hand, and a stream of light flew towards the Primordial Ancestor. "It also marks my current location. After you arrive in Infinite Space, you can quickly meet up with me."

"The native creatures of Infinite Space, with various forces contending, I have already enveloped twelve native creatures with my spiritual will, which I can hand over to you," Luo Feng said.

"Good."

The Primordial Ancestor held the token firmly, and immediately with one thought, he used the token to send a wisp of consciousness remotely towards Infinite Space.

Luo Feng was quite expectant. In his view, since the Primordial Ancestor was researching the 'path of illusion', his spiritual will should also be outstanding. Opening up a new path would also gain the rewards of Infinite Space.

"With Infinite Space, the Primordial Ancestor should be able to go even further," Luo Feng thought.

He has helped as much as he could, but ultimately, the achievements of a cultivator must rely on oneself.

Chapter 271 - 33 The Ancestors of the Two Nations Awaken

Land of Origin, in the Holy Land of the Thunder Ancient Country, Mt. Leiting.

Hidden within Mt. Leiting were numerous worlds, and within one vast world, a figure lay on an endless grassland. The grass on the plains withered and flourished repetitively, yet the figure resting there remained untouched by even a speck of dust.

It is unknown how much time had passed before this figure finally opened its eyes.

He was the Ancestor of the Thunder Ancient Country.

"Personally dissecting the corpse of a High Level Primordial Life and even obtaining some materials from it," the Thunder Ancestor said excitedly. "This gain is too significant. Senior Yuan and the others must have been truly desperate, to even allow us to purchase corpses of High Level Primordial Life."

Low Level Primordial Life, Thunder Ancestor and Primogenitor Yan Feng, were all qualified to hunt.

However, High Level Primordial Life represented a qualitative leap! One stomp could crush billions of Low Level Primordial Life, a single breath could turn Low Level Primordial Life into ashes. Those cultivators who hadn't escaped the Braided Cage, upon encountering High Level Primordial Life, even if they had 'Source World Protection Avatars', could still die a complete death through Soul Pollution.

"The fact that Senior Yuan and the others are offering up High Level Primordial Life corpses to us juniors," pondered the Thunder Ancestor. "It seems the rumors are true."

"The Shell Valley World Group must have completely fallen."

"Our Cultivator Camp has been defeated!"

The Shell Valley World Group was also a cluster of worlds cultivated for cultivators, created at great cost by Senior Yuan and some others.

Rumors had it that the faction of Innate Primordial Life fixed their sights on the Shell Valley World Group; they relished devouring cultivators, even more so consuming worlds! They came killing in large scale, and Senior Yuan and the others mobilized forces to stop them.

But...

In the end, the Cultivator Camp still lost!

This rumor, which the Thunder Ancestor and Primogenitor Yan Feng had initially been dubious about, seemed more credible recently as Senior Yuan and the others provided more resources, aiding these Divine Emperors.

"I hope these Innate Primordial Life don't bring their slaughter to the Land of Origin," worried the Thunder Ancestor.

There was no alternative.

In the clash between the two great camps, the Innate Primordial Life faction generally held the advantage!

The Innate Primordial Life faction was too vast; even if some died, they did not care! But for the Cultivator Camp, those who had leaped out of the Braided Cage were far too few.

In a war of attrition, the Cultivator Camp could not afford the toll!

The Thunder Ancestor stepped out of this slumbering world and appeared atop Mt. Leiting.

"Hm?" The moment he appeared, the Thunder Ancestor immediately received some information from the reports of the Monarchs.

"During my seclusion, a Galaxy Ruler emerged in the Land of Origin? He sparred with Emperor Qing, managing to gain the upper hand with a nine-story high tower Secret Treasure?" The Thunder Ancestor was somewhat surprised.

...

Mt. Leiting, an ancient hall.

"Ancestor."

Nine Monarchs gathered, all kneeling reverently.

Sitting high up on his throne, the Thunder Ancestor looked down at the nine Monarchs.

He and these Monarchs had spanned several Source World epochs, what feelings could there be between them? He and Primogenitor Yan Feng nurtured their progeny to help them occupy more precious lands and scavenge more resources.

By sparing a little of what was needed by the Godly Kings and some early stage Divine Emperor Secret Treasures, they had ensured their progeny absolute dominance in the Land of Origin. They indebt them with huge debts, and afterward, send them to collect treasures.

"Ancestor, this Galaxy Ruler acts tyrannically, daring to kill even the Imperial Clans that have committed heinous crimes; Di Yuan died by his hand," the Monarchs all looked expectantly at the Thunder Ancestor.

"He possesses strength Beyond God King Level; within the Land of Origin, even though I can overpower him, I can't do anything to him," said the Thunder Ancestor, looking down from above. "Strength determines order. If you commit heinous crimes and are killed by that Galaxy Ruler, there's nothing I can do. Be more cautious in your actions from now on."

"Do we just have to keep enduring?" One Golden-robed figure said anxiously.

The Thunder Ancestor looked at him.

The Golden-robed figure trembled in his heart, realizing his mistake!

The Ancestor's command just needed to be followed, not questioned.

Previously, he acted as the 'Black Vulture Ancestor', reaping millions of lives; now, he grew somewhat impatient.

"Ancestor, I, I..." The Golden-robed figure felt uneasy.

The other eight Monarchs dared not make a sound.

"Feng Xing, go to the 'Wind Valley' in the Heavenly Pillar Realm. Either you obtain one Secret Treasure from within Wind Valley and redeem your crime, or die in there!" The Thunder Ancestor ordered indifferently.

Find your next read at My Virtual Library Empire

The Golden-robed figure's heart quivered, and none of the other eight Monarchs dared to beg for mercy.

"Yes, Ancestor," the Golden-robed 'Feng Xing Monarch' could only accept the command.

To the high and mighty Thunder Ancestor, these Monarchs were merely subordinates, mere tools!

Each epoch, he would cultivate a batch.

At the beginning of an epoch, he might still cherish his subordinates a bit. But by the end of the epoch, their value diminished greatly.

"As long as a being Beyond God King Level emerges in the Land of Origin, you all need to show respect," lectured the Thunder Ancestor, looking down at them. "Because within the Land of Origin, they are invincible."

"However, you don't need to worry," the Thunder Ancestor continued. "Within the conditions present in the Land of Origin, Mt. Leiting is absolutely safe. Nobody, should even dream of invading Mt. Leiting."

The eight Monarchs understood.

They grasped the Ancestor's intentions.

If the Ancestor could do nothing against the Galaxy Ruler, similarly the Galaxy Ruler would not dare to act rashly on Mt. Leiting.

"During my seclusion, were there any gains?" the Thunder Ancestor asked again.

"Ancestor, we have obtained a portion of the 'Spiritual Rosy Clouds'," the Lei Xiao Monarch reported respectfully, presenting the treasure.

The Thunder Ancestor nodded slightly upon hearing this.

As an epoch neared its end, it became increasingly difficult to find treasures.

The Thunder Ancestor gazed at the Spiritual Rosy Clouds within the box in front of him, which resembled a liquid, and nodded in satisfaction, instructing, "You may all leave." Amidst the reverential retreat of the monarchs.

"Flame Wind." The Thunder Ancestor sat there, but used his thoughts to contact his old friend, the 'Primogenitor Yan Feng'.

He emerged from seclusion at the same time as the Primogenitor Yan Feng.

"Flame Wind, you know about the matter with the Galaxy Ruler, right? What are you planning to do?" the Thunder Ancestor inquired.

"In the world beyond the Source World, this Galaxy Ruler might be inexperienced. But on the Land of Origin, both of us are also helpless against him," Primogenitor Yan Feng said with a smile, "What can I do? I can only endure."

"How about both of us meet this young fellow together, to scare him a bit?" the Thunder Ancestor suggested, "After all, he will eventually have to leave the Source World, and will inevitably need our help."

Both of them had cultivated for several epochs, accumulating profound resources, and had extensive networks of friends.

The Thunder Ancestor had cultivated to the Perfection stage of Divine Emperor, and was now pursuing the final step of 'Bloodline Ultimate Awakening' - to break free from the Braided Cage.

Primogenitor Yan Feng was in the late stages of Divine Emperor, yet he was among The Enlightened! In terms of strength, he was almost on par with the Thunder Ancestor. Among the Cultivator Camp, the lineage of The Enlightened was generally held in higher regard.

"There's no need to intimidate him since we're from the same Source World," said Primogenitor Yan Feng, "Besides, if we really push the Galaxy Ruler too hard, and he goes berserk, then the order on the Land of Origin will be completely disrupted."

The Thunder Ancestor understood this rationale.

The Supreme Rules of the Land of Origin put a cap on power, ensuring that everyone above God King Level had nothing to fear! Both Ancestors of the ancient countries had to weigh their actions carefully.

The East Extreme Domain Ancestor might give them leeway, but the Galaxy Ruler may not!

"Fine, we won't meet him then," the Thunder Ancestor decided, "As a junior, he won't have much to do with us once he leaves the Source World."

"To maintain distance is good for both him and us," Primogenitor Yan Feng had no intention of meeting Luo Feng either.

Distance could make things more pleasant.

All sides could address things more calmly.

"How was the harvest this time from dissecting the corpse of a High Level Primordial Life? Do you have confidence in reaching the Perfection of the Divine Emperor?" the Thunder Ancestor asked.

"The harvest was significant," Primogenitor Yan Feng was somewhat excited, "A High Level Primordial Life is many times more complex than a Low Level Primordial Life. With the gains from this time

studied in detail, I believe I can advance further."

"You always advance further, yet you never quite reach the Perfection of Divine Emperor," the Thunder Ancestor remarked.

"Pioneering a path in the darkness to reach the Half Primordial Level is not easy," said Primogenitor Yan Feng with a smile, "It takes patience."

The Half Primordial Level, that is the Perfection of the Divine Emperor.

Very few Enlightened ones have reached the Perfection of the Divine Emperor.

If the Enlightened step up from the 'Half Primordial Level' to the Primordial Level! The path they enlightened would be 'at the Primordial Level', a leap to the heavens, and they would become the most powerful Primordial Life. Elders like Yuan eagerly anticipated the birth of such peers.

"I am patient, but I worry that we don't have enough time. The camp of Innate Primordial Life beings is too strong!" The Thunder Ancestor voiced his concern, "Any day now, the Land of Origin could face an invasion of Innate Primordial Life beings. If the Land of Origin falls, so do we."

"If that's fate, so be it." Primogenitor Yan Feng replied, "Worrying is of no use."

...

Atop Mt. Leiting.

"The Ancestor evidently has given his tacit consent to the Galaxy Ruler's actions."

"The Ancestor also said no one could kill their way into Mt. Leiting! Given that, as long as we hide safely within Mt. Leiting, we can totally send minions out to capture Creatures. As the Land of Origin gradually approaches its end, we will need to leave to venture elsewhere, so we must seize more Creatures to nurture our

bloodlines."

"You have Avatars, but I don't."

"Isn't it the same if your True Body hides in Mt. Leiting while you send out Puppets to reap the benefits?"

The two monarchs quietly discussed.

They had endured for three hundred eras, originally hoping the Thunder Ancestor would be their champion.

But now that the Thunder Ancestor's stance was clear, they had only one path left.

"Hiding the True Body within Mt. Leiting and sending minions and Puppets to capture Creatures. Hmph, I want to see what this Galaxy Ruler can do about it?" These two monarchs made up their minds and began to arrange their plans in secret.

Once again, they stealthily captured a vast number of Creatures.

...

"Brother Galaxy, both ancient country Ancestors have come out of seclusion, and you should be careful with your recent actions," Emperor Qing also informed Luo Feng, "Primogenitor Yan Feng is easygoing, but Thunder Ancestor, despite not being affected by the Primordial Bloodline, is naturally aggressive and domineering."

"I understand," Luo Feng acknowledged.

At this moment, Luo Feng's True Body was inside the Star Tower, meticulously studying the Star Tower Secret Patterns.

During the three hundred eras since establishing the Galaxy Divine Country, Luo Feng had been using the rare treasure 'Primordial Crystal' to boost his soul strength and Spiritual Will to a level comparable to Early Stage of Divine Emperor, but his Physical Body was much weaker by comparison.

Every era, Luo Feng used a maximum of 33 Primordial Crystals. Any

more, and the effect was minimal. If he broke through to using 40 Primordial Crystals, the effect would decrease rapidly.

The ten thousand Primordial Crystals he had exchanged for three Secret Treasures from Di Yuan were now all used up.

He had sold some ordinary treasures from the Dream Domain to the two Ancient Countries and obtained another two thousand Primordial Crystals.

"Long-term use of Primordial Crystals really burns through them," Luo Feng lamented. Even the 33 Primordial Crystals per era pained him, and future increases in strength meant further increased consumption.

But the efficacy of the Primordial Crystals was excellent!

In terms of cost-effectiveness, they were the best quality auxiliary treasures.

Chapter 272 - 34 The Second Realm of the Great Dao of Life and Death

Luo Feng pondered the deep secret patterns of the Star Tower; countless secret patterns spiraled inward, even time began to stagnate when peering into the profound depths, and then, colorful secret patterns started to emerge at even deeper levels.

The end of the spiraling colorful secret patterns, there lay the blood-colored scales with a twelve-color edge.

Those blood-colored scales, as if representing the supreme rules.

They are supreme.

They are indestructible, eternal.

"The core of the Star Tower's secret patterns is 'the thickness, strength, and eternal existence of life'," Luo Feng had observed too many times, staring directly at the blood-colored scales, which continuously assaulted and tainted his spiritual will.

Luo Feng temporarily withdrew from observation and began to operate his own power.

"Buzz."

A phantom tower emerged, shaped like a triangular pyramid; the phantom tower gradually solidified, with secret patterns flowing on its surface.

Whoosh!

Suddenly, the phantom tower collapsed.

"How difficult is it to create a 'Nine Branches Fusion Secret Technique'?" Luo Feng sighed softly.

Just like how ordinary cultivators of the Second Realm of Godly King can create some pinnacle God King Realm secret techniques without much difficulty, but to create an 'Ultimate Realm Secret Technique,' the difficulty soars! Figures like Emperor Gui Xu, the Wuxin God King, some emperors of the Flame Wind Ancient Country, monarchs of the Thunder Ancient Country spent endless ages and only created a few Ultimate Realm secret techniques.

The same principle applies.

To date, Luo Feng has created nine secret techniques for the Eight Branches Fusion Technique of the Great Dao of Life and Death.

The previous 'Great Extinction Style,' 'Heavenly Light Silver Shuttle,' 'Black Light Escape Technique,' 'Blood Dripping,' 'Cage' - these five techniques have also been perfected to the level of Eight Branches Fusion.

"Eight Branches Fusion is already easy for me, having created nine secret techniques. Yet for the Nine Branches Fusion Technique, I couldn't create even one," Luo Feng shook his head gently.

The Nine Branches Fusion Technique of the Great Dao of Life and Death belongs to the Ultimate Realm techniques of the Great Dao of Life and Death. Its difficulty is much higher than that of the Eight Branches Techniques.

Instead, with the Great Dao of Life and Destruction having clear Great Dao guidance, and after Luo Feng exchanged for the Destruction Scale and Lotus Heart Seed, he can now create Ultimate Realm secret techniques for them.

"Pure Great Dao of Life, Great Dao of Destruction, their Ultimate Realm secret techniques don't seem difficult."

"The fused Great Dao of Life and Death Nine Branches Fusion... is extremely difficult."

Luo Feng tried to condense the phantom Star Tower with his own power.

The phantom Star Tower, to protect oneself! Pursuing the limit of defense!

"Why is the phantom Star Tower I condensed shaped like a triangular pyramid? Why is it not in the form of a nine-tiered tower?" Luo Feng realized that he still had a long way to go; even true Nine Branches Fusion was just scratching the surface of the Star Tower.

Luo Feng could only calm his mind and devote himself to cultivation.

"What's wrong with the phantom Star Tower? Why can't it stabilize?" Luo Feng studied the mystery of the secret patterns carefully as days passed by.

Suddenly, one day—

Stay updated with My Virtual Library Empire

Long-term contemplation led to a qualitative change.

In Luo Feng's mind, four branches of the Great Dao of Life and Death – 'Heavenly Light Branch, Blood Dripping Branch, Walker Branch, Eternal Branch' – suddenly fused perfectly into one, with no more confusion.

The Great Dao of Life and Death thus stepped into the Second Realm of Godly King!

From then on, Luo Feng had reached the Second Realm of Godly King in all three Daos of Life, Destruction, and Life and Death. Of course, the first two were much easier, and several Ultimate Realm secret techniques had been created.

"Hahaha, I managed to create nine 'Eight Branches Fusion Techniques,' and only then did the Great Dao of Life and Death step into the Second Realm of Godly King. Without accurate Great Dao guidance, the requirements for accumulation are indeed much higher," Luo Feng was in high spirits, "I wonder how many reward points the Infinite Space will give."

Infinite Space highly values spiritual will and the pioneering of Great Daos.

...

Infinite Space.

On an island in the heart of a lake, there were no spiritual beings, just an avatar of Luo Feng was here, with fog covering most of the lake.

"Second Realm of the Great Dao of Life and Death." Luo Feng sat cross-legged on the shore of the island, looking at the lake in front of him, and with a single thought, he began to display the mysteries of the Great Dao.

Whoosh.

A streak of power left Luo Feng and flew out, drawing a trajectory in mid-air, effortlessly slicing through all layers of space and even cutting a black crack in the most fundamental membrane of Infinite Space, and then, this streak of power condensed into a drop of blood.

This drop of blood turned into a star, slowly rolling between heaven and earth, causing the universe to tremble.

Then this tiny star turned into a dark abyss, naturally beginning to devour everything around.

The dark abyss was collapsing, turning into a point of light, and with the appearance of the light point, a terrifying domain spread in all directions.

...

Just a streak of power fully displayed the many mysteries of the four branches of the Great Dao of Life and Death – 'Heavenly Light Branch, Blood Dripping Branch, Walker Branch, Eternal Branch.' Only by fully understanding the mysteries can one manipulate the four major branches to fuse and transform at will.

Finally—

"Buzz."

An information imprint appeared in Luo Feng's palm.

"Trialist: Luo Feng from the Land of Origin"

"Based on the Great Daos of Life and Destruction as the foundation, a new Dao has been opened. Evaluation of the new Dao: Special. Reward points: 100,000 points. On this new Dao, you have finally taken the second step, more effort is needed to fully master this Dao."

"Before mastering a complete Dao, your spiritual will has successfully broken through the Godly King limit. Evaluation of the spiritual will: Special. Reward points: 100,000 points. Your spiritual will is excellent. Perhaps, you can go even further?"

"Reminder: Any killing of spiritual beings is prohibited. Violators will be completely expelled from Infinite Space."

"Reward Points total to 184,193.03."

Luo Feng, upon understanding this piece of information, felt quite encouraged.

Opening new paths, achieving the Second Realm of Godly King, rewards 100,000 points! Including the 100,000 points rewarded when Spiritual Will surpassed the Beyond God King Level. That's a total of 200,000 points, by far the largest fortune of my own.

Having been in Infinite Space for so long, Luo Feng has always been cautious with the use of Reward Points.

Major expenditures were mainly for the Lotus Heart Seed and Destruction Scale!

As for exchanging inheritances, it was mainly the inheritances from the First and Second Realm of Godly King! Those extremely expensive inheritances, I haven't yet had the heart to exchange.

"I can't kill any Spiritual Beings, so the only way to get Reward Points... is to open new paths and continue to advance my Spiritual Will," Luo Feng thought.

"Looking at the information description, fully mastering the 'Great Dao of Life and Death' should be rewarded."

But Luo Feng also understood something.

Daos such as time, space, life, infinite, destruction, and so on, exist within the Supreme Rules; yet even so, throughout the long eras of Land of Origin, the only ones who could comprehend the complete daos on their own were Emperor Qing and the Lord of Ten Thousand Realms!

Great Dao of Life and Death, having no reference! The difficulty of comprehending the complete 'Great Dao of Life and Death'... one can only imagine.

"Ordinary paths have guidance. Those Emperors and Monarchs who comprehend five or six Ultimate Realm Secret Techniques might not necessarily comprehend the entire dao. From this, one can infer that without guidance for the Great Dao of Life and Death, one would probably need to comprehend at least ten Ultimate Realm Secret Techniques to have a hope of unlocking the dao."

"What does it mean for Spiritual Will to go a step further?" Luo Feng was somewhat puzzled.

Before mastering the Great Dao, reaching Divine Emperor Level in Spiritual Will is rated as Special Evaluation.

What then could be a step higher?

"Forget it."

Luo Feng began to check the Infinite Space Treasure Vault.

"Hm?" Luo Feng was a bit surprised, "The 'Divine King Ultimate Chapter' of Perfection Level Inheritance is still unseen?"

Perfection Level Inheritance, the God King Second Realm Chapter, generally requires 10,000 Reward Points. The Ultimate Chapter? Luo Feng's current Reward Points don't even qualify to see it.

According to the pricing model of Infinite Space, the Ultimate

Chapter is typically 20 times that of the God King Second Realm.

"I'm rated as Special Evaluation for both, and yet I don't qualify to see the 'Perfection Level Inheritance's Ultimate Chapter.' Just what kind of talent is needed to be eligible to learn the Ultimate Chapter of Perfection Level Inheritance?" Luo Feng lamented in secret.

"Relying on the Formless and Intangible, the Ultimate Realm Primordial Bloodline Creatures within Land of Origin are already my limit of transformation." Luo Feng thought, "And I don't cultivate the Origin Dao of Matter, so it's unnecessary to exchange for the Ultimate Chapter of 'World Life Form'."

These Reward Points must be spent on the essentials.

Luo Feng carefully checked the information of one inheritance after another.

"Let's see the treasures."

Luo Feng was very interested in those treasures because, as Emperor Qing said, treasures that start from 100,000 Reward Points all lend a certain assistance to 'escaping the Braided Cage' and are also highly coveted by external cultivators.

...

The number one ranked treasure, a sword, requires 180,000 Reward Points to exchange.

This sword is crafted with materials from the corpse of a Primordial Ancestor. Thunder Dao, Destruction Path, and Material Path cultivators are all suitable for exchange, and by comprehending it, one may hope to escape the Braided Cage.

Reminder: Such treasures should be contemplated within the Source World, and must not be taken out of the Source World, otherwise endless troubles will ensue!

...

The second-ranked treasure, the Space-Time Mirror, requires 180,000

Reward Points to exchange.

This is a mirror refined from the rare treasures of Primordial Space, by which one can retain memories and reincarnate into any Source World without being rejected by any Source World's Supreme Rules.

To cultivate under different Supreme Rules in different Source Worlds, the cultivation benefits are immense.

Reminder: 1. The Space-Time Mirror is suitable for exchange by those cultivating the paths of time or space. For cultivators of other paths, the gains from exchange are lower.

2. This treasure must not be taken out of the Source World.

...

One by one, the treasures left Luo Feng staring agape.

"Even if both the path opening and Spiritual Will reach Special Evaluation, exchanging for one of these treasures would almost deplete the Reward Points." Luo Feng felt the high threshold for wanting to exchange for such treasures.

In the arrangement by Senior Yuan, even the most dazzling peerless talents could only exchange for one of such treasures!

"The treasure is not wasted, provided the talent is high enough," Luo Feng mused as he continued to look.

Suddenly—

The thirty-fourth ranked treasure, the Eye of Life and Death, requires 120,000 Reward Points to exchange.

This is an eye, 'Eye of Life and Death,' refined from the whole body of a World Level Primordial Life 'Life and Death Pupil Beast.' By utilizing this eye, one can glimpse the 'vitality' of all things, as well as the 'Destruction Weakness' of all things.

It's suitable for exchange by those on the path of life or destruction and can assist in comprehending the mysteries of life and destruction

to aid in escaping the Braided Cage.

Reminder: This treasure must not be taken out of the Source World.

...

"A superb treasure." Luo Feng's heart soared with fervor.

There are other high-ranking treasures suitable for destruction, suitable for life.

The Eye of Life and Death, though, is simultaneously suitable for both life and destruction.

Chapter 273 - 35: Eye of Life and Death

Luo Feng finished scrutinizing the treasures one by one, besides the 'Eye of Life and Death', there was another treasure that suited both Life and Destruction.

The Secret Treasure 'Undying Heart', exchangeable for 43,000 Reward Points, has the characteristics: indestructible, unlimited vitality. It can also enhance the physical body, additionally condensing a supremely powerful War Body. Suitable for the Cultivation of the Path of Life and Destruction.

In the entire treasure trove, only these two treasures were suitable for both the Path of Life and Destruction.

"This one is quite a bit cheaper," Luo Feng was also somewhat tempted, "But still, it's pretty good."

The Secret Treasures in the Infinite Space Treasure Vault all possess conceptual abilities. Hence, Emperor Qing and the others speculated that these must have been refined by Primordial Lives that escaped the Braided Cage.

"Treasures above a hundred thousand Reward Points all aid in escaping the Braided Cage."

"Two-thirds of these treasures that aid in escaping the Braided Cage cannot be taken out of the Source World."

Luo Feng read through that information.

Especially the powerful treasures refined from the remains of Primordial Life Forms like Primordial Ancestors and World Level Primordial Life creatures' corpses, none could be taken out.

"It's evident, Senior Yuan and the others truly hope that the later generations can escape from the Braided Cage," thought Luo Feng.

Infinite Space filters for Spiritual Will and the opening of Great Daos and selects many dazzling geniuses from the Source World. It bestows inheritances and treasures upon these geniuses.

Senior Yuan and the others gain nothing from this process.

Perhaps the only benefit... is that there might be a few more among the later generations who could escape the Braided Cage!

"I only have a little over 180,000 Reward Points to exchange, what should I choose?" Luo Feng pondered.

He still needed to consider future inheritance exchanges, so the Reward Points he could actually use weren't abundant.

He carefully reviewed the information in the treasure trove.

"As for the item of Spiritual Will, I'm not certain whether I can receive rewards in the future."

"But for the Great Dao of Life and Death, as long as the complete Great Dao is mastered, there should be more Reward Points." Luo Feng made up his mind; mastering the complete Great Dao of Life and Death would certainly be extremely tough. But it was countless times easier than escaping the Braided Cage.

If even the Great Dao of Life and Death cannot be fully mastered, there's no need to think too far ahead.

"Exchange for the Eye of Life and Death!" Luo Feng decided on the spot.

"Reminder to the Trialist, after the exchange, the Trialist can use the Eye of Life and Death permanently. However, if the Trialist dies completely, the Eye of Life and Death will automatically return to Infinite Space." An information message came, "Please confirm, do you still wish to exchange?"

Luo Feng was stunned.

As long as one is alive, one can keep using the Eye of Life and Death.

But if one dies, it gets reclaimed?

The exotic treasures refined by Senior Yuan and the others—if one truly dies, and one's descendants are not powerful enough, not talented enough, they indeed do not have the qualifications to use such treasures.

"Exchange." Luo Feng did not hesitate.

"Exchange successful! Reminder to Trialist Luo Feng, this is the thirteenth exchange of the 'Eye of Life and Death'. Among the previous twelve exchangers, one managed to escape the Braided Cage and became a High Level Primordial Life Form, but ultimately still perished in battle."

Luo Feng's heart stirred.

He was the thirteen exchanger of the Eye of Life and Death?

...

Land of Origin, within Huyang City, within the Quiet Room of the city owner's mansion, space within the Star Tower.

"Buzz."

Luo Feng was sitting cross-legged, as a ripple traversed through the spatial obstacles, appearing before him.

It was an eye of colossal size, even after being refined and greatly reduced in size, its body was still much larger than Luo Feng's World Life Form.

In this eye, ninety percent of the area was pitch black, like thickly inked clouds. Only the central area emanated dazzling Golden Light, which originated from countless golden Secret Patterns.

After the successful exchange, Luo Feng also obtained detailed information about the 'Eye of Life and Death'.

"According to the detailed information, the World Level Primordial Life Form 'Life and Death Pupil Beast' is in the shape of an eye. It even reaches the size of one thousandth of a regular Source World. Afterwards, its entire corpse was refined into a Secret Treasure."

"After refining, it only requires Divine Emperor Level Will to control it."

Luo Feng immediately touched the colossal eye before him with a strand of consciousness.

The moment he touched it—

Boom!

In a trance, Luo Feng saw a towering and enormous creature shaped like an eye. Facing its direct gaze, it felt like his own secrets no longer existed, everything was penetrated.

"Buzz." Luo Feng's Spiritual Will quickly permeated, touching the deepest part of the Eye of Life and Death.

Within the deepest part of the Eye of Life and Death, countless Secret Patterns were contained.

There were two types of Secret Patterns.

One was of Life, the other was of Destruction.

Both types of Secret Patterns were immensely vast and interwoven with each other, interdependent, eventually converging into the origin in the shape of an eye.

"Although Life and Destruction are not fused, their cooperation is extremely mysterious. This treasure is perfect for me," Luo Feng was astounded; he was pursuing the complete fusion of both.

But observing how Life and Destruction cooperate still brought Luo Feng significant enlightenment.

Whether it's the Star Tower or the Eye of Life and Death, it's the combination of numerous Secret Patterns, not a fusion into one

entity. As for fusion, Luo Feng would have to explore on his own.

"From the inner Secret Patterns, the Eye of Life and Death is a large level weaker than the mystery of the Star Tower," Luo Feng could see at a glance.

The gap between the two.

It was like the difference between a star and the sun. The disparity was clear.

But even as a star... the profundity was vast and deep like an ocean. After all, it was refined from the corpse of a complete World Level Primordial Life, it was full of endless obstacles for Luo Feng to thoroughly study.

"Buzz!" When his Spiritual Will was completely imprinted within the inner origin eye, the entire Eye of Life and Death acknowledged its master wholeheartedly!

After all this was a Secret Treasure refined by Senior Yuan and others, it was easy to utilize.

```

Huh!

The colossal Eye of Life and Death rapidly shrunk and simultaneously flew towards Luo Feng, entering the spot between his eyebrows.

In fact, as a Secret Treasure, this Eye of Life and Death can be placed separately, such as on the palm of the hand or other positions. However, being a creature from Earth, Luo Feng was accustomed to placing his third eye at the spot between his eyebrows.

"Open your eye and take a look at this world." Luo Feng's Eye of Life and Death between his eyebrows slowly opened. The Eye of Life and Death was comprised of ninety percent blackness, with only the pupil emanating a piercing golden light.

Under Luo Feng's control, the walls of Star Tower posed no hindrance, and with a single glance, he could already see the outside
```

world and its heavens and earth.

The first thing he saw was Huyang City!

Within Huyang City resided billions of creatures. With just one sweep of his vision, Luo Feng completely saw through their lives, whether it was their physical bodies or souls, including their most basic life composition; there were no secrets. It was only the Ultimate Realm Beasts that posed a slight hindrance.

"Morosa." Luo Feng looked over the entire city. The slightly concealed Ultimate Realm Beast, with its Great Dao Perfection, was beyond his ability to probe all of Morosa's secrets.

Under the Eye of Life and Death.

Luo Feng still saw the world within Morosa—a world whose essence was a complete Path of Destruction in motion. Just like the essence of the Primordial Cosmos, which was a complete Great Dao of Life in motion.

The world within Morosa, having reached its pinnacle state, could now rival that of the Primordial Cosmos.

"The strongest aspect of Morosa is the world inside him. If he could use the 'world' inside him more ingeniously, his power could advance even further."

"However, his destruction weakness is also the world inside him. The operation of a world has its weak points; by targeting these weaknesses, the operating rules can easily collapse. If the world is annihilated, it means the complete extinction of Morosa."

Luo Feng still had some confusion regarding the world inside Morosa.

Yet from what he could only partly probe, he found at least seven weaknesses in its operation. He was confident that with a blink of an eye, he could destroy the functioning of the world within Morosa, leading to Morosa's demise.

"To be able to see the most powerful aspects of life, as well as the fatal weaknesses." Luo Feng looked beyond Huyang City.

Under the Eye of Life and Death.

All the mightiest beings across the Land of Origin could no longer hide.

The Lord of Shadow Sky Realm, Pu Xin Godly King, and other mysterious entities—all were exposed under Luo Feng's Eye of Life and Death. Breaking through formations' obstructions, through hidden spatial barriers, he saw these powerful beings.

"Creatures with Primordial Bloodline!" Luo Feng also observed the Primordial Bloodline Creatures cultivated by the two Ancient Countries. Although these creatures were usually hidden in independent spaces and further concealed by formations, none could avoid his gaze.

"The Land of Origin, in its entirety, has nine kinds of Ultimate Realm Primordial Bloodline Creatures," Luo Feng saw clearly.

"The weakest only has three forms."

"The strongest possesses twelve forms."

With the Eye of Life and Death, Luo Feng could break through many formation obstructions and spatial barriers, seeing those Primordial Bloodline Creatures, even to the core of their life composition.

These Primordial Bloodline Creatures had low intelligence, with the most special feature being their bloodline within them! Under Luo Feng's insight, these bloodlines were completely unguarded. Not to mention the stronghold of vitality and the destruction weakness, he could see through their entire being, inside and out.

"I don't even need to gather materials from these bloodline creatures to comprehend their life forms; even their matter, I understand and can transform into," Luo Feng marveled.

He had previously collected materials from three Ultimate Realm Primordial Bloodline Creatures.

But now, there's no need to collect anymore. As long as he was in the Land of Origin, under the observation of the Eye of Life and Death, it

was as if he had them in his hands for close inspection, with no difference!

"The Three Alien Clans, both Ancestors of the countries, and the East Extreme Domain Ancestor!" Luo Feng also saw them, frowning slightly, "However, observing them is too obscure."

These Divine Emperor Level existences had realms much higher than those of the Primordial Bloodline Creatures; their lives were more mysterious, protected by various secret techniques.

Even Luo Feng could not see their core life composition.

He could only see the basic capabilities—the stronghold of vitality and the points of destruction weakness.

"Even with the weak points identified, they pose no threat to them," Luo Feng realized just by looking, because the avatars of the Primogenitor Yan Feng, Thunder Ancestor, and the East Extreme Domain Ancestor were too mighty.

With the ultimate power on the Land of Origin, targeting their fatal weaknesses would be useless against them!

Luo Feng continued to observe other areas.

He observed the functioning of the Land of Origin!

The functioning of the Universe Ocean!

He looked at the Primordial Cosmos across three thousand dimensions, each one as if he were observing it closely.

With a blink of his eye at the brow, Luo Feng clearly saw the core of the Land of Origin, the nine Origin Great Dao that formed the Supreme Rules.

The Great Dao itself allows Godly Kings to glimpse, not setting barriers against the creatures within the Source World.

Thus, with the Eye of Life and Death, Luo Feng saw the complete Supreme Rules.

"This is Supreme Rules." Luo Feng watched, "To comprehend the Supreme Rules, one must first understand these nine Origin Great Dao, and then penetrate the perfect cooperation between the nine Origin Great Dao, ultimately forming the Supreme Rules."

"Once the Supreme Rules are comprehended, naturally one would have already escaped the Braided Cage and might even hope to create a new Source World."

Luo Feng speculated.

He could see it, but it was of no use.

Like how mortals can see the sun and speculate about its life cycle. Yet, to create a sun is billions of times more difficult than simply observing it.

"Observation, however, is indeed the most important step taken," Luo Feng now understood the significance of the Eye of Life and Death. Most cultivators are fumbling in the dark, gaining a bit more awareness of the world outside the Braided Cage through methods like studying the bodies of high-level Primordial Life and such.

But the Eye of Life and Death allowed Luo Feng to peer beyond the Braided Cage and understand the greater secrets of higher levels.

Such an opportunity at this level would only be bestowed upon the most dazzling geniuses amongst countless worlds by entities like Yuan!

Huh.

With another blink of an eye, the probing of the Eye of Life and Death already broke through the membrane wall of the Source World, seeing the vast and boundless Primordial Force outside.

"Even though after death, the Eye of Life and Death will return to Infinite Space, this is still a tremendous opportunity," Luo Feng understood. In terms of complexity, the Eye of Life and Death is not as profound as Star Tower.

But in terms of assisting in cultivation, the effects of the Eye of Life

and Death are much better.

"Even so, the previous twelve Exchangers were each considered peerless geniuses, but only one managed to escape the Braided Cage, and even the one who escaped ended up dying in battle," Luo Feng also understood, the road was hard.

In Infinite Space, he had seen dozens of treasures ranked higher than the Eye of Life and Death. As for those of even higher value, he was not yet qualified to see them.

Of the Exchangers of those treasures in history, likely many were astonishing talents, but how many could successfully escape the Braided Cage?

```
```

Chapter 274 - 36 Organizing the Knowledge System

Luo Feng sat cross-legged inside the Star Tower, with the 'Eye of Life and Death' between his brows opened, watching the Land of Origin, and even the endless Primordial flows beyond the Land of Origin.

"One glance, and I can see the entire Source World, even beyond the Source World... Is this the observation ability of a high-level Primordial Life?" Luo Feng thought.

He also had a clear awareness.

Although the 'Eye of Life and Death' is refined from the corpse of a complete world-level Primordial Life, 'Life and Death Pupil Beast', it is still used by himself. His own observational power certainly hasn't reached the level of a world-level Primordial Life.

From the abundant information in the Infinite Space Treasure Vault, Luo Feng could determine, Primordial Ancestors, world-level Primordial Lives, high-level Primordial Lives, and low-level Primordial Lives. Their status decreases in that order.

The differences between the levels are vast.

In Luo Feng's view, with the observational ability of a world-level Primordial Life, the Ancestors of two nations, the East Extreme Domain Ancestor, should be seen 'clearly and completely', with no secrets at all.

"To allow a creature within a Braided Cage to possess the observational ability of a high-level Primordial Life stepping out of the cage! This 'Eye of Life and Destruction' is indeed a priceless treasure." Luo Feng no longer looked outward, but instead focused on his surroundings.

Sigh.

Luo Feng's Eye of Life and Death first observed the deep Secret Patterns of the Star Tower.

"Boom!"

On Earth, ordinary people observe with the naked eye, the microscope, X-rays... different methods show different things.

It's the same principle.

As a Second Realm Godly King, with a Divine Emperor Level Will, the deep Secret Patterns of the Star Tower he normally observed are very different from what the 'Eye of Life and Destruction' sees now.

"This, this..." Under the observation of the Eye of Life and Death, Luo Feng was somewhat astonished.

The deep Secret Patterns of the Star Tower, in his view, exist simultaneously across multiple time-space dimensions, resembling a magnificent time-space structure. The innermost layer of this structure is set in a time that is completely still! The blood-red scales are fixed in a certain point in time forever!

Time locked! Eternally unchanging!

No matter how long the external world passes, those blood-red scales are just as they were at the beginning.

"It's so beautiful."

Luo Feng watched.

The blood-red scales, shimmering with twelve colors, were eternal and unchanging, with time and space collapsing into a fixed point around it.

From the core point outward, space gradually unfolds.

As space takes shape, time begins to flow slowly.

These Secret Patterns operate while existing in every flowing timeline.

Viewing different spaces usually requires reaching a high realm in the Origin Dao of Space.

Viewing different timelines also requires a very high level in the path of time.

But Luo Feng's 'Eye of Life and Death' easily sees all this, even some very secret information still couldn't escape its scrutiny.

"In my previous years, I devised nine 'Eight Branches Fusion Techniques'." Luo Feng shook his head lightly, "Looking at it now, my vision was too shallow. My techniques, too, have too many weaknesses."

Luo Feng flipped his hand as if eating candy, and ate a Primordial Crystal, then focused on studying the deep Secret Patterns of the Star Tower.

"I need to reorganize the knowledge system I've accumulated on the paths of life, destruction, and life-and-death," Luo Feng began his research.

The Eye of Life and Death only assisted Luo Feng, allowing him to see some information that high-level Primordial Lives could easily see.

But how to analyze this information?

How to thoroughly study it? And then integrate it into his own path, making it a part of his own 'Great Dao'?

This required comprehension.

This is also why Senior Yuan and others screened out the topmost geniuses from many worlds. If talent isn't sufficient, even given resources, it's a waste. The previous twelve exchangers of the 'Eye of Life and Death' also had high talents, but their achievements were very ordinary.

For Yuan and others, becoming a world-level Primordial Life was

worthy of joy. As for one more high-level Primordial Life? It was not worth mentioning.

Luo Feng had arrived in the Land of Origin for merely eight hundred eras, yet he had reached his current realm accumulation. His talent was undoubtedly far beyond the strongest of the Land of Origin across generations.

...

In the holy land 'Mt. Leiting' of Thunder Ancient Country, a space where the Thunder Ancestor resided in seclusion.

"The remnants of special lives from the deep layers of the Dream Domain, deep within the Heavenly Pillar Realm, I accumulated a total of six pieces, sold them over the long years one by one, and now I'm left with just one." Thunder Ancestor looked at a golden finger bone in front of him.

"Across the different eras of the Land of Origin, I cultivated monarchs to help me collect treasures."

"Various rare treasures, various secret treasures."

"They also helped me achieve Perfection in the Divine Emperor Realm." Thunder Ancestor's gaze was cold, "I have observed 'high-level Primordial Life' prisoners many times! I even attempted to dissect their bodies. And I've exchanged information with many of the strongest from various worlds."

"But..."

"How to awaken ultimately? I still have no clue!"

Thunder Ancestor looked at the golden finger bone in front of him, the last piece of special life remnants, and also the most important one to him.

He gazed at the golden finger bone, his Spiritual Will penetrating, able to see the Thunder Secret Patterns contained within it, and could vaguely see a towering behemoth.

"Senior Yuan once personally told me that my breakthrough opportunity lies within this phalanx! Just understanding a hint of it could lead to ultimate awakening," lamented the Thunder Ancestor with frustration.

"A hint?"

The Thunder Ancestor, in agony, continued, "It's right before me, yet despite studying it for multiple eras, I remain completely baffled."

In fact, the Thunder Ancestor had long realized that his comprehension was weak. Achieving the Ultimate Realm, he took tens of times longer than the Primogenitor Yan Feng. He never even managed to comprehend the path to the 'Divine Emperor Realm'! That's why he abandoned the Enlightened One Lineage and switched to cultivating the Primordial Bloodline.

The Primordial Bloodline was indeed easier as all it required was to tap into the blood's potential. Relying on time and resources, and with some opportunities, he forcibly reached his current state.

"Despite both being Divine Emperors at Perfection, those most terrifying beings could obliterate me with just a slap." The Thunder Ancestor was very aware of the gap.

Divine Emperor Perfection is equivalent to the Half Primordial Level! The gap could still be significant.

Naturally, those of the Enlightened One Lineage at Divine Emperor Perfection are much stronger.

Among the countless powerful beings in myriad worlds, there are even more spectacular ones! Some have elevated not just one path but several to the 'Half Primordial Level'! There are even those who have begun to merge different 'Half Primordial Paths', and some who can tap into World Level Primordial Bloodline Power...

Those beings are truly awe-inspiring!

Among those beings, some have stepped out of their constraints to become High Level Primordial Lives! It's even said, some have reached the level of World Level Primordial Life!

Compared with those beings, the Thunder Ancestor was just an insignificant figure standing in the furthest corner.

"No clues at all," sighed the Thunder Ancestor as he looked at the phalanx before him, calming his mind, and continued his detailed research.

...

Atop Mt. Leiting.

Two Monarchs met.

"White Demon, you really have some nerve," said the sacred-looking man covered in bluish-white scales with three scale-armored tails, displeasedly looking towards the pale-skinned elder, "Aside from some minor border nations, you even dare to send your men to capture tribes within some wilderness areas of our Thunder Ancient Country."

"Lan Duo Monarch, you've found out about this?" the White Demon Monarch smiled, "My subordinates have been very careful, spread out across the various Primal Chaos Prefectures of Thunder Ancient Country and made minor movements. Other Monarchs haven't noticed, yet you did."

Lan Duo Monarch frowned, "It's one thing to target some Edge Kingdoms, but why act within our country?"

"The entire Land of Origin is bound for destruction, almost all creatures of Thunder Ancient Country must die," said the White Demon Monarch nonchalantly, "So, for some wilderness areas in our Thunder Ancient Country, what does it matter if I capture some creatures?"

"Lan Duo, as you know, Galaxy Divine Country has occupied a vast territory. Suitable domains for us to plunder are diminishing, you too send your subordinates to plunder... after thinking it through, I could only start within our country," White Demon chuckled, "Our country is vast enough! As long as it doesn't cause a huge uproar, no one will care."

Lan Duo Monarch looked at his fellow.

He was covetous.

"You can join in the action too," White Demon laughed.

"Keep a low profile," Lan Duo Monarch spoke, "Do not touch any major cities; as for wilderness areas… let's split them, each taking half of the Primal Chaos Prefecture, the number of captive creatures should not exceed one-tenth of the wilderness area."

"You are harsher than me; my plundering is far from one-tenth," the White Demon Monarch laughed heartily.

...

Despite the plundering by subordinates of these two Monarchs, 'Lan Duo Monarch' and 'White Demon Monarch' of Thunder Ancient Country, they had been extremely cautious! Moreover, Land of Origin was already in turmoil with wars, and internally, Thunder Ancient Country hadn't detected the issue for a short period.

However, as time slowly passed,

especially with the robbery throughout Thunder Ancient Country, it eventually triggered numerous chain reactions. After all, tribes in the wilderness had relatives hunting outside or settling in large cities.

So when entire tribes were plundered, it eventually raised investigation from many survivors, and the investigations grew louder, involving even the Royal Family Godly King.

...

In the capital of Galaxy Divine Country,

"What audacity!" Emperor Gui Xu, looking at the intelligence report in his hand, was furious. He turned to Wuxin Godly King, "Wuxin, are you sure the information you gathered is correct?"

"You know my capability to escape detection," sneered Wuxin Godly King, "The uproar has already started in Thunder Ancient Country.

Initially, the Royal Family Godly King of Thunder Ancient Country started furiously investigating this matter, but then it stopped abruptly, which I found suspicious."

"I was also curious who could be so bold. This plundering not only offends Thunder Ancient Country but also offends the Galaxy Ruler."

"Out of curiosity, I investigated in detail, haha, it turned out to be an inside job by Thunder Ancient Country," Wuxin Godly King shook his head, "Those responsible for the plunder, the eternal true gods, I've traced back to White Demon Monarch and Lan Duo Monarch. These two Monarchs' subordinates are not only plundering within Thunder Ancient Country but also in some border nations. The plundering has been going on for about seventy eras."

"It's been seventy eras?" Emperor Gui Xu was furious, "Such a long time and large-scale plundering, they utterly disregarded our ruler. I'll report this to the ruler immediately!"

Emperor Gui Xu immediately stood up and left.

Wuxin Godly King watched this scene; during the investigation, he too was infuriated, but he was in no position to provoke the Monarchs of Thunder Ancient Country.

"I wonder how the Galaxy Ruler will handle this," thought Wuxin Godly King.

Emperor Gui Xu held a high position within Galaxy Divine Country and met Morosa right away to report the matter.

Inside the palace.

"What?" Morosa was also shocked and furious upon receiving the news, "What audacity from White Demon Monarch and Lan Duo Monarch, they completely disregarded our lord!"

"Lord, Lord!" Morosa immediately communicated via spiritual will to Luo Feng.

—

Thanks to the two new sponsors, 'Luo Yao'er' and 'Xiao Muxiaokong' for their support!

Chapter 275 - 37 Luo Feng and the Thunder Ancestor

```

Huyang City, within the quiet room of the city owner's mansion, inside the Star Tower space.

Ever since obtaining the Eye of Life and Death, the world Luo Feng saw was different. He was comprehensively organizing his knowledge system, perfecting one secret technique after another.

"Master, Master," Morosa communicated mentally.

"Hmm?"

Luo Feng slowly opened his eyes, temporarily halting his cultivation. "Morosa, what is it?"

Without something significant enough, Morosa did not dare to disturb him.

"Master, the White Demon Monarch and Lan Duo Monarch of the Thunder Ancient Country have secretly dispatched their subordinates to quietly plunder some border kingdoms and within the Thunder Ancient Country for about seventy eras," communicated Morosa. "Seventy eras of accumulated plundering is a tremendously large number of creatures."

Luo Feng slightly frowned.

The last time he acted, he primarily targeted the top ten great sinners on the Land of Origin, such as the ancient royal family Godly Kings, Emperors, Monarchs, who were hiding in the capital's dens or in Mt. Leiting. Luo Feng couldn't do anything back then, so he chose to lure
```

the snake out of its hole to bring out Di Yuan.

Killing Di Yuan served to deter the Land of Origin!

"Since the establishment of the Galaxy Divine Kingdom, over three hundred seventy eras, I haven't taken action again," Luo Feng said softly. "As long as no more great sins are committed, I will let bygones be bygones. Who would have thought, my temper is still too good!"

Letting bygones be bygones was also a tacit understanding between the Galaxy Divine Kingdom and the two ancient countries at that time.

After all, Luo Feng couldn't do anything to Primogenitor Yan Feng, Thunder Ancestor; many things still required a step back.

"Master, your temper is too good. In my opinion, you should regularly patrol the Land of Origin. Kill those found committing great sins!" said Morosa. "Master, you are busy cultivating; such tasks of patrolling the Land of Origin can be completely entrusted to me!"

"Discover a great sinner, kill one. Regularly! Kill until these great sinners are frightened," Morosa continued. "Then those Emperors, Monarchs would no longer dare to hold onto lucky hopes."

"What you say makes sense," Luo Feng said. "By the way, how did you find out about this matter?"

"It was reported by Emperor Gui Xu. I'll send the detailed intelligence to the master," Morosa immediately sent the complete intelligence.

Luo Feng checked it.

Such detailed intelligence! It doesn't quite match Emperor Gui Xu's style of handling things.

"Buzz!"

Luo Feng's Eye of Life and Death at his brow opened, looking towards the Galaxy Capital of the Divine Kingdom, at a glance, seeing Emperor Gui Xu, and also noticing Wuxin God King in Emperor Gui

Xu's cave mansion.

"Does this matter have something to do with Wuxin God King?" Luo Feng pondered. Wuxin God King was cautious in his actions with excellent stealth techniques, capable of uncovering such detailed intelligence.

Of course, Luo Feng would not fully trust this intelligence.

Believing whoever complains directly would make him a tool for others' manipulation.

"The intelligence recorded some important subordinates of the White Demon Monarch and Lan Duo Monarch." Luo Feng saw these names and generated causality. Using the Eye of Life and Death, he instantly locked onto one target after another.

Luo Feng's Eye of Life and Death lock was clearer than that of an ordinary Godly King Ultimate Realm targeting.

"Old Chen God King." Luo Feng locked onto a Godly King of the First Realm, Old Chen God King being the key figure under Lan Duo Monarch responsible for the plunder.

...

"I knew it, shouldn't have plundered within the Thunder Ancient Country's borders. But the Monarchs forced my hand." Old Chen God King was restless in his cave mansion. "After seventy eras of plundering, the accumulation is too much and the impact too great. Multiple royal Godly Kings have traced this matter..."

The act of plunder by the subordinates sent by White Demon Monarch and Lan Duo Monarch, even within the Thunder Ancient Country, was no secret within the royal family.

But this matter was a huge scandal, temporarily suppressed.

"The royal family cannot do anything to the two Monarchs, but I am in trouble." Old Chen God King was very uneasy.

Suddenly—

A terrifying mental wave enveloped Old Chen God King instantly.

Old Chen God King felt utterly confused, his consciousness muddled, with no ability to resist.

With the Eye of Life and Death from afar, Luo Feng could descend with mental will! With the deepening understanding of the Great Dao, Luo Feng's mental will was also slowly rising. When it exceeded 'Divine Emperor Threshold' by fifty percent, his mental will's strength touched the upper limit of the Land of Origin.

Although the mental will can still very slowly increase, on the Land of Origin, it can no longer exert stronger powers.

The Lie Yuan Technique, besides defeating enemies, also includes some secret techniques of suppressing and confusing enemies. Just that in the past, Luo Feng generally aimed to completely annihilate enemies. However, under the mental will of Luo Feng at this moment, Old Chen God King was utterly confused with no ability to resist.

"With a confused consciousness and no ability to resist, I can indeed examine his memory." Luo Feng thought.

With a clear consciousness,

Even with the Eye of Life and Death, Luo Feng could only glimpse a few of Old Chen God King's clearest thoughts, unable to browse his memories fully.

But a confused consciousness deprived of the ability to resist allowed Luo Feng to easily 'observe' memories. This was an observation ability possessed by high-level primordial life.

"Indeed, he was dispatched by Lan Duo Monarch," Luo Feng checked, feeling a surging killing intent upon discovery. "The most loyal minion of Lan Duo Monarch, fully responsible for the plunder. The plunder in border kingdoms was relatively smaller, given their smaller territorial scope. The wilderness area of the Thunder Ancient Country, divided in two by Lan Duo and White Demon Monarch! Over seventy eras, the accumulated plundered creatures should reach

about one-twentieth of the wilderness area's creatures."

"One-twentieth?"

Luo Feng was very shocked.

Thunder Ancient Country, in terms of scope, may be equal to several first-class kingdoms! However, as the most core and prosperous place on the Land of Origin, the number of creatures bred here far exceeds some border kingdoms.

"In the Thunder Ancient Country, over ninety percent of creatures reside in the wilderness area. Those who can enter the cities are the minority."

"Yet for the wilderness area's creatures, these two Monarchs have cumulatively plundered about one-twentieth? How massive is that number of creatures?"

The wilderness area is vast, with scattered tribes making it very difficult to tally the total number.

However, Old Chen God King, being fully responsible under Lan Duo Monarch, could estimate a rough ratio based on total data. He even had detailed figures of plundered creatures in his memory.

"This...," Old Chen God King's memory contained recollections of repeatedly transporting plundered creatures to Lan Duo Monarch.

Each transport scale was measured in trillions of creatures, continuously delivered over seventy eras. The total made Luo Feng's heart tremble.

Compared to Lan Duo Monarch, the Emperor of Tian Kun was insignificant.

"When an ancient country's Monarch goes mad, it's genuinely terrifying," Luo Feng murmured.

The number one sinner on the Land of Origin, Iron Demon Lord, was backed by Di Yuan! Di Yuan should have been the one who plundered the most creatures on the Land of Origin. Even back then,

when teachers like Emperor Chu joined forces to help, Luo Feng still didn't hesitate and killed Di Yuan.

The one who seemed like the second sinner on the surface, Black Vulture Ancestor, was backed by several Monarchs from the Thunder Ancient Country, possibly including Lan Duo Monarch.

"The dog that can't stop eating excrement, the Monarchs of the Thunder Ancient Country who love devouring creatures, having no Black Vulture Ancestor to help, even laid hands within their country's borders." Luo Feng's Eye of Life and Death at his brow looked towards Mt. Leiting.

Rumble~~~

Majestic! Magnificent! Unshakeable!

As the premier Holy Land of the entire Land of Origin, even Thunder Ancestor has avatars residing here, such as Lan Duo Monarch, White Demon Monarch, and other Monarchs also live here.

"What a Mt. Leiting."

With his Eye of Life and Death, Luo Feng viewed more of Mt. Leiting's mysteries and could discern its strengths and weak points.

"Though Mt. Leiting is formidable, with my current strength, in conjunction with the Star Tower and the Eye of Life and Death, it's enough to breach it." Luo Feng gazed remotely, looking at the terrifying figure inside a secret space atop Mt. Leiting. "Yet what makes Mt. Leiting truly terrifying is primarily the 'Thunder Ancestor' hidden within."

Luo Feng's Eye of Life and Death broke through barriers of Mt. Leiting, spatial obstructions, and array obstructions, seeing the true form of Thunder Ancestor.

"Such a terrifying physical body, his body is much stronger than Primogenitor Yan Feng." Luo Feng could 'observe' some fundamentals of the counterpart.

A body so powerful as to be inconceivably resistant.

If it were outside the Land of Origin without the restriction of its capabilities, Thunder Ancestor could probably crush the few secret treasures left by Di Yuan with a flick.

"Although I can see his weak points, Thunder Ancestor just sitting there, allowing me to attack freely, within the limitations of the Land of Origin's power, I still can't hurt him whatsoever. If he chooses to shield Mt. Leiting... I equally can't breach it." Luo Feng understood this point.

If the Monarchs were in charge of Mt. Leiting, he could breach it.

Thunder Ancestor personally taking action? No chance.

The same reasoning applies, for him to protect Huyang City or Galaxy Capital, the two Primogenitors couldn't breach them.

On the Land of Origin... Luo Feng, East Extreme Domain Ancestor, Emperor Qing, and the two Primogenitors couldn't do anything to each other, and even if one had the upper hand, they couldn't hurt the other.

They couldn't do anything to each other, thus requiring mutual compromise!

Luo Feng killed Di Yuan, and Primogenitor Yan Feng didn't come to see Luo Feng, as if the event didn't happen, just endured it.

The royal family Godly King committed various sins in the past, and Luo Feng also endured it.

Both sides had a tacit understanding.

Yet this mutual understanding... was broken by Lan Duo Monarch and White Demon Monarch!

"The two of them must die." The batches of plundered creatures in Old Chen God King's memory subjected Luo Feng to uncontrollable killing intent.

Such scum cannot be allowed to live!

******

In a hidden space atop Mt. Leiting.

Thunder Ancestor continued to scrutinize that section of golden finger bone, carefully pondering and researching, when suddenly—

"Thunder Ancestor."

A voice sounded in Thunder Ancestor's ear.

Thunder Ancestor gave a jolt, his complexion changed dramatically.

"Impossible!" Thunder Ancestor could not believe it. "This is Mt. Leiting. Mt. Leiting is a Divine Emperor-level cave mansion secret treasure refined by my own hands. I even personally opened this hidden space, arranging formations. Even Yan Feng could only contact me using communication treasures."

"Thunder Ancestor, I am Galaxy." Luo Feng's voice sounded.

Thunder Ancestor's eyes faintly flashed with lightning. Previously, he hadn't considered the Galaxy Ruler, thinking perhaps he was just a junior who barely crossed into the early stage of Divine Emperor. But at this moment, he dared not underestimate him at all.

The means to break through cave mansion secret treasures, space, and numerous formation barriers to transmit sounds to his ear were somewhat too terrifying.

"It seems I underestimated the Galaxy Ruler." Thunder Ancestor spoke.

"Thunder Ancestor, do you know that the White Demon Monarch and Lan Duo Monarch have plundered living beings within the Thunder Ancient Country's borders for a full seventy eras, and the total quantity of plundered creatures has broken the 'trillions' mark?" Luo Feng said.

Thunder Ancestor was taken aback.

Trillions?

Even in the Thunder Ancient Country, reaching such a quantity is still considered a vast number of creatures.

"I have not started a killing spree since I killed Di Yuan! As long as cultivators on the Land of Origin don't commit great sins, I won't pursue past matters. But with what White Demon and Lan Duo have done, they're utterly disregarding me," Luo Feng's voice sounded in Thunder Ancestor's ear.

"Of course, they are Monarchs of the Thunder Ancient Country, and how they are disposed of naturally should be determined by the Primogenitor," Luo Feng transmitted.

"I will investigate this matter and verify it," Thunder Ancestor responded, then laughed, "Galaxy Ruler, your strength is unfathomable. Once this matter is settled, I, Yan Feng, and you, the three of us should gather."

"Sure." Luo Feng replied, then ceased transmitting, closing his Eye of Life and Death no longer to probe Mt. Leiting.

```
```

Chapter 276 - 38 The Thunder Ancestor's Punishment (Happy New Year's Day)

```

The Thunder Ancestor sat on the ground, his gaze cold and deep.

"He can spy on my secluded and slumbering place, and even transmit sound?" Thunder Ancestor pondered.

"Flame Wind."

Thunder Ancestor used the transmission token to transmit sound from afar, "How much do you know about the Galaxy Ruler?"

"What happened?" Primogenitor Yan Feng asked in confusion through the transmission, "I haven't dealt with the Galaxy Ruler. The information I know is the same public information that you know."

"Just now, he directly transmitted sound to my secluded and slumbering place," Thunder Ancestor said solemnly.

Primogenitor Yan Feng was also astonished after hearing this.

When venturing outside the Source World, they needed to confront the powerful from billions of worlds and battle many low-level Primordial Lifeforms. Therefore, they took the safety of their residence very seriously. There was naturally a lot for sale, like cave mansion secret treasures and various protective formations.

Whether it was Primogenitor Yan Feng or Thunder Ancestor, they were undoubtedly cautious in guarding their secluded and slumbering places.
```

"We can be sure he hasn't jumped out of the Braided Cage," Thunder Ancestor said in a low voice, "So, making this move, he must have obtained some extremely powerful secret treasure."

"You mean... truly top-tier secret treasures in Infinite Space?" Primogenitor Yan Feng also guessed.

The Infinite Space Treasure Vault, with treasures valued at at least one hundred thousand reward points, was also renowned outside the Source World! Many 'Half Primordial Life' beings purchase such treasures regardless of cost.

But such treasures are very hard to obtain.

Like Emperor Ming, who amassed over 110,000 reward points through outstanding performance in spiritual will. However, the Great Dao Realm is fundamental! Emperor Ming did not hesitate to exchange for some inheritances most suited for himself. Therefore, the remaining reward points were insufficient to trade for a 'secret treasure worth at least 100,000 reward points.'

For Emperor Ming himself, this was the most suitable choice.

His 'Dao comprehension' was rather weak. Under the guidance of a special-grade inheritance, with the help of the Imperial Clan's resources, and under super strong spiritual will, he could not comprehend a complete Great Dao. So he chose Primordial Bloodline cultivation; tapping into the potential of the Primordial Bloodline was much easier than understanding the Great Dao. Although Emperor Ming did not become Ultimate Realm, he could even kill most Emperors and Monarchs in one-on-one situations.

Thunder Ancestor initially only amassed several tens of thousands of reward points.

Primogenitor Yan Feng barely exceeded 100,000 reward points. But similarly, he spent quite a lot on inheritance.

Luo Feng, having accumulated over 200,000 reward points, exchanged for an 'Eye of Life and Death.'

"The truly top-tier secret treasures of Infinite Space are said to be

prohibited from being taken out of the Source World," Primogenitor Yan Feng transmitted, "The few that can be taken out, those cultivators generally do not carry them."

"Those that can be traded outside are generally secret treasures worth several tens of thousands of reward points. Those over 100,000 reward points are very few. Even if there were transactions, we wouldn't be in line."

Looking at the many Source Worlds and billions of worlds, where experts from all sides gather, Primogenitor Yan Feng and Thunder Ancestor appear ordinary.

"Yes, such treasures are generally prohibited from being taken out of the Source World. Within the Source World, we cannot do anything to this Galaxy Ruler." Thunder Ancestor's heart itched; he was genuinely envious.

Compared to the special life remnants and the original secret techniques, the Infinite Space with 'at least 100,000 reward points' treasures is the most special.

Over multiple eras, it's rare for even one to emerge.

"Since he dares to publicly display this means, he's not afraid of us targeting him," Primogenitor Yan Feng said, "I guess... he simply cannot take this treasure out."

"Hmm." Thunder Ancestor agreed with his friend's speculation.

"Why is he looking for you?" Primogenitor Yan Feng asked.

"It's about White Demon and Lan Duo," Thunder Ancestor simply explained the matter.

Primogenitor Yan Feng understood: "It's said the Galaxy Ruler detests evil like a nemesis. It's true. He might want to kill White Demon and Lan Duo, but since they are both on Mt. Leiting and the Galaxy Ruler can't kill them, he asks you to deal with it."

"Me to deal with it?" Thunder Ancestor listened, "He can't kill them, so I should?"

"The decision is yours," Primogenitor Yan Feng transmitted, "If you kill them, he might owe you a favor. If you don't... this Galaxy Ruler, detesting evil, probably won't let it go."

Thunder Ancestor laughed, "You're right; the decision is mine!"

...

Mt. Leiting, within the ancient great hall.

"Ancestor."

Eight Monarchs respectfully knelt down, not daring to look up at the one above.

Thunder Ancestor looked down with a cold gaze.

Towards the Galaxy Ruler, he had fear, anger, dissatisfaction, and jealousy. But facing these kneeling Monarchs, he couldn't muster any emotions.

"White Demon, Lan Duo, do you two acknowledge your sins?" Thunder Ancestor spoke indifferently.

White Demon Monarch and Lan Duo Monarch trembled inside upon hearing.

They were dumbfounded.

The reason they dared to plunder within the Thunder Ancient Country's borders was that they understood the Ancestor's temperament well! The Ancestor was aloof, not caring much even about these Monarchs. As for the death of ordinary Royal Family God Kings, Thunder Ancestor cared even less.

As long as it didn't affect the entire ancient country's operation, the Ancestor was too lazy to bother.

The creatures they plundered amounted to about one-twentieth of the wilderness. Over time, it could naturally repopulate.

"Acknowledge the sins!"

White Demon Monarch and Lan Duo Monarch, though having many thoughts, responded respectfully without hesitation, not daring to rebut.

A rebuttal might instantly turn them to ashes. Worse consequences than plundering countless creatures.

"Since you acknowledge, from today on, you two shall go to the Heavenly Pillar Realm. Either obtain a special life remnant or an innate secret treasure," Thunder Ancestor said indifferently, "If you fail, perish with the Land of Origin."

White Demon and Lan Duo were stunned.

What?

Fail to get treasures, and they must die?

Even if they choose to reincarnate, when the Land of Origin faces destruction, they'll still die.

"Yes." White Demon and Lan Duo, painfully unwilling, could only obey.

Thunder Ancestor cast a cold glance at them and then vanished from the throne.

These two Monarchs were excellent tools cultivated by him, how could he easily waste them? Naturally, he pressed them for their abilities. Obtaining a special life remnant is a big gain! An innate secret treasure would be a small gain.

"White Demon, Lan Duo, plundering in the Edge Kingdom is one thing, but plundering within our ancient country... Now the Ancestor has severely punished; you should properly atone!"

"You two, too presumptuous."

The other Monarchs showed no sympathy.

White Demon and Lan Duo didn't say a word, turning to leave the hall.

...

Huyang City, the quiet room of the city lord's mansion, inside the Star Tower.

On Luo Feng's brow, the 'Eye of Life and Death' opened, watching Mt. Leiting from afar.

Under his observation.

He could see past moments. Past moments' 'worlds' seemed to create a continuous massive video, which Luo Feng could easily observe.

Like a trace left in flight!

All past experiences are imprinted in time and space. The stronger the power, the better the self-concealment. Generally, mastering the complete Great Dao can perfectly hide oneself.

However, Luo Feng's Eye of Life and Death was the observational ability of a high-level Primordial Life outside the Braided Cage.

Even the Thunder Ancestor and Primogenitor Yan Feng, Luo Feng could glimpse some traces. Of course, their communication through transmission tokens couldn't be spied by Luo Feng.

"Hmm?"

Luo Feng, observing past moments, easily discovered the scene where in the grand hall at the peak of Mt. Leiting, Thunder Ancestor summoned the Monarchs.

"Sending them to the Heavenly Pillar Realm, forcing them to obtain a special life remnant, or innate secret treasure?" Luo Feng frowned, "As for their subordinates, not a single one was punished?"

Having reviewed Old Star God King's memories before, he saw many memories where countless creatures were given to Lan Duo Monarch.

Lan Duo Monarch's mouth would immediately consume countless creatures.

Those scenes had long stimulated Luo Feng to murderous intent.

He had already decided!

To kill those two! But under Mt. Leiting's protection, under Thunder Ancestor's shelter, he was also very troubled. So he contacted Thunder Ancestor.

"I displayed some special means, yet the Thunder Ancestor still didn't take it seriously," Luo Feng shook his head lightly, "Forget it, relying on others is not as good as relying on oneself. It's better to do it myself."

"Doing it myself, although there's no guarantee."

"But, I have to try!"

For the countless creatures swallowed.

So that strong ones in the Land of Origin won't dare to recklessly consume creatures in the future.

Luo Feng decided to go all out this time!

...

Whew! Whew!

Two figures traversed a long distance, arriving at one entrance of the treasured location 'Heavenly Pillar Realm.'

"All because of you," Lan Duo Monarch said angrily, "under your instigation, I worked with you, and who would have thought it would make the Ancestor so furious this time."

"You benefited, and now you blame me?" White Demon Monarch sneered, "At least you, Lan Duo Monarch, have an avatar on Mt. Leiting. I have none, and I have to venture to the depths of the Heavenly Pillar Realm with my true body."

"Once the Land of Origin is dead, if I don't get treasures, I'll die as well?" Lan Duo Monarch was very unwilling.

As Monarchs, they could leave the Land of Origin and explore outside initially.

"Nobody forced you to plunder countless creatures, to swallow countless creatures," White Demon Monarch showed disdain.

They continued talking as they entered the Heavenly Pillar Realm entrance.

At the entrance of the Heavenly Pillar Realm, both ancient countries had stationed guardians; the one from Flame Wind Ancient Country... was Luo Feng.

"That's Luo He God King," White Demon Monarch and Lan Duo Monarch glanced at Luo Feng in the distance, unwilling to say more. Their mood was bad at the moment.

Whoosh.

The two Monarchs flew into the depths of the Heavenly Pillar Realm.

Luo Feng sat cross-legged, responsible for guarding, merely glancing at the two Monarchs: "Finally, they arrived!"

At the same moment—

Huyang City.

"They've entered the Heavenly Pillar Realm." Luo Feng's brow Eye of Life and Death watched from afar.

Swish!

With a step.

The first step took Luo Feng to the entrance of the Heavenly Pillar Realm.

The second step, Luo Feng explosively forced through the formations of the two ancient countries, already appearing in front of White Demon Monarch and Lan Duo Monarch.

"Hmm?" White Demon Monarch and Lan Duo Monarch were startled, seeing a silver-robed, gold-masked figure appear ahead, causing a chill in their hearts.

Thanks to the new Alliance Hierarch '999279,' 'Hukou's Dad,' 'Jiang Something Something' for their rewards! Also, thanks to the old Alliance Hierarchs Old K and Twilight Flowing Stream for their continued rewards!

Tomato also wishes readers a Happy New Year, 2025, with new beginnings and great health and prosperity for everyone!

Chapter 277 - 39, Kill the Monarch

The White Demon Monarch and Lan Duo Monarch both felt that something was amiss at this moment.

"Is this the Galaxy Ruler? It took him just two or three breaths to kill Di Yuan. In front of him, I'm afraid I could only last two or three breaths as well," White Demon Monarch panicked at this moment, for he had no avatar.

"Is the Galaxy Ruler so mad?" Lan Duo Monarch was still holding steady, for he had an avatar in Mt. Leiting and was confident in preserving his life.

"Galaxy Ruler..." White Demon Monarch squeezed out a wry smile, about to speak.

"Hmph!"

Luo Feng, wearing a golden mask, let out a cold snort, as the Secret Technique of Spiritual Will descended upon them.

Reaching the upper limit of Spiritual Will of the Land of Origin, he then cast the Lie Yuan Technique!

"Boom!" "Boom!"

At this moment, White Demon Monarch and Lan Duo Monarch could see nothing else but a vast rolling star that was slowly crushing down upon them. Even as Ultimate Realm Life Forms and protected by Divine Level Secret Treasures, the overwhelming stars still rolled over their consciousness.

Crack crack crack~~~

Their spirits were filled with countless dense cracks. However, the residual will of their Primordial Bloodline always influenced them, and at this moment, they could no longer suppress it, both losing control entirely.

"Ah Ah Ah!!!" White Demon Monarch was in agonizing frenzy. Originally an old man with white skin, his white skin now stretched and spread, with a pair of white bone wings sprouting from his back, skin changing from its previous jade-like luster to a pale white, carrying the breath of death.

Lan Duo Monarch's blue and white scale armor was even more suffused with a dark blue hue, and his stature and facial features rapidly changed, transforming within the blink of an eye into an ugly blue creature all over.

In their loss of control, Luo Feng's Eye of Life and Death on his forehead was observing them both at all times.

"After losing control, their points of destruction increase."

Under Luo Feng's observation.

The original handful of dozens of weak points on White Demon Monarch and Lan Duo Monarch instantly turned into densely packed thousands upon thousands of weak points.

And there are differences among these weak points, some are minor, some are major, and some are even fatal. But to threaten them, a sufficient attack is required.

If it was a regular First Realm Godly King, even knowing these weaknesses, they would not be able to harm the two Monarchs in the slightest.

"After losing control, without wisdom, even the ability to protect oneself is greatly diminished." After seeing clearly with the Eye of Life and Death, Luo Feng extended his hand.

Boom!

A nine-story tower appeared above and plummeted down, affecting

the timeline to some extent during its descent.

The Star Tower fell and struck the enemy in the same instant!

Unavoidable!

"Phut." "Phut."

The seemingly simple falling of the tower was, in fact, a terrifying move unleashed by controlling the Star Tower.

Since obtaining the 'Eye of Life and Death', Luo Feng had sorted through his knowledge system. Previously, he had realized nine 'Eight Branches Fusion' secret techniques for the Great Dao of Life and Death and couldn't progress further. But now, having evolved completely, Luo Feng finally took that crucial step and realized a 'Nine Branches Fusion Secret Method.'

From Eight Branches Fusion to Nine Branches Fusion, it seemed like only one step away! But it was a qualitative change.

This was the Ultimate Realm Secret Technique belonging to the Great Dao of Life and Death!

During these seventy eras, Luo Feng's Eye of Life and Death had been observing the Star Tower for a long time, and his understanding of it reached a new level, freeing even more power from the Star Tower.

"No—"

In the moment White Demon Monarch was struck by the Star Tower, perhaps due to the survival instinct inherent in life, there was a fleeting moment of clarity.

In this moment of clarity, he had a feeling-- he was going to die!

Under the crash of this nine-story tower, he had no trace of vitality left.

"Didn't Di Yuan manage to last for two or three breaths?" In his last moments, White Demon Monarch, unable to do anything, was filled with confusion and unwillingness.

Phut.

Like a great mountain toppling, mercilessly crushing an egg, White Demon Monarch was utterly annihilated.

Luo Feng's Star Tower attack also contained Curse Killing and Causality techniques, naturally affecting all of White Demon Monarch's Resurrection Carriers! The Resurrection Carriers were too fragile, even hidden in Thunder Mountain, a trace of Curse Killing power could obliterate all Resurrection Carriers.

Curse Killing? Causality?

Before acquiring the Eye of Life and Death, Luo Feng was familiar with these moves.

After obtaining the Eye of Life and Death, he could even 'see' the detailed mysteries of how these moves operated. These moves, naturally, also evolved as a whole.

You know, real High Level Primordial Life Forms can even 'Soul Pollute' Divine Emperor Level warriors, causing the Divine Emperor Level avatars hiding in the Source World to ultimately die.

Luo Feng's bit of Curse Killing and Causality, indeed, is insignificant.

"Phut."

The nine-story tower, falling simultaneously on both White Demon Monarch and Lan Duo Monarch, left them with no power to resist, both being extinguished.

However, the Divine Level Secret Treasures they each carried, in the environment of the Land of Origin, simply could not be destroyed, all remaining intact.

"Killed the White Demon Monarch, but Lan Duo Monarch is still alive?" Luo Feng frowned slightly, his Eye of Life and Death remotely peering in the direction of Thunder Mountain.

He first attacked their spirits to make them lose control, then peered at the most fatal weaknesses of the White Demon and Lan Duo, and

then struck with all his might using the Star Tower.

White Demon was completely dead in an instant, without even a chance for reincarnation.

But Lan Duo Monarch... while his avatars elsewhere died, the one in Thunder Mountain was still alive.

"My Curse Killing move was mostly blocked by Thunder Mountain, and the remaining small amount of power could not destroy the Ultimate Realm Life Form of Lan Duo Monarch," Luo Feng lamented internally.

Under the limits of the Land of Origin, killing an Emperor or Monarch is incredibly difficult!

At first, it took me two or three breaths to kill Di Yuan.

Although I have made great progress and now possess the Eye of Life and Death, I still can't touch Lan Duo Monarch.

That's why I previously asked Thunder Ancestor to punish them! If Thunder Ancestor truly killed those two scum, naturally I would owe Thunder Ancestor a favor. But Thunder Ancestor is too proud at heart; you, Galaxy, ask me to kill underlings, and I just kill? What am I, the Thunder Ancestor?

```

In the end...

Luo Feng had no choice but to take action himself.

"To kill one and let one escape." With a wave of his hand, Luo Feng collected the Divine Level Secret Treasures left by the two Monarchs, feeling rather regretful.

"This—"

"This, this, this..."

Deep within the Heavenly Pillar Realm, the Godly Kings of the two
```

ancient Royal Families watched this scene in stunned disbelief.

The Galaxy Ruler forcefully breaking through the Formations of the two Ancient Countries had attracted the attention of other Godly Kings deep in the Heavenly Pillar Realm. According to the rules, the Emperors and Monarchs stationed deep within the Heavenly Pillar Realm are required to repel invaders.

Both ancient Royal Families, including Emperors and Monarchs, witnessed the Galaxy Ruler strike at the White Demon Monarch and Lan Duo Monarch.

In an instant, the two Royal Families dared not intervene.

"In the blink of an eye, two Monarchs died?"

"The White Demon Monarch is thoroughly dead, even his causality has disappeared; he died so cleanly that he probably didn't have time to reincarnate."

"Lan Duo Monarch has many Avatars, but now only the one in Thunder Mountain remains!"

The Godly Kings of the two ancient Royal Families were utterly shocked.

Last time, the Galaxy Ruler took two to three breaths to kill Di Yuan, who had ample time for reincarnation.

But this time?

Gone in an instant! Not even a chance to reincarnate!

"They were truly foolish, knowing full well the Galaxy Ruler loathes evil and daring to plunder so broadly. Now they've met this end."

"From now on, we must never provoke the Galaxy Ruler, not in the slightest."

At this moment, the two ancient Royal Families have elevated the Galaxy Ruler to the same level of untouchability as the Ancestors of their nations, recognizing them as something they absolutely must

not 'offend'.

Not even a single word of offense!

The Royal Families quickly reported back what they saw! Godly Kings of the Royal Families in other parts of the Land of Origin also quickly received the news, and some even saw the recorded scenes of that battle.

At the entrance of the Heavenly Pillar Realm, Luo Feng was standing guard.

"Luo He, Luo He." Master Emperor Chu transmitted his voice.

"Master." Luo Feng replied.

"The Galaxy Ruler has entered the Heavenly Pillar Realm, instantly killing the White Demon Monarch; Lan Duo Monarch was also killed, with only his Avatar hiding in Thunder Mountain remaining. Did you get a clear view of this battle?" Emperor Chu asked.

Luo Feng replied, "I saw it very clearly, the fight took place not far from the entrance. That Galaxy Ruler is still there."

"Do not intervene at all," Emperor Chu transmitted anxiously, "As a gatekeeper, such existences are not for you to deal with."

"I understand." Luo Feng replied.

"You do not understand! You do not understand how terrifying the existences at the level of the Ancestors of the two countries are," Emperor Chu warned, "Remember, you cannot show the slightest disrespect. Not even your gaze can carry the slightest disrespect. A hint of disrespect... could mean complete annihilation! No one in the Land of Origin can save you."

Luo Feng felt his master's concern for him, being right on the edge of the battlefield.

"Don't worry, Master. I think the Ancestral God of the Galaxy who loathes evil would not involve the innocent," Luo Feng transmitted.

"Don't make assumptions! The White Demon Monarch and Lan Duo Monarch both thought that by plundering and devouring countless creatures, the Thunder Ancestor wouldn't punish them. But what happened?" Emperor Chu cautioned, "When facing the beings of the level of the Ancestors of the two nations, the Galaxy Ruler, never bet on their mercy, their character."

Luo Feng laughed, "Rest assured, Master, I understand, I do."

He was still keeping his identity secret, to avoid involving his master and strong individuals from the Human Clan, giving them a safer environment to grow.

On the other hand, acting on his own, he could also be more unrestrained.

"It seems that my actions have greatly shocked Master and the others," Luo Feng thought.

...

Last time he killed an Emperor, this time a Monarch! From this, one can see... no matter the background, the Galaxy Ruler is just as ruthless!

What's most important is...

There is a stark difference between killing an Emperor in two to three breaths and killing instantaneously.

...

In the Holy Land Thunder Mountain.

Inside one of the palaces, where Lan Duo Monarch resided.

"Ssss."

Lan Duo Monarch sat cross-legged with numerous cracks appearing in the blue and white Scale Armor on his body, blood seeping out.

At this moment, he stared blankly at the outside world.

"All of my Avatars in the outside world, including some in the holy places, are gone?" Lan Duo Monarch was somewhat dazed.

His Avatar within Thunder Mountain, though severely injured by Luo Feng's Curse Killing and causality ramifications, was at least still alive. But all his other Avatars were instantaneously erased.

This sent chills down Lan Duo Monarch's spine.

"This is the strength of the Galaxy Ruler?" Lan Duo Monarch was both frightened and awed, "I've lost two of my Secret Treasures!"

This trip to the Heavenly Pillar Realm to search for treasures was commanded by the Thunder Ancestor. Lan Duo Monarch's Avatar also carried two Divine Level Secret Treasures, but now they had become spoils of war for the Galaxy Ruler.

Lan Duo Monarch gradually calmed down.

Losing a few Avatars and two Secret Treasures was acceptable to him.

"Anyway, it's much better than the White Demon's fate; he must be completely dead," Lan Duo Monarch thought, "Against those two moves from the Galaxy Ruler, there was no time for reincarnation."

"Lan Duo, come quickly with us to pay homage to the Ancestor," Lei Xiao Monarch transmitted.

"I'm on my way," Lan Duo Monarch immediately hurried over.

```
```

Chapter 278 - 40 Ultimate Realm Life Form

```

In that secret and vast world of Mt. Leiting, on the endless prairie, the Thunder Ancestor sat on the ground, leisurely observing a segment of golden finger bone.

"Hmm?"

The Thunder Ancestor sensed that the monarchs were coming to pay their respects.

"What's going on?" With a single thought, the Thunder Ancestor immediately traced the causality and the traces of time and space. Soon, he understood the conflict that had taken place within the Heavenly Pillar Realm.

"Good, Galaxy!" The Thunder Ancestor roared in anger, "I have already given him face, chastising the White Demon and Lan Duo! Yet, he remains dissatisfied, even acting personally—he utterly disregards me."

The Thunder Ancestor was furious!

Outside the Source World, crises lurked everywhere, with countless strong figures. The Thunder Ancestor had to be careful, extremely cautious, fearing the stir of major trouble.

But within the Land of Origin, the Thunder Ancestor was relaxed! Here, no matter who it was, they could not harm him in the slightest!

"Outside the Source World, I need to bear and endure."
```

"Within the Land of Origin, no one can make me endure!" At this moment, the Thunder Ancestor was in a rage.

The path he cultivated was fundamentally violent and proud! The more he suppressed outside the Source World, the more he endured. Within the Land of Origin, he could not tolerate any defiance! Did his monarchs dare to refute him? They would all be reduced to ashes!

Luo Feng passed the message, letting him handle it! Knowing that this Galaxy Ruler had mysteriously unpredictable means, but he still refused to completely comply with the wishes of the Galaxy Ruler.

He wanted to act in the Land of Origin for his own pleasure!

"A junior who has never been outside the Source World dares to act so brazenly before me! I must see what gives you this confidence." Instantly, the Thunder Ancestor dashed out of the secret space.

Boom.

Almost instantaneously.

The endless violent thunder power descended upon the Galaxy Divine Country's Capital.

"Rumble～～～" Countless thunder serpents roamed, spreading in all directions, their might shrouding all areas surrounding the Galaxy Capital.

"Galaxy, come out for me!" An angrily shouted command resonated through the nine heavens, causing every creature in the capital and surrounding wilderness to quake with fear.

"The Ancestor has acted!"

"It's the Ancestor!"

The monarchs on Mt. Leiting had intended to report to the Ancestor, but the commotion in the Galaxy Divine Country's Capital area was so massive that any Godly King on the Land of Origin could perceive this terrifying disturbance.

"The Ancestor has finally acted." Lan Duo Monarch eagerly watched, "He must suppress the arrogance of that Galaxy Ruler!"

The Galaxy Ruler was too overbearing.

He consumed some creatures, not even of the Galaxy Divine Country. In fact, the vast majority were hundreds of millions of creatures from the Thunder Ancient Country. Why should he, the Galaxy Ruler, care so much?

...

In a secluded corner of the Land of Origin, within a territory called the 'East Extreme Domain.'

"The Thunder Ancestor has such a temper?" A towering green-clad woman, whose body seemed as massive and immovable as a whole world, was the East Extreme Domain Ancestor, who had achieved the Ultimate Realm through the 'Great Dao of Life Origin,' subsequently entering the realm of the Divine Emperor.

She slightly sheltered these aboriginal creatures of the Land of Origin solely because they were separated by several eras and had no bloodline relations.

"Flame Wind is steady in action, Thunder violent and cunning." The East Extreme Domain Ancestor observed from afar, "This Galaxy Ruler killed Di Yuan, and even Primogenitor Yan Feng could bear it! But when the Galaxy Ruler killed the White Demon Monarch… Thunder couldn't bear it."

"This conflict, I'm afraid, will be difficult to resolve." The East Extreme Domain Ancestor watched the situation unfold from afar.

…...

Emperor Qing also watched this scene from afar.

"Galaxy, my old brother, is so intolerant of evil that he even disregards the face of the Thunder Ancestor?" Emperor Qing gently shook his head, "The Thunder Ancestor is also violent by nature, for them to clash might be a good thing."

"Getting a taste of hardship within the Land of Origin might lead to more caution outside the Source World." Emperor Qing thought.

He believed that his old brother Galaxy Ruler was too domineering in his actions. If he continued like this, he would suffer a massive loss outside the Source World!

It would be better to suffer a small loss within the Land of Origin than a huge loss in the future.

Conflicts within the Land of Origin would not result in significant losses or troubles.

"The Thunder Ancestor is at the pinnacle of the Divine Emperor, having dug into the Primordial Bloodline to an extremely terrifying degree, his level far surpasses that of my old brother, the Galaxy Ruler." Emperor Qing thought, "Even if my brother exchanged for incredibly powerful Secret Treasures, he still can't rival the Thunder Ancestor."

Last time, he had sparred with Galaxy, and he was well aware that, in terms of level, the Galaxy Ruler was somewhat inferior to him, Emperor Qing, only narrowly winning because of that Nine-layered Pagoda.

******

At that moment, in the Land of Origin, regardless of whether it was the East Extreme Domain Ancestor, Emperor Qing, Primogenitor Yan Feng, or other ordinary Godly Kings, all were paying attention to this clash at the highest level on the Land of Origin.

"That is the Thunder Ancestor." Within Huyang City, the Primordial Ancestor looked towards the direction of the Galaxy Divine Country with concern, "Is Luo Feng really clashing with the Thunder Ancestor right now?"

"Luo Feng!" The Mountain sitting guest, using a Secret Treasure mirror, watched with worry, "One of the Land of Origin Ancestors, the Thunder Ancestor, truly an unbeatable presence."

Even those close to Luo Feng had little confidence in him.

...

In the palace within the Galaxy Capital.

After killing the White Demon Monarch, Luo Feng had predicted that the Thunder Ancestor might act, so he patiently awaited in the capital.

"This Thunder Ancestor, as expected of cultivating the thunder lineage of the Primordial Bloodline, his temper is quite irritable." Luo Feng looked up at the endless terrifying thunder above the capital, each thunderbolt powerful enough to suppress an Emperor.

"Galaxy! Come out!"

The thunder boomed, the voice resounding with anger.

"Thunder Ancestor, your kin have devoured hundreds of millions of creatures, and you still have the face to seek me?" A cold voice rang out.

A colossal, phantom head appeared, resembling the head of a beast, it opened its bloody maw, swallowing the endless thunder completely.

"Hmm?"

"This—"

The East Extreme Domain Ancestor, Emperor Qing, Primogenitor Yan Feng, all three were astonished by this scene.

This endless Thunder Domain, though naturally carried by the Thunder Ancestor, yet the power of the Thunder Domain had naturally risen to the 'upper limit of power on the Land of Origin,' and such a terrifying domain, endless thunder, had actually been completely devoured?

Whoosh.

At this moment, Luo Feng soared into the sky above the capital. Clad in silver scale armor, wearing a golden mask, his mere presence exuded a terror that spread over an immensurarprisingly vast range,

faintly concealing a colossal phantom creature.

"What a powerful life form." Primogenitor Yan Feng slightly nodded at the scene, "Simply by releasing his aura, he touches the power ceiling of the Land of Origin. Aside from other realm insights, just the body... at least the early stage of the Divine Emperor."

The threshold of the Land of Origin's power is the threshold of the Divine Emperor Realm.

Merely the release of one's aura touching this threshold indicates unimaginable bodily strength.

"Galaxy, old brother hasn't ventured outside the Source World, yet just by cultivating within the Land of Origin, he's refined his physical body to this level?" Emperor Qing was quite astonished.

A cultivator possesses 'early-stage Divine Emperor strength,' a combination of multiple aspects!

Some cultivators might have terrifying eruptive power, but their physical body remains at the Ultimate Realm of God King level, which is also very common.

"This Galaxy daring to clash with the Thunder Ancestor does speak of some reliance." The East Extreme Domain Ancestor watched from afar.

...

At this moment, the Thunder Ancestor slightly frowned. He wasn't bothered by his naturally carried overwhelming Thunder Domain being devoured! What he cared about was the method by which this Galaxy Ruler 'devoured the Thunder Domain.'

"A junior with at least an early-stage Divine Emperor physical body?" The Thunder Ancestor frowned.

Cultivating at the Divine Emperor level is like groping in the dark, making it easy to develop many flaws.

Wanting to strengthen one's physical body? This is already an

arduous task.

Yet once the physical body grows strong enough, survival abilities naturally rise to an extraordinary level.

"In the environment of the Land of Origin, an early-stage Divine Emperor life form... cannot be harmed." The Thunder Ancestor knew this: outside, he might overturn the world to destroy this physical body, but within the Land of Origin, he posed no threat.

"This junior, his talent is indeed high. Without venturing outside the Source World and focusing on cultivation, he's refined his physical body to the early stage of the Divine Emperor." The Thunder Ancestor's thoughts changed.

Previously, the Galaxy Ruler could peek into the secret space of Mt. Leiting, which merely demonstrated the possession of a powerful Secret Treasure. Having a Secret Treasure sometimes meant simply acquiring a great opportunity, not necessarily becoming a supreme expert. Outside the Source World, quite a few beneficiaries of such great opportunities exist, and those fortunate figures, realizing they can't fully utilize the treasures' potential, often opt to trade them away.

However, merely by cultivating within the Land of Origin, his physical body reached the early stage of the Divine Emperor.

The Thunder Ancestor, Emperor Qing, Primogenitor Yan Feng, East Extreme Domain Ancestor—all these Divine Emperors know what this signifies!

"Once he arrives outside the Source World, exposed to vast information, he may soar to great heights." The Thunder Ancestor, accustomed to bearing, enduring, and enduring again outside the Source World, now felt a shift in mindset; the thought of 'endure' crept into his heart, "I can bear with Flame Wind, I can equally bear with this Galaxy."

Within the Land of Origin, the only one capable of making the Thunder Ancestor bear it was—Primogenitor Yan Feng! Now, there was one more!

The Thunder Ancestor wasn't a fool to have cultivated to his current level, and with a change of heart, his methods of handling things changed as well.

"Galaxy."

The Thunder Ancestor still appeared angry, "White Demon and Lan Duo devoured some creatures, and it was you who informed me. I gave you respect, chastised them, and sent them to the Heavenly Pillar Realm to atone. You didn't notify me this time, targeting them directly... isn't this giving me no respect?"

Luo Feng was taken aback.

The previously wrathful Thunder Ancestor now began to 'reason,' surprising even Luo Feng.

"Just a mere display of some physical ability, and he's this courteous? Physically, I'm far behind him." Luo Feng naturally understood the difference, given his Eye of Life and Death.

In terms of sheer physicality, the Thunder Ancestor is indeed the most terrifying on the Land of Origin.

And what about himself?

Before acquiring the Eye of Life and Death, in the Great Dao of Life, he had comprehended four kinds of Ultimate Realm life forms!

After obtaining the Eye of Life and Death, with a deeper understanding of the Great Dao, he additionally comprehended three kinds of Ultimate Realm life forms.

He had acquired three kinds of 'Ultimate Realm Primordial Bloodline Creatures' corpse materials, these materials respectively possessing 'six, seven, and ten' forms! Luo Feng comprehended seven... precisely including the most effort-consuming 'multi-hoofed claw creature's six forms.

So his world life form evolved from the twenty-four forms to become an actual 'Ultimate Realm Primordial Bloodline Creature' form, that is, the multi-hoofed claw creature.

The multi-hoofed claw creature simultaneously embodies 'Twenty-four Forms' 'All Things Phase' 'Origin Form' 'Great Strength Phase' 'Four Directions Phase' 'Hundred Spirit Form,' and using the substance from that creature's corpse material to integrate these forms, Luo Feng's most fundamental life unit transformed into the multi-hoofed claw creature's basic life unit.

Of course...

In terms of Spiritual Will, Luo Feng far surpassed that bloodline creature. Thus, his body's vastness was much larger than that creature's.

In terms of realm, Luo Feng was much stronger than that inherently less intelligent bloodline creature, capable of more perfectly unifying and mobilizing the internal power.

At this moment, Luo Feng's life form was indeed an 'Ultimate Realm Life Form,' and more formidable than most Ultimate Realm Life Forms, with a physical body superior even to an Ultimate Realm Primordial Bloodline Creature.

"Thunder Ancestor." Numerous thoughts surged within Luo Feng, yet he still said at this time, "My attitude towards the Great Sinners is always the same! It's widely known on the Land of Origin! The White Demon and Lan Duo, knowing well my temperament, still carried out such plunder... they utterly disregarded me, they deserved to die!"

"Friends, friends, let's not get angry." A hearty laugh sounded, and a robust man came forth, "We are all cultivators of the Land of Origin, relying on each other and moving forward shoulder to shoulder. Why get angry over such a small issue?"

```
```

Chapter 279 - 41 The Gambling Battle

Luo Feng had long used the Eye of Life and Death to observe the entire Land of Origin and naturally recognized this burly, robust man. If the Thunder Ancestor were considered the most terrifying being in terms of physical body within the Land of Origin, this burly man was the most mysterious, and Luo Feng could only vaguely observe a few aspects of him.

"Primogenitor Yan Feng." Luo Feng spoke.

"Hahaha, another formidable cultivator has emerged from the Land of Origin." Primogenitor Yan Feng laughed, then turned to look at the Thunder Ancestor next to him, "Thunder, there's no need to fuss over such a trivial matter."

"Compared to matters outside the Source World, this is indeed trivial." Thunder Ancestor looked at Luo Feng, "White Demon is dead and that's that, but what I care about is... the Galaxy Ruler doesn't even consider me at all!"

While his tone had softened, the Thunder Ancestor's dignity was still at stake!

"If he didn't consider you at all, he wouldn't have messaged you, asking you to handle this matter." Primogenitor Yan Feng laughed heartily, "White Demon and those under Lan Duo overstepped their bounds and upset the Galaxy; they deserved to die if they are dead."

"Hmph."

The Thunder Ancestor snorted angrily, "For this matter, I'll give you, Yan Feng, face and let it pass. But from now on… Galaxy Ruler, you should not interfere in the matters of Thunder Ancient Country."

"I can stay out of the internal affairs of Thunder Ancient Country. But if they cause trouble in other countries, I will still have to intervene." Luo Feng stated.

"I, the Thunder Ancient Country's Royal Family Godly King, should be the one to discipline them even if they are wrong," Thunder Ancestor declared.

He was very clear.

Members of the Royal Family Godly Kings of Thunder Ancient Country were sure to stir up trouble in many surrounding domains.

"Your discipline is too lenient," Luo Feng shook his head.

"Galaxy, don't say your strength is inferior to ours," Thunder Ancestor frowned, "Even if you reach the Divine Emperor's Perfection, and your strength equals ours one day! We must all make compromises. How can you solely dictate the rules of the Land of Origin?"

Primogenitor Yan Feng then added from the side, "Our strength surpasses the power limit of the Land of Origin; we can't do much to each other! And this is also our homeland, not a place suitable for fighting. According to the old rules, we both take a step back, set the rules... and everyone follows accordingly."

"I certainly can't be bothered with other countries' affairs," Luo Feng stated, "I even can't be bothered with various feuds, but there is one thing - those great sinners who devour millions of creatures, I cannot tolerate their existence. If there is one, we should kill one. I hope both ancestors will also agree to this rule."

"Great sinners who devour millions of creatures?" Primogenitor Yan Feng wasn't concerned, being an Enlightened himself, he was more keen on guiding the younger generation on the path of enlightenment.

Only because Primordial Bloodline cultivation is much easier, do some royal emperors practice bloodline cultivation.

"Cultivators, inherently encompass all denominations," Thunder Ancestor was somewhat discontented, "Strong beings devouring

weaker ones; it is the norm. As for devouring millions of creatures … even Senior Yuan and others have not dealt with it, yet you insist on interfering."

Luo Feng shook his head: "The Source World of the Land of Origin is my homeland, and as long as I can manage, I naturally want to."

Thunder Ancestor looked at Luo Feng.

At this level, each had their own spiritual cognition.

Thunder Ancestor had never seen 'devouring millions of creatures' as a big problem. Along the path of cultivation, he had seen too many similar and even more harrowing scenarios.

"I acknowledge it," Thunder Ancestor nodded, "With your strength, you are qualified to set rules in the Land of Origin! There are few cultivators who can survive your pursuit."

"If Thunder Ancestor wants to protect some great sinners, I can do nothing about it," Luo Feng said.

Without Thunder Ancestor making a move, just the inherent power of the Holy Land Thunder Mountain alone, he couldn't kill the Lan Duo Monarch.

Luo Feng knew...

In the entire Land of Origin, the greatest crimes were committed by the emperors and monarchs of the two major Ancient Country Royal Families! If he wanted to establish rules, naturally, he needed the agreement of the two ancestors. Otherwise, if the two ancestors protected the royal families, he couldn't change much.

"Perhaps it's time to change the Land of Origin," Primogenitor Yan Feng laughed.

"We are hard pressed to persuade each other," Thunder Ancestor looked at Luo Feng, "So, let's follow the old rules; we'll have a duel! If I win, including the Royal Family, you'll no longer interfere in the affairs of Thunder Ancient Country. If I lose, I'll agree to that rule you mentioned—to eliminate all great sinners."

If the three of them agree at the same time, for the Land of Origin, it would be an absolute decree!

"A duel?" Luo Feng looked at the Thunder Ancestor.

"Thunder, how long have you cultivated, and how long has the Galaxy cultivated?" Primogenitor Yan Feng interjected.

"I have cultivated for a long time, but he has a powerful secret treasure," Thunder Ancestor said, "Under the power limit set by the Land of Origin, he still has a slight possibility of winning."

Primogenitor Yan Feng gently shook his head.

Divine Emperor's Perfection level! His realm is far too superior to that of the Galaxy Ruler.

"The old rules of the Land of Origin state, if you can't persuade the other party, then a duel will take place," Primogenitor Yan Feng said, "But the gap between you and Thunder is too great… even with the help of a secret treasure, the chances of winning are extremely low."

"If I can't persuade the Thunder Ancestor, then let's have a duel," Luo Feng nodded.

In comparison, Emperor Qing is much more immature than Thunder Ancestor.

This battle, limited by the power limit, would allow him to more carefully observe the opponent's techniques! It would also broaden his perspective.

"Hahaha, no matter the outcome of this duel, I've come to admire you," Thunder Ancestor laughed heartily.

"Let's have our duel within the Universe Ocean," Primogenitor Yan Feng suggested, "Moreover, it's not appropriate for the factions of the Land of Origin to witness the duel between the two of you."

What status do they hold?

Unless they are unwilling and deliberately conceal it, those Godly

Kings simply cannot pry into it.

"Let's go."

The Thunder Ancestor, Primogenitor Yan Feng, and Luo Feng instantly left the above space of the Galaxy Divine Kingdom and arrived at a vast Universe Ocean outside the borders of the Land of Origin.

Hu! Hu!

Two more figures hurried over, the towering green-clothed woman and Emperor Qing.

"Galaxy my brother, this is the East Extreme Domain Ancestor 'Feng Xi'," Emperor Qing introduced.

"Galaxy." The East Extreme Domain Ancestor said with a smile.

"Feng Xi." Luo Feng also nodded with a smile, his Eye of Life and Death had long discovered some tactics of this East Extreme Domain Ancestor, in terms of Life Form, the East Extreme Domain Ancestor was about fifty percent stronger than Luo Feng at this moment. In terms of Physical Body, the East Extreme Domain Ancestor was at the Early Stage of Divine Emperor! That's not even considering other aspects and techniques.

"Now our Land of Origin has finally got five in the Divine Emperor Realm," Primogenitor Yan Feng remarked emotionally, "It's really too difficult for the Source World to produce a Divine Emperor."

Luo Feng felt a sense of belonging at this moment.

No matter what, the five present all came from the same Source World! Once outside the Source World… the most trustworthy were each other.

"The betting battle between Galaxy and Thunder Ancestor is indeed rare," East Extreme Domain Ancestor 'Feng Xi' chuckled, she was far inferior to the two country ancestors in terms of realm.

At this moment, Primogenitor Yan Feng, Emperor Qing, and Feng Xi

observed from a distance, an invisible Domain had already isolated an immensely vast range, all Creatures in the Land of Origin, including the Three Alien Clans, couldn't spy on this battle.

Luo Feng and Thunder Ancestor looked at each other from afar.

"Galaxy." Thunder Ancestor, having experienced a lot, began, "I have cultivated outside the Source World for several eras, attempted to study multiple Cultivation Systems, and had many opportunities. Fumbling in the dark, I forcibly promoted my Primordial Bloodline to the limit within the Braided Cage—Half Primordial Level. Even if the power of the Land of Origin is limited, it cannot restrict techniques and tactics."

"I have never been outside the Source World," Luo Feng looked at Thunder Ancestor, "Thunder Ancestor, please do your best, I want to broaden my horizons."

"Okay."

Thunder Ancestor nodded leisurely.

"I once devoured a Low Level Primordial Life, and from that, I derived a bloodline Secret Technique belonging to that Low Level Primordial Life, and further perfected it." Thunder Ancestor flicked his finger, and a droplet of blood flew out, his droplet of blood was the essence of a 'Perfect Level Divine Emperor' strong being.

This droplet of blood instantly split into many creatures, each creature's power exactly reaching the upper limit of the Land of Origin.

In total, it split into nine creatures, each of them staring at Luo Feng.

"Hahaha..."

"They all must die, they all must die."

The nine creatures let out strange laughs.

Luo Feng's Eye of Life and Death at his brow was already open, under its observation, these nine creatures were vastly different in

composition! Some gathered with Thunder, some with flames, others were illusory, some were Spiritual Beings, and some with Dark Wind gathered...

These forces genuinely alarmed Luo Feng.

Fortunately, the invisible suppression by the Supreme Rules kept these tricks' power in check.

"You can't resist." An entity constituted by internal flames chuckled strangely and then vanished out of thin air.

Flames ignited on Luo Feng's body surface, burning every part of his body, including the fundamental life units.

Luckily, Luo Feng had already cultivated the 'Multi-hoofed Clawed Creature Form' World Life Form; had he still been in the form of the Twenty-four Forms World Life Form, his life form might have begun to suffer damage instantly.

"Boom, boom, boom." Terrifying thunder struck Luo Feng, leaving slight traces on his body surface.

"Hahaha, die, just die." A voice resonated within Luo Feng's mind, this was a Spiritual Being, but Luo Feng's Spiritual Will also touched the upper limit of the Land of Origin, coupled with the Lie Yuan Technique, he completely resisted this Spiritual Being.

"Whew~~~" A wind brushed Luo Feng, penetrating every crevice of his body, every fundamental life unit.

"Sssss." Blood-colored flowers grew on Luo Feng's body surface, absorbing the power of his body, striving to bloom even more flowers.

...

Nine kinds of tactics descended simultaneously, Luo Feng couldn't dodge, only withstand!

"The power of the Land of Origin is restricted, my Secret Technique can only reveal a bit of its power, and you have done quite well to

block it already," Thunder Ancestor said leisurely, "But while resisting my Secret Technique, how much strength can you still exert?"

Luo Feng nodded, when fully resisting, he could only divert about twenty to thirty percent of his attention to execute tactics.

"Admirable, admirable." Luo Feng spoke, indeed there was a significant gap between their realms.

Buzz!

A nine-layered ethereal tower appeared, enveloping Luo Feng, instantaneously blocking all attacks targeting the physical, soul, and spirit! In the environment of the Land of Origin, no power could bypass the obstruction of the Star Tower, injuring Luo Feng in the slightest.

Chapter 280 - 42 Win or Lose

Luo Feng had no choice under the erosion of those nine bizarre forces; he simply couldn't unleash much of his strength. Without using the Secret Treasure, he stood no chance of winning the wager against the Thunder Ancestor.

Now, with the protection of the Star Tower, he could more easily handle his opponent.

Of course, staying hidden in the tower without counterattacking would still count as a loss! He must confront face-to-face and gain the upper hand to win this wager!

"Is that the Nine-layered Pagoda?" The Thunder Ancestor was aware of Luo Feng's confrontation with Emperor Qing and knew of the existence of this nine-layered pagoda.

"Thunder Ancestor, in this wager, my only chance lies in using a Secret Treasure," Luo Feng said. "Be careful."

"I've cultivated for several more epochs than you, and it's essentially a case of the strong preying on the weak," said the Thunder Ancestor with a smile. "Use whatever Secret Treasure you have; as long as you can gain a slight advantage, I will consider it my loss."

Whoooooosh~~~~

Luo Feng's body instantly transformed into an endless river; the most basic unit of life that constituted this Endless Blood River was still the 'Multi-hoofed Clawed Creature Form.' It was just that the external Form had changed into a river of blood.

The Blood River instantly enveloped the Thunder Ancestor.

"Hm?" The Thunder Ancestor could feel that the waters of the Blood

River were incredibly heavy, and it also formed a spatial Cage that sought to imprison him. There were forces trying to penetrate his body, aiming to shred it apart.

The Thunder Ancestor stood still, not moving an inch, with only invisible forces flowing around his body. He was at the zenith of Perfection, impervious to all external forces and unshakeable.

Luo Feng had once, with his own strength, overpowered eight Emperors joined together!

Compared to that time, the most basic energy that made up the Blood River had transformed from the 'Twenty-four Forms' to the 'Multi-hoofed Clawed Creature Form.' Luo Feng's realm had also increased significantly.

"Interesting," commented the Thunder Ancestor as he playfully touched the Blood River with his hand, causing the entire Endless Blood River to tremble violently and begin to burst in various places.

"Go!"

Luo Feng, now transformed into the Endless Blood River, instantly unleashed the Star Tower, executing a lethal move.

After gaining a deeper understanding of the twelve-colored 'Blood-colored Scales' at the edge with the help of the Eye of Life and Death, Luo Feng had comprehended the Great Dao of Life and Death's nine secret branches, named 'Meteor'! With the aid of the Star Tower Secret Pattern, this technique could be elevated to a terrifying level.

"Boom——"

The Star Tower, like a meteor, crossed the Void of the Universe Ocean in an instant.

"Hm?"

Both the Thunder Ancestor and the distant observing Primogenitor Yan Feng changed their complexions! With their rich experience and extraordinary perceptions, the sight of the Star Tower cutting through the Void of the Universe Ocean like a meteor…signified a

pause in Time and a natural splitting of Space.

At that moment, the Star Tower was Unbreakable.

The Thunder Ancestor couldn't avoid this strike, for as soon as he saw the meteor, it had 'simultaneously' struck his body.

"Booming thunder~~~~" The Thunder Ancestor took the hit and staggered back several steps with his towering physique. The power of the Supreme Rules acted like shackles, completely binding his strength.

Of course, the Star Tower's power was also greatly constrained.

Under equal powers, the Star Tower repelled him.

"A Super Secret Treasure! It must be a treasure of the top echelons!" the Thunder Ancestor was certain at this moment. "That strike, it fixed Time, separated Space, and condensed Matter to its extreme, truly Unbreakable! It must be a prized Secret Treasure crafted by Senior Yuan and his peers."

"The realms are so disparate, yet with the treasure, he could repel Thunder? It must be a treasure worth over one hundred thousand Reward Points in Infinite Space," thought Primogenitor Yan Feng as well.

Only a treasure of this level could create many miracles.

"Ha ha ha..."

The Thunder Ancestor laughed heartily, and in the far reaches in all directions, there were eight Thunder Avatars condensing. A total of eight Thunder Ancestors naturally formed a massive Formation that rapidly suppressed the operation of various Great Daos like Time, Space, Matter, Life, etc.! Luo Feng's Endless Blood River quieted down considerably, with only the 'Star Tower' transformed into a meteor continuing to tear through the Formation and then strike at the Thunder Ancestor's True Body and Avatars.

However, under the pressure of the Formation, the counterattacks from the Star Tower significantly weakened.

"Even without using treasures, we couldn't suppress this little nine-layered tower," remarked the nine Thunder Ancestors as they watched the Star Tower, time after time tearing through the Formation and charging. A hint of greed flashed in the depths of their eyes.

They coveted such treasures, but alas, he knew the Galaxy Ruler would not give him the opportunity and would not bring this precious pagoda out of the Land of Origin.

The Thunder Ancestor waved his hand and threw out an ancient stone pillar.

The stone pillar became the core of the entire Formation, permitting the formation created by the nine Thunder Ancestors to grow even stronger, exerting a more terrifying suppression over the various Great Daos such as Time, Space, Matter, Life, etc.

At this moment, Luo Feng himself was utterly suppressed, and although the Star Tower could still charge, it had become lost within the Formation and could no longer touch the Thunder Ancestor.

"It actually forced the Thunder Ancestor to use a Secret Treasure," Primogenitor Yan Feng watched from afar with great surprise. The Thunder Ancestor was a Half Primordial Life, and even without employing any treasures, he should have been able to suppress the Galaxy Ruler.

Yet this time, he was forced to use a Secret Treasure!

This showed how special the nine-layered pagoda was.

"The gap between them is too wide," said Emperor Qing as he watched the scene. "Even with the nine-layered pagoda, Galaxy Brother can't win. It's already impressive that it made the Thunder Ancestor use a Secret Treasure."

...

"Galaxy, do you have any other methods left?" the Thunder Ancestor asked. "If not, you might as well admit defeat."

The Endless Blood River instantly converged into Luo Feng, who looked at the Thunder Ancestor with great admiration. "Thunder Ancestor, your realm is indeed much higher than mine, which is why I have to use a Forbidden Power."

"Forbidden Power?" The Thunder Ancestor was surprised and chuckled, "Use whatever Forbidden Power you have."

Luo Feng nodded and, in a moment of thought, entered the inner part of the Star Tower; at this moment, the Eye of Life and Death between his eyebrows opened!

Peering inside the Star Tower at the 'Twelve-Colored Blood-colored Scales' on the edge, Luo Feng, through his observation, could not detect any destruction weakness of these blood-colored scales, only sensing their perfection and might.

But Luo Feng could see the most vital part of these blood-colored scales. In the previous long years, Luo Feng had attempted it.

"Although I don't quite understand, with the Eye of Life and Death, I can mobilize a truly terrifying sliver of power from these blood-colored scales." Under the observation of Luo Feng's Eye of Life and Death, he rapidly drove the deep-area Secret Patterns within the Star Tower.

Previously, only the superficial layer of Secret Patterns had been activated; Luo Feng did not understand the deeper ones.

But with the help of the Eye of Life and Death, seeing where the vital force was strongest, and after repeated attempts over the years, Luo Feng finally figured out a way to mobilize a sliver of power. This was also why he dared to bet and battle with Thunder Ancestor.

"Buzz." Accompanied by the activation, a streak of blood-color extended from the 'Twelve-Colored Blood-colored Scales', beginning to infiltrate the entire Star Tower.

The Star Tower, too, became a blood-colored pagoda.

"Hm?"

Thunder Ancestor and Primogenitor Yan Feng, watching the color change of the nine-layer pagoda from afar, felt a vague sense of oppression in their hearts.

"It's said that among treasures above one hundred thousand reward points, there are some forged using World Level Primordial Life as materials, some are even made using the corpses of Primordial Ancestors." Thunder Ancestor looked at the Star Tower at this moment, and the terrifying aura of the Star Tower was already a trace of an even more fearsome existence outside the Braided Cage, "This pagoda should be one of such treasures."

"Go."

The Star Tower once again streaked across the void of the Universe Ocean.

This time, everything in its path was pierced through; space-time and formations were all pierced, instantly striking the True Body of Thunder Ancestor, sending Thunder Ancestor tumbling and flying away in a sorry state.

"Thunder World, Ten Absolute Formations!" Thunder Ancestor could no longer hold back and threw out his most powerful formation.

As a cultivator from the Source World, if his avatar outside perishes in battle, he can send another one! So the most precious treasures, he also kept plenty within the Source World. For example, Thunder Ancestor's most powerful 'Thunder World Ten Absolute Formations', he now has two sets of formations. One set he carries with him outside, another set stored within the Source World as a backup.

At this moment, he had no choice but to go all out.

He had never really thought that he would be forced to use his most powerful formation in the Land of Origin.

"Rumble~~~~"

Around, ten thunder-condensed silhouettes emerged, each silhouette controlling a grand formation. The ten formations perfectly merged into one entity, forming a Thunder World. Thunder World naturally

had its operational rules, suppressing all foreign forces.

"Suppress!" Thunder Ancestor went all out, wanting to suppress the Star Tower.

"Rumble~~~"

The blood-colored Star Tower, still forcibly penetrated the formation, the formation unable to suppress it.

"This Ten Absolute Formation is simply a labyrinth." Luo Feng slightly frowned, the Star Tower zigzagged through, crashing from one grand formation into another, but couldn't touch Thunder Ancestor at all.

"The realm gap is too wide, even if the Star Tower is strong, it can't reach the opponent." Luo Feng thought.

Immediately, the Eye of Life and Death closely observed the Thunder World.

Under the Eye of Life and Death, the structure of space-time, the flow of energy, the combination of the ten formations, all became much clearer. Luo Feng saw dozens of weaknesses in the operation of the formations at a glance.

As the formations operated, these weaknesses were also changing.

"Go."

Luo Feng, having seen through the formation with the Eye of Life and Death, had an immediate intent.

The Star Tower flashed.

Instantly, following the weaknesses of the formation, continuously pierced through the many spatial obstacles, resoundingly slamming into the body of 'Thunder Ancestor' who hid in the deepest part of Thunder World, sending Thunder Ancestor staggering and flying away.

"How is this possible? How could he find me?" Thunder Ancestor

couldn't believe it.

Although he was a Bloodline Cultivator with a Primordial pedigree, this formation was forged by an Enlightened being of Half Primordial Level he had asked for help. To break this formation was by no means easy.

Thunder Ancestor took a step and immediately hid in another area of Thunder World.

"Sigh."

Resisting the suppression of Thunder World, the Star Tower once again pierced through the weaknesses of the formation, striking the body of Thunder Ancestor.

Once, twice, thrice.

Repeatedly hit multiple times.

Under the power restrictions of the Land of Origin, neither side could truly harm the other. Thus, the betting battle was about who gained the upper hand. But the situation had already become clear.

"I lost," Thunder Ancestor spoke up, dispelling the formation, his mood complex as he looked at Luo Feng.

He had previously said verbally that the Galaxy Ruler had a slim possibility of winning, but deep down he didn't believe he would lose! In his eyes, even if the Galaxy Ruler had a super secret treasure, it wouldn't be enough to win against him.

"A junior who hasn't left the Source World, using a secret treasure, was able to suppress me?" Thunder Ancestor felt complex emotions.

"The power of the Land of Origin is restricted; only with the same amount of power as the Ancestor could I hold a slight advantage," Luo Feng said, "If it were outside, I'm afraid I wouldn't even have the strength to fight back."

With enough force, even ten guilds could be overcome.

Luo Feng was very clear, when the disparity in power was too great, the Star Tower might also be seized.

"You won fair and square," Thunder Ancestor nodded slightly, "I can afford to lose! Lan Duo, I'll deal with it personally."

Having said that, Thunder Ancestor took a step and left.

Chapter 281 - 43 Rules

Primogenitor Yan Feng, Emperor Qing, and East Extreme Domain Ancestor Feng Xi were still standing by, but the Thunder Ancestor had left on his own, visibly in a poor mood.

"With the restriction on power, I relied on two super secret treasures to gain a slight upper hand?" Luo Feng felt no pride, but instead became more acutely aware of the gap between himself and the powerful beings outside the Source World, "After leaving the Land of Origin, I must be more cautious."

These two great secret treasures are specifically for aiding in cultivation, and they won't be taken out of the Land of Origin. Outside the Land of Origin... one must rely on their own strength to make their way.

"Brother Galaxy." Emperor Qing said with a smile, "I really didn't expect you to win this bet. It truly surprised us."

Primogenitor Yan Feng was also taken aback as he looked at Luo Feng.

He knew very well that there were four stages above the Godly King.

The gap between the first stage 'Early Stage of Divine Emperor' and the fourth stage 'Perfection of Divine Emperor' was simply too vast! Even with the power restrictions, the difference in realms was still significant. Although the super secret treasures are special, Primogenitor Yan Feng and the others were not unfamiliar with them.

"This Galaxy, perhaps is one of those dazzling existences among billions of worlds," thought Primogenitor Yan Feng, who had also encountered many dazzling beings while adventuring outside the Source World.

Compared to those dazzling beings, the two of them were too ordinary.

"Galaxy, by winning this bet, there will be an additional rule in the Land of Origin from now on; the great sinners must die without doubt," the East Extreme Domain Ancestor also said with a smile, pleased with the outcome.

She is the most merciful among the Divine Emperors and has no blood connection with the native lives of the Land of Origin, yet she still chooses to protect them.

"This bet was somewhat lucky," Luo Feng remarked, knowing that if he hadn't obtained the Eye of Life and Death, just relying on the Star Tower, he couldn't have defeated the Thunder Ancestor.

"Galaxy, if you have time later, you can visit the East Extreme Domain." East Extreme Domain Ancestor Feng Xi smiled slightly.

"Definitely." Luo Feng nodded.

The East Extreme Domain Ancestor then immediately took her leave.

"Galaxy." Primogenitor Yan Feng then said, "Why not visit my Ancient Flame Wind Country?"

"Sure." Luo Feng agreed. Having borrowed the status of a guest elder in the Ancient Flame Wind Country during his weaker years, he had received some inheritances and been able to enter the Infinite Space Treasure Vault, and also had the help of his master Emperor Chu. Speaking of which, Primogenitor Yan Feng also had shown kindness to him.

…

In the Ancient Flame Wind Country, atop a towering mountain.

Primogenitor Yan Feng, Emperor Qing, and Luo Feng each took a seat, with puppet lives serving delicious food and wine.

"This is where I usually reside in seclusion," Primogenitor Yan Feng looked at the surrounding mountain ranges, "Apart from me, there

are only some puppets, I really like the tranquility here."

Primogenitor Yan Feng smiled at Luo Feng, "Galaxy, once you go outside the Source World, you will truly cherish the peaceful days within the Land of Origin."

"Oh?" Luo Feng was accustomed to the peace of the Land of Origin.

For him, within the Land of Origin, no one could threaten him.

"Outside the Source World, even when cultivating within a cave mansion, there might be some very special 'Low Level Primordial Life' that could sneak into your cave mansion to mount a sneak attack," Primogenitor Yan Feng shook his head, "Death could come at any time."

"We who come from the Source World are fine, as long as we cultivate an Avatar, at least one remains in the Source World. Those rising powerhouses from the billions of worlds, however, don't have the Clone Technique, and their situation is even worse. To survive, they resort to any means necessary."

Emperor Qing also nodded, "Outside the Source World, our main opponents are Low Level Primordial Life, but we also need to be wary of attacks from other cultivators."

"They don't have the Clone Technique, indeed they are more prone to desperation," Luo Feng nodded.

"There are two types of cultivators within the Braided Cage," Primogenitor Yan Feng explained, "One type is the lives hailing from the Source World, which is a vast world naturally nurtured and containing Supreme Rules. The other type is from the billions of worlds created by Senior Yuan, where many creatures naturally possess the Primordial Bloodline, making their cultivation easier."

"Born with the Primordial Bloodline?" Luo Feng was surprised.

"Like the Primordial Bloodline Creatures I have cultivated," Primogenitor Yan Feng said, "The creatures I've cultivated are low in intelligence. But Senior Yuan and the others can integrate this Primordial Bloodline into intelligent life forms, they possess sufficient

intelligence and comprehension, and also have the boost of the Primordial Bloodline. Thus, the cultivators out in the Source World... are mostly dominated by the powerhouses of the billions of worlds!"

"Our starting point is lower, typically only reaching True God after birth, and cultivation is harder, it's many times tougher than for those born with the Primordial Bloodline. But our potential is greater, we can also cultivate the Clone Technique," stated Primogenitor Yan Feng.

Luo Feng now understood the two main types of camps among cultivators.

One type are the naturally nurtured beings, and the other type are the creatures from the billions of worlds created by Senior Yuan.

"Once out in the Source World, you can experience various cultivation systems, hunt down various Low Level Primordial Life, and interact with powerhouses from the billions of worlds in the dark, all helping you to go further," Primogenitor Yan Feng continued, "But the real treasures, the competition out in the Source World is simply too fierce."

"The best way for us to obtain treasures is still within the Land of Origin," Emperor Qing also nodded.

"Special Life Remnants?" Luo Feng asked.

"Yes."

Primogenitor Yan Feng nodded, "Both the dark area of the Dream Domain and the depths of the Heavenly Pillar Realm offer a chance to obtain a portion of Special Life Remnants. But in both places, you are limited to obtaining just one portion."

"Just one portion?" Luo Feng was unaware of this information.

"For example, if you enter the dark area of the Dream Domain and obtain a portion of Special Life Remnants after much effort, you will be immediately expelled and will not be able to re-enter," Primogenitor Yan Feng explained, "This must be a rule set by Senior Yuan. Thus, adding together both the Dream Domain and the

Heavenly Pillar Realm, a life can obtain at most two portions of Special Life Remnants."

"As Divine Emperors, it is relatively easy to obtain," Primogenitor Yan Feng said, "This is also the most important treasure for us Divine Emperors of the Land of Origin."

"As for Innate Secret Treasures? Secret Technique? It all depends on luck."

Primogenitor Yan Feng smiled and said, "Remember, do not easily sell the Special Life Remnants. If you really want to sell them, you can ask me, I can offer a high price."

"Understood." Luo Feng nodded and asked, "By the way, what are these Special Life Remnants?"

"Dream Realm Space, it should be the corpse of a very special World Level Primordial Life, with the corpse as the foundation, forming countless Dream Realm Spaces," said Primogenitor Yan Feng. "The Heavenly Pillar Realm should also be the corpse of a World Level Primordial Life."

"The corpse of a World Level Primordial Life is immensely huge. A little bit of flesh, scales, and fur taken apart can yield over a hundred million parts."

Primogenitor Yan Feng continued, "Senior Yuan has hidden these remnants in the most core area, and with sufficient strength, one could hope to obtain them."

"Within the Land of Origin, these two treasure sites are also the most important; the other sites are much less valuable," said Primogenitor Yan Feng. "Also, the Infinite Space is special; it is connected to a large number of Source Worlds at the same time."

Luo Feng understood.

Other treasure sites are visited directly by the True Body.

Only the Infinite Space is accessed through an opportunity that allows a strand of consciousness to descend remotely!

"The Land of Origin has utilized two corpses of World Level Primordial Life? It seems that Senior Yuan and the others have killed quite a number of World Level Primordial Life," realized Luo Feng at this moment, understanding that the higher-level killings must be very intense.

"Our greatest crisis iss actually the attacks on the Land of Origin by the Innate Primordial Life groups," said Primogenitor Yan Feng. "If one day, the Innate Primordial Life group attacks the Land of Origin and devours it, then we are finished."

"Does this happen often?" asked Luo Feng.

"Quite a lot."

Primogenitor Yan Feng nodded, "Our Cultivators' Camp and the Innate Primordial Life Camp are in conflict, and we are at a disadvantage."

"Even recently, an important world group 'Shell Valley World Group', specifically used for cultivating Divine Emperors, has completely lost contact, presumably fallen," also said Emperor Qing. "Billions of worlds, cultivating Divine Emperors, all gone! And multiple Source Worlds near the 'Shell Valley World Group' are probably gone too."

Luo Feng listened in shock.

Both camps fight so fiercely?

"Outside the Source World, there are opportunities and resources aplenty, but the environment is extremely harsh... It's because our whole Cultivator Camp's situation is not good, we need more Cultivators to step out of the Braided Cage," said Primogenitor Yan Feng. "Only by stepping out of the Braided Cage can we participate in the war between the two camps."

Primogenitor Yan Feng and Emperor Qing shared many secret information with Luo Feng, also intending to support each other along the way forward.

"These things are all far from us; our most urgent task is to seize the resources in front of us," Emperor Qing said, sending information to

Luo Feng, "This is the information on the deep areas of the Dream Realm Dark Area and Heavenly Pillar Realm. The Dream Realm Dark Area is constantly changing, so my information can only be taken as a reference. The deep area of the Heavenly Pillar Realm hasn't changed; you should look into it more."

"First, get the Special Life Remnants from these two places," said Emperor Qing.

"Thanks," Luo Feng felt the goodwill from the two.

Beyond the Braided Cage, the war between the two camps was too distant for him; there was no need to think too much about it.

...

Mt. Leiting.

"The Ancestor was furious and went to find the Galaxy Ruler himself," thought Lan Duo Monarch in his own cave mansion. "Afterward, he even went to the Universe Ocean area for a great battle, unfortunately, that battle was beyond my ability to spy."

Lan Duo Monarch was quite excited.

The Ancestor personally intervening might cause the Galaxy Ruler to change his attitude, no longer hindering his pillaging of creatures.

"I wonder what the situation of this battle was."

"With the power limitations of the Land of Origin, the Galaxy Ruler will surely survive, but in front of the Ancestor, he will definitely suffer," Lan Duo Monarch had immense faith in his own Ancestor.

"Humph!"

Suddenly, a cold snort sounded in Lan Duo Monarch's consciousness.

Then, terrifying thunder exploded within Lan Duo Monarch's soul, a thunder with the power to annihilate souls! This is the terror of the Primordial Bloodline Path; though not understanding the Soul Path, one could exploit the bloodline talents.

Luo Feng had faced Thunder Ancestor before, subjected to simultaneous attacks on physical body, soul, and spirit, but of course, Luo Feng could easily withstand them.

But facing terrifying thunder that could destroy the soul and annihilate the physical body, reaching the power limits of the Land of Origin... without the protection of Mt. Leiting, Lan Duo Monarch could not withstand it.

"Ancestor!!!" At the moment of death, Lan Duo Monarch knew who had killed him.

He was unwilling, unbelieving.

But in an instant, his consciousness was extinguished.

"From today onwards, the great sinners who have devoured millions of creatures on the Land of Origin will all be executed," the voice of Thunder Ancestor resounded in the consciousness of every King in the Ancient Country.

White Demon, Lan Duo succumbed one after another, along with the command issued by Thunder Ancestor and Primogenitor Yan Feng on the same day.

Naturally, this caused a huge uproar throughout the Land of Origin.

All forces understood that the order in the Land of Origin had changed, and from now on, there was a new rule that including Emperors, Monarchs, and those in the Ultimate Realm, no one could defy.

Chapter 282 - 44, 500 Era Years

Huyang City, atop the high tower of the city owner's mansion.

Luo Feng was drinking alone.

"Nine Rivers Sacred Realm?" Luo Feng muttered to himself.

The information provided during the gathering with Primogenitor Yan Feng, Emperor Qing, and himself, revealed much.

Only when one reaches the Ultimate Realm Life Form could one traverse through a transmission passage within Land of Origin, leaving Land of Origin, usually to a randomly chosen destination, unless the exact coordinates are set during transmission.

The world where Emperor Qing resides is known as 'Nine Rivers Sacred Realm', which is a convergence of numerous Source World powerhouses and countless World level strong ones.

"Emperor Qing, he is in the Nine Rivers Sacred Realm. Those qualified to be here, the weakest are Ultimate Realm Life Forms! And the higher ups can reach Half Primordial Level!"

"Primogenitor Yan Feng is in the Dark Sacred Realm, where the entry threshold is extremely high! Primogenitor Yan Feng, Thunder Ancestor, are merely slightly stronger than the entry-level requirement. In the Dark Sacred Realm... the resources are much more abundant than in the Nine Rivers Sacred Realm."

Luo Feng is too far from what's called the 'threshold of the Dark World', generally, only those who are The Enlightened in the late stages of Divine Emperor could hope to enter.

"Whether it's Nine Rivers Sacred Realm, Dark Sacred Realm... or some other places, they are all for the likes of Senior Yuan to cultivate us,

the weaker ones." Luo Feng also understood this.

"Without Star Tower, Eye of Life and Death, my strength is still a bit too weak."

The Eye of Life and Death opened at Luo Feng's brow, looking far off in the direction of the Dream Domain.

With the exception of the Infinite Space not in the Land of Origin, Luo Feng could peek into all other sacred places.

"Hum."

Under the observation of the Eye of Life and Death, it rapidly penetrated layers of spatial barriers and saw the core layer – the 'Dark Area'.

The Dark Area, where only spiritual will could probe, but the 'Eye of Life and Death' could clearly see everything.

"There is only one space in the Dark Area."

Luo Feng watched.

The entire Dream Domain looked like a massive sphere, with countless bubbles inside, each bubble an independent space. The outermost Dream Realm spaces were the most numerous, the middle layer had fewer, the deeper layer even less, and the core 'Dark Area' had only one space.

This one space was extraordinarily stable.

The ground was cast from black metal, engraved with Secret Patterns.

The trees grew tangled from innumerable metals.

The rivers were even more convergences of shining Liu Guang.

Here, the weakest creatures are Emperor and Monarch level.

The most powerful touched upon the limits of Land of Origin's power, and some of their conflicts were enough to make even Luo Feng

change color.

"Even I can't bring the Eye of Life and Death, Star Tower inside," Luo Feng understood, "Although the strongest Dream Realm creatures in the Dark Area are at the limit of power. However, in some areas, there are simply too many Dream Realm creatures."

Under the observation of the Eye of Life and Death, one could see an area where hundreds of serpentine creatures converged, each one frolicking with others, and their commotion could touch the limit of Land of Origin's power.

"If hundreds of serpentine creatures were to attack, it would be like having hundreds of Emperor Qing attacking." Luo Feng thought, "Even if I hide inside the Star Tower, I would be completely trapped and unable to escape."

The Star Tower's power was also limited.

One against hundreds?

How to fight?

Even if Primogenitor Yan Feng and Thunder Ancestor came, it wouldn't help.

"There are quite a few Special Life Remnants." Under the observation of the Eye of Life and Death, Luo Feng saw countless of them, scattered all over the place.

Or deep within a river, where hundreds of thousands of remains could be found – a single bone, a piece of scale, a strand of muscle...

Deep within the mountains, some were also hidden.

But there was one thing in common; all of them required exploring deep within the Dark Area.

"With my Eye of Life and Death, I can only see the appearances of these Special Life Remnants, unable to peer inside," Luo Feng frowned, "I cannot determine their exact value."

Using his own Eye of Life and Death, perhaps comparable to an ordinary high-level Primordial Life's observational ability. But to see through the essence of 'Special Life Remnants' at a glance was simply not possible.

"I can only bring one piece back. After getting one, I would be expelled, never able to enter again," Luo Feng pondered.

His Eye of Life and Death carefully observed.

Rivers, mountains, underground, jungles...

Comparing various corpse materials one by one.

"This piece, it looks unusual," Luo Feng eventually focused on one piece of material.

It was a dark golden pointed horn.

This dark golden horn was deep within the Underground Maze, where hundreds of creatures resembling 'centipedes' were perched, all of which seemed to be worshipping this horn.

"Watching the entire Dream Domain's Dark Area with my Eye of Life and Death, this is the only horn-like material. And the creatures guarding it are quite strong," Luo Feng thought, "This is the one!"

An exceedingly terrifying Life Form, if it had a horn, moreover a Single Horn, it must be greatly useful.

"Let's look at the Heavenly Pillar Realm."

Luo Feng turned his head and carefully observed the whole Heavenly Pillar Realm with the Eye of Life and Death.

Deep within the Heavenly Pillar Realm, the most eye-catching feature was a winding Polluted Blood River! Any Godly King of the Second Realm who touched this Polluted Blood River would die immediately, even their avatars in the outer realms would perish due to soul pollution.

Moreover, there were massive bone mountains, with countless

crevices inside them, resembling a maze.

There were also an abundance of lush plants, growing on the banks of the Polluted Blood River and within the bone mountains, rooting deep into the ground.

"The Dream Domain, I can see through at a glance."

"However, in the Heavenly Pillar Realm, there are about one or two tenths of the region that I can't see clearly, 'the Polluted Blood River' within I can't see clearly, the bone mountains I can only see the surface, the deepest parts are unclear, as well as the deep underground," Luo Feng shook his head slightly.

"The Polluted Blood River, it should be the blood contamination formed by World level Primordial Life."

Luo Feng was somewhat certain.

Such blood that not even his Eye of Life and Death could see through would definitely not be from the blood of life within the Braided Cage.

"It is said that within the Polluted Blood River, bone mountains, and deep underground, it's easy to breed Innate Secret Treasures," laughed Luo Feng. What was strange was that whether it was in the Dream Domain or the Heavenly Pillar Realm, Luo Feng did not see any Innate Secret Treasures.

The Innate Secret Treasures seemed to be hidden very well.

"As for Special Life Remnants..."

Luo Feng looked at the Heavenly Pillar Realm, "Remnants are everywhere. The entire Polluted Blood River is composed of remnants, and every bone mountain is made of remnants."

Luo Feng realized this but he also knew that he had no way to take them. Just by looking… Luo Feng could tell how overwhelmingly heavy they were, and the intimidation they posed was terrifying.

"This is it."

After carefully examining the massive amounts of remnants in the depths of the Heavenly Pillar Realm, Luo Feng finally made a choice.

As observed with the Eye of Life and Death, there were a total of two hundred and eighty-nine bone mountains, and within the central one of those bone mountains, there was a long segment of black bone, divided into nine sections.

"These nine segments of black bone, I should be able to take one section," thought Luo Feng.

...

Although the Heavenly Pillar Realm was guarded by two Imperial Clans, they did not dare to hinder the Galaxy Ruler.

Luo Feng sent out a powerful Avatar, whose Physical Body alone possessed the strength of a Divine Emperor level, and made his way deep into the bone mountain range. Despite the ever-increasing pressure, this intimidation still fell within the 'limits of the Land of Origin.'

Luo Feng reached the core, entering deep into that bone mountain, looking at the towering nine segments of black bone.

The nine segments of black bone emitted a terrifying aura.

As soon as Luo Feng touched it, an intangible message transferred to him, he could only take away one segment, and once taken away, he would not be able to take any more Special Life Remnants.

"Hum."

As Luo Feng moved it, he felt an immense weight, and then he stored it inside the Divine Level Secret Treasure 'Water Drop Flying Boat' he carried with him.

...

The Special Life Remnants of the Heavenly Pillar Realm were relatively easy for Luo Feng to obtain. However, the 'Dark Golden Golden Horn' in the Dream Domain was very difficult to attain. Luo

Feng had attempted hundreds of times, and each time he failed.

Fortunately, his Avatar's Life Force was strong enough that trying hundreds of times didn't cause too much Energy depletion.

"With the Eye of Life and Death assisting from afar, I still failed," Luo Feng had no choice but to set it aside for now.

After over two hundred eras.

Employing the three 'Nine Branches Fusion Secret Method' of the Great Dao of Life and Death in tandem, and with multiple avatars working together, assisted by long-range observation of the Eye of Life and Death, and by luring away the opponent and desperately restraining, he finally obtained that dark golden sharp horn.

Since then, the two most important treasures that Divine Emperors within the Land of Origin could generally obtain—the 'two Special Life Remnants'—were in his hands.

"These two treasures are indeed extraordinary," Luo Feng observed under the Eye of Life and Death.

The Single Horn and one segment of the black bone contained endless mysteries within themselves. Although they were slightly inferior to the 'Eye of Life and Death,' they were of the same level and even more simple and pure.

"The Single Horn actually contains the mysteries of Spiritual Will," Luo Feng exclaimed in awe. The Secret Patterns within the Single Horn, Spiritual Will seemed to dominate.

"This segment of black bone has the mystery of being 'Indestructible,'" Luo Feng peered into the composition of the black bone. How could the growth of Life be so indomitably Indestructible?

******

Luo Feng immersed himself in his Cultivation, and the Land of Origin also returned to calm!

Under the joint orders of the Galaxy Ruler, Primogenitor Yan Feng,

and Thunder Ancestor, the 'Great Sinners' of the entire Land of Origin no longer had a footing to exist. Even those who were lucky enough to secretly consume some tribes to aid their own Cultivation were in constant fear and trepidation as Morosa and a group of patrollers might find them at any moment.

Unbeknownst to many, the bet between Luo Feng and Thunder Ancestor had also passed for about five hundred eras already.

In Flame Wind Ancient Country, within a vast space.

Eleven thoughts converged, forming the figures of eleven Emperors.

"That Guest Official Luo He has been the Garrison Commander of the Heavenly Pillar Realm for a thousand eras," Di Yan said. "It is time for him to leave! The task of Heavenly Pillar Realm garrison... no Guest Elder can be assigned consecutively."

The role of garrison for the Heavenly Pillar Realm was a coveted assignment for the Guests Elders.

Di Yan and the others typically used it to reward some obedient Guest Elders! Having Luo He occupied it for over a thousand eras, Di Yan and the others were naturally displeased.

"A Guest Elder who does not understand hierarchy, yet we let him hold the position for over a thousand eras," Di Wu's face was icy cold. She had personally threatened Luo He, forcing him to accept another task, but in the end, Emperor Chu had protected his own disciple.

Emperor Chu had a deep hatred with her, naturally, she was also full of hostility towards Luo He.

"Since the term is over, it is natural to replace him," Emperor Chu glanced at Di Wu, not caring in the slightest.

Chapter 283 - 45 Finally Understanding the Great Dao

Land of Origin is entering its final phase, estimated to have only several billion Eras left before succumbing to desolation. These Emperors and Monarchs, unable to comprehend the complete Great Dao, must leave Land of Origin before its desolation.

Their current scramble for resources has also become more blatant.

It was Luo Feng who pushed for the rule "Great Sinners must die," otherwise, the Godly Kings in Land of Origin cultivating Primordial Bloodline for not perishing with Land of Origin would increasingly devour billions of Creatures.

"The garrison duty in Heavenly Pillar Realm is up, and Luo He's term has ended," said the ruling Di Fu with a smile, "Naturally, a new Guest Elder should be selected. Gentlemen, feel free to recommend someone."

Di Fu had the authority to appoint directly.

However, even Di Fu could forcefully appoint someone only a limited number of times for desirable duties. This time, Di Fu clearly put the task of Heavenly Pillar Realm up for competition amongst the other Emperors.

In the end, the duty still fell to Di Yan and their group.

Di Yan, Di Xi, and Di Wu joined forces, and considering Di Yuan is dead, and Emperor Qing stays out of it... with the ruling Di Fu not competing, their small group's competitive power is the strongest.

Di Kong, Emperor Xuan, Di Jiufeng, Di Wu, Di You, Emperor Ming, and Emperor Chu – these seven were all somewhat independent and

pursued their own paths.

"The next duty, the garrison of the treasure site 'Heaven and Earth Maze'..." Di Fu continued.

One duty after another was established.

"The following duty is to guard the 'Fire Prison Realm,' which has cultivated various 'Second Realm of Godly King' strength Primordial Bloodline creatures. The guardian must be at least a Second Realm of Godly King," said Di Fu. "Anyone interested in this task?"

"I'll take the guardian duty of 'Fire Prison Realm,'" Emperor Chu spoke up.

"That line of Emperor Chu's is suitable for this duty, it would be Luo He, right?" Di Yan frowned, "He was just appointed the garrison commander of Heavenly Pillar, and now he's heading to Fire Prison Realm. All the good duties go to him? We Imperial Clan controlling these Guest Elders must have rules! They must establish enough Merit Points through hard work before we can grant them appropriate benefits."

Emperor Chu puzzled, "Isn't guarding Fire Prison Realm a tough task?"

"Luo He cultivates the Life Path, well-known to all. The methods within Fire Prison Realm that cultivate Primordial Bloodline creatures contain many secrets of life; how can we allow him to peek into them easily?" Di Yan said.

Primogenitor Yan Feng cultivated Primordial Bloodline creatures, which could only stably cultivate 'Second Realm of Godly King' strength Primordial Bloodline creatures. Occasionally, there would emerge an Ultimate Realm Primordial Bloodline creature.

"I will take this duty," Di Wu also spoke, "I plan to personally undertake the garrison of Fire Prison Realm to deeply study the mysteries of life."

His cultivation was the Life Path, yet he had always failed to comprehend the Great Dao.

With Di Wu's declaration, the rest could only leave the field.

When competing for duties, priority is certainly given to Emperors.

Moments later—

All duties were assigned, and the Emperors left one by one.

"Emperor Yan." Di Fu stopped Di Yan.

"What's the matter?" Di Yan looked at his old friend.

"Emperor Yan, you're targeting Luo He so much... surely, Emperor Chu will also inform his disciple," Di Fu said. "You're setting up a grudge with Luo He."

"It's been a grudge for a while now," replied Di Yan indifferently.

The trio of Emperors had long been allied, and they've been on bad terms with Emperor Chu, naturally involving Luo He as well.

"Moreover, the resources of the entire Land of Origin are limited," Di Yan said indifferently. "Luo He's talent is too high! If we don't suppress him, he might charge forward more fiercely, snatching away the resources that should belong to us."

"You couldn't tolerate God King Zongfu in the past," Di Fu shook his head lightly, "and now, you can't tolerate Luo He either."

"We have to go out into the Source World to make our way, fighting for everything!" Di Yan's eyes were cold, "Our own strength must improve, and of course, we must suppress these powerful rivals."

"You might suffer from causality backlash for doing this," Di Fu warned.

"If we're competing, why fear backlash?" Emperor Yan scoffed coldly, then departed.

Di Fu said nothing more.

"Based on detailed observations over the past five hundred Eras, I am

almost certain that Luo He is that Galaxy Ruler," Di Fu sighed silently, "Emperor Yan, your methods are merciless, but this time you've hit an iron wall."

Time and again, Emperor Yan and the trio of Emperors acted, God Kings like Zongfu and Gui Xu fell one by one.

Some God Kings were extinguished along with their entire species!

Some were lucky with a few survivors.

The endless battle desire of God Kings Zongfu and Gui Xu was because their kin had perished.

Luo Feng also rose too quickly, with no conspicuous Secret Treasures displayed, so Emperor Yan and the other two Emperors had not taken action.

…

In Heavenly Pillar Realm.

In front of a towering Heavenly Pillar, Luo Feng stood carefully observing.

His observation was multi-faceted: on one hand, it was the distant watching through the Eye of Life and Death, on the other hand, the penetration of spiritual will, and also the perspective of an ordinary life form within the Braided Cage.

Observing from multiple angles, reflecting upon each other.

"Rumble~~~"

Through the Eye of Life and Death, Luo Feng 'saw' a surging, torrential black river, too fierce and unrestrained, sweeping everything in its path.

"This is some of the life mysteries within the Primordial Space, far more profound and vast than the 'Great Dao of Life' within the Supreme Rules," Luo Feng pondered.

The Great Dao of Life within the Supreme Rules contains the mysteries of all life within Land of Origin.

But what about even vaster spaces?

Within the Primordial Space, countless Source Worlds are hard to enumerate, alongside many more myriad worlds—with massive numbers of Innate Primordial Life forms and even more mysterious unknowns...

The "mysteries of life" within Primordial Space are far deeper and more profound than in the Land of Origin.

"Thirty-six Heavenly Pillars, nine Great Daos, each Great Dao supported by four Heavenly Pillars, pointing in four different directions," thought Luo Feng, "Senior Yuan and the others have indeed made painstaking efforts, these Heavenly Pillars are like lamps lit in the darkness, illuminating the path."

Each Great Dao in the Heavenly Pillar Realm reveals four directions, representing the paths beyond the confinements of the Braided Cage.

"Brother Luo He, I have come to take over the duty of garrisoning the Heavenly Pillar Realm," said a gray-robed elder upon arriving at one of the entrances to the Heavenly Pillar Realm, meeting one of Luo Feng's garrison avatars.

"The thousand-Era term has come to an end; it's time to hand over the duties. Follow me first to meet Emperor Xuan," said Luo Feng.

To him, whether to garrison the Heavenly Pillar Realm or not was of little consequence.

His identity as the Galaxy Ruler allowed him to freely comprehend those thirty-six Heavenly Pillars within the Heavenly Pillar Realm.

"Alright."

The gray-robed elder followed Luo Feng to meet Emperor Xuan and then officially took over.

Luo Feng had thus completed one of his tasks.

From this point forth, Luo Feng only had one remaining duty in Flame Wind Ancient Country—garrisoning Xiangjie City. Originally, due to his conflict with Yan Su, Luo Feng had been sentenced to garrison Xiangjie City for a whopping ten thousand Eras! There was still a long way to go until the end of his term.

...

Present-day Huyang City, now surrounded by five towering mountain ranges. These mountain ranges, like a massive formation, thoroughly protected Huyang City.

If there were any powerful beings capable of perceiving beneath these mountain ranges, they would discover... that the foundations of the mountains were even more colossal and interconnected to form an integrated entity, resembling a gigantic claw.

"Innate Secret Treasure 'Palm World'." Luo Feng, over these past five hundred Eras, had managed to acquire only one Innate Secret Treasure in the deep regions of the Dream Domain despite being powerful enough and having the Eye of Life and Death to observe.

This Innate Secret Treasure was a fuzzy little claw, naturally containing endless mysteries of Secret Patterns. Once stimulated, the palm of the claw would naturally form a world.

Luo Feng named it 'Palm World.'

After Luo Feng refined and mastered it, he placed the small claw in the region of Huyang City. The five continuous mountain ranges that appeared above ground were merely the tip of the iceberg.

"On the Land of Origin, only a few could peek into the marvels of this Innate Secret Treasure," thought Luo Feng, "Perhaps through this, they might guess that I am the Galaxy Ruler."

Whether it would reveal his identity, Luo Feng was not concerned.

Initially, Luo Feng had planned to purchase a cave mansion class Array Formation Secret Treasure from Di Qing to protect Huyang City and to provide shelter for the headquarters of the Blade River Sect. But this Innate Secret Treasure proved to be a more suitable choice.

With only a partial activation of its power, Luo Feng easily brought the Innate Secret Treasure to the upper limit of the Land of Origin's might.

"Indeed, the Dream Domain is miraculous, capable of naturally nurturing Secret Treasures."

"Compared to this, the life forms in the Land of Origin are much simpler," mused Luo Feng, walking through a wasteland. He observed the surrounding flora and trees, as well as the exotic beasts in the distance.

He saw through the source of life force of these plants and exotic beasts at a glance.

Everything drew from the energy source of the Land of Origin, absorbed by various creatures, as the creatures themselves grew stronger.

"What is cultivation?"

"Cultivation is finding ways to absorb more energy, causing one's life form to evolve continuously. Under the operation that conforms to the Supreme Rules, life forms become ever more powerful..."

As Luo Feng walked, the nearby trees and grasses rapidly grew.

Trees shot up abruptly—one billion kilometers, ten billion kilometers, a trillion kilometers tall. As they ascended, these towering giant trees even began to develop consciousness; they started to ponder, to comprehend the universe.

Flowers and grasses also grew, either rooting into the earth or permeating the Void.

In the distance, exotic beasts were undergoing transformation—true god of void space level, eternal true god level, Primal Chaos Level, Godly King Level. Beast after beast directly evolved toward the Godly King Level, but their consciousness was too weak, their wisdom too low to control such massive physical bodies, which eventually exploded with a bang.

"I could enlighten them, but the prerequisite is that their spiritual will is strong enough to control such physical bodies," Luo Feng shook his head gently, "Under my guidance, they could naturally evolve to gain a 'Peak of Second Level of God King Realm' body, but finding such a powerful spiritual will is difficult."

"Master."

The towering tree coalesced into the figure of an elderly man, who bowed respectfully.

A plant rooted in the ground also transformed into a woman, bowing respectfully.

There was also a bird-like exotic beast that took on the form of a young man, bowing respectfully.

All three of them possessed Primal Chaos Realm Strength, of course, having been enlightened by external forces.

"It's not easy to create Godly King Level life forms," Luo Feng greeted them with a smile, "The Great Dao of Life is infinitely profound."

While collectively enlightening numerous life forms, Luo Feng had fully comprehended the Great Dao of Life.

The operation of the Great Dao of Life within the Supreme Rules no longer confounded him.

How does life arise?

How is it formed?

How does it grow strong?

How does it evolve?

Every mystery resides in the heart!

—

Thank you to the 'Red Alliance Leader Kui Ba' and 'Feng Xian' for

their tips, as well as Senior Alliance Leader Old K for their multiple tips! Thank you all for your support!

Chapter 284 - 46 The Five Great Avatars

Luo Feng gazed at the three entities from the Primal Chaos Realm before him. As he had his epiphany about the Great Dao of Life, the enlightenment washed over the three of them collectively, allowing them to withstand bodies of the Primal Chaos Realm, which was rather remarkable in itself.

Of course, those transformed by external forces would likely find it challenging to progress further in their entire lifetime.

"You can be considered to have fate with me," Luo Feng nodded. "You can choose to venture this world or opt to follow me to the Blade River Sect."

"I wish to follow the master to the Blade River Sect," stated the woman transformed from a plant and the youth transformed from a bird without hesitation. Both had been conscious for some time and understood the hardships exotic life forms endured in the Land of Origin. They knew how crucial it was to cling to a 'thick thigh' for support.

The elder transformed from the big tree hesitated before he spoke, "Master, may I venture in the world for a while before joining you at the Blade River Sect?"

Luo Feng knew that this big tree had just formed its consciousness during the transformation and, despite appearing to be an elder, it was actually the most naïve.

"Granted," Luo Feng nodded.

He then vanished into thin air with the woman and the youth, already departed.

The elder from the big tree felt somewhat lost.

Was his choice correct?

"This world?" Full of curiosity, the elder had felt nothing but a vague instinct before his transformation, sensing only the passing tribes of creatures and the hunting of exotic beasts in his vicinity.

Immediately filled with curiosity, the elder commenced his journey.

…

At the headquarters of the Blade River Sect.

Morosa looked at Luo Feng and the woman and youth who suddenly appeared before him.

"Morosa, these two are the ones from the Primal Chaos Realm that I have enlightened," commanded Luo Feng. "From now on, they will be part of the Blade River Sect; you will be responsible for teaching them."

"Enlightened lives?" Morosa nodded, acknowledging that as a being at the peak of the Second Realm of Godly King, the master had the potential to create life forms of the Primal Chaos Realm.

Morosa suddenly looked at his master with shock.

"Master, you?" Morosa was surprised, for Luo Feng usually concealed his strength whilst outside, being Formless and Intangible. But in Morosa's presence, he made no attempt to hide, allowing Morosa to clearly sense... that his master had also attained Great Dao Perfection.

"At last, there's been a breakthrough," Luo Feng said smilingly.

"Congratulations, Master, rejoice!" Morosa was overjoyed.

The master, with his exceptional talent, had created the 'Life and Death Dao Ultimate Secret Method' that surpassed Morosa, even without reaching the Ultimate Realm. With the assistance of a Super Secret Treasure, his strength was on par with the Ancestors of two

great nations.

Now he had finally taken that step forward!

"It's but a small step," Luo Feng was in high spirits, yet he knew it wasn't significant.

"In just over thirteen centuries since arriving at the Land of Origin, I've reached the Ultimate Realm," Morosa felt the master's terrifying rate of growth. In terms of the Secret Technique and Spiritual Will, the master was comprehensively surpassing him.

As for Morosa, he had reached the limits of his growth and could progress no further.

"I am the strongest among the master's subordinates. I can manage the Blade River Sect for the master, and the Galaxy Divine Country," Morosa had the confidence, with his many Avatars and Formless and Intangible nature, he was naturally well-suited for the tasks.

"From today onwards, you can begin nurturing the Destruction Army," instructed Luo Feng, his current realm allowing such matters to be made public.

"Yes," Morosa complied immediately.

The woman and youth beside him were somewhat bewildered.

The Destruction Army?

Although they had been conscious for a while, one was a plant rooted underground and the other a true god of void space level Exotic Beast. They had no idea what the Destruction Army entailed.

"Come with me," Morosa led the two away.

…

Luo Feng walked within Huyang City.

"Three enlightened Primal Chaos Realm beings, two have chosen to join the Blade River Sect, one has decided to roam the world... this is

the spirituality of life," reflected Luo Feng. "With strong spirituality, life is filled with infinite possibilities. It might even break free from the shelter of the Supreme Rules."

The so-called Braided Cage was indeed a form of shelter.

Luo Feng observed the myriad cultivators within the bustling Huyang City, each with their pursuits, with their own Spiritual Will.

"Life."

At this moment, Luo Feng could become big or small and even hide within any life form in the heaven and earth, whether cultivators, unintelligent creatures, a blade of grass, or even a pebble. He could merge within them all.

Even every 'memory' of Luo Feng in the entire Source World was a mark of life, which he could use to rapidly regenerate his body.

"Within the reach of the Land of Origin, I am the concept of life itself. As long as the world contains conditions conducive to nurturing life, with a wisp of energy, a bit of soil, I could be immortal," Luo Feng realized.

He could slay Di Yuan, isolate cause and effect, and even slay the White Demon!

But killing a true Ultimate Realm being would exponentially increase in difficulty.

And within the Source Continent, the life path at the Ultimate Realm was undying.

"Of course, this only applies to the conditions within the Source Continent," Luo Feng recognized this fact. "My understanding of life is limited to the normal conditions of life within the Source Continent. As for the Divine Emperor level? As for the Primordial Bloodline? These are beyond my comprehension."

"The so-called Great Dao Perfection, leaving no trace, isolating cause and effect... also has its limitations."

Everyone has causality.

After reaching the Ultimate Realm, perfected Great Dao can obscure and blur causality, making it difficult for enemies to probe.

Even traces left in time and space are obscured.

"Methods within the Braided Cage cannot probe it."

"But methods that do leap out of the Braided Cage, of a higher tier... are clear and distinct."

The Eye of Life and Death in Luo Feng's brow opened.

Under the gaze of the Eye of Life and Death.

Not just the Ultimate Realm; even some causality and traces of the Ancestors of two countries were visible to probe.

"Sigh."

Luo Feng walked to the highest point of a pavilion within the city owner's mansion, where he sat alone.

"I grasp the Great Dao that exists within the Source World."

"Next, what I need to do is grope in the dark and evolve the 'Great Dao' within the Source World into the 'Great Dao at the Primordial Level,' integrating it with the higher-level mysteries." Luo Feng understood this point.

Every Enlightened Being groping in the dark yearns for this:

To discover their own Great Dao at the Primordial Level!

"These materials from the Ultimate Realm Primordial Bloodline Creatures." Luo Feng flipped his hand, looking at a fragmented piece of scale in front of him, "I can penetrate their fundamental life compositions containing the 'Nine Forms.'"

"But the matter that forms these nine forms is beyond my comprehension."

"Because this matter originates from their Primordial Bloodline. It has transcended the scope of the 'Great Dao of Life' within the Braided Cage."

"If the Great Dao of Life at the Primordial Level should exist, it would have a profound grasp of the scales and fur of Primordial Life," thought Luo Feng.

At the Ultimate Realm of God King,

You need to contemplate the 'Nine Forms' separately, then study 'matter' through the material Great Dao, and the combination of the two forms the final life form.

However, in truth, all life's matter can also be attributed to the Life Great Dao at the Primordial Level.

"The higher it goes, the more inclusive it becomes."

"The Great Dao at the Primordial Level is vast and boundless."

Having observed the Star Tower, the Eye of Life and Death, two special life remnants, and the innate secret treasure 'Palm World,' Luo Feng realized just how immense the Great Dao at the Primordial Level was.

"At least, I've seen them," Luo Feng whispered quietly.

...

Even while within Huyang City, Luo Feng could still observe all 'Ultimate Realm Primordial Bloodline Creatures' in the Land of Origin. These nine creatures collectively possess 27 different forms.

Before, after Luo Feng contemplated 15 forms, he had a natural breakthrough, gaining a complete grasp of the Great Dao of Life.

After mastering the Great Dao, understanding these forms became much easier.

More than a century passed, and the 27 forms of the nine creatures were all fully comprehended.

"The nine Ultimate Realm Primordial Bloodline Creatures of the Land of Origin, each has its talents. Four of them are weaker and can be ignored; the other five have their uses," Luo Feng's heart intention stirred.

By his side, an Avatar stepped out, this one with silvery grey scale armor, still bearing Luo Feng's appearance.

The silvery grey scale armor flickered.

If there was an observer, they could see that across the past timeline, the present, and the future timeline, an Avatar with silvery grey scales appeared.

"This Avatar can be called 'Time Avatar,' naturally existing simultaneously in the past, present, and future."

"Although I can use it, I do not comprehend its mysteries."

After selecting the five Ultimate Realm Primordial Bloodline Creatures, once he transforms, with his Spiritual Will and his realm of control, they are all life forms on par with the early stages of Divine Emperor Level.

"From now on, if I want a stronger body, I will need to contemplate it myself. Formless and Intangible can no longer help me," Luo Feng understood this.

"The Heaven and Earth Avatar among the five Avatars!"

With an intention from Luo Feng, an Avatar appeared.

This Avatar dressed simply, appearing very ordinary, but in an instant, it dispersed like mist, spreading across billions of kilometers in an instant, vastly exceeding the scope of Huyang City.

The Heaven and Earth Avatar, this Avatar possessed the innate 'Body Melding Heaven and Earth,' able to integrate into the Heaven and Earth Operation Law, even leveraging the 'Heaven and Earth Operation Law' to amplify a fraction of force into hundreds or thousands of times greater.

"Innate secret treasure 'Palm World'! Rise!"

At this moment, Luo Feng fully activated this innate secret treasure.

Rumbling~~~~

To the astonishment of countless citizens within Huyang City, the entire city began to lift from the ground, slowly ascending, and all the while, the city trembled continuously.

"What's going on?"

"What happened?"

Many cultivators flew high above, looking towards Outside Huyang City, able to see giant mountains in all directions emitting light. Originally ordinary winding ranges were turning into huge fluffy claws.

Five mountain ranges were merely the tips of the 'Sharp Claws' of the massive paw; an even more colossal part was emerging from the ground.

As for the palm of the gigantic claw, it was supporting and elevating the entire Huyang City.

"Master!" Moyu Qingyan, Xin Yu, and the others were shocked.

"Luo Feng." Di Yuan also felt that the commotion was too great; the aura of the humongous paw seemed even more terrifying than Mt. Leiting.

"This claw is a Secret Treasure, which I am currently operating," Luo Feng conveyed through spiritual transmission, calming down the higher-ups of the Blade River Sect and simultaneously shocking them with Luo He God King's terrifying prowess.

This super-gigantic fluffy paw spanned billions of kilometers, two-thirds of it had emerged above the ground, still with some parts below.

The solid palm was supporting Huyang City.

Huyang City was now approximately 80 trillion kilometers above the ground, hovering over the gigantic palm.

"Palm World is indeed profound." This was the first time Luo Feng executed it fully, without any restraint, able to feel the wonder of 'Palm World'! It really was a complete world, entirely isolated from the outside.

Even causality was isolated! This was even more fearsome than Mt. Leiting.

"Heaven and Earth Avatar, merge with 'Palm World'." With a thought from Luo Feng.

The Heaven and Earth Avatar began to merge with 'Palm World,' without conflict as Luo Feng was in control of this innate secret treasure.

Once fully merged,

At this moment, Luo Feng's Heaven and Earth Avatar became one with Palm World, feeling the operation of the world inside Palm World! This gave Luo Feng another perspective for 'contemplation.'

"The Galaxy turns out to be Luo He, haha..." Emperor Qing's laughter echoed from afar, "Galaxy brother, you've indeed kept a formidable secret."

Such a great commotion had long disturbed the entire Land of Origin, drawing the gaze of many powerful beings.

Chapter 285 - 47 Reincarnation? Or Talent Potential?

Luo Feng's Heaven and Earth Avatar is a life form at the early stage of the Divine Emperor. During the fusion process of the Heaven and Earth Avatar with the Secret Treasure 'Palm World', some of the most powerful beings on the Land of Origin could still catch glimpses of certain information.

A stranger at the early stage of the Divine Emperor? Such a powerful Secret Treasure?

Who else could it be but the Galaxy Ruler? There's no way the Land of Origin could produce two beings at the early stage of the Divine Emperor back to back.

"Hahaha, I still couldn't fool Brother Emperor Qing." Luo Feng stood on one of the towering mountain peaks formed by the huge furry paw, revealing his true self with the mask disappearing.

Hoo.

Emperor Qing also arrived at this mountain peak, laughing, "Such a powerful Avatar, such a powerful Secret Treasure, who else could it be but Brother Galaxy?"

"Is this an Innate Secret Treasure?" Emperor Qing stood on the mountaintop, looking at the gigantic furry paw in amazement, "This Innate Secret Treasure is extraordinarily valuable. Placed in the Infinite Space Treasure Vault, it's probably worth thirty to forty thousand reward points."

Luo Feng nodded. Based on his long-term research, while the Secret Patterns contained within this Innate Secret Treasure are a bit inferior to 'Special Life Remnants', it is still a Secret Treasure after all.

"Obtained from the Dream Domain?" Emperor Qing asked.

"Yes." Luo Feng nodded, "In all my cultivation till now, this is the only Innate Secret Treasure I've obtained."

"I've been cultivating longer than you, and have explored both the Dream Domain and the Heavenly Pillar Realm for a long time, yet only managed to obtain two Innate Secret Treasures in total." Emperor Qing laughed, "And from my perspective, its value should be close to that of a Special Life Remnant."

Luo Feng smiled.

"It seems you're not planning to take this Innate Secret Treasure out?" Emperor Qing observed the scene before him, the vast Palm World formed by the Innate Secret Treasure was shielding Huyang City.

Luo Feng nodded, "Not taking it out."

"This Huyang City can be considered the safest place on the Land of Origin." Emperor Qing commented, "Its isolation of causality is so formidable that even I cannot ascertain anything."

With the help of the Eye of Life and Death, Luo Feng could discern the causal links between the creatures within Huyang City in the Palm World and those in the outside world.

But no other methods could probe it.

"Hoohoo."

Two more figures approached side by side; they were the Thunder Ancestor and the Primogenitor Yan Feng.

"What an Innate Secret Treasure." Primogenitor Yan Feng observed, "It should be the paw of a High Level Primordial Life, nurtured for countless ages inside a World Level Primordial Life from the Dream Domain, forming such an Innate Secret Treasure. Its value is comparable to a Special Life Remnant."

"Primogenitor Yan Feng, you could tell this?" Luo Feng was surprised.

"Having lived in this Source World for several eras, I've seen my fair share of Special Life Remnants and Innate Secret Treasures." Primogenitor Yan Feng laughed, "I've also heard similar rumors outside the Source World. Naturally, I could deduce as much."

The Thunder Ancestor, gazing at the furry paw, couldn't help but say, "Galaxy, are you planning to sell this Innate Secret Treasure? I can get you something suitable, a heritage that directly points towards the half-Primordial level Enlightened."

"Directly pointing to half-Primordial heritage?" Emperor Qing was somewhat surprised from the side, knowing well that heritage below the Divine Emperor Level is common, but one reaching the half-Primordial level Enlightened is much more costly.

"Not selling." Luo Feng shook his head.

"When you plan to sell, feel free to contact me anytime." The Thunder Ancestor was patient; having lived long, he clearly understood the magic of time. In the vast passage of time, a cultivator might change their mind easily; in the future, under environmental influences, this Luo He might very well decide to sell the treasure.

Luo Feng looked into the distance and found that the East Extreme Domain Ancestor, Feng Xi, had also arrived.

"The Godly Emperors of the Land of Origin are all gathered here today." Luo Feng smiled, "This is indeed an honor for me, Luo He."

With a wave of his hand, Luo Feng conjured a cave mansion, tables, chairs, and had fine wines and fruits ready.

"Please, everyone, have a seat."

Immediately, Luo Feng, the two Primogenitors, Emperor Qing, and the East Extreme Domain Ancestor, in total five people, sat down. These were the five most powerful beings on the Land of Origin.

"I've been guessing who the Galaxy Ruler truly is. I once speculated it might be Luo He... but Luo He is too young, I couldn't believe it." The East Extreme Domain Ancestor laughed, "Who knew it was indeed Luo He."

"Luo He." Primogenitor Yan Feng couldn't help but ask, "Are you a reincarnator, or did you truly cultivate to such a level within just over a thousand epochs?"

"Looking at the cultivation paths and Secret Techniques of historical powerhouses on the Land of Origin, none match Luo He, so it's likely not reincarnation." The East Extreme Domain Ancestor shook his head.

But the Thunder Ancestor laughed and said, "Perhaps a powerful being from another Source World, reincarnated here."

While speaking, both Primogenitor Yan Feng and the Thunder Ancestor looked at Luo Feng.

"A powerful being from another Source World, reincarnated here?" Luo Feng was surprised, "Has this happened on the Land of Origin before?"

From the Infinite Space Treasure Vault, Luo Feng knew that there is a way to reincarnate into another Source World.

"Not on the Land of Origin." Primogenitor Yan Feng laughed, "But we've heard plenty in our journeys outside the Source World!"

"If you're not a reincarnator..."

The Thunder Ancestor couldn't help but say, "Luo He should have gone through the cycle of rebirth to arrive at the Land of Origin, arriving first at Huyang City, being here for around 1500 epochs. You've reached such heights?"

"Such a short time, such strength, truly terrifying." Emperor Qing also marveled at Luo Feng.

The two Primogenitors, Emperor Qing, and the East Extreme Domain Ancestor all felt that if indeed one cultivated to such strength in a short time, the growth speed would be terrifying indeed! If it were an old monster from another Source World reincarnated, it'd still be understandable.

"Hahaha..." Luo Feng laughed heartily, "Just consider me as a

reincarnator then."

He was unwilling to explain or prove anything.

"Achieving such achievements in such a short time means that among the many Source Worlds, among countless worlds, one would be among the very top few." At this moment, the Primogenitors and the rest faintly felt, this Luo He might truly have achieved this through brief cultivation.

That feeling left them deeply shocked.

Such talent!

Such potential!

...

At this moment, on the Land of Origin, the Emperors and Monarchs, as well as numerous Godly Kings were speculating about the events of Huyang City, they implicitly guessed at a certain possibility.

Emperor Yan, Emperor Xi, and Emperor Wu gathered together.

"The true identity of the Galaxy Ruler is, nine times out of ten, that Luo He!" Emperor Yan sat restlessly on the throne, his huge fiery wings drooping, his slender scale-armored tail swaying somewhat uneasily, while the flames on his body surged and twisted.

"Are you that worried?" Emperor Wu said, "Just possessing a powerful Secret Treasure in the Huyang City area proves the Galaxy Ruler is Luo He?"

"Sister Wu, didn't you see the power of that Secret Treasure? It has already reached the maximum potential of the Land of Origin." Emperor Yan urged anxiously, "It even isolates causality more strongly than Mt. Leiting. I can't sense any life within Huyang City at all."

Emperor Xi, beside him, also nodded coldly, "Considering isolation of causality on the Land of Origin, Mt. Leiting ranked first before, also known as the primary Holy Land. Now, the isolation effect of Huyang

City surpasses it."

"Treasures, too, depend on the wielder." Emperor Yan said, "Like Gui Xu, giving them powerful Secret Treasures, they wouldn't be able to bring out much power. Yet the power of that super-sized paw... the owner of this Secret Treasure must surpass us in strength."

"An unprecedented powerful presence suddenly emerging on the Land of Origin, along with such a powerful Secret Treasure? Who else but the Galaxy Ruler?" Emperor Yan pressed urgently, "And those five interconnected mountain ranges have surrounded Huyang City for hundreds of epochs."

"Considering the rise speed of that Luo He."

"Considering how the former Galaxy Ruler killed the three Kings of Shi Kingdom! Yet the territory fell into Luo He's hands."

"The Galaxy Ruler detests evil, and upon closely examining Luo He's growth experiences, he also detests evil."

Emperor Yan anxiously added, "Combining everything, nine times out of ten, Luo He is the Galaxy Ruler!"

As the first Emperor of the Flame Wind Ancient Country, Emperor Yan could even unite two Emperors, making their faction the strongest among many Emperors of the Flame Wind Ancient Country, Emperor Yan's vision was naturally sharp. He had long recognized Luo Feng's potential and wanted to suppress it a bit. Yet, he never expected Luo Feng's growth to be so terrifying.

"Even if he is the Galaxy Ruler, what can he do? We haven't massively plundered countless creatures." Emperor Xi said indifferently, "We don't share any major grudges with him."

"Emperor Wu, you have a major grudge with Emperor Chu." Emperor Yan pointed out.

"We haven't killed any tribespeople of Luo He, nor any sect disciples." Emperor Wu retorted, "As for the feud with Emperor Chu, Emperor Chu is still doing well, while I lost two children! I'm the one who suffered more."

"We are ultimately Emperors of the Flame Wind Ancient Country Royal Family, and the Ancestor is benevolent. As long as it's not a monumental fault, they will protect us." Emperor Xi remarked to Emperor Yan, "I understand your intention, you want to leave the Land of Origin?"

Emperor Yan looked at his wife, "Don't let others decide your fate."

After determining that Luo He was likely the Galaxy Ruler, Emperor Yan had already decided.

"I don't want to go."

Emperor Xi shook her head, "I've heard, outside the Source World, beings like us with only Ultimate Realm Life Forms are the weakest, the lowest tier! I'd rather linger on the Land of Origin for tens of billions of epochs than go outside."

Emperor Yan did not continue persuading.

If, when the Land of Origin approached extinction, he took Emperor Xi away, she would surely be willing.

But there were still tens of billions of epochs left! That's a long, long time, so it was indeed normal for Emperor Xi not to wish to leave.

...

Elsewhere.

Emperor Chu looked distantly towards the direction of Huyang City, where the super-sized furry paw cradling Huyang City had a presence much more terrifying than that of Mt. Leiting.

"To wield such a Secret Treasure and even reveal it openly without fear of being plundered by the Primogenitors, actively displaying it..." Emperor Chu pondered, "It should be the Galaxy Ruler."

"To show such methods and reveal such a powerful Secret Treasure purely to protect Huyang City?"

The Emperors were not foolish.

With Luo Feng's display in Huyang City this time, combined with traces from the past, it was easy for everyone to speculate a common guess — perhaps Luo He is the Galaxy Ruler.

"Could it be that my disciple is the Galaxy Ruler?"

"Could it be?"

Emperor Chu gazed into the distance, feeling a bit unsettled.

"Luo Feng." Emperor Chu suddenly contacted through the transmission token.

"Master." Luo Feng responded.

"Luo Feng, are you the Galaxy Ruler?" Emperor Chu asked.

"Yes! I am the Galaxy Ruler; it was wrong of me to hide it from Master for so long." Luo Feng replied.

Emperor Chu felt his blood boil, his head buzz with sounds.

Chapter 286 - 48 Di Yan, Di Xi, and Di Wu

Emperor Chu was only able to cultivate a few Ultimate Realm Secret Techniques and refine himself into an 'Ultimate Realm Life Form' with the supply of resources from the Imperial Clan, but the comprehension of the complete Great Dao was still an endless road away! As for leaving the Source World to venture elsewhere? With his strength, he would be at the very bottom in those places where the mighty from billions of worlds converge, and most critically... he has no Clone Technique!

"My disciple is above the God King level? How long has he been cultivating?" Emperor Chu couldn't believe it.

A tremendous opportunity had landed right before him.

"Master, I am currently accompanying the Ancestors of two countries. Once things here are settled properly, I will visit Master and report everything in detail," Luo Feng communicated.

"No hurry, Master is not in a hurry," Emperor Chu said with a grinning smile.

...

Among the Emperors and Monarchs of the Land of Origin, besides Emperor Qing, the strongest individual was Emperor Ming.

He preferred to keep to himself, and his relations with other Emperors were quite ordinary! However, he regarded Luo Feng differently, and he admired these strongest individuals who had climbed up from the very bottom.

During their interactions, Emperor Ming also gifted a "Calamity Beast

Diagram", which was indeed his genuine spiritual will secret technique inheritance, aiding Luo Feng's initial will cultivation to a certain extent.

Of course...

Emperor Ming's path of Spiritual Will differed from Luo Feng's.

Before their contemplation of the Great Dao, both had already surpassed the Godly King level in their spiritual will, even touching the limits of the spiritual might of the Land of Origin.

"Will Luo He become the Galaxy Ruler?" At this moment, Emperor Ming was also somewhat surprised, "Truly an extraordinary talent."

He was slightly shocked, but quickly got used to the idea.

Coming up from the bottom of a small universe, Emperor Ming had seen many formidable talents, many more outstanding than himself! Emperor Ming was in no rush, for he knew... the path of cultivation was not about momentary struggles, but about the endless, long years.

As long as he kept groping through the dark and moving forward, he would eventually travel further and further.

******

Luo Feng, the Ancestors of the two countries, Emperor Qing, and the Ancestor of the East Extreme Domain — all five gathered together.

"If such achievements are made in such a short time, that would be too astonishing," Primogenitor Yan Feng looked at Luo Feng, "You must surely be able to stand amongst the brightest ranks when competing against the mighties from billions of worlds outside the Source World."

Luo Feng smiled, "Can they jump out of the Braided Cage?"

Primogenitor Yan Feng and Thunder Ancestor were both startled.

"Jump out of the Braided Cage?"

Suddenly, everyone fell silent.

This is what every cultivator groping in the dark yearns for, yet it's also the hardest thing. Just like fish leaping through the Dragon Gate to become dragons, or mortals ascending to heaven to become immortals, jumping out of the Braided Cage signifies a complete transformation.

"Difficult, difficult, difficult," the Ancestor of East Extreme Domain spoke, "Even becoming a High-Level Primordial Life by jumping out of the Braided Cage is legendary."

"So, even if one has greater talent, what of it?" Luo Feng said with a smile, "There's nothing to boast about."

"Those with extremely high talent, at least, it's very easy for them to reach the Half Primordial level," said Primogenitor Yan Feng, "Like me, I have cultivated for several eras, and even now, I am only a late-stage Enlightened Divine Emperor."

"I have abandoned the path of the Enlightened and chosen the Primordial Bloodline," Thunder Ancestor added, "At least for you, Luo He, walking the path of the Enlightened should be relatively smooth to become Half Primordial."

"The path of cultivation still needs to be walked step by step," Luo Feng also had a clear self-awareness.

The super Secret Treasure Eye of Life and Death that he exchanged for, every Exchanger in history was of extremely high talent, and out of the twelve Exchangers before him, only one jumped out of the Braided Cage to become a High-Level Primordial Life, and also died in battle.

"This Luo He, with such a dazzling talent yet so humble, not the slightest bit of arrogance," Primogenitor Yan Feng sighed inwardly. Such a cultivator is the most terrifying, always advancing step by step.

"Luo He." Primogenitor Yan Feng had naturally watched all the detailed intelligence on Luo Feng, he said, "As far as I know, within

the Royal Family of the Flame Wind Ancient Country, there seems to be some conflict between you and Di Yan, Di Xi, Di Wu?"

Luo Feng's brows slightly furrowed, and he said, "Among them, Di Wu and I indeed have a grudge! She once tried to threaten me by vowing to annihilate all the disciples of my Blade River Sect... Fortunately, my master, Emperor Chu, helped to block her at that time."

"The character of Di Wu is indeed brutal and ruthless," Primogenitor Yan Feng nodded, "Even against her own kin, she is excessively cruel, and she even ambushed your master, Emperor Chu, causing Emperor Chu to fall into the Polluted Blood River. Emperor Chu was about to be contaminated to the brink of death within the Polluted Blood River, but by sheer luck, obtained an Innate Secret Treasure, thereby escaping from the Polluted Blood River and surviving."

"Luo He, my brother, what do you think should be done about these three?" Primogenitor Yan Feng said.

"Since there's a feud, just kill them all," Thunder Ancestor said from the side.

Luo Feng said, "Di Wu deserves death, as for the other two… Hmm?"

Luo Feng, Primogenitor Yan Feng, Thunder Ancestor, the Ancestor of the East Extreme Domain, and Emperor Qing, all five looked surprised and gazed far towards a place in the Land of Origin, where the teleportation channel of the Land of Origin was located.

...

"Di Wu is arrogant and has always thought highly of herself, employing harsh methods all along, often going against her own kin, and the Ancestors didn't care much. She thought the little clash with Luo He was trivial."

"Di Wu doesn't understand... in the eyes of the Ancestors of the two countries, we are all but ants!"

"Di Xi, Di Xi is too fearful of the world outside the Source World, with such a disposition, even if he went out to venture far in the

future, he wouldn't get far."

"Let it be."

After making up his mind, Di Yan didn't hesitate any longer.

Whizz!

A rainbow light, almost in the blink of an eye, crossed over a large half of the Land of Origin and arrived at the location of the teleportation channel.

The teleportation channel of the Land of Origin was located deep within the Tianji Icefield, where everything was made of ice, in an Ice Valley crafted from ice, sheltered by a Formation, incredibly stable.

Within the Ice Valley was a dark, deep pool.

Beside the murky deep pool sat a figure cross-legged, an Avatar of Di Fu. He had been waiting patiently, waiting for Luo He to depart.

"Hmm?" Di Fu looked on in surprise.

Only to see a flash of rainbow light in the sky, a figure had arrived in the Ice Valley, it was none other than Di Yan.

"Di Yan?" Di Fu puzzled, "You're here..."

Di Yan glanced at him, said not a word, and directly leaped into that dark and deep pool.

The luminescence flowed within the dark deep pool, and Di Yan had already been transported out of the Land of Origin to beyond the Source World.

"He left?" Di Fu realized, "This Di Yan is indeed decisive in his actions. He must have detected Luo He's identity. He didn't even bring his two companions, just slipped away on his own."

"This is very much in line with Di Yan's way of doing things."

Ruthless to the enemy.

Equally ruthless to himself.

…

Luo Feng and his group of five would not usually care about the whereabouts of the countless creatures within the Land of Origin, but they were drawn to attention when a creature entered the transmission channel.

"Di Yan has entered the transmission channel." Luo Feng saw from afar the light rippling from the dark deep pool within the Ice Valley, knowing Di Yan had made his escape.

"He escaped really fast." Thunder Ancestor remarked with a laugh beside him, "Brother Flame Wind, this Di Yan is quite sensitive, detecting a whiff of danger and not hesitating to slip away."

Luo Feng said, "Di Wu deserves to die, but as for Di Yan and Di Xi, the two of them only have some minor quarrels with me. Just expel them from the Land of Origin ahead of time."

Although the two of them held a deep enmity with Emperor Gui Xu like a Blood Sea, with countless grievances on the Land of Origin, Luo Feng did not want to meddle too much.

Great Sinners, he will not tolerate.

As for any other grievances? Let those involved in the grievances fight it out themselves.

"Brother Luo He." Primogenitor Yan Feng said with a smile, "You're still too benevolent! If they offended you, they deserve to die."

No sooner had he spoke,

An invisible wind brushed past, penetrating the bodies of Di Wu and Di Xi.

Although Di Wu had many avatars, in this moment all were brushed by this 'invisible wind.' The wind swept through her physical body

and soul, causing Di Wu to naturally dissipate into nothingness, vanishing between heaven and earth.

"No!!!!" The very moment Di Wu was brushed by the invisible wind, she understood who was making the move.

She understood then.

In the past, the Ancestor indulged her behavior simply because he paid no mind to the various conflicts on the Land of Origin.

For the Ancestor, across several aeons, he fostered countless kins. What feelings could the Ancestor have for these kins? The Ancestor placed more importance on the entire kin group as a whole. As for individuals? Erased just like that.

"It's all because of that Luo He..." Di Wu understood her cause of death.

Her only conflict with Luo He was the threat she once made.

If he hadn't agreed, she would have annihilated the entire Blade River Sect and all its disciples!

Once, she thought it was a trifle, for she had done much worse, having truly annihilated the full lineage of some Godly Kings, all creatures in an entire city, and so forth. Against Luo He, it was merely a threat, not enacted for real.

"I should have left." Di Wu regretted at that moment, regretting she didn't leave with Di Yan, but it was already too late.

Her consciousness plunged into darkness.

She was dead.

Following Di Yuan, White Demon, and Lan Duo, another Emperor has died.

"Why?"

When Di Xi was brushed by the invisible wind, she felt only immense

anger.

Although she had followed Di Yan and Di Wu in taking action many times and had many enemies, her enmity with Luo He was not that extensive! Why did Luo He still not spare her? Why did the Ancestor carry out her execution?

"This Luo He is too ruthless!"

"The Ancestor is also standing with him!" Filled with indignation and anger, Di Xi's consciousness also fell into darkness.

Another Emperor had died.

…

From then on, with the successive deaths of Di Yuan, White Demon, Lan Duo, Di Wu, and Di Xi, a total of five Emperor-level Monarchs on the Land of Origin passed away, sending chills down the spines of the other forces on the continent, making them even less likely to defy the rules set by the Galaxy Ruler.

With both Ancient Country Ancestors standing with the Galaxy Ruler, who could resist?

…

"Just squashed them like bugs," said Primogenitor Yan Feng with a casual laugh.

Luo Feng also came to see that these Ancient Existences of the two countries, having lived for so long and experienced countless battles beyond the Source World, killing two little fellows meant nothing to them.

"Life rises and falls, they've already lived much longer, lived better, lived more recklessly compared to the countless creatures of the Land of Origin," said Primogenitor Yan Feng, "Now fate, with my hand, has merely returned them to the essence of the Land of Origin."

"Brother Luo He." Emperor Qing spoke from the side, "The clone you displayed this time seems extraordinary, has your secret technique

seen fruition?"

"Yes," nodded Luo Feng, "My secret technique is finally complete."

"Preparing to head beyond the Source World?" Emperor Qing's eyes lit up, he had been waiting for this companion.

Luo Feng nodded, "Once the matters of the Land of Origin are settled, I estimate I will depart within a few eras."

Chapter 287 - 49 Continental Influence

How many eras?

Emperor Qing's face lit up with joy: "When you set off, just send a message."

"Okay," Luo Feng nodded.

The five present lost interest and quickly dispersed.

Aside from Luo Feng, the other four mainly ventured outside the Source World.

...

At this moment in Huyang City, countless cultivators inside the city were in shock, staring at the gigantic claw lifting the whole city, with each of the five claws stretching out like five continuous mountain ranges.

"What in the world is going on?"

"How did Huyang City start flying?"

The cultivators in the city, including the disciples of Blade River Sect, were both shocked and bewildered.

The Godly Kings of the Land of Origin could guess some of the truth, but ordinary disciples of Blade River Sect had little understanding of the Godly King Tier, only knowing that their sect master, 'Luo He God King,' was a very powerful entity in the Land of Origin, yet not as much as the Emperors and Monarchs of the two Ancient Countries.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

Inside the grand hall of the Blade River Sect headquarters, the high-level members all gathered.

"Sect Master."

"Master."

Luo Feng sat in the main seat, with Morosa and others seated beside him, followed by standing figures such as Moyu Qingyan, Xin Yu, other Primal Chaos Realm elders, guest elders, and then a group of registered disciples.

"I've called everyone here today to announce a few matters," Luo Feng said with a smile. "First, the enormous claws appearing outside are a Secret Treasure I refined, the Palm World, isolated from the external world and causality, even the Ultimate Realm of God King cannot pry into it."

"Even the Ultimate Realm cannot pry into it?" The hall was filled with the Blade River Sect's upper echelon, and they all realized the terrifying implication of this statement.

"The second matter, Elder Luo Sa, is actually a Pinnacle Sector Beast, possessing the strength of the Ultimate Realm of God King," Luo Feng continued.

"Eh?"

Many disciples in the hall were utterly baffled.

"The Second Master is a Sector Beast?" Moyu Qingyan also stared at Morosa, unable to believe that his second master he met in Huyang City, who was always eating, drinking, and incessantly teaching him cultivation, could exist at the Ultimate Realm of God King.

Morosa blinked at Moyu Qingyan, and then glanced around the hall with a smile.

I, Morosa, can finally freely display my strength.

"The third matter," Luo Feng said, "I have another identity, that is the Galaxy Ruler."

Everyone in the great hall was stunned.

Yuan was still calm, but the other elders and disciples were bewildered.

"He who set the rules of the Land of Origin, and even caused several Emperors and Monarchs of the two Ancient Countries to perish... the Galaxy Ruler? Is my master?" Moyu Qingyan, Xin Yu, and many registered disciples felt their hearts tremble.

Who is the Galaxy Ruler?

The highest entities on the Land of Origin today are the three entities - Primogenitor Yan Feng, Thunder Ancestor, Ancestral God of the Galaxy.

Yes, the countless cultivators of the Land of Origin now refer to the Galaxy Ruler as 'Ancestral God of the Galaxy,' looking up to and venerating this Ancestral God of the Galaxy, who eliminated the threat of the Great Sinners.

For weaker cultivators, the threat of the Great Sinners was immense.

Living normally, one day, the entire tribe could be raided and devoured, or even entire cities swallowed. This randomness of 'super disasters' was what many cultivators feared; in the past, they could only endure, deeming it bad fate upon encountering.

But the Ancestral God of the Galaxy set the rules that eradicated this disaster, fundamentally changing the fates of countless creatures and naturally earning the gratitude of many.

"From now on, the territories governed by the Galaxy Divine Country, including the territory of Blade River Sect, will expand to encompass 1019 Primal Chaos Prefectures," Luo Feng said.

Ever since he could stand shoulder to shoulder with the ancestors of the two countries, small countries around the Galaxy Divine Country also voluntarily pledged allegiance, expanding the territorial range of the Galaxy Divine Country. Further adding Blade River Sect's 155 Primal Chaos Prefectures, officially breaking through one thousand Primal Chaos Prefectures.

"In all the Primal Chaos Prefectures within the territory of the Galaxy Divine Country, Blade River Sect will set up branches," Luo Feng continued.

The high-level members of Blade River Sect present realized...

Blade River Sect might become the number one sect on the Land of Origin!

Like the two Ancient Countries, the core ruling power is the Royal Family! But within the Galaxy Divine Country, Luo Feng doesn't have a vast Imperial Clan lineage; instead, he's fully cultivating the disciples of Blade River Sect.

Without a doubt!

The numerous disciples of Blade River Sect are the core force governing the vast territories of the Galaxy Divine Country.

Blade River Sect's future status might rival that of the Royal Families of the two Ancient Countries.

"The news I shared today does not need to be kept secret and can be told to all disciples within the sect," Luo Feng said with a smile.

"Yes," everyone in the hall responded.

Luo Feng then stood up: "Moving forward, the affairs of the Galaxy Divine Country and Blade River Sect are mainly overseen by the Ancestral God and Morosa." After speaking, Luo Feng stepped away and disappeared.

Only then did the great hall relax.

"Second Master." Moyu Qingyan immediately approached Morosa, "Father earlier spoke about Morosa?"

"Morosa, Luo Sa are my names, I had been cautious in my actions to keep my Sector Beast identity secret," Morosa said with smiling eyes at Moyu Qingyan, "Look at you, personally taught by a Sector Beast yet cultivation is still so difficult for you."

Moyu Qingyan now understood the incredible opportunity he had encountered.

Great Master... Galaxy Ruler, one of today's highest entities on the Land of Origin.

Second Master, Pinnacle Sector Beast!

"Being valued by Master, taught by Second Master, is my greatest fortune," Moyu Qingyan said.

"You should thank your father; when my master and I came to the Land of Origin through the cycles of reincarnation, the first cultivator we met was your father Moyu Hu," Morosa chuckled.

Of course, among Moyu Hu's three children, Luo Feng chose Moyu Qingyan.

...

Luo Feng arrived in Chu Capital, paid a visit to his master Emperor Chu, and described some secrets from these past 1500 eras.

Chu Capital, Marquis Chu Yu's mansion.

"I won't see anyone!"

Emperor Chu Yu stood in the hall and scolded, "No matter who comes to visit, refuse them all."

"Yes." The butler cheerily responded, immediately rushing out.

"Father, is uncle really the Galaxy Ruler?" In the hall, the three youths were all extremely excited, and a dignified woman beside them was even more thrilled.

Emperor Chu Yu turned his head to his three sons, "This information has been confirmed by Flame Wind Pavilion. All disciples of Blade River Sect have spread the word, so it's certainly true."

"Father, have you contacted uncle?" the oldest son asked.

"Quiet."

Emperor Chu Yu scolded, "Today must be your uncle's busiest day, with his identity revealed, he must have many matters to tend to. Let's not disturb him. Also... remember, I am merely a good friend of Brother Luo He, you must not behave recklessly on this basis."

"If you bring disaster! No need for the Imperial Clan to punish, I will take action myself!" Emperor Chu Yu admonished.

He knew the temperaments of his three children.

Their father being an Imperial Marquis from the Royal Family, they usually lived carefree.

Now knowing that their uncle was the Ancestral God of the Galaxy, wouldn't they turn heaven and earth upside down?

"What your father said is right, you must not bring disaster upon us," the dignified woman also spoke.

"Although I have a relationship of affection with Brother Luo He, such affection is ultimately limited and can be exhausted," Emperor Chu Yu said to his three sons, "I certainly do not wish for your trivial matters to deplete the affection between me and Brother Luo He."

"Father, rest assured."

"We understand," both three sons obediently replied.

Emperor Chu Yu also felt helpless.

Although he was talented within the Royal Family, his sons were rather mediocre.

Emperor Chu Yu pondered, the hierarchies within the Flame Wind Ancient Country's Royal Family were strict; Emperors, Godly Kings, Royal Marquises, and even among the Marquises, he wasn't equal to those Transcenders of Primal Chaos Realm!

But now it was different, who didn't know that he and the Galaxy Ruler were like brothers in life and death, the Galaxy Ruler being the

first Guest Elder he had recruited.

With this bond, even the Emperors within the Flame Wind Ancient Country's Royal Family had to regard him seriously.

"Overwhelming wealth and honor are coming, I must remain steady," Emperor Chu Yu silently said, not only must he himself remain steady, but he also had to watch over his three sons and wife, keeping an eye on the family.

...

Emperor Chu Yu sat leisurely drinking in the Cave Mansion.

"Back then, giving Luo He a Guest Elder spot, Luo He also owed me a favor."

"This favor, its value must have increased manifold by now."

Emperor Chu Yu poured himself another drink.

"No hurry, no hurry."

"It's only been over a millennium, and the value of this favor has already become so high."

"If it were tens of millennia, hundreds of millennia, the value of the favor would probably be different again." Emperor Chu Yu had never thought of using this favor, he was very patient. He would not use this favor unless it was absolutely necessary.

He understood that the value of this favor would only continue to soar.

Even now, thinking about getting a favor owed by the Galaxy Ruler, how difficult would that be?

Even if it were a Secret Treasure above the Godly King, the Galaxy Ruler wouldn't want to owe a favor, would he?

...

Luo Feng announced the news to all disciples of the Blade River Sect, and also did not keep it secret, so naturally, the news quickly spread across the entire Land of Origin.

God Kings of Yu Kingdom, members of the Reincarnation Tower, and others all sighed.

In Flame Wind Ancient Country, Wind Zhang City.

"That idiot Zhang Yunge, that fool!" even with the best of temperaments, Wind Chapter God King couldn't help but curse now, "A huge opportunity, and it was ruined by her!"

"Her two mentors, one is the Galaxy Ruler, and the other is a Pinnacle Sector Beast at the Ultimate Realm of God King."

"How did she mess this up?"

Wind Chapter God King was frantic with irritation, just a small opportunity slipping through the fingers of those two figures could benefit him, a First Realm Godly King, immensely. But now, all was lost.

"Pass down the order," Wind Chapter God King was very displeased, feeling suffocated, he immediately ordered, "Completely expel Zhang Yunge's lineage from the family. Erase them all from the family records."

At this moment, he didn't want that lineage to share any benefits linked to him being a Godly King!

That foolish lineage didn't deserve to enjoy any benefits of the Royal Family!

...

Zhang Yunge's lineage still housed over a dozen eternal true gods, numerous true gods of void space, and true gods. This lineage had long been marginalized, relocated to a common small city within the territory of Flame Wind Ancient Country, becoming the ruling family of this ordinary small town.

"What, expelled from the family? Names removed from the family records?"

"Impossible!"

The descendants of this lineage were all in panic.

Without the protection of the Royal Family, they would only have themselves to rely on. Perhaps the more than ten eternal true gods could still live comfortably, but the lives of other members would be far less leisurely.

"Yunge, we have been expelled from the family, these descendants here are just true gods of the void and even weaker true gods," Zhang's father brought a group of descendants to find Zhang Yunge.

Zhang Yunge, in seclusion, looked at the tens of thousands of descendants brought by her father in a daze.

"Father, what happened? How were we expelled from the family?" Zhang Yunge asked.

"You still aren't aware?" her father looked at his daughter, "The second mentor of Moyu Qingyan, Elder Luo Sa, is actually a Pinnacle Sector Beast at the Ultimate Realm of God King. Her mentor Luo He God King, is even the Galaxy Ruler!"

Zhang Yunge listened in a daze.

Seeing this, Zhang's father sighed, "I will lead tens of thousands of descendants to relocate, the rest of the descendants will be left to you. After all, as a disciple of the God King and having had a relationship with Moyu Qingyan, they are safer with you."

Even if separated, because of the past relationship, Zhang Yunge's place was actually quite safe. Even the most evil ancient existences would have to consider carefully.

"I understand," Zhang Yunge nodded, feeling a bit overwhelmed looking at the tens of thousands of descendants.

"Moyu Qingyan's great master and second mentor, are they the

Galaxy Ruler and Pinnacle Sector Beast?" Zhang Yunge felt as if everything was like a dream, she had once followed Moyu Qingyan to meet Luo Feng and also Morosa, but at the time had not realized anything extraordinary.

Chapter 288: the 6th episode the 50th chapter My name is Yuan

On an island at the heart of a lake in the 'Infinite Space' treasure trove.

Luo Feng sat cross-legged on the grass, pondering: "The path of life has reached the ultimate, yet the path of destruction is still lacking."

With the help of materials from Primordial Life at the Ultimate Realm, his strength could be substantially enhanced, thus naturally most of his focus was on the path of life. Moreover, with the assistance of those life materials, understanding the path of life became smoother.

"The path of destruction, on the other hand, might be worth looking into this Perfection Level Inheritance." Luo Feng checked the inheritances in the Infinite Space Treasure Vault, "Perfection Level Inheritance should be helpful for cultivation."

"Nine Realms of Extinction", the Perfection Level Inheritance of the Great Dao of Destruction.

The First Realm only requires 100 Reward Points to exchange.

The Second and Third Realms, 10,000 Reward Points each.

Just to begin, a Spiritual Will Beyond God King Level is needed to attempt cultivation.

"It's just a hundred Reward Points, let's exchange for the First Realm and give it a try." Luo Feng was full of curiosity about the Perfection Level Inheritance, wondering just how powerful an inheritance had

to be to dare claim 'perfection'?

With just a thought from Luo Feng, the exchange was made, and the Reward Points decreased slightly, to 64093.03.

Buzz——

A flood of information poured into Luo Feng's mind.

"Nine Realms of Extinction First Realm: Peeping Realm. In this realm, one can peek into destruction memories branded on the Great Dao of Destruction of the Origin World. Once all destruction memories are peered into, while still maintaining sanity, the First Realm is then considered mastered."

"Reminder, only attempt if possessing a Will Beyond God King Level. Otherwise, you will be assimilated by the Great Dao of Destruction Origin."

"Reminder, even with a strong will, one might still fall into insanity during the peek into the branded destruction memories, becoming utterly mad. Cultivators need to control the pace of peeping, and not be overly hasty."

What followed was detailed cultivation methods.

Luo Feng was somewhat stunned.

"What is this? The entire inheritance, without any detailed guidance on any branch of the Great Dao of Destruction? Just having me peek into the memories branded on the Dao of Destruction?" Luo Feng was somewhat baffled.

He himself didn't even know that destruction memories were branded on the Great Dao of Destruction.

Luo Feng carefully studied the detailed cultivation content of this First Realm. This realm was merely about peeking! It was more for 'Heart Honing'. Because even a Will Beyond God King Level could go insane, one needed to control the pace.

"Heart Honing? Even if it's just a method for Heart Honing, it's worth

the 100 Reward Points," Luo Feng thought.

"Luo Feng from the Land of Origin?" Suddenly, a voice rang out.

Luo Feng jerked, turning to look.

Stood about ten-odd paces away was an elder, watching Luo Feng with a smiling gaze.

"How could this be? With my Spiritual Will, how could a cultivator get close to me without my noticing? Even now, I sense nothing but void with my Spiritual Will." Luo Feng couldn't believe it.

His eyes clearly saw, but other senses detected nothing.

"My name is Yuan," the elder said with a smile, "I created this space."

"Senior Yuan," Luo Feng immediately realized who the visitor was, and bowed respectfully, "Luo Feng pays his respects to Senior Yuan."

In the Origin Continent Origin World, anyone who achieved the Ultimate Realm had received benefits from Senior Yuan. Various treasure locations, remnants of special life forms, Secret Techniques, and more, were all left behind by Yuan.

"You indeed have the courage to exchange for this 'Nine Realms of Extinction,'" the elder laughed, "This inheritance is only opened for exchange up to the 'first five realms' for those at the Divine King Stage. Even then, despite many talented cultivators attempting it over countless years, none have succeeded in mastering it."

"The most successful one only managed to cultivate up to the Fourth Realm. There were quite a few who went mad or became demons."

The elder shook his head, "My friend who created it was insane; he created all nine realms with the belief that once mastered, one would at least escape the Braided Cage and become a 'World Level Primordial Life'. But his inheritance isn't suitable for cultivation."

"I am here to see you because I meet every Ultimate Realm being," Yuan looked at Luo Feng, "To become an 'Ultimate Realm' being in the Origin World, each and every one is a promising seed. Only upon

meeting you did I discover that the nine-layered little tower had actually ended up in your hands."

"The nine-layered little tower, the Star Tower?" Luo Feng guessed.

"You call it the Star Tower? Yes, I forged it."

Yuan nodded, "In the past, we joined forces to kill a Primordial Ancestor, and that Primordial Ancestor's body had three Blood-colored Scales. I threw one inside the little tower and simply forged it, making the little tower a vessel for the Blood-colored Scale."

"In fact, that Blood-colored Scale remains intact, hidden deep within the tower. Even with my strength, I cannot wear it down, only barely use it." Yuan sighed with a smile, "We generally leave materials from Primordial Ancestor bodies to the most dazzling and talented group of cultivators. But among them, the ones who could escape the Braided Cage... are still too few."

"So, I thought of nurturing some youngsters among the weakest cultivators. That's why there's the little tower, which went to that Primordial Cosmos, searching among countless creatures for its owner."

"To become its owner even during your weakest, you've already proven to be exceptional." Rarely did Yuan speak so much.

After all, this Ultimate Realm being was somewhat more outstanding than usual. And had even received an artifact much earlier on.

"Thank you, Senior Yuan," Luo Feng now fully understood that strictly speaking, the Star Tower was actually forged by Senior Yuan.

"Is there anything you wish to ask?" said Yuan, "Whatever I can advise you on, I will try my best to guide."

Luo Feng was well aware of how rare this opportunity was.

Even with exceptional talent, this might be the only chance to meet Yuan!

"Senior Yuan," Luo Feng said respectfully, "I wish to break out of the

Braided Cage. How should I pursue my cultivation in the future? Please advise me."

"This is what many cultivators want to know." Yuan nodded, "My Infinite Space treasure trove holds all the Perfection Level Inheritances... all created by beings of the same level as me! All the Special Grade Inheritances are created by World level Primordial Life."

"So the exchange of these two kinds of inheritance is limited only to Godly King Level."

Yuan looked at Luo Feng, "Do you know why you can't exchange for the subsequent ones?"

Luo Feng listened.

"We used to release some subsequent inheritances, but the subsequent inheritances had too great of an influence on cultivators, even affecting their own exploration of the path," Yuan said. "The path of the Great Dao is such; those who learn from me live, and those who imitate me perish!"

"Everyone who breaks out of the Braided Cage is unique. To blindly imitate is to walk the path to death," Yuan said. "After realizing this, we restricted the exchange of subsequent inheritances. It is limited only to Divine King Stage."

Luo Feng understood.

Senior Yuan and those World Level Primordial Life beings are of too high a realm.

The inheritances they created were too perfect; successors following these inheritances would naturally be influenced by them.

"There are some inheritances in the Infinite Space Treasure Vault that can directly lead to the Half Primordial level," Yuan said. "The creators of those inheritances themselves did not succeed, the inheritance is still rough, yet the intention is extremely lofty! If subsequent cultivators can perfect this intention on their own, they have hopes of breaking out of the Braided Cage."

Luo Feng realized that the "Eight Tribulations Life Form" was recorded in the treasure trove.

"However, this is still slightly influenced by the pioneers," Yuan said. "The best method is to completely grope in the dark by oneself."

"In the dark, one could lose their direction, right?" Luo Feng asked.

This was also the biggest obstacle after surpassing the Godly King Level.

"That's why you all can obtain Special Life Remnants," Yuan said. "Special Life Remnants are 'World Level Primordial Life Remnants,' the mysteries contained are at the World Level Primordial tier."

"These remnants are like a lamp in the far reaches of the dark."

"Move towards that lamp!"

"Even if the light is dim, and you may wander in the dark, the ultimate destination is that lamp," Yuan looked at Luo Feng. "Your chance is even better; your nine-layered tower contains a piece of Blood Scale from a 'Primordial Ancestor.' You may hope to go even further in the dark."

Luo Feng nodded slightly.

"The remnants of World Level Primordial Life can be obtained by killing just one, and can be split into billions," Yuan said. "We can make it so that any cultivator at the Ultimate Realm in the Source World can get at least one."

"But Primordial Ancestor-level remnants are much rarer. So it's much harder to obtain them," Yuan said. "Once you go beyond the Source World, you will understand! So, value that Star Tower."

Luo Feng nodded.

A single Special Life Remnant could fetch an extremely high price in the outside world.

What would be the price of Primordial Ancestor-level remnants? How

intense would the competition be?

"This Perfection Level 'Nine Realms of Extinction' inheritance, you may exchange up to the first three realms only. Any more would not be meaningful," Yuan said. "It's unnecessary to exchange for other inheritances; you should explore and create your own inheritance to go further."

"Accumulate Reward Points, the more points you have, the more precious treasures you can exchange," Yuan smiled. "I've said all that needs to be said, from here on, it's up to you to walk your path."

After saying this, Yuan disappeared into thin air.

Luo Feng immediately bowed, "Thank you, Senior Yuan."

Yuan's visit this time was purely casting a wide net, treating every Ultimate Realm being in the Source World the same.

At least for now, Yuan did not see Luo Feng as particularly outstanding!

Among the many Source Worlds, among billions of worlds, and throughout the long river of endless years, Yuan has seen many who were more dazzling than Luo Feng at this moment. But how many of them can break out of the Braided Cage?

"Let's follow what Senior Yuan said and exchange for the first three realms of 'Nine Realms of Extinction,'" Luo Feng decided after the exchange and did not use any more Reward Points, choosing to save them for now.

This encounter with Yuan confirmed to Luo Feng that the other inheritances in the Infinite Space Treasure Vault were of little significance.

The biggest gain was knowing the origin of the Star Tower.

...

Within Huyang City.

Luo Feng looked at the Star Tower in his hand: "This Blood-colored Scale is perfectly intact, hidden deep within the Star Tower. Even Senior Yuan and the others can't erase it?"

He had previously thought that the blood-colored scale with twelve-colored edges was the manifestation of the convergence of rule mysteries. It turns out that it was so powerful that even Yuan and the others could not erase it.

"According to Senior Yuan, the mystery of the Star Tower Blood-colored Scale is even more profound. In the dark, I should focus on it for my cultivation," Luo Feng realized, the other Special Life Remnants were secondary.

"I also don't know if I can break out of the Braided Cage," Luo Feng thought.

Chapter 289 - 51 Departing, Beyond the Source World (End of this episode)

Galaxy Divine Country, Capital.

"Come, come, come, pour the wine! Gui Xu, why is the wine gone?" Black Fire Demon Lord shouted.

"I earned great merit last time, it was really hard to exchange for three jars of fine wine. You guys drank an entire jar in no time." Emperor Gui Xu was reluctant, "These are fine wines crafted from some rare treasures in the Dream Domain."

"Don't be stingy, quickly bring it out." Wuxin God King urged from the side.

Cloud Sky God King watched the scene with a smile.

"The wine is good." Great Freedom Sovereign also sighed contentedly.

"Alright, alright, at worst, we'll drink it all today." Emperor Gui Xu could only reluctantly take out another jar of fine wine, and Wuxin God King was the first to grab it and began pouring the wine.

The members of the Reincarnation Tower used to keep a low profile in their actions, but ever since the Galaxy Divine Country was established, they kept coming to join! Especially after Luo Feng's identity was officially revealed recently, even the Black Fire Demon Lord came forward willingly.

Having always hidden in the dark, who doesn't wish to live openly and freely?

In the capital of the Galaxy Divine Country, even if given ten guts, those Emperors and Monarchs wouldn't dare to act recklessly.

"Tell me, how did Wind City have such sharp insight, inviting the Ruler to join our Reincarnation Tower when he was still in the Primal Chaos Realm?" Black Fire Demon Lord sighed.

"The Ruler's rise is rapid, once only in the Primal Chaos Realm, now he's one of the pinnacle existences in the Land of Origin." Wuxin God King also sighed, now not daring to call him by name, but respectfully calling him Ruler.

With such a significant gap in status, one naturally feels reverent.

"The Ruler avenged me, Di Wu and Di Xi are both dead, and even Di Yan escaped outside the Land of Origin, not able to live long." Emperor Gui Xu drank his wine, "I never dreamed I could kill an Emperor."

"The days when the two Imperial Clans ruled everything are over." Wuxin God King also felt relieved.

The two Imperial Clans now act more cautiously and less tyrannically. The idle God Kings on the Land of Origin feel much better.

...

Emperor Yuan, White Demon, Lan Duo, Di Wu, Di Xi, a total of five Emperors and Monarchs have died successively, having a profound impact on the Land of Origin. At least the two major Imperial Clans are somewhat intimidated, acting more carefully.

"Back then, Luo He killed me, and it took him two or three breaths; I still had time to use a Reincarnation Secret Technique." Emperor Yuan said in a restaurant, "But the Emperors and Monarchs afterward, it's said they didn't even have time to reincarnate."

"I, labeled as the greatest sinner of the Land of Origin, instead benefited?" Emperor Yuan chuckled.

"Oh well, though I can't return to the Imperial Clan and can't

cultivate the Ultimate Realm Life Form," thought Emperor Yuan, "but I have also shed many causal ties, allowing me to dedicate myself more deeply to cultivation. Perhaps I might comprehend the Great Dao."

Emperor Yuan, once wantonly sinful, was the most reckless among the many Emperors and Monarchs, but with Luo Feng's rise, he dared no longer.

"Di Wu and Di Xi are dead, and Di Yan has no reason to live," thought Emperor Yuan, "unless he escaped."

"Di Yan is always so slippery."

Emperor Yuan shook his head slightly.

Having spent long years with Di Yan, he somewhat looked down on Di Yan, living long, with many resources, but his realm remained mediocre.

But one must admit one thing—Di Yan's instincts are very keen! His tactics are also impressive! Among the Emperors of Flame Wind Ancient Country, Di Yan's strength isn't considered strong, but he is the only one who can unite other Emperors, and the resources and benefits he gains are more than those like Di Fu and Emperor Ming.

Even now, with Di Wu and Di Xi dead, Di Yan still survives.

...

In a common large city, an ordinary eternal true god was browsing the intelligence of the Flame Wind Pavilion.

"Luo He is the Galaxy Ruler?"

This eternal true god couldn't believe it, "The first time I noticed him, he was just an eternal true god. That eternal true god once within Huyang City, now stands shoulder to shoulder with the Ancestors of the two countries?"

"Fortunately, I reincarnated fast enough." Marquis Liu Yin felt a bit lucky.

He didn't even rush to break through, remaining at the eternal true god stage after reincarnation. With his realm, even as an eternal true god in a common large city, no one could rival him.

"I must be careful, once I reach the Primal Chaos Realm, there are so few in the Primal Chaos Realm on the Land of Origin, it's easy to catch the Galaxy Ruler's attention."

"Eternal true gods, there are countless on the Land of Origin. It's much safer." Marquis Liu Yin feared that Luo He.

His rise was too terrifying.

He didn't wish to be observed by the Galaxy Ruler. He feared accidentally showing his tracks somewhere! If suspected, with the means of the current Galaxy Ruler, he might forcibly read his memory.

The best method is to keep the Galaxy Ruler from paying attention to him.

"I was quite impressive too, to provoke the Galaxy Ruler during his weaker days," thought Marquis Liu Yin and then stopped dwelling on it, continuing to enjoy his life as an eternal true god in this common large city.

...

"In my homeland, the illustrious Ancestral God of the Galaxy, now stands alongside the Ancestors of the two nations on the Land of Origin," East Emperor gleaned from the intelligence, also somewhat emotional, "I, the so-called East Emperor Ancestor, still received a legacy and resources from Luo Feng, only then could I make the crucial step to reaching the eternal true god level."

Lacking resources, becoming an eternal true god was exceedingly difficult.

For many from the Human Clan who braved the Reincarnation Tower to arrive at the Land of Origin, even with the most supreme resources supporting them, the vast majority only remained at the true god of void space level.

"According to Luo Feng, Purple Moon should have died long ago."

East Emperor also felt emotional.

He believed it too, considering the Ancestral God of the Galaxy's judgment of causality, confirming Purple Moon's death meant true death.

Chapter 290 - 51: Departure, Beyond the Source World (End of this Volume)_2

******

In a flash, three epochs had passed.

"The 'Nine Realms of Extinction' are too extreme, too insane. However, they do assist in the comprehension of the 'Great Dao of Destruction Origin.'" Luo Feng stayed sane during his contemplation.

His accumulation on the Destruction Path was already profound, having comprehended multiple Ultimate Realm Secret Techniques, and he even had an avatar from the Destruction Demon Clan.

Moreover, he had merged the 'Great Dao of Life and Death,' which easily resolved some dangerous situations during the 'Nine Realms of Extinction' training regime.

"Although I dislike such madness, it has made me understand what the 'Destruction Path' at the Primordial Level is like."

As a Perfection Level Inheritance, there were absolutely no explanations regarding the comprehension of many Great Daos; it was assumed that such fundamental comprehension would be easily understood.

The First Realm, 'Peeping Realm,' is about probing the imprinted memories of 'Great Dao of Destruction' in the Source World. These imprinted memories... are actually the most intense memories of destruction throughout the entire protracted history of the Source World.

There are scenes of great destructions of the Source World itself, again and again scenarios of the Sector Beasts causing world destruction, again and again scenarios of cultivators actively destroying worlds, and even higher-level destruction scenes recorded within the Primordial Space of the Source World...

The depth of these imprinted memories varied. The deeper the memory, the more terrifying it was.

Some memories of destruction even had strong contamination that could twist the spirit; Luo Feng, upon witnessing some higher-level destruction scenes, felt his soul tremble.

"The First Realm begins with giving the cultivator a vague impression of the 'Destruction Path at the Primordial Level.' The so-called Peeping Realm is about glimpsing the 'Dao at the Primordial Level.'" Luo Feng also understood how ambitious the Creator was; clearly hoping that the descendants could leap out of the Braided Cage with the help of the 'Nine Realms of Extinction,' a Perfection Level Inheritance, or at the very least, become a World Level Primordial Life.

Of course, the outcome has been proven.

Such a terrifying inheritance instead affected the descendants' paths of innovation. Hence, the Infinite Space now only retains the exchange for the first five realms.

"My strength is progressing slowly, and I'm lacking in resources; it's time to venture beyond the Source World," Luo Feng looked outside.

Even the Primordial Crystals, the ordinary supplementary items he regularly consumed, Luo Feng could no longer afford.

Ever since his life form reached the strength of the early stage of a Divine Emperor, each epoch he could consume three hundred Primordial Crystals. Such an expense, how could he afford it? Lately, he had been cultivating without using any treasures, which indeed had reduced the efficiency a lot.

"Huh."

With one step, Luo Feng left Huyang City and arrived at the Palace of Emperor Chu in Chu Capital.

Inside the Palace of Emperor Chu.

"Master." Luo Feng saw his master, Emperor Chu.

"Luo Feng?" Emperor Chu looked at his disciple with a smile, "Are you ready to set off?"

"Yes."

Luo Feng nodded, "Out there beyond the Source World, I can encounter the wisdom of powerhouses from countless worlds, clash with other strong beings. There are also more abundant resources, all of which will smooth my cultivation process significantly. Master, are you sure you don't want to go together?"

"I'd rather not." Emperor Chu shook his head, "Out in the Source World, my strength would be at the bottom tier. Going out would only drag you down."

"I plan to cultivate until I'm close to extinction on the Land of Origin, and then go out and venture." Emperor Chu laughed heartily, "Even if I die out there, it would not be in vain."

Luo Feng didn't persuade him further.

His own strength was merely at the early stage of a Divine Emperor, and even at the beginning of his journey, his Weapon Secret Treasures were inferior to many powerhouses from the outside worlds. At this time, he could not help his master with anything.

"You go ahead and make your mark. By then, your master might even need your protection." Emperor Chu said with a laugh.

"Yes." Luo Feng nodded, "Then, I shall take my leave."

"Go, concentrate on your cultivation, and don't think too much," encouraged Emperor Chu.

...

Luo Feng visited the Primoridal Ancestor, Primal Chaos City Lord, and Morosa.

"I'll venture beyond the Source World. Of course, I still have an avatar that will continue to stay in the Land of Origin," Luo Feng said, "It's just that my adventuring outside requires more focus! The avatar within the Land of Origin will generally be in closed-door cultivation."

"If important matters arise, you three can send messages to me."

"I will receive your messages. Others... during the closed-door period, I will ignore them," Luo Feng stated.

"Primoridal Ancestor, teachers. The Galaxy Divine Country and Blade River Sect will mainly rely on you," Luo Feng instructed, "Morosa has a somewhat unruly nature; he still needs both of you to keep him in check."

"I'm very obedient," Morosa retorted with widened eyes.

"Don't worry, leave it to us," the Primoridal Ancestor and Primal Chaos City Lord nodded.

Luo Feng looked at Morosa with a smile that was not quite a smile.

Secluding himself from affairs, if it weren't for the Primordial Ancestor and the Primal Chaos City Lord supervising, who knows what trouble Morosa could cause.

"I am entering seclusion." Luo Feng's avatar immediately turned around, walking deep into the cave mansion to the Quiet Room, entering the Star Tower.

This was also the norm for the Ancestors from both countries, and the East Extreme Domain Ancestor, Emperor Qing, and the other three!

Most of the time, they were in seclusion.

At certain times, they would leave seclusion to relax.

******

Whoo! Whoo!

The figures of Luo Feng and Emperor Qing streaked across the sky, flying towards a secluded spot in the Tianji Icefield, where there was a valley forged from ice. Within the Ice Valley, there was a dark and deep pool.

This dark pool was the transfer passage of the Land of Origin.

"Luo He, Emperor Qing." Sitting cross-legged next to the shadowy pool was a figure, none other than Di Fu. Di Fu stood up at this moment, smiling and looking at the two.

"Di Fu." Luo Feng smiled and nodded.

He had a favorable impression of Di Fu, as Di Fu had stood by his side openly and covertly many times when Di Yan tried to suppress him again and again.

"Di Fu, have you been staying here all this time?" Emperor Qing had a guess about this kinsman's thoughts.

"There are numerous crises beyond the Source World, so I also wish to venture with you both," said Di Fu.

Emperor Qing frowned slightly.

Di Fu's strength was too weak; even if brought along, he would at best serve as an errand runner.

"If you want to follow, I have no objections," Emperor Qing said, after all, they shared blood ties, and a sense of camaraderie existed over the long years. He looked at Luo Feng, "But I'll need to consult Brother Luo He."

Di Fu looked towards Luo Feng. Those many years he stood by Luo Feng's side openly and secretly were all for today.

"If Brother Emperor Qing has no objections, then of course I have none," Luo Feng said with a smile.

Di Fu's face showed happiness upon hearing this.

Emperor Qing nodded thoughtfully and said, "Since we're taking Di Fu, bring Emperor Ming as well! Of all the Emperors in our Flame Wind Ancient Country Royal Family, only these two are worth nurturing."

"Emperor Ming's strength is also above mine. On the path of the Primordial Bloodline, he has already touched the threshold of becoming a Divine Emperor," said Di Fu too.

"If Emperor Ming is willing, then let's go together," Luo Feng had a good impression of Emperor Ming and raised no objections.

Upon hearing Luo Feng's agreement, Emperor Qing then sent a message to Emperor Ming.

Soon—

A flash of light descended into the valley, and it was Emperor Ming.

"Brother Luo He and I discussed it; we've decided to take both you and Di Fu," said Emperor Qing.

"Thank you, Brother Luo He." Emperor Ming was quite grateful. He might be aloof and independent, but he was also clear that his strength was ordinary beyond the Source World.

"Back then, Emperor Ming gifted me the 'Calamity Beast Diagram,' which was greatly helpful to my cultivation. I have not yet thanked you," Luo Feng said with a smile and a nod.

Di Fu felt very pleased on the side.

At least he wasn't the only weak one, there was also Emperor Ming.

Emperor Qing nodded: "Then let's set off now."

An invisible force enveloped the four of them, and they flew into the shadowy deep pool at once. Emperor Qing had long had the imprint of the Primordial Space from the Nine Rivers Sacred Realm and instantly locked on to the distant Nine Rivers Sacred Realm.

Whoo!

The light within the shadowy deep pool fluctuated, and Emperor Qing, Luo Feng, Di Fu, Emperor Ming, the four of them had already been transported beyond the Source World, heading straight for the Nine Rivers Sacred Realm.

(The volume ends)

The storyline of the Land of Origin officially concludes! Beginning the 'Outside the Source World' storyline.

The world structure outside the Source World, plot settings, character settings, etc., must again be meticulously prepared by Tomato. Moreover, the Two Sessions are currently underway, and Tomato is quite busy.

This time, I will need to take a three-day break! On the 19th, the next volume's content will resume updating.

Lastly, thank you to the new Alliance Hierarch 'Wood Blossom_Open For Those With Clothes' for the reward! And thanks again to the old Alliance Leader Old K for the reward!

Chapter 291: After modification:

As Luo Feng flew into the dark and deep pool, he felt intangible fluctuations sweep over him, which his physical body, at the early stage of Divine Emperor, easily resisted. Luo Feng also noticed that, beside him, Emperor Ming appeared calm, while Di Fu slightly furrowed his brows, seemingly struggling with great effort.

"Whoosh."

Encased in a droplet of water, Luo Feng, Emperor Qing, Di Fu, and Emperor Ming were whisked away from the Land of Origin, this Origin World, in an instant.

This droplet of water was traversing through Primordial Space at an extremely high speed.

Luo Feng had once observed the outside of the Origin World with the Eye of Life and Death, but the water droplet encasing them had flung the Land of Origin aside in the blink of an eye.

"My hometown, the Land of Origin." Luo Feng watched the colossal Origin World shrink rapidly and then disappear from sight.

He knew that he had left his homeland.

When he first arrived at the Land of Origin, he thought of the Primordial Cosmos as his home!

But now, outside of the Origin World, the Land of Origin, this complete Origin World, was his true home. The avatar that remained there would lose the protection of the Supreme Rules once he left.

"How fast." Luo Feng and the others watched ahead.

In the distance, a colossal Origin World approached rapidly. But with

a whoosh, the droplet of water skimmed past this Origin World.

Whoosh whoosh whoosh!!!

Ten, twenty, fifty...

One by one, Origin Worlds as vast as the 'Land of Origin' disappeared from Luo Feng's view within one second, indicating the incredible speed of this water droplet's traversal.

"Is that an Innate Primordial Life?" Di Fu couldn't help speaking out.

Luo Feng saw it too, a sinuous black serpent roaming within Primordial Space, seemingly gliding effortlessly in flight. Its body was so long; it far surpassed the entire Land of Origin.

The Land of Origin, along with the surrounding Universe Ocean, made up the complete Origin World.

The length of this serpent's body was roughly one-third of the entire Origin World.

"Hm?" The sinuous serpent glanced at the fleeting droplet of water, which disappeared into the distant horizon in the blink of an eye due to its incredible speed.

"Traveling so quickly in Primordial Space? Is it a sector lord of an Origin World skilled in Flying Escape? Or is it the transmission method used by one of those Primordial Lords?" The sinuous serpent speculated.

This vast territory is the domain of the Cultivator Camp.

Among those capable of such rapid flight in Primordial Space, there are generally only these two possibilities.

"It seems my whereabouts have been exposed; time to hunt again next time." The sinuous serpent moved leisurely but vanished into thin air without a trace.

Merely in a few breaths' time.

A phantom descended in a region of space-time, condensing into a Black-Robed youth.

This Black-Robed youth, standing there, commanded the vast space-time around him, making every trace within space-time and all past experiences utterly transparent under his observation.

"It's a serpent whelp from the World Level Primordial Life." The Black-Robed youth's eyes were icy, filled with a fierce killing intent.

"The Infinite Serpent clan is one of the most troublesome among the innate Primordial Life groups. They can appear anywhere within Infinite Primordial Space at any time and disappear just as quickly." The Black-Robed youth muttered to himself, "The Infinite Serpent clan is the boldest; they even dare to delve deep into the heartland of my Cultivator Camp's territory. I must find an opportunity to squeeze a few serpent whelps to death!"

Whoosh.

Then he vanished without a trace.

...

"Based on the size, that should be a World Level Primordial Life." As the droplet of water continued its ultra-high-speed traversal through the Infinite Primordial Space, Emperor Qing spoke, "Fortunately, we are protected by the transmission droplet. It keeps out all contaminants. Otherwise, seeing a living World Level Primordial Life directly would probably kill you instantly, Di Fu."

Among the four present, Di Fu possessed the weakest Spiritual Will, still at the Ultimate Realm of Godly King stage.

Luo Feng and Emperor Ming were somewhat curious. They both, separated by the water droplet, only caught a glimpse of a blurry sinuous serpent before it vanished in a flash, without feeling any danger.

"Flying Escape through Infinite Primordial Space, one occasionally sees some Innate Primordial Life. However, ones as powerful as that are rare," said Emperor Qing, who had rich experience, "We're

approaching the Nine Rivers Sacred Realm now."

After passing 125 Origin Worlds, this droplet of water finally arrived at its destination.

"The Nine Rivers Sacred Realm." Luo Feng, Emperor Ming, and Di Fu all observed this destination carefully.

It was a massive elliptical world, slightly smaller in scale compared to the Origin Continent Origin World.

From viewing within the Infinite Primordial Space, one could see nine meandering rivers wrapping around this world like nine chains. Each river vaguely had countless Secret Patterns flowing within, forming a massive Formation, completely sealing off the entire world.

"Whoosh."

This droplet of water, carrying Luo Feng and the others, flew into the Nine Rivers Sacred Realm.

******

At the center of the Nine Rivers Sacred Realm, there was a majestic Holy Mountain.

At the foot of the Holy Mountain, there was a dark and deep pool. A droplet of water fell into the dark and deep pool, and from it, Emperor Qing, Luo Feng, Emperor Ming, and Di Fu flew out.

"Hm?" Luo Feng immediately spotted that more than two hundred figures had gathered at the foot of the mountain. They were either huddled in small groups or alone, all patiently waiting.

"They must be from different Cultivation Systems," Luo Feng surmised, sensing a significant difference in their auras.

A stalwart man sat quietly there, carrying a large bow on his back.

An elder in robes and glasses looked over curiously.

A giant cast from rock sat as though deep in slumber.

There are translucent creatures hiding in the crevices of mountains and rocks, carefully observing Luo Feng and the others.

A woman's figure, seemingly merging into the Void, is engulfed in flames.

"Ah, my body." Di Fu's complexion suddenly changes; pieces of skin are peeling off his face as energy dissipates.

Emperor Qing, Luo Feng, and Emperor Ming all look towards Di Fu.

"My body is collapsing," Di Fu says anxiously.

"Don't panic," Emperor Qing says from the side, "Any complete Great Dao is capable of traveling through all Source Worlds. However, the 'Nine Rivers Sacred Realm' is not a Source World, but a special cultivation realm created by Senior Yuan and others. The 'Origin Dao of Space,' which is fundamental to your Physical Body's structure, is somewhat incompatible with the Nine Rivers Sacred Realm, causing instability in your Physical Body. You just need to discard the incompatible parts and rebuild your Physical Body's system. Your strength might diminish, but at least it won't collapse."

Emperor Qing, with his experience, reminds him.

Di Fu nods and begins to rebuild his Physical Body.

That's how The Enlightened are; their entire Physical Body is constructed from the ground up by themselves, which naturally means they can modify it as well.

"Brother Luo He," Emperor Qing says with surprise as he looks towards Luo Feng, "Emperor Ming cultivates the Primordial Bloodline, which is relatively compatible with both the 'Primordial Space' and many worlds. However, Luo He, you... you're not cultivating the Primordial Bloodline, are you?"

Luo Feng just smiles.

The various Avatars that he's cultivated are completely transformed Primordial Bloodline Creatures, so it was quite easy for him to adapt upon arriving in the Nine Rivers Sacred Realm.

"I haven't cultivated the Primordial Bloodline, but coming to the Nine Rivers Sacred Realm hasn't affected my strength," says Luo Feng.

Emperor Qing is curious but doesn't press further.

"A Physical Body constructed purely from the mysteries of the Great Dao is collapsing upon arriving in a new world," Luo Feng observes Di Fu, and Emperor Qing speaks from the side: "For The Enlightened, traveling to different worlds and adapting to them is also a form of Cultivation."

Luo Feng listens and ponders.

Suddenly—

A voice bellows from behind, from the Holy Mountain: "Newly arrived Cultivators, a Flying Boat arrives each epoch and will take you to one of the cities in the Nine Rivers Sacred Realm."

Luo Feng and Emperor Ming turn to look at the towering Holy Mountain, with a path leading to its summit.

"That was the Holy Mountain speaking," says Emperor Qing, "The Holy Mountain maintains two transportation gateways."

"Two transportation gateways?" Luo Feng asks, puzzled.

"This gateway at the foot of the mountain allows return to the Land of Origin," Emperor Qing points to the path, "And if you walk along that path, only those with the strength of at least Late Stage Divine Emperor can reach the summit. At the top, there is a deep pool that can be used to transport you to the Dark Sacred Realm. The Ancestors of the two realms reside in the Dark Sacred Realm."

Luo Feng and Emperor Ming understand, while Di Fu continues to focus on improving his Physical Body.

"Wait for me."

Emperor Qing speaks and walks toward the more than two hundred figures, "You should be aware of the rules in the Nine Rivers Sacred Realm."

Emperor Qing's aura spreads invisibly, encompassing heaven and earth, and shrouds the over two hundred Cultivators.

Emperor Qing, after all, has reached the Early Stage of Divine Emperor in the Land of Origin! Although he hasn't spent a long time in the Nine Rivers Sacred Realm, he has accumulated quite a bit. Without the suppression of world rules, his aura is far more terrifying than that of Luo Feng.

The more than two hundred figures grow pale as they realize that even if they work together, they cannot match this formidable being.

Emperor Qing smiles and says, "There are thirty-five cities in the Nine Rivers Sacred Realm, and I plan to go to Yulan City. Those willing to join me can do so now! Each Cultivator must pay a fee of 100 Primordial Crystals or equivalent goods. This is the standard price."

"I will," one says.

"I'm joining."

One by one, figures stand up; some are Cultivators who have been adventuring within the Nine Rivers Sacred Realm and are merely returning from their hometown.

They are not confident enough to travel alone and are waiting for the transport Flying Boat.

"If this Divine Emperor Senior is leading the way, he must be confident."

"There is no difference between the thirty-five cities of the Nine Rivers Sacred Realm. You newly arrived Cultivators can completely join Yulan City."

"Who knows how much longer it would take to wait?"

Some Cultivators are persuading others.

Soon, 96 Cultivators agree to follow, most of whom can pay the 100 Primordial Crystals; those who can't offer equivalent goods instead.

"Made nearly ten thousand Primordial Crystals," Emperor Qing collects the benefits with a smile and looks towards Luo Feng, Emperor Ming, and Di Fu, "In the Nine Rivers Sacred Realm, Primordial Crystals are needed everywhere. Without them, you don't even have the qualifications to stay in the city for long. Perhaps this is also a way for Senior Yuan and the others to force us to fight to the death."

With a wave of Emperor Qing's hand,

A blue metallic Flying Boat appears, its surface marked with traces of wear, yet its presence is immensely terrifying, sending shivers through everyone present. Luo Feng also realizes that without the Star Tower and the Eye of Life and Death, he himself and Emperor Qing are probably not on par.

"Let's go." With just a thought from Emperor Qing, the other 96 Cultivators are arranged in the aft cabins, while they four sit in the Flying Boat's front hall.

Whoosh.

The blue Flying Boat merges instantly into the Void, flying at high speed towards Yulan City.

"The most dangerous places in the Nine Rivers Sacred Realm are those nine rivers," Emperor Qing stands in the forward hall of the Flying Boat, gazing at the distant exterior, "Those nine rivers seem like nine chains, sealing the entire world. These rivers are also the energy hubs of the entire world, drawing immense Primordial Forces from the outside, gathered within the water."

"Therefore, within these Nine Rivers, that's where the energy is most concentrated! These Low-Level Primordial Life Forms live inside the nine rivers to absorb enough energy, enabling them to survive for a long time," Emperor Qing explains.

Luo Feng looks into the distance, "Are there many Low-Level Primordial Life Forms in the nine rivers?"

"Many, countless!"

Emperor Qing nods, "No one knows just how many Low-Level Primordial Life Forms Senior Yuan and others have caught and thrown into the Nine Rivers. They are our main hunting targets in the Nine Rivers Sacred Realm. Of course, those Low-Level Primordial Life Forms are also hunting us."

As the Flying Boat flies and journeys on, Emperor Qing also shares some common knowledge with Luo Feng and the others.

Chapter 292 - 2 Yulan City

Flying Boat's front hall.

"The space in the Nine Rivers Sacred Realm is incredibly stable; with my mastery of the Space Great Dao, I feel unable to fly." Di Fu managed to stabilize his Physical Body and already began to sense the peculiarities of the Nine Rivers Sacred Realm.

Emperor Qing smiled and said, "The Nine Rivers Sacred Realm has housed countless Low Level Primordial Life forms, as well as powerhouses from countless worlds. You can imagine the might when battles erupt. The realm must be extremely stable to support such conflicts."

Luo Feng nodded.

The Source World itself has power limitations to ensure the stability of the world.

"The Nine Rivers, like chains, lock down the entire world, likely also to stabilize it," Luo Feng somewhat understood the deeper significance of the nine rivers.

"Indeed, because the world is so stable, even reaching the 'Half Primordial Level' in the Space Great Dao only permits extreme distance spatial travels," Emperor Qing laughed, "This Flying Boat can only travel slowly."

"It's already quite fast," Luo Feng praised.

His own five Avatars each had unique talents, including those adept at fast travel, yet their fastest speed was only thirty to forty percent of Emperor Qing's Flying Boat at this moment.

An eye opened on Luo Feng's forehead, exactly the Secret Technique

'Biomimetic Eye of Life and Death.' On the Land of Origin, he long studied the Star Tower and frequently used the 'Eye of Life and Death,' deeply researching both.

Most of Luo Feng's Secret Techniques were based on the deep Secret Patterns of the Star Tower. As for studying the 'Eye of Life and Death' deep Secret Patterns to create Secret Techniques, there was only one named 'Biomimetic Eye of Life and Death.' Moreover, with time, this technique continued to undergo refinements.

"Buzz."

Leveraging the Biomimetic Eye of Life and Death on his forehead, Luo Feng's observational ability might not be able to escape the Braided Cage, but it was considered top-notch among Divine Emperors.

"Hmm?" Luo Feng noticed far in the distance, an ethereal light blue creature melding into the Void, lurking afar. That ethereal creature was eyeing the incoming Flying Boat with hostility.

"Brother Emperor Qing, be careful, there's a Low Level Primordial Life form ambushing ahead," Luo Feng spoke up.

Surprised, Emperor Qing glanced at Luo Feng and laughed, "Brother Luo He, your scouting ability is impressive. I walk the Space Great Dao and with the assistance of a Secret Treasure, I could barely detect that Low Level Primordial Life form, the 'Green Smoke Beast.'"

The Flying Boat seemed to travel at normal speed, but when it got closer to the Green Smoke Beast, it suddenly increased speed by fifty to sixty percent, quickly leaving the beast behind. The Green Smoke Beast couldn't even keep up.

"There aren't many Low Level Primordial Lives that can surpass the speed of my Flying Boat," Emperor Qing stated, "However, our early travel is still relatively simple. It will be somewhat dangerous once we start crossing over the rivers."

...

Two days later.

The Flying Boat fully merged with the Void, as if it were part of the Void itself, traveling over an immensely wide river, not knowing how many billions of kilometers wide.

The Nine Rivers, observed within the Infinite Primordial Space, were massive, sealing off the entire world. The true width of this river was terrifying; even at the speed of the Flying Boat, it would take half a day.

Luo Feng observed with his Biomimetic Eye of Life and Death.

"Brother Luo He, can you detect a few Low Level Primordial Life forms?" Emperor Qing asked nearby.

"I've detected three," Luo Feng said, displaying a simple regional map in front of him, "There's a bird blending into the wind in the distant sky, and another cloud formation is also a Low Level Primordial Life form. And here, on the water's surface, there's a creature lurking."

"Impressive."

Emperor Qing exclaimed, "I only discovered two. Brother Luo He, your scouting method is somewhat more sophisticated than mine."

Luo Feng sighed inwardly, if he brought the 'Eye of Life and Death,' perhaps his scouting ability would have skyrocketed thousands of times. But such a Secret Treasure, even the Infinite Space Treasure Vault prohibits taking it outside the Source World, as revealing it might attract some great horrors.

Sigh.

The Flying Boat cautiously traveled, fully integrated into the Void, maintaining a sufficient distance from those Low Level Primordial Life forms.

"Low Level Primordial Life forms mainly live within the Nine Rivers, as only within the rivers is there enough Energy to sustain life. Even if they leave the Nine Rivers, they generally don't go too far, so they can quickly return to the rivers," Emperor Qing calmly watched the outside, "These Low Level Primordial Life forms merely lurking in the sky above the river are just trying their luck to see if they encounter

any Cultivators."

"Besides ones like us, who are merely traveling, hardly anyone crosses above the rivers," Emperor Qing laughed, "And you can rest assured that these Low Level Primordial Life forms trying their luck in the high spaces are generally weaker."

"The truly powerful Low Level Primordial Life forms do not act unless necessary, and once they do, they generally venture deep into the areas where Cultivators live, as this is how they hunt more effectively," Emperor Qing explained.

"How strong are the Low Level Primordial Life forms?" Emperor Ming asked from the side.

"Although we refer to them as 'Low Level Primordial Life forms', they are still Primordial Life forms," Emperor Qing stated, "They are naturally born beyond the confines, but due to their inability to fully tap into their potential, their strength is relatively weak."

"Low Level Primordial Life forms generally have the strength of the Divine Emperor Stage," Emperor Qing looked at Emperor Ming, "Even the weakest Low Level Primordial Life forms are slightly stronger than you, Emperor Ming. Although they are less intelligent, their Life Force is extremely formidable, and their Physical Bodies are very strong... To kill the weakest Low Level Primordial Life form, generally only an Early Stage of Divine Emperor The Enlightened stands a chance."

An Early Stage of Divine Emperor The Enlightened, in terms of overall strength, matches the Bloodline Cultivators who have reached the Middle Stage of Divine Emperor.

"In the Nine Rivers Sacred Realm, the fighting power of an Early Stage of Divine Emperor The Enlightened is considered a threshold; reaching this threshold enables participation in some hunting battles," Emperor Qing said, "Otherwise, no team would want to include you."

Chapter 293 2 Yulan City_2

Emperor Ming and Emperor Qing looked at each other.

Luo Feng felt the pressure upon hearing this; the Eight Branches Fusion Technique of the Dao of Life and Death could only be considered as reaching the threshold of the early stage of Divine Emperor. The ultimate technique of the Dao of Life and Death is the standard move for the early stage of Divine Emperor.

Moreover, any technique wielded casually by an early stage Divine Emperor who has comprehended the Dao is of the early stage Divine Emperor level. Their techniques are exquisite, and even some forbidden moves and ultimate moves can reach the power of the middle stage of Divine Emperor.

"Fortunately, I still have five avatars, each of which is an early stage Divine Emperor life form, and each with its unique talent. The five combined... should be able to compare with an early-stage Divine Emperor who has comprehended the Dao."

"I am still too weak, in case I don't even qualify to join the hunting team," Luo Feng felt somewhat uneasy.

Without the Eye of Life and Death and the Star Tower, my strength has indeed diminished a lot.

"Whoosh."

In the vast area above the river, the Flying Boat merged into the Void and flew cautiously, maintaining a safe distance from the low-level Primordial Life forms. On the way, only one low-level Primordial Life managed to probe the reality of the Flying Boat, which quickly shook it off with its speed.

...

The Holy Mountain is at the center of the entire Nine Rivers Sacred Realm, so traveling from the center to Yulan City requires crossing two rivers.

During this process, Luo Feng also witnessed the strength of Emperor Qing! Emperor Qing maneuvered the Flying Boat, displaying his mastery of spatial pathways, far surpassing Luo Feng's Ultimate Realm Secret Technique of the Dao of Life and Death.

"Brother Emperor Qing, have you reached the middle stage of Divine Emperor?" Luo Feng inquired through telepathy, intending to become partners, he naturally wanted to know the strength of the other party.

If the gap is too significant, there is no need to form an alliance.

"Middle stage Divine Emperor who has comprehended the Dao, there is no such thing as easy," Emperor Qing replied telepathically, "I became an early stage Divine Emperor in the Land of Origin, and when I came to the Nine Rivers Sacred Realm, although there were more opportunities that helped me progress further... I only managed to step one foot into the middle stage of Divine Emperor! I've comprehended some middle stage Divine Emperor Secret Techniques. To fully become a middle stage Divine Emperor who has comprehended the Dao, I'm afraid it will take a long time."

Luo Feng understood.

Emperor Qing has comprehended some middle stage Divine Emperor level Secret Techniques. With the help of Secret Treasures, he can exert even greater strength.

My current strength has quite a gap compared to that of Emperor Qing.

"When we get to Yulan City, we won't rush to hunt," Emperor Qing smiled at Luo Feng, "First, we'll strengthen ourselves using the resources of Yulan City, buying suitable resources, selecting the right Secret Treasures, and only after everything is fully prepared will we set out to hunt."

The two of them conversed telepathically, deliberately avoiding

Emperor Ming and Emperor Fu.

"We're almost there." Emperor Qing looked ahead, "Yulan City!"

As soon as he spoke,

the Flying Boat cut through the air, and a vast city emerged in the distance.

Luo Feng, Emperor Ming, and Emperor Fu all looked on carefully.

It was a massive city resembling a fortress, and above the city were numerous colorful Formations operating, layer upon layer of protection, securing Yulan City tightly.

"What a terrifying Formation." Luo Feng sensed from afar, feeling its immense and unshakable depth.

"There are thirty-five cities in Nine Rivers Sacred Realm, all of which were built at a great cost. These protective measures also represent different Cultivation Systems. Various systems are protecting this city," Emperor Qing shook his head slightly, "but low-level Primordial Life forms are like creatures that escape the Braided Cage. Some of them have too special talents. Even if we protect with a multitude of different system measures, we still cannot defend against all low-level Primordial Life forms."

"Occasionally, some low-level Primordial Life will infiltrate Yulan City and attack cultivators inside," Emperor Qing said.

Emperor Fu and Emperor Ming listened with solemn expressions.

"Low-level Primordial Life capable of infiltrating Yulan City are one in ten thousand, all of which are extremely rare," said Emperor Qing, and the Flying Boat already headed straight toward a towering gate of Yulan City.

Buzz!

As the Flying Boat approached the gate, a wave descended upon it.

A vague silhouette of a man in a blue robe with a large beard

materialized inside the Flying Boat, he looked at Luo Feng and his two companions then smiled at Emperor Qing, "Emperor Qing, you've brought three companions? And also several dozen new Cultivators?"

Emperor Qing smiled and nodded.

"The rules are the same in all thirty-five cities of the Nine Rivers Sacred Realm," the man in the blue robe with the large beard said with a smile. "One, after entering the city, you must lease a Cave mansion within three days; otherwise, you will be expelled from the city. Two, the city protects all Cultivators, and each Cultivator must pay a Residence Fee of one Primordial Crystal every epoch. If one falls behind by one epoch, they will likewise be expelled from the city. Three, it is forbidden for Cultivators to kill each other within the city, and violators will be executed."

"As this is your first time entering the city, we need to record the identities of the three of you," the man in the blue robe with a large beard looked at Luo Feng and his two companions.

"My name is Luo Feng," Luo Feng said with a smile.

Emperor Qing and the others also knew that Luo Feng had multiple names, like 'Galaxy', 'Luo He', 'Luo Feng'.

"My name is Emperor Ming."

"My name is Di Fu."

The man in the blue robe with the large beard simultaneously divided his thoughts, also recording the information of the other Cultivators in the rear cabin of the Flying Boat.

"These three will stay in my Cave mansion," Emperor Qing said with a smile. "As for the residence fees, I will prepay for one hundred epochs on their behalf." Saying this, Emperor Qing handed over three hundred Primordial Crystals.

The man in the blue robe with the large beard nodded with a smile, "Good, Luo Feng, Emperor Ming, Di Fu, the address for you will be the Cave mansion where you reside."

Soon, all the Cultivators completed the procedures for entering the city, and Emperor Qing temporarily withdrew the Flying Boat.

Whoosh.

Emperor Qing led Luo Feng and his two companions flying through the city.

"So many Cultivators." Luo Feng was quite shocked, seeing countless Cave mansions at a glance, with Cultivators frequently taking flight, and spotting millions of Cultivators with differing attires and auras, obviously from many Cultivation sects.

"I'm already the weakest," Di Fu looked around with mixed feelings. Why don't some Emperors, Monarchs want to venture outside? Why do they want to delay until their homeland is about to perish?

Because they know that outside, they belong to the very bottom tier!

In the Dark Sacred Realm, even the Ancestors of two nations are inconspicuous and ordinary.

"Regarding those so-called three rules, the last one, which prohibits killing each other, violators will be put to death," Emperor Qing looked down at the vast city below and said indifferently, "Don't trust this rule too much! Yulan City is autonomous among Cultivators! To punish someone, you first need sufficient evidence."

"And with various Cultivation Systems and some killing methods being mysterious and unpredictable, it's impossible to find out who the true perpetrator is," Emperor Qing said.

Luo Feng nodded.

For example, he could send an Avatar to attack and kill enemies while being Formless and Intangible.

"If the true perpetrator cannot be found, the matter will naturally be forgotten," Emperor Qing looked at Di Fu and Emperor Ming, "The safest method for you two with weaker strength in Yulan City... is to make yourselves look sufficiently poor."

"Poor?" Di Fu and Emperor Ming pondered thoughtfully.

"Rules are there! Without enough temptation, no one will risk making a move," Emperor Qing said, "You who are weaker, once you show off treasures, death won't be far away. On the contrary, if you are poor enough, you will be safe enough. You need to get used to this as quickly as possible."

Di Fu and Emperor Ming nodded slightly.

During the conversation, Emperor Qing, Luo Feng, Di Fu, and Emperor Ming had already flown to the Inner City area of Yulan City.

"My Cave mansion is just ahead," Emperor Qing said indifferently, "I will grant you two a little 'Energy authority' in the Cave mansion, enough to sustain slower Cultivation. The rest of the energy authority, Luo He and I each have half."

Di Fu and Emperor Ming obediently listened; it was already very good that they could stay and receive a little energy authority.

"Brother Luo He," Emperor Qing looked at Luo Feng, "The Residence Fee for each epoch to stay in this Cave mansion is 100 Primordial Crystals, I will bear the cost for the previous thousand epochs. After that, we two will need to split it. Of course, you can also choose to rent another Cave mansion."

Chapter 294 3 The Customs of Yulan City

The cave mansion that Emperor Qing rented was located in the Inner City of Yulan City, which looked ordinary from the outside, but once inside, the space was enlarged by more than ten thousand times.

Luo Feng and the other three walked in together.

"I'll divide the space first," said Emperor Qing, as the massive interior space naturally split into sections, with two small spaces at the corners, a common courtyard in the middle, and the remaining space split into two equal halves.

"You can decide how to build the interior space yourselves," Emperor Qing instructed.

"I choose the left side."

"Then I'll take the right side." Emperor Ming and Di Fu, without any objections, actively chose the two corner spaces.

Without any cost and being able to follow Emperor Qing and Brother Luo He, they had their protection; what more could they hope for? They clearly understood that without Emperor Qing and Brother Luo He, their survival in the city would be much more difficult, by hundreds or thousands of times.

"I will send you detailed intelligence on Yulan City for your perusal," said Emperor Qing as he walked towards his part of the space alone.

Emperor Ming, Di Fu, and Luo Feng each entered their own spaces.

"The place is not bad." Emperor Ming sensed the speed of energy absorption, "This absorption rate can reach 30% of my maximum

speed! Not bad, I'm stuck at a bottleneck in strength anyway and my requirements for energy are quite low."

Generally, maximal energy absorption occurs during rapid growth periods. Once the limit is reached, only a minimal amount of energy is absorbed to sustain life.

...

"The space is quite large." Luo Feng looked around the spacious area, and with a thought, energy began to converge and formed various palace buildings such as wine pavilions, quiet rooms, guest halls, and more.

He then stepped to the highest part of the pavilion, happily took out a pot of wine, and while drinking, studied the intelligence on Yulan City.

"Yulan City is autonomously governed by cultivators."

"Yulan City is ruled by the Elder Hall, which currently has three Hall Masters and 327 Elders."

"Once you reach either the 'Late Stage Divine Emperor Enlightened One' or 'Half Primordial Level Combat Power,' you can apply to become an Elder. If you can partly drive Yulan City's defense system, you can become an Elder. If the driving extent is very high, you can even become a Hall Master."

Luo Feng looked at the intelligence.

Every Elder needs to enhance the defensive capabilities of Yulan City!

"The Elder Hall is really making contributions," Luo Feng observed the details closely.

Once one becomes a member of the Elder Hall, they need to reside permanently within Yulan City! This ensures the city's defense. They cannot leave Yulan City.

And those who can become members of the Elder Hall are strong enough to venture into the Dark Sacred Realm!

Every Half Primordial powerhouse certainly aspires to break out of the Braided Cage, and only in the Dark Sacred Realm can they find more opportunities to do so! Yet, members of the Elder Hall usually stay in the Nine Rivers Sacred Realm and do not step out of Yulan City at all.

"So, those who can become members of the Elder Hall typically have avatars. They merely leave one avatar here. Their other avatars have already gone to the Dark Sacred Realm," Luo Feng speculated.

"Having an avatar itself implies that the core rulers of Yulan City 'The Elder Hall' members are probably all from the Source World."

Luo Feng deduced a lot of information.

The strong from the myriad worlds who lack avatars and have sufficient strength are not willing to stay in the Nine Rivers Sacred Realm all the time.

"Living in Yulan City, cultivators need 1 Primordial Crystal every epoch. They also need a residence, all places of residence in the city… can only be rented," Luo Feng understood.

These fees are the official income of Yulan City.

They need to support a group of law enforcement cultivators! They need to maintain the city's defense system! The leftovers are then distributed among the three Hall Masters and 327 Elders. This income must be very substantial to attract these powerful beings to keep their avatars here for a long time.

"Inside Yulan City, below Divine Emperor level is mainstream, amounting to hundreds of millions."

"Divine Emperor level, there are several million."

Luo Feng looked at the intelligence.

Among the Enlightened One Lineage, those who can perceive a complete Great Dao generally don't find it difficult to become a Divine Emperor.

But those who rely on their bloodline, while they might seem to grow easily, their growth's limit depends on their bloodline! If the bloodline isn't strong enough, they might always be stuck at the ultimate level of a Godly King.

"Yulan City has intelligence organizations selling all the Divine Emperors' information. This intelligence costs 10,000 Primordial Crystals?" Luo Feng was alarmed; he could not afford it.

Moreover, the intelligence collected about these Divine Emperors might not be fully comprehensive.

For example, since Luo Feng had just arrived in Yulan City, naturally, there was no detailed intelligence on him externally.

"Brother Luo He," Emperor Qing's voice came from afar; he approached the entrance of Luo Feng's space.

"Brother Emperor Qing," Luo Feng immediately opened the entrance.

"The intelligence on all Divine Emperors in Yulan City, quite expensive, isn't it?" Emperor Qing came over and smiled, "But even this can only gather information on about 90% of the Divine Emperors at most. Because there are some who quietly break through as Divine Emperors, and if they don't reveal themselves, it's difficult to learn their information."

"Even the information being sold only records what can be detected, many Divine Emperors have hidden methods," Emperor Qing said, "But no matter what, you might not need to buy it in the short term. However, over time, it's better to purchase a copy."

"Buying a copy of the intelligence lets you know about all the formidable existences hidden in Yulan City. It lets you know who not to provoke," Emperor Qing explained.

Luo Feng understood.

"This intelligence is expensive and also contains a secret Heart Spell, prohibiting its dissemination," said Emperor Qing, "So I cannot pass it to you."

Luo Feng understood that gathering information on all the Divine Emperors in the entire city was no easy feat. If they sold merely a few copies, it would spread throughout the city. That would be a huge loss for the intelligence organization.

"Yulan City has abundant commercial and trade resources," Emperor Qing stated, "Here, Primordial Crystals are needed everywhere."

"I'll lend you 100,000 Primordial Crystals for now. You can pay me back after our hunt," said Emperor Qing as he waved his hand, causing a pile of 100,000 Primordial Crystals to fall beside him, glittering like brilliant crystal jade.

Seeing this, Luo Feng was truly moved.

Allowing him to stay in the Cave Mansion for free, even allocating half of the space to him. If one were to calculate the price, half the rental cost for a thousand epochs would also be 50,000 Primordial Crystals! It felt like a gift.

And now lending him so much! Just arriving in Yulan City, he was indeed at his poorest time.

"Emperor Qing, thank you," Luo Feng said without much ado.

"We just arrived in the Nine Rivers Sacred Realm, we're all in our greatest need of Primordial Crystals at this time. With Primordial Crystals, we can buy enough resources to strengthen ourselves," Emperor Qing said with a smile.

"Remember, when you go out to buy resources," Emperor Qing suddenly said earnestly, "carry fewer Primordial Crystals with you each time. In Yulan City, with enough temptation, murder, robbery, theft, all sorts of things can happen. Even if you have life-saving means, but if the treasures are robbed, the loss is still substantial."

"I understand," Luo Feng nodded.

Emperor Qing's intelligence already included detailed records.

Murders and robberies occurred occasionally, while thefts and scams, since they didn't involve life-threatening situations and official

punishments weren't too severe, were even more common.

"Carrying less means even if you are robbed, it's just like paying tuition," Emperor Qing sighed, "The methods of theft in Yulan City are diverse and include tricks from various cultivation systems, many of which you have never seen before."

Luo Feng nodded slightly.

...

Only after familiarizing himself with the intelligence did Luo Feng leave the Cave Mansion alone to explore Yulan City, which he would be inhabiting for uncountable years to come. Heeding Emperor Qing's advice, he was very cautious and only carried 5,000 Primordial Crystals with him.

"With all five of my Avatars complete, I don't believe I can't protect these 5,000 Primordial Crystals," Luo Feng tread carefully, not bringing any other Secret Treasures; the most valuable thing he had was the 5,000 Primordial Crystals.

For this journey to the Nine Rivers Sacred Realm, Luo Feng had energy reserves worth 1,200 times that of a Perfect Divine Body. The energy reserves left in the Land of Origin were minimal, but back home he was already invincible, and the Avatar energies were sufficient.

The 1,200 times Perfect Divine Body Energy Reserve, Luo Feng's five avatars collectively had 200 times Perfect Divine Body reserves, enabling him to reach his limits under normal conditions.

"Hum."

The moment Luo Feng left the Cave Mansion—

Various colorful protective systems enveloped the entire Yulan City, controlled by three Hall Masters and 327 Elders of the Elder Hall. Invisible and colorless fluctuations regularly swept across the city, and at this moment, swept past Luo Feng, too.

In the core area of the Inner City, there lay a huge Cave Mansion.

Deep inside the Cave Mansion.

A figure bathed in light sat there, his entire body seemingly forged from light, expressionless.

A red diamond-shaped gem was positioned between his brows.

Inside the diamond gem, massive amounts of information were being rapidly processed.

Information about all the Divine Emperors throughout the city was being collected.

"New member entering the city, Luo Feng. Residence: 99179 Cave Mansion, Tian Shui District, Inner City of Yulan City. Strength: Suspected Early Stage of Divine Emperor. He shares a Cave Mansion with Emperor Qing, suspected to be from the same Source World," information about Luo Feng was among it.

While this information was collected, it was also relayed to another mysterious entity.

...

Inside a huge Cave Mansion in the Inner City area of Yulan City, a massive spherical organism occupied the space.

The surface of the spherical organism occasionally showed faces that were either howling, sleeping, filled with hatred, or laughing, and the surface also featured numerous holes.

Countless holes, through which figures came and went.

"Luo Feng, a new Divine Emperor in the city? Living with Emperor Qing, he must not be poor."

"Let this newcomer feel the customs of Yulan City."

"He likely follows the most common system of the Enlightened. We can let him experience the power of other systems. Mo Yada, this is up to you."

A command was quickly issued.

Huff.

A short figure flew out from the numerous holes of the spherical organism.

"New Divine Emperor at the early stage?" The short figure chuckled weirdly, and at that moment, their organization had already locked onto Luo Feng, who couldn't hide anywhere in the public areas of the city.

Huff, the short figure went straight for Luo Feng's location.

Chapter 295 4 Theft and Counter-Theft

The merchants of Yulan City mainly operate in the Inner City. Shortly after Luo Feng left his Cave Mansion, he arrived at a nearby merchant's.

The interior space of the merchant's was very spacious, with independent spaces, each displaying Low Level Primordial Life Remains for exhibition.

"This esteemed guest."

An attendant proactively approached.

"I'll take a look first." Luo Feng wasn't in a hurry to buy; he planned to tour the entire city before making a purchase.

The attendant smiled and said: "Esteemed guest, our business specializes in 'Low Level Primordial Life Remains.' These remains can be used for Cultivation insights. Some large remains can be used for Artifact Refining, Alchemy, Body Refinement, and even for extracting complete Primordial Bloodlines."

"There are quite a number of remains." Luo Feng observed the densely arranged independent spaces with more than ten attendants waiting in various places, with Formations also in operation.

"We have a total of 11,341 types of remains here, all Low Level Primordial Life," the attendant by his side continued, "Our business has collected at least seventy percent of the Low Level Primordial Species from the Nine Rivers Sacred Realm."

Luo Feng's 'Biomimetic Eye of Destruction' was already open, carefully observing each piece of remains.

The Cultivators of Yulan City employed various methods of observation. As long as they didn't break into the 'independent spaces' to grab the remains, the attendants wouldn't mind any manner of observation.

"Innate Primordial Life 'Black Cloud Devouring Space Beast,' at the strength level of the early stages of Divine Emperor, is considered rather weak," Luo Feng observed.

Here, there were twelve parts of the Black Cloud Devouring Space Beast for sale.

Some parts, like a scale, a bone, or a vial of blood, suitable for Cultivation insights, were priced at only 100 to 500 Primordial Crystals each.

However, for items like a large intact claw, the major tendon that ran through the entire body, or a refined complete bloodline, these three materials were all priced at 20,000 Primordial Crystals.

The most valuable was a complete Life Core, which required 100,000 Primordial Crystals.

"This Innate Primordial Life has a Life Core that's actually intact?" Luo Feng was somewhat surprised.

Innate Primordial Lives have Life Cores. Just as the Source World has the Source Ground, this Life Core is like the source core of 'Innate Source Life.' Once destroyed, they would perish, which was the most common method of slaying them.

It was quite rare to slay one while preserving the Life Core.

"To think that an Innate Primordial Life would be disassembled and sold like this." Luo Feng secretly sighed, with bloodlines being extracted, used for Alchemy, Artifact Refining... used in various ways.

But this was also quite normal. Cultivators groped their way in the Dark, wanting to escape the confines of the Braided Cage. The best way was to study these 'Innate Primordial Lives' that had already escaped the confines.

...

Luo Feng strolled from one shop to another. No matter where he went, with his life aura reaching that of an early-stage Divine Emperor, the attendants of these merchants were very enthusiastic.

"Weapon Secret Treasures." Luo Feng also saw the prices of various Secret Treasures.

For those 'early stage Divine Emperor' Secret Treasures, they were generally used by those at the Ultimate Realm of Godly King! A casual strike from Luo Feng was much more powerful than those Secret Treasures. Prices for Secret Treasures generally started from 2,000 Primordial Crystals.

Middle stage Divine Emperor, late stage Divine Emperor, Perfect stage Divine Emperor. The prices of Weapon Secret Treasures naturally skyrocketed at different levels.

For Innate Secret Treasures, the prices were even higher.

"It turns out I'm quite rich." Luo Feng was secretly shocked when he saw the prices of Innate Secret Treasures, realizing the expensiveness of the Innate Secret Treasure 'Palm World.' Of course, this treasure was partly used to protect the Blade River Sect, and on the other hand, he was still too weak to bring it with him.

"In any city of the Nine Rivers Sacred Realm, there are those who kill, plunder, and steal," an attendant said, "This space-related Secret Treasure 'Illusion Realm Maze' can be integrated into the body. Treasures hidden inside, hardly anyone in the Nine Rivers Sacred Realm can steal. Many powerful Divine Emperors almost all have one."

"Illusion Realm Maze?" Luo Feng looked at this Secret Treasure, "What's the price?"

"Not expensive, 100,000 Primordial Crystals each, and this is the unified price throughout the Nine Rivers Sacred Realm," the attendant said with a smile.

Luo Feng turned and left.

Those Divine Emperors with a bit more accumulation could afford it, but Luo Feng had just arrived in the Nine Rivers Sacred Realm, and the 100,000 Primordial Crystals he had were lent to him by Emperor Qing. Why would he use them to buy a space storage item, just to prevent theft?

...

"There are also many treasures that assist in Cultivation."

Luo Feng looked at one after another rare treasure.

The treasures of the Nine Rivers Sacred Realm were all extracted from the essences of various Innate Primordial Life creatures; consuming them would aid in Cultivation. Their effects were far superior to Primordial Crystals! But the better the treasure, the higher the price.

...

"This Secret Treasure is called 'Wuxiang God Weapon,' it can imprint any Secret Pattern; as long as you imprint precisely, it can immediately mimic any kind of Secret Treasure. With it, you can try to imprint one after another different Secret Treasures, able to change at will." The attendant explained eagerly, "It is suitable for battle on one hand, and on the other hand, it verifies Cultivation insights."

Luo Feng's interest was piqued.

His own insights into the deep patterns of the Star Tower and the Eye of Life and Death could all be tried for imprinting.

"What's the price?" Luo Feng asked.

"50 million Primordial Crystals each," the attendant grinned, giving a number that made Luo Feng's heart tremble.

"More expensive than many Innate Secret Treasures." Luo Feng couldn't help saying, "Many Perfect Divine Emperor level Secret Treasures are only several million Primordial Crystals. This price could buy an entire set of Perfect Divine Emperor level Secret

Treasures."

The attendant smiled and said: "Those powerful Divine Emperors, many possess 'World Level Primordial Life Remains.' To grasp the mysteries of the remains and imprint them on the Wuxiang God Weapon. To verify their own enlightenment. This is not something a set of Perfect Divine Emperor level Secret Treasures can compare to."

Luo Feng sighed inwardly.

Too many temptations.

Treasures to assist Cultivation, some suitable remains of Innate Primordial Life related to Life, Destruction, and even Integration of Life and Death, as well as some suitable Secret Treasures- Luo Feng had seen a lot! But he was too poor.

"No hurry, the first day is purely for strolling around Yulan City, I'll make my move on the second day." Luo Feng had strategic patience, and one day's wait didn't matter.

He discovered that some famous Secret Treasures like "Wuxiang Godly Weapons" and "Illusion Realm Maze" had uniform prices across many merchants. However, for remnants, prices varied between shops; some were willing to sell at a lower price.

Luo Feng had to consider how to get the right cultivation materials for himself at a lower price.

"Poor, too poor."

"Don't even talk about 100,000 Yuan of Primordial Crystals. Give me a billion Yuan of Primordial Crystals, it still wouldn't be enough." Luo Feng was flying within Yulan City, and at a glance, there were many cultivators around him, but Luo Feng didn't notice a small figure in the distance.

The small figure in the distance, upon seeing Luo Feng, couldn't help but chuckle.

"Luo Feng? A newcomer at the Early Stage of Divine Emperor?" The small figure had an idea and immediately made a move.

...

Luo Feng was flying above the Inner City, an area with hidden dragons and crouching tigers, with hundreds of Elders maintaining the defensive systems of Yulan City, and various defense systems in operation, which also put pressure on Luo Feng.

"Buzz." It was as if a breeze brushed past Luo Feng.

"What's going on?" Luo Feng was startled.

It seemed like a breeze.

But something felt off to Luo Feng.

"It's as if someone made a move against me, and yet not." Luo Feng himself was uncertain as he slightly furrowed his brows and looked around, becoming more vigilant and on guard.

...

The small figure in the distance was quite surprised: "This new guy, how is he not quite like the traditional Enlightened? He has a bit of the feeling of a Low Level Primordial Life, having cultivated his body into a World body, with a world hidden inside, treasures all kept within that world?"

Although Primordial Bloodline Cultivators might explode with stronger combat power and have formidable physical bodies, their control over themselves is not that perfect.

Luo Feng's body gave the impression of an entire complete and vast world; while maintaining stealth, his Secret Technique swept across Luo Feng's entire body but was unable to forcefully penetrate a whole world.

"Thinking that by hiding in a world, I won't be able to do anything?" The small figure let out a cold laugh, opened its mouth, and a blood-colored bug flew out.

"Good treasure, go into his world and take all the treasures." The small figure controlled the blood-colored bug with a thought, and

struck again.

Quietly stealing had failed.

Then, it would forcibly steal!

"Whoosh."

The blood-colored bug instantly disappeared from sight, ignoring Luo Feng's Physical Body and burrowed into his Inner World.

"Hm?"

In the distant sky, Luo Feng, who was on high alert, immediately sensed it.

Back in the Land of Origin, he had cultivated nine forms of Primordial Bloodline Creatures and had chosen five of them! They were also his five Avatars for facing various dangers in the Nine Rivers Sacred Realm.

What he usually manifested outside was one of the five avatars: the "World Avatar."

This Avatar was thick-skinned and fleshed, immensely strong, with tenacious Life Force, capable of handling many harsh situations. This Avatar had an Inner World! It was the closest to the "World Life Form" lineage, the more Energy it possessed, the greater its power.

Therefore, the World Avatar has a hundred times the Energy Reserve of the Perfect Divine Body, while the Energy Reserves of the other four Avatars weren't so high.

"Shh!" An invisible fluctuation instantly burrowed into the Inner World, and the Inner World naturally sensed it.

The stronger the World Avatar, the more stable the Inner World.

"It's quite stable, but too bad, my treasure excels at devouring space." The blood-colored bug instantly unleashed a wave of Energy, sweeping across the entirety of the Inner World, trying to take away all the treasures within.

Inside the Inner World, at this moment, the other four Avatars sat cross-legged, each of them bearing Luo Feng's likeness, just with different colors of robes.

"Hmph." The Heaven and Earth Avatar snorted coldly, instantly dissolving and merging with the entire Inner World.

Merge with Heaven and Earth!

The World Membrane was as if it was the flesh of the Heaven and Earth Avatar, their mysteries perfectly integrated with the world, and their might surged dramatically.

"This..." The blood-colored bug felt the already terrifying Inner World suddenly increase its pressure and binding force by more than ten times. To it, it was as if it had been in water before, easily moving through it. But now, it was as if it was trapped in glue, completely stuck.

"His Inner World has no treasures?" The blood-colored bug used its Secret Technique to sweep the entire Inner World, but found that it had come up empty.

"Trying to steal?" The remaining three Avatars inside the Inner World all looked at it.

The five thousand Yuan of Primordial Crystals were carried by the Time Avatar! The Time Avatar existed simultaneously in the past, present, and future! The five thousand Yuan of Primordial Crystals were currently on the Future Body of the Time Avatar.

"The five thousand Yuan of Primordial Crystals I have are hidden in the Inner World and protected by the Time Avatar. And they are hidden with the 'Future Body' of the Time Avatar. The Inner World is also guarded by the 'Heaven and Earth Avatar.' If they are still stolen under these circumstances, I have nothing to say, and I'll just consider it paying tuition." Luo Feng had been warned early on and was naturally very careful and vigilant.

"Who said he is a traditional Enlightened?" Seeing that things were looking bad, the blood-colored bug immediately concealed itself and

disappeared.

Boom!

It slammed into the Membrane of the Inner World, but was unable to break out.

After the Inner World and the Heaven and Earth Avatar merged, the sturdiness of the World Membrane increased more than tenfold.

"Not good, I can get in, but can't get out!" The blood-colored bug immediately realized that it was in trouble!

In reality, Brother Tomato is a great fan of martial arts and has written a martial arts novel called "Fubo Records" with six hundred thousand words before it went online. If interested, everyone can take a look.

Chapter 296 - 5 Compensation

"Buzz." "Buzz." "Buzz." ...

The blood-colored insect vanished and reappeared repeatedly, trying to penetrate the world's membrane wall. Yet each time, it was blocked by the thick and sturdy membrane wall.

"I've heard that theft is common within Yulan City. Seeing it today, the theft techniques are indeed impressive." The three Luo Feng avatars within his inner world watched the blood-colored insect and smiled.

"Let me out, and I won't bother you again," the blood-colored insect said while floating in the air.

"Ha ha, you choose to steal when you wish, try to invade my inner world when you desire, and now you want to leave?" The three Luo Fengs looked at the blood-colored insect. "Too late!"

The blood-colored insect was furious. With a flutter of its six pairs of small wings, it vanished instantly, reappearing near one of the avatars.

This avatar was one of Luo Feng's five types of avatars, the 'Heavenly Light Avatar.'

The Heavenly Light Avatar is the most indestructible among the five types of avatars. Its body is like a Divine Weapon Secret Treasure! Luo Feng places great importance on this avatar, but it cannot withstand a high Perfect Divine Body Energy Reserve.

The more energy it has, the more the Heavenly Light Avatar will collapse and condense, requiring higher demands on the spiritual will.

With a one-time Perfect Divine Body Energy Reserve, the Heavenly Light Avatar has collapsed and condensed once.

With a three times Perfect Divine Body Energy Reserve, the Heavenly Light Avatar has collapsed and condensed for the second time.

With a ten times Perfect Divine Body Energy Reserve, is the most powerful form that Luo Feng can maintain now, having collapsed and condensed three times. As for a stronger form? Luo Feng's spiritual will cannot make it collapse and condense further.

"Boom."

The blood-colored insect, itself like a Secret Treasure, collided with the Heavenly Light Avatar.

Like two Secret Treasures colliding, neither sustained a single scratch.

"What? It's clearly the weakest avatar in terms of energy..." The blood-colored insect was surprised.

"Seal!"

The Heaven and Earth Avatar merged with the inner world. At this moment, a vast Heaven and Earth Energy formed into a colossal grinding plate, one of the Life and Death Dao Ultimate Realm Secret Techniques created by Luo Feng, the 'Life and Death Grinding Plate.'

The huge grinding plate completely trapped the blood-colored insect, attempting to crush it.

However, the insect's body, like a Secret Treasure, was not afraid of being crushed.

"Not good." The blood-colored insect was trapped within the colossal grinding plate, continuously pressed but unable to escape.

"Luo Feng! Do you really want to..." The blood-colored insect roared angrily.

Luo Feng frowned upon listening. These theft forces indeed have impressive intelligence networks; he had just entered the city and

registered basic information today, and already the thieving cultivator knew his name.

"Slash." The nearby Causality Avatar immediately executed the Curse Killing Technique.

Luo Feng's five types of avatars: World Avatar, Heaven and Earth Avatar, Time Avatar, Heavenly Light Avatar, Causality Avatar.

The Causality Avatar, with its acute sense of causality, has a natural advantage and is suitable for causality-related Secret Techniques! Luo Feng then created a technique using the Life and Death Dao, an Ultimate Realm Secret Technique, 'Absolute Life Termination.'

This invisible causality Curse Killing primarily targeted the blood-colored insect.

"Ah!"

In just a moment, the blood-colored insect let out a piercing scream, its aura weakening significantly.

"Stop, stop." The blood-colored insect immediately spoke out.

"A small insect that can withstand my strike?" Causality Luo Feng was surprised. "Let's try again."

"I surrender, I surrender." The blood-colored insect hurriedly said. This blood-colored insect was one of the 'three great Lifebound Insects' he cultivated at great cost. If a Lifebound Insect died, he too would be severely injured.

The key was that his theft technique largely relied on this insect.

"Surrender and you think you can just leave?" The three Luo Fengs looked at it simultaneously.

"I am willing to compensate," the blood-colored insect said with reluctance but nodded obediently. Although the Lifebound Insect seemed like a Secret Treasure, the Curse Killing Technique was quite effective against it. With another blow, the Lifebound Insect's consciousness could be extinguished.

"How much can you compensate? A small amount, I won't bother with," Luo Feng said.

"I'm willing to compensate with ten thousand Primordial Crystals," the blood-colored insect said.

Luo Feng sneered, "This insect of yours is not an avatar, yet it resembles one! It's much more precious than ordinary Divine Weapon Secret Treasures. I don't ask for much, just 200,000 Primordial Crystals! One less, and I'll kill it now."

"200,000 Primordial Crystals?" The blood-colored insect exclaimed.

That's too harsh, asking for so much!

"You have three breaths' time to consider. If you don't agree within three breaths' time, I'll kill it," Luo Feng didn't waste words with it. He had visited too many shops before and had seen similar insects, learning about the cultivation requirements from attendants.

From the exchange, Luo Feng estimated that the total cost to cultivate it would start from 300,000 Primordial Crystals, possibly even reaching 500,000 to 600,000.

"Three, two..." Luo Feng looked at the blood-colored insect.

"Fine." The blood-colored insect said grudgingly but ultimately agreed.

"Give me some time to prepare. I will deliver the Primordial Crystals soon," the blood-colored insect said.

"You know where my cave mansion is, right?" Luo Feng said. "Later, send the Primordial Crystals to my cave mansion; you give me the Primordial Crystals, and I'll give you this blood-colored insect."

Receiving the Primordial Crystals outside, Luo Feng still worried about being ambushed.

It's safer to receive compensation in the cave mansion!

"Fine," the blood-colored insect could only respond in grief and

indignation.

Luo Feng nodded.

Sigh.

Luo Feng stopped browsing and immediately turned into a streak of light, flying towards his own cave mansion at an extremely high speed. This was a deal involving 200,000 Primordial Crystals, and naturally, Luo Feng had to give it ample importance.

"How come I have to compensate 200,000 Primordial Crystals?" The small figure in the distance gritted his teeth, yet he was powerless, "Clearly, there is an issue with the internal intelligence of the organization. This Luo He has unfathomable methods, and it's too difficult to deal with the numerous avatars acting together."

He also quietly left to prepare the Primordial Crystals.

...

"What? You were robbed, and you trapped a peculiar insect from the thief?" Emperor Qing looked at Luo Feng, quite surprised.

"That insect was quite formidable. It sneaked into my inner world without a sound… But although it got in, it can't get out." Luo Feng smiled. Purely relying on the inner world certainly couldn't stop the insect.

But the Heaven and Earth Avatar was best suited for merging with a world, and that was how he trapped the insect!

Without sufficient compensation, I would just kill this peculiar insect.

"You've just arrived at Yulan City, and he already knows your name. This indicates that the force behind him is likely connected with the elders of the Elder Hall." Emperor Qing pondered and said, "Of course, to target a newcomer like you... an elder would not be so idle. At most, it's an order from their middle ranks."

"Brother Luo He, if you take these 200,000 Primordial Crystals, they will start targeting you," Emperor Qing said.

"Do you think I shouldn't take them?" Luo Feng looked at Emperor Qing.

"The stealing force is nothing to fear," Emperor Qing said with a smile, "We who come out of the Source World have avatars! Other than high-level Primordial Lives, what is there to be afraid of? Just be mentally prepared, they will play dirty tricks on you in the future."

Luo Feng nodded.

Strong individuals who come out of the Source World have avatars in their homeland Source World! When adventuring in other worlds, it's usually just the avatars that die in battle, and treasures are lost.

It's only beings who have escaped the Braided Cage that can contaminate their souls and cause their death across the Source World.

"Adventuring out in the world, even if you're careful to hide, there will always be those who actively seek trouble. This small issue is not worth mentioning." Luo Feng didn't care. Since the other party made a move against him, they had to pay the price.

A moment later.

A visitor arrived at the entrance of the cave mansion.

"Here they come." Luo Feng and Emperor Qing both went out to meet the guest.

A Black-Robed Figure stood there, the interior of the black robe filled with mist. This mist twisted and observed Luo Feng and Emperor Qing.

"Luo Feng, right?" the Black-Robed Mist twisted as it spoke, "Are you sure you want 200,000 Primordial Crystals?"

"You can choose not to give them," Luo Feng looked at it.

Emperor Qing also calmly observed the Black-Robed Mist.

Strong individuals from the Source World have a hint of pride in

their bones! If it really comes to a life-and-death fight, who would be afraid?

"Very well." The Black-Robed Mist nodded, and suddenly a pouch flew out from the mist, "You check it. It contains 200,000 Primordial Crystals."

Luo Feng reached out to receive it, his consciousness penetrated and searched it, and he nodded to confirm: "Correct."

Immediately, Luo Feng thought, and released the imprisoned blood-colored insect from his inner world. As soon as the blood-colored insect came out, it immediately disappeared into hiding.

The Black-Robed Mist turned and left.

...

"I was ordered to target Luo Feng, but this time I failed. I cannot be the one to compensate the entire 200,000 Primordial Crystals," the small figure joined the Black-Robed Mist inside the large spherical creature.

The Black-Robed Mist glanced at its subordinate and coldly said, "Observing the prey is the most basic ability. Your failure is due to your own lack of skill."

The small figure was quite frustrated.

Theft, failure is normal.

Running into tough opposition, getting caught, it could happen. But such an occurrence, the cost was too great. This time he lost a full 200,000 Primordial Crystals.

"Remember, do not completely trust the intelligence," said the Black-Robed Mist.

"He took so many Primordial Crystals from me, just like that?" The small figure was somewhat unwilling to let it go.

"Emperor Qing is from the Source World, and this Luo Feng must also

be from the Source World," the Black-Robed Mist said, "Do not easily act against Divine Emperors who come out of the Source World. It's not worth it to act impulsively just to feel good for a moment."

The small figure was quite upset.

It's my loss! Of course, you don't feel the pain!

"Wait for the opportunity, wait for the right opportunity. Strike once... and make that Luo Feng really regret and feel the pain," the Black-Robed Mist glanced at the small figure, "Killing a few avatars of a strong individual from the Source World doesn't really hurt them. We must steal their true treasures."

"You should keep a close watch on that Luo Feng. Once you discover information about his important treasures, immediately inform me. After a successful move, I'll give you a tenth," instructed the Black-Robed Mist.

The small figure nodded.

He was already looking for prey, naturally, he would pay extra attention to Luo Feng.

...

"Just arrived in the Nine Rivers Sacred Realm, the thing I lack the most is Primordial Crystals." Luo Feng was quite pleased with the 200,000 Primordial Crystals, added to what Emperor Qing loaned him, it amounted to a total of 300,000 Primordial Crystals.

He could afford to be a little extravagant now.

Immediately, Luo Feng began a large-scale purchase. Every time he went out, he would not carry more than 5,000 Primordial Crystals, spending three days to carefully observe, making purchases numerous times, spending slightly more than 190,000 Primordial Crystals to acquire everything he needed.

"It's time to start closed-door cultivation." Looking at the many resources piled in front of him, with the most being the remains of the Innate Primordial Life – some were a bottle of blood, some a

feather, or a bone – he bought more than 300 portions of such remains, with an average price of about 300 Primordial Crystals each.

Compared to the mysteries contained in Star Tower and Eye of Life and Death, the mysteries contained within these Low Level Primordial Life remains are simpler! They are slightly more profound than a complete Great Dao, but easier to understand.

"Turn these resources into strength." Luo Feng began his calm cultivation.

Chapter 297 6 The Great Dao of Life and Death, Ultimate Realm

Luo Feng sat cross-legged, his 'Biomimetic Eye of Destruction' opened between his eyebrows, observing a thick bone in front of him. Although the Biomimetic Eye of Destruction could not match the observational abilities of High Level Primordial Life, within the Divine Emperor level, it was considered an extremely formidable Secret Technique of observation.

"The intricacies of life can also be utilized in this way." Luo Feng looked at the Secret Patterns inside the thick bone and felt suddenly enlightened, gaining new insights.

Luo Feng had purchased over three hundred remnants of Low Level Innate Primordial Life, either of the Life type, Destruction type, or a combination of both Life and Destruction. Moreover, all these mysteries surpassed the complete level of the Great Dao.

"What I need is exactly these." Luo Feng was completely immersed, fully focused on his comprehension.

Low Level Primordial Life, High Level Primordial Life, World Level Primordial Life, Primordial Ancestor. Each leap represented a huge transformation in the essence of life. The complexity and profoundness of the Secret Patterns contained within were equally transformative.

Luo Feng also realized...

His best way of comprehension should be to study from the low to the high, laying a solid foundation at each level of intricacy! By doing so, understanding the Blood-colored Scale from the Star Tower, which was the hardest, would also become much easier.

"A high-rise tower is built from the ground up; these remnants of Low Level Primordial Life are the very foundation of a high-rise tower." Luo Feng absorbed a variety of knowledge with patience.

As he comprehended these Secret Patterns, Luo Feng's Path of Destruction naturally broke through, reaching the Ultimate Realm.

Having arrived in the Nine Rivers Sacred Realm for merely half an epoch, his Path of Destruction formally reached the Ultimate Realm! Of course, this was also because his Path of Destruction was already on the verge of breakthrough.

Time passed.

Finally, Luo Feng had completed a round of comprehension with all 300 plus remnants.

"It's just a superficial round of comprehension," Luo Feng was somewhat surprised, "Has it really been thirty-six epochs?"

"It's time to start consuming Primordial Crystals."

For the first round of comprehension, he did not use any treasures.

Now, Luo Feng consumed Primordial Crystals, significantly enhancing his state, and began to organize the knowledge from the first round of comprehension. Integrating knowledge into his own cultivation system.

Just by organizing and thinking, Luo Feng had spent another fifteen epochs.

"If I hadn't come to the Nine Rivers Sacred Realm and hadn't come into contact with so many remnants of Low Level Primordial Life, and relied solely on my own in-depth comprehension, when would I have uncovered so many mysteries?" Luo Feng was quite pleased.

That piece of Blood Scale from the Star Tower was like a light at the farthest reach of the cultivation path.

Too far from Luo Feng.

Like a mortal who can see a distant star. But is it possible to walk there? The dark journey is too long and far, full of peril.

Thus, more resources are needed to break through the obstacles layer by layer.

"Start the second round of comprehension."

This time Luo Feng, in the state of using Primordial Crystals, went through his comprehension carefully.

This second round of comprehension was clearly much faster, taking only twelve epochs to complete. He then spent another six epochs to once again integrate the knowledge into his system. During this process, Luo Feng spontaneously created several Ultimate Realm Secret Techniques of the Life and Death Dao.

Once the knowledge is accumulated, the creation of Secret Techniques becomes a matter of course.

"Begin the third round."

Luo Feng picked up a bottle beside him. Inside the bottle were three pills that were an excellent aid for cultivation in the weaker stages, called 'Heaven and Earth Unity Pill', each costing thirty thousand Primordial Crystals.

This was far more extravagant than consuming Primordial Crystals, but the effects were much better.

Heaven and Earth Unity Pill was a green Dan Pill, radiating a faint white light all over, stirring the mysterious fluctuations of many rules, as if it wanted to blend into the Heaven and Earth Rules at any time. Luo Feng controlled it with a strand of strength and swallowed it.

As the pill entered his mouth.

"Boom!"

Luo Feng felt his whole body and even his soul become one with the Heaven and Earth Rules, his thoughts accelerated explosively,

casually glancing around, insights emerged in his mind. The state was extraordinarily wondrous!

"Commencing the third round of comprehension of these remnants," Luo Feng started his comprehension.

With the foundation of the previous two rounds, and now with the aid of the Heaven and Earth Unity Pill, Luo Feng's comprehension went straight to the essence, understanding many deeper mysteries of Life and Destruction.

"Life, Destruction..."

Time continued to pass, Luo Feng immersed in it.

The joy of seeking the Dao, brimming in his heart.

Unknowingly the effect of the pill passed, Luo Feng immediately consumed the second one, fully engrossed in comprehension.

Not even finished with the effect of the second pill, Luo Feng completed the third round of comprehension. After that, he began to sort out and integrate his insights.

"Boom."

During this process, his understanding of the Great Dao of Life and Death continued to rise, and he naturally grasped the complete Life and Death Dao. Luo Feng didn't stop, he even took the third pill and continued with his comprehension and understanding.

The knowledge of Life and Death clashed and merged incessantly.

"Hm?"

Luo Feng felt his brain slowing down significantly in an instant, with a severe sense of fatigue and pain, his state deteriorated greatly.

"The effect of the pill is gone?" Luo Feng finally halted his cultivation.

"What a good Dan Pill, this Heaven and Earth Unity Pill can be taken up to ten in a row. But after taking ten, the soul will be hurt and will

need to rest with some treasures for a few epochs. If it's just three or five pills, it's merely extreme fatigue." Luo Feng smiled.

"This retreat lasted eighty-seven epochs."

"It was better than the two thousand epochs of comprehension on the Land of Origin." Luo Feng was certain of this; with the help of many resources, the effects indeed matched dozens of times over, the key being that on the Land of Origin, he couldn't have come into contact with enough Low Level Primordial Life Remains, and might have hit a bottleneck.

New knowledge, on the other hand, could allow for a flash of inspiration to break through the bottleneck.

"The Great Dao of Life and Death has reached the Ultimate Realm." Luo Feng was not at all surprised.

Back in the Land of Origin, with the Great Dao of Life and Death, he had already comprehended eight Ultimate Realm Secret Techniques. Accumulating a dozen more secret techniques, a breakthrough was also possible.

This time, he merely pondered over the knowledge contained within the remains, and in the process, he naturally made a breakthrough on the side.

"Life, Destruction, and Life and Death... I'm quite certain about the future direction of these three paths," Luo Feng revealed with a smile.

In terms of profoundness, there are the Star Tower, the Eye of Life and Death, and two kinds of Special Life Remnants.

Regarding the foundational Secret Patterns, there's also an abundance of Low Level Primordial Life Remains.

Having seen enough possibilities! Luo Feng became more certain about the future.

"My path of life, the future direction, is to pursue 'the larger the life, the better, the stronger the Origin of Life, the better'," Luo Feng determined this.

Bigger is better.

As vast as the Source World.

Even larger than the Source World.

"My life, no longer restricted! The bigger the better, as long as I can control it, then pursue the ultimate vastness," Luo Feng thought.

Other Cultivators don't dare to do this.

Simply being big has many drawbacks. For instance, it greatly weakens capabilities in combat, escape, and many other aspects, making one an easy target for the enemy.

"The Destruction Path pursues the ultimate killing methods, no need to worry about the rest, just need to kill!"

These two paths, both are extremes.

Normal Cultivators wouldn't do this, too many flaws.

Luo Feng can do this because he also has the 'Great Dao of Life and Death' to fuse the two.

"My Life and Death Path, however, is to integrate the two into one."

Luo Feng was very clear.

These three directions are all difficult; the more extreme the paths of Life and Destruction, the harder it is to fuse the extremes into one.

Yet, Luo Feng vaguely saw such a path within the 'Blood-colored Scale' of the Star Tower. That piece of Blood-colored Scale made Luo Feng feel the endless vast horror of the Life Form. However, that terrifying Life Form's aspect of 'killing' was still weak.

Luo Feng felt that both were indispensable.

To play on the strongest point of the 'Blood-colored Scale' and then make up for its weaknesses. That would be his path.

"This path is difficult, and I'm just starting now," Luo Feng was still

excited, because he finally had a vague plan for how to 'break out of the Braided Cage.'

He was also clear that the vague plan would definitely meet with many obstacles in the process of advancing.

Step by step it is.

"Now, I need more Low Level Primordial Life Remains," Luo Feng thought to himself.

Low Level Primordial Life, their strength ranged from Early Stage of Divine Emperor to the Perfection, the stronger the Life Form, the more profound the Secret Patterns. The more than 300 pieces Luo Feng bought, costing an average of 300 Primordial Crystals each, were obviously one of the cheaper kind.

"Get ready, and then go hunting with Emperor Qing."

Luo Feng first took the Primordial Crystals to recuperate for some time, and then created some secret techniques suitable for his five Avatars based on the complete 'Great Dao of Life and Death'.

Once the complete Dao is comprehended, any move made at will is an Ultimate Realm Secret Technique, and he can even combine many moves to create forbidden moves, killing moves, whose powers can qualitatively change.

This is also why an 'Early Stage Divine Emperor Enlightened' is comparable to a 'Middle Stage Divine Emperor Primordial Bloodline Cultivator'.

Unknowingly, another three epochs passed.

"It's time to come out of seclusion." Luo Feng felt well-prepared and immediately got up and walked out of the Quiet Room.

...

Emperor Qing knew that Luo Feng was in seclusion and was very patient.

His first time coming to the Nine Rivers Sacred Realm, he too was purchasing various resources, to further his strength before going out for adventuring and hunting.

"Emperor Ming and Di Fu went out again?" Emperor Qing shook his head slightly, "They are diligent in going out."

Emperor Ming and Di Fu did not carry a single Primordial Crystal with them when they went out! Absolutely poor!

The two of them naturally were not afraid of being robbed. They wandered around Yulan City, looking for opportunities.

They even went to some merchants to look at the remains.

Although they viewed them through a separate space and could not see in great detail, they could still garner some gains.

"Di Fu's strength is too weak; he even struggles to find work in Yulan City. However, Emperor Ming, with his Primordial Bloodline, barely reached the Early Stage Divine Emperor strength and could find a job," Emperor Qing thought, "But he seems dissatisfied."

Regarding this, Emperor Qing couldn't be bothered to interfere too much; providing a free place to live was already a big help.

Suddenly—

Emperor Qing sensed Luo Feng leaving his space.

"Emperor Qing," Luo Feng also saw the distant Emperor Qing at a glance.

"Finished your seclusion?" Emperor Qing was surprised and smiled, "Why so soon? It's the first time coming to the Nine Rivers Sacred Realm, you still need to understand those resources properly."

"Almost there," Luo Feng smiled, "I'm getting ready to purchase suitable Weapon Secret Treasures, and then I can go out for hunting."

"Oh?" Emperor Qing showed joy, ready to go out for a hunt?

Chapter 298 - 7: Hunting Outside the City

Emperor Qing asked, "Brother Luo Feng, when we go hunting together, we need to cooperate with each other. Therefore, we should understand what each of us is good at. I walk the path of space, and I am most skilled at sword arrays, using them to trap and kill enemies."

"I specialize in close-combat fighting," Luo Feng said.

The Great Dao of Life and Death inherently involves the transformation between life and death, suited for combat.

The 'Great Dao of Life and Death' at the Ultimate Realm is enough to be on par with the early stage of a Divine Emperor on an ordinary path. Just with the Life and Death Dao alone, Luo Feng could compare to an early stage Divine Emperor The Enlightened. Not to mention he also has five powerful avatars.

Even The Enlightened at the early stage of Divine Emperor who focus on Body Refinement might have strong physical bodies, but it's hard for them to have such special talents like those five.

"Hahaha, excellent! I'll set up the formation, and you focus on close-quarter combat; we're a perfect pair," Emperor Qing said joyfully. Among cultivators, only a few are willing to engage in close combat, especially since the targets are Innate Primordial Life Forms.

Which of those Innate Primordial Life Forms isn't formidable in vitality and gifted in talents?

"However, I still lack a suitable weapon," Luo Feng mentioned.

"Let's go, I'll accompany you," Emperor Qing, all prepared, was ready to lend some Primordial Crystals to Luo Feng if needed.

A short time later.

Luo Feng and Emperor Qing arrived at a merchant's place in the Inner City of Yulan City. Luo Feng had visited the whole city upon his arrival at Yulan City and had a clear understanding of the Weapon Secret Treasures there.

"These gloves." Luo Feng set his eyes on a pair of black gloves.

"These gloves were made by Dao Lord Waning Moon in his early years, containing the mysteriousness of both life and destruction paths. The combination of life and death is terrifying," an attendant said with a smile, "Now, Dao Lord Waning Moon is one of the pinnacle existences in the Dark Sacred Realm, having pushed both the life and destruction paths to the Half-step Primordial level."

Luo Feng had heard of him before.

A very dreadful The Enlightened, both paths reaching the Half-step Primordial level. Much stronger than the Ancestors of the two kingdoms.

"What's the price?" asked Emperor Qing, eagerly.

"A hundred and fifty thousand Primordial Crystals," the attendant replied with a smile.

"Make it cheaper," Luo Feng bargained.

Except for a few items with fixed pricing, many treasures in the Nine Rivers Sacred Realm could be bargained for. The gloves were quite powerful, but the target audience was too small, appealing only to those like Luo Feng who practiced both life and destruction paths.

"I will go ask the Hall Master," seeing Luo Feng's intention to buy, the attendant immediately went to report. The Hall Master himself came to negotiate.

After some negotiations, the final deal was made for ninety-eight thousand Primordial Crystals.

Luo Feng happily received the set of gloves.

These gloves were personally crafted by Dao Lord Waning Moon for his disciple when his mastery in both life and destruction paths were at the 'late stage of Divine Emperor.' At that time, Dao Lord Waning Moon also held a high position in the Nine Rivers Sacred Realm.

One should know that reaching the late stage of Divine Emperor in a single path, one could hope to become an Elder in the Elder Hall of Yulan City.

Dao Lord Waning Moon was an Elder in the Elder Hall, but in terms of strength, he was almost at the level of the Hall Master.

"What a treasure." Receiving this pair of gloves and fusing them with a thought, experiencing the combined mysteries of life and death within, Luo Feng could not put them down.

"Treasures from the late stage of Divine Emperor are generally not priced too high. But if it's at the Perfection of Divine Emperor, even the cheapest would cost over a million Primordial Crystals," Emperor Qing said laughing on the side, "These gloves, you got them for a good deal."

Luo Feng nodded.

The last time he spent over a hundred and ninety thousand Primordial Crystals on resources, and this time another ninety-eight thousand on a Secret Treasure, leaving him with not much more.

...

Inside the Cave Mansion.

"Emperor Ming, are you really planning to go hunting?" Di Fu looked at Emperor Ming.

"It's been so long since I arrived at Yulan City, and I've gotten to know many Bloodline Cultivators who practice Primordial Bloodline," Emperor Ming nodded, "There are many, many who have reached the early stage of Divine Emperor thanks to the Primordial Bloodline in Yulan City."

"The real Hunting Teams wouldn't look up to us, so we have to form

our own team."

"The joint efforts of dozens of Bloodline Cultivators at the early stage of Divine Emperor still have the hope to kill the weakest Low-Level Primordial Life," Emperor Ming said.

"It could also lead to death," Di Fu remarked, looking at his companion.

Emperor Ming smiled lightly, "Don't worry."

He also had a secret. Although he didn't have the Clone Technique, thanks to the rewards he received in the area of Spiritual Will in the Infinite Space Treasure Vault, he exchanged treasures for Primogenitor Yan Feng! The items he requested from the Ancestor were for the sake of preserving life, and Primogenitor Yan Feng found two of the most top-notch Life-saving Treasures for him, each of which merged with the soul.

They could be activated when faced with a crisis of death.

Emperor Ming also exchanged for a Life-saving Treasure in the Infinite Space Treasure Vault himself.

He was very clear...

Without the Clone Technique, the importance of preserving life was his first priority. Other aspects could be accumulated slowly.

"There is no retreat on the path of Cultivation," Emperor Ming's determination was set, having been in Yulan City for nearly a century, he had observed for a long time. He was sure that the strong who could rise up were almost all those who grew up fighting Low-Level Primordial Life Forms.

"Emperor Ming, if you have decided to go hunting, make sure you choose your companions carefully," Di Fu reminded.

"Right," Emperor Ming was aware of the importance of selecting the right companions. Once outside the city, where rules no longer bind them, anything could happen. The reason he had waited until today to go out was that he was patiently searching for suitable

companions.

That was also why Emperor Qing was so thrilled when he first discovered the Galaxy Ruler.

A trustworthy companion with sufficient strength is extremely rare.

...

After purchasing the Secret Treasure gloves and familiarizing himself with them for over a hundred days, Luo Feng quietly set off with Emperor Qing, leaving Yulan City.

Outside Yulan City, a black Flying Boat disappeared in a flash, invisible to the naked eye.

On this black Flying Boat were Luo Feng and Emperor Qing. This Flying Boat was Emperor Qing's strongest one, with extremely powerful concealment abilities.

"With our strengths, our hunting targets are mainly Low-Level Primordial Life Forms at the early stage of Divine Emperor. Although we are not afraid of those at the middle stage of Divine Emperor, it would be difficult to kill them," Emperor Qing stated.

"It's hard to accurately judge the strength of Low-Level Primordial Life Forms just by appearances," Luo Feng expressed his concerns.

"That's when we have to rely on experience," Emperor Qing laughed, "We will work together to judge."

Luo Feng nodded.

"Now that we've left the city, we must carefully observe our surroundings," Emperor Qing reminded. "We need to be cautious of not only the low-level Primordial Life forms, but also other Cultivators."

"I understand." Luo Feng's brow opened the Biomimetic Eye of Destruction, bringing the surrounding billions of kilometers into his observational range, including the traces of space-time left behind in the past.

Breath, space-time traces, fluctuation traces, remnants of will...

Luo Feng meticulously observed in all directions.

Emperor Qing also utilized a Secret Treasure, probing the Void in all directions.

"We're now approaching one of the Nine Rivers, the 'Cold Ice River.' It's teeming with innumerable low-level Primordial Life forms, and the closer we get, the more likely we are to encounter them," Emperor Qing explained.

"Most of the low-level Primordial Life are at the early stages of Divine Emperor, accounting for over ninety percent of the total. The stronger ones are much rarer. So, the chances of encountering extremely powerful low-level Primordial Life are still very low," Emperor Qing said, somewhat relaxed, given his considerable hunting experience.

In the past, Emperor Qing had to be wary of his companions.

But this time, with Luo Feng as his partner, he could relax a lot more.

Both parties have avatars in the Land of Origin, and without an immensely tempting lure, betrayal between them is virtually impossible.

"Hm?"

Laughing and talking along the way, Luo Feng suddenly fell silent, his gaze stretching into the distance.

His brow's Biomimetic Eye of Destruction had caught sight of a massive creature. It was a huge, winged creature stealthily hiding in the Void, with a pair of sharp claws and wings larger than its body. Its head was triangular with three faces, coldly observing its surroundings.

The scales on its wings were a dead gray, exuding a sense of death just by looking at it.

"A Three-faced Grey Winged Beast," Luo Feng stated seriously.

"Judging by its size, breath, and fluctuations, it should still be at the early levels of Divine Emperor."

As he spoke, Luo Feng waved his hand, conjuring a phantom map and marking the position of that low-level Primordial creature.

"Oh?" Emperor Qing, driving a black Flying Boat, cautiously approached until he too finally spotted the low-level Primordial creature.

"I also think it's at the early levels of Divine Emperor," Emperor Qing judged based on his experience.

"Brother Emperor Qing, let me take the lead and try," Luo Feng declared, filled with fighting spirit. "I haven't yet crossed hands with a low-level Primordial Life."

Emperor Qing nodded and smiled. "Alright, if you can't handle it, then I'll step in."

He could also use this fight to gauge Luo Feng's strength.

Suddenly, Luo Feng donned a white robe - an item transformed from his Heavenly Light Avatar! Among the five Avatars, the Heavenly Light Avatar was the most tenacious, using it as armor was more suitable than purchasing a piece of Secret Treasure Armor.

Secret Treasure Armors can recover after minor damage. However, once severely damaged and the Secret Patterns are destroyed, restoration becomes difficult.

But a robe formed from the Heavenly Light Avatar can swiftly recover even if it is gravely damaged, as energy circulates.

"Let's go!"

With a thought, Luo Feng instantly entered the future timeline.

There are quite a few Cultivators who can enter the past timeline. It's much rarer to be able to enter the future timeline, an ability of the Time Avatar.

"Brother Luo Feng can walk along other timelines?" Emperor Qing inwardly exclaimed as he watched the scene.

...

Hidden in the Void, the Three-faced Grey Winged Beast with its three cold faces observed in all directions, its slender tail moving slowly like a thread, patiently waiting.

It knew that often there would be Cultivators approaching the direction of the 'Cold Ice River,' providing it with opportunities to launch surprise attacks.

"Devouring Cultivators." It yearned for that.

Devouring more would earn it rewards from heaven and earth, making it even stronger.

Perhaps one day, it could even leave this world.

"Boom—"

Suddenly, a colossal projection of a world descended, suppressing the Three-faced Grey Winged Beast beneath it.

Cultivators' insights enhance their Spiritual Will. The likes of Emperor Qing and the Lord of Ten Thousand Realms only had their Spiritual Will evolve to the Divine Emperor Stage after reaching the Ultimate Realm.

Luo Feng's Life, Destruction, and Life and Death... all three Great Daos reached the Ultimate Realm one after another, greatly augmenting his Spiritual Will as well.

Especially the Great Dao of Life and Death brought the greatest help! Now, with Luo Feng's World Avatar reaching a full three hundred times the Energy Reserve of the Perfect Divine Body, he could easily manage his Spiritual Will.

Naturally, the power of the World Projection was immense!

"Heaven and Earth Unite!"

At this moment, the Heaven and Earth Avatar and the vast surrounding world became one, as if the heavens and earth had turned into a domain under Luo Feng's control.

Controlling heaven and earth! World Projection! All of it suppressed and bound the Three-faced Grey Winged Beast.

"There's a Cultivator." The Three-faced Grey Winged Beast was shocked and angry, its wings vibrated to break free from the bonds, but the binding force was too strong, it felt it could only exert sixty to seventy percent of its strength, "This is bad."

"Forbidden Art—Heavenly Extinguishing Curse Technique!"

"Lie Yuan Technique!"

At that moment, Luo Feng's Causality Avatar used one of the forbidden arts created after fully understanding the Great Dao of Life and Death – the 'Heavenly Extinguishing Curse Technique.' This move had significant energy consumption and was immensely powerful.

As the Causality Curse Technique descended, Luo Feng's World Avatar also executed the Lie Yuan Technique.

The Three-faced Grey Winged Beast 'saw' an overwhelming star rolling towards it, crushing its will!

"Rumbling—"

Low-level Primordial Life as beings that have leaped out of the Braided Cage, their souls or their Physical Bodies, are terrifyingly tenacious.

Suffering simultaneously from the attacks of 'Heavenly Extinguishing Curse Technique' and 'Lie Yuan Technique,' the Three-faced Grey Winged Beast felt somewhat dazed, its consciousness significantly dulled.

At this moment—

"Slash."

Luo Feng, dressed in a white robe and towering in stature about one-third the size of the Three-faced Grey Winged Beast, suddenly appeared in front of it.

The moment he appeared, Luo Feng's giant hands, wearing Secret Treasure Gloves, acted like sharp claws, embodying the profound rotation of Life and Death, and forcefully pierced through the chest of the Three-faced Grey Winged Beast!

Chapter 299 - 8 First Kill

Each of Luo Feng's fingers was like a sharp blade, with the aura of Life and Death flowing around, incomparably sharp. After piercing through the chest scale armor of the Three-faced Grey Winged Beast, Luo Feng suddenly slashed downward, enlarging the wound swiftly as purple blood sprayed out!

"This scale armor is not ordinarily tough." Luo Feng felt great resistance while cutting with his Secret Treasure Gloves, secretly feeling relieved that he had used the Forbidden Spell and Lie Yuan Technique, causing the Three-faced Grey Winged Beast to have no means of resistance, taking his full-force hit and resulting in such a battle outcome.

"Hm?" Having sustained such heavy injuries, the Three-faced Grey Winged Beast was fully awake now. Ignoring the massive wound on its chest, the face on its front suddenly opened its mouth, casting a gray light beam enveloping Luo Feng.

"Go away!"

Luo Feng's body shrank, darting like a ray of light into the massive wound in the chest and belly of the Three-faced Grey Winged Beast, entering its body, while the gray light beam just barely grazed past Luo Feng's back.

This graze caused part of the robe and skin on his back to vanish, but in a blink of an eye, it had already recovered.

"That gray light beam is quite powerful!" The moment he entered the body of the Three-faced Grey Winged Beast, Luo Feng felt the surrounding flesh squeezing in heavily. The purple blood also emitted a gray luster, with a strong corrosive effect, beginning to corrode the white robe covering Luo Feng's body.

This was the Heavenly Light Avatar, and the white robe also began to show numerous injuries but rapidly recovered again.

"Where's the Life Core?" Luo Feng's claws tore through more flesh and bone, burrowing deeper into the Three-faced Grey Winged Beast!

"Ow!" The Three-faced Grey Winged Beast felt the cultivator moving and wreaking havoc inside its body, in considerable pain.

...

From a distance inside the black Flying Boat, Emperor Qing closely observed the battle.

"Brother Luo Feng's strength?" Emperor Qing was somewhat amazed. Everyone knew that even the Physical Body of a Low Level Primordial Life at the early stages of Divine Emperor was very strong. But Luo Feng was fighting head-on and even gaining the upper hand!

"In a single encounter, he tore open the chest and belly of the Three-faced Grey Winged Beast, even burrowing inside. Truly ferocious!" Emperor Qing looked on with joy.

Those who were good at close combat, the more ferocious, the better.

"However, Low Level Primordial Life is not so easy to kill." With his rich experience, Emperor Qing knew the troublesome nature of the Three-faced Grey Winged Beast.

The Hunting Team of Yulan City generally required the strength of early-stage Divine Emperor Enlightened Walkers to join, and a team would have three to five members cooperating! One-on-one, to kill a Low Level Primordial Life? Extremely difficult!

Emperor Qing dared to venture out with Luo Feng because he was strong enough himself, having one foot already stepping into the Middle Stage of Divine Emperor!

...

As Luo Feng resisted the corrosion of the blood while searching for the Life Core inside the Three-faced Grey Winged Beast, suddenly—

"Buzz~~~" The Three-faced Grey Winged Beast, with a cold gaze, silently transformed into a vast expanse of gray mist.

From a flesh form to a gaseous form.

In terms of defense and explosive power, it became weaker. But its ability to preserve life, escape, and stealth attack greatly increased.

At this moment, Luo Feng was surrounded by endless gray mist, which was even more corrosive than the blood. The white robe on Luo Feng's body began to tear, yet its Life Force was incredibly strong, continuously healing.

"Puff!" "Puff!" "Puff!"

Within the mist, sharp claws struck, hitting Luo Feng's chest, back, and legs in a series of attacks, even tearing through the white robe! But for the World Avatar, having three hundred times its Energy Reserve and tough flesh, these were mere superficial wounds to Luo Feng. Minor scratches healed in the blink of an eye.

"This cultivator, even more troublesome in the flesh than me?" The vast gray mist was shocked. Its claws, after tearing through the white robe and thick skin, at most barely wounded a bit of flesh. With the healing abilities of the World Avatar, he recovered in a blink.

Low Level Primordial Life were said to have strong Physical Bodies and extremely strong Life Force.

But at this moment, it felt... that the cultivator in front of it, in terms of the strength of Physical Body and Life Force, was even stronger than itself! Its moves were more mysterious! And he wielded powerful Secret Treasures!

How to fight?

"Escape!" Not wanting to entangle any further, the vast gray mist flew away towards the distance.

"Want to escape? Witness my Forbidden Spell—Palm World!"

Luo Feng thought.

The Heaven and Earth Avatar, merging with the surrounding vast World Domain, now cast the Forbidden Spell, created by Luo Feng based on the Heaven and Earth Avatar's innate talent and rooted in the Great Dao of Life and Death, mimicking the Innate Secret Treasure 'Palm World'.

This Forbidden Spell, composed of eight Ultimate Realm Secret Techniques of the Life and Death Dao, was most suitable for the Heaven and Earth Avatar.

"Boom rumble~~~"

A vastly enormous illusory palm appeared, within which there was a world, and within that world was the gray mist. Suppressed by the Palm World, the escaping speed of the endless gray mist became very slow.

"Eh?" The endless gray mist sensed something bad and immediately split into nine parts, with nine strands of mist frantically escaping in all directions.

"Forbidden Spell—Time Walker!"

The Time Avatar, striking from the past, present, and future simultaneously, instantly obliterated one strand of mist.

Although the gray mist, when split into nine parts, was more conducive to escape, the combat strength of each individual mist in a direct confrontation was greatly reduced, no match for the Life and Death Dao Forbidden Spell cast by Luo Feng's Time Avatar.

Puff! Puff! Puff!...

As if they were being broken one by one, yet as if attacked all at once.

Nine grey mists, with seven having been assaulted by the Time Avatar, and as the seventh mist dissipated, a spinning meatball emerged.

"Life Core!" Luo Feng's eyes lit up, he had finally found it!

This Life Core was hidden within the seventh mist and was indeed the true core of the Low Level Primordial Life.

The forbidden power of Luo Feng's Time Avatar sufficed to affect this Life Core, but not to break it open.

"Vanish!"

With the help of the Palm World, the towering World Avatar took a step forward and caught up with the meatball Life Core! Luo Feng's right hand moved like lightning, with each of his five fingers acting like blades.

With the Secret Treasure Gloves, no need to use any Forbidden Spells, simply the intrinsic secrets within the gloves exceeded the power of Forbidden Spells. That's the advantage of treasures, greatly enhancing a cultivator's strength.

"No——" The fleeing meatball emitted a shrill cry.

"Tear." Luo Feng's five blade-like fingers flashed past, grazing the meatball and leaving three gash wounds.

At that moment, the grey mist that had been escaping stopped moving, naturally merging back together and transformed into the massive, scar-covered corpse of a Three-faced Grey Winged Beast, crashing to the ground and causing a slight tremor.

Luo Feng let out a breath and smiled.

"At last, I've killed this Low Level Primordial Life." Luo Feng landed and gazed at the colossal Three-faced Grey Winged Beast's corpse, feeling it had not been easy; he had truly given it his all.

He had launched with the Spell and Lie Yuan Technique, otherwise the fight would have been much more troublesome.

The complete Life and Death Dao, the Forbidden Spells specially created according to the Causality Avatar, Time Avatar, and Heaven and Earth Avatar had all been used! And the power of the Secret Treasure Gloves helped eliminate this weakest of Low Level Primordial Lives.

"Early Stage Divine Emperor of Low Level Primordial Life, the weakest kind. It took all I had." Luo Feng thought to himself.

At this time, the black Flying Boat appeared nearby, and Emperor Qing walked out from the side, looking incredulously at Luo Feng.

"Brother Luo Feng, you just faced and completely suppressed this Low Level Primordial Life head-on." Emperor Qing exclaimed in amazement.

If the beginning could be considered a stealth attack.

But as the battle went on, the Three-faced Grey Winged Beast turned into mist and attacked Luo Feng's Physical Body, which the World Avatar of Luo Feng easily withstood, showing a clearer advantage in physical strength.

"Moreover, you killed it one-on-one." Emperor Qing couldn't help but say, "Among the Early Stage Divine Emperor Enlightened, there are very few who can kill a Low Level Primordial Life one-on-one."

"Your strength, among Early Stage Divine Emperor Enlightened, can be considered top-notch." Emperor Qing sighed.

He had originally thought Luo Feng's strength was that of a normal Early Stage Divine Emperor Enlightened, especially without treasures like the nine-layered tower, possibly showing weaker strength.

But with the strength Luo Feng displayed this time, Emperor Qing was very pleased, much stronger than he had anticipated.

Together, the two of them could deal with more dangerous situations, and the results of the hunt could be better.

"Low Level Primordial Lives have different innate abilities, and I just happen to counter the Three-faced Grey Winged Beast. If I meet other Low Level Primordial Lives, I might just have to stare blankly." Luo Feng said with a smile.

"That's why we need to team up." Emperor Qing laughed, "Alright, let's quickly collect this prey, it's your first Low Level Primordial Life."

Luo Feng nodded, looking at the massive corpse in front of him, his first-ever kill of a Low Level Primordial Life!

"Whew." Luo Feng waved his hand and collected it.

"This Low Level Primordial Life was hunted by you alone, so it belongs to you." Emperor Qing said.

Luo Feng shook his head: "There's no need for that! Since we teamed up together, we follow what was previously agreed upon, splitting the spoils half and half."

Emperor Qing had said they would split them half and half, partly to aid Luo Feng.

After all, having been in Yulan City for a long time, Emperor Qing was much wealthier than Luo Feng and wouldn't miss the little bit.

But at this moment, Emperor Qing also realized... splitting half and half! It could no longer be considered an advantage for Luo Feng. Although with the Sword Array, he was above Luo Feng in terms of burst strength.

But a cultivator with such a powerful physical body, capable of close combat with Low Level Primordial Life, was most welcomed by the various Hunting Teams in Yulan City!

Especially since the powerhouses from myriads of worlds did not have the Clone Technique, and those willing to fight in close combat were even rarer.

"Hahaha, agreed." Emperor Qing did not argue, he was well aware that forming a team, a single Low Level Primordial Life was nothing.

"By the way, Brother Emperor Qing, how much is this Low Level Primordial Life worth?" Luo Feng enquired.

"This is a 'Early Stage Divine Emperor level' Low Level Primordial Life, based on my experience, it's worth about 800,000 Primordial Crystals." Emperor Qing said.

Luo Feng nodded.

If it were a Middle Stage Divine Emperor level Low Level Primordial Life, the price would be much higher, but such a level Primordial Life, even if Luo Feng and Emperor Qing joined hands, might manage to suppress it a bit. But to kill it? There's a very slim possibility.

"Let's continue hunting." Emperor Qing was now boiling with a fighting spirit and looked forward to the reward of their first hunt together.

Chapter 300 - 9 Return (Happy New Year)

A vast expanse of heaven and earth had already twisted, evolving into a new world within.

Within this new world, where birds chirped and flowers fragranced, there lurked a massive creature forged like ice, stunningly captivating under the illumination of light. This colossal ice creature exhaled endless mist, filling half of the Three Thousand Worlds, yet not a single cultivator came into contact with it.

It was the Low Level Primordial Life, Frost Nightmare Messenger.

"Where are the cultivators? Where?" The Frost Nightmare Messenger was quite agitated. It excelled in ice and a few soul-related methods, but this time, the cultivators had kept their distance, shrouding it with a terrifying formation.

"Three Thousand Worlds, deadly mechanisms of heaven and earth!"

A cold voice echoed.

Within this world, billions of sword lights appeared instantly. The countless sword lights interlocked like gears, making the entire formation cooperate with profound mystery and its power surged dramatically, to the point where the Low Level Primordial Life, Frost Nightmare Messenger, fell into despair.

"No—" The Frost Nightmare Messenger watched in despair as a flood of sword lights engulfed it, eventually tearing open its body and cleaving through its core.

Before absolute power, it had no way out.

Its shattered corpse fell to the ground.

It was only then that Emperor Qing appeared, waving his hand to collect the massive corpse.

Although the sword lights had sliced up the body, the actual loss was minuscule, and it could still fetch a high price.

"Impressive," Luo Feng also appeared nearby, praising, "Brother Emperor Qing, you are much more crisp and decisive than me! And this Three Thousand Kill Array... is also much more profound than when we sparred before."

Emperor Qing had also deployed the Three Thousand Kill Array when they sparred in the Land of Origin, but back then it was not as profound.

"I brought a Secret Treasure Array Map, which I purchased for five million Primordial Crystals; it is a Half Primordial Level formation diagram," Emperor Qing smiled. "With this array map, the Three Thousand Kill Array can be even stronger. This Frost Nightmare Messenger was just something I happen to restrain."

Luo Feng nodded.

After all, Emperor Qing was an Enlightened who had almost reached the Middle Stage of Divine Emperor, with deeper realm accumulation and a fitting formation diagram, his explosive power was indeed above his own.

...

"Boom—"

Massive thunder twinkled wildly, roaming all over.

Luo Feng's World Avatar struggled to entangle, but this time the terrifying, massive thunder did not engage him in combat, instead it focused on escaping. It tore through the edge of the Three Thousand Worlds and vanished in a flash.

"It was my mistake," appeared Emperor Qing nearby, shaking his

head. "Brother Luo Feng, even with your will secret technique, you forced this 'Thunder Weasel' to reveal its True Body. I couldn't kill it in one strike, and as soon as it regained consciousness, it fled immediately."

"We've done our best," Luo Feng had also gained insight.

Forbidden spells and the Lie Yuan Technique were simultaneously deployed, managing to blast the thunder, which was hidden in the clouds, revealing its original form as a seemingly small beast-like Thunder Weasel. But the Thunder Weasel had very strong survival abilities. Even if slightly dazed and confused, it was able to resist a full-force attack from Emperor Qing's formation, shedding ninety percent of its power and forcibly escaping the Three Thousand Worlds Formation.

"It's a pity. Although this Thunder Weasel is also a 'Early Stage of Divine Emperor' Low Level Primordial Life, the profundity of thunder it contains is quite extraordinary, valued at around three million Primordial Crystals. But it's too difficult to kill," Emperor Qing was also rather helpless.

Luo Feng nodded.

Low Level Primordial Life, after all, are born free from the Braided Cage, possessing many special talents.

Some with extremely special talents could even sneak into a city like Yulan City, which is under the protection of many Elders and Hall Masters. Therefore, occasionally in Yulan City, cultivators are ambushed and killed by Low Level Primordial Life.

But such covert attacks by Low Level Primordial Life are not too reckless, because attacks within the city may at any moment provoke a group of Elders to strike back.

...

Luo Feng and Emperor Qing hunted together, and their cooperation got better and better.

Luo Feng's Causality Avatar deployed the 'Heavenly Extinguishing

Curse Technique' in combination with the 'Lie Yuan Technique' to great effect, generally able to daze Divine Emperor early-stage Low Level Primordial Lives, giving them a very short window to launch a killing move.

Luo Feng engaged in close combat entanglement, with Emperor Qing's Three Thousand Kill Array encircling.

The Three Thousand Kill Array... was more than ten times stronger than Luo Feng's Heaven and Earth Avatar combined with World Projection.

One after another, 'Divine Emperor early-stage' Low Level Primordial Lives were hunted down by the two of them.

"Sigh."

The black Flying Boat was flying stealthily, Luo Feng's Biomimetic Eye of Destruction opened between his eyebrows, carefully observing the surroundings. Emperor Qing was also employing his Detection Technique, each with their own strengths in different secret detection methods.

Not far from the black Flying Boat was a colossal creature integrated into the Void.

This behemoth, as if part of the Void itself, had tens of thousands of long limbs. With the tens of thousands of limbs working like a loom, the Void was being woven, turning the vast expanse into a 'web' it had woven.

The black Flying Boat of Luo Feng and company had already flown into the web.

At this moment, Luo Feng and Emperor Qing were still completely unaware and were carefully scouting the surroundings.

"Buzz."

The Void weaves, layer upon layer of netting enveloped over.

"Something's not right," Emperor Qing suddenly frowned.

"What's wrong?" Luo Feng was still completely unaware, as his spatial perception was far inferior to Emperor Qing's.

"Let's leave, quickly."

Although Emperor Qing could not be certain, he vaguely sensed a great terror in the Void!

Whoosh!

He immediately steered the black Flying Boat, reaching its limit in burst speed. As the black Flying Boat abruptly darted forward—

Layers upon layers of Void webbing throughout the world finally fully emerged, encompassing the black Flying Boat.

"It's a Void Weaver!" Emperor Qing and Luo Feng both recognized it and saw the emerging Void Weaver, its massive size, and terrible aura, which allowed them to estimate its probable strength.

Chapter 301 9 Return (Happy New Year)_2

"Late-stage Divine Emperor Void Weaver!"

"Run!"

Luo Feng and his companion didn't hesitate for a moment; faced with such a Void Weaver, even mid-stage Divine Emperors who are The Enlightened would flee without hesitation, and the two of them harbored no thoughts of fighting.

Emperor Qing stowed away the black Flying Boat, as it seemed useless at this moment. Luo Feng's Time Avatar then took Emperor Qing into the 'future timeline.'

Whoosh.

In the future timeline, the Time Avatar carried Emperor Qing as they fled for their lives.

Luo Feng and Emperor Qing had long discussed various strategies for escape. Since Luo Feng was carrying less valuable treasures, and his robust Perfect Divine Body excelled in close combat, it was natural for Luo Feng to cover the rear and ensure Emperor Qing's safety.

After all, the combined value of the Secret Treasure Array Map, black Flying Boat, and life-saving items that Emperor Qing carried was over ten million Primordial Crystals. Moreover, their Spoils of War this time, which included six corpses of Low Level Primordial Life, were also temporarily in Emperor Qing's possession.

"Hmm?"

While escaping in the future timeline, the Time Avatar and Emperor

Qing noticed streams of Void silk threads infiltrating the future timeline, enveloping them.

"Does this Void Weaver not only control the Void but also have such a profound impact on time?"

Luo Feng was helpless. His Time Avatar's talent as an Ultimate Realm Power Primordial Bloodline creature allowed him to traverse past, present, and future all at once. Those who reached the Second Realm of Godly King on the path of time would possess similar methods.

For those unfamiliar with the Dao of time, Luo Feng's ability to escape was formidable.

However, even Low Level Primordial Life beings eventually break out of the Braided Cage. As their strength increases, they naturally wield influence over various aspects such as time and causality.

"Heavenly Extinguishing Curse Technique! Lie Yuan Technique!"

The Heavenly Extinguishing Curse Technique, a forbidden move from the Life and Death Dao, executed with the Causality Avatar, also affected the Void Weaver.

Before mastering the complete Great Dao, Luo Feng's Spiritual Will had already reached the level of Divine Emperor and even surpassed the limits of Land of Origin during his extensive Cultivation in the Dream Domain.

Later, he successively mastered the three Daos of Life, Destruction, and Life and Death! His Spiritual Will rose time after time, unknowingly reaching the late stages of Divine Emperor. This was the harvest brought by enlightenment.

Of course, for Divine Emperors, as their realms accumulate depth, their Spiritual Will gradually reaches a limit. To break through again? The Spiritual Will must break out of the Braided Cage, attaining a level comparable to High Level Primordial Life.

This breakthrough of the spirit was more difficult than any other previous bottleneck.

Thus, even beyond the Source World, among the countless worlds where the strong converge, those whose Spiritual Will reaches the level of High Level Primordial Life are still extremely rare.

"Boom."

The Heavenly Extinguishing Curse Technique accounted for 30 percent of the power, while the Lie Yuan Technique accounted for the remaining 70 percent.

It managed to slightly delay the pursuit of the Void Weaver.

"Whoosh." This delay allowed Luo Feng's Time Avatar, carrying Emperor Qing, to quickly flee in the future timeline, getting out of range of the Void Weaver's pursuit.

After all, the Void Weaver's influence over time wasn't too strong.

"Next, I must find a way to escape."

Emperor Qing escaped.

Luo Feng, watching the towering and massive Void Weaver, let out a roar. His World Avatar split into three, each World Avatar with a hundredfold energy reserve and sufficient strength, headed in different directions to attack!

"World Projection! Heaven and Earth Unite!"

"Heaven and Earth Escape."

"Kill."

The three imposing World Avatars charged fearlessly towards the Void Weaver.

...

Inside the black Flying Boat.

"How did it go?" Emperor Qing looked at Luo Feng.

"The Void Weaver was too formidable," Luo Feng gently shook his

head, "Only the Heaven and Earth Avatar managed to escape amidst the chaos."

It was only due to the frantic combat by the Causality Avatar, World Avatar, and Heavenly Light Avatar that the Heaven and Earth Avatar had a chance to escape.

The Heaven and Earth Avatar had a broad enough cover range that once it used the Heaven and Earth Escape, it could flee extremely quickly. The Heaven and Earth Avatar managed to escape with Luo Feng's only pair of Secret Treasure Gloves.

"We've lost a lot of Energy Reserves," Luo Feng felt a pang of distress. Such an Energy Reserve would take centuries to accumulate in the Land of Origin! In Yulan City, although the energy here was more potent, without the aid of a Small Universe, the current rate of energy absorption was even slower.

Perhaps with a higher realm, the rate of absorption could increase.

"You covered our retreat, allowing me to escape," Emperor Qing said with a smile, "And I didn't even have to use my life-saving treasures."

In the Nine Rivers Sacred Realm, the powerful beings generally greatly treasure their life-saving items.

Especially those powerful beings from billions of worlds, those without avatars spare no expense on such items. These life-saving items could even offer a chance of escape in the presence of a Half Primordial Level existence.

Of course, life-saving items are costly, with the cheapest being several hundred thousand Primordial Crystals, and the sky's the limit for the more expensive ones. Some Innate Secret Treasures and life-saving treasures exchanged from the Infinite Space Treasure Vault have extremely high values.

"Your loss of so many avatars and such a vast amount of Energy Reserves shall be counted as 500,000 Primordial Crystals," said Emperor Qing.

"For our gains, the six corpses of the Primordial Life we've obtained

are valued at about 6.5 million Primordial Crystals. This time, it's estimated that your share is 3.5 million, and mine is 3 million," Emperor Qing said.

"Okay," Luo Feng nodded.

They had set some rules before forming a team.

The Spoils of War were to be divided equally.

In case of a crisis, to save the Spoils of War and escape, the one who suffered the greatest loss would be compensated first with the shared Spoils of War.

Losing hundreds of times the Perfect Divine Body Energy Reserve was a small matter to Luo Feng; it could be recovered after a few centuries of Cultivation. If Emperor Qing used a life-saving treasure, that would cost two million Primordial Crystals.

Of course, Emperor Qing only had that one life-saving treasure. He was ultimately a being from the Source World, with cloning techniques, and thus he was unwilling to spend too much on life-saving items.

"Our gains are good. It's time to head back," Emperor Qing said, "The more creatures we hunt, the more likely accidents will happen."

Although the majority were lower level Primordial Life at the Early Stage of Divine Emperor, the more they hunted, the higher the chance of encountering stronger ones. This time, it was just a Late Stage Divine Emperor Void Weaver, but what if they encountered a Perfect Level Divine Emperor?

With Emperor Qing's life-saving treasure valued at only two million Primordial Crystals, whether he could escape was another matter.

"It's indeed time to head back," Luo Feng nodded.

His own avatars were greatly depleted, and his strength had significantly decreased; it was time to return to Yulan City. Of course, he still had considerable Energy Reserves for his avatars within Yulan City.

"With over three million Primordial Crystals, this time I'll have to carefully study the exchange options in the Infinite Space Treasure Vault," Luo Feng thought to himself. He controlled the Great Dao of Life and Death, and so he naturally could receive higher rewards in Infinite Space.

"Hu."

The black Flying Boat cautiously made its way back.

The closer they got to Yulan City on their return, the more likely it was to encounter Cultivators looking to plunder! Emperor Qing was very experienced and steered the black Flying Boat in a big detour. Coupled with Luo Feng's scanning with the Biomimetic Eye of Destruction, they finally managed to narrowly avoid plundering and successfully returned to Yulan City.

"We're back."

When the black Flying Boat flew through the city gates, Luo Feng and Emperor Qing finally breathed a sigh of relief.

Tomato wishes everyone a Happy New Year of the Snake, and in the new year, may everyone be happy and achieve what they wish for!

During the New Year's holiday, Tomato will also be visiting relatives and taking a break.

From tomorrow's New Year's Eve to the fifth day of the first lunar month, Tomato is on break. Updates will resume on the sixth day of the first lunar month!

Chapter 302 - 10 Procurement

Although Yulan City often has theft and occasional plundering, it is generally very stable and safe.

"We'll first go sell the corpses of the Low Level Primordial Life," Emperor Qing said with experience, maneuvering the black Flying Boat towards the Inner City, "Large-scale trades of Low Level Primordial Life corpses almost always take place at the Primordial Hall."

"The first floor of the Primordial Hall is for trades of Low Level Primordial Life corpses. On the second floor, you can exchange combat merits," Emperor Qing explained.

"Combat merits?" Luo Feng looked at Emperor Qing.

"Killing Low Level Primordial Lives earns combat merits," Emperor Qing said with a smile, "Accumulate enough combat merits, and you can exchange them for some unimaginable treasures. Some of the treasures within the Infinite Space Treasure Vault can be obtained through combat merits."

Luo Feng understood and asked continuously, "How many combat merits can we get for our Spoils of War this time?"

"A Low Level Primordial Life from the Early Stage of Divine Emperor is the weakest level. Six corpses equal six combat merits," Emperor Qing shook his head, "Our rate of accumulating combat merits is too slow, so we usually sell the corpses directly, including the combat merits."

"After all, it's impossible to verify who killed them from the corpses. As long as you take a freshly killed corpse to the second floor for verification, you can lock the combat merits under your name," Emperor Qing said with a smile, "Generally, only the Hall Masters

and the Elders are willing to collect combat merits on a large scale."

Luo Feng nodded.

During their conversation, a magnificent and colossal palace had already appeared in the distance. The entire palace was a deep azure color, profound in hue, with an endless aura of malevolence subtly concealed within. This palace has collected an unknown number of Low Level Primordial Life corpses over the endlessly long years.

Of course, too many Cultivators have died during hunting as well.

Hunting itself is a matter with both risks and rewards. If successful, you naturally make a great profit. But failure could mean death.

"We've arrived at the Primordial Hall," Emperor Qing said, looking at the palace in front.

Quickly, after putting away the black Flying Boat, Emperor Qing took Luo Feng flying to the front entrance of the first floor of the Primordial Hall.

The first floor of the Primordial Hall was quite expansive, divided into thirteen independent areas, each of which could carry out trades of Low Level Primordial Life corpses.

"The thirteen buyers of Low Level Primordial Life corpses all have different prices," Emperor Qing said with a smile, "You should ask around a few places and see who offers a higher price to decide who to sell to."

"Emperor Qing, my brother," a jovial rotund elder greeted warmly, "Went hunting again? Seems like you've got quite the haul."

"Just risking my life," Emperor Qing said as he walked over.

"Those of you from the Source World have Avatars! You're far stronger than us," the rotund elder laughed. Although he was a bit stronger and could purchase life-saving items, he rarely went hunting anymore.

In the billions of worlds, the frequency of strong beings going

hunting is generally much lower than the Cultivators from the Source World.

"This time we hunted six Low Level Primordial Lives. Take a look, what price can you offer for each?" Emperor Qing sat down with Luo Feng, and the attendants had already prepared delicious food and wine.

"And who is this?" the rotund elder looked at Luo Feng.

"This is my brother Luo Feng," Emperor Qing said.

"I'm Bu You, and I'm in charge of Shop No. 3 on the first floor of the Primordial Hall," the rotund elder said enthusiastically, "I hope Luo Feng will take care of our business in the future."

Although he was in charge of this shop, it was not his own. After all, there were only thirteen shops on the first floor of the Primordial Hall, and even weaker Elders did not qualify to get involved.

Luo Feng nodded, "Sure."

The two sides negotiated the price.

"I'll go ask a few other places," Emperor Qing said after finishing the negotiation.

After asking the three shops he was most familiar with, Emperor Qing eventually sold the Low Level Primordial Life corpses to these three shops.

The corpses themselves were sold for a total of 6.08 million Primordial Crystals, and the six combat merits were sold for 600,000 Primordial Crystals. Totalling 6.68 million Primordial Crystals.

"There are not many coming to sell Low Level Primordial Life corpses," Luo Feng observed the trade and noticed there were no other Cultivators coming to sell Spoils of War during this time.

"In all of Yulan City, there are at most hundreds of thousands of Hunting Teams, and on average they hunt once every several hundred eras or even longer. How much trade volume can the

Primordial Hall accumulate in one era?" Emperor Qing said with a laugh beside him.

Luo Feng did some quick calculations and nodded slightly.

"Let's divide the Spoils of War."

"This time, you risked a lot in the rear. Let's take out 500,000 Primordial Crystals from the total Spoils of War for you first. The rest we divide equally," Emperor Qing allocated on the spot within the Primordial Hall, "You get 3.59 million Primordial Crystals, and I get 3.09 million Primordial Crystals."

"I owe you 100,000 Primordial Crystals, and today I can finally pay it off," Luo Feng said.

Emperor Qing nodded and with a flip of his hand, produced an object —it was a dazzling polyhedron, emitting a variety of strange colors: "Brother Luo Feng, I'll sell you this treasure, the 'Illusion Realm Maze,' for 90,000 Primordial Crystals, how about it?"

"The Illusion Realm Maze?" Luo Feng recognized it immediately.

It was a storage Secret Treasure with a uniform selling price of 100,000 Primordial Crystals in Yulan City, carried to store treasures, very few in the entire Nine Rivers Sacred Realm could steal from it, almost every Divine Emperor owned one.

Luo Feng, previously poor, was reluctant to buy one.

But now with his first hunting yielding over three million Primordial Crystals, if he were robbed, it would be too late even to cry.

"Buy it, buy it, of course, I'll buy it," Luo Feng said with a laugh, "Emperor Qing, where did you get the surplus 'Illusion Realm Maze'?"

"When you're out, it's easy to encounter robbery, naturally, this also means you might counter-rob and obtain a few 'Illusion Realm Mazes'," Emperor Qing said smilingly, "Those shops sell it uniformly at 100,000 Primordial Crystals. But if I sell it to them, they are only willing to pay 80,000 Primordial Crystals."

Luo Feng understood.

"I knew you would definitely want to purchase after the hunting expedition, so I prepared it in advance for you," said Emperor Qing. "Alright, let's part ways here. I'm also planning to go out for a substantial purchase."

"Okay." Luo Feng easily refined the Illusion Realm Maze, an extremely high-level spatial Secret Treasure. It was possibly at the Half Primordial Level in terms of craftsmanship, but due to its simple materials and sole function, the price was kept impressively low.

"After purchasing the Illusion Realm Maze, I still have 3.4 million Primordial Crystals left," Luo Feng felt a sense of financial robustness, "I must go on a grand shopping this time."

Last time, he bought almost the cheapest materials in Yulan City, refraining from purchasing many things that had caught his interest.

...

"All intelligence on the Divine Emperors in Yulan City, 10,000 Primordial Crystals for one set? I'll take one!" Luo Feng no longer felt distressed, casually buying a set of intelligence stored in Black Jade that concealed a Heart Spell technique.

"To access the information, one must first actively use this Heart Spell technique, employing one's Spiritual Power to apply a layer of the Heart Spell on oneself?" Luo Feng barely took time to understand the content and immediately tapped into the Black Jade to actively use the Heart Spell technique.

Once the Heart Spell technique was completed, the Black Jade dispersed, and a stream of information merged into Luo Feng's consciousness, namely the detailed information of numerous Divine Emperors in Yulan City.

"Yulan City's 10,377th Divine Emperor intelligence report: there are approximately 3.47 million Divine Emperors in Yulan City. We have collected information on 3,397,320 Divine Emperors."

"Yulan City's number one Divine Emperor: Wei Yang Palace Master. A

Half Primordial Level Enlightened one, a powerhouse from the Source World, and presumed to be the mightiest entity within Yulan City. He has once demonstrated formidable physical strength, killing a 'Perfect Level' Low Level Primordial Life in a one-on-one battle with his physical might alone. He also revealed his terrifying formation skills, using them to besiege and annihilate an entire tribe of Low Level Primordial Lives, with very few managing to escape..."

The report also contained some scenes of Wei Yang Palace Master in action and conjectures on detailed combat situations.

"Yulan City confirms that nearly a hundred Elders are completely aligned with Wei Yang Palace Master. They have formed the largest faction within the city, occupying half of all trade shares. The 'Insect Nest,' 'Shadow Tower,' and 'Deceit Workshop'—three forces notorious for theft and robbery within the city—all pledge allegiance to Wei Yang Palace Master..."

Luo Feng carefully read on.

The three forces daring to steal and rob within the city all stand behind Wei Yang Palace Master and nearly a hundred Elders? They also take up half of the city's trade share? Truly terrifying.

"Yulan City's second Divine Emperor: Yuan Xiang Palace Master. A Half Primordial Level Enlightened one, a powerhouse from the Source World. The founder of Yulan City! His contributions to Yulan City are immense! In the process of building the city, he led many Elders in battles against tribes of Low Level Primordial Lives, exhibiting an eruptive strength even more formidable than Wei Yang Palace Master. However, his physical body is rather ordinary, and he has been injured all along... As a Source World powerhouse, he has multiple Avatars, each of them likewise afflicted with injuries. Suspected to be contaminated by High Level Primordial Life."

The report included multiple scenarios where Yuan Xiang Palace Master took action.

Being weak in physique, Yuan Xiang Palace Master always struck from a distance, displaying the power to destroy heavens and earth.

Just catching a glimpse of him, one could feel his frailty, his flame of life seemingly struggling to keep burning.

"He is the city founder?" At this moment, Luo Feng held some respect for Yuan Xiang Palace Master.

Building a city in the Nine Rivers Sacred Realm was an arduous task.

As the founder, Yuan Xiang Palace Master's contributions were monumental, and nearly a hundred Elders sided with him. However, due to his own weakness and infrequent interventions, the faction he led seemed a step behind in power.

"Yulan City's third Divine Emperor: Gai Tao Divine Emperor."

"Gai Tao Divine Emperor, a Half Primordial Level Enlightened one from the Source World. In the entire Nine Rivers Sacred Realm, he is ranked among the top three in Artifact Refining! He disdains fighting and instead leads just over thirty Elders with an interest in Artifact Refining to concentrate solely on crafting artifacts."

"The various Weapon Secret Treasures he has crafted are sold in several cities throughout the Nine Rivers Sacred Realm."

"Through the might of his Weapon Secret Treasures, Gai Tao Divine Emperor's strength is unfathomably deep, possibly not inferior to Wei Yang Palace Master. However, his rare interventions make it difficult to assess his accurate strength."

The intelligence included three instances of battle where he acted casually.

One instance released a colossal abyssal orb that devoured a Perfect Level Primordial Life of Divine Emperor level.

Another time, he extended a hand and a giant palm crushed an Elder who dared to offend him, killing him with brute force. The other Palace Masters said nothing about it. Although that Elder was a Source World powerhouse with Avatars, he never returned to Yulan City after that.

Another occasion was a wrathful moment when he killed one of his

own disciples, swallowing the disciple whole. It was clear his physical body was as formidable as a secret treasure.

...

The intelligence of 3,397,320 Divine Emperors.

Three of them were Half Primordial Level Enlightened ones.

723 were Enlightened ones at the later stages of Divine Emperor and others of comparable power.

52,092 were mid-stage Divine Emperor Enlightened ones or of equivalent power level.

The rest were all at the early stage of Divine Emperor level as Enlightened ones.

Entities like Emperor Ming, who barely reach the Divine Emperor level through the power of their lineage, are not recognized by Yulan City. The 'early-stage Divine Emperor Enlightened ones' power level' is the lowest threshold for being recognized as a Divine Emperor.

"We have also discovered 53,321 suspected early-stage Divine Emperor Enlightened ones."

The intelligence for suspected early-stage Divine Emperor Enlightened ones was much more brief.

The 51,029th: Luo Feng, recently arrived in Yulan City, residing in the same Cave Mansion as Emperor Qing, suspected early-stage Divine Emperor Enlightened one, likely a Source World powerhouse.

This was the record regarding Luo Feng.

"I'm actually also in the intelligence report, though at the very end," Luo Feng chuckled.

——

Updates will resume on the sixth day of the lunar new year.

Chapter 303 11 Return to the Land of Origin

Having read the intelligence reports, Luo Feng had a rather clear understanding of the various forces operating in the open and in the shadows within Yulan City.

"Even the Elders have to rely on the three Hall Masters," Luo Feng mused secretly. Yulan City had hundreds of millions of cultivators and millions of Divine Emperors; it was such a massive piece of flesh that one wouldn't be qualified to partake without substantial strength.

"As for a newcomer like me who doesn't stand out, I can only rely on hunting," Luo Feng smiled, without taking it to heart.

Having received such high rewards in the Infinite Space, it's clear that the Infinite Space itself recognized his talent.

As for the future, Luo Feng was naturally confident.

...

Luo Feng began his purchasing since he had the Illusion Realm Maze that could store treasures, he wasn't worried about theft. After all, several million Primordial Crystals were a huge sum for newcomers, but among Divine Emperors... indeed, it was nothing to mention.

"My goodness." Luo Feng's Biomimetic Eye of Destruction opened between his eyebrows, observing a leaf in front of him. It was a piece of remains from a Low-Level Primordial Life known as the 'Chaotic Devourer,' which was a rather large group of Low-Level Primordial Life, and this particular remain possessed the strength of 'Middle Stage of Divine Emperor'.

"What's the lowest price for this piece of remains?" Luo Feng turned to the attendant.

The attendant still had a smile on his face: "Each piece of remains has a detailed description and a price next to it. It is clearly stated that this piece costs 5,000 Primordial Crystals."

Luo Feng looked at the attendant, "I am asking for the lowest price! I am buying in bulk."

These remains came from various sources, and different vendors had different asking prices. Naturally, Luo Feng wanted to purchase as much as possible at the lowest price.

"For a total purchase of 500,000 Primordial Crystals, you can have a 10% discount. For a total purchase of 5 million Primordial Crystals, you can have a discount of 15%," the attendant said, "That's the lowest we can go."

Luo Feng nodded.

Based on the intelligence he had gathered, if the transaction volume was particularly large, of course, one could negotiate a lower price. However, his 'vast fortune' wasn't significant enough to warrant an exception from the vendors.

"I'm still too poor," Luo Feng said, looking at the remains, "I can only afford to buy the cheapest variety of Low-Level Primordial Life remains."

Remains like a piece of scale, contained secret patterns that naturally weren't nearly as profound as the Life Core and other vital parts. Those important parts had uses in Artifact Refining and alchemy and were far too expensive.

"Their prices are fair."

"I need a batch of goods," Luo Feng said to the attendant, waving his hand, and a detailed list appeared in front of him, "This list adds up to 520,000 Primordial Crystals."

Upon hearing this, the attendant immediately beamed with joy; if

their clients made a purchase, they would also benefit.

"A 10% discount totals 468,000 Primordial Crystals," the attendant said enthusiastically, "I will get your goods ready right away."

Soon.

Luo Feng paid a pile of Primordial Crystals and received a storage bag filled with a large amount of cultivation materials.

...

It took Luo Feng just one day to visit every vendor in Yulan City. Once he had determined the goods he wanted, with his realm, he could naturally calculate the best way to purchase them.

In the end, after spending a total of 3.22 million Primordial Crystals, he returned to his residence contentedly.

"Brother Luo Feng," in the public garden of the cave mansion, Luo Feng saw Di Fu and Emperor Ming, who were drinking and chatting. Di Fu greeted him warmly, "How was your first hunt outside the city?"

"Emperor Qing has a wealth of experience, and the hunt went quite well," Luo Feng smiled.

"Congratulations," said Emperor Ming beside them. He was somewhat envious; he too had joined a team comprised of 'Early Stage of Divine Emperor' Bloodline Cultivators, who were not well-regarded by the real hunting teams of Yulan City, so they had to band together.

The team was still recruiting and it would probably take several epochs before setting out.

"I wonder what it would be like when I go hunting," Emperor Ming thought to himself. He also had plenty of intelligence about the outside of the city. On one hand, Emperor Qing provided him with information, and on the other hand, these Early Stage of Divine Emperor Bloodline Cultivators also exchanged information.

They were generally weak and very poor! Their goal was to join

forces and kill a Low-Level Primordial Life of the 'Early Stage of Divine Emperor'.

If they killed one, it would be considered a success.

Because they were so poor, the plundering teams couldn't be bothered with them. Those Early Stage of Divine Emperor Bloodline Cultivators might have powerful friends!

Killing a group of paupers would yield little, and could potentially bring trouble. The plundering teams didn't want to do this kind of work!

"Brother Luo Feng, I found a job in the 'Nine Ringed World Tower,'" Di Fu said joyously. Having been in Yulan City for so long, he had finally passed the entry test of the Nine Ringed World Tower and found work.

"Nine Ringed World Tower?" Luo Feng understood, "That's a good place, congratulations!"

"Ha ha, thanks to Emperor Qing for providing enough information, I also purchased some heritage knowledge from the True Witch sect and managed to pass the entry test," Di Fu said with a smile.

The master of the Nine Ringed World Tower, who is also one of Yulan City's Elders, was known for his expertise in Formation in the city, ranking among the top few. However, he claimed to be a practitioner of the 'True Witch' sect. According to the classification of Yulan City, those who haven't absorbed the Primordial Bloodline but ponder the essence of the Dao can also be considered a branch of the Enlightenment Seeker Sect.

"Is Brother Luo Feng back?" Emperor Qing appeared in the distance.

Luo Feng nodded.

"Brother Luo Feng, after this hunt, I plan to go into closed-door cultivation for some time. Next hunt, perhaps in two to three hundred epochs?" Emperor Qing looked at Luo Feng.

"I was also planning to go into serious closed-door cultivation," Luo

Feng nodded, "I'll go out again after two to three hundred epochs."

Each hunt was a walk on the edge of life and death.

So it's common for strong individuals from the Source World to digest their 'harvests' from each hunt before venturing out again.

If they are strong beings that came from infinite worlds, they are even more cautious and careful without avatars.

"Alright, I will notify Brother Luo Feng after I exit closed-door cultivation." Emperor Qing smiled and nodded as he was used to habitual seclusion; each time yearning to make another step forward.

Although he had already stepped into the middle stage of Divine Emperor, stepping in with the other foot still required more accumulation.

...

Emperor Qing went into seclusion, Di Fu went to work in Yulan City's 'Nine Ringed World Tower', and Emperor Ming frequently went out to meet up with teammates, plotting a hunting expedition, albeit still in the preparation process.

"I am going to the Holy Mountain!" Luo Feng quietly boarded an official Flying Boat to the Holy Mountain from Yulan City.

"The official Flying Boat costs 1000 Primordial Crystals per trip. Much more expensive than the price last time Emperor Qing asked for." Luo Feng silently reflected; within the entire Nine Rivers Sacred Realm, there was only this official Flying Boat for transport once every epoch.

The official Flying Boat would first pass through thirty-five cities, carrying a large number of passengers, and ultimately reach the Holy Mountain. Then, it would return from the Holy Mountain carrying new cultivators and would pass through each of the thirty-five cities again on its return trip.

The rules in the thirty-five cities were strict; Divine Emperors could pilot their own Flying Boats to the Holy Mountain, but were

prohibited from taking passengers.

However, at the Holy Mountain, the rules of the thirty-five cities did not apply, as Divine Emperors could bring some new cultivators back to their own cities when they piloted their Flying Boats back. When they took passengers, the cost was generally only a tenth of the official price.

After all, in terms of speed and safety, it was somewhat inferior to the official one.

"Emperor Qing is skilled in the Dao of spatial paths and adept in Formations, daring to pilot the Flying Boat alone." Luo Feng thought to himself; his cultivation of the Life and Death Path was not on par with Emperor Qing in terms of travel.

Hoo.

Inside the official Flying Boat, the cabin was vast, with more than five thousand passengers onboard. Luo Feng glanced around and sensed that the majority were at the Divine Emperor level from their aura.

After all, those below the Divine Emperor level were too poor; the cost of a round trip was quite expensive.

The pilot of the official Flying Boat was a late-stage Divine Emperor Bloodline Cultivator, slightly stronger than Emperor Qing in terms of piloting. But this Flying Boat was a very special Secret Treasure, with a flying escape speed that was much faster.

Along the way, the Flying Boat passed by city after city.

During the journey, some cultivators disembarked, while others boarded, all with a consistent fee of 1000 Primordial Crystals.

"Relying on the official Flying Boat, one can also reach any of the thirty-five cities." Luo Feng silently observed this scene.

Even with a great detour, after merely two days, the Flying Boat had already reached the Holy Mountain.

At the Holy Mountain.

Over half of the passengers flew out.

Luo Feng looked towards the majestic Holy Mountain and also saw the deep pool at the foot of the mountain, where more than a hundred figures congregated.

"This is the official Flying Boat of the Nine Rivers Sacred Realm." In front of the Flying Boat, the towering figure of the pilot 'Lank Divine Emperor' flew out, his aura terrifying and vast.

"The cost per ride is 1000 Primordial Crystals or an equivalent value item," Lank Divine Emperor said, "You can reach any city among the thirty-five cities of the Nine Rivers Sacred Realm by taking a Flying Boat."

More than a hundred figures began to board the Flying Boat one by one.

But Luo Feng came to the deep pool at the foot of the mountain.

"Whoosh."

He jumped down.

After diving into the deep pool, Luo Feng quickly sensed a dense array of spatial coordinates, immediately locking onto the most familiar one—the Land of Origin. Afterwards, Luo Feng, enveloped by a droplet of water, swiftly left the Nine Rivers Sacred Realm.

...

Whoosh whoosh whoosh!!!

The droplet, enveloping Luo Feng, sped through the Primordial Space at a high velocity. From afar, a massive Source World appeared, whooshing into view and then whooshed by, out of sight.

"Although this is the second time experiencing such a scene, it's still quite astonishing." Luo Feng admired the view outside.

Following the same route as on the way here, he returned.

Finally, a familiar Source World appeared in his field of vision.

"The Land of Origin," Luo Feng revealed a pleased expression.

Hoo.

In the blink of an eye, this droplet entered the interior of the Land of Origin.

In a secluded area of the Tianji Icefield on the Land of Origin, within the gloomy deep pool in a valley, a droplet fell into it, followed by Luo Feng flying out of the deep pool.

"I'm back," Luo Feng looked around; this time only an Avatar had returned. His other Avatars remained in Yulan City.

"I've brought back all the treasures I purchased." Luo Feng was quite exhilarated.

A significant amount of Low Level Primordial Life Remains were far too inefficient for comprehension in the Nine Rivers Sacred Realm.

On the Land of Origin, with the observance of the Eye of Life and Death, and the possibility of exchanging for treasures from the Infinite Space Treasure Vault, that was the most efficient method.

"Hoo."

With a thought, Luo Feng locked onto Huyang City distantly, and with one step, he was already back in Huyang City.

——

Thanks to the new Alliance Hierarchs 'Sword King', 'Dead King Hu Xi', 'Phylayria', 'Little Z the Great Demon King', and 'Qing Chen the Old Taoist' for their rewards! Thank you for the support from these five new Alliance Hierarchs!

Chapter 304 - 12 The Highest Reward Points in Infinite Space

Inside the Star Tower.

Luo Feng sat cross-legged, the 'Eye of Life and Death' at his brow opened, observing the densely arrayed treasures in front of him: feathers, blood, bones, scale armor, membranes, as well as leaves, branches, juices, roots, and even mists, bizarre liquids, and strange matters...

They were varied and all obtained from low level Primordial Life.

"Materials from the low level Primordial Life during the early stage of Divine Emperor, a total of about 5000 portions, averaging 300 Primordial Crystals each. In the early stage of Divine Emperor in the Nine Rivers Sacred Realm, I have collected at least 90% of all low-level Primordial Life materials related to 'Life and Death,'" Luo Feng thought.

He bought everything available in Yulan City!

Of course, what he bought were just some ordinary parts of low level Primordial Life, since the slightly more important parts were way too expensive.

"From the same low level Primordial Life, although one feather contains fewer Secret Patterns intricacies. But purchasing a dozen parts like blood, bones, and membranes, the intricacies of the Secret Patterns contained should be worth about eighty to ninety percent of that entire low level Primordial Life's bloodline," Luo Feng thought.

This was his poverty-style method of purchase.

If extremely rich, one could directly buy a refined complete portion

of a Primordial Bloodline, or even directly purchase a Life Core! Those would contain all the Secret Patterns intricacies of a whole low level Primordial Life.

"Materials from the low level Primordial Life during the middle stage of Divine Emperor, only 200 portions, averaging 3,500 Primordial Crystals each."

"Materials from the low level Primordial Life during the later stage of Divine Emperor, only 10 portions, averaging 40,000 Primordial Crystals each."

"For the low level Primordial Life at the Perfect Level of Divine Emperor, I only bought a bottle of ordinary blood for 390,000 Primordial Crystals."

Luo Feng felt somewhat helpless. The more powerful the low level Primordial Life, the stronger the evolution of the bloodline, especially those at the 'Perfect Level of Divine Emperor', typically strengthening to the limit and just a step away from awakening to become a high level Primordial Life.

Every low level Primordial Life at the Perfect Level of Divine Emperor is extremely difficult to kill.

In the entire Yulan City, only three Hall Masters had the hope to kill one on one. Moreover, these three Hall Masters also dared not act recklessly because these low level Primordial Life creatures weren't foolish; they belonged to tribes, naturally very cunning, and instead might lay traps!

The low level Primordial Life creatures, in terms of Comprehension, were much inferior to Cultivators. But in terms of intelligence, they were not weaker than the average level in the Land of Origin.

To kill them?

It's one thing to kill the weakest ones at the 'early stage of Divine Emperor' as they were the fringe weaklings of the tribes. But those at the Perfect Level of Divine Emperor, who hold high positions or even as leaders within their tribes, often band together in this level.

That's also why Cultivators must hide within the cities.

For a true group battle? Cultivators are no match for low level Primordial Lives.

"If I rely on hunting by myself, to collect such numerous materials would be as difficult as ascending to heaven," the Eye of Life and Death at Luo Feng's brows observing the countless materials before him, "But in the Nine Rivers Sacred Realm, I can easily trade."

In the Yulan City of the Nine Rivers Sacred Realm, one could also purchase a large number of auxiliary Cultivation items, various Weapon Secret Treasures, and even various inheritances.

But Luo Feng used most of his resources this time to purchase materials.

"Inheritance? As Senior Yuan said, exploring on one's own is most suited," Luo Feng truly trusted Senior Yuan.

Inheritances like Perfect Inheritance and Special Grade Inheritance, are all forbidden from spreading content above the Godly King. It was because of previous harsh lessons that made Yuan determined... Too powerful inheritances affect Cultivators too much, only ruining their paths outside Cultivation.

Upper-class Inheritance, Intermediate Inheritance, their influences are weaker.

But there is still influence.

"Learning from all things, exploring the path on my own," the Eye of Life and Death at Luo Feng's brow observed, even seemingly ordinary golden blood contained more than ten times the intricacies of Secret Patterns than what he observed in Yulan City.

In Yulan City, his biomimetic Eye of Life and Death could still only be considered at the level of a Divine Emperor in terms of Secret Technique observation, able to observe only superficial levels of Secret Patterns.

The same bottle of blood, in the Land of Origin, viewed with the Eye

of Life and Death, revealed much more clearly.

"The observational power of high level Primordial Life, looking at some materials from low level Primordial Life, almost completely sees through," Luo Feng secretly sighed, "Exchanging for the Eye of Life and Death back then, was really worth it."

"These more than 5000 portions of low level Primordial Life materials, are the foundation on my path of Cultivation."

Luo Feng understood that researching these materials thoroughly with the Eye of Life and Death would be immensely helpful to him.

...

At the city owner's mansion in Huyang City,

on a high tower.

"Morosa."

A call.

Startled by the sound, Morosa swiftly flew to the top of the tower, seeing its master Luo Feng, who was drinking alone.

"Master." Morosa excitedly said, "Have you finished your closed-door Cultivation?"

In Yulan City, whether it was closed-door cultivation or going out for hunting, Luo Feng usually remained in closed-door state in the Land of Origin! He would occasionally come out only after a period of downtime.

"I brought you some gifts." Luo Feng waved his hand.

A complete set of Weapon Secret Treasures flew out.

Morosa looked at them excitedly, the Weapon Secret Treasures floating in front of him, he easily refined and familiarized himself with them, afterward, the armor merged into his body, the helmet into his skull, a pair of gloves made his claws much sharper.

More Formation Diagrams floated nearby.

"A full set of eight Weapon Secret Treasures, all of them Super Secret Treasures from the Destruction Path?" Morosa was extremely excited.

In the Land of Origin, super strong Secret Treasures above the Godly King were very rare! And those suitable for one's own path even more so. Like the set of Weapon Secret Treasures Luo Feng obtained by killing Di Yuan, ultimately all were sold. It was because they did not match his own path.

"Master, this is perfect for me, this set of Secret Treasures allows me to glimpse the path above Godly King." Morosa adored these treasures.

"You have hopes for a breakthrough?" Luo Feng was surprised.

"No hope." Morosa shook his head helplessly, "Seeing the path above Godly King, I understand even more the difficulty of the path! I've lost all hope."

Morosa grinned, "However, with these Weapon Secret Treasures, my strength will surge dramatically. On the Land of Origin, apart from you few Divine Emperors, I am confident I can suppress the others!"

Even the Lord of Ten Thousand Realms, in terms of Weapon Secret Treasures, couldn't compare comprehensively to Morosa.

Luo Feng smiled and nodded, "Go on, go on."

He often secluded himself for cultivation on Land of Origin, and Morosa was the strongest under his command! Whether it was the Galaxy Divine Kingdom or Blade River Sect, many matters needed Morosa to preside over.

With a full set of Weapon Secret Treasures, it would better deter those Emperors and Monarchs. Of course, on another note, Morosa also had his fair share of Merit Points and hardship, which was considered a form of reward.

"A complete set of early-stage Divine Emperor level Secret Treasures, really a bargain." Luo Feng thought.

These Weapon Secret Treasures, which were all at the early stage of Divine Emperor, were used by those below Divine Emperor in Yulan City. Only the armor and Formation Diagrams were slightly more expensive. The entire set of Weapon Secret Treasures totaled only thirty-five thousand Primordial Crystals.

This time, Luo Feng provided Morosa, Blade River Sect disciples, friends, and family a total of one hundred thousand Primordial Crystals' worth of Weapon Secret Treasures and other supporting treasures.

Their strength was weak; it was enough to buy the cheapest ones in Yulan City.

In Yulan City, those treasures and medicines painstakingly refined by God Kings at their ultimate stage were sold at very low prices, earning just a little for their hard work.

"It's not that I'm reluctant. Buying too good Weapon Secret Treasures, Morosa, you can't utilize them anyway." Luo Feng said with a smile, as for other treasures, there was no hurry. There had to be a sufficient reason to give away treasures.

For example, disciples meriting awards, stepping into a new level of strength only then it would be appropriate to give. One cannot grant them without reason.

Both the ancestors of the two ancient countries demanded exchange with Merit Points.

As for preparing gifts for master Emperor Chu. Ordinary treasures, as Emperor Flame Wind of Flame Wind Ancient Country, master Emperor Chu already owned them. Too precious? Luo Feng was still relatively poor at the moment, deciding instead to hunt a few more times and become wealthier before preparing some gifts for his master.

Luo Feng believed a millennium or two of time, his master could afford to wait.

"My Life and Death Dao has reached the Ultimate, it's time to collect

Reward Points." Luo Feng thought.

...

Infinite Space, at Lake Heart Island.

Luo Feng stood by the lake, starting to practice the Life and Death Dao.

The complete Life and Death Dao, after fully comprehending it, allowed many techniques to be executed effortlessly and naturally.

"Palm World."

A massive and vast illusory palm appeared, larger than the entire Lake Heart Island, and within the center of the palm, a world was born; Luo Feng was now inside this Palm World.

As if the creator Divine Spirit within this world, he effortlessly displayed Ultimate Realm Secret Techniques, forming forbidden moves.

Suddenly, Luo Feng sensed a piece of information transmitted from the palm mark.

"Infinite Space, finally confirmed my breakthrough." Luo Feng smiled, then checked the message—

"Trialist: Luo Feng from the Land of Origin"

"You have pioneered a complete new Great Dao! This Dao, based on Life and Death and Destruction, fundamentality surpasses ordinary Great Daos. New Great Dao Evaluation: Perfect! Reward Points: 200,000 points! You have obtained all the Reward Points issued for pioneering the Great Dao."

"Before escaping the Braided Cage, if your Spiritual Will manages to escape first, you'll also get the highest Reward Points for Spiritual Will. Since the establishment of Infinite Space, those who obtained the highest rewards for both pioneering a Great Dao and Spiritual Will are still less than one hundred. Over seventy percent of them have already escaped the Braided Cage."

"Reminder: Prohibited from killing any Spiritual Beings, violators will be completely expelled from Infinite Space."

"Total Reward Points: 254093.03 points."

Luo Feng felt excited.

200,000 Reward Points?

It made him much wealthier instantly, considering 'Eye of Life and Death' which was hugely beneficial for his Cultivation Path, was only 120,000 Reward Points. Now, he could exchange for two similar treasures.

Obviously, Senior Yuan and others gave more rewards to those with higher talent.

"Pioneering a Great Dao, Spiritual Will both obtaining the highest rewards, still less than one hundred to date? Over seventy percent escaped the Braided Cage?" Luo Feng pondered.

The unsuccessful twenty-plus percent.

Either died or still undergoing Cultivation.

The proportion escaping the Braided Cage is indeed high.

"Being at the level of Divine Emperor, yet Spiritual Will needs to escape the Braided Cage?" Luo Feng knew, those at the late stage of Divine Emperor, half Primordial Level Enlightenment beings, their Spiritual Will should have reached the Perfect level of Divine Emperor. Reaching this extreme bottleneck, almost all were like this in the Dark Sacred Realm.

But Spiritual Will escaping the Braided Cage? That's legendary!

"I'd like to see how difficult it is for the Spiritual Will to escape the Braided Cage." Luo Feng was not in a rush, his current Spiritual Will had not yet touched the limits of the Divine Emperor level.

—

Recommendation for the new book by the platinum author Dancer, "Just Collect the Divine Powers!"

Chapter 305 13 The Complicated Feelings of Emperor Qing

Luo Feng gazed at the Infinite Space Treasure Vault, where the information on various treasures was even more abundant.

"I don't have absolute certainty, and while still in the Divine Emperor Stage, my Spiritual Will is trying to break free from the Braided Cage," thought Luo Feng. "So the more than 250,000 Reward Points may be all the Reward Points I'll ever have."

"I need to reserve enough Reward Points for use when I reach the Half Primordial Level in the future."

Luo Feng pondered.

At present, my realm is too low, and I am not clear on what is most needed to break free from the Braided Cage! It would be most appropriate to exchange for treasures when reaching the Half Primordial Level in the future.

"Just buy one that is relatively inexpensive." Luo Feng's gaze swept over the cheaper treasures, and he instantly locked onto a target.

"Exchange for the Secret Treasure 'Undying Heart'."

Luo Feng immediately exchanged.

The Secret Treasure 'Undying Heart,' unbreakable, with endless vitality, can also reinforce the Physical Body. It can also condense an additional powerful War Body. Suitable for the Cultivation of both the Life and Destruction Paths. Requires 43,000 Reward Points to exchange.

Among the treasures below 100,000 Reward Points, this is the only one suitable for both the Life and Destruction Paths.

The Weapon Secret Treasures sold in Yulan City are generally crafted by Divine Emperors. Even the 'Perfect Level Divine Emperor' Secret Treasures, once Luo Feng reaches the Half Primordial Level himself, perhaps his realm will be even stronger than the creators, and the help those treasures can offer will naturally be minimal.

But these treasures in the Infinite Treasure Vault, from their characteristics, all seem to have been created by beings that have broken free from the Braided Cage!

After the exchange, Luo Feng's Reward Points in the Infinite Space were reduced to 211,093.03 points. According to Luo Feng's own Cultivation plans, he would exchange more when he reached the Half Primordial Level in the future.

...

In the Land of Origin, within the Huyang City Lord's Mansion, inside a Quiet Room, within the Star Tower.

Both countries' Ancestors would specially construct places for secluded Cultivation, but Luo Feng did not need to because the inside of the Star Tower was the safest place.

"Undying Heart."

Luo Feng sat cross-legged, looking at the green pearl in his hand.

The Eye of Life and Death between his brows opened and saw the endless Secret Patterns within the green pearl, profound to the extreme, not inferior to the Special Life Remnants. He dimly saw a drop of blazing blood, from which all the mysterious Secret Patterns originated.

"This pearl must have been crafted with a drop of blood as its core."

"Judging by the sophistication of that drop of blood, it should be a Blood Dripping from a World Level Primordial Life Form. Hence, this pearl possesses endless vitality and is unbreakable."

The power originating from a World Level Primordial Life makes it natural to call it 'endless vitality, unbreakable' at the Divine Emperor level.

"This Undying Heart is enough for me to ponder before breaking free from the Braided Cage," Luo Feng was very satisfied.

The Infinite Space Treasure Vault, the two treasures best suited to me, the Eye of Life and Death and the Undying Heart, I have exchanged for both! Of course, there are some other treasures in the Infinite Space that aid in Cultivation.

For instance, there is a seedling which, when planted, grows into a tree under which Cultivation takes place, constantly emerging with Spirit Light, one day equal to a thousand or ten thousand ordinary days of Cultivation, occasionally even entering a state of sudden enlightenment.

For instance, there is the Wisdom Book; the Wisdom Tree itself can analyze everything, study the Great Dao, and aid one's Cultivation. Much more powerful than the Eye of Life and Death.

These were all discovered by Luo Feng after his Reward Points exceeded 250,000.

"There are infinite treasures, but Reward Points are limited. I must understand how to use them more effectively," Luo Feng was very calm.

"Undying Heart, Eye of Life and Death, Star Tower. From low to high...I can also better understand how Life and Death intertwine."

First grasp how to combine, then how to fuse.

Luo Feng flipped his hand and took out a Primordial Crystal, consuming it and began to ponder the densely packed Low Level Primordial Life Materials.

...

With the observation of the Eye of Life, these Low Level Primordial Life Materials revealed no secrets before Luo Feng; because in the

Nine Rivers Sacred Realm, for the 'Early Stage of Divine Emperor' lower Primordial Life forms, Luo Feng had at least ninety percent here.

So many types allowed Luo Feng to glimpse the various possibilities of the Life and Destruction Paths.

"Life and Destruction actually have such vast branches?" Luo Feng was somewhat shocked, and he even felt somewhat bewildered.

He once had boundless passion! He had determination!

He wanted to embrace all the mysteries of Life and Destruction, integrating them into his own Life and Death Dao!

But when he actually saw the sheer amount of these mysteries, with various mysteries entwined and many of them outright contradictory, Luo Feng felt bewildered and hesitant. Could they be completely embraced and perfectly merged into one Dao?

Is it possible?

Could he achieve it?

"The more I understand, the higher and more extensive I realize this sky is," Luo Feng smiled.

"This is what makes it interesting," Luo Feng's eyes blazed, "This path is infinitely long! It means I can keep moving forward, climbing higher and higher!"

"Then take it step by step."

"Walk on the road to becoming stronger. The process of becoming stronger is also fascinating."

Luo Feng's heart settled in that moment.

You have to eat your meal one bite at a time! That's how you digest it well.

Luo Feng then began to carefully study these materials, analyzing

each one carefully, classifying some of the mysterious Secret Patterns. Then slowly absorbing some suitable for his own path.

Returning to the Source Continent in the 105th Epoch, Luo Feng's Life Path naturally reached the Early Stage of Divine Emperor as he pursued the 'vast Life Form' route.

In the 139th Epoch, the Destruction Path, also reached the Early Stage of Divine Emperor while pursuing the ultimate route of Destruction.

Life and Destruction have both reached the early stage of Divine Emperor; hence, Luo Feng slowed down the pace in these two aspects and concentrated on the 'Life and Destruction Fusion.' For him, the cultivation of the paths of Life and Destruction provides the most basic sustenance for the 'Great Dao of Life and Death.'

Thus, according to the needs of the 'Life and Death Dao,' the directions of Life and Destruction should be determined.

"Reaching the early stage of Divine Emperor for both Life and Destruction, if the difficulty is 1, then attaining the early stage of Divine Emperor for the Life and Destruction Fusion would be at least 10 times harder," Luo Feng felt the hardship of the fusion process.

The 'Great Dao of Life and Death' at the Ultimate Realm of Godly King is the fusion of nine major branches, which is the seed.

A strong seed will naturally sprout a larger and more majestic tree.

Before he knew it, it was already the 269th Epoch, and Luo Feng's Life and Death Dao still had many confusions, having not reached the early stage of Divine Emperor. At this time, Emperor Qing had already begun inviting Luo Feng for another hunt.

******

"Hunting? I just need a bit more time to prepare, I can set out within one epoch," Luo Feng replied to Emperor Qing's invitation.

Emperor Qing naturally had no objections.

Just because he had concluded his seclusion and was ready to hunt, didn't mean Luo Feng was also adequately prepared.

Being able to set out within one epoch, Luo Feng was already quick enough.

"Sigh."

Back in the Land of Origin, Luo Feng, with a physical body carrying an energy reserve 390 times that of the 'Perfect Divine Body,' as well as the storage secret treasure 'Illusion Realm Maze,' began his return journey.

As for the 'Undying Heart' exchanged in the Infinite Space, Luo Feng did not bring it along. Being relatively weak, carrying too powerful a secret treasure might instead invite trouble. Besides, going on hunts repeatedly when weak could easily lead to death.

Only when he could match the low-level Primordial Life at the perfect level of Divine Emperor would he carry the 'Undying Heart.' It would be much safer. By then, his strength might be close to that of the three Hall Masters, and even if he couldn't defeat them, he would at least have the power to protect himself.

"Back in the Land of Origin, with the help of a small universe, absorbing energy is still fast." Carrying a massive energy reserve, Luo Feng spent nearly half an epoch and finally returned to Yulan City.

Going back and forth between the Land of Origin and Nine Rivers Sacred Realm.

On one hand, he could transport many resources to the Land of Origin to observe with the Eye of Life and Death. On the other hand, he could also bring over the energy reserves absorbed by the Land of Origin.

All he had to pay was merely the travel expenses.

"Let's go, let's set out!" Both parties being well-prepared, Emperor Qing and Luo Feng began their team's second hunting expedition.

"What?"

"You've made a breakthrough?"

During the killing of the first low-level Primordial Life, the power displayed by Luo Feng when he made his move stunned Emperor Qing.

Luo Feng killing the prey one-on-one was not surprising to him. But doing so with such ease and casualness left Emperor Qing somewhat flabbergasted.

"You've reached the middle stage of Divine Emperor?" Emperor Qing could hardly believe it as he looked at Luo Feng, whose might just then was no less than Emperor Qing using a Formation Diagram.

Emperor Qing, who had struggled for so long, was one step into the middle stage of Divine Emperor. Yet, the other foot was still stuck outside. The breakthrough seemed just a little bit away, but this little bit had already stalled him for a long time.

Luo Feng?

Reached the middle stage of Divine Emperor after just several hundred epochs in Yulan City?

"No," Luo Feng shook his head and explained, "I cultivate both the Daos of Life and Destruction, and now both Daos have reached the early stage of Divine Emperor! The combined power of the two paths is what makes it so strong."

"Cultivating both Daos? And they complement each other so exquisitely?" Emperor Qing understood completely.

Those who cultivate two Daos are generally much stronger.

However, for two Daos in the early stage of Divine Emperor to compete with a normal middle stage Divine Emperor cultivator, they must combine quite well! If the combination is poor, the increase in strength is also limited.

Luo Feng, having studied the Life and Death Dao for so long, was researching the method of fusion, the mere combination? Naturally, it was extremely exquisite.

"I always thought, Brother Luo Feng, that since you've just arrived in the Nine Rivers Sacred Realm, I'd need to help you at first. Who would have thought that just on our second hunt, it's you who are helping me instead," Emperor Qing shook his head, "We will need to discuss the distribution of our spoils of war again."

"I don't have many secret treasures, only this pair of gloves," Luo Feng shook his head, "My strength is only slightly stronger than Brother Emperor Qing's."

After all, Emperor Qing had been adventuring in Yulan City for a long time and was wealthier; his Secret Treasure Array Map compensated for some of his realm's shortcomings.

Emperor Qing looked at Luo Feng and laughed, "So be it, the next time we go hunting, we'll need to discuss the distribution ratio again."

He was clear in his heart.

Even with the Secret Treasure Array Map's explosive power comparable to Luo Feng, Luo Feng had multiple avatars! The might unfolded by the Daos of Life and Destruction during the hunt was terrifying. Luo Feng's contribution to the hunt had already greatly surpassed Emperor Qing's.

"Next time we'll discuss the ratio again but, when the gap grows even larger, I'm afraid we'll have to split up," Emperor Qing was aware of this fact.

He now still serves a purpose in the team.

His Formation ability was extremely useful during the hunts. Taking a third of the spoils was not unfair.

"If Luo Feng reached the early stage of Divine Emperor earlier, and now both paths are at the early stage. That's the case for such transformation," Emperor Qing pondered, "If he wants a significant increase in strength, it will probably take a long time. There's no need to think too much about it for now."

This second hunt was full of mixed feelings for Emperor Qing, after

all, he had become the one providing support!

This hunt went unprecedentedly smoothly, having encountered no danger and stopping after killing nine 'early stage Divine Emperor' low-level Primordial Lives.

"When we come out to hunt, nine is the limit," Emperor Qing said, "Beyond that, the risks will skyrocket. We might even attract the attention of low-level Primordial Lives at the perfect stage of Divine Emperor."

"Alright, then we return," Luo Feng was quite receptive to advice. Although his strength was somewhat stronger now, Emperor Qing's hunting experience was much richer than his. Luo Feng felt that even an equal split of the spoils was justified, relying purely on the other's veteran experience.

Chapter 306 - 14 Each's Cultivation

Luo Feng and Emperor Qing, carrying the spoils of their second hunt, steered the black Flying Boat and commenced their return journey.

During the return journey, the two of them remained as cautious and vigilant as always.

"A Flying Boat is approaching, be careful." An invisible and vast fluctuation enveloped this region. Within this area, three covert figures had utilized a Formation to detect the incoming Flying Boat.

"Let them continue to advance further deep into the Formation, then make a move."

The three hidden figures waited patiently.

Suddenly—

"Hm?"

Inside the black Flying Boat, Luo Feng's biomimetic Eye of Destruction was wide open. Ever since he reached the early stages of Divine Emperor on both the paths of Life and Destruction, this Biomimetic Eye of Destruction naturally progressed further, gaining even stronger observational powers.

"Something is not quite right around us." Luo Feng immediately transmitted his thoughts to Emperor Qing, "Retreat at maximum speed immediately."

"Oh?" Emperor Qing had not sensed the danger, but he trusted his companion.

Luo Feng too had merely felt that something was amiss. He hadn't detected any enemies, and the surrounding Void seemed normal! However, Luo Feng's 'Eye of Destruction' had perceived that the operation of the Heaven and Earth Rules in the vicinity was somewhat abnormal.

A shadowy rule had infiltrated the Heaven and Earth Rules; the deeper one went, the more profound the influence of the Shadow Power became.

"Whoosh!"

The black Flying Boat suddenly retreated explosively, reversing course at maximum speed.

"We've been exposed."

"They actually discovered us?"

"Trap them."

A dense Shadow Power descended, and in an instant, an area spanning billions of kilometers turned a gloomy gray. Luo Feng's Flying Boat was also within the vast range of the Shadow Power. However, they were not far from the 'Boundary'.

At this moment, the endless Shadow Power was thick and sticky, completely restraining the Flying Boat.

"Heaven and Earth Unite!"

"Heaven and Earth Creation!"

A towering figure emerged, naturally mobilizing the vast power of Heaven and Earth. His right hand, like a great axe, furiously cleaved downwards. Where the axe fell, it seemed as if the world was being split in two, forcibly ripping open a giant heavenly rift!

This was a forbidden move that Luo Feng created, best suited to the characteristics of his Heaven and Earth Avatar after reaching the early stages of Divine Emperor in both Life and Destruction—Heaven and Earth Creation!

After this gigantic rift was cleaved open, even the Shadow Power was briefly split apart by a massive gap.

"Whoosh."

The black Flying Boat immediately followed this rift, its speed soaring, streaking out of the range of the Shadow Power in an instant. The towering figure also followed the heavenly rift and instantly escaped, rushing out.

Only after fleeing the vast range of the Shadow Power did Emperor Qing finally exhale in relief.

"Brother Luo Feng, it must be the experts from Shadow Tower," Emperor Qing transmitted his thoughts, "If we were trapped in their Formation, it would be a big trouble."

"This Formation is formidable; my Heaven and Earth Avatar's forbidden move could only manage to rip open a rift," Luo Feng also felt how troublesome their opponents were.

"Ha ha ha..."

Laughter echoed.

Three twisted shadows descended all around and materialized into three figures.

They each wore gray robes and masks, an invisible force spreading around them.

"It indeed is Shadow Tower." Luo Feng and Emperor Qing were completely certain.

Within Yulan City, there were three forces routinely engaging in theft and raiding—Insect Nest, Shadow Tower, and Deceit Workshop—all belonging to Wei Yang Palace Master. The forces led by Wei Yang Palace Master represented the largest power in Yulan City.

In Shadow Tower, those responsible for theft held a relatively ordinary status.

Those in charge of raiding were truly the middle and upper echelons! These raiders generally concealed their aura and hid their appearances. After all, 'raiding' could too easily invoke enmity.

"The raiders from Shadow Tower generally possess the strength of middle-stage Divine Emperor Cultivators. The weak do not dare to raid," Emperor Qing transmitted to Luo Feng.

"From the brief exchange earlier, I've estimated their approximate strength already," Luo Feng was clear on this as well.

"Ha ha ha, Emperor Qing and Luo Feng?"

The three figures in gray robes looked at Luo Feng and his companion. One of them said with a laugh, "No wonder you two dare to hunt together; you indeed possess some strength. You know the rules of raiding, right?"

"Of course," Emperor Qing said, "We are willing to offer some Primordial Crystals."

"Not much is needed, just leave behind one Low Level Primordial Life corpse, and we'll let you go," one gray robe spoke up.

Emperor Qing and Luo Feng exchanged glances.

"Alright," Emperor Qing agreed and waved his hand, releasing one Low Level Primordial Life corpse, which was the cheapest among their spoils of war, valued at about 800,000 Primordial Crystals.

"That was straightforward." After collecting the body, the leader of the gray robes and his two companions twisted their figures, and three shadows vanished.

"Let's go."

Emperor Qing and Luo Feng steered the black Flying Boat, avoiding the shadow Formation area, and continued their return.

Inside the Flying Boat.

"Hunting outside is a threat not only due to Low Level Primordial Life

but also other Cultivators," Emperor Qing shook his head, "We of course don't care about those regular raiders; we can even counter-kill them."

"But it's troublesome if we encounter strong ones."

"If we can flee, we flee; if we can give away some Primordial Crystals, we do so," Emperor Qing shook his head, "But if a raider doesn't want Primordial Crystals and instead wants to kill for treasure, then we can only fight for our lives."

Luo Feng nodded.

Based on the brief exchange, those three must have been middle-stage Divine Emperor Cultivators in strength, possibly accumulating for a long time and not lacking in various Secret Treasures. Luo Feng admitted that even with Emperor Qing, he wasn't confident in their chances against the three!

"Phew."

After flying for a while, the black Flying Boat finally arrived at Yulan City.

Emperor Qing also showed a smile: "Our luck really isn't bad. Although during our first hunt we encountered a Low Level Primordial Life in the later stages of the Divine Emperor, we managed to escape successfully. The second hunt might have encountered raiders on the return trip, but by giving up a Low Level Primordial Life corpse, we've avoided another disaster."

Chapter 307 - 14 Each's Cultivation_2

"This is considered good luck?" Luo Feng asked.

"Very good luck indeed," Emperor Qing said. "You'll understand when you've hunted more. During hunting, it's common to suddenly encounter an ultra-strong low-level primordial life, causing severe casualties within the team. Or, on the way back, encountering raiders who break the rules, brutally killing and looting treasures..."

Luo Feng listened and nodded.

"In Yulan City at the early stage of Divine Emperor, it's like this. We stake our lives, and we might still be robbed," Emperor Qing sighed. "Fortunately, I come from the Source World and I have the Clone Technique! Otherwise, life would be much harder."

"Cultivation isn't easy in Yulan City," Emperor Qing said, and glanced at Luo Feng, "Of course, Brother Luo Feng, you are different. You already possess the strength of a mid-stage Divine Emperor Enlightened. Just purchase a few more Secret Treasures suitable for yourself to enrich your skills! That would be enough to join any power faction in Yulan City."

"In Yulan City, there are many powers. But a mid-stage Divine Emperor Enlightened can already become a mainstay," Emperor Qing said. "After all, the next level up is the Elder level, and their numbers are quite limited."

Luo Feng smiled.

In Yulan City, there are 723 Divine Emperor later-stage Enlightened ones in total. Among them, 327 are Elders. Many of them have avatars braving the Dark Sacred Realm! The avatars in Yulan City

rarely take action.

When the Elders act, it generally attracts attention across the entire city. It's the mid-stage Divine Emperor Enlightened who are the backbone of many power factions in Yulan City.

"Do you have any plans to join any side?" Emperor Qing asked.

"No need," Luo Feng shook his head lightly.

What concerns him most now is to swiftly advance his 'Life and Death Dao' to the early stage of Divine Emperor.

"That's true, you've been in Yulan City for a short time, just concentrate on cultivation," Emperor Qing said. "However, if there's a chance, being in a high position in some major forces does have many benefits."

Luo Feng smiled and said no more.

During the conversation, the black Flying Boat had already arrived at the majestic Primordial Hall.

"Let's sell the Spoils of War first." Emperor Qing and Luo Feng flew together towards the Primordial Hall.

...

This time the eight remaining low-level primordial life corpses and battle merits were sold for a total of 8.6 million Primordial Crystals, Luo Feng and Emperor Qing each taking half.

After dividing the Primordial Crystals, Luo Feng and Emperor Qing went their separate ways to make their purchases.

"This time I am mainly buying mid-stage Divine Emperor low-level primordial life materials," Luo Feng began carefully visiting each merchant in Yulan City, inquiring about all materials suitable for life and the Destruction Path.

It took a whole day, carefully comparing prices, and bargaining.

Finally, he purchased about 1000 portions of 'mid-stage Divine Emperor' low-level primordial life materials, each costing around 3300 Primordial Crystals. In the entire Nine Rivers Sacred Realm, at least 90% of low-level primordial life materials suitable for Luo Feng during the mid-stage Divine Emperor were probably collected. The remaining ones were extremely rare and hard to find.

Afterward, Luo Feng also purchased 900,000 Primordial Crystals worth of auxiliary cultivation elixirs and other items.

"Quite a coincidence, the official Flying Boat is about to arrive?" Luo Feng was pleasantly surprised. On the third day after making his purchases, one of his Avatars, carrying the storage treasure 'Illusion Realm Maze,' took all these purchased treasures back to the Land of Origin.

The storage treasure Illusion Realm Maze was necessary to bring each time. Luo Feng was also worried about theft!

Different cultivation systems, sometimes it's really hard to guard against.

"In the Land of Origin, with the Eye of Life and Death, the efficiency of cultivation is indeed more than ten times higher than that of Yulan City," Luo Feng had already decided, in the previous few hunts, to travel back and forth to the Land of Origin each time.

In the future, once sufficiently wealthy, he might travel back and forth after several hunts.

...

"Emperor Qing and Luo Feng have returned from their second hunting trip?" Since they lived together in the same Cave Mansion, Luo Feng and Emperor Qing didn't hide anything; naturally, Emperor Ming and Di Fu also knew about it.

"It seems that they had a smooth journey."

Emperor Ming sat cross-legged in his own Cave Mansion, his expression complex, "Since my arrival in Yulan City, I have also participated in a hunt, but... the result was a complete mess!"

It's logical that the normal Hunting Teams of Yulan City don't want us, the early-stage Divine Emperors Bloodline Cultivators! During the hunt, the positive impact we could provide was negligible; instead, we were more likely to slow everyone down.

"This time a total of 32 team members, all early-stage Divine Emperor Bloodline Cultivators, everyone discussed and deliberated on the methods of cooperation for a long time. But what was the outcome?" Emperor Ming was quite disheartened.

The 32 members rode the Flying Boat out, and were lucky to encounter a low-level Primordial Life at the early stage of the Divine Emperor. With their team, if they had encountered something stronger? It would likely have been a total annihilation.

Even for the weakest low-level Primordial Life, the 32 of them followed the previously prepared strategies of cooperation, and teamed up to attack.

However—

The body of the low-level Primordial Life was too formidable! Its Life Force too strong! Their cooperation was exquisite, and they successfully executed seven sets of attack strategies, continuously attacking, preventing the low-level Primordial Life from counterattacking.

But... after enduring seven sets of attacks, although the low-level Primordial Life was grievously injured, it still didn't die. During its mad counterattack as it neared death, the low-level Primordial Life brutally killed 7 team members, severely wounded more than ten, and the rest fled in disarray.

"32 team members, yet couldn't kill one low-level Primordial Life. No wonder the Hunting Teams don't want us." Emperor Ming shook his head, "Let's make good use of Yulan City's resources, diligently cultivate, and strive to advance our strength further."

He appears poor.

But being a recipient of the Infinite Space reward, Emperor Ming is

actually quite wealthy. He just has to be very careful when using his wealth. After all... he's too weak! He hasn't even cultivated the Clone Technique.

...

"The True Witch lineage of the Nine Ringed World Tower is indeed extraordinary. The information about the Void lineage has enriched me greatly, and I feel I am getting closer to the complete 'Space Great Dao'," Di Fu was very satisfied within the Nine Ringed World Tower, even though he was helping out with menial tasks.

After all, it's a different Cultivation System, but the essence is still 'Dao'.

"If I could grasp the complete Space Great Dao, I would have the qualifications to survive into the next era in Land of Origin," Di Fu smiled brilliantly, full of confidence in the future.

If he stayed continuously in the Land of Origin, stuck at a bottleneck, he might not manage to breakthrough even unto the grand desolation of the Land of Origin.

But since arriving at Yulan City, being exposed to numerous Cultivation Systems and abundant Cultivation Resources, the difficulty of achieving a breakthrough has naturally decreased substantially.

"I came to the right place." Di Fu felt very fortunate.

With Luo Feng and Emperor Qing caring for him, he didn't need to worry about his living arrangements within the city, which was quite relaxing.

...

"Brother Luo Feng is already at the cultivation strength of a mid-stage Divine Emperor The Enlightened, surpassing me," Emperor Qing sat cross-legged in the Quiet Room, looking at the Jade Bowl in front of him which contained an amber-like liquid.

"I have been stuck at the final bottleneck for too long."

"Eighty million Primordial Crystals, I sold many treasures to obtain this 'Void Heart Marrow Liquid', for this very gamble." Emperor Qing was not originally so anxious, but the imbalance of strength within the team made him decide to take this gamble now.

The wealth accumulated over the long years was all exchanged for this treasure.

"Come."

Emperor Qing opened his mouth, and the amber-like liquid from the Jade Bowl all flew up, entering into Emperor Qing's mouth.

Chapter 308 - 15 Yulan City's 700th Anniversary

Time drags on.

A black Flying Boat has already commenced its return journey, flying towards Yulan City.

In the front hall of the Flying Boat, Emperor Qing steers the vessel, observing and sensing everything in all directions. Luo Feng sits beside him, the Biomimetic Eye of Destruction on his brow open, surveying the vast expanse surrounding them, while also feeling somewhat wistful.

"It's been over seven centuries since I arrived at Yulan City, and this is the third hunting expedition with Emperor Qing. Yet my 'Life and Death Dao' has still not broken through to the early stages of Divine Emperor," Luo Feng sighs inwardly.

Seven centuries—a truly long time.

On the Land of Origin, it took Luo Feng just five centuries to grow from an eternal true god capable of killing Di Yuan.

"In the paths of Life and Destruction, I made small efforts in Cultivation and managed to reach the early stages of True God. But to merge the two... proves far more difficult." Luo Feng shakes his head gently. Despite consuming some Cultivation aiding treasures, studying vast amounts of low-level Primordial Life materials with the Eye of Life and Death, and with the assistance of treasures like the Undying Heart, the Eye of Life and Death, and the Star Tower, his Cultivation could be described as advancing by leaps and bounds.

Yet the Life and Death Dao is too vast.

"Brother Luo Feng, I originally thought that by the third hunting expedition, after my breakthrough to the middle stages of Divine Emperor, my strength would be comparable to yours," Emperor Qing says from aside, his emotions still quite stirred, remarking, "Who would have thought that in this short time, your strength has taken yet another significant stride!"

"It's merely the creation of a Physical Body Method," says Luo Feng.

"That Physical Body Method of yours is truly terrifying," exclaims Emperor Qing. "Having just reached the middle stages of the Divine Emperor, I thought by joining forces with you, I could never have imagined, we would be able to kill a low-level Primordial Life at the middle stage of Divine Emperor."

Luo Feng smiles.

Indeed.

During the third hunting expedition, they killed seven low-level Primordial Lives at the early stages of Divine Emperor, and one at the middle stage of Divine Emperor.

"Using your Physical Body, you faced the Flame Monster Beast in battle and gained overwhelming advantage. I merely assisted you from formation, and you forcefully killed that middle-stage Divine Emperor-level Flame Monster Beast," Emperor Qing vividly recalls that scene.

Luo Feng, displaying the powerful Physical Body Method, was cloaked in a layer of blood-colored scales, which granted him terrifying defensive capabilities. The Flame Monster Beast's ferocious attacks merely caused minor cracks on the surface scales of Luo Feng's body, which quickly healed.

Yet with each of Luo Feng's strikes, the Flame Monster Beast would sustain massive injuries. With one hand dragging, the other furiously attacking, coupled with sweeping Blood Waves, the Flame Monster Beast couldn't even escape.

Emperor Qing merely added to the assault with supportive strikes

from his Sword Array, delivering a few fierce final blows to the Flame Monster Beast, which Luo Feng then completely vanquished.

"My Physical Body is only comparable to that of a mid-stage Divine Emperor-level low-level Primordial Life," Luo Feng says with a smile.

Indeed, just comparable.

It's because Luo Feng's methods of killing and self-defense are more mysterious, and with the assistance of two great Secret Treasures, that he could fully suppress that Flame Monster Beast.

"Having a Physical Body that's nearly the equal of a mid-stage Divine Emperor-level low-level Primordial Life is terrifying enough," laments Emperor Qing. "Their advantage lies in their Physical Bodies, ours in our realms of power. With your realm, to bring forth such a Physical Body... you could even hunt down a mid-stage Divine Emperor-level low-level Primordial Life on your own."

"An average middle-stage Divine Emperor-level Hunting Team would at least consist of three cooperative and experienced Divine Emperors in the middle stages along with an Enlightened one, or as many as six or seven," explains Emperor Qing. "Your current strength is considered very formidable among those at the middle stage of Divine Emperor."

Emperor Qing's praise comes with mixed emotions.

He thought he had made a breakthrough, having become a middle-stage Divine Emperor himself. He assumed that this time, he would be entitled to an even split of the Spoils of War.

"About the distribution of the Spoils of War this time, let's do a seventy-thirty split," suggests Emperor Qing.

"Weren't we agreed on fifty-fifty?" asks Luo Feng, looking at him.

That was the agreement when they set out.

At that time, Luo Feng had even borrowed some Primordial Crystals from Emperor Qing to purchase a Secret Treasure Array Map, which was also used to assist this Physical Body.

"I hadn't expected that you could single-handedly slay a mid-stage Divine Emperor-level low-level Primordial Life," says Emperor Qing. "I took advantage the last time we divided the spoils, this time no! A seventy-thirty split is enough."

If it were an eighty-twenty split considering Merit Points, Emperor Qing wouldn't necessarily be limited to one-fifth.

A thirty percent share feels sufficient to Emperor Qing.

Looking into Emperor Qing's eyes and understanding his thoughts, Luo Feng nods smilingly, "Fine, then let it be seventy-thirty."

Having been in Yulan City for over seven centuries, although the Life and Death Dao has never become 'early-stage Divine Emperor', Luo Feng has accumulated increasingly deep expertise throughout the Cultivation process, also creating some Secret Techniques for Life and Death integration.

Of which the strongest is based on the Star Tower Blood-colored Scale as a template, further drawing on the profound mysteries of the combat-oriented Undying Heart, and culminating in the creation of this Physical Body Method.

It's called the 'Undying Blood Sea Body'! This method stands as the present pinnacle of Luo Feng's Cultivation path.

Purely with the Physical Body, he is comparable to a mid-stage Divine Emperor-level low-level Primordial Life!

"With just a glimpse into the mysteries of the Star Tower Blood-colored Scale and the Undying Heart, I've managed to forge such a method," Luo Feng is well aware. "Once I make further progress in my realm, this Physical Body Method can continue to be perfected."

Previous Physical Body Methods relied on the support of the Formless and Intangible transformation.

Now, the cultivation of the Physical Body must be realized through self-enlightenment! The Life Path has always been a subject of thorough study, and Luo Feng's comprehension proceeds smoothly.

"The speed of Luo Feng's growth is indeed frightening," Emperor Qing, as Luo Feng's teammate, acutely senses his pace of development, "Having been in Yulan City for just seven brief centuries, from initially slightly lagging behind me in strength. Now, amongst the middle-stage Divine Emperor Enlightened Ones, he is considered extremely formidable. If he progresses further, wouldn't he reach the level of a late-stage Divine Emperor Enlightened One?"

That's the realm of strength possessed by the Ancestors of the two nations.

"Is this the pinnacle of talent among countless worlds?" Emperor Qing sighs inwardly, shining brilliantly in the Land of Origin, but when compared to the numerous strong beings across countless Source Worlds, he, too, can only be considered 'one in ten thousand'.

Within a single Reincarnation Era of the Source World, Emperor Qing became a middle-stage Divine Emperor Enlightened One, a feat not to be dismissed lightly. In Yulan City, the number boasting such strength amounts to not more than tens of thousands, among them many old creatures who have cultivated for endless eons.

"In the Nine Rivers Sacred Realm, I am considered one in ten thousand. But this Luo Feng, he is at least one in a hundred million," ponders Emperor Qing.

...

The black Flying Boat continued its flight.

Emperor Qing, after reaching the Middle Stage of Divine Emperor on the Space Great Dao, also greatly enhanced his ability to perceive the Void.

"Hmm?" Emperor Qing carefully sensed his surroundings, everything seemed normal, with clouds rolling in the distance and dust swirling on the ground.

"We have fallen into a Formation," Emperor Qing voice transmitted to Luo Feng.

Luo Feng's expression remained unchanged on the surface, but inside,

he grew vigilant.

"I haven't detected any danger," Luo Feng's Biomimetic Eye of Destruction was also observing.

"It's a very powerful Void technique. The transition through the Void is unnaturally natural, and I only realized it after falling into the Formation. I am turning around now and will flee with all my might," transmitted Emperor Qing.

The enemy was not rushing to make a move, they were patiently waiting for them to venture deeper into the Formation.

But once turned around and fleeing, the enemy would likely strike immediately.

"Whizz!"

The black Flying Boat suddenly turned around, fleeing rapidly at immense speed.

"Hum." A vast Formation Diagram phantom appeared around the Flying Boat, covering its surface with a layer of sword light! Wrapped in the sword light, the Flying Boat's escape speed increased significantly.

"Have they discovered us?"

"They are quite sharp."

A vast painting emerged from the Void, encompassing an extremely wide area; their black Flying Boat was but a small dot within the enormous painting.

"Enter my Secret Treasure and you still wish to escape?" A cold sneer spread from the Void all around.

"Rip."

Above the black Flying Boat, suddenly, a pair of hands condensed into form.

The gigantic pair of hands burst forth with the mystery of Life and Death, forcibly tearing a slit in the vast painting, and the black Flying Boat immediately whooshed out of the painting through the gap.

"Hmm?" Five figures stood in different positions, watching the escaping black Flying Boat.

"So it is a few friends from the Deceit Workshop."

The black Flying Boat disappeared, and Luo Feng and Emperor Qing appeared, quite courteously.

Luo Feng also observed the five silhouettes occupying positions in the distance. Three great raider forces had already attempted to steal his treasures — it was the Insect Nest the first time, and the last encounter was with the Shadow Tower. This time, they met the Deceit Workshop.

He had dealt with all three great raider forces.

"The leader of the Deceit Workshop practices very special cultivation methods, calling himself 'Deceit Realm Master,' and his methods are extremely vicious. His subordinates are mostly the same," Luo Feng had naturally understood some basic information about the Deceit Workshop.

"Emperor Qing, your Sword Array, and the giant hand that just now escaped the painting of the Secret Treasure... It seems that both of you have reached the Middle Stage of Divine Emperor," observed the five silhouettes looking at Luo Feng and Emperor Qing.

"Gentlemen, shall we do this by the book?" Emperor Qing spoke.

Having escaped the ambush was already proof of their strength.

According to the rules, they would pay a fee as a tribute for the raiders' efforts.

"Dealing with these two isn't easy," a tall figure voice transmitted, "Take a fee and let them go."

"Emperor Qing and Luo Feng, in the intelligence reports, had always

been at the Early Stage of Divine Emperor. Even if they have broken through to the Middle Stage of Divine Emperor, it hasn't been long since their breakthrough, so their foundation isn't deep," a cold man with a blood-colored vertical mark between his eyebrows voice transmitted, "We five, at the Middle Stage of Divine Emperor, have long been coordinated and experienced. Joining hands against them... we have a great chance."

"The two of them are from the Source World, and even if we eliminate them, they may still have Avatars."

"Those who come out from the Source World sometimes have some very special treasures. If we can scoop up one, we'll make a fortune," the cold man voice transmitted.

At this, the other four were tempted.

Indeed.

Compared to the billions of worlds being farmed, the strong from the Source World received more resources, like Special Life Remnants, Innate Secret Treasures, and even treasures exchanged in the Infinite Space were all very enviable for the strong from the billions of worlds.

Luo Feng and Emperor Qing were extremely vigilant.

"The rules?"

"Outside Yulan City, there are no rules!" The cold man sneered, "Today, both of you must die!"

As the voice dropped.

Black rain appeared, covering a boundlessly vast area around them. Within this vast area, the enormous painting appeared once again, looming over Luo Feng and Emperor Qing once more.

"They want to kill us!" Emperor Qing's face changed drastically, his eyes also filled with madness.

With raiders, not everyone followed the rules.

And once the rules were disregarded, it was the naked law of the jungle!

"Emperor Qing, I'll take on four, you take on one!" Luo Feng's eyes were filled with a cold killing intent.

Chapter 309 16 Undying Blood Sea Body

A vast painting covered an endless expanse, and in a split second, the five figures all merged into the painting, vanishing from sight. Meanwhile, black rain poured down, with white mist forming anew. These white mists caused the temperature to plummet drastically, to an inconceivable degree.

"How ridiculous!" Luo Feng sneered. His body flickered and instantly became towering and massive, clad in a layer of thick blood-colored scale armor. Layers of blood-colored scales covered every part of him, and beneath Luo Feng's feet, the boundless and endless Blood Sea spread out.

Inside Luo Feng's body was a Secret Treasure Array Map.

This was one of the two main Secret Treasures Luo Feng relied on in battle now—the 'Life and Death Tribulation Map'. It was purchased before this hunt with 300,000 Primordial Crystals borrowed from Emperor Qing, along with the few Luo Feng had remaining. This Array Map contained the profound mysteries of life and destruction at the later stages of a Divine Emperor.

The purchase of this Array Map was to augment his Physical Body, the 'Undying Blood Sea Body'.

"Rumble~~~~"

The Array Map operated.

The boundless and raging Blood Sea became even more wanton and ferocious!

Assisted by the Array Map, it swept across hundreds of millions of

kilometers in an instant, turning the entire area enveloped by the vast painting into a blood-red world.

This blood-red world had an endless Blood Wave below and an endless blood mist above.

It was precisely the 'Life and Death Tribulation Map', combined with Luo Feng's Undying Blood Sea Body, that allowed him to derive a large-scale Domain technique—the Blood Sea Heaven and Earth!

Once the Blood Sea Heaven and Earth was formed, the vast surrounding area became a part of his own body. Luo Feng's Blood Sea, teeming with endless vitality, effortlessly shattered the painting, rain, and white mist—the three kinds of Domain forces.

The immense painting collapsed under absolute power.

The black rain, containing terrifying poison and permeability, still could not match Luo Feng's stronger life force and recovery ability. It was exhausted in a fierce battle, where the Blood Sea depleted a part, and the black rain had to deplete ten times more. Hissing sounds erupted as the black rain quickly dispersed.

The white mist contained extreme cold, but it could not freeze the Blood Sea.

"Rumble——"

The Blood Sea surged wildly, scattering the black rain, covering the white mist, and tearing the great painting to shreds.

"Not good!"

"We've provoked a formidable opponent."

As the huge painting was torn apart in an instant, the five figures were forced to emerge, showing their shock at having kicked an iron plate!

These Domain techniques were executed in concert by three of them. Yet now, they were suppressed by Luo Feng alone! The gap in their Domain abilities indicated that this Luo Feng was not to be trifled

with.

"Being skilled in Domain doesn't mean they are also strong in other aspects."

"Since we've already clashed, there's no turning back."

"Take them down."

These five, after all, were also at the middle stage of Divine Emperor and considered The Enlightened, naturally very confident in themselves.

"Let's eliminate the weakest one first." A figure in a white robe looked at Emperor Qing, and in an instant, boundless radiance appeared that touched Emperor Qing as it shone.

"You think I'm easy to deal with?"

Emperor Qing instantly turned into a Sword Array. Knowing his limits, he minimized the range of the Sword Array, going all out just to deal with this white-robed figure.

"Your opponent is me!" Luo Feng's towering figure bellowed, the infinite Blood Wave surging in all directions and sweeping toward those five formidable enemies.

"If you're seeking death, I shall grant it to you." A cold-hearted man stared at Luo Feng, his body turning into black mud.

This black mud disappeared in the same spot but appeared on the surface of Luo Feng's body.

On Luo Feng's towering body, strands of black mud began to penetrate through the blood-colored scale armor on his skin.

"This power?"

Luo Feng felt the extreme poison and permeability of this black mud. It was an evolved version of the previous black rain, far more terrifying! However, Luo Feng's physical body was crafted after 'Blood-colored Scale and the Undying Heart' found within the Star

Tower.

The greatest feature of his body was its immortality!

"How is his body so difficult to penetrate?" The cold-hearted man found it incredibly challenging; as he eroded, he himself was constantly depleting.

"We still need to kill him face-to-face."

Endless white mist coalesced in mid-air, turning into the same towering ice giant creature.

This ice creature, similar in height to Luo Feng, had two heads and eight arms—all made of ice, sparkling and crystal-clear under the light, and stunningly beautiful. It instantly rushed in front of Luo Feng, all eight arms attacking simultaneously.

"Break."

Luo Feng clenched his fists, wearing Secret Treasure Gloves on both hands, unleashing their power all at once.

Boom—

Luo Feng did not care about the direction of the eight-armed assault; he just hammered his fists straight ahead. The area where his fists struck trembled under the overwhelming pressure, shattering four of the arms trying to block and finally impacting the chest of the ice creature, blasting a huge hole in its chest. The ice creature was hurled back from the terrifying impact.

"His close-quarters combat is so fierce too?" This scene took the five powerhouses from the Deceit Workshop by surprise.

Each Cultivator has their strengths, and being skilled in Domain doesn't mean they are also powerful in other aspects.

Yet Luo Feng's large-scale Domain and close-quarters combat abilities were both extremely strong among middle-stage Divine Emperor The Enlightened.

"Unite against him."

"Surround and kill him!"

Black mud persistently permeated the surface of Luo Feng's towering body.

The ice creature's chest wound healed rapidly, returning to normal as the ice swiftly mended. Stepping forward, it charged at Luo Feng, fierce and heedless of life.

More blue ribbons flew in, enveloping the vast Void, binding Luo Feng from all directions, leaving him no way to dodge.

A massive blood serpent suddenly appeared, instantly coiling around Luo Feng's right leg and waist with such force that even Luo Feng felt a twinge of pain.

"Hmm?"

Luo Feng struggled at this moment, but the blue ribbons were too tenacious, likely formidable Secret Treasures invincible to him.

Crack, crack, crack, crack~~~

As the giant serpent constricted, cracks appeared on the blood-colored scales on Luo Feng's body, but they healed instantly.

Surrounded by four attackers, Luo Feng's body was still able to withstand the onslaught.

"He sure is tough, his body barely took any damage."

"But he can't fight back. Imprison and suppress him, then slowly kill him."

The four strong ones from Deceit Workshop communicated with each other through instant transmission of thoughts.

Watching this scene from a distance, Emperor Qing, who was battling another formidable enemy, became somewhat worried: "One against four is still too difficult. The combined strength of the four from

Deceit Workshop is too tricky to handle."

Although worried, Emperor Qing was not panicked.

They were the strong ones from the Source World, even if they died in battle today, they still had their Avatars!

"Hahaha..."

Bound and unable to resist, Luo Feng burst into laughter.

"Do you think this is my real Physical Body?" Luo Feng looked at them and laughed heartily, "The Physical Body Method I created, I named it 'Undying Blood Sea Body'. Have you thought about... why I named it that?"

The five strong ones from the Deceit Workshop immediately sensed something was wrong upon hearing these words.

"Because the Blood Sea is my true body!" Luo Feng laughed heartily as his towering figure instantly disintegrated, turning into Blood Waves that merged into the endlessly bright and boundless Blood Sea.

Yes.

The Undying Blood Sea Body, where the endless Blood Sea holds eighty percent of the Energy Reserve, and that condensed Physical Body is just twenty percent of the Energy Reserve.

Moreover, the body can transform between the 'Blood Sea' and 'Physical Body' at any time. This is true immortality!

"Uh?" The four strong ones from Deceit Workshop attacking him were somewhat dumbfounded; the towering figure they had been fighting dissolved into the Blood Sea, blending into the boundless expanse.

How were they to fight now?

"Rumble—"

The Blood Sea turned heaven and earth upside down!

In an instant, it covered the entire world!

"The first tribulation of the 'Life and Death Tribulation Map' Secret Treasure Array Map — Life and Death Prison!" At the core of the vast and endless Blood Sea was the "Blood Sea Eye," which, now in conjunction with the Secret Treasure Array Map, naturally formed a space prison inside the Blood Sea Eye. This prison now enshrouded only a clump of massive black mud.

The black mud transformed into a cold and gloomy man.

"What is this?" The man looked around.

This was a space prison formed within the Blood Sea Eye, completely isolated from the outside world.

With the Power of Life and Death circulating endlessly, it constantly whittled away at the enemy.

"It's better to break one of his fingers than to hurt his ten fingers." Luo Feng's figure materialized in the prison, "Let's start by killing you first."

Luo Feng was well aware that the Life and Death Prison he deployed with his Undying Blood Sea Body and the Array Map could only dare to imprison one enemy. Imprisoning too many enemies would be risky, as they might be able to break out of the prison.

Just imprison one! Luo Feng was much more confident.

"Do you think you can kill me?" The cold man said while observing his surroundings.

Under the operation of the Formation, chains formed by the condensed Power of Life and Death appeared out of nowhere, naturally binding the cold man who couldn't resist at all.

"With his strength above mine, I shouldn't harbor any hope of luck." The cold man sensed danger and immediately used his life-saving treasures.

Buzz—

The cold man turned ethereal in an instant, breaking free from the binding chains, and collided against the space prison. Though the prison desperately tried to stop him, he pierced through it instantly. He then collided against the layers of the Blood Sea Eye.

The Blood Sea Eye was the core of the Undying Blood Sea Body, akin to an inner world. Luo Feng's Heaven and Earth Avatar had merged with it, reinforcing the Blood Sea Eye.

"Thump."

The ethereal cold man collided against the membrane of the Blood Sea Eye, breaking through three layers before losing momentum.

This Secret Treasure excelled at Flying Escape! When it came to piercing through spatial membranes, it was somewhat lacking, and after consecutively breaking through the space prison and three layers of the Blood Sea Eye's membrane, he could no longer escape.

"What?" The cold man regretted at that moment.

He regretted not having bought more life-saving treasures!

He thought traveling with four comrades was safe enough, and one life-saving treasure would suffice.

"It seems you didn't escape!" Luo Feng's figure, which rematerialized quickly, looked at him with a smirk, "Looks like today, you're really going to die."

"Spare my life, please spare me," pleaded the cold man, bound again by the chains that formed out of nowhere, his body eroding under the Power of Life and Death, panicked, "If you let me go, all the treasures on me are yours."

"What a joke, if you die, won't the treasures become mine?" Luo Feng looked at him.

"I have many friends in the Deceit Workshop. If you kill me, you'll incur many great enmities," the cold man continued.

"Do you mean, only you can kill me, but I cannot kill you?" While

Luo Feng spoke, the Life and Death Prison continued to squeeze and erode away at his Physical Body unabated.

The cold man's body was losing energy more and more.

"No, no—" In desperation, the cold man attempted to contact his four comrades.

...

The other four strong ones from the Deceit Workshop were somewhat stunned; one of their comrades had been imprisoned in the boundless Blood Sea?

"This Blood Sea is his body; he must have an 'Inner Space', skilled at imprisoning enemies." These four strong ones could not find the Blood Sea Eye in the vast Blood Sea.

"Save me, save me. Even my life-saving treasure couldn't help me escape."

"Quick, save me."

Their comrade was pleading for help.

The four strong ones were shocked.

"Luo Feng, you haven't been in Yulan City for long. If you kill 'Kumo', his master and friends will definitely come after you," the icy creature spoke.

"If you kill him, for the sake of our Deceit Workshop's reputation, we will not let you go," said the great serpent coldly.

"Hahaha..."

The endless Blood Sea laughed, "I, a strong one from the Source World, afraid of making enemies? If you want to kill, just try! I would like to see, in the end, who will be afraid of whom!"

Chapter 310 17 The Death of Kumo

Emperor Qing, who was far away, heard what Luo Feng said and also felt his blood boiling, laughing heartily: "Right, we, the strong from the Source World, have never been afraid of making enemies!"

The four strong figures from Deceit Workshop all felt that things were not looking good. Normally, the strong figures from the Source World acted cautiously to maintain a stable cultivation environment. But if they really tore their faces apart and fought to the death...

It's possible that the powerhouses of the Source World may lose treasures, but they can continuously send avatars from their hometown!

"Originally I thought that killing two Mid-stage Divine Emperors wouldn't be so easy. Just take a sum of money and let them go. But Kumo insisted on making a move."

"In this Endless Blood Sea, we can't find the place where Kumo is imprisoned, so it's impossible to rescue him."

The four strong figures from Deceit Workshop also felt quite troubled.

Suddenly—

"You must find a way to help me, he is refining me, and I can't hold on much longer," the cold male prisoner anxiously communicated with the outside world, "My body has already been refined by 20%!"

"Beg for mercy, negotiate, whatever method you can think of, find a way to save me," the cold male transmitted his message, "As long as you can save me, I am willing to give each of you ten million Primordial Crystals."

The four strong figures of Deceit Workshop heard this.

"20% refined already?" They were shocked. Those Innate Primordial Lives all have Life Cores! But as cultivators, they have no vital points, they can be destroyed either by totally annihilating their souls or completely destroying their physical bodies.

"If Kumo dies, this Endless Blood Sea might imprison one of us next, breaking us down one by one."

The ice creature remotely transmitted to his three companions.

With these words, a shiver also ran through the hearts of his three companions.

Everyone joined Deceit Workshop, how deep could their fellowship be? Naturally, it was impossible.

"Let's go."

"Hurry and leave."

After the four of them reached a consensus, the light and shadow originally fighting with Emperor Qing also flashed and converged with the other three companions.

"Kumo, we will inform your master, let him find a way to save you," they transmitted these words to him, then the four of them together turned into a hazy light, tearing through all obstacles and forcibly flying toward the distance.

If both sides fought, it would be hard to determine the winner in a short time, and Luo Feng would also take time to break them down one by one.

Once they fully fled, Luo Feng's Endless Blood Sea was also unable to intercept them.

"Whoosh."

The hazy light moved very fast, disappearing into the distant horizon in a matter of moments.

Whoosh.

The Endless Blood Sea condensed into a figure in a black robe, which was Luo Feng.

"They've left." Emperor Qing also flew next to Luo Feng, smiling as he looked into the distance, "I didn't expect that the two of us against five... they lost one, and the other four simply fled."

"What deep relationships can these plundering forces have?" Luo Feng sneered.

"By the way, the Divine Emperor you've imprisoned, is there a way to kill him?" Emperor Qing asked.

"Just a moment," said Luo Feng.

Emperor Qing immediately showed a smile: "Refreshing, they wanted to kill us, we should kill them! Killing that Divine Emperor, the spoils might be more than we gained from this hunt."

A thought crossed Luo Feng's mind.

"Only the strong figures of billion worlds do not have avatars! Therefore, the treasures they have accumulated are always carried on them," Emperor Qing laughed.

Luo Feng understood.

Some auxiliary treasures, inheritances, and so on, might have been long gone. But the habitual carrying of Weapon Secret Treasures and some cultivation-needed materials is generally retained.

"Just in case they come with reinforcements, we should leave here first," said Luo Feng, who was currently fully refining the imprisoned Kumo.

"Go."

Emperor Qing and Luo Feng together immediately boarded the black Flying Boat, quickly leaving.

…

In Luo Feng's body, the 'Eye of the Blood Sea' of the Undying Blood Sea Body.

Within the space prison deployed with the Secret Treasure Array Map.

"Hiss hiss hiss."

The power of the Array formed Life and Death Chains, all binding the figure of Kumo, eroding and strangling his body.

"Kumo's body is composed of countless rule-based deadly poisons," a clone of Luo Feng arrived here, observing the opponent with the Biomimetic Eye of Destruction. Kumo's body was actually an endless black mud.

Blasting his body, he would also disperse into countless deadly poisons, basically without loss.

This time, Luo Feng acted with his Endless Blood Sea covering a vast area, successfully imprisoning all 'Black Mud Poison,' which finally prevented Kumo from escaping.

"Hiss hiss hiss." At the moment, the Life and Death Array worked together to refine, continuously refining and consuming parts of the rule-based deadly poisons.

"They ran away?"

Kumo was angry, then also resigned.

In the entire Yulan City, only his master truly had a close relationship with him! Who else really cared about his life and death?

"This is a terrifying Array." Unable to escape, as Kumo felt the Life and Death Array's power eroding and strangling him, he was originally not afraid of close combat, and during this encounter, he was the first to attach himself onto Luo Feng, wishing to erode Luo Feng's body.

But in terms of bodies, Luo Feng was clearly stronger.

"My 'Deceitful Poison Body', with this I can engage in close combat with low-level Primordial Lives at the Mid-stage of the Divine Emperor, erode them, and hurt them."

"Yet, my Deceitful Poison Body cannot overcome the power of this Life and Death Array." Kumo's body gradually distorted, only his head remained normal as his body started to turn into a mass of black mud.

Black mud, constantly being refined and consumed.

"Luo Feng."

Kumo, maintaining his normal head, looked at Luo Feng.

Luo Feng stood not far away, observing Kumo's current state

"You still wish to live?" Luo Feng looked at him.

"I wish to live."

Kumo nodded.

"Since you wish to live, why act so decisively? Even when offered a sum of Primordial Crystals, you still made a move?" Luo Feng spoke, "When you chose to make a move, you should have realized that once you fall into my hands, I won't give you another chance."

Kumo nodded, his cold face revealing a faint smile, "Along this journey, I have killed too many creatures; it is finally my turn to be killed."

Kumo closed his eyes.

At this moment—

He reminisced about his journey.

In the world where he was born, the Great Dao was toxic! The more one cultivated, the closer one came to 'death'; one must breakthrough

to the next realm before each calamity arrives in order to continue to survive arduously.

He had traveled through more than three hundred worlds, personally witnessing the destruction of nineteen worlds, and he also caused the destruction of three worlds.

He himself had ascended three times!

Brutally, before the final 'Great Dao Death Tribulation', he reached the Godly King Tier, mastering a branch of the Great Dao. Only by mastering a branch of the Great Dao could he escape the 'Great Dao Death Tribulation'. Thereafter, he even mastered the complete tainted Great Dao...

After arriving at Yulan City, he perceived that the inheritance of Deceit Workshop suited him perfectly, and thus he cultivated the Deceitful Poison Body.

Killing and plundering were as common as breathing to him; he didn't even care about destroying worlds.

"I reached the Godly King Tier, only then did I escape the Great Dao Death Tribulation."

"But, through the long years, I have grown accustomed to it—accustomed to killing, to plundering, to all of it."

"Habit, it has deeply ingrained into my soul."

In the moment nearing his death, Kumo finally understood.

The numerous arduous ordeals of the 'Great Dao Death Tribulation' from his weak state to becoming a Godly King had too profound an influence on him.

"Sigh."

His body was nearly refined, only a small remainder left.

At this moment, Kumo tried to contact his companions, but due to the vast distance, it was no longer possible to reach them. The Nine

Rivers Sacred Realm imposed strong suppressions; the range for transmitting artifacts was also relatively small.

"Can't contact them anymore."

At this moment, Kumo thought of his only master.

His master's talents were much stronger than his. It was thanks to his master that he could escape death and reach this day.

"Master, don't seek revenge for me," Kumo murmured softly, "I wasn't killed by another cultivator, but died by the hands of the Great Dao Death Tribulation."

Whoosh.

Finally, the small remainder of black mud was completely refined away.

Kumo completely vanished, leaving no residue behind.

At the time of his death, only then were Secret Treasures left behind.

Luo Feng watched the entire refining process from start to finish; a 'Mid-stage Divine Emperor's strength' cultivator, he knew their cultivation path was legendary and their cultivation journey arduous.

Furthermore, Luo Feng knew that the seniors had expended great efforts in raising powerful cultivators.

Thus, in Yulan City, Luo Feng stayed low-key, avoiding trouble.

But when someone wanted to kill him, Luo Feng would no longer hold back!

"You are the first Divine Emperor I have killed," Luo Feng said softly, waving his hand to collect the Secret Treasures Kumo left behind.

These treasures included a storage artifact 'Illusion Realm Maze', and Deceitful Secret Treasures.

As for what's inside the Illusion Realm Maze, it stored a large amount

of items.

Among them were numerous Low Level Primordial Life Materials, particularly of a poisonous kind. There were also other various Spoils of War he successfully plundered; 'Illusion Realm Maze' itself contained three treasures.

"Quite a few cultivators died at his hands," Luo Feng thought, "The materials he purchased are also quite premium."

Unlike his own impoverished purchasing methods.

Kumo's purchasing was much more lavish, of course, many materials were to aid his poison refining.

"Estimated value of these materials and treasures is about 80 million Primordial Crystals," Luo Feng judged; a cultivator's rewards were mostly consumed, such as purchasing assistance Treasures, buying a powerful lineage.

What he carried with him were all commonly needed cultivation items, their value was relatively limited."

"80 million Primordial Crystals is very good," Luo Feng was satisfied.

...

The return journey thereafter was much smoother, encountering no more plundering, and the black Flying Boat successfully arrived at Yulan City.

"Brother Luo Feng, you killed Kumo, this news will spread quickly," Emperor Qing said, "Your reputation in Yulan City will be much bigger than before."

Previously Luo Feng was too low-key; people outside even thought Luo Feng was in the Early Stage of Divine Emperor.

This time...

Luo Feng, facing four Mid-stage Divine Emperors alone and even managed to counter-kill one Mid-stage Divine Emperor 'Kumo'! Such

strength was absolutely of a strong caliber among Mid-stage Divine Emperors, enough to attract the attention of many powers.

"Looking at Yulan City, your strength ranks within the top two thousand," Emperor Qing said, "With such fame, even if you don't seek trouble, troubles may still come looking for you."

Luo Feng nodded.

"By the way, according to information, the only real relative of Divine Emperor Kumo in Yulan City is his master 'Yu Yong'," Emperor Qing said, "His master, Yu Yong is much more difficult to deal with."

"I'm merely an Avatar in the Nine Rivers Sacred Realm, what is there to fear?" Luo Feng smiled easily.

The other party is the True Body, mine is an Avatar.

The anxious one should be the opposite party!

"Sigh." The black Flying Boat flew through the high skies of Yulan City, heading straight for the Primordial Hall.

Chapter 311 18 Elder Tian He and Yu Yong

Primordial Hall, first floor, shop number three.

"Oh!" Bu You, a plump elder, widened his eyes as he examined the lower-level Primordial Life corpses stored in the storage bag, among which a huge, completely red corpse was particularly conspicuous, "Judging by its size and aura, this is surely a mid-stage Divine Emperor level low-level Primordial Life."

Bu You looked at Luo Feng and Emperor Qing in surprise.

In Yulan City, being able to hunt a 'mid-stage Divine Emperor' low-level Primordial Life already proved the team's strength.

"Hurry up and make an offer," Emperor Qing urged.

"For this Flame Demon corpse, I can offer the highest 12.5 million Primordial Crystals," said Bu You, "Including its 10 Battle Merits, that makes a total of 13.5 million Primordial Crystals."

Luo Feng and Emperor Qing glanced at each other, this was indeed the highest offer. The other two shops they just visited, excluding Battle Merits, offered a maximum of 12 million and 12.2 million respectively.

"This Flame Demon corpse is yours," Emperor Qing said with a smile.

Hearing this, Bu You immediately laughed heartily, he was determined to get his hands on the complete Flame Demon corpse. The core tendons of the Flame Demon corpse were long-term purchasing targets for the power behind him, and other body materials could also be used for Artifact Refining, used in medicine, or for making puppets and more.

Don't just see it as a 'mid-stage Divine Emperor' low-level Primordial Life corpse. That's because these lives are of a lower realm and cannot fully utilize their advantages. Being an entity born outside of the Braided Cage, their bodies are quite special and can play a greater role in the hands of Cultivators.

Even the last bits and pieces can also serve as materials for Cultivators to study and practice their Cultivation.

"All are sold."

Luo Feng and his group visited the three most familiar shops on the first floor of the Primordial Hall, selling everything suitable.

"This time, from our hunting of one mid-stage and seven early-stage Divine Emperor low level Primordial Lives, we have earned a total of 19.5 million Primordial Crystals," Luo Feng and Emperor Qing also simplified the division of income.

Splitting seventy-thirty, Emperor Qing took away 5.85 million Primordial Crystals, and the remaining 13.65 million Primordial Crystals went to Luo Feng.

Luo Feng, in order to purchase the Array Map Secret Treasure, also borrowed 300 thousand Primordial Crystals from Emperor Qing, which he now has returned.

"The spoils of war from killing Kumo, don't rush the process," Emperor Qing said, "Take a more thorough look around Yulan City."

Luo Feng nodded.

Those spoils of war are a bit troublesome to deal with.

If lazy, you could sell them all here in the Primordial Hall! But that would mean a huge discount.

A complete low-level Primordial Life corpse can be sold here. However, many scattered materials, even many formulated deadly poisons, and some precious materials prepared for poison making, still need to be sold to those who know their stuff.

"Spend a few more days on this process," Luo Feng was in no rush, such a large batch of spoils of war must be handled well.

"Also be careful with Kumo's master 'Yu Yong', and the Deceit Workshop!" Emperor Qing reminded before leaving.

Luo Feng then went to deal with those spoils of war.

...

In Yulan City, there are a total of three forces that regularly commit 'theft and plunder', namely Insect Nest, Shadow Tower, and Deceit Workshop!

You should know the entire city has 723 individuals with the strength of late-stage Divine Emperor Enlightenment! These three forces dare to plunder like this without fearing offending enemies, showing they all have strong backing.

"Deputy Workshop Master, the 'Kumo' from the Black Light Team is dead," reported the four experts from the team, who had returned to Yulan City ahead of Luo Feng and his group, naturally also passing on the news.

The entire Deceit Workshop has eight Deputy Workshop Masters! Each possesses the strength of late-stage Divine Emperor Enlightenment, and among them, five serve as Elders of Yulan City.

The eight Deputy Workshop Masters are the actual managers of the Deceit Workshop.

Regarding the Workshop Master?

The Workshop Master has extremely strong strength, already approaching the level of the three Hall Masters! Usually, he is not visible. The main focus of the Workshop Master... is on his Avatar in the Dark Sacred Realm. Maintaining the existence of the Deceit Workshop is simply to reap sufficient benefits.

"Kumo is dead?" A stunningly handsome man in a white robe sat there, his entire body naturally emitting a thin layer of halo. If you look closely, the halo is actually formed by thousands of protective

layers.

The beautiful man is one of the Deputy Workshop Masters of Deceit Workshop—Elder Tian He.

"I only have twenty teams under my command, and suddenly losing a member from the Black Light Team, rearranging the team members is quite bothersome." Elder Tian He chuckled lightly, his fingers as smooth and translucent as crystal jade, leisurely pouring wine, "How did he die?"

"Deputy Workshop Master, the detailed report is here." The figure in golden armor respectfully presented the report.

Elder Tian He glanced over it.

The report outlined the entire process of the previous battle, all displayed.

"Luo Feng?"

Elder Tian He murmured softly, "A Cultivator who has only been in Yulan City for about seven hundred years, his Physical Body Method is somewhat interesting."

However, he didn't pay much attention to it.

Coming from the Source World himself, serving as an Elder in Yulan City and as a Deputy Workshop Master in the Deceit Workshop, all for the sake of reaping benefits along the way! His main focus is also in the Dark Sacred Realm.

As one who has reached the stage of late-stage Divine Emperor Enlightenment long ago, his wealth accumulated over long years, even in Yulan City, he possesses a complete and powerful set of Secret Treasures, naturally not putting Luo Feng in his eyes.

"Killing my subordinate, he should compensate me somehow," Elder Tian He glanced at the golden armored figure, "Go find Luo Feng, tell him... compensate 50 million Primordial Crystals, and we'll call it even."

"If he is unwilling to pay, you don't need to say more, just come back," Elder Tian He instructed.

"Yes." The golden armored figure responded respectfully and immediately left.

Elder Tian He leisurely sipped his wine, his mood not fluctuating at all.

A subordinate died? He didn't care at all.

The purpose of his Avatar staying in Yulan City is solely to accumulate resources.

"Yulan City, it's been boring for too long," Elder Tian He revealed a hint of a smile, "Luo Feng? I truly hope you refuse me; that would be somewhat interesting."

To continuously reap benefits in Yulan City, apart from reputation, you also need sufficient deterrence!

Deterrence, is to be fought for!

"Hmph."

Elder Tian He's eyes were ice-cold.

Compared to the harshness of the Dark Sacred Realm, the days in the Nine Rivers Sacred Realm were purely a relaxation for Elder Tian He.

...

In the core area of Yulan City, within a Cave mansion that boasted better security and energy supply than even Emperor Qing's dwelling.

"Kumo is dead?"

Yu Yong in the Cave mansion, received the news, along with the full battle progress from his four companions.

Yu Yong had a considerably imposing physique; he was not from the Enlightened One Lineage, but a Primordial Bloodline Cultivator!

Strength-wise, he had nearly elevated the Primordial Bloodline to the 'Half Primordial Level'.

Yet, he was a fraction short.

True 'Half Primordial Level Bloodline Cultivators', had a status comparable to those at the Late Stage Divine Emperor Enlightenment. The strength Yu Yong possessed now, allowed him just barely meet the minimal threshold to enter the Dark Sacred Realm. But he was reluctant to try.

Should he go, he would be at the bottom tier.

He would rather continue his accumulation in the Nine Rivers Sacred Realm, until he truly reached the Half Primordial Level.

"Oh, Kumo." Yu Yong sighed softly, "I've said before, coming to Nine Rivers Sacred Realm has made our days much more relaxed. There was no need to join that Deceit Workshop."

Yu Yong and Kumo climbed up from the very bottom together.

Throughout this process, they had other companions too, but ultimately only the two of them reached the Nine Rivers Sacred Realm.

For cultivators from the Source World, the path of cultivation was much tougher, and achieving the status of Divine Emperor was incredibly challenging! Yet, their pressures within the Source World weren't that intense.

But Yu Yong and Kumo had various resources, making their cultivation easier, yet crises were frequent, and the threat of death drove them relentlessly to cultivate.

If not strong, then dead.

"I've seen 'Senior Jin' with my own eyes," Yu Yong sighed, "Senior Jin said that as long as we can escape the Braided Cage, he's willing to revive a large number of our dead comrades. For us, the most crucial thing is to escape the Braided Cage rather than fight other cultivators to death."

Yu Yong understood his disciple, Kumo, very well.

Kumo grew up amidst slaughter all his life. Becoming a Divine Emperor, he still habitually followed that path because it was the fastest way to amass resources.

"Before, our environment forced us; we had to kill. But now in Nine Rivers Sacred Realm, we are not forced, we can slow down." Yu Yong cherished these relatively leisurely and calm days.

"Luo Feng?"

Yu Yong looked at the complete report, "Perhaps, Luo Feng is Kumo's calamity."

He held no hostility towards Luo Feng.

Initiating plunder and wanting to kill the opponent! If it resulted in death, who could be blamed?

On the path of growth through slaughter, Yu Yong had seen too many companions' deaths, and he was even prepared for his own at any moment. Ultimately, he and Kumo were very fortunate to completely transcend their original world and come to Nine Rivers Sacred Realm.

That Kumo died here, Yu Yong was not surprised at all.

Choosing the path of 'plunder' meant being prepared for backlash.

"I won't avenge you," Yu Yong said softly, sighing, "I believe, Kumo, you would expect the same."

The two understood each other too well.

Called master and disciple, but having grown together through the long years, they were companions in life and death.

"My path of cultivation has only one goal, that is to escape the Braided Cage!" Yu Yong's eyes held an unprecedented firmness, for only by escaping the Braided Cage could he make up for too many regrets.

...

Luo Feng was visiting various merchants in Yulan City, seeking the best deal for handling his massive amount of Spoils of War, not necessarily for the 'highest price' but a close one.

The sky had darkened, and the wind was strong.

Just as Luo Feng exited a merchant's place, he saw a golden armored figure in front appearing before him, covered in golden armor, his face cold as he looked at Luo Feng.

"Deceit Workshop, Qiu Yike," Luo Feng immediately recognized the other; he had earlier purchased citywide information on Divine Emperors, and although he hadn't updated it recently, the data on Divine Emperors changed little in a short period.

Qiu Yike, a member of the Deceit Workshop with the strength of a Mid-stage Divine Emperor.

"You came because of Kumo?" Luo Feng looked at him.

"Luo Feng."

The golden armored figure looked at Luo Feng, "Kumo was under the Deputy Workshop Master Elder Tian He from our Deceit Workshop. You killed Kumo, and the Deputy Workshop Master was furious. However, considering Kumo attempted to rob you first, an opportunity for redemption is given!"

"An opportunity for redemption?" Luo Feng looked at him.

"Compensate with fifty million Primordial Crystals, and Deceit Workshop will not pursue it further," the golden armored figure stated.

"Fifty million Primordial Crystals?"

Luo Feng burst into laughter, "Your Deceit Workshop's team tried to plunder and kill me outside the city, I retaliated and now you demand I redeem myself by compensating? Do I just stand there and be slaughtered when faced with plunder and killing?

"You can fight back, and after that, you still have to pay," said the golden armored figure, "Deliver fifty million Primordial Crystals to the Deputy Workshop Master within three days. Of course, you can choose not to pay. But the consequences aren't something you'd want to see."

Having said this, the golden armored figure turned and walked away.

"Don't wait three days."

Luo Feng spoke up, "Go back and tell your Deputy Workshop Master 'Elder Tian He' behind you, not to talk about fifty million Primordial Crystals! Not a single Primordial Crystal! Whatever tricks you have, just bring it on!"

The golden armored figure looked at Luo Feng and cracked a smile: "Impressive!"

Having said that, he swiftly flew away.

——

Thanks to the new Alliance Hierarchs 'Muyi Bai Not White' and 'Betting' for their rewards! Also thanks to the old Alliance Hierarchs, Old k and Venerable Xu Xin for their rewards!

Chapter 312 - 19 Early Stage of Divine Emperor, Life and Death Dao

The nighttime city of Yulan remains bustling, and Luo Feng gazes at the departing golden-armored figure, sensing the undisguised malice from the other party. In the eyes of that golden-armored figure 'Qiu Yike,' Luo Feng's days ahead would be miserable.

"They ambush outsiders. Failure to ambush leads to them demanding compensation from the victim? Deceit Workshop, truly domineering," Luo Feng gently shakes his head, "As for Elder Tian He? I shall see just what he can do to me!"

Luo Feng smiles slightly and then continues to visit the next merchant.

Meanwhile, inside Emperor Qing's cave mansion.

The avatar of Luo Feng here has already immediately gathered his companions.

"What's happened?" Emperor Ming has been in seclusion and cultivation, losing the desire to hunt. However, he didn't block the communications from Luo Feng and Emperor Qing, even during seclusion.

"Brother Luo Feng, what's the matter?" Di Fu is busy working at the Nine Ringed World Tower in the city. Of course, he has an avatar in the cave mansion, practicing the Dao of Infinite Space.

Emperor Qing sits to one side, guessing already, "Is it Deceit Workshop?"

"Hmm."

Luo Feng looks at his three companions and nods, "Just now, Deputy Workshop Master 'Elder Tian He' from Deceit Workshop sent someone to see me, demanding I compensate 50 million Primordial Crystals and to let the matter of the ambush and counter-killing slide. I refused outright."

"Ambush and counter-killing?"

"You were ambushed outside?" Emperor Ming and Di Fu now realize that the two strong legs they rely on have gotten into big trouble outside.

Emperor Qing explains, "On our way back from hunting, Brother Luo Feng and I were attacked by a Deceit Workshop team. That team consisted of five Mid-stage Divine Emperor Enlightened powerhouses. They surrounded us… Brother Luo Feng killed one called Kumo, and the other four withdrew in fear."

"Two against five, and you killed one? A Mid-stage Divine Emperor Enlightened at that?" Emperor Ming and Di Fu are shocked.

Di Fu, who is painstakingly working towards attaining the Ultimate Realm of God King.

Emperor Ming, on the path of Primordial Bloodline,, is only at the Early Stage God Emperor Level! He is well aware that a Mid-stage Divine Emperor Enlightened corresponds to a Late Stage Divine Emperor Bloodline Cultivator! Such a level of Bloodline Cultivator is only a step away from the Half Primordial Level, and they were counter-killed by Luo Feng?

"Deceit Workshop is threatening me," Luo Feng says, looking at Emperor Ming and Di Fu, "I am not afraid of them, but you two should be careful."

Emperor Qing also nods, "The retaliation from Deceit Workshop will come swiftly. There are strict laws within the city, they don't dare act boldly and cannot trouble me and Brother Luo Feng openly, but your two strengths are too weak, even some covert methods are sufficient

to deal with you both."

"I haven't gone out recently," Emperor Ming speaks.

"I have many avatars," Di Fu laughs, "Those that go out are very poor."

Luo Feng and Emperor Qing then nod in agreement.

"The laws of Yulan City are strict; although some Elders carry out ruthless deeds in secret, the city is enveloped in layers of Formations on the surface, and they can't openly defy the laws," Emperor Qing says to Luo Feng, "Even underhanded tactics are clandestine. Such methods can't harm you or me."

Luo Feng agrees as well.

With his Blood Sea Undying Body, even if Elder Tian He made a move openly, they would both have to use some techniques to kill Luo Feng's Blood Sea Undying Body.

It is still safe in the city.

"Insect Nest, Shadow Tower, Deceit Workshop, they all carry out ruthless deeds. Their revenge is mainly carried out outside of the city," Emperor Qing says, "We don't have absolute confidence now, so let's not go out hunting for the time being."

"Alright," Luo Feng agrees, "First, let's rest well for a period of time."

Emperor Qing, who has just reached Mid-stage Divine Emperor, can expect that it will be very difficult to make a breakthrough for a long time. He needs a long period of accumulation and doesn't wish to rush into danger now that he has offended Deceit Workshop.

Luo Feng, having obtained a large amount of Spoils of War, also wants to properly digest these treasures!

...

The retaliation from Deceit Workshop came very quickly.

Just two days later, Di Fu lost his job at the Nine Ringed World Tower, and on his way back, he was silently obliterated! Even how the assailant made the move could not be investigated.

"Deceit Workshop truly knows no bounds, they targeted you?" Even though Luo Feng and Emperor Qing were prepared for it, they were quite irritated when it happened.

Organizations like Deceit Workshop have no shame.

Di Fu chuckled and said, "It was just a menial job, not worth mentioning. I guess Deceit Workshop simply passed the word to someone in the middle management of Nine Ringed World Tower, and with just a word, my job was gone."

After all, Di Fu's status was too low, belonging to the lowest layer in the Nine Ringed World Tower.

"The stealth attack on you involved Causality," Emperor Qing said on the side, "Thankfully, the entire Nine Rivers Sacred Realm greatly suppresses Causality, and the Formation of this cave mansion also has isolation effects. That's why it didn't harm your avatar inside the cave mansion."

"If the avatar inside the cave mansion had also died, I would have had to make the journey from Land of Origin again," Di Fu laughed, "I never imagined that I, a low-level resident of Yulan City, would have the honor of being targeted by Deceit Workshop."

"You were implicated by me," Luo Feng said, "Di Fu, you lost your job because of me! I owe you. It won't be long before I will get you an even better job."

"Haha, then I really hit the jackpot," Di Fu laughed, "Coincidentally, I can also go into seclusion for a while now and properly study some of the gains I got from the Nine Ringed World Tower."

Luo Feng was very clear.

Di Fu seems to not care, but in reality, he valued that job at the Nine Ringed World Tower very much. It was after much difficulty that he obtained that job, and the four of them even celebrated it. Now that

he lost his job, how could Di Fu not feel pained and dismayed?

"Deceit Workshop, Elder Tian He!" Luo Feng's eyes grew colder.

...

The official Flying Boat passed by Yulan City, and Luo Feng, disguising his appearance and aura as Formless and Intangible, boarded the vessel with extreme discretion.

Afterward, he used the Infinite Primordial Space transmission from the lake at the foot of the Holy Mountain to return to the Land of Origin.

Land of Origin, Huyang City, city owner's mansion.

"I'm back."

Atop a tall building in the city owner's mansion, Luo Feng gazed upon the giant fluffy palm supporting the entire Huyang City, which was none other than the Innate Secret Treasure 'Palm World,' controlled by Luo Feng.

"The Palm World, its value is close to that of the 'Undying Heart,'" thought Luo Feng. "But to truly wield its power, the difficulty is much greater than the Undying Heart."

The Undying Heart was a secret treasure Luo Feng had specifically selected from the Infinite Space Treasure Vault, most in tune with himself. Centered around the paths of 'Life and Destruction,' it was naturally the easiest to utilize.

The Innate Secret Treasure 'Palm World,' according to Primogenitor Yan Feng's initial assessment, was originally a claw of a High Level Primordial Life Form. It had gestated for countless years within a World Level Primordial Life Form in the Dream Domain before morphing into this innate secret treasure.

It possessed very distinct life characteristics, much like the Blood-colored Scale of the Star Tower, which was primarily based on life and also contained many other paths.

Thus, for Luo Feng to unleash the full power of the innate secret treasure 'Palm World' — with life as its core, while also incorporating world, destruction, space, matter, and infinite other mysteries — the difficulty was naturally magnified.

"Hmm."

With a single step, Luo Feng returned to the inside of the Star Tower.

In one of the Star Tower's cultivation spaces, a large quantity of Low Level Primordial Life Materials was stored.

Luo Feng waved his hand, and materials with even stronger aura began to descend.

"Low Level Primordial Life materials of Late Stage Divine Emperor strength total 800 pieces with an average price of 38,000 Primordial Crystals each. For the Nine Rivers Sacred Realm, suitable for my level, I've gathered about seventy percent of these Low Level Primordial Life Forms."

"For the Divine Emperor Perfection Level Low Level Primordial Life Forms, there are a total of 80 pieces, each costing an average of several 390,000 Primordial Crystals."

"I also purchased three pieces of 'Super Limit Level' Low Level Primordial Life Materials, costing a total of 10.2 million Primordial Crystals."

Luo Feng's main wealth was invested in materials.

Low Level Primordial Life is divided by race. Within the same race, the weaker may be at Early Stage Divine Emperor, while the stronger may be at Divine Emperor Perfection Level.

Just as among cultivators, some possess extremely formidable strength, surpassing those at the same level.

Among the 'Divine Emperor Perfection Level' Low Level Primordial Life Forms, there are also a scarce few that shine exceedingly bright, their strength far above their peers. In the Nine Rivers Sacred Realm, they are referred to as 'Super Limit Level.'

One-on-one, even the three Hall Masters of Yulan City generally couldn't best them.

The so-called 'Super Limit Level Low Level Primordial Life' corpse materials from the Nine Rivers Sacred Realm are usually transported from the Dark Sacred Realm, where the intensity of battle is much higher, making it relatively easier to acquire corpses of this level.

Super Limit Level corpse materials, even the scraps, each part is worth at least a few million Primordial Crystals.

"These Low Level Primordial Life Materials, each containing the mysteries of 'Life and Destruction,'" Luo Feng was quite elated. "This time, I have acquired much more than before. Moreover, I have purchased quite a few auxiliary cultivation treasures."

"This time, the Life and Death Dao, must break through."

The Eye of Life and Death at Luo Feng's brow opened as he started to meticulously analyze these newly acquired materials, embarking on his cultivation.

...

For cultivations at the Divine Emperor level, it was common to meditate in seclusion for hundreds or even thousands of eras. Emperor Qing had decided to go into long-term meditation, and Luo Feng was also prepared for an extended period of seclusion.

However, this time Luo Feng purchased too many Low Level Primordial Life Materials, and many of them were systematic.

For example, within the same race: Early Stage, Middle Stage, Late Stage, and Perfection Levels of Divine Emperor, Luo Feng bought them all. By comparing them and contemplating, Luo Feng's gains were naturally greater.

As Luo Feng analyzed the materials one by one, not even completing the first round of studies and only covering about seventy percent, it took nearly two hundred eras. The accumulation within the Life and Death Dao slowly but naturally completed, leading to a qualitative change.

"Hm?"

Sitting cross-legged inside the Star Tower, engaged in habitual contemplation, research, analysis, and integration, Luo Feng inadvertently combined and formed a complete 'Early Stage God Emperor Level Life and Death Dao' in his heart.

Luo Feng was initially startled.

Then he was filled with joy.

The joy of Enlightenment is what most fascinates cultivators.

Many Divine Emperors were already invincible in their original home worlds, able to enjoy everything there is to enjoy, yet they still head to the Nine Rivers Sacred Realm, one after another, risking dangers of death to continue striving and venturing. They seek higher levels of Dao, desiring to see more of the world.

"Nine hundred eras since heading to Yulan City! The Life and Death Dao has finally progressed from the Ultimate Realm of the Godly King to the Early Stage of Divine Emperor." Luo Feng whispered with a smile.

Chapter 313 - 20 Palm World and Undying Heart

Nine Rivers Sacred Realm, Yulan City, Inner City Heavenly Water District, Residence Number 99179.

Luo Feng and Emperor Qing are currently in closed-door training.

"The power of the 'Life and Death Dao' at the Early Stage Divine Emperor level, how potent is it?" Luo Feng couldn't test the power on the Land of Origin, as the rules of the Source World are stringent and have a limit on might. However, in the Nine Rivers Sacred Realm, he could freely test out his techniques.

"Life and Death Dao, the domain of the Dao!"

With a single thought from Luo Feng.

Centered on himself, the Life and Death Dao operates to form a massive system of rules, creating an expansive domain.

The domain is dense and its might is terrifying.

If a Godly King in the Ultimate Realm enters this domain, they would likely turn to dust in an instant.

"Just a single thought, the naturally formed domain of the Life and Death Dao.... is even stronger than the 'Endless Blood Sea' domain of my 'Undying Blood Sea Body'," Luo Feng marveled, pointing casually.

With one point, the might of Life and Death gathers at a point, piercing through layers of space, even faintly peering into the immense shadow of a Secret Pattern.

The Nine Rivers Sacred Realm is a specially reinforced world,

trapping many low level primordial lives, Luo Feng naturally cannot burst through the world membrane.

"Just a casual point, stronger than when I exerted my full strength before the retreat."

Luo Feng performed a few techniques and had ascertained his own level.

"The 'Life and Death Dao' at the Early Stage of the Divine Emperor should be comparable to a typical Late Stage Divine Emperor Enlightened One," Luo Feng judged.

The Life and Death Dao, at the Ultimate Realm Godly King level, inherently contains the mighty nine major branches. In terms of power, it is sufficient to compete with the 'Mid-stage Divine Emperor'.

The Early Stage 'Life and Death Dao' of the Divine Emperor is comparable to the ordinary paths of the Late Stage Divine Emperor. This was also within Luo Feng's expectations.

After all...

'The Early Stage' level of life and destruction, merely cooperating with each other, possess the might of a Mid-stage Divine Emperor Enlightened One! If completely fused as one, the power would naturally advance further.

"With the 'Life and Death Dao' of the Ultimate Realm Godly King as the foundation, further using the two paths of life and destruction from Early Stage Divine Emperor as nourishment, and additionally integrating various mystical aspects of life and destruction, finally fully merging them, promoting the Life and Death Dao to the Early Stage Divine Emperor," Luo Feng also felt it was quite a challenge.

The two paths merged into one.

This path is arduous, yet also powerful enough! It has a higher potential!

"If paired with suitable Secret Treasures and Secret Techniques, I

should be able to match the weaker elders of Yulan City," Luo Feng nodded slightly; the strength of the elders of Yulan City also varied, with some cultivating both paths, and others practicing some special schools.

...

After breaking through the Life and Death Dao, Luo Feng did not leave seclusion, but continued his cultivation.

Over the years, he observed a large number of low level primordial life materials with the 'Eye of Life and Death', accumulating a vast amount of knowledge in the two major directions of life and destruction. But before breaking through the 'Life and Death Dao', he did not dare continue down these paths, fearing deviation.

Taking the wrong path can have severe consequences.

Luo Feng would rather be slower but steadier.

"The higher the realm, the more one understands their own limited knowledge."

After breaking through the Life and Death Dao, Luo Feng's understanding of how life and destruction should merge deepened. He frequently adjusted his cultivation.

Cultivation is just so, one must gropingly progress in the dark.

Life, destruction, Life and Death, the three mutually verifying each other, progressing together is the most prudent.

After about ninety eras, the path of life, already rich in knowledge, naturally advanced to the Middle Stage of Divine Emperor.

Another sixty eras, and the path of destruction also reached the Middle Stage of Divine Emperor.

"Let's pause for now."

The paths of life and destruction are relatively simple and more pure; comprehending them is also easier.

After promoting the two to the Middle Stage of Divine Emperor, Luo Feng then stopped. The next focus was to use them as nourishment to help promote the Life and Death Dao to the 'Middle Stage of Divine Emperor'.

"This step is difficult."

Fusion?

As life and destruction grow stronger, the difficulty of merging them also continuously increases.

In the Nine Rivers Sacred Realm, it's common to see cultivators who combine different paths. But merging different paths into one? That's extremely rare!

Luo Feng tried for a few eras then temporarily stopped: "The next breakthrough will require a very long time of accumulation. First, let's study the application methods!"

The Dao is fundamental.

The Secret Techniques of application are various methods of protecting the Dao. Studying these techniques can also increase one's understanding of the Dao.

"The previous Undying Blood Sea Body was a bit rough," Luo Feng started to refine.

Previously, life and destruction were at the Early Stage of Divine Emperor, and the Life and Death Dao was even only at the Ultimate Realm Godly King level. Using the Eye of Life and Death to observe the Star Tower and the Undying Heart, he created the previous Undying Blood Sea Body.

Now with a full realm advancement, Luo Feng's understanding of the 'Star Tower Blood-colored Scale' and 'Undying Heart' also reached a new height.

The Undying Blood Sea Body, thoroughly changed.

Refining the Secret Technique is quite easier than Enlightenment. Luo

Feng spent merely three epochs and created a new version of the "Undying Blood Sea Body."

"It's done."

Luo Feng sat cross-legged upon the vast Endless Blood Sea, which is also a part of his body, with a layer of protective blood-colored scales also appearing on his surface.

"The Undying Blood Sea Body, this physical body indeed possesses some of the mysteries of the 'Undying Heart'."

"But this Endless Blood Sea..."

Luo Feng looked at the vast Endless Blood Sea, deep with infinite life force, "entirely stemming from my comprehension of that blood-colored scale in the Star Tower."

The blood-colored scale of the Star Tower, seemingly just a scale, is actually like an endless sea of blood, with vitality at its peak. And this infinite sea is gathered within a single scale, making this scale indestructible.

"Senior Yuan was right, no predecessors' Dharma suits me."

"What suits me best is what I research on my own."

"I researched the Star Tower's blood-colored scale, the Undying Heart, and the Eye of Life and Death, and the Dharma formed thereafter truly is what I need." Luo Feng increasingly recognized this point with clarity.

The Dharma that I painstakingly discovered myself is the only way to fully understand all its mysteries.

In the future, to break out of limitations, this holds great promise.

Practicing the Dharma of predecessors, although it appears mighty! But does this Dharma suit one's self? Do you understand why this Dharma is structured this way? Depending on such a Dharma as a foundation, what hope is there to break free from limitations?

"In cultivation, every step must be solid." Luo Feng continued to refine other Secret Techniques, further perfecting the 'Biomimetic Eye of Life and Death', and also crafted some complementary Combat Secret Techniques based on the advantages of the Undying Blood Sea Body.

...

Luo Feng stood atop a high building in Huyang City Lord's Mansion, looking at the gigantic fluffy paws that supported the entire Huyang City.

"It's time to bring it out of the Source World." With a thought from Luo Feng, the gigantic fluffy paws instantly vanished, then appeared in Luo Feng's hand, instantly merging into his right hand, covering it with a layer of fluffy paws.

"Innate Secret Treasures are indeed extraordinary." Luo Feng felt the terrifying destructive power of the fluffy paws, claws that could tear apart everything and also envelop and capture enemies.

Such Innate Secret Treasures are not seen for sale even in Yulan City of the Nine Rivers Sacred Realm.

If one appeared, even the Elders would scramble for it.

"With my current strength, I am already qualified to take 'Undying Heart' and the Innate Secret Treasure 'Palm World' out." Luo Feng thought, the Star Tower and Eye of Life and Death cannot be taken out of the Source World.

As for treasures like the Undying Heart, Palm World, although still very precious, the ancestors of both nations at this level of existence, if lucky, could still obtain one or two pieces.

Like those Elders in Yulan City of the Nine Rivers Sacred Realm, those Elders are generally from the Source World, possess the Clone Technique, and also have opportunities! They mostly acquired treasures like the 'Undying Heart'.

But such treasures, they either keep in their homeland or carry with them as they venture through the Dark Sacred Realm! Why would

they remain in Yulan City?

"Sigh."

Huyang City silently landed on the ground, causing no ripple, most creatures within the city remained unaware.

Only some residents noticed the disappearance of the continuous five mighty mountain ranges outside and were utterly shocked.

"What happened?"

"Where are the five mountain ranges?"

"And that giant paw?" Some Cultivators in the city began to notice, especially the guards stationed above the city walls, who were particularly panicked and hastily reported up.

Standing in the high building of the city owner's mansion, Luo Feng flipped his hand and took out his Array Map Secret Treasure: "This Life and Death Array Map is also of little significance to me now." Using the Array Map Secret Treasure as the core, Luo Feng casually set up a supportive Formation, initiating a circulation of Heaven and Earth Energy.

Natural circulation of Heaven and Earth Energy, with the Array Map as the core, enables the Formation to easily reach the power limit of the Land of Origin.

Whoosh~~~

The black and white currents surrounded Huyang City, which appeared intermittently amidst the flowing currents.

A vast Life and Death Array has thus formed.

"Master." Morosa approached Luo Feng, "What happened to Huyang City?"

"Just changed the garrison Formation," Luo Feng said with a smile, "The management rules of Huyang City, just follow the previous ones."

Morosa glanced at Luo Feng's right hand turning into a fluffy paw, somewhat enlightened.

"Morosa, some guests have arrived, you may leave first," Luo Feng instructed.

"Yes." Morosa immediately responded, he also sensed that five presences had already arrived outside Huyang City, hindered by the Life and Death Array and did not force their way in.

Luo Feng looked at the five figures outside.

Primogenitor Yan Feng, Thunder Ancestor were there, and Time-Space Demon, Two Realms Palace Master, Wanfa Tower Master, those three were also present. The five of them were looking at Luo Feng, all bearing goodwill.

"Gentlemen." Luo Feng smiled and waved, the black and white currents parted, naturally forming a pathway to the City Lord's Mansion.

Luo Feng had prepared some fruits and wine.

"Haha, felt that the Innate Secret Treasure was withdrawn, and everyone came," Time-Space Demon laughed heartily, it only took a few steps for the five powerful beings to likely reach the City Lord's Mansion.

The six powerful beings gathered here are indeed the strongest six presences of the Land of Origin, placed in Yulan City, all six would possess the strength of Elders.

"Brother Luo," Wanfa Tower Master spoke with a smile, "You withdrew that Innate Secret Treasure, are you planning to take it outside the Source World? I advise you, such a treasure once taken out of the Source World, is easily stolen."

"Right, you've cultivated for too short a time, and your strength is too weak. You can't protect such a treasure when brought out," Two Realms Palace Master said, "Only us few would trade fairly with you."

Luo Feng chuckled.

My strength weak? Among the six here, I should not be the weakest one!

Ps: Resuming updates.

Chapter 314 - 21 Confident Now

"Rest assured, we will bid fairly," the Time-Space Demon said with a cheerful smile, "Whoever offers the highest price, you give it to them."

"All five of us present have accumulated quite a bit," Wanfa Tower Master said with a laugh.

All five of them were strong figures from the Source World, all possessing Clone Techniques, and held the status of Elders in Yulan City.

Having cultivated for countless years, their accumulated wealth was naturally astonishing. For instance, serving as an Elder, they received a fixed income every epoch. Given that the Wanfa Tower Master and the others could breach barriers and travel to other Source Worlds, one could imagine the treasured riches they possessed.

"Luo Feng, we are from the same Source World. If the prices are close, you should favor us," Thunder Ancestor said.

"Luo Feng, you decide for yourself," Primogenitor Yan Feng also looked at Luo Feng.

Three from the Alien race and two natives; all five of them were very keen on acquiring this Innate Secret Treasure.

"Everyone knows that this Innate Secret Treasure holds special significance to me," Luo Feng said with a smile and a shake of his head, "I have no plans to sell it."

"What a pity."

The five present felt somewhat disappointed.

"You also collected two portions of Special Life Remnants. Do you plan to sell one of them?" Time-Space Demon inquired further.

Luo Feng's core of cultivation practice was the 'Star Tower Blood-colored Scale' and 'Eye of Life and Death.' The Eye of Life and Death was indeed a Secret Treasure refined from the full body of a World-level Primordial Life.

In fact, for Divine Emperors, having one portion of World-level Primordial Life Materials as the core of their training was already quite good.

Gathering a few portions for contemplation and cultivation might even lead to breaking out of constraints!

The two portions Luo Feng collected in the Land of Origin were one dark golden Single Horn from the Dream Domain and another material being a segment of black bone. Luo Feng selected these materials based on their extremely high value while observing the Dream Domain and Heavenly Pillar Realm through the Eye of Life and Death.

"Not selling," said Luo Feng with a grin.

"In the early stages of cultivation, when strength is weak and resources are scarce," Thunder Ancestor persuaded from the side, "selling one portion of Special Life Remnants could smooth your cultivation significantly."

Luo Feng shook his head: "Everyone, no need to persuade further."

The five present felt quite helpless; acquiring Special Life Remnants or top-tier Innate Secret Treasures was too difficult! With Luo Feng's strength and after experiencing the external world of Yulan City, he was even less likely to sell them off.

Thus, both Amcestors cultivated Emperors, and the three Alien races nurtured other detached Godly Kings, letting these juniors help them collect.

"No rush," Time-Space Demon laughed, "If you ever urgently need to make a trade, you can find me anytime."

"Trading in the outside world, you worry about competition. Trading in the Land of Origin... it's absolutely safe," Thunder Ancestor also said.

Their cultivation had spanned long years, and they had enough patience.

They knew full well, perhaps one day, Luo Feng would encounter difficulties and need to sell treasures.

"Haha, good, if I need to trade, I'll definitely contact everyone," Luo Feng was also very polite, and immediately raised his glass.

...

That night, once the gathering dispersed, Luo Feng quietly carried the 'Undying Heart' and 'Palm World,' two great treasures, to the Ice Valley. He teleported via the lake, heading towards the Nine Rivers Sacred Realm.

Nine Rivers Sacred Realm, at the foot of Holy Mountain, there were also some Cultivators waiting for the official Flying Boat.

"This time flying alone, headed to Yulan City," Luo Feng didn't wait for the official Flying Boat that arrives once every epoch, but rather flipped his hand and retrieved a blue droplet, which transformed into the shape of a Flying Boat.

He immediately steered the 'Water Drop Flying Boat' and left the Holy Mountain.

This Water Drop Flying Boat was a losing deal originally sold to Luo Feng by Time-Space Demon.

"Initially, Time-Space Demon chose the set of Armor and Abyss Pearl left by Di Yuan after his death, presumably worth about 20,000 Primordial Crystals. But this Water Drop Flying Boat… being a Late Stage Divine Emperor level Flying Boat, is valued at about 100,000 Primordial Crystals. He indeed lost quite a bit," Luo Feng stood inside the boat's cabin, gazing at the outside world.

Of course, Luo Feng understood that for the Time-Space Demon,

carrying a large amount of treasures through barrier-breaking transfers to the Land of Origin, the transportation cost was the highest.

One Water Drop Flying Boat, might be just an unremarkable item among the treasures he carried.

"I don't like taking advantage too much, might find a chance to compensate that Time-Space Demon," thought Luo Feng.

Shoo!

This Water Drop Flying Boat, being a pure Life-class Flying Secret Treasure, was most adept at concealing life aura. In terms of speed and stealth, however, it was far inferior to the Void-class Flying Secret Treasure.

"This boat is too mediocre; fortunately, with my realm, I can perfectly utilize the power of this Water Drop Flying Boat, and even enhance it by coordinating with the 'Biomimetic Eye of Destruction' for better control—Life and Death flux, even stronger aura concealment," Luo Feng thought.

Being able to over-perform only represented the weakness of this boat.

"This trip back to Yulan City, I need to switch to a better Flying Boat," Luo Feng thought.

Whew!

The boat flew with completely hidden aura, carefully navigating.

Luo Feng's 'Biomimetic Eye of Destruction' had a much wider observation range than before, and even among the Elders of Yulan City, not many could match Luo Feng in observation and stealth. From a great distance, he could detect Low Level Primordial Life and avoid them from afar.

"Low Level Primordial Life, you encounter them everywhere," Luo Feng spent a total of twelve days on the journey before reaching Yulan City, "On my way, I found a total of 39 Low Level Primordial

Lives."

Luo Feng never dared to strike! Because it was outside normal hunting zones.

"In the Nine Rivers Sacred Realm, most of the regions are the territories of Low Level Primordial Life. Cultivators can only rely on the thirty-five cities, hunting around the cities and if things go south, they flee back inside the cities immediately," Luo Feng was well aware of this.

Cultivators must strictly observe the hunting range. This was a lesson brought about by the deaths of many Cultivators.

"Yulan City!"

Luo Feng maneuvered the Water Drop Flying Boat and flew into the city gate before relaxing.

...

Luo Feng had already visited the various businesses in Yulan City many times, understanding clearly which business sold what goods, their prices, and the reputation of the businesses.

"Brother Luo Feng." As Luo Feng entered a business, a red-dressed woman in charge immediately greeted him warmly.

"Brother Luo Feng fought a battle not long ago with the Deceit Workshop team, two against five, not only winning but also killing that Kumo Divine Emperor. Now in the city, everyone's talking about your fame, Brother Luo Feng," the red-dressed woman said enthusiastically.

"I dislike slaughter, but if they seek death, there's nothing I can do," Luo Feng said calmly.

"Admiring," the lady in red smiled and said, "let's go inside and have a seat."

If it were an ordinary guest, an ordinary attendant would suffice for the reception.

With the intelligence publicly available on Luo Feng, his strength is now ranked among the top 2000 in Yulan City, which naturally warrants the personal hospitality of the business owner.

"The Deceit Workshop team attempted to plunder, and he counter-killed them?"

"This person must be extraordinary."

"I wonder when I can become a Divine Emperor myself."

Some attendants within the business were whispering among themselves. They couldn't afford to buy information about Divine Emperors, but they knew well that as one of the top three 'theft and plunder' forces, the Deceit Workshop's raiding teams were very powerful.

Upon entering an elegant building inside, Luo Feng and the lady in red sat down.

"I am here today to buy a Formation Diagram," said Luo Feng, pointing at a Formation Diagram among the Weapon Secret Treasures floating outside the building. The diagram depicted a colorful, splendid world with three special characters.

Luo Feng did not recognize the characters but could sense the will contained within them, knowing they meant 'Xuanqing Sky'.

"Oh?" The lady in red was surprised as she looked at the Formation Diagram. "The Xuanqing Sky Annihilation Array Map? This one costs 8.5 million Primordial Crystals."

The Xuanqing Sky Annihilation Map, a Half Primordial Level Secret Treasure Array Map!

For the same Half Primordial Level, whether it encompasses one Dao or two... naturally, the value differs.

The ones containing one Dao are easier to use and cheaper, with a broader user base. Those containing two Daos are harder to control and more expensive! Suiting a smaller group of users.

"Flat rate, 8 million Primordial Crystals. I'm also planning to buy a Flying Boat," Luo Feng said, aware of their usual discounts. "I'll take that 'Void Netherworld Pupil Ship' as well, let's make it a total of 10 million Primordial Crystals for the two treasures."

The lady in red smiled at Luo Feng, the usual discount being 'ninety-five percent' was already the limit. This bargaining was evidently even lower than that.

"Alright, let's round it up," the lady in red smiled. "In the future, Brother Luo Feng, you should take good care of our business."

"Sure," Luo Feng nodded contentedly.

After the last hunt and the spoils from killing Kumo, what was left was just over ten million Primordial Crystals. After this expenditure, he was poor again.

"Now I need to purchase Half Primordial Level Secret Treasures, in the future, suitable treasures will become even scarcer," Luo Feng shook his head lightly. Without any secret treasures, he was still quite strong among late-stage Divine Emperor Enlightened Ones.

With the Undying Heart and Palm World in hand! Only the Half Primordial Level Secret Treasures could further enhance his strength.

"With this 'Xuanqing Sky Annihilation Map', my Endless Blood Sea can also be arranged," Luo Feng thought.

Though the effect of the Undying Heart enhancing the 'Undying Blood Sea Body' was good, it could only enhance the direct combat strength of the 'Undying Blood Sea Body,' and not create a wide-ranging Domain! Purely relying on his own abilities to cast a Domain was still somewhat weak.

With this array map, the power of the Blood Sea Domain could be increased several times.

"This 'Void Netherworld Pupil Ship,' a vessel containing the mysteries of Life and Destruction, fits well with my 'Biomimetic Eye of Destruction,'" Luo Feng satisfactorily paid ten million Primordial Crystals and exchanged for these two great treasures.

...

Emperor Qing, who was in seclusion, received a message from Luo Feng and immediately came out of seclusion.

"Brother Luo Feng, you came out of seclusion so quickly?" Emperor Qing came out surprised, "Wasn't it said you'd be in long-term seclusion? We've offended Deceit Workshop, it's not suitable to go out without certain confidence."

Luo Feng smiled slightly: "I am confident now."

"Confident?" Emperor Qing was stunned for a moment, sure enough, this seclusion had only just passed three hundred and sixty epochs. Emperor Qing then asked, "We've offended Deputy Workshop Master 'Elder Tian He' of the Deceit Workshop, are you confident in dealing with Elder Tian He?"

Luo Feng nodded.

Emperor Qing felt his brain booming, somewhat flustered! He realized what Luo Feng's nod represented.

"You've reached the level of a late-stage Divine Emperor Enlightened One?" Emperor Qing looked at Luo Feng in disbelief.

Just a single 'Early Stage Divine Emperor Life and Death Dao' was already comparable to a late-stage Divine Emperor Enlightened.

Not to mention, both the Life and Destruction Daos are at the mid-stage of Divine Emperor! Not to mention, there were also the Undying Heart and Palm World, two great treasures in hand! Of course, Luo Feng had the confidence to face Elder Tian He.

"This seclusion, there were some breakthroughs as well," Luo Feng smiled.

"I... you...," Emperor Qing was stunned, not knowing what to say.

He had watched Luo Feng grow up before his eyes.

For him, who struggled for a long span in 'mid-stage Divine Emperor

Enlightened' and barely managed to break through, how could he stand it?

"I've long heard that in countless worlds, a tiny group at the very top has terrifyingly high talent," Emperor Qing looked at Luo Feng, "I've witnessed it now."

Luo Feng just smiled.

He really didn't find it difficult! During the time in the Primordial Cosmos, before reaching the undying stage, each step of his was very solid. Each step reached unimaginable limits of the same level. Even surpassing those limits. That's why he cultivated the Perfect Divine Body, and his Spiritual Will also became so high.

In the Land of Origin, the foundation of each level was exceedingly robust. Overly profound foundations also allowed him to obtain treasures like the Star Tower and Eye of Life and Death, which in turn made his cultivation smoother.

"Becoming Half Primordial isn't difficult," Luo Feng had discussed with Senior Yuan.

In the eyes of elders like Senior Yuan, groping in the dark to become Half Primordial was fairly easy. Places like the Dark Sacred Realm are filled with such powerhouses!

Breaking out of the Braided Cage is where the real difficulty lies.

"Regardless, it's an honor for me, Emperor Qing, to team up with Brother Luo Feng to hunt," opined Emperor Qing.

"I'm preparing to go hunting, will you come?" Luo Feng asked.

"Yes, of course!" Emperor Qing immediately agreed.

———

Special thanks to 'Le Lian Shi' and 'Red Alliance Da Bai' for their rewards!

Chapter 315 - 22 Luo Feng and Mist Teeth

Although they had agreed to go hunting, both Luo Feng and Emperor Qing needed to make some preparations—Luo Feng had to familiarize himself with the newly acquired "Xuanqing Sky Annihilation Map," and Emperor Qing needed to consider which Secret Treasures to bring along in anticipation of facing formidable enemies.

Half a century later, they finally set off.

"Luo Feng and Emperor Qing have gone hunting," Emperor Ming and Di Fu also saw them off.

"Last time, we offended Deputy Workshop Master 'Elder Tian He' of the Deceit Workshop. Now that the two of them have gone hunting, if they encounter retaliation from the Deceit Workshop..." Emperor Ming expressed his worries; having been in Yulan City for so long, he was well aware of the workshop's style.

Di Fu chuckled and looked towards the entrance of the cave mansion: "Since they dared to venture out, they must be confident in their response. If I'm not wrong, our days here in Yulan City are about to get better."

During these past three hundred or so centuries.

Emperor Ming dared not venture out, and Di Fu didn't work either, both cultivating in seclusion within the cave mansion.

"Do you trust them that much?" Emperor Ming was surprised.

"What I trust is Luo Feng!" Di Fu had previously invested a great deal of effort in understanding Luo Feng's every move. After confirming

the nature of Luo Feng's character, he repeatedly assisted Luo Feng, not caring even if it meant offending Di Yan.

Emperor Ming looked at Di Fu with confusion.

"Haven't you noticed?" Di Fu said with a smile, "Brother Luo Feng has always been confident in the battles he initiates!"

Upon reflection, Emperor Ming agreed indeed it was so.

"From an eternal true god to a peer at Emperor Qing's level, and it only took a thousand or so centuries," Di Fu spoke softly, "You should know, Brother Luo Feng has been in Yulan City for a thousand centuries as well."

"With better cultivation resources here, Brother Luo Feng's progress should only be faster," Di Fu said, "The Ancestors have said that Brother Luo Feng is either a reincarnation of an Alien race or has a terrifyingly formidable talent."

"Now it seems, it's likely the latter," Di Fu said with a smile, "All we need to do is wait here for good news."

…

Luo Feng and Emperor Qing rode together on a black Flying Boat, heading straight towards the outermost city gate of Yulan City.

"Buzz."

The entire Yulan City was enveloped by various colorful protection systems, and invisible waves swept across the city time and again. With these, it was possible to pinpoint the location of every resident. The moment a resident had unpaid 'Residence Fee,' their position could be immediately identified. Or if they lacked a residence within three days, they would be expelled from the city. These protection systems also prevented the infiltration of Low Level Primordial Life.

"Luo Feng and Emperor Qing, riding on the same Flying Boat, are heading for the East City Gate." This message was naturally shared with Deputy Workshop Master 'Elder Tian He' of the Deceit Workshop.

In Yulan City, as long as one was willing to pay enough, intelligence organizations could sync up the latest information at any time.

"The two of them are going out together?"

Elder Tian He sat there, slowly opening his eyes, which were narrow and as calm as still water.

"Out hunting after just three hundred or so centuries, no patience, eh?" Elder Tian He said with a light chuckle, immediately summoning a subordinate.

Whoosh.

A shadowy figure enveloped in grey mist appeared outside the room, its green eyes looking at Elder Tian He, and respectfully saluting: "Deputy Workshop Master."

"Mist Fang," Elder Tian He instructed with a smile, "Luo Feng and Emperor Qing are heading towards the East City Gate on a Flying Boat. Go there, and just lock onto their position. Once they are far away from Yulan City, inform me."

It was not suitable to act near Yulan City, as they could quickly retreat into the city if they were attacked, making it difficult to pursue them.

Only when the distance was greater and it was tougher for the targets to flee back to the city could he slowly plot and kill them one by one.

"Yes," Mist Fang responded respectfully, then vanished silently.

Elder Tian He pondered: "Even though they came from the Source World, being only Mid-stage Divine Emperor Enlightened individuals, they are probably not very wealthy. Even if they go hunting and bring their most suitable treasures, they might only be worth tens of millions of Primordial Crystals."

Killing enemies and seizing their treasures was a matter of convenience. Elder Tian He's primary goal was to intimidate!

"Dare to offend me in Yulan City, you must pay a sufficient price!"

Elder Tian He's eyes were ice-cold.

…

Inside the black Flying Boat.

"The moment we left the cave mansion, the Yulan City intelligence organization must have known, and the Deceit Workshop must have been informed as well," Luo Feng looked at Emperor Qing beside him, "The strong ones from the Deceit Workshop are probably already tracking us."

"Haha, if Brother Luo Feng is confident, what do I have to be afraid of?" Emperor Qing laughed.

If Emperor Qing were on his own, he naturally wouldn't dare to provoke the Deceit Workshop.

But since Luo Feng acknowledged himself as having the strength of a 'Late Stage Divine Emperor Enlightened' individual, Emperor Qing was naturally willing to venture out with him.

"Brother Luo Feng, we must make it clear before we leave the city, the hunt's rewards shall be split ninety-ten," Emperor Qing looked at Luo Feng, "This might be our last hunt together, and in agreeing to a ninety-ten split, I am already taking advantage."

Normally, a Late Stage Divine Emperor would not take a Mid-stage Divine Emperor Enlightened individual hunting with them.

There was a fundamental difference in strength between them.

"Alright, alright," Luo Feng replied with a smile, "Let's do as you said."

Both were extremely proud and did not want to take undue advantage of the other.

Luo Feng was also aware.

After this hunt, once he revealed his true strength, Emperor Qing probably would not want to team up again. The gap was too large...

teaming up no longer made sense.

This time, it was probably their last hunt together.

"Since arriving in Yulan City, Emperor Qing has arranged a cave mansion for residence, lent me Primordial Crystals, brought me hunting, and taught me some hunting experience. I owe him a favor," Luo Feng kept it in mind.

Indeed, Emperor Qing had been cultivating Luo Feng as a comrade-in-arms to trust with life and death. Unfortunately, Luo Feng's growth was too rapid.

Whoosh.

The black Flying Boat flew out through the East City Gate in an instant.

Not far from the East City Gate, a shadowy grey mist figure watched the black Flying Boat leave.

"They have left the city."

Mist Fang looked on from a distance.

As he saw them leave, an imperceptible mark landed on the black Flying Boat. He did not directly 'brand' Luo Feng and Emperor Qing, since the stronger their power, the more sensitive their perception. Merely branding the Flying Boat was far more covert.

Sigh.

The foggish figure also manipulated a Flying Boat, maintaining a sufficient distance behind, just leaving the city.

The Nine Rivers Sacred Realm's suppression was too severe; even his tracking mark needed to be within a certain range. The farther the distance, the more blurred the sensing would become.

...

Inside the black Flying Boat.

"After leaving the city, Deceit Workshop might take action at any moment!" Emperor Qing surveyed the surroundings but failed to notice the invisible mark on the surface of the Flying Boat.

Luo Feng's Biomimetic Eye of Destruction had been open since earlier.

The path of Life and Death Dao at the Early Stage of Divine Emperor, the path of Life and Destruction at the Middle Stage of Divine Emperor. Accumulated experience in these realms allowed Luo Feng to delve deeper into the research of the Eye of Life and Death, naturally making his Biomimetic Eye of Destruction even more formidable.

"Brother Emperor Qing, at the moment we left the city, Deceit Workshop had already locked onto us," Luo Feng's Biomimetic Eye of Destruction saw a very faint mark on the surface of the boat.

"Locked onto us?" Emperor Qing was shocked.

"A mark of the Causality Line, a very clever tactic," Luo Feng observed with his Biomimetic Eye of Destruction.

If it were the real Eye of Life and Death, it's feared that the entire protective Formation of Yulan City wouldn't be able to block the peering, and standing here, Luo Feng would be able to peer into the movements of all creatures within Yulan City.

However, if the Eye of Life and Death were brought out of the Source World, it's feared that disaster would descend.

This Biomimetic Eye of Destruction could also see a very faint Causality Line upon that mark.

The Causality Line penetrated the Void, connecting to a distant place.

"I'll go see, who is tracking us," Luo Feng said with a slight smile, as a blood-colored apparition burst out from his body and rapidly flew along the Causality Line towards the other end, leaving the black Flying Boat.

At a sufficiently far distance behind, the foggish figure maneuvered a

common Flying Boat just as they had exited Yulan City.

Sigh!

Inside the cabin of the Flying Boat.

The foggish figure looked ahead from afar, locking onto the position of the black Flying Boat with the mark.

"Deputy Workshop Master, they have also travelled a certain distance away from Yulan City, and I have already left the city to follow them," the foggish figure immediately contacted Elder Tian He, "I will report their position at any moment."

"Very good, you just need to keep a close watch on them," responded Elder Tian He.

The foggish figure drove the Flying Boat and was quite relaxed.

He was most adept at tracking, escaping, and sorcery; tracking 'Luo Feng and Emperor Qing', he had never been worried.

"This Luo Feng is truly arrogant! He'd rather offend Elder Tian He for 50 million Primordial Crystals," the foggish figure, as a mid to high-level member of Deceit Workshop, also understood the full process of events.

"Elder Tian He is notoriously vicious and ruthless—once he takes action, he never shows mercy!" The foggish figure had seen Elder Tian He make a move before.

That was truly terrifying!

Any Elder of Yulan City must not be underestimated because these Elders are generally powerhouses from the Source World with the Clone Technique, and luck and opportunity are not lacking for them! All of them have honed their skills to an extremely terrifying degree.

Sigh.

The foggish figure piloted the Flying Boat, maintaining a sufficient distance from Luo Feng's boat, and continued flying.

Suddenly—

A huge fuzzy paw stretched out from the depths of the sky, reaching towards the Flying Boat piloted by the foggish figure.

"Not good! Low Level Primordial Life! Ambushed!" the foggish figure was jolted, he was skilled in escape and tracking, and now that he had just left the city not far away, he had never considered being ambushed by Low Level Primordial Life at this position!

In the moment that the super massive fuzzy paw reached out.

The surrounding heavens and earth seemed as if they were sliced apart! Becoming a spatial Cage!

The realm in which the foggish figure's Flying Boat resided had become a complete Heaven and Earth Cage, this Cage... nestled in the palm of the fuzzy paw.

The Innate Secret Treasure—Palm World!

"Escape!" Remaining inside the Flying Boat meant certain death, the foggish figure roared in an instant, transforming into boundless, endless fog! This fog sought to tear through the Heaven and Earth Cage and escape. At the same time, it also concealed nine subtle fogs, which scattered and fled using the obscure Causality Lines.

As a Source World Cultivator with Clone Technique, the foggish figure did not purchase too powerful escape treasures because his own escaping methods were also very strong.

"Boom—"

The huge fuzzy paw suddenly clenched tight!

This clench!

Palm World, all annihilated!

And the towering figure owning the huge fuzzy palm, its Biomimetic Eye of Destruction opened upon his brow, seeing clearly the subtle Causality Lines the foggish figure wanted to escape through. As his

giant palm clenched, while the Palm World was annihilated, every single Causality Line was targeted, eradicating every escaping fog body.

"No—," the fog bodies being annihilated resisted with remarkable tenacity.

However, Luo Feng's huge fuzzy palm, controlled by the Undying Blood Sea Body, held infinite terrifying power, forcibly squeezing these tenacious fog bodies into nothingness, utterly annihilating them.

Mid-stage Divine Emperor, the Enlightened 'The foggish figure', no matter how adept at escaping, fell in a single stroke under the giant fuzzy paw. The treasures carried on his person also fell into Luo Feng's hands.

"Mid-stage Divine Emperor, the foggish figure?" Luo Feng realized, "Elder Tian He sent the foggish figure to track us?"

"This Innate Secret Treasure 'Palm World' indeed possesses considerable power," Luo Feng was quite satisfied looking at his own fuzzy paw.

"With my strength, without Palm World, even relying on the Undying Blood Sea Body, it would have probably taken three to five moves to extinguish the foggish figure," Luo Feng was quite pleased, "With Palm World, one move is enough."

No wonder Elders all crave such treasures, they indeed offer a great enhancement to one's strength.

Sigh.

Luo Feng flickered and turned into a blood-red shadow, merging into the heavens and earth, vanishing from sight.

——

Thanks to Silver Alliance 'Mao Ben' for the reward! And thanks to the new Alliance Hierarch 'Pure White Fantasy' for the reward! Thank you, everyone!

Chapter 316 - 23 Elder Tian He's Expectations

Inside the black Flying Boat.

Luo Feng, with just a thought, erased the Karmic Mark on the surface of the Flying Boat. Emperor Qing, sensing this, asked with some confusion, "Brother Luo Feng, why did you suddenly erase the mark?"

"I left the mark on purpose, to follow the causality and track the follower," Luo Feng smiled. "My avatar has just discovered the tracker and eliminated him."

"Who was tracking us?" Emperor Qing inquired.

"It was Mist Teeth God Emperor from Deceit Workshop," Luo Feng shook his head, "The moment I noticed him, I crushed him. He probably didn't discover my identity. It's a pity that he was a Cultivator from the Source World; I only destroyed one of his avatars."

The Spoils of War Luo Feng obtained were valued at approximately twelve million Primordial Crystals, much less than what Kumo Divine Emperor had!

It can't be helped. Kumo Divine Emperor had no avatars, and all his treasures were with him, naturally making him wealthier.

"Mist Teeth God Emperor is famously difficult to deal with!" Emperor Qing couldn't help saying, "You crushed him immediately upon detection?"

"In one move," Luo Feng said with a slight smile, "for all he knows, he might have thought it was a Low Level Primordial Life ambushing him!"

Emperor Qing's heart trembled.

Crushed in one move?

Mist Teeth God Emperor, a Mid-stage Divine Emperor on a deeper level of accumulation than even himself, Emperor Qing, was crushed just like that.

In this moment, Emperor Qing gained a clearer awareness of the disparity in strength between himself and Luo Feng.

"Eliminating him in one move, I can hide my information as much as possible," Luo Feng said earnestly. "It's better to hide as much as possible before the confrontation with Elder Tian He."

Elder Tian He has reached this level a long time ago, and though Luo Feng was confident about dealing with him, he dared not underestimate him.

"We know quite a lot about Elder Tian He, but he knows very little about you," Emperor Qing nodded. "In terms of intelligence, Brother Luo Feng, you have the advantage."

Luo Feng nodded.

After a brief chat, a blood-colored shadow finally returned to the Flying Boat and merged back into Luo Feng.

Just now, Luo Feng had split off fully half of his Energy Reserve to attack the tracker.

"We can speed up now," Luo Feng urged. "Without the tracker, we can go on a good hunt. As for Elder Tian He... we'll deal with him once we're back."

"Sure," responded Emperor Qing and drove the black Flying Boat. Its speed immediately soared.

...

Yulan City.

A spotless white avian floated in the air. This was a Flying Treasure crafted from the entire corpse of a Low Level Primordial Life, known as the 'Soul Feather White Sparrow', and was Elder Tian He's favorite Flying Treasure.

The Soul Feather White Sparrow was spacious inside, into which Mist Teeth God Emperor flew.

Inside the avian.

Elder Tian He, dressed in a white robe, sat there with a calm gaze on Mist Teeth God Emperor: "Mist Teeth, what exactly happened?"

"Deputy Workshop Master, I was tracking Luo Feng and Emperor Qing. We hadn't gone far from the city, and the surrounding areas should have been relatively safe," Mist Teeth God Emperor was also puzzled, "But suddenly, I was ambushed by a Low Level Primordial Life."

"I could not even withstand one of its moves," Mist Teeth God Emperor found it unbelievable, "It felt like a Divine Emperor Perfection Level Low Level Primordial Life."

"Divine Emperor Perfection Level?" Elder Tian He frowned in doubt, "Such a Primordial Life at this level should be the absolute upper echelon of a certain species. Why would it approach so near to Yulan City?"

Mist Teeth God Emperor said, "I believe, even faced with a Late Stage Divine Emperor of Low Level Primordial Life, I should be able to escape with my life. If we fought directly, I could manage a few moves. But this time, I couldn't withstand a single one! I feel, it was like a Primordial Life with Divine Emperor Perfection."

"Show me the entire battle process," Elder Tian He said with a frown.

"Yes."

Mist Teeth God Emperor waved his hand.

The entire battle sequence from his memory was displayed in the air.

In the memory image, as he piloted his Flying Boat, suddenly a massive furry claw emerged from the depths of the sky, enveloping the entire sky.

"This huge claw..." Elder Tian He observed carefully.

This gigantic furry claw, with soft fur and five sharp yellow-black talons, had a mottled surface and a faint aura of terror. The moment the claw descended, it already sliced through space, forming a spatial cage that trapped Mist Teeth God Emperor's Flying Boat.

The claw then clenched abruptly!

Mist Teeth God Emperor was completely killed before he could use any life-saving methods.

"Although Low Level Primordial Lives are powerful, their techniques are usually quite unsophisticated," Mist Teeth remarked, "but this furry claw trapped me with one move, too exquisite for me even to resist. Only a 'Divine Emperor Perfection Level' Low Level Primordial Life could manifest their innate talents to such a terrifying extent."

Elder Tian He nodded in agreement.

A Divine Emperor Perfection Level Low Level Primordial Life, with a powerful and terrifying life form and skills so artful that a casual move could be extremely sophisticated. It was indeed possible for such a being to crush Mist Teeth God Emperor with one paw.

"It does seem like a move made by a Divine Emperor Perfection Level Low Level Primordial Life," Elder Tian He said with a frown, "But it's too coincidental!"

"You were tracking Luo Feng and Emperor Qing, and to be attacked just after leaving the city is too convenient."

"And the place where you were attacked is too close to Yulan City! For a Divine Emperor Perfection Level Primordial Life to risk sneaking so close, just to crush a Mid-stage Divine Emperor Cultivator like you?"

Upon hearing this, Mist Teeth God Emperor also believed it to be

reasonable.

To take such a risk for a Divine Emperor Perfection Level Low Level Primordial Life being so close to Yulan City is generally part of a significant plot! To kill just one of his avatars?

"I think there's another possibility," Elder Tian He said with narrowed eyes.

Mist Teeth looked at Elder Tian He.

"It could be the action of one of the Elders," Elder Tian He stated.

"One of the Elders?" Mist Teeth was startled.

"Luo Feng and Emperor Qing came from the Source World and have some backgrounds. Luo Feng disrespected me, and now they've left the city so openly," Elder Tian He smiled slightly, "I've suspected all along that he must have something to rely on."

Mist Teeth nodded.

"On the surface, the two of them left the city, but in reality, there must be a protector in secret," Elder Tian He said. "This enormous claw might have been the work of that protector."

The primary material for cultivators' artifact refining comes from countless corpses of low-level Primordial Life forms, so secret treasures in the shape of 'vast claws' are rare but do exist.

"They have an Elder backing them?" Mist Teeth was somewhat surprised.

"Interesting."

A glint of gold flashed in Elder Tian He's eyes, "Rather than bowing down to me and offering up 50 million Primordial Crystals, they prefer to seek help from an Elder? It seems Luo Feng is quite proud."

"Deputy Workshop Master, if the Elder knows your identity and still dares to meddle, I'm afraid they have ill intentions!" Mist Teeth expressed his concern.

Elder Tian He whispered softly, "I want to see which Elder dares to meddle in my affairs."

What about Elders?

He has never been afraid!

In the Dark Sacred Realm, the lowest threshold is being a 'Late-Stage Divine Emperor Enlightened being'. Elder Tian He has been through countless power struggles and killings! Originating from the Source World, he has never feared such strife.

His experience in fighting at the Elder level is vast!

"Even if an Elder dares to intervene, I will still tear apart one of your avatars," Elder Tian He's gaze grew colder.

"Qiu Yike." Elder Tian He suddenly spoke.

"Deputy Workshop Master." The figure in golden armor beside him responded respectfully.

"Dispatch four plundering teams, set up 'Deceitful Shadow Formations' outside the four gates of Yulan City! Make sure to trap and seal Luo Feng and Emperor Qing as soon as they return," Elder Tian He instructed.

"Yes." The figure in golden armor immediately responded, adding, "Deputy Workshop Master, to ensure interception, our Deceitful Shadow Formations must not be too far from the city gates. But if they're too close, it'll be difficult to pursue and kill them once they escape inside."

Entering the city gates would mean being within Yulan City and having to abide by its rules.

"Don't worry."

Elder Tian He spoke indifferently, "If they really have an Elder backing them, such beings would disdain fleeing into the city. They would definitely have a showdown with me."

All Elders have a certain pride embedded deep within their bones.

Retreat without a fight? Too shameful!

"Yes." The figure in golden armor complied.

"I will stay by the East City Gate. If they are confident, they should return through the same gate they left from." Elder Tian He immediately took up residence in a cave mansion near the East City Gate, patiently waiting.

"Which Elder dares to disrespect me? I'm really looking forward to this!" Elder Tian He was quite excited. Killing a junior was trivial, but having a fierce battle, utterly tearing another Elder apart - that's what would be satisfying!

******

Luo Feng, however, had temporarily put the matter out of his mind; he needed to have a proper hunt. After all, he was quite poor at the moment and needed to hunt enough game to exchange for resources required for cultivation.

"Right in the depths of the lake."

Luo Feng was currently within the black Flying Boat, using the Biomimetic Eye of Destruction on his brow to peer at a distant lake; he had already spotted a low-level Primordial Life form merged with the lake, its methods of hiding expertly executed. Unfortunately for it, it couldn't escape from his sight.

"Whoosh."

A blood-colored shadow burst forth from Luo Feng's body, instantly merging with heaven and earth.

Afterwards, a vast blood-colored shadow enveloped the entire lake; the mere presence of the shadow, like a wide net, completely trapped the low-level Primordial Life form.

"What's going on?" An eight-armed creature, its skin dark and burning with faint, cold flames, squirmed viciously. With its triangular head

ferociously contorted, it struggled mightily to break free from the blood-colored shadow ensnaring it.

However, as the blood-shadow penetrated, in just a moment, it was silent.

The corpse remained intact, but the Life Core inside had begun to fracture.

"Eight-Armed Nether Luo, they're just the weakest tier in their race, with the strength of an Early-Stage Divine Emperor," Luo Feng shook his head slightly.

Such low-level prey was too weak for Luo Feng; he didn't even bother using any secret treasure, relying solely on his 'Undying Blood Sea Body'. With just a slight spread of the Blood Sea, enveloping that vast area was enough to trap and eliminate the enemy.

This Undying Blood Sea Body was, after all, developed with reference to the 'Star Tower Blood-colored Scale', fashioned from of Luo Feng's own realm of understanding as his mightiest Secret Technique, taking the most time to develop.

This body alone was comparable to a 'Low-Level Primordial Life at the Late Stage of Divine Emperor'. Coupled with Luo Feng's realm and some treasures, its power was naturally formidable.

"We've been hunting for five days now and have only hunted three 'Early-Stage Divine Emperor' low-level Primordial Life forms," Luo Feng frowned, "Brother Emperor Qing, we need to find some stronger game."

The combined value of these three wasn't much, only close to 3 million Primordial Crystals.

"Brother Luo Feng, we've always hunted this way," Emperor Qing said. "The main prey has been low-level Primordial Life at the 'Early Stage of Divine Emperor'. Occasionally, we might encounter something more formidable."

"What I mean is, can we go deeper?" Luo Feng inquired, "According to the information I bought, our current hunting area is a Mid-stage

Divine Emperor's hunting ground."

Hunting grounds were demarcated by successive generations of cultivators in Yulan City, proven with their lives.

The stronger the cultivator, the deeper they can hunt.

"These are the Elders' hunting areas." Luo Feng gestured, and a map appeared before him, which recorded some ranges where Elders occasionally went hunting, "We can try venturing further into some areas first, just to see."

The Elders of Yulan City usually hunted alone.

Mainly because at their level, they seldom left the city, making it difficult to assemble a team. Also, with the existence of the Clone Technique, their rare excursions outside the city were solitary hunts.

Compared to the terror of the Dark Sacred Realm, the danger level of the Nine Rivers Sacred Realm was indeed much lower.

"The Elders' hunting areas?" Emperor Qing sounded nervous, "I haven't tried it before, I have no experience."

"Hunting experience is accumulated bit by bit," Luo Feng said with a slight smile.

"Alright! If you're not scared, Brother Luo Feng, why should I be?" Emperor Qing's heart flared with enthusiasm, eager for the rare experience of venturing into an Elder's hunting area.

Chapter 317 24 The Prey of a Late Stage Divine Emperor

Hu!

The black Flying Boat rapidly advanced, piercing through the dense clouds, moving further and further away from Yulan City.

"According to the map, we have tentatively entered the Elder Hunting Area," Emperor Qing became tense, he put all his effort into probing the vast Void around them, "In this area, my strength is too weak, I must rely on you, Brother Luo Feng."

"Don't worry."

Luo Feng's glabella opened the Biomimetic Eye of Destruction, and the 'Xuanqing Sky Annihilation Array Map' inside his body was also in operation, enveloping the surrounding vast expanse with an Array Formation Domain centered on the Flying Boat to prevent ambushes.

"You know the rules of hunting," Emperor Qing whispered, "I have only one thing to say, this being our first time in the Elder Hunting Area, we need to maintain the highest level of vigilance!"

The rules and experiences of hunting can be bought from intelligence dealers in Yulan City; of course, Luo Feng knew them.

But to turn other people's experiences into one's own requires repeated trials.

"Sasha Sasha～～～"

While Luo Feng and Emperor Qing were slowly maneuvering the black Flying Boat, a virtual creature resembling a centipede was slowly creeping along, having completely concealed itself, not even

Luo Feng's 'Biomimetic Eye of Destruction' detected the slightest sign of it.

It was called the 'Blood Demon Elysi'.

The Blood Demon Elysi clan, among the Low Level Primordial Life, is a rather large race with a great reputation, notorious for concealment and deadly poison! Cultivators were also extremely wary of it.

"Sasha Sasha～～～" This Blood Demon Elysi slowly meandered, eyeing the distant black Flying Boat, and it detected an Array Formation Domain around the Flying Boat.

"Two cultivators daring to delve deep here? But looking at the two of them, they don't appear to be Elders from Yulan City." The Blood Demon Elysi observed, as a Late Stage Divine Emperor level Blood Demon Elysi, it held a certain status within its clan and had some intelligence on the Elders of Yulan City.

The intelligence it had was quite outdated.

However, in normal circumstances, there are only slight changes in the long years for the Elders of Yulan City.

"Let's give it a try first." After observing for a moment, the Blood Demon Elysi decided not to wait any longer.

Delay could lead to unexpected changes.

With time passing, it's possible that other members of its species would discover these two cultivators and these two pieces of 'meat' might get eaten by its kin.

Cultivators hunt Low Level Primordial Life, but likewise, Low Level Primordial Life also yearn to hunt these cultivators! By killing enough cultivators, they can obtain various benefits such as bloodline evolution, strength enhancement, and full recovery of freedom.

"This is my prey!" The Blood Demon Elysi suddenly pounced—

At this moment, Luo Feng and Emperor Qing, piloting the black Flying Boat, maintained the highest level of vigilance, with Luo Feng

also keeping the 'Xuanqing Sky Annihilation Array Map' within his body operational, safeguarding the Array Formation Domain.

But indeed, they had not detected the Blood Demon Elysi.

"Rip—"

A terrifying fluctuation instantly pierced through the Xuanqing Sky Array Formation Domain, causing Luo Feng's face to drastically change.

"Not good!" It was only when the formidable enemy breached the Array Formation Domain that Luo Feng noticed a twisted creature covered with dense claws, resembling a centipede. The mere perception of it caused Luo Feng to experience a multitude of sensations such as nausea, dizziness, and the world turning upside down.

"It's the Blood Demon Elysi!"

Luo Feng instantly recognized the identity of the attacker, and his Blood Sea Undying Body fully erupted in response.

Boom Boom Boom~~~~

The vast Endless Blood Sea surged outwards in all directions, also hitting the attacking Blood Demon Elysi. The Endless Blood Sea, with the 'Xuanqing Sky Annihilation Array Map' as its core, operated with terrifying might, forcibly blocking the Blood Demon Elysi's pounce.

"I will collect you first!" Luo Feng unleashed the Blood Sea Undying Body also to protect Emperor Qing.

At this moment, Emperor Qing was already on the verge of collapse.

Simply by seeing the Blood Demon Elysi, one could be poisoned.

If touched, the severity would be a hundred or even a thousandfold worse.

"Hu." While telepathically conveying his message, Luo Feng also collected Emperor Qing directly.
